Mr. DOLE. If the distinguished minority leader will yield, I think the only problem is in delaying. There is an amendment, of course, which may be adopted. And it would take a day or two, I assume, to get in and out of conference. We would be looking at the end of next week.

This next week, as the distinguished minority leader knows, is a short week because of the Interparliamentary Conference in San Francisco where about a dozen Senators will be participating. That starts on Friday morning.

It is also our hope, at least, to finish reconciliation next week. If we can somehow figure out how to do both of those, that would help in resolving the problem. I know Senator HATFIELD, the chairman of the Appropriations Committee, is eager to get into the appropriations bills, but I do not see how we can do many of those next week unless there is some kind of double-tracking.

Mr. BYRD. What I have said, of course, is partly based on the fact that after 3 o'clock today, several Senators on both sides of the aisle will not be here. The distinguished majority leader has been very understanding and gracious to all those Senators on both sides of the aisle in assuring that there will be no rollcall votes after 3 o'clock today. So for votes on amendments to the debt limit, this only leaves up to 3 o'clock today and Friday and Monday, unless we go beyond Monday.

Anyhow, the distinguished majority leader and I will be talking more during the day.

I ask the Chair if I have any time remaining.

The PRESIDING OFFICER. The minority leader has 5 minutes remaining.

Mr. BYRD. I thank the distinguished Presiding Officer.

Mr. President, I ask unanimous consent that I may reserve the remainder of my time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. I yield the floor.

RECOGNITION OF SENATOR CHAFEE

The PRESIDING OFFICER. Under the previous order, the Senator from Rhode Island [Mr. CHAFEE] is recognized for not to exceed 15 minutes.

JOE CONNORS, U.S. SENATE PAGE

Mr. CHAFEE. Mr. President, during the month of July this year, the U.S. Senate had an opportunity to learn first hand something I have always believed—that disabled individuals have something to offer all of us.

Joe Connors, a 16-year-old young man, became the first Senate page with Downs syndrome. To Joe, it was not a major event. He came, tried his best to do a good job, had a good time in Washington and then went back home—just like every other page. To the rest of us, his tenure in the job was a special event because he was not just like every other page.

Because of the nature of Congress, Joe Connors was probably one of the most visible demonstrations that we have been able to give of the abilities of individuals with disabilities. Most people would have thought someone like Joe would be unable to be a U.S. Senate page. However, through appearing on the Today Show with Bryant Gumbel, on various news programs, and in the print media, Joe showed us all that we ought to open our eyes to the capabilities of those considered to have disabilities.

After Joe's appearance on the Today Show I received many letters from all over the country about Joe. I ask unanimous consent to have the most touching of those letters inserted in the RECORD at this point.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

PROVIDENCE, RI,
July 24, 1985.

Senator JOHN CHAFEE,
Senate Office Building,
Washington, DC.

DEAR SENATOR CHAFEE: I was very much impressed with your appearance on the Today Show this morning. Your sensitivity to the needs and abilities of a person, Joseph Connors, afflicted with Down's Syndrome and your willingness to bring the facts before a national TV audience very much pleased me. Not to mention the fact that Joseph himself was also willing to appear—apparently with the approval of his family.

You see, many years ago—in 1927, to be exact—a sister was born into my family, also afflicted with what was then simply known as Mongoloid Idiocy. Although she only lived to May, 1929, and therefore we never could come to understand that she probably had much more potential than we could realize it was understood within the family that she would not be institutionalized, but rather that she would be brought up within the family setting. yet institutionalization was the more normal way of handling such cases simply because science and medicine had really no idea of the causes, the treatment, the potential of such a condition. It was simply viewed as a tragedy—even within my own family where both my father and mother were doctors.

Again, many thanks to you and to Joseph. The nation really learned something! Joseph by serving as your page spoke volumes for you and is certainly a credit to himslf.

Faithfully yours,

REV. EDWIN K. PACKARD.

PAWTUCKET, RI,
July 25, 1985.

Hon. JOHN H. CHAFEE,
U.S. Senate,
Washington, DC.

DEAR SENATOR CHAFEE: It was with interest that I recently viewed the story on television about your recent hiring as a Senate Page the young boy with Down's Syndrome. Words can't express how deeply moving it was to learn about this young man who, despite his disability, is determined to prove to the general public that if given the chance the disabled have a valuable contribution to make.

I am very proud to have you as our Senator and I support you in your efforts to bring to the forefront this important issue. Please continue your efforts to assist those

in society who suffer from disabling afflictions. While it is true that we do need social programs to support those incapable of engaging in meaningful and gainful employment, it occurs all to frequently that this problem is swept under the rug simply by throwing federal dollars out the window to support these individuals without giving them a chance to prove the valuable contribution they have to make. To be sure, many of these unfortunate people would rather find jobs if only people would give them a chance.

Please keep up the good work.

Yours truly,

RAYMOND A. PACIA.

MOUNT LEBANON, PA,
July 24, 1985.

DEAR SENATOR CHAFEE: As my husband and three children were eating breakfast with me this morning, we enjoyed Bryant Gumbel's interview with you and your page, Joseph. It was very special for us as we are the "parents" of three children with Down's Syndrome. I put that term in quotes as they are not our children legally, but we have been their houseparents in our community living program for nine years. As we have no natural children and two of them have no families. We have become a much closer family than most people would expect.

I thank you for your support of so many pieces of legislation which betters the lives of our exceptional citizens and helps them become more productive members of our society.

I hope that Joseph continues to enjoy and to learn from his experience at the Capitol. Also, I hope that others will learn from him that our exceptional citizens are caring, giving, and productive members of this country.

Please share with Joseph how wonderful a young man I find him to be and how sincerely caring a man you are. Thank you for what you have done for Joseph, my Jim, Michael, and Mario, and others like them.

Sincerely,

NANCY J. MURRAY.

PEORIA, IL, *July 26, 1985.*

DEAR SENATOR CHAFEE: I say you on television Thursday, July 25th with Joseph Connors. I was delighted that finally someone realized that a Down's person can do almost anything if given the challenge.

I wish you luck and success. This is a positive step that I hope will educate the public about Down's Syndrome.

My granddaughter, Katie, aged 2½ has Down's and she is a real darling. She, too, has a lot of ability and I want to help her reach her full potential.

With people like yourself in high places willing to teach and set an example I feel much encouraged as you have taken a positive step and I hope others will follows.

Gratefully yours,

ELEANOR MCGRATH.

P.S.—Please convey my congratulations to Joseph for me, also my best wishes!

Thank you,

E. MCG.

LAMAR, PA.

DEAR SENATOR CHAFEE: I saw you and Joe O'Conner on the Today Show. I think that you are doing something fantastic. I have two adopted Downs babies. I am associated with other parents of Downs children also (adopted and home made). I hope this shows the President and the other law makers and the people who decide where moneys go that these people are a plus to society not a burden. They deserve all they can get to bring them to their full potential. Thank you for giving them a chance.

Yours truly,

CHARLAINE SHANK.

FLAGSTAFF, AZ, *July 24, 1985.*

Mr. JOSEPH CONNORS,
c/o Senator John Chafee

DEAR JOSEPH: We saw you on TV this morning, and congratulate you for your work at the Capitol. I used to spend a few weeks each summer in Washington when I was your age, and I know how exciting it is there.

I hope my own boy can have the same kinds of opportunities when he grows older. Your boss, Senator Chafee, is a great man for fighting for these opportunities. And your fine work—though it's too bad people need special proof—will likely help many other people to have the chances in life that they deserve.

Enjoy your trip back to Rhode Island!

Sincerely yours,

FRANK ROACH.

WALTHAM, MA, *July 24, 1985.*

DEAR SENATOR CHAFEE: I am sure this will be one of many letters you will receive regarding your appearance on the "Today" show with Joe, Mr. Joseph Connors.

I am writing through my tears, my heart is so full—what a wonderful thing for you to do—what an opportunity, a life experience for Joe—to be integrated into the real world.

As the mother of a retarded son, Mark, I have always been so frustrated with the lack of opportunity and challenge; acceptance in general, for people like him. He has so many untapped resources. Mark is twenty-six, and so what is, will be, but for the younger generation perhaps, a newer world. With people like you in the Senate, showing the way, with new ideas, greater understanding, and tolerance, God will bless us all.

My best wishes to you.

MARGARET CINCOTTA.
(Mrs. Anthony)

P.S.—I am enclosing a note for Joe.

DEAR SENATOR CHAFEE: I was so pleased to see you on TV with the young man who is working in Washington as a page.

So little is really understood by most people concerning "Downs Syndrome." I think you do a great service by showing that, given training, etc., most persons suffering from this disorder can live happy and productive lives.

Having a little great-granddaughter who is a "Downs Child" I am aware, for the first time, how much can be done for these children through the wonderful programs that exist.

I thank you for taking the time to show how much one courageous young man has been able to accomplish despite his handicap.

Sincerely,

MARY E. MCSWEENEY.

Mr. CHAFEE. Unfortunately, because of space limitations I cannot insert all of the letters I received. However, I would like to thank everyone who took the time to share their very touching thoughts and experiences with me.

I also ask unanimous consent to insert at this point in the RECORD some of the articles that appeared in the Providence Journal about Joe.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

16-YEAR-OLD FROM EAST PROVIDENCE MAKES HIS MARK ON U.S. SENATE

WASHINGTON.—He took in the July Fourth fireworks-and-Beach Boys blast on the National Mall. He has chatted about space with Jake Garn of Utah, the Senate's only space shuttle veteran. And he has a standing invitation to go swimming in Sen. Edward M. Kennedy's pool.

For a 16-year-old away from home for the first time, this is the kind of heady stuff that goes with the title tagged on his blue uniform blazer: "U.S. Senate Page Joe Connors."

* * * * *

The emblem is Connors' gold medal (first place, butterfly stoke) from the Special Olympics last month at the University of Rhode Island. He was born with Down's Syndrome, a genetic condition associated with retardation and—until recent years—with virtual exclusion from the mainstream of society.

Connors is the first such disabled person to work as a Senate page. But the distinction, in a way, is less extraordinary than it sounds, according to Sen. John H. Chafee.

Chafee said he gave Connors a three-week appointment as a page because "I just felt in Joe's case that it would illustrate to the world the capabilities of people with certain disabilities."

His case and his plucky capabilities are getting plenty of illustration. He has sat for several interviews and camera sessions (one of which will air this morning on NBC's "Today" show), displaying a flair for the limelight and a proper irreverence toward politics.

Questioned yesterday as to his early favorite in the 1988 presidential sweepstakes, Connors shot back, "Me."

* * * * *

That stands to reason. Rock and radio (his tastes run to heavy metal and Madonna) are part of the daily routine that Connors ticked off yesterday:

"Wake up call. Turn on the radio. Get myself ready—shower and shave—get my wallet and keys. Then I turn off the radio and air-conditioner and call Chafee's office."

Then, depending on the orders of the day, it's out of the pages' dormitory on Capitol Hill and over to Chafee's office or the Senate chamber, where pages are expected to know 100 new faces and master unteenagerly habits of deference and promptness as they make their rounds.

Connors, by all accounts, has taken it in stride. His mother, Barbara, reported to Chafee during a visit this week that her son, the youngest of six children, has adapted remarkably well to the independence and responsibility that are heaped on the youthful couriers of the Senate.

"It's been a challenge," said Christine Ferguson, the Chafee aide who supervises Connors. Joe, for example, has never before had to deal with little things like remembering housekeys and finding subways.

But he's not shy about figuring the shortcuts and getting things pat. If he's lost in the maze of tunnels under the Capitol he said, "I just find a guard, or call Chafee's office."

"He's gotten confidence in knowing his way around," said Chafee. The senator is pushing legislation to promote group homes and other "community living" arrangements for the great numbers of disabled Americans who can blossom "to their highest potential," as he put it, outside of state institutions.

"There are plenty of others like Joe that don't get a whole lot of press," said Ferguson, "but they're out there making it."

Speaking for himself, Connors is unimpressed by any sort of inspirational talk. When he was asked late in the afternoon to state his ambitions for the future, he said, "Go to dinner and go home." He said that with a grin.

SENATE PAGE WHO SETS AN UNUSUAL EXAMPLE

Together a United States senator and a 16-year-old boy from East Providence have made an eloquent statement.

Sen. John H. Chafee appointed Joseph Connors a senatorial page for three weeks this summer. "I just felt in Joe's case," the senator said, "that it would illustrate to the world the capabilities of people with certain disabilities."

Joseph was born with Down's Syndrome or mongolism, a genetic defect manifested in mental retardation and physical disabilities. Last month he won a gold medal in the Special Olympics at the University of Rhode Island.

When he joined Senator Chafee's staff he gained a new distinction. He became the first person with such disabilities to be appointed a Senate page. He is doing things he's never done before and bearing responsibilities of which some might think him incapable. But he's making it and by his example is telling all of us that handicapped people have potential to live normal lives in the community and make a significant contribution.

When Joe and the senator appeared on NBC's "Today" show Wednesday morning, that message got network coverage. Stories in the print media have spread Joe's story far and wide, bolstering the hope that some day the stigma some still attach to being handicapped will be eliminated. When that day comes, Senator Chafee and Joe Connors will be ushered to the front ranks of those who broke down the barriers and helped to promote understanding and compassion for people who struggle daily to overcome mental or physical handicaps.

Mr. CHAFEE. Mr. President, one of the people most overlooked in this event was Joe's mother, Barbara Connors. Soon after Joe's birth, Barbara Connors lost her husband. She has six children. Joe is the youngest. She raised her children on her own. Being a parent is not easy in the best of circumstances, but when you have a child with special needs, it takes even more energy, patience, and love. Barbara Connors believes in Joe's abilities and potential. That belief has been the most essential part of Joe's development.

Some people would say that Joe is an exceptional case, that other people with his disability could not do the same. I would suggest, however, that if Joe is extraordinary, it was because his family never gave up on him. Because he had the advantage of living at home, not in an institution. Because he had the advantage of being born late enough that he had the chance to attend school with nonhandicapped children. Because he had the support, friendship, and encouragement from older brothers and sisters at home.

Joe is an example of how lives can be changed with the simple passage of important legislation—in his case the passage of the Education for all Handicapped Children Act of 1973. The next step is to ensure that Medicaid funds are available and widely used in noninstitutional settings—a situation that does not exist today.

I hope that all of my colleagues in Congress will remember Joe and his experiences here as we consider legislation that affects disabled individuals. There are people like Joe all over this country, in all of our communities. They deserve a chance that we are not giving them today—a chance to grow, to flourish and to become part of society. Each of us should have the opportunity to work and live our lives with dignity. We should be challenged and given the chance to feel good about our achievements. Joe and the hundreds of thousands of individuals like him in our country today have a contribution to make to society. I hope that everyone who has been touched by Joe—through meeting him or seeing him on television—will think seriously about giving them that chance, which is through legislation that we have sponsored here to provide that Medicaid funds can be used for those who are living in the community rather than solely in institutions.

RECOGNITION OF SENATOR COHEN

The PRESIDING OFFICER. Under the previous order, the Senator from Maine [Mr. COHEN] is recognized for not to exceed 15 minutes.

EXECUTIVE DEPARTMENT COMPLIANCE WITH LAW

Mr. COHEN. Mr. President, soon the Senate will consider the nomination of James C. Miller to be the new Director of the Office of Management and Budget. I participated in the Governmental Affairs Committee's hearing last week on this important nomination and found Mr. Miller to be a man of integrity and good character. His answers to tough questions were forthright and candid.

Based on that hearing and what I know of Mr. Miller's background, I believe that he is an excellent choice to head the OMB. His outstanding academic credentials, as well as his distinguished service in previous Government posts, make him eminently qualified to lead what is arguably the most powerful agency in the Federal Government.

I intend to support his nomination.

I am, however, deeply troubled by his response to a question that I asked at his nomination hearing that goes right to the heart of our constitutional system of Government. I asked Mr. Miller whether or not he believes that the executive branch has an obligation to follow a law that is duly enacted by Congress and signed by the President, provided that no court has ruled it unconstitutional.

This was not a hypothetical question. Last year, Mr. Miller's predecessor at the OMB, acting at the behest of the Attorney General, issued a directive ordering Federal agencies to ignore certain provisions of the Competition in Contracting Act that the Justice Department believed to be unconstitutional.

Mr. Miller's response, in essence, was that he would defer to the Department of Justice should such an issue arise. Since it was the Department of Justice which ordered his predecessor to direct all agencies to ignore the law, his response greatly concerns me. I ask unanimous consent that my exchange with Mr. Miller during the September 24 Governmental Affairs Committee hearing be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EXCERPT FROM THE GOVERNMENTAL AFFAIRS COMMITTEE TRANSCRIPT OF THE HEARING ON THE NOMINATION OF JAMES MILLER SEPTEMBER 24, 1985

Senator COHEN. Last year, the Congress passed into law the Competition in Contracting Act. The President signed it.

At the time, the President expressed some reservations about certin provisions of the bill, but the President, nonetheless, did sign the bill, which was designed to get at some of the problems that Chairman Roth has talked about in terms of contractor competition, reducing fraud, waste, abuse, et cetera.

Shortly after it was signed into law, the former Director of the OMB issued a directive, a memorandum, ordering all federal officials to ignore certain provisions of the law because the Justice Department thought they were unconstitutional, even though no court had ruled those provisions unconstitutional.

Senator Gramm has indicated, and I accept this, knowing your reputation, that you have been successful in carrying out the letter of the law. The question I have is, would you make a recommendation that any federal officials ignore certain provisions of a law that has been passed by Congress and signed by the President?

Mr. MILLER. That's a very complicated question on a complicated issue, Senator. We are—of course, part of the oath of office is to uphold the Constitution. If you believe, truly, that something was adverse to the Constitution, I don't see how, someone, a public official in good conscience, could carry out that provision.

Senator COHEN. No, no, the decision to sign the bill into law is the real test, isn't it? Once the President puts his stamp of approval, saying, "I don't like certain provisions and I might question them, but I am going to sign this bill into law," it seems to

me the issue is whether you or anybody within the Administration can subsequently question the constitutionality of the law in the absence of a court ruling. It seems to me you have to uphold the letter of the law.

Mr. MILLER. Well, I would certainly defer, I think, to the legal scholars at the Department of Justice and those who would guide me in such a case. But I do recognize that the Constitution is the supreme law of the land and is—and all others are subservient to it.

Senator COHEN. A court subsequently ruled that the law, in fact, was constitutional and said that the Executive Branch's decision to deliberately disobey the law flatly violates the express instruction of the Constitution that the President "take care that the laws be faithfully executed." I think that we have to arrive at some sort of an understanding as to whether or not you believe that once the President signs a bill into law, in the absence of a court decision is it your belief that the Administration has an obligation to carry out the law?

Mr. MILLER. Well, I would say, given the language you have just read, that would be an admonition to do as you suggest, and as I indicated, I would defer, think, to the legal scholars on what was required.

Senator COHEN. So you would recommend that we carry out the law in the absence of an opinion of legal scholars. Who would they be, the Justice Department?

Mr. MILLER. Justice Department, primarily, the Office of Legal Counsel. They do that.

Senator COHEN. And if the Justice Department recommended that a certain provision was unconstitutional, you would then feel obligated to issue such a memo?

Mr. MILLER. If the Office of Legal Counsel concluded that I would be violating the Constitution itself by doing, making, engaging in a certain act, I would not engage in that certain act. I would have sworn to uphold the Constitutional laws.

Senator COHEN. Do you think that the Justice Department and the Office of Legal Counsel have an obligation to make that determination before the President signs the bill into law? Isn't that the way it should be done?

Mr. MILLER. It ususally is done that way, Senator,

This is a hypothetical. I would have to see the facts. I would have to see the facts.

Senator COHEN. It is not hypothetical. We have an exact case involving the Competition in Contracting Act. What I am trying to get at is what is the orderly processing of the rule of the law so we don't have a President signing something into law and then later, having a postscript added by the Justice Department saying, "By the way, we don't like section 201," or whatever the section might be, "and don't enforce it." It seems to me that erodes respect for the law.

Mr. MILLER. I would just have to know the facts, and I am not trained as a lawyer, Senator COHEN. I would have to defer, I think, judgment to officials that would counsel me on that matter.

Mr. COHEN. Mr. President, it perhaps would be helpful to my colleagues if I provided some background on the Competition in Contracting Act. This law was enacted, after nearly 5 years of careful deliberation, to strengthen and reform the laws governing Federal contracting. In the Senate, the Competition Act was reported unanimously by both the Governmental Affairs and Armed Service Committees, passed unanimously by the full Senate, and eventually was incorporated into the deficit reduction package, which the President signed in July 1984.

Upon signing the bill, however, the President objected to certain provisions of the Competition Act that he believed to be unconstitutional. On October 17, the Justice Department's Office of Legal Counsel subsequently issued an opinion recommending that executive agencies should take no action to implement the provisions in question.

Briefly, these provisions codify and strengthen the Comptroller General's role in resolving bid protests. The provisions in dispute include the triggering of contract award and performance stays when protests are filed, and the authorization to award costs to successful protestors. The Justice Department contested the constitutionality of these provisions on the grounds that they purportedly authorize the Comptroller General to exercise executive authority in violation of the principle of separation of powers.

The Justice Department, however, stands alone in its judgment. The General Accounting Office, the American Law Division of the Congressional Research Service, the Senate and House legal counsels, the American Bar Association, and a number of constitutional scholars all agree that the provisions of the Competition in Contracting Act pass constitutional scrutiny. I ask unanimous consent that their opinions be printed in the RECORD.

There being no objection, the materials were ordered to be printed in the RECORD, as follows:

U.S. SENATE,
OFFICE OF SENATE LEGAL COUNSEL,
Washington, DC.

MEMORANDUM

To: Link Hoewing, Ira Shapiro.
From: Morgan J. Frankel.
Date: August 1, 1984.
Re Constitutionality of Procurement Statute.

INTRODUCTION

You have requested our views concerning the opinion of the Department of Justice that provisions of Title VII of the Deficit Reduction Act of 1984 ("the Act") establishing a statutory basis for the bid protest system administered by the Comptroller General are unconstitutional. The Department raised two principal separation-of-powers objections to the enactment of an earlier version of the Act, H.R. 5184. First, it asserted that the bill's vesting of judicial or executive powers in the Comptroller General violates the Appointments Clause of the Constitution and *Buckley v. Valeo*, 424 U.S. 1 (1976). Second, it contended that the bill violates the prohibition of *Immigration and Naturalization Service v. Chadha*, 103 S.Ct. 2764 (1983), against legislative action by the legislative branch without action by both Houses and presentation to the President. We disagree with the Department's conclusions and believe that Title VII is consistent with the doctrine of separation of powers as illuminated by the Supreme Court.

THE STATUTORY SCHEME

The Department's objections are directed at two provisions of the Act.[1] First, section 2741(a) establishes a statutory procedure for interested parties to file protests with the Comptroller General alleging violations of government procurement requirements. Under the statutory scheme, the initiation of a bid protest with the Comptroller General automatically stays the authority of the procuring agency to award a contract. The purpose of the stay is to enable the Comptroller General expeditiously to consider the protest and the agency's response, and to preclude the intervening award of a contract from altering the circumstances of his decision. To that end, the statute prohibits the award of a contract in a procurement subject to a pending protest, unless the procuring agency has advised the Comptroller General that "urgent and compelling circumstances which significantly affect interests of the United States will not permit waiting for the decision of the Comptroller General." (To be codified at 31 U.S.C. § 3553(c).) The Act provides the Comptroller General with discretion to establish a period of forty-five days, ninety days, or a longer period if necessary, to complete his review of the protest or to dismiss a protest as frivolous at any time. (To be codified at 31 U.S.C. § 3554(a).)

If the Comptroller General determines that a protested procurement does not comply with a statute or regulation, he may recommend that the agency take actions, such as recompeting the contract or issuing a new solicitation, to promote compliance with its procurement obligations. (To be codified at 31 U.S.C. § 3554(b).) To complete this purely recommendatory scheme, procuring agencies must report to the Comptroller General if they have not fully implemented the Comptroller General's recommendations, and the Comptroller General must annually report to Congress on agencies' failures to implement his recommendations. (To be codified at 31 U.S.C. § 3554(e).)

Second, section 2441(a) of the Act authorizes the Comptroller General to award to a successful protesting party his costs, including attorney's fees, of pursuing the protest and of bidding on the procurement. (To be cofified at 31 U.S.C. § 3554(c).) The statute provides that such monetary awards "shall be paid promptly by the Federal agency concerned." (To be codified at 31 U.S.C. § 3554(e).)

THE DEPARTMENT OF JUSTICE'S OBJECTIONS

The Justice Department asserts that the statutory bid protest system violates *Chadha* because it "delegates to an entity such as GAO the power effectively to block Executive action outside the legislative process." Letter of Assistant Attorney General Robert A. McConnell to Representative Jack Brooks, Apr. 20, 1984, at 3. The De-

[1] While the legislation was pending in the Congress, the Department also objected to a provision of H.R. 5184 that would have authorized courts to refer bid disputes to the Comptroller General. This provision is not contained in the Act. Instead the conference report states, "The Comptroller General currently receives from courts and agencies requests concerning the propriety of procurements. The conferees intend that the Comptroller General have the discretion to continue to process these requests in a manner consistent with the one used for bid protests." 130 Cong. Rec. H6760 (daily ed. June 22, 1984).

partment analogizes the role of the Comptroller General in the protest process to that of a congressional committee in a "committee approval" provision, "the only difference being that the GAO would play the pivotal role." *Id.* This argument is grounded upon the Department's view that the Comptroller General is a legislative entity: "The GAO is an instrumentality 'independent of the executive branch,' 31 U.S.C. § 702(a), and the Comptroller General is properly considered to be an officer of the Legislative Branch." *Id.* at 1.

THE STATUS OF THE COMPTROLLER GENERAL AS AN OFFICER OF THE UNITED STATES

The Department's separation of powers objections to the statute's vesting of authority in the Comptroller General fail because the Department miscomprehends the status of the Comptroller General. Although for some purposes he may be considered a legislative official, [t]he Comptroller General has also a second status as the chief accounting officer of the Government. . . . *This is an executive function and in performing it the Comptroller General acts as a member of the Executive Branch of the Government.* The dual status of the General Accounting Office is not anomalous, for many regulatory commissions fulfill in part a legislative function and in part carry out executive duties, . . . *United States v. Stewart*, 264 F.Supp. 89, 99 (D.D.C.), *Aff'd*, 339 F.2d 753 (D.C. Cir. 1964) (emphasis supplied). The fact that the General Accounting Office is statutorily "independent of the executive departments," 31 U.S.C. § 702(a), no more renders it a legislative entity than the independence of the Federal Trade Commission renders it a congressional body. The Supreme Court has long recognized the legitimacy of agencies, like the Federal Trade Commission, that perform a combination of quasi-judicial, quasi-legislative, or quasi-executive functions and that, though composed of presidential appointees, operate free from executive control. *See Humphrey's Executor v. United States*, 295 U.S. 602, 628 (1935) (the Federal Trade Commission is "a body which shall be independent of executive authority, *except in its selection*").

Rather than focusing on the hybrid functions of such an entity, for separation of powers purposes the Supreme Court looks to its mode of selection. In *Buckley v. Valeo*, 424 U.S. 1, 133 (1975) (per curiam) (quoting *Humphrey's Executor*), the Court held that the Appointments Clause of the Constitution[2] "controls the appointment of the members of typical administrative agency even though its functions . . . may be 'predominantly quasi-judicial and quasi-legislative' rather than executive." Congress had given the Federal Election Commission, whose membership then included individuals appointed by Members of Congress, "extensive rulemaking and adjudicative powers," *Id.* at 110. The Court concluded that the composition and duties of the Commission violated the Appointent Clause: "[A]ny appointee exercising significant authority pursuant to the laws of the United States is an 'Officer of the United States,' and must, therefore, he appointed in the manner prescribed by § 2, cl. 2 of" article two of the Constitution. *Id.* at 126.

The Comptroller General is "appointed by the President, by and with the advice and consent of the Senate." 31 U.S.C. § 703(a)(1).[3] Accordingly, under *Buckley* he properly exercises authority as an officer of the United States.[4] Because of the Comptroller General's status as an officer of the United States, the Department's invocation of *Chadha* is inapposite. Consistent with the Court's decisions in *Buckley* and *Chadha*, the Congress has a choice: it may create purely legislative entities and appoint purely legislative officials to administer them, in which case any authority the officials exercise outside the legislative branch must meet the constitutional requirements of bicameralism and presentation to the President. Alternatively, the Congress may establish governmental entities to exercise delegated authority, in which case the officials in those entities may be appointed only by the President, the courts, or the heads of departments. Here, the Congress has properly chosen to delegate authority to an officer appointed by the President.[5]

This understanding of the role of the Comptroller General as an officer of the United States coheres with the functions previously assigned to the Comptroller General by statute. The Comptroller General has sweeping statutory authority to audit accounts and expenditures of agencies of the United States Government. 31 U.S.C. §§ 3522-3525. The Comptroller General also has statutory authority to settle all accounts of Government, to settle claims of or against the Government, and to supervise the recovery of debts due the Government. 31 U.S.C. §§ 3526-31, 3702. Moreover, decisions of the Comptroller General are binding upon agencies of the Executive Branch. *See United States ex rel. Skinner & Eddy Corp. v. McCarl*, 275 U.S. 1, 4 n.2 (1927).

The suggestion by the Executive Branch that the delegation of authority to the Comptroller General in the Deficit Reduction Act contravenes the separation of powers brings into question the broad responsibilities that the Congress has delegated to the Comptroller General over time. The Justice Department here maintains that the statutory role of the Comptroller General in the bid protest system constitutes an unconstitutional authority "to block Executive action outside the legislative process." McConnell Letter, *supra*, at 3. Further, the Department objects specifically to the Comptroller General's authority to award legal costs against procuring agencies: Whether this authority is analyzed as GAO's performing a judicial function which is binding on an executive agency, or as GAO's rendering an administrative decision for the Executive Branch, it is clearly unconstitutional. The doctrine of separation of powers does not . . . permit the Legislative Branch to execute the law by determining how contracts should be awarded or to adjudicate claims against the Executive Branch. *Id.* (citation omitted). There is no language in *Buckley* or *Chadha* to support such an attack on the important role of the Comptroller General in assuring the sound and lawful administration of the Government's finances.

CONCLUSION

In sum, nothing in the Supreme Court's decisions in *Buckley* or *Chadha* nor in the doctrine of separation of powers appears to forbid the Comptroller General's role in the bid protest system contained in Title VII of the Deficit Reduction Act of 1984, because the Comptroller General is an office of the United States, appointed by the President and confirmed by the Senate. The fact that the Comptroller General also performs numerous distinct functions at the direction of Congress, in aid of the legislative function, does nothing to alter this conclusion.

OFFICE OF THE CLERK,
HOUSE OF REPRESENTATIVES,
Washington, DC, October 2, 1984.

MEMORANDUM

To: The Honorable Jack Brooks, Chairman, Committee on Government Operations.

From: Steven R. Ross, General Counsel to the Clerk; Charles Tiefer, Assistant General Counsel to the Clerk.

Subject: Constitutionality of the Competition in Contracting Act.

We have been asked to address the constitutionality of the Competition in Contracting Act of 1984 ("the Act") (enacted as Title VII of the Deficit Reduction Act of 1984), and in particular the new 35 U.S.C. §§ 3551-3556 (enacted by section 2741 of the Act). On April 20, 1984, the Department of Justice presented its views on the predecessor bill of the Committee on Government Operations, H.R. 5184.[1] The Department's analy-

[2] *[The President] shall nominate, and by and with the Advice and Consent of the Senate, shall appoint* Ambassadors, other public Mininsters and Consuls, Judges of the Supreme Court, and *all other Offices of the United States*, whose Appointments are not herein otherwise provided for, and which shall be established by Law: but the Congress may by Law vest the Appointment of such inferior Officers, as they think proper, in the President alone, in the Courts of Law, or in the Heads of Departments. Art. II, Sec. 2, Cl. 2 (emphasis supplied).

[3] The Comptroller General's status as an officer of the United States is not affected by the existence of statutory restrictions on his removal. 31 U.S.C. § 703(e)(1). Although these limitations have never been tested, *see, e.g., Myers v. United States*, 272 U.S. 52 (1926); *Humphrey's Executor, supra* under the Constitution it is solely the mode of appointment that determines whether an official is "an officer of the United States."

[4] In fact, the Supreme Court explicitly recognized the propriety of the Comptroller General's status in *Buckley*. In that case the Federal Election Commission had attempted to analogize its role to that of the Comptroller General. The Court pointed out the weakness of the analogy: "[I]rrespective of Congress' designation . . . [of the Comptroller General as a legislative officer], the Comptroller General is appointed by the President in conformity with the Appointments Clause." *Buckley, supra*, 424 U.S. at 128 n.165.

Moreover, the Justice Department has previously acknowledged the Comptroller General's status as an officer of the United States. The plaintiff in *The Boeing Co. v. United States*, 680 F.2d 132 (Ct.Cl. 1982), *cert. denied*, 103 S.Ct. 1768 (1983), raised, among many issues, a challenge to the constitutionality under *Buckley* of the appointment of members to a former governmental entity known as the Cost Accounting Standards Board, which was comprised of the Comptroller General and four individuals appointed by him. Construing the Board's functions as advisory, the Department viewed it as a legislative entity. However, the Department agreed with the plaintiff that, irrespective of the characterization, although the appointment of the four other members of the Board might be troublesome under *Buckley*, the participation on the Board of the Comptroller General, an officer of the United States appointed by the President, raised no constitutional problems. *See* Letter of Deputy Assistant Attorney General Stuart E. Schiffer to Senate Legal Counsel Michael Davidson, Nov. 25, 1980, at 4 ("Comptroller General passes muster" under Appointments Clause). The court did not reach the constitutional issue.

[5] The fact that the Comptroller General also performs statutory reporting and investigatory duties in aid of Congress, *See. e.g.*, 31 U.S.C. §§ 712, 717-719, does not alter his status as an officer of the United States. The Supreme Court recognized in *Humphrey's Executor* that the Federal Trade Commission performs both types of statutory duties. 295 U.S. at 628.

[1] Letter to the Honorable Jack Brooks, Chairman, Committee on Government Operations, from Robert A. McConnell, Assistant Attorney General

sis focused on a key provision, section 204(b)(2), which provides for a stay of an agency's award of a contract upon notification of the agency that bid illegalities are being protested. As its conclusion, the Department stated that this provision is unconstitutional as violating the separation of powers. We disagree.

STATUTORY MECHANISM

A review of the statutory mechanism is appropriate, particularly since the Justice Department's analysis centers on its assertion that the statute is a means for the Comptroller General to put a permanent hold on contracting. The Competition in Contract Act of 1984 seeks to deal with endemic agency failures of competitive procurement by insuring proper proceedings for charges of illegalities. It works through an automatic stay and a recommendation by the Comptroller General.[2] Under the Act, an "interested party," meaning an "actual or prospective bidder or offeror," [3] can file a protest concerning alleged violations of procurement statutes or regulations. The agency immediately receives notice of the protest, section 3553(b)(1), and the agency's receipt of notice automatically stays the award of any contract,[4] absent "urgent and compelling circumstances." [5]

While that automatic stay is in effect, the agency and the Comptroller General proceed with the bid protest. Within twenty-five days after notification of the protest (subject to shortening or lengthening for various reasons),[6] the agency submits "a complete report (including all relevant documents) on the protested procurement." Section 3553(b)(2).[7] Then, the Comptroller General decides the protest, by "determin[ing] whether the solicitation, proposed award, or award complies with statute and regulation." Sections 3552, 3553(a), and 3554(b)(1). He must "issue a final decision concerning a protest within 90 working days." Section 3554(a)(1).[8]

If "the Comptroller General determines that the solicitation, proposed award, or award does not comply with a statute or regulation, the Comptroller General shall recommend that the Federal agency" take one of several steps, such as terminating the contract, issuing a new solicitation, or recompeting the contract. Section 3554(b)(1).[9] Also, the Comptroller General has discretion to declare the protester to be entitled to its costs for filing and pursuing the protest and for bid and proposal preparation, to be paid by the agency. Section 3554(c).

In its challenge to this provision, the Justice Department characterizes the provision as providing the GAO with "the power effectively to block Executive Action. . . ." DOJ Letter at 3. The Justice Department letter states that the Act's stay provision "clearly contemplates the possibility that with respect to some contracts, the agency will simply be put on permanent 'hold' until after GAO has announced its 'recommendation.'" Id. One reason for the Justice Department's assertion is apparently that H.R. 5184, which it analyzed, did not set a 90-day time limit (absent particular circumstances) on Comptroller General consideration; the conference committee set that limit on the statute. In any event, the Department likens the Act's stay to a legislative veto or committee approval provision, citing *INS* v. *Chadha*, 103 S. Ct. 2764 (1983).[10]

ANALYSIS

The Justice Department's analysis strains the plain meaning of the statute in attempting to make it appear improper. Congress has tried to clear and simple mechanism for dealing with the endemic problems of wasteful agency procurement violations. The Act provides for an automatic, nondiscretionary stay of a contract award upon notification of a bid protest. Thus, the statute gives bid protesters, whose protests trigger the automatic stay—not the Comptroller General, who makes no decision regarding a stay—the power to invoke the statutory stay. In essence, based on years of investigations of improper procurement awards, Congress decided that it was better to let bid protesters stay allegedly illegal awards before they occurred so that the matter could be looked into immediately, than to leave it to agencies to give out awards and then, maybe, rectify illegalities later. Obviously, the judgment that such a mechanism should be implemented to get agency procurement onto the lawful track could be made rationally by the Committee on Government Operations, which has spent years studying the problems of the procurement system.

In any event, it is the bid protester who invokes the statute staying the award, and the legislative veto cases, involving decisions by one House of Congress to veto agency decisions, have nothing to do with the matter. Rather than acknowledging that bid protests cause the stay, the Justice Department contends that the statute is a means for the GAO to put agencies "on permanent 'hold.'" This Justice Department analysis predated the 90-day limit placed on the Comptroller General in the statute as enacted, rendering the Justice Department letter obsolete. With the 90-day limit in place, the real authority to stay contract awards temporarily conferred by the statute lies with the bid protester, not the Comptroller General.[11]

The real thrust of the Department's argument is its a historical challenge to the very notion of an independent audit and account-settlement officer addressing contract matters—a challenge plainly inconsistent with the Framers' own constitutional understanding. In its key argument, the Justice Department challenges the GAO's authority "to settle the accounts of the Government, 31 U.S.C. § 3702," contending that "there has been considerable discussion over the years questioning whether this settlement authority is properly lodged in a legislative body like GAO." DOJ Letter at 2 n.2. The Justice Department argument appears to be that "the Comptroller General is properly considered to be an officer of the Legislative Branch," DOJ Letter at 1, and thus cannot exercise the authority to settle accounts which gave rise to his contract role.

Of course, the Justice Department makes no reference whatsoever to the history of the comptroller function in the government, for that history squarely refutes the Departments views.[12] The First Congress—the Congress with unparallel understanding of the Constitution, based among other factors on its numbering as Members many of the Framers themselves [13]—specifically addressed the need for independent judgment in resolution of the government's accounts, much like any operation must have an independent auditor. By statute, the First Congress established the office of Comptroller of the Treasury, "the great grandparent of

---

for Legislative Affairs, of April 20, 1984 ("DOJ Letter").

[2] Legislative hearings concerning the act were held on March 27 and 29, 1984.

[3] Section 3551 provides definitions.

[4] "[A] contract may not be awarded in any procurement after the Federal agency has received notice of a protest . . . while the protest is pending." Section 3553(b)(2).

[5] An escape clause allows "(t)he head of the procuring activity . . . [to] authorize the award of the contract (notwithstanding a protest . . .) . . . upon a written finding that urgent and compelling circumstances which significantly affect interests of the United States will not permit waiting for the decision" on the protest. Section 3553(c)(2)(A).

If the contract has been awarded before notice of a protest, performance ceases, section 3553(d)(1), unless the head of the procuring activity makes a similar written finding about "urgent and compelling circumstances." Section 3553(d)(2).

[6] Section 3554(a)(2) provides an express procedure. Section 3554(a)(3) provides for the Comptroller General to dismiss protests which on their face do not state a valid basis.

[7] Interested parties receive that report and relevant unprivileged documents. Section 3553(1).

[8] The Comptroller General can take longer than 90 days if he "determines and states in writing the reasons that the specific circumstances of the protest require a longer period." Section 3554(a)(1).

[9] An agency which does not fully implement those recommendations within 60 days must so report to the Comptroller General, and he, in turn, reports annually on instances of nonimplementation. Section 3554(e).

[10] The Department also assails the provision allowing the Comptroller General to assess costs to a bid protester of an illegal action as unconstitutional under *Buckley* v. *Valeo*, 424 U.S. 1 (1976).

[11] Of course, a provision giving such effect to a private bid protest involves no separation of powers problem since the bid protester is not another Branch of the government. See, *e.g.*, *Currin* v. *Wallace*, 306 U.S. 1 (1939).

The conferees on the bill noted emphatically regarding deadline extensions, including extension of the 90-day limit, that they "regard such extensions as exceptional, however, and to be used in unique circumstances only." H.R. Rep. No. 861 98th Cong., 2d Sess. 1435-36 (1984). If the Justice Department continued to adhere to its view of the statute as a means to make a "permanent 'hold'", that could only be regarded as hyperbole. For occasions in which the Comptroller General takes a longer period than 90 days notwithstanding the conference report language, he must cite "specific circumstances," which would be of importance in any concrete challenge to the statute. To take a likely example, if the Comptroller General's decision takes longer than 90 days only because the agency accused of illegality interposes delays before providing information, or organizes its procurement mechanism to defy swift analysis, then the responsibility for delay may lie with the agency, not the GAO.

[12] The Department's vague assertion that "there has been considerable discussion over the years," with the implication that many believe the Comptroller General's authority to settle accounts to be unconstitutional, appears to be an attempt by the Department to manufacture a historical record in its favor where there has been none. Not one source is cited on this point by the Department. Elsewhere, the Department cites the classic study of the GAO by the eminent W.F. Willoughby, Director of the Institute for Government Research and one of the founders of modern public policy studies. W.F. Willoughby, The Legal Status and Functions of the General Accounting Office of the National Government (1927), cited in DOJ Letter at 1 n.1. However, the Department did not cite that key authority on this point, for good reason. Regarding the position that the law establishing the GAO as the agency that would settle accounts was unconstitutional, Willoughby comments disparagingly: "the position [may] be taken that Congress was without constitutional authority to create any such agency. Through this position may be taken, it is hard to see how it can be maintained." Id. at 14. The reasons set forth by Willoughby are those confirmed by the unanimous Supreme Court decision in *Humphrey's Executor* v. *United States*, 295 U.S. 602 (1935).

[13] See *Myers* v. *United States*, 272 U.S. 52 (1926).

the modern Comptroller General,"[14] with the duty to superintend the accounts of the government. James Madison, one of the authors of the Federalist Papers, and Representative who had successfully led the crucial debate that kept Cabinet officers subject to the presidential removal, argued that "there my be strong reasons why an officer of this kind should not hold his office at the pleasure of the Executive branch of the Government."[15]

Madison's sound judgment ultimately prevailed in the evolution of the Comptroller General's role. In 1795 Congress made the Comptroller of the Treasury's judgments "final and conclusive," as of March 3, 1795, ch. 48, § 4, 1 Stat. 441, 442, to put the comptroller's functions outside of political will.[16] By 1809, the Comptroller's ":'independence of status . . . seemed clearly indicated."[17] In 1838, the Supreme Court confirmed the validity of investiture of officers with independent responsibilities: "in such cases, the duty and responsibility grow out of and are subject to the control of the law and not to the direction of the President," *Kendall* v. *United States*, 37 U.S. (12 Pet.) 524 (1838.)[18] Ultimately, the Budget and Accounting Act of 1921 implemented the historically-based necessity for independent supervision of the accounts, by vesting the count-settlement function in the Comptroller General who was not subject to Presidential removal.

The constitutional power of the Congress so to provide was confirmed in *Humphrey's Executor* v. *United States*, 295 U.S. 602 (1935), the fundamental authority on this subject, which cited directly to Madison's original observation about the Comptroller, 295 U.S. at 631. Conveniently in citing *Buckley* v. *Valeo*, supra, the Justice Department avoids mentioning that the Supreme Court expressly reconfirmed its *Humphrey's Executor* holding. "[T]he President may not insist that such functions be delegated to an appointee of his removable at will, *Humphrey's Executor* v. *United States*, 295 U.S. 602 (1935)." *Buckley* v. *Valeo*, supra, 424 U.S. at 141 (emphasis supplied.[19] Also conveniently, the Justice Department avoids mentioning that the Court expressly distinguished between true officers of the House or Senate, who are chosen by their House, and "the Comptroller General [who] is appointed by the President in conformity with the Appointments Clause." *Buckley* v. *Valeo*, 424 U.S. at 128 n.165. The Comptroller General can hardly be equated with a legislative veto which could be voted at will by Congress, when he is neither appointed by the Congress, nor subject to removal by it (absent enactment of a joint resolution); there is nothing in *Chadha* v. *INS*, supra, regarding legislative vetoes, which undermines the validity of independent officers reconfirmed in *Buckley* v. *Valeo*.

CONCLUSION

Not a shred of historical support has been assembled by the Justice Department for challenging the account-settlement function from which the Comptroller General's contract functions arise. By fundamental American tradition started, and amply justified, by the Framers themselves, the Congress' sound approach to limiting Government waste and fraud has been to stand an independent officer over the government's accounts and contracts. *Buckley* v. *Valeo*, supra, expressly validates that tradition, by confirming the validity of an officer appointed by the President but not subject to his removal for the performance of independent functions. The Competition in Contracting Act of 1984 is well within that tradition, particularly considering that the Comptroller General, an independent officer who can be vested with non-legislative functions, is only empowered to make "recommendations" and that the statute's automatic stay feature vests the real authority to stay awards in the bid protester, not the Comptroller General. This statutory response to endemic procurement problems passes constitutional muster.

COMPTROLLER GENERAL OF THE UNITED STATES,
Washington, DC, May 8, 1984.

Hon. JACK BROOKS,
Chairman, Committee on Government Operations, House of Representatives.

DEAR MR. CHAIRMAN: You ask us to comment on a letter dated April 20, 1984, from the Department of Justice (Department) regarding H.R. 5184, a bill "to revise the procedures for soliciting and evaluating bids and proposals for government contracts using full and open competition, and for other purposes."

The Department states the bill, which would authorize the General Accounting Office (GAO) to take a formal role in the awarding of government contracts, raises substantial constitutional problems and permits an unnecessary and unwise intrusion into executive branch activities. Specifically, the Department points to the provisions that would authorize federal courts to refer bid protests to GAO, would provide for a stay of the award or performance of a contract pending GAO consideration of a protest, and would authorize GAO to grant the costs of pursuing a protest, including attorney fees.

The Department states that these provisions call for the exercise of either executive or judicial authority and that the head of GAO, the Comptroller General, as an officer of the legislative branch of government cannot exercise executive or judicial authority without violating the doctrine of separation of powers. The Department cites *Buckley* v. *Valeo*, 424 U.S. 1, 139 (1976), for this proposition and it cites *INS* v. *Chadha*, 103 S. Ct. 2764 (1983), for the proposition that Congress may not stay the award or performance of a contract pending review by a legislative official.

We point out first that GAO already has a formal role in the awarding of executive branch contracts. GAO has been deciding executive branch contract award protests for about 60 years based on its authority to determine the legality of public expenditures. *See* 31 U.S.C § 3526 (1982). Indeed, GAO has become the principal forum for resolving the protests of disappointed bidders.

Over the years the bid protest process has been an integral part of the government's procurement system. That system is administered under a complex array of laws and regulations designed to achieve beneficial results through fair treatment of those bidding for the government's business. An effective protest process not only assures that the thousands of procurement officials administering this complex system observe the procurement laws and regulations, it also serves to assure bidders that they will be treated fairly.

All concerned with the government's procurement process rely upon bid protest decisions as the definitive body of administrative law governing the award process. GAO decisions are used by the Congress, the courts, and the procurement community, including the executive branch contracting agencies. Executive branch procurement regulations have long recognized GAO's bid protest role.

In fact, the bill would not give GAO any more authority to decide protests than it now exercises. The bill would not authorize GAO to suspend the award or performance of a government contract while a protest is pending or to determine the form of relief that must be provided by agencies once a protest is decided. Although the bill generally calls for agencies to suspend the award or performance of a contract pending a GAO decision, agencies would be authorized to override this general requirement in appropriate cases. GAO would only declare whether awards or proposed awards comply with law and regulation, recommend a form of relief when appropriate, and provide monetary relief where warranted. With the exception of granting attorney fees GAO now makes these determinations under existing procedures with full cooperation of the executive branch and often upon requests for assistance from the judicial branch. We do not view the addition of recognizing payment of attorney fees in appropriate cases as a significant extension of authority in a constitutional sense.

The bill would give specific statutory recognition to GAO as an arbiter of executive branch contract award protests. It appears to be the statutory recognition of the function rather than execution of the function itself which forms the basis of Department's constitutional argument. The Department argues that the Comptroller General is a legislative officer and that the Congress may not constitutionally authorize a legislative officer to decide bid protests.

The Comptroller General's status does not constitutionally prevent him from performing the audit and settlement of accounts functions. As indicated above, the bill would not authorize the Comptroller General to order contracting agencies to take specific actions. He would only, as under present procedures, declare whether particular contract awards comport with law and regulation. We fail to understand why statutory recognition of the current bid protest process leads to a determination of unconstitutionality.

The *Buckley* v. *Valeo* case, *supra*, dealt with a situation where congressionally appointed officers were given executive functions to perform. The Supreme Court held that these officers could not constitutionally perform executive functions since they had not been appointed to office by the

[14] F. Mosher, The GAO: The Quest for Accountability in American Government 25 (1979).

[15] 2 Annals of Cong. 612 (1789), noted with approval, *Humphrey's Executor* v. *United States*, 295 U.S. 602, 631 (1935).

[16] It may be fairly conjectured that Congress learned a great deal about improper Government procurement, and thus began to understand the necessity for independent auditing judgment, from its very first investigation. That investigation concerned a military disaster largely brought on by faulty procurement. See Chalou, St. Clair's defeat, 1792, in Congress Investigates; 1792-1794 1-18 (A. Schlesinger & R. Bruns eds. 1975).

[17] D. Smith, The General Accounting Office: Its History, Activities and Organization 22 (1927).

[18] For further discussion of the firm historic grounding of such independent officers, see Tiefer * * * Constitutionality of Independent Officers as Checks on Abuses of Executive Power, 63 B. * * * Rev. 59 (1983).

[19] The Justice Department's contention that in contract inquiries directly related to his auditing function, the Comptroller General cannot award costs, something that could be done by any of the independent agencies validated by *Humphrey's Executor*, is without merit.

President. The Court noted that in contrast the Comptroller General is appointed by the President. Id. at 128 n. 165. We do not believe the holding in *Buckley* v. *Valeo* forecloses the Comptroller General's role as provided under H.R. 5184.

The *Chadha* case cited by the Department, simply stated, stands for the proposition that Congress may not overrule executive action outside of the legislative process. Because H.R. 5184 would require an executive agency to hold up the award or performance of its contract pending a decision on a protest by the Comptroller General, the Department argues that the *Chadha* holding would be violated.

The delay would not be for the purpose declared unconstitutional in *Chadha*. It would be for the purpose of providing the Comptroller General's views to the agency while meaningful relief could still be provided. Although procurements are to be delayed pending the outcome of protests at GAO, the bill does provide for override of the requirement for delay where the vital interests of the United States are involved. As we suggested in testimony before your Committee, it would be more appropriate to allow override of the delay requirement on the basis of a less rigid standard such as "the interests of the United States," which in turn would eliminate any question of constitutionality.

The provision in the bill authorizing federal courts to refer bid protests to GAO, merely codifies existing procedure. Since 1971 federal courts have requested advisory opinions from GAO in cases brought before them by disappointed bidders. *See Steinthal* v. *Seamans*, 455 F.2d 1289 (D.C. Cir. 1971); *Wheelabrator* v. *Chafee*, 455 F.2d 1306 (D.C. Cir. 1971). In those cases the courts specifically recognized GAO's bid protest competency and concluded that a judge's request for a nonbinding GAO opinion could provide a "felicitous blending of remedies and mutual reenforcement of forums." *Wheelabrator* v. *Chafee, supra*, at 1316. It is quite common for both the United States Claims Court and for federal district courts to make known their interest in having a GAO decision on a pending matter before rendering judgment on it. *See Drexel Heritage Furnishings, Inc.* v. *U.S.*, 4 Cl. Ct. 162 (1983); *Aero Corp* v. *Department of the Navy*, 558 F. Supp. 404 (D.D.C. 1983). We do not see how this well-established practice constitutes "usurping the judiciary's function" by GAO.

The Department objects to the payment of attorney fees in protest cases as encouraging baseless attacks on agency procurements. Attorney fees would not be allowed except where a protest had merit. In some of these cases, reimbursement of a protester's costs may be the only remedy possible. And it should be recognized that the protest process is a means for assuring the continuing integrity of government procurements. There would not seem to be any sound basis for objecting to the payment of reasonable attorney fees in cases where protesters have served to correct procurement deficiencies.

The Department also objects to permitting any interested party to file a protest, arguing that it would not be in the public interest to allow parties other than bidders to interfere with the procurement of goods and services. The bill reflects current GAO bid protest procedures. GAO determines whether a party is an "interested party"—and thus eligible to protest a procurement—by considering the party's status in relation to the procurement, the nature of the issues involved and whether the circumstances show the existence of a direct or substantial economic interest. This standard is sufficient to prevent those without a legitimate interest from having their protests considered.

Finally, we note that the Department objects to the provision in the bill that would give the General Services Administration Board of Contract Appeals authority to decide protests involving certain types of procurements. We also question this provision as noted in our March 27 testimony on the bill.

We hope our comments are helpful.

Sincerely yours,

SHELTON J. FOWLER,
Acting Comptroller General
of the United States.

CONGRESSIONAL RESEARCH SERVICE,
THE LIBRARY OF CONGRESS,
Washington, DC, August 8, 1984.

To: Senate Committee on Governmental Affairs: Subcommittee on Oversight and Management. Attn: Jeffrey A. Minsky.
From: American Law Division.
Subject: Constitutionality of Providing a Statutory Base for General Accounting Office Bid Protest System.

Reference is made to your recent inquiry requesting our comments on certain features of the procurement Protest System established by Subtitle D, Deficit Reduction Act of 1984, P.L. 98-369.

In order "to insure that the mandate for ['full and open'] competition is enforced and that vendors wrongfully excluded from competing for government contracts receive equitable relief", Subtitle D of P.L. 98-368 codifies and strengthens "the bid protest function currently in operation at the General Accounting Officer (GAO)." H. (Conference) Rept. 98-861, p. 1435 (1984).) Up to the present time, GAO has been deciding executive branch contract award protests on the basis of its authority to determine the legality of public expenditures. 31 U.S.C. § 3526. See *United States* v. *Stewart*, 234 F. Supp. 94, 99 (D.C.C. 1964), *affd.* 339 F. 2d 753 (D.C. Cir. 1964). The formalized bid protest procedures of the new law, codified at sections 3551-3556 of Title 31, United States Code, become effective with respect to any protest filed after January 14, 1985.

The procedures authorized by the law are set in motion by submission of a protest by an interested party (§ 3553(a)) who alleges that a contract or proposed contract award fails to comply with procurement law or regulations (§ 3552). An interested party is any actual or prospective bidder or offeror whose direct economic interest would be affected by the award of the contract or by failure to award the contract for the procurement of property or services (§ 3551).

When a protest is filed with GAO, the Comptroller General (CG) must notify the executive agency involved within one working day of receipt of the protest (§ 3553(b)(1)). The executive agency is given 25 working days to respond to the protest (§ 3553(b)(2)(A)); 10 days are allowed for a response if the CG selects the express option procedures authorized by § 3554(a)(2) that apply when a protest is susceptible of earlier resolution (§ 3553(b)(2)(C)).

The CG has 90 working days from receipt of the protest (§ 3554(a)(1)) or 45 calendar days under the express option (§ 3554(a)(2)) to declare whether the award or proposed award of a contract complies with procurement law or regulations (§§ 3552 and 3553). Generally, a contract challenged on these grounds cannot be awarded pending a decision by the CG (§ 3553(c)(1)). Moreover, if a protest is filed within 10 days after the award of the contract, performance on that contract must cease and all related activities that may result in additional obligations being incurred by the United States must be suspended pending a decision by the CG (§ 3553(d)(1)). However, the executive agency involved may go ahead and make the award or continue to perform on an awarded contract when it determines and notifies the CG that compelling circumstances which significantly affect interests of the United States require it (§ 3553(c)(2)). This go ahead authority, however, is available only if the award of the contract is likely to occur within 30 calendar days (§ 3553(c)(3), (d)(2)).

If the CG determines that the solicitation, proposed award or award does not comply with procurement law or regulations, he is required to recommend corrective action to the agency that promotes compliance with legal requirements (§ 3554(b)(1)). The CG additionally may recommend monetary awards and costs, including reasonable attorneys' fees (§ 3554(c)).

The authority granted the CG to decide bid protests is not exclusive. Accordingly, an interested party retains the ability to pursue other administrative or judicial relief for any violation of a procurement law or regulations (§ 3556).

As previously indicated, the law largely formalizes functions presently being performed by GAO in connection with the award of executive branch contracts. Specific authority to recommend attorneys' fees is among the few departures from current practice made by the law.

In brief, when a protest is filed, the CG has to decide whether awards or proposed awards comply with law or regulations, and recommend appropriate relief. For the most part, the law, not the CG, holds up a proposed award or suspends in certain circumstances further performance on an award previously made to enable the CG to decide the issue. Some limited discretion is granted the CG to extend the time which an agency has to respond to a protest (§ 3553(a)(2)(B)) and which he has to decide the merits of the protest (§ 3554(a)(1)). The conference report indicates that the latter authority is to be used sparingly and "in unique circumstances only." H. Rept. 98-861 at 1436.

Constitutional objections have been lodged against the law. At the time of signing the Deficit Reduction Act of 1984, President Reagan charged that the bid protest provisions appear to violate the Constitution's separation of powers doctrine by giving GAO a formal role in the awarding of executive branch contracts. The President's view in this matter reflects the position previously taken by the Department of Justice regarding similar legislation. See April 20, 1984, letter to Representative Jack Brooks, Chairman, Committee on Government Operations, House of Representatives.

Generally speaking, the Department takes the position that the law gives to a legislative officer, i.e., the CG, executive or judicial authority contrary to the doctrine of separation of powers. The Department relies chiefly on *Buckley* v. *Valeo*, 424 U.S. 1, 139 (1976) in support of this conclusion and invokes *INS* v. *Chadha*, 103 S. Ct. 2764 (1983) to assert that Congress and, therefore, the CG as a legislative officer, may not stay the award or performance of a contract pending review by a legislative official.

These constitutional conclusions are based on the assumption that the CG is a purely legislative officer. That assumption is crucial to the Department's constitutional objections stated in the aforementioned April 20, letter to Chairman Jack Brooks.

The Department's April 20 letter, additionally, necessarily assumes that the bid protest functions formally adopted by the law are essentially executive or judicial rather than legislative in nature. If these assumptions are correct, the law's provisions applicable to bid protests would raise the constitutional issues described by the department. That "the legislature cannot engraft executive duties on a [purely] legislative office" consistent with the separation of powers doctrine is virtually beyond question. *Springer* v. *Philippine Islands,* 217 U.S. 189, 202 (1908). Similarly, it is fundamental that the authority to administer and enforce the public laws is an executive function which can only be enforced by "Officers of the United States". *Buckley* v. *Valeo,* 424 U.S. at 139-141.

The congressional power to allocate responsibilities for the execution of laws is a broad power. "To Congress under its legislative power is given the establishment of offices, the determination of their jurisdiction, the prescribing of reasonable and relevant qualifications and rules of eligibility of appointees, and the fixing of the term for which they are appointed and their compensation . . ." *Meyers* v. *United States,* 272 U.S. 52, 129 (1926); *Buckley* v. *Valeo,* 424 U.S. 1, 134 (1976). Also, Congress may devolve upon an executive official already in office additional duties which are germane to that office. *Shoemaker* v. *United States,* 147 U.S. 282, 301 (1893).

In light of the acknowledged power of Congress to establish offices and to reasonably regulate many incidents relating to offices within constraints flowing from the separation of powers doctrine, the propriety of the role given to GAO in awarding government contracts by the law turns on the resolution of two matters: first, the status of the CG as either an executive or legislative officer; second, the nature of the functions to be carried out by the GAO.

Clearly, if the CG is a purely legislative officer, the grant of executive functions to him would pose separation of powers problems. However, if his functions relating to bid protests are such that Congress itself could have discharged them, Congress can delegate similar functions to a subordinate legislative unit, and "there can be no question that the [CG as a legislative officer] may execute them." *Buckley* v. *Valeo,* 424 U.S. at 137. Conversely, if the CG is an "Officer of the United States," the confiding of the functions in question on him would not violate the doctrine of separation of powers.

Although the answer to both these issues is not so conclusive as to be preclusive of contrary argument, evidence supporting the view that the CG is an "Officer of the United States" and that the bid protest functions formalized by the law are executive functions which he can discharge, commands more respect.

Turning to the latter first, it should be noted that but for the curious fashion in which the law for the most part formalizes GAO's current bid protest activities, they would clearly constitute executive functions. In the main, these involve administration and enforcement of procurement law "to ensure that . . . ['full and open'] competition is *enforced* and that vendors wrongfully excluded . . . from government contracts receive equitable *relief.*" H. Rept. No. 98-861 at 1435. (Emphasis added). These functions (i.e., deciding whether an award or prospective award complies with law and regulations, recommending administrative and other relief, including costs and attorneys' fees, issuing regulations, and extending response time and decision-making time) which are to be "exercised free from day-to-day supervision of either Congress or the Executive Branch . . . are of kinds usually performed by independent regulatory agencies or by some department in the Executive Branch under the direction of an Act of Congress . . . These administrative functions may therefore be exercised only by persons who are 'Officers of the United States.'" *Buckley* v. *Valeo,* 424 U.S. at 140-141.

Although the bid protests functions formalized by the law in our view entail essentially executive activities, the law is written in terms that seemingly make the CG an information gatherer and a reviewing and advisory official whose resolution of a bid controversy, while entitled to respect, is for the most part free of compulsion. He is authorized to *decide* the issue of an actual or prospective award's conformance with law or regulations, but he *only recommends* remedial relief. The latter's actual implementation is left to the contracting executive agency involved. Moreover, the latter, as indicated, can override the CG in appropriate circumstances. For the most part, the award of a contract or performance under a contract is suspended for fixed periods by the operation of law, not by action of the CG. See *INS* v. *Chadha,* 103 S. Ct. at 2786, note 19, re the validity of durational limits on authorizations. Finally, the CG's role is expressly made nonexclusive so that existing administrative and judicial avenues of remedial relief remain available to an interested party.

Viewed in this narrow, and in our view, artificial light, the activities to be carried out by the CG under the law could be carried out by Congress itself. "Insofar as the powers confided . . . are essentially of an investigative and informative nature, falling in the same general category as the powers which Congress might delegate to one of its own committees, there can be no question that . . . [a legislative officer] may exercise them." *Buckley* v. *Valeo,* 424 U.S. at 137. In other words, Congress could *informally* give its opinion regarding compliance vel non with law or regulations of a contract award and recommend appropriate relief when there has been a failure of compliance with legal requirements. An *informal* procedure along this line that is devoid of any compulsory effect seems to raise no separation of powers problems. See *City of Alexandria* v. *United States,* Appeal No. 84-713 (June 21, 1984). Accordingly, Congress might delegate their exercise to the CG.

However, it would blink at reality to conclude that the CG's functions in this regard are solely of an investigative and informative nature and that his influence on contracting executive agencies is limited to moral suasion. Cf. *City of Alexander* v. *United States, supra.* In enacting the bid protest procedures, the conferees stated that they "believe[d] that strong *enforcement* is necessary to insure that the mandate for competition is *enforced* . . ." H. Rept. 98-861 at 1435. (Emphasis added) Clearly, Congress did not intend that the CG decide whether awards or proposed awards comply with law or regulations and recommend appropriate administrative relief, including granting attorneys' fees, as an academic or training exercise. Although suspension of an award or performance of a contract pending a GAO decision flows largely by operation of law in the vast majority of cases and can be overridden by the contracting executive agency in appropriate cases, the CG's resolution and recommendations were obviously intended to weigh heavily on agency action. In the words of Judge Holtzoff directly on point: "As a practical matter, no disbursing officer would make any . . . payments in the face of . . . [the CG's contrary] ruling." *United States* v. *Stewart,* 234 F. Supp. at 98.

These speculative matters aside, however, the law in a number of particulars gives the GAO the kind of administrative discretion that is usually performed by independent regulatory agencies or by some department in the Executive Branch under the direction of an Act of Congress. Thus, while the time that an agency has to respond to a bid protest that is triggered by the filing of a protest by an interested party is generally fixed by the law at 25 working days (10 working days under the express option), the CG has discretion to determine a longer period (§ 3553(b)(2)(C)). Similarly, while an award or performance under a contract generally is to be suspended by law for a fixed period of 90 days, the CG is authorized to extend the period if he determines "that the specific circumstances of the protest require a longer period" (3554(a)(1)). The decision in *INS* v. *Chadha,* 103 S. Ct. at 2786 clearly signals that congressional actions at odds with the exercise of statutorily delegated authority to an agency have to take the form of law: "Congress must abide by its delegation of authority until that delegation is legislatively altered or revoked." If Congress is disabled from mandating an extension of time informally and thus preventing the exercise of authority delegated to an agency, a similar result obtains with respect to the CG if he is deemed to be a purely legislative officer. As such, he would stand in no better position than Congress.

Other features of the new law suggest that something more than moral suasion is involved. For example, monetary awards, "including reasonable attorneys' fees," that the CG may recommend *"shall* be paid promptly by the Federal agency concerned out of funds available to or for the use of the Federal agency for the procurement of property and service" (§ 3554(c)(2)). A federal agency which fails to fully implement the CG's recommendations within 60 days has to report it to him and he, inturn, is to include it in an annual report to Congress (§ 3554(e)). The exaction of fees and awards are typically functions exercised by agencies and courts.

Notwithstanding that the law generally relies on the agencies to enforce its provisions under GAO's direction, it does not seem unfair to state that it is instinct with obligation and compulsion imperfectly expressed. However, there is no need to speculate upon these matters since it has been judicially determined that the CG is performing executive functions in "approv[ing] or disapprov[ing] . . . payments made by Government departments and other agencies, as well as . . . [in] settling and adjusting accounts in which the Government is concerned . . . *United States* v. *Stewart,* 234 F. Supp. at 99. As executive functions they could not be exercised by the CG if he were a purely legislative officer.

The Department of Justice rests its assumption that CG is a legislative official

and, therefore, ineligible to discharge executive functions on the statute establishing the GAO as an independent instrumentality and widespread perceptions of the CG as an officer of the Legislative Branch.

Although the department describes the agency's enabling statute, 31 U.S.C. § 702(a), as making the GAO an "instrumentality 'independent of the executive branch' ", the law reads "independent of the executive *departments*." The law on its face, therefore, gives GAO independence vis-a-vis the executive departments, not in express terms from the Executive Branch. At odds with the assertion that he is independent of the Executive Branch are the requirements that the CG report "to the President when requested by the President on the work of the . . . [GAO]," 31 U.S.C. § 719(a), and to "give the President information on expenditures and accounting the President requests" (31 U.S.C. § 719(f)).

Because the GAO which he heads is generally regarded as a congressional support agency, the CG is widely perceived on Capitol Hill as "their man". See, e.g., C.Q. *Guide to Congress* (2d ed.) 485 (1976). However, neither the statutory nor congressional designations preclude the courts from looking behind them and making determinations on the basis of functional activities and other factors. See, e.g., *Glidden Company* v. *Zdanok*, 370 U.S. 530, 552 (1962): ". . . whether a tribunal is to be recognized as one created under Article III depends basically upon whether its establishing legislation complies with the limitations of that article . . ." Likewise, the nature and status of an officer is not controlled by a statutory labels expressed or implied, but by the nature of the functions to be performed by the officer and the manner of his or her appointment. *Buckley* v. *Valeo*, 424 U.S. at 138–139.

Notwithstanding congressional and other assumptions regarding the CG, both the mode of his appointment and the nature of some of his duties make him an "Officer of the United States." He is appointed by the President with the advice and consent of the Senate for a term of 15 years. 31 U.S.C. § 703(a)(1) and (d). That the CG is an "Officer of the United States" is confirmed in *Buckley* v. *Valeo*, where the Supreme Court struck down the Federal Election Commission (FEC), none of whose members were appointed in conformity with Art. II, § 2, cl. 2. Finding that FEC performed significant enforcement authority pursuant to law, principally discretionary power to seek judicial relief, the Court held that such authority could be exercised only by persons who are appointed in conformity with the Constitution's Appointments Clause. In response to Commission's attempts to analogize itself with the CG, the Court observed as follows:

Appellee Commission has relied for analogous support on the existence of the Comptroller General, who as a "legislative officer" has significant duties under the 1971 Act. § 308, 86 Stat. 16. *But irrespective of Congress' designation*, cf. 31 U.S.C. § 65(d), *the Comptroller General is appointed by the President in conformity with the Appointments Clause.* 424 U.S. 128, note 165. (Emphasis added)

Briefly, the CG as an "Officer of the United States" is capable of exercising administrative and enforcement functions which neither Congress itself nor purely legislative officers can perform consistent with separation of powers principles.

As previously noted, the exercise by the CG of executive as well as legislative functions was recognized in *United States* v. *Stewart*, 234 F. Supp. at 99–100. Noting his effective involvement in bid protest matters as an aspect of his statutory authority to settle public accounts and contrasting it with his auditing functions, the court observed as follows:

The Comptroller General is the head of the General Acounting Office, 31 U.S.C. § 41. Unlike heads of most departments and establishments of the Government, he occupies a dual position and performs a two-fold function. First, he makes investigations of matters relating to the receipt, disbursement and application of public funds, and reports the results of his scrutiny to the Congress with approprite recommendations. In addition he pursues investigations that may be ordered by either House of Congress, or by any Committee of either House, in matters relating to revenue, appropriations or expenditures, 31 U.S.C. § 53. In performing these functions the status of the Comptroller General is that of an officer of the legislative branch of the Government. The Congress has comprehensive authority to undertake investigations in aid of legislation, or in connection with the appropriation of funds. Investigations are an aid to legislation and to the making of appropriations and are therefore auxiliary to the basic functions of the Congress. The Congress may conduct investigations either through Committees or through an official such as the Comptroller General.

The Comptroller General has also a second status as the chief accounting officer of the Government. His second principal function is that of approval or disapproval of payments made by Government departments and other agencies, as well as of settling and adjusting accounts in which the Government is concerned, 31 U.S.C. § 71. This is an executive function and in performing it the Comptroller General acts as a member of the Executive branch of the Government. The dual status of General Accounting Office is not anomalous, for many regulatory commissions fulfill in part a legislative function and in part carry out executive duties, *Humphrey's Executor* v. *United States*, 295 U.S. 602 55 S. Ct. 869, 79 L. Ed. 1611. Cf, *Myers* v. *United States*, 272 U.S. 52, 47 S. Ct. 21, 71 L. Ed. 160.

In more recent times, Congress has grafted other executive functions on the CG, conspicuously the power to seek judicial relief. The Congressional Budget and Impoundment Control Act of 1974, 2 U.S.C. §§ 686–687, authorizes the CG to monitor executive spending actions and to bring a civil action in the federal courts to require budget authority to be made available for obligation. Similarly, the General Accounting Office Act of 1980, 31 U.S.C. § 716(b), empowers the CG to bring a civil action to require the production of certain agency records. As stated by the Supreme Court in *Buckley* v. *Valeo*, 424 U.S. at 140: ". . . responsibility for conducting civil litigation in the courts of the United States for vindicating public rights . . . may be discharged only by persons who are 'Officers of the United States' ".

Notwithstanding that the CG is appointed in the manner constitutionally prescribed for the appointment of "Officers of the United States" and that he discharges unquestionally executive functions, it is sometimes contended that since he is not removable at the will of the President, he is a legislative officer. Initially, it may be noted that legislative qualifications on removal in the form of requiring removal for cause do not convert an officer into a purely legislative officer. See *Buckley* v. *Valeo*, 424 U.S. at 135 et seq. where the Court discusses the "trilogy of cases" dealing with the constitutional authority of Congress to circumscribe the President's power to remove officers of the United States. Although qualifications of this kind may not be imposed on purely executive officers, they are permissible in the case of officers who additionally exercise functions which are legislative or judicial in nature. As the CG exercises both legislative and executive functions, *United States* v. *Stewart*, 234 F. Supp. at 99–100, the constitutional authority of Congress to circumscribe the President's power to remove him is consistent with the Court's removal jurisprudence.

Under existing law, 31 U.S.C. § 703(e)(1), the CG "may be" removed by impeachment or by joint resolution for specified reasons including permanent disability, inefficiency, neglect of duty, malfeasance, or a felony or conduct involving moral turpitude. While the law provides that he "may be" removed by impeachment or by law (i.e., a joint resolution), the law on its face does not preclude removal by the President. Compare and contrast "may be" and "shall only be".

Despite some question regarding the propriety of removal by law for the enumerated reasons—a matter which need not concern us now—the alternative means of effecting the CG's removal are instructive. Clearly, if the CG were a purely legislative officer, Congress could remove him without recourse to law or the impeachment process. In providing for removal by a joint resolution which has to be submitted to the President, Congress signaled its appreciation of the fact that the CG was something more than a legislative officer. This signal is reinforced by the alternative removal procedure, namely impeachment, which under Art. II, § 4 is available only in the case of the President, the Vice President and all *civil* officers. Although the availability of impeachment to remove legislative officers who are neither Senators or Representatives is problematical, the Senate in the impeachment trial of Senator William Blount in 1797 effectively ruled that members of Congress cannot be impeached. 3 Hinds' Precedents of the House of Representatives § 2294 et seq. (1907) In brief, the statutory removal provisions applicable to the CG do not derogate from his being an "Officer of the United States" for certain purposes, but are consistent therewith.

In summary, notwithstanding GAO's independence vis-a-vis the executive departments and widespread misconceptions regarding the CG's status, there are good and compelling reasons for concluding that he is an "Officer of the United States" and as such has the capacity to discharge the executive functions of resolving bid protests as formalized by Subtitle D of the Deficit Reduction Act of 1984.

RAYMOND J. CELADA,
Senior Specialist in American public law, American Law Division, August 8, 1984.

Mr. COHEN. On October 26, I wrote to then-Attorney General William French Smith expressing my deep concern over the Justice Department's proposed action. In my letter, I pointed out that, absent a court ruling, the Justice Department recommendation to violate statutory provisions enacted by Congress and signed by the Presi-

dent raises the most serious questions under the doctrine of separation of powers. I emphasized, furthermore, that a unilateral decision by the executive branch to refuse to enforce a statute constitutes a usurpation of the proper role of the judiciary and a failure of the President to meet his constitutional responsibility to enforce the laws.

I ask unanimous consent to have that letter printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE, COMMITTEE ON GOVERNMENTAL AFFAIRS, SUBCOMMITTEE ON OVERSIGHT OF GOVERNMENT MANAGEMENT,
Washington, DC, October 26, 1984.

Hon. WILLIAM FRENCH SMITH,
Attorney General,
Department of Justice,
Washington, DC.

DEAR MR. ATTORNEY GENERAL: I am writing to share with you my grave concern over a memorandum that Acting Assistant Attorney General Larry L. Simms provided to you on October 17, 1984, regarding "Implementation of the Bid Protest Provisions of the Competition in Contracting Act," P.L. 98-369, §§ 2741, 2751, 98 Stat. 494, 1199-1203 (1984). Mr. Simms recommends in the memorandum that executive agencies should take no action to implement certain bid protest provisions which the Department of Justice believes to be unconstitutional.

Absent a court ruling, Mr. Simms' recommendation to violate statutory provisions enacted by the Congress and signed into law by the President raises the most serious questions under the doctrine of the separation of powers. A unilateral decision by the Executive Branch to refuse to enforce a statute constitutes a usurpation of the proper role of the judiciary and a failure by the President to meet his constitutional responsibility to "take Care that the Laws be faithfully executed." U.S. Const., Art. II, Sec. 3.

The bid protest provisions in question have been examined by the General Accounting Office, the Congressional Research Service, the Senate Legal Counsel, and the General Counsel to the Clerk of the House of Representatives, all of which concluded that these provisions passed constitutional scrutiny. I can appreciate that the Department sincerely differs from the conclusions these congressional entities have reached. I believe that it is nevertheless incumbent upon the Department to acknowledge that the constitutional issues are complex and important and that other positions are worthy of consideration. Surely such controversial and difficult issues should be decided after the presentation of divergent views in the courts, not within the confines of the Department of Justice.

Mr. Simms' recommendation, moreover, is inconsistent with the Department's historical understanding of the obligation of Executive Branch agencies to enforce those statutes whose consitutionality the Department doubts. The Department has previously recognized its responsibility to enforce statutes, even while disputing their constitutionality in court. Thus, in the controversy over the constitutionality of the legislative veto, for example, the Executive Branch had always respected the exercise of a legislative veto, notwithstanding the view of the Department that legislative vetoes were unconstitutional.

In *Immigration and Naturalization Service* v. *Chadha*, 103 S.Ct. 2764 (1983), the Solicitor General explicitly stated that, "[u]ntil and unless the court of appeals entered a decision holding the statute unconstitutional, INS intended to enforce the law." Reply Brief for Appellant in No. 80-1832, at 11. The Solicitor General explained there that the alternative approach of "ignoring a resolution of disapproval passed by one House of Congress and to cancel deportation proceedings and confer permanent resident status on the alien . . . would be inconsistent with the accepted view that constitutional questions arising in the administration of a statute should, if possible, be resolved by the courts, not by the administrative agency itself." Id. at 14.

The Solicitor General viewed the Department as having been constrained in *Chadha* to act "under the compulsion of [the statute] and [having] adhered to the established practice of many agencies of declining to rule on constitutional challenges to the statute they are charged with administrating, properly leaving such issues to the courts." Brief for the INS at 74. The Solicitor General concluded that the enforcement of the statute by the Executive Branch, despite its refusal to defend the statute once judicial proceedings were initiated, "was not merely permissible under the circumstances, but was a responsible and wholly appropriate response to the situation." Reply Brief at 14.

I am deeply concerned by the Department's contemplated deviation from this established practice for dealing with disputes between the branches over the constitutionality of statutes. Here, no less than in *Chadha*, "because the constitutional question in this case involves a conflict between the Executive and Legislative Branches, it is particularly important that it be resolved by the Judicial Branch." Id. Moreover, this is not an instance in which the Executive Branch's enforcement of the statutes could serve to insulate the constitutionality of the statute from judicial resolution. The context of government procurement disputes obviously provides a setting in which private parties can be anticipated expeditiously to institute litigation concerning the constitutionality of these provisions.

I strongly urge that you reject Mr. Simms' recommendation and instruct the executive agencies to conform to the historical understanding that they are obligated to enforce the laws of the United States unless and until those laws have been found unconstitutional in the courts.

Sincerely,

WILLIAM S. COHEN,
Chairman.

Mr. COHEN. Mr. President, unfortunately, I was not successful in persuading the Attorney General of the administration's legal obligation to follow the law. In his response to me dated November 21, Attorney General Smith wrote that he concurred with the conclusions of the Office of Legal Counsel and that he had determined that the executive branch should refrain from implementing the bid protest provisions of the Competition Act.

To implement the Department of Justice's decision not to enforce the law, the Attorney General turned to the Director of the Office of Management and Budget. And, on December 17, 1984, David Stockman issued Bulletin No. 85-8 which stated, in part, that "Agencies shall take no action including the issuance of regulations, based upon the invalid provisions." Another "Action Requirement" instructed agencies that "[w]ith respect to the 'stay' provision, agencies shall proceed with the procurement process as though no such provisions were contained in the act."

I am not alone in my belief that the executive branch—not the legislative branch—has acted in violation of the Constitution by suspending these provisions of the Competition in Contracting Act. Not only do the General Accounting Office, the American Law Division of the Congressional Research Service, the Senate and House Legal Counsels, the American Bar Association, and several constitutional scholars agree with my position, but, most important, so does a court of law.

In May of this year, a Federal judge ruled that the challenged provisions of the Competition in Contracting Act were constitutional, but that the decision of the executive branch to deliberately disobey the law was not. Judge Harold Ackerman of the Third District Court in New Jersey held in Ameron, Inc. versus U.S. Army Corps of Engineers that:

> Such a position by the Executive branch . . . flatly violates the express instruction of the Constitution that the President shall "take care that the laws be faithfully executed." . . . It has been one of the bedrocks of our system of government that only the Judiciary has the power to say what the law is . . . The rule that no executive official can decide for himself what laws he is bound to obey, but must await decisions of the judiciary and until then obey the laws, has deep roots in our constitutional history.

Judge Ackerman had earlier found the Competition in Contracting Act to be constitutional in a March decision granting Ameron a preliminary injunction. To add insult to arrogance, however, the Attorney General testified before the House Judiciary Committee that the administration would continue to ignore the law—except in the instant case—because the executive branch was waiting for "a court or competent jurisdiction to decide the constitutionality of the issue."

The district court, in its subsequent decision in May confirming the preliminary injunction granted in March, did not take too kindly to the Attorney General's assault on its jurisdiction. Judge Ackerman stated:

> The Executive Branch's position that they can say when a law is constitutional equates the powers of mere executive officials with those of the Judiciary. It flies in the face of the basic tenet laid out so long ago by the United States Supreme Court [that] . . . 'No man in this country is so high that he is above the law. No officer of the law may set that law at defiance, with impunity. All the

officers of the government, from the highest to the lowest, are creatures of the law and are bound to obey it.' *United States* v. *Lee*, 106 U.S. 196 (1882).

In support of his decision, Judge Ackerman cited, among several other cases, the Supreme Court's decision almost 150 years ago in *Kendall* v. *United States*, 37 U.S. 524 (1938). In that case, a Cabinet member claimed that because he was subject to the President, who had vast authority under the "faithful execution" clause, he was not bound by certain laws.

The Supreme Court rejected the argument of executive supremacy, holding that—

To contend at the obligation imposed on the President to see the laws faithfully executed, implies a power to forbid their execution, is a novel construction of the Constitution, and is entirely inadmissable.

In rejecting the executive's argument in Kendall, the Court explained that the effect of such power would be like:

. . . vesting in the President a dispensing power, which has not countenance for its support, in any part of the Constitution; asserting a principle, which, if carried out in its results, to all cases falling within it, would be clothing the President with a power entirely to control the legislation of Congress and paralyze the administration of justice.

It is deplorable, in my judgment, that nearly a century and half later, the administration is again making the same fallacious argument rejected by the Court in 1838.

This time the administration's defense rests on what many constitutional experts believe to be, at best, a rather convoluted interpretation of the "faithful execution" clause of the Constitution. Deputy Attorney General Lowell Jensen stated in testimony before the House Government Operations Committee, which held extensive hearings on this issue in February, that—

In the case of a conflict between the Constitution and a statute, the President's duty faithfully to execute the laws requires him not to observe a statute that is in conflict with the Constitution.

The administration's novel reasoning implies that, on the one hand, executive officials have a duty to uphold the Constitution, while on the other hand, they reserve for themselves the power to decide what the Constitution means. This view that the oath to support and defend the Constitution is a license to interpret the Constitution clearly contravenes the Supreme Court's landmark decision in Marbury versus Madison, in which Chief Justice John Marshall held—

That it is, emphatically, the province and duty of the judicial department to say what the law is. 1 Cranch 137 (1803).

As the House Legal Counsel, Charles Tiefer, pointed out in his brief in Ameron submitted to the U.S. Court of Appeals:

For the first time in two centuries, the Executive Branch would provide for *Marbury* v. *Madison* . . . a novel gloss. It would no longer be "emphatically the province and duty of the judicial department to say what the law is." Here, the Executive Branch assumed an inherent power of *deciding*—not just arguing—to strike down Acts of Congress, specifically, the Competition in Contracting Act.

The implications of the executive branch's interpretation of the "faithful execution" clause are chilling. Potentially if his Attorney General will issue a ruling that a law is unconstitutional, the President need not observe it. The executive branch could simply issue its own order not to follow the law prior to any judicial ruling against the statute. And the Attorney General has testified that the administration would not necessarily follow the law even after a district court has upheld it. What does this mean for other laws with which the administration disagrees?

The Constitution does not give the President any power to strike down acts of Congress other than through the exercise of his veto. At the Constitutional Convention, the framers specifically rejected a proposal to allow the Executive to suspend laws. The framers conferred only one specific power on the President with respect to legislation he did not approve: He could veto it.

There is a crucial difference between the Executive offering a view that a statute is unconstitutional, such as by declining to defend the statute in a court challenge, and deciding that a law is unconstitutional, as Judge Ackerman noted in his decision. Only the judiciary has the right to decide the constitutionality of a statute.

The Justice Department has also used as its defense the argument that "judicial resolution would be unlikely if the statute were fully enforced," in effect stating that the law must first be broken before it can be enforced. Again, Orwellian reasoning at best. This is not an instance in which the executive branch's enforcement of the statute would serve to insulate the constitutionality of the statute from judicial resolution. The context of Government procurement disputes obviously provides a setting in which private parties can be anticipated to institute litigation concerning the constitutionality of these provisions. Also, bidders could seek a determination of the bill's constitutionality under the Declaratory Judgment Act.

The Attorney General's November 1984 letter to me suggested that the Executive was disobeying the law in order to set up a test case. Yet, if that were the justification, why did the OMB, at the direction of the Justice Department, issue a Government-wide fiat ordering all agencies to ignore the law? The likelihood of a contractor challenging the law was already fairly strong, and the Department could have intervened in such a case to present its views to the court.

As a final defense, the Attorney General cited Public Law 96-132, which requires the Justice Department to notify Congress when it decides not to defend a statute that it believes to be unconstitutional, as an indication that "Congress has expressly anticipated situations in which the Department declines to enforce or defend the constitutionality of a statute."

Mr. President, the Attorney General is standing the law on its head. The purpose of this notification requirement is to allow Congress, through its legal counsels, to intervene to defend the constitutionality of laws which the Justice Department declines to defend in court. In no way does this law authorize the executive branch to ignore the laws duly enacted by Congress and signed by the President. It is inconceivable that Congress would ever pass a blanket authorization for the Executive to flout the laws it passes.

The administration, had it followed conventional constitutional practice, could have resolved this dispute in one of two ways. First, the President has the right, indeed the obligation, to refuse to sign a law that he believes to be unconstitutional. In testimony before the Senate Judiciary Committee in 1981, Attorney General Benjamin Civiletti stated that:

The Framers gave the President a veto for the purpose, among others, of enabling him to defend his constitutional position. . . . That being so, an argument can be made that the Framers assumed that the President would not be free to ignore, on constitutional grounds or otherwise, an Act of Congress that he had been unwilling to veto or had been enacted over his veto.

The fact that the Competition in Contracting Act, in this case, was enacted as part of a larger measure does not detract from this point. As Mark Tushnet, professor of constitutional law at Georgetown University, testified before the House Government Operations Committee in February:

If the President's constitutional qualms are serious enough, the package should be vetoed.

The Supreme Court affirmed this point in *Youngstown Sheet and Tube* v. *Sawyer*, 343 U.S. 579 (1952):

In the framework of our Constitution, the President's power to see that the laws are faithfully executed refutes the idea that he is to be a lawmaker. The Constitution limits his functions in the lawmaking process to the recommending of laws he thinks wise and the vetoing of laws he thinks bad. And the Constitution is neither silent nor equivocal about who shall make the laws which the President is to execute.

By deciding to ignore the bid protest provisions of the Competition Act, the administration has assumed for itself a power that the President does not now have: The line-item veto, a back door

line-item veto at that. Representative PETER RODINO, the chairman of the House Judiciary Committee, amplified this point in a recent letter to Attorney General Meese, stating:

> The President cannot . . . approve only that portion of the bill with which he agrees. While it may be his *practical preference* to do so, it is not a *constitutional option.*

Short of exercising the President's veto authority, a second option for the President is to sign the bill, enforce it, but refuse to defend its constitutionality in court. Indeed, this option would have been consistent with the Justice Department's own historical understanding of the obligation of executive branch agencies to enforce those statutes that the Department believes to be unconstitutional. The Department has previously recognized its responsibility to enforce statutes, even while disputing their constitutionality in court.

In the recent controversy over the constitutionality of the legislative veto, for example, the executive branch had always respected the exercise of a legislative veto, notwithstanding the Justice Department's view that legislative vetoes were unconstitutional. In *Immigration and Naturalization Service* v. *Chadha,* 103 S. Ct. 2764 (1983), the Solicitor General explicitly stated that—

> [U]ntil and unless the court of appeals entered a decision holding the statute unconstitutional, INS intended to enforce the law.

The Solicitor General explained that the alternative approach of "ignoring a resolution of disapproval passed by one House of Congress and to cancel deportation proceedings * * * would be inconsistent with the accepted view that constitutional questions arising in the administration of a statute should, if possible, be resolved by the courts, not by the administrative agency itself." The Solicitor General concluded that the enforcement of the statute once judicial proceedings were initiated, "was not merely permissible under the circumstances, but was a responsible and wholly appropriate response to the situation."

This issue, I might add, transcends both House and party lines. Committees in both the House and Senate, Republicans and Democrats, have condemned the administration's action.

Perhaps the most extensive review of this issue was conducted by the House Government Operations Committee, under the able leadership of Representatives JACK BROOKS and FRANK HORTON. The committee received testimony from administration officials, the Comptroller General, several constitutional scholars, a representative of the American Bar Association, and others.

Charles Bowsher, the Comptroller General of the United States, supported the constitutionality of the Competition in Contracting Act and testified that:

> It is the President who has violated the separation of powers doctrine by defying a duly passed act of the Congress through the actions of the Attorney General and the Director of the OMB.

Eugene Gressman, a professor of constitutional law at the University of North Carolina Law School, agreed with Mr. Bowsher's assessment, stating that:

> If the execution of a law is to be faithful, it must be faithful to precisely what Congress has written into the law, no more and no less. But once the Executive oversteps the bounds of faithfulness, either by adding to or subtracting from what Congress has provided, then the separation of powers equilibrium established by our constitutional system tilts dangerously toward the Executive Branch.

Charles Tiefer, Deputy General Counsel to the Clerk of the House, was equally critical of the executive branch's actions in his testimony before the Government Operations Committee:

> There is not a shred of support in the record of the Constitutional Convention * * * to support the Justice Department's argument that the "faithful execution" clause was intended to allow the President to have the power of the Judiciary—to decide for himself whether he considered the laws unconstitutional, and if he felt so, to refuse to obey them. That view of Executive supremacy over the laws runs contrary both to the historic derivation of the "faithful execution" clause, and to the Constitutional Convention's stated decisions.

In fact, all of the witnesses, with the obvious exception of the Deputy Attorney General and the OMB Director, condemned the administration's decision to ignore parts of the Competition Act.

Based on these hearings, the Government Operations Committee recently issued a report, the title of which says it all: "The President's Suspension of the Competition in Contracting Act Is Unconstitutional." This report, which was endorsed by Democratic and Republican committee members alike, concludes that:

> The actions taken by the President, in unilaterally suspending portions of the Competition in Contracting Act, challenge the fundamental concepts under which our Government has operated since its inception.

In additional views, 13 Republican members of the committee emphasized their belief that the executive officials had violated the Constitution in refusing to enforce certain provisions of the Competition in Contracting Act:

> It has been clear since the Supreme Court's decision in *Marbury* v. *Madison* 182 years ago that the Judiciary, not the Executive, is charged with deciding what parts of the statutes are constitutional. The executive branch should now be carrying out all of the Competition Act. If the Attorney General believes that some provisions of that law are unconstitutional, he is free to challenge them in court. Until and unless the courts agree with his argument, however, those provisions are the law of the land. Failure to comply with them is a violation of the law.

The House Judiciary Committee also considered this issue during its April 18 hearing on the Department of Justice authorization bill. Attorney General Meese testified at the hearing and, in response to a question, reaffirmed the administration's policy that "there is a responsibility on the executive branch not to enforce a law or a portion of a law which it feels is unconstitutional." The Judiciary Committee, however, rejected the administration's policy and subsequently adopted an amendment to the fiscal 1986 Department of Justice authorization bill, which strikes all funds for the Office of Attorney General unless and until he instructs all executive officials to comply fully with the provisions of the Competition in Contracting Act. The need for this amendment, according to the report accompanying the authorization bill, results from:

> * * * the serious threat to the integrity of our constitutional system and the bedrock principle of separation of powers posed by the recent action of the Attorney General in unilaterally declaring a duly enacted statute unconstitutional and, on the basis of that declaration, in directing the entire Executive Branch to defy that statute. These actions on the part of the President and his Attorney General are unprecedented.

Finally, the Senate Appropriations Committee has spoken on this critical issue. In its report to accompany the fiscal 1985 supplemental appropriations bill, the committee issued a warning to the administration for failing to enforce provisions of the Competition in Contracting Act, stating:

> The Committee * * * reiterates the position that all provisions of (the Competition Act) should be vigorously enforced by all agencies. The Committee states a warning that agency actions will be monitored and failure to follow that law will encourage more direct and explicit action in appropriations approved by the Committee.

It is incumbent upon the executive branch to follow the law. Even though the Justice Department has been proven wrong in court and the OMB has rescinded its directive, I nonetheless believe there is an important constitutional issue at stake here. Surely such controversial and difficult constitutional issues should be decided after the presentation of divergent views in the courts, not within the confines of the Department of Justice. As PETER RODINO, the chairman of the House Judiciary Committee, wrote in his letter to the Attorney General on this issue,

> Until a judicial determination on the constitutionality of a statute, it is the responsibility of government officials, no less than average citizens, to comply with that statute.

Mr. President, I regret to say that the administration's disregard for the

rule of law is not limited to the Competition in Contracting Act. The executive's action in that case is not unique; it is not an isolated example. Rather, the administration in other areas has tried to place itself above the Judiciary in interpreting the law.

An example with which I am very familiar involves the Social Security Administration's policy of refusing to apply the rulings are circuit courts beyond the individual case in which the decision was rendered. I first learned of the Social Security Administration's so-called nonacquiesence policy during hearings that Senator LEVIN and I held to investigate the Social Security Disability Program.

At our hearings, Social Security Administration officials acknowledged that they are bound by the judgment of Federal courts in specific cases, but maintained that they had no legal obligation to follow a circuit court ruling in subsequent cases within the same circuit.

The Social Security Administration's nonacquiesence policy is set forth in the handbook containing instructions for administrative law judges to follow in deciding cases. It tells the ALJ's that they "should not consider a district or circuit court decision binding on future cases simply because the case is not appealed" when SSA believes that the court's "interpretations of the law, regulations, or rulings are inconsistent with the Secretary's interpretations."

The Social Security Administration has implemented its nonacquiescence policy by two means. In some cases, the SSA has simply ignored a circuit court decision by leaving unchanged those agency regulations which conflict with the decision. In other cases, the agency has issued Social Security rulings which specifically direct agency personnel not to abide by particular circuit court decisions.

The Social Security Administration has chosen to nonacquiescence in seven significant judicial opinions. These cases have involved some major issues, such as whether the agency should have to show medical improvement or error in the initial decision before terminating benefits, which would have significantly altered disability determinations had they been followed.

The administration's nonacquiescence policy has been widely criticized by legal scholars, the courts, Members of Congress, and even the U.S. attorney for the southern district of New York.

Jerry Mashow, a professor of administrative law at Yale University, has written extensively on the Social Security Administration's nonacquiescence policy. I'd like to quote from one of his articles which mirrors my own views on this issue.

> A strong prima facie case can be made that persistent administrative noncompliance with circuit court precedents is nothing less than official lawlessness. It clearly would be unacceptable for a federal district judge to disregard an applicable decision of the court of appeals for the circuit in which he sat, on the grounds that other circuits had a better rule or that the local decision would eventually be overturned by the Supreme Court. It would be outrageous for a policeman or magistrate to ignore a controlling judicial precedent, enforce the law according to his own lights, and invite the aggrieved citizen to "appeal if you don't like it." Many would argue that an administrative agency's refusal to give effect to the rulings of a supervising federal court, at least in cases subject to review by that court and arising within its territorial authority, is a comparable affront to the rule of law.

The effect on disabled workers of the SSA's nonacquiescence policy also is deeply troubling. When the agency issues a ruling of nonacquiescence, it, in effect, forces an identically situated claimant to go to court in order to obtain a favorable ruling and relief. As Professor Mashow has pointed out, administrative disregard of court decisions can be "cruelly unfair" to disability claimants who stand to benefit from unheeded court decisions, "giving them a hard choice between burdensome litigation and the forfeiture of their court-declared rights." According to Professor Mashow:

> The end result is a double standard: One rule, the favorable court-made rule, ultimately comes to be applied to those persevering and resourceful enough to litigate, while another rule, the unfavorable agency rule, determines the fate of those, equally deserving but less determined, who do not go to court.

The consequence of the administration's noncompliance with court precedents is to withhold from citizens the rights to which the courts have held them entitled, the rights that they have earned by paying Social Security taxes, forcing them to pursue costly judicial remedies.

The SSA's nonacquiescence policy has been the subject of virtually universal comdemnation by those courts which have considered its legality. Numerous circuit and district courts—in the second, fourth, sixth, eighth, ninth, and 10 circuits—have either expressly or implicitly rejected the administration's contention that SSA may refuse to follow a Federal circuit court decision in deciding subsequent disability cases within the circuit.

The most recent court decision on the validity of the SSA's nonacquiescence policy was issued on August 19 by Judge Leonard Sand of the U.S. District Court for the Southern District of New York. The Judge's opinion in Stieberger versus Heckler is a thorough, scholarly analysis of the issues raised by nonacquiescence.

At issue in this case was the weight to be accorded the opinion of the claimant's treating physician—as opposed to the SSA-hired consulting physician. Ten different decisions of the second circuit had established that the opinions of treating physicians in disability cases are binding on the Social Security Administration, absent substantial evidence to the contrary. Yet, the court found that the agency's rulings consistently understated the significance of the evidence submitted by the treating doctor.

In support of its finding that the agency was not following the decisions of the circuit, Judge Sand pointed to the sheer volume of cases in the second circuit in which an administrative denial of benefits was overturned due to a failure to properly apply the second circuit's treating physician rule. In the last 2 years alone, no fewer than 26 decisions have been issued by 18 different judges of the Federal district courts of New York in which a disability determination of the Secretary was overturned based upon its inconsistency with the second circuit's treating physician rule.

Judge Sand found that:

> The evidence of agency non-acquiescence in the second circuit's treating physician rule is overwhelming. One or two decisions reversing an ALJ's improper consideration treating physician opinion testimony might be nothing more than the ordinary aberrations of the administrative agency adjudicative process. The striking pattern of consistent disregard for clear, repeatedly articulated standards is evidence of a wholly different character.

Judge Sand's principal finding was that the Social Security Administration's nonacquiescence policy is "inconsistent with the constitutionally required separation of powers and effected an arbitrary and unlawful discrimination among disability claimants."

In reaching this conclusion, Judge Sand relied on many of the same precedents cited by Judge Ackerman in his ruling that the Executive's had no authority to suspend provisions of the Competition in Contracting Act. Both judges cited the landmark decision of Marbury versus Madison in finding that the administration had violated the separation of powers doctrine of the Constitution. Both courts rejected the Executive's attempt to put itself above the judiciary in interpreting the law.

Judge Sand wrote that:

> Only a fundamental reordering of this constitutional balance would permit the SSA to exercise the power to which it claims an entitlement in this case. The fundamental principles of our constitutional scheme . . . establish the authority of federal courts to render decisions which bind all other participants in our constitutional system of government. The judiciary's duty and authority, as first established in *Marbury*, 'to say what the law is' would be rendered a virtual nullity if coordinate branches of government could effectively and unilaterally strip its pronouncements of any precedential force.

Judge Sand, echoing the views expressed by Professor Mashow, also points out that the administration's noncompliance policy is blatantly unfair and discriminatory to disabled workers.

According to SSA statistics, almost half of all disability claimants are without legal representation in their attempt to get benefits. As a consequence, many are unaware of their rights and of the fact that an appeal to Federal court would reserve the agency's negative decision. A different and adverse rule governs the rights of those claimants who lack legal representation or who do not understand their right to appeal the agency's denial decision to Federal court.

Judge Sand's reasoning parallels the observation of the ninth circuit in Lopez versus Heckler, where the court held that:

If such a claimant has the determination and the financial and physical strength and lives long enough to make it through the administrative process, he can turn to the courts and ultimately expect them to apply the law. . . . If exhaustion overtakes him and he falls somewhere along the road leading to such ultimate relief, the non-acquiescence and the resulting termination stand. Particularly with respect to the types of individuals here concerned, whose resources, health and prospective longevity are, by definition, relatively limited, such a dual system of law is prejudicial and unfair.

The SSA justifies its nonacquiescence policy on the grounds that it has to run a national program. The agency emphasizes that following the decisions of different circuits would require the SSA to apply one legal standard in Connecticut but another in California. The court pointed out that greater disuniformity results from nonacquiescence since disabled individuals within the same circuit, the same State, the same town, may be governed by different standards:

We have just as much, if not more, difficulty with a policy whereby one claimant is governed by one legal standard but his neighbor, lacking in either financial resources, litigational persistence, or physical or mental stamina, is governed by another.

In rejecting the uniformity justification, the court noted that conflicting court decisions create a situation ripe for Supreme Court review of the issue and a possible nationwide resolution in favor of the agency. But the administration has not chosen to appeal the circuit court decisions where it has refused to follow the precedent established.

As an alternative to appealing to the Supreme Court, the administration could pursue a legislative remedy to an unfavorable circuit court decision by seeking congressional amendment of the Social Security Act.

In sum, the SSA has constitutional alternatives to its unconstitutional policy of nonacquiescence.

Finally, Mr. President, I would note that the administration's policy of noncompliance with certain court decisions has even been rejected by the U.S. attorney for the southern district of New York, Rudolph Giuliani, who served the Reagan administration as the Associate Attorney General before becoming a U.S. attorney. Mr. Giuliani wrote to the chief judge of the second circuit stating that:

It is our view that this policy, whatever it does permit, surely does not allow the United States Attorney's Office, HHS or any other federal agency to refuse to follow clear rules of law decided by the United States Court of Appeals . . . [T]here has never been any support to my knowledge for the notion that federal agencies within a particular Circuit could disagree with and refuse to follow clear rulings of that Circuit.

Mr. President, the administration's policy of nonacquiescence has been firmly rejected by the courts, sharply criticized by advocates for the disabled, and widely refuted by legal scholars. It is time for the executive branch to acknowledge that it does not have the powers of the judiciary and that it is bound by the rule of law.

I know there is a great reluctance on the part of some of my colleagues to raise such questions to this administration, perhaps because we feel the President is such a genial and gentle man.

The reason I take the floor is to forewarn my colleagues that we are ignoring a silent, but steady drift toward a dangerous imbalance of power under the Constitution.

I recall reading some years ago back in the mid-1970's a book written by George Reedy. It was called "The Twilight of the Presidency."

In that book Mr. Reedy traced the historical precedent for the abuse that had taken place during President Nixon's administration.

What he found was that whenever there is an overconcentration of power in the executive branch, it leads to an isolation from Congress, from the courts certainly, and from the country, and that isolation and unaccountability in turn lead to a sense of arrogance, disdain and contempt, and that arrogance ultimately results in the abuse of the rule of law.

Do not be beguiled by the geniality of a given President; he is only a temporary occupant of that office. The Constitution is equally violated whether the hand that would steal it comes wrapped in a velvet glove or a sheath of mail.

I hope my colleagues will be attentive to the fact that we have time to speak out against what is going on to raise this issue whenever and as often as possible and to seek corrective action.

THE UNPRETENTIOUS ELEGANCE OF E.B. WHITE

Mr. COHEN. Mr. President, I wish to take just a few moments this morning to talk about the passing of an extraordinary individual in our society, and discuss for a few minutes the unpretentious elegance of E.B. White.

When it is over, this century may be recalled chiefly for the overwhelming sense of impermanence it has conveyed, a sense of nervous fragility which has increased, perhaps incongruously, along with our standard of living.

Rarely during these decades of disorienting flux have voices of consistent insight, elegance, and gentle understatement been heard, voices which were not swayed by transitory passions or the myopia of the moment. Such a deft and graceful voice was stilled when E.B. White died at age 86 Tuesday. We are all the worse for his passing.

Maine had the same loving feeling about E.B. White as White had about his adopted State, and all Mainers felt a special sense of loss upon learning of his death. Perhaps no action better exemplified his lack of pretension than his decision in 1937, after 11 successful years at the New Yorker and with the New York literary world at his feet, to move to a farm in North Brooklin, ME, a farm he tended with skill and relish for the rest of his years.

It was, in part, his ability to blend these two disparate worlds which gave his writing a universal appeal. He wrote with equal crispness and tenderness about the tremor of a leaf in the afternoon sun in North Brooklin and the roar of New York City. He wrote with loving incredulity, rather than the weary acquiesence which has become fashionable, about everyday events which he found as amusing as he did fascinating.

He waged a lifelong struggle, tirelessly but utterly without vitriol, against flaccid and inexact writing. As a writer, he prized crisp, clean, deft, controlled writing, and he joined with William Strunk to produce "The Elements of Style," perhaps the most influential book ever published on the craft of writing. The mastery of form and perspective expressed in that book has given pause to all who have sailed in E.B. White's wake.

But his mastery of language was far from abstract and was matched by his creativity and imagination. This talent was seen perhaps most clearly in the characters of Wilbur, the runty pig, and Charlotte, the philosophical spider from "Charlotte's Web," a work which seems destined to endure for as long as American children read books.

Perhaps most notable in an age in which writers bask in the celebrity status which they are regularly accorded was E.B. White's reticence, his

modesty. He routinely declined interviews, honorary awards, and other outward signs of fame. He preferred to live simply within his home and his writing, fearing the obliteration of self which inevitably accompanies the pursuit of recognition.

Russell Wiggins, who used to be the editor of the Washington Post and a former Ambassador to the United Nations, and now the editor and publisher of the highly esteemed Ellsworth American, an award-winning weekly newspaper in Ellsworth, ME, wrote a column in which he said perhaps the best way to commemorate E.B. White would be for each of us to turn off our television set, which we watch so much during the course of the day or evening, and pick up one of White's essays or perhaps one of his letters.

Last evening I opened Mr. White's book of collected letters and in the opening introductory item was a brief autobiographical sketch of Mr. White drawn of himself, and I will only quote the last portion of that. He is talking about his relationship with a young girl. He said:

We didn't talk much, never embraced, we just skated for the ecstasy of skating—a magical glide. After one of these sessions, I would go home and play Liebestraum on the Autola, bathed in the splendor of perfect love and natural fatigue. This brief interlude on ice, in the days of my youth, had a dreamlike quality, a purity, that has stayed with me all my life; and when nowadays I see a winter sky and feel the wind dropping with the sun and the naked trees against a reddening west, I remember what it was like to be in love before any of love's complexities or realities or disturbances had entered in, to dilute its splendor and challenge its perfection.

When E.B. White was asked what he cherished most in life he said:

When my wife's Aunt Caroline was in her nineties, she lived with us. She once remarked: "Remembrance is sufficient of the beauty we have seen." I cherish the remembrance of the beauty I have seen. I cherish the grave, compulsive world.

To that, Mr. President, I would add and it has cherished him.

Mr. President, I ask unanimous consent to have printed in the RECORD an article by Russell Wiggins entitled "What E.B. White Had to Say."

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Oct. 2, 1985]

WHAT E. B. WHITE HAD TO SAY

(By James Russell Wiggins)

ELLSWORTH, ME.—E. B. (Andy) White, who died Tuesday morning at his home in North Brooklin, was a many-sided man who cherished the companionship of neighboring farmers, fishermen, carpenters and craftsmen and that of scholars and statesmen. He was one of America's foremost essayists, the distinguished editor of The New Yorker and author of many books.

Some of the secrets of his writing success can be found in "The Elements of Style," on which he and William Strunk collaborated. The first edition of that book ran to 2 million copies, and there have been many subsequent editions. That single work has made a great contribution to the written word, but it did not disclose the real secret of his great success as a writer. The secret of his writing—whether it was in "Charlotte's Web" or in his commentaries on national and foreign affairs—was that he had something to say, and that he had an urge to say it.

In a conversation in the last few weeks of his life he said, sorrowfully, "I have so much to tell and so little time to tell it."

He left in his published works a veritable monument to his industrious response to the impulse to write. He had something to say—something he felt his fellow man ought to hear, and he was committed to saying it with the utmost care, with precision, with accuracy and so devised as to achieve the exact effect for which he was striving. His conversation like his writing was filled with wisdom, wit and humor. He viewed life seriously but delighted in its lighter side. He loved the association with good friends and old companions. He was curiously shy and retiring, refusing all manner of invitations to public appearances (even, or perhaps especially, those devised to honor him). He shrunk from interviews to which he seldom consented.

A notable aspect of his writing and thinking was in his individuality and originality. He fit no mold. Many American intellectuals have strongly disliked big cities. He wrote about them with great perception and genuine affection. At the same time, he loved rural life, delighting in the behavior of domestic farm animals and wild creatures, intrigued by his bantam chickens, his Wyandotte laying hens, geese, sheep and dogs. He brought his two natures together in the portraits of Brooklin village life he wrote for The New Yorker.

He will be greatly missed by the people of this community, among whom he has lived for many years, and by many in the wider world beyond it about which and for which he has written; but fortunately he has left much of himself in the books, essays, editorials and poems that will continue to delight his readers, young and old, throughout the land.

Mr. COHEN. Mr. President, I yield the floor.

RECOGNITION OF SENATOR GOLDWATER

The PRESIDING OFFICER (Mr. KASTEN). Under the previous order the Senator from Arizona is recognized for not to exceed 15 minutes.

Mr. GOLDWATER. I thank the Chair.

I wish to take this opportunity to thank my friend for the great remarks he has just made about Mr. White in which I concur.

THE JOINT CHIEFS OF STAFF AND THE UNIFIED COMMANDS

Mr. GOLDWATER. Mr. President, today Senator NUNN and I give the third in our series of speeches on problems in the organization of the Department of Defense. Our subject today may be the most important because it deals with the Joint Chiefs of Staff and the unified commands. These are the organizations and the men who help make the decisions to go to war and who will command our military forces in the field if we have to fight again.

I would like to begin with a brief history of the Joint Chiefs and then outline some of the serious problems with the current organization. Senator NUNN will then talk about the unified commands and the significant problems we have in conducting joint operations.

Mr. President, I want to make it perfectly clear at the outset that nothing that I say today cases any reflection upon any member of any Joint Chiefs of Staff we have had. I happen to have known all of the men who served in that capacity since the organization was formed in 1947. I have served with many of them. I hold them in the highest respect. They have devoted their lives to the service of their country. The shortcomings, Mr. President, are not in the men, the shortcomings are in the office.

HISTORY OF THE JCS

Before World War II, a joint board of the Army and the Navy coordinated certain interservice activities. However, it could not direct the Army and the Navy in wartime operations. Instead, it only provided advise. Shortly after the United States entered World War II, President Roosevelt informally created the Joint Chiefs of Staff in order to work with the British Chiefs of Staff in a new supreme military body, the Combined Chiefs of Staff. The military played an extremely important leadership role in the war. They worked very closely with the President and planned and directed U.S. military operations throughout the war. However, there were clear liabilities and problems, some of which we outlined yesterday. Winston Churchill observed about these arrangements:

I am increasingly impressed with the disadvantages of the present system of having Naval, Army and Air Force officers equally represented at all points and on all combined subjects, whether in committees or in commands. This has resulted in a paralysis of the offensive spirit.

NATIONAL SECURITY ACT OF 1947

Two years after the end of World War II and based on many of the "lessons learned," Congress passed the National Security Act of 1947 which remains today the foundation for the U.S. national security establishment. It established the Joint Chiefs of Staff as a permanent body. The members are the Chairman, the Chief of Staff of the Army, the Chief of Naval Operations, the Chief of Staff of the Air Force and the Commandant of the Marine Corps. The staff which supports the JCS numbers about 1,200 military personnel and is drawn in ap-

proximately equal number from each of the military departments.

The act also provides that the Joint Chiefs of Staff, subject to the authority and direction of the President and the Secretary of Defense, shall prepare strategic plans, prepare joint logistical plans, establish unified commands in strategic areas, formulate policies for joint training, and act as the principal military advisers to the President, the National Security Council and the Secretary of Defense.

There are a number of things to point out about the Joint Chiefs.

First, they consist of the individual service chiefs who are daul-hatted as members of the Joint Chiefs. They serve both as heads of their respective services, primarily concerned about that service's personnel, training and equipment, and as the joint advisers on a wide range of military matters. Thus, they are called on to do an almost impossible task: To represent their own service's viewpoint but, simultaneously, to sacrifice that view to the greater common good of joint considerations.

Second, they do not have command over any of the forces in the field. Command in wartime is by the field or unified commanders who, by law, report directly to the Secretary of Defense and the President. The President is, as you know, the Commander in Chief. By regulation, the chain of command runs from the Secretary through the JCS to the unified commanders.

Third, as a joint body they have almost no role in resource allocation. In fact, their role in budgetary matters is to argue for their own service programs as part of the resource allocation process.

All these factors combine to create serious problems that plague us to this day, including:

The inability of the JCS to provide useful and timely military advice; the poor performance in joint operations; the inadequate quality of the staff of the Organization of the Joint Chiefs; the confused command lines, and the lack of adequate advocates for joint interests in budgetary matters.

Many of these problems have their roots in the fact that the services continue to dominate the JCS structure. I regret to conclude after years of observing this process that the system is such that the members of the Joint Chiefs rarely override their individual service allegiances. When the rope from the individual services pulls in one direction and the rope from the Joint Chiefs pulls in the other direction, the individual services invariably win that tug-of-war. The services win the tug-of-war, but the country loses.

POOR ADVICE BY JCS

A number of distinguished Americans who have served in key positions as well as a number of studies have all concluded that the JCS do not provide useful and timely military advice to their civilian superiors. Former Secretary of Defense James Schlesinger has said:

> The central weakness of the existing system lies in the structure of the Joint Chiefs of Staff . . . . the recommendations and the plans of the Chiefs must pass through a screen designed to protect the institutional interests of each of the separate Services. The general rule is that no Service ox may be gored. If on rare occasions disputes do break out that adversely affect the interests of one or more of the Services, the subsequent turmoil within the institution will be such as to make a repetition appear ill-advised.
>
> The unavoidable outcome is a structure in which log-rolling, back-scratching, marriage agreements, and the like flourish. It is important not to rock the boat.
>
> . . . The proferred advice is generally irrelevant, normally unread, and almost always disregarded.

Reports commissioned by the executive branch in 1949, 1960, 1970, 1978, and 1982 reached these same conclusions. I regrettably have also reached the same conclusion: the Joint Chiefs do not provide useful and timely military advice.

There are several examples of this in the Kennedy administration. Early in his administration, President Kennedy relied on the Joint Chiefs of Staff for advice on two major issues: first, was an assessment of the chances of the CIA-trained Cuban guerrillas in the Bay of Pigs invasion; second, was the situation in Laos and whether U.S. forces would be needed to put down a Communist insurgency.

Shortly after he took office, President Kennedy was briefed on the CIA plan for the Bay of Pigs invasion. He asked the Joint Chiefs of Staff to conduct a thorough examination of the plan. According to Arthur Schlesinger, and again I am quoting:

> The Joint Chiefs of Staff . . . pronounced favorably on the chances of initial military success. The JCS evaluation was, however, a peculiar and ambiguous document.

Schlesinger goes on to note that there was "plainly a logical gap" and "inconsistencies" in the JCS analysis of whether or not the CIA operation would succeed. With this muddled advice, is it any wonder that the operation was a dismal failure?

Concerning Laos, Schlesinger says that President Kennedy was "appalled" at the sketchy nature of American military planning for Laos, and I quote—"the lack of detail and the unanswered questions."

In fact, President Kennedy was so dismayed at the advice he was getting from the Joint Chiefs that he said "My God, the bunch of advisers we inherited * * * can you imagine being President and leaving behind someone like all those people?"

One result of the failure to provide useful and timely military advice is that senior civilian officials rely on civilian staffs for counsel that should be provided by professional military officers.

POOR STAFF AND PROCEDURES

The Organization of the Joint Chief of Staff, or OJCS, consists of a number of offices and agencies that have been set up to provide staff assistance to the JCS. They do some of the most important staff work in the Department of Defense. But it is widely accepted in the services that it is not a good career step to serve on the Joint Staff. An officer's prospects for promotion and command are much better if he or she serves on their own service staff. This reaction has its roots in the same problem that leads the service chiefs to see their first duty as protecting their own services. Some services have even acknowledged that in their personnel system, duty on the joint staff is a low priority. For the most part, military officers do not want to be assigned to joint duty where they are pressured or monitored for loyalty by their services. They are not prepared by either education or experience to perform joint duties. As a result, their training must be on-the-job, and then they serve for only a short period of time.

Moreover, the method under which the Joint Chiefs operate leads to complexity and confusion. One of the principal operating assumptions of the Joint Chiefs is that they should reach unanimity in rendering advice. This means that watered-down, compromise positions must be worked out. Thus, the advice is often mushy and poorly presented. For example, retired Gen. Bruce Palmer, a former Army Vice Chief of Staff, has recently written about the Chiefs' performance during the Vietnam war, and I quote:

> Despite the fact that unanimity did not really exist among the Chiefs with respect to the air war, the JCS consistently submitted agreed recommendations to the Secretary of Defense and ultimately to the President.

This desire for unanimity that leads to the lowest common level of assent also greatly limits the range of alternatives offered to the Secretary of Defense.

The staffing procedure in the Joint Staff is enormously elaborate and cumbersome. It is worth describing for a moment. If the Joint Chiefs are asked for their position on, for example, an arms control issue, the Chiefs may ask the Air Force to do the first draft of a position paper. The paper is then circulated to the staffs of all the services and the organization of the Joint Chiefs of Staff where it goes through a series of reviews by increasingly higher ranking officers. If the JCS finally approves the paper, it is then red-striped; that is, typed of white paper with a red stripe around it. This is the position of the Joint

Chiefs. As you can imagine, the paper gets increasingly watered down as it moves through the process.

This cumbersome staffing procedure is another reason that good officers are discouraged from serving on the Joint Staff.

I know one thing, it leads to confusion.

OTHER PROBLEMS

Mr. President, there are a great many other problems with the JCS but I have highlighted only a few of them here this morning. Other problems include inadequate review of contingency plans, insufficient participation in decisions to allocate resources, and inadequate attention by the JCS to strategic planning. For example, retired Gen. John H. Cushman has written that the JCS "have published no how-to-fight doctrine at all. * * * But [only] guidance on organization and command relationships."

Now, Mr. President, interservice rivalry can be a good thing. Indeed, we wish to encourage competing views reaching senior-level decisionmakers. But the JCS process does not encourage independent thought. Previously I mentioned that President Kennedy was unhappy with advice he had gotten from the Joint Chiefs of Staff concerning Laos. As a result, he asked each of the service Chiefs to submit their individual views to him in writing. He was very pleased by the results because he got a much more candid and useful analysis directly from each of the Chiefs than he could get from them operating as a corporate body.

Therefore, any changes that are considered must assure that the Secretary and the President continue to have access to dissenting views by any of the service Chiefs.

But the services have got to understand that they must work together. They must put national interest above service interest. One of my favorite stories is told by Joe Lattin, a former Pentagon spokesman. As he tells it, on one occasion, the Chief of Naval Operations boasted to the Joint Chiefs of Staff about a successful naval operation. "Well, once again the Navy has saved the Nation," he said. Retorted a civilian who was present, "Well, Admiral, now that you have saved the Nation, how about joining it?"

Mr. President, one final point before I yield to Senator NUNN. It is true that there are problems with the Joint Chiefs. But by being critical of the Joint Chiefs, I do not intend to criticize individual service Chiefs or individual Chairmen. It is the system that has created the problems and it is the system that we must fix.

I want to alert my colleagues to the fact that the issues we are dealing with will generate a lot of interest and emotion in the Pentagon. You will hear over and over again the old maxim: "If it ain't broke, don't fix it." Well I say to my colleagues: It is broke and we need to fix it.

It is my pleasure and distinct honor to yield to my good friend from Georgia, Senator NUNN, an outstanding expert in the field that we are discussing.

RECOGNITION OF SENATOR NUNN

The PRESIDING OFFICER. Under the previous order, the Senator from Georgia, Mr. NUNN, is recognized for not to exceed 15 minutes.

Mr. NUNN. I thank the Chair.

Mr. President, the distinguished chairman of the Armed Services Committee has addressed the subject of the Joint Chiefs of Staff with the wisdom and experience he has acquired in over 40 years of service to this country. All of us should listen very carefully to what he has said because he speaks with great authority on these matters of such importance.

Chairman GOLDWATER's discussion of the Joint Chiefs of Staff is right on the mark. Gen. David Jones, a former Chairman of the Joint Chiefs as well as a service Chief, has described how the Chiefs spent an entire afternoon arguing over which service should provide the new attaché at our Embassy in Cairo. Now why, Mr. President, do we need five four-star officers sitting around all afternoon arguing about such a minor personnel matter?

I would like however to turn to another problem area, the unified commands. These are the major field or war-fighting commanders of our military.

Many people do not recognize it; but the services in Washington do not lead the war. The commanders in chief in the field are our commanders in wartime.

One of the lessons of World War II was that there should be unified commands in important strategic areas of the world. By unified commands, we mean commands that have forces assigned to them from two or more different services and are responsible for an entire part of the world. Examples are the U.S. European Command which covers NATO, the U.S. Atlantic Command which covers the Atlantic Ocean and the U.S. Pacific Command which covers the Pacific. Each is commanded by a four-star officer. By a tradition that almost amounts to a law, certain commanders always come from the same services. For example, the commanders in chief of the U.S. Atlantic Command and the U.S. Pacific Command are always Navy Admirals and the commanders in chief of the U.S. European Command is always an Army general.

Each of these unified commands have individual service components and each component has its own service commander.

The need for unified commands is well documented in President Eisenhower's 1958 quote in proposing changes to the National Security Act. Senator Goldwater read it yesterday, but it is worth repeating:

> . . . Separate ground, sea, and air warfare is gone forever. If ever again we should be involved in war, we will fight it in all elements, with all services, as one single concentrated effort. Peacetime preparatory and organizational activity must conform to this fact. Strategic and tactical planning must be completely unified, combat forces organized into unified commands, each equipped with the most efficient weapons systems that science can develop, singly led and prepared to fight as one, regardless of service.

That advice is just as sound today, in my view, as it was in 1958. It was not followed in 1958 and it is, regrettably, not followed today.

This principle is stated more succinctly by Napoleon and his quote is worth repeating as well:

> Nothing is so important in war as undivided command.

Well, Mr. President, I regret to report to you today that we have unified commanders but divided commands. In practice, the unified commander somewhat controls his joint staff but the services control the component commands. The unified commander reports to the Secretary of Defense and the President, but his subordinate commander reports directly to his respective service chief as well as to the unified commander.

This situation exists because when the unified commands were established, the services were reluctant to integrate and subordinate their forces into the multiservice unified commands. As a result, they developed the "Service Component Command" as the next level beneath the unified commander. Thus, the U.S. Pacific Command is headed by a Navy admiral who is the commander in chief, but under him are the component commands of the Army, Navy, and Air Force, which are also headed by four-star officers—except the Army commander who has three, but I am sure the Army would love to give him a fourth star. Each of these component commands are a uniservice command. There is essentially no unified command below the level of the commander in chief and his staff.

In answer to questions posed to him by the Defense Authorization Conference Committee in 1984, Adm. William Crowe, then the unified commander in chief of the Pacific, and now Chairman of the Joint Chiefs of Staff, addressed the issue of unity of command. He responded:

> Component commands are independent entities organized and commanded on a day-to-day basis along unilateral service lines . . . In the present elaborate command structure the component commander is in two command lines—one to the unified com-

mander and one to his service chief. There are good and sufficient reasons for this, but the definitional lines between the two are often muddy. In turn, this situation diffuses authority and complicates operational/strategic decisionmaking. In pursuing such differences, the component commander by virtue of his position and future in the general service hierarchy is often placed in the position of being more an advocate for his service than the theater command. To be more effective, the unified commander's authority in strategic and operational matters needs better and broader definition, i.e., to include more voice in influencing service logistics and training decisions which affect his operational/strategic responsibilities.

In addressing the same question, the commander of the Readiness Command, Gen. Wallace Nutting, said:

There is no unification below the unified command echelon. In this circumstance, the degree of operational unification in the Readiness Command and between its components is decidedly insufficient.

Moreover, the individual services retain the responsibilities to train, equip, organize, and station their own service personnel. Therefore, the Army, for example, is responsible for organizing, training, equipping, and stationing all of the Army forces assigned to the U.S. Pacific Command. The commander in chief of the U.S. Pacific Command must fight with what the Army gives him and with where they have been put by the Army. He has very little role in determining what Army forces are assigned to him, how they are equipped, how they are organized, and where they are located. This same situation applies in the other geographic areas as well.

For example, the individual services decide how much and what kind of ammunition to buy and where to store it. One commander in chief recently complained that one of his service component commands had decided to move some ammunition to a new location which was inconsistent with his war plans. The commander in chief had no authority to order the service component commander, who also had four stars, to keep the ammunition where it was. He could only use his persuasive powers and, in the end, had to settle on a compromise result that was not satisfactory to the commander in chief.

Mr. President, this is a sad state of affairs when the man in charge of fighting the war cannot tell his subordinates to store ammunition where the war plan requires. I guess, Mr. President, that we could change the war plans to suit where the individual services want to store their ammunition and hope that the enemy will agree to fight in that location, but that is not the desired course, obviously.

In addressing the issue of whether or not there is an imbalance between their responsibilities as an operational commander and their influence over resource decisions, several of the field commanders answered as follows:

Gen. Bernard Rogers, commander in chief of the European Command:

There is an imbalance between my responsibilities and accountability as a unified operational commander and my influence on resource decisions . . . . There remains in Washington a preeminence of service goals in the program and budget process.

General Nutting of the Readiness Command:

There is an imbalance between my operational responsibilities and influence over resource decisions . . . . The system as it is presently constituted depends inordinately on cooperation and goodwill in order to function—which is to say the present system contains internal contradictions.

Admiral Crowe, as commander in chief of the Pacific Command:

On occasion the results of major service decisions, not previously coordinated with me, have affected my ability to execute [my command's] strategy . . . . In the field of logistics, except for the influence I am able to exercise in the development of service program priorities, I am dependent on my component commanders not only to compete successfully for sustainment resources within their service [plans] but also to represent me in balancing and distributing stocks, ammo, petroleum, etc., in locations and ways that support my theater strategy. Therefore, until the [unified commanders] have a greater input into general logistical matters, the unified command's plans and strategy remain largely dependent upon the degree of service chief support my component commanders and I are able to obtain.

In addition, having independent component commands leads to an enormous layering of bureaucracies. A senior Navy admiral recently observed privately that in the Mediterranean we have one carrier and six staffs whereas it ought be the other way around. The report on the Beirut bombing discussed the problems inherent in the layering of commands. Including the Joint Chiefs, there were eight distinct layers between the marines on the ground and the Secretary of Defense. The fact that we have a proliferation of headquarters and bureaucracies is evident in the following statistics:

On June 30, 1945, there were 12,123,455 men and women on active duty with 17,057 officers at the rank of O–6 and above including 101 three-star generals and admirals. On May 31, 1983, there were 2,127,422 men and women on active duty—roughly 10 million less—with 15,455 officers at the rank of O–6 and above, including 118 three-star generals and admirals, 17 more than in 1945.

I have said somewhat facetiously in the past that apparently it takes more admirals and generals to wage peace than to run a war.

There are reasons for this. It is a complex matter, but generally it is rather obvious that one of the biggest problems here is that there is too much command structure in terms of headquarters and in terms of layering.

This proliferation of bureaucracies and lack of unity can be very costly. Chairman GOLDWATER explained yesterday that when the *Pueblo* was seized in 1978, the command lines in the Pacific between the component commands were so confused that it was not possible to respond in a timely fashion. Today, those very same command lines exist. The only thing that has changed is that we now have improved communications and we have hopefully learned that we must be better prepared to protect ships like the *Pueblo*. However, the fundamental problem of the lack of unification below the level of the unified commander remains.

The power of the component commands, backed up by the individual services in Washington, makes joint planning very, very difficult. Recently, our committee has been looking into the lack of joint planning and coordination by the military services on wartime medical readiness in the Department of Defense. The results are scary, to say the least.

In the aftermath of the bombing of the Marine Corps barracks in Beirut 2 years ago, the Long Commission concluded that the on-scene medical care provided by U.S. personnel was heroic. However, the Long Commission Report also raised serious questions about the adequacy of wartime medical readiness planning in the U.S. European Command. As a result, Secretary Weinberger ordered a thorough review of wartime medical readiness planning in the European and Pacific Commands.

These reviews, Mr. President, were carried out by senior military medical officials, and revealed very serious deficiencies in joint service planning for wartime medical care. The details of these reports are classified, but their basic conclusions are not: There is a serious lack of joint planning by the military services in both the European and Pacific Commands in the area of wartime medical readiness. This problem both exists and is compounded because of the very limited capability for joint command and control of medical planning and medical resources within the theater by the staff of the unified commander.

Let me just mention two illustrations of this problem from the hearings of the Manpower and Personnel Subcommittee. Rear Adm. James A. Zimble, the chairman of the study of wartime medical readiness in Europe, pointed out in the introduction to his study that:

Although no lives were lost that could have been saved, all those who have reviewed the events of October 23 [that is, the bombing of the Marine Corps barracks in Beirut] agree that had the ratio of killed outright-to-wounded been reversed, so that

over 200 casualties had required treatment, rather than fewer than 100, the medical system might well have failed. Such is the measure of our medical readiness today.

Mr. President, this is a very sad and serious commentary by a senior military medical officer on the state of our medical readiness in a part of the world where we could have to treat many hundreds, even thousands, of casualties on a daily basis in the event of war.

He is saying that 200 casualties would have broken down the system. What can we expect if we ever have to really fight a war in that area?

In another example, we learned that the Air Force was planning to evacuate a particular hospital in Europe in the event of war because it believed that the hospital would be destroyed almost immediately. At the same time, the Army was planning to move in and use the same hospital after the Air Force left. Now, Mr. President, who is in charge over there anyway? There is no excuse for this type of situation.

An even more disturbing revelation from the hearings was to learn that the senior civilian leadership of the Pentagon is fully aware of these problems, is trying to address them in a meaningful way, but so far is not having much success due to the resistance of the individual services as well as the JCS.

The two reports on wartime medical readiness planning included a number of specific recommendations: To provide adequate medical planning staffs for the unified commanders; to reconcile inconsistencies in planning and procedures for the control and use of the aeromedical evacuation system in wartime; to establish joint command and control over medical planning and medical resources; and to direct joint utilization of medical resources in wartime.

Dr. William Mayer, the Assistant Secretary of Defense for Health Affairs, told the Manpower and Personnel Subcommittee 2 weeks ago that although a great deal of discussion has taken place about these problems over the last year and a half, "to date few definitive actions have taken place."

Mr. President, Dr. Mayer's testimony is a frank and candid admission that the senior civilian leadership in the Pentagon has so far not been successful in their efforts to direct the type of joint planning and cooperation by the military services that will be essential to providing adequate medical care for our soldiers in time of war. When the civilian leadership of the Defense Department makes this admission, it is time for Congress to do something about this structural problem.

Finally, Mr. President, I would like to comment on the chain of command. There is, unfortunately, confusion over how the chain of command runs from the President to the unified commands. Under the law, the President, through the Secretary of Defense, "shall * * * establish unified combatant commands." The statute also provides that "combatant commands * * * are responsible to the President and to the Secretary for such military missions as may be assigned to them by the Secretary with the approval of the President." Most people read this to mean that the Secretary of Defense is in the chain of command. It should be noted that the Joint Chiefs are not, by law, in the chain.

However, by regulation, the Secretary of Defense has determined that the chain of command runs from the President to the Secretary of Defense and through the Joint Chiefs of Staff to the commanders in chief of the unified commands.

Many commanders in chief of the unified commands have complained that they are not certain whether their boss is the Chairman of the Joint Chiefs or the Secretary of Defense. In a crisis, whom do they talk to? The answer is, it varies from individual to individual. Some commanders in chiefs have dealt directly with the Secretary of Defense, while others have chosen to go to the Chairman. Some have even dealt directly with the President. This ambiguity should be eliminated and the command relationship should be clarified.

Some previous members of the Joint Chiefs have believed they were in the chain of command and have acted as if they were.

As an example Mr. President, of the serious problems this can cause, I would like to close with an incident that occurred during the Cuban missile crisis. Secretary of Defense McNamara wanted to find out exactly how the Navy would implement the blockage which had been ordered by the President. According to Graham P. Allison's book, "Essence of Decision—Explaining the Cuban Missile Crisis"—Secretary McNamara went to the Navy Flag Plot where he put his questins harshly.

Precisely what would the Navy do when the first interception occurred? [The Chief of Naval Operations, Admiral] Anderson replied that he had outlined the procedures in the National Security Council meeting and that there was no need to discuss it further. . . . McNamara returned to the line of detailed questioning. Who would make the first interception? Were Russian-speaking officers on board? How would submarines be dealt with? At one point McNamara asked Anderson what he would do if a Soviet ship's captain refused to answer questions about his cargo. At that point the Navy man picked up the Manual of Naval Regulations and, waving it in McNamara's face, shouted, "It's all in there." To which McNamara replied, "I don't give a damn what John Paul Jones would have done. I want to know what you are going to do now." The encounter ended on Anderson's remark: "Now, Mr. Secretary, if you and your Deputy will go back to your offices, the Navy will run the blockage.

Is this civilian control, Mr. President?

Mr. President, this example illustrates the importance of these issues. In times of crises, the chain of command and the division of responsibilities must be clear. Individual service interests must not prevent effective joint action. Senator GOLDWATER quoted the wise observation of President Eisenhower that separate land, sea, and air operations are gone forever. It is because we still have not learned those lessons, that the Armed Services Committee's Task Force on Defense Organization is looking into the problem. This is a big challenge, Mr. President, but it is one we must meet.

I agree with Chairman GOLDWATER: The system is broke and it must be fixed.

Mr. President, I yield the floor.

TIME EXTENSION

Mr. DOLE. Mr. President, I ask unanimous consent to extend until 12:30 p.m. the time for special orders, plus the time for morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF SENATOR PROXMIRE

The PRESIDING OFFICER (Mr. HEINZ). Under the previous order, the Senator from Wisconsin [Mr. PROXMIRE] is recognized for not to exceed 15 minutes.

Mr. PROXMIRE. Mr. President, I thank the Chair.

WHAT HAPPENED TO THE AMERICAN PASSION TO END THE NUCLEAR ARMS RACE?

Mr. PROXMIRE. What challenge poses the most serious threat to human life today? Answer—easy. What is it? Nuclear war. For 40 years—since the first and only nuclear bombs dropped in wartime on Hiroshima and Nagasaki—no nuclear weapon has killed anyone. Why has no country used this most devastating of all military weapons? Answer: One reason: We have been extraordinarily lucky. The nuclear arms race has speeded on between the two massive superpowers. The nuclear club—those nations which the world knows have nuclear arsenals—halted at just five countries more than 20 years ago. Since then other countries—notably Israel, India, and Pakistan—have been rumored to have developed a relatively modest number of nuclear weapons. But for a series of reasons that few have even speculated about the spread of nuclear weapons, so feared in the 1950's and 1960's, has not occurred.

This year, in July and August—the quiet news months and the 40th anniversary of the first nuclear bomb attacks—the media discussed nuclear weapons in some depths. But people throughout the world have started to live calmly, almost indifferently, with this terrible overhanging nuclear threat. And yet the prospect of nuclear war persists as a grim and permanent fact of life. With each passing year, there seems to be less passion or even concern about policies of this superpower, this United States, that may lead to the last war. In July, Gorbachev, the Russian head of state, announced that from August 5 until the end of 1985 the Soviet Union would forego any nuclear test explosions. Gorbachev invited the United States to join in the moratorium and to suspend nuclear weapons testing while negotiating for an agreement permanently stopping all nuclear weapons tests. In the considered judgment of this Senator, the Reagan administration made a serious mistake, a world class blunder in failing to take Mr. Gorbachev up on his proposal. Why did our President fail to do this? The administration gave a series of reasons: First, the Gorbachev proposal was a grandstand play. Second, said the administration, the Soviet Union had just finished its own series of tests. Gorbachev simply wanted to stop the United States from conducting its tests. Third, said the President, the two superpowers should get on with the on-going arms control negotiations at Geneva. According to the President, both superpowers should agree to reduce the number of nuclear weapons—until nuclear weapons are eliminated and then, President Reagan argued, there would be no need for testing; there would be no nuclear weapons.

Mr. President, the astonishing thing about this exchange between the heads of the two nuclear superpowers was the incredible performance of the American media. The Soviet media always performs in a completely predictable manner. They are supine, serving as a mindless, automatic mouthpiece of their Kremlin masters. But we expect something far different and better from the great independent American press. But did we get it? No way. The American media rolled over on this one like perfectly trained Communist stooges. They accepted the President's feeble alibis for failing to negotiate an end to nuclear testing without a challenge.

Mr. President, this is a serious tragedy. Nuclear weapons testing is the very heart of the arms race. Five minutes of consideration by any person of normal intelligence will convince such a person that the superpowers will not stop or even arrest the arms race by reducing the appalling numbers of nuclear weapons on both sides, even if superpowers agree to cut their arsenals in half or by three-quarters or by 90 percent. Numbers reduction cannot do the job. Why not? Because research in new weapons and the testing that is essential to give that research validity will develop new weapons, more devastating than ever. Breakthroughs with antimatter bombs, for instance, will shoot the nuclear arms race off on a new and more reckless course than ever. That will happen no matter how restrictive an agreement the superpowers work out with respect to their present nuclear arsenal, unless the superpowers agree to stop the crucial testing of new weapons. The American media has ignored this cardinal point. They have also failed to challenge the President to live up to the solemn promise this country has twice made in international treaties to stop nuclear testing. We made this promise in 1963 in the preamble to the Limited Test Ban Treaty. We made it again in 1974 in the body of the treaty that limited the size of underground weapons tests.

Finally, Mr. President, why not stop this testing? Why not? What do we expect these tests to do except to produce even more devastating weapons of death and destruction? What other purpose exists for them? There is none. Yes, indeed, our scientists have been consistently ahead of Soviet scientists. If anyone could win this arms race, the United States would very likely win it. But no one can win it. Everyone will lose in a nuclear war and that includes the United States. All of us should repeat that truth 10 times a day, every day. And we should negotiate arms control agreements on the basis of it. That means we negotiate a total end to nuclear testing now.

MYTH OF THE DAY: ECONOMIC FORECASTS ARE REASONABLY RELIABLE

Mr. PROXMIRE. Mr. President, every day we worry about the deficit and nearly every day we debate what should be done about it. Is it going to be $170 billion, or $200 billion, or even $225 billion? The truth is, aside from knowing that it is too large, no one—not even Nobel Prize winning economists—can tell you.

Every estimate of the size of the deficit is based on a fallible human forecast of what the economy will do. Year after year the forecasts are wrong. We—the administration and the Congress—have come to use these projections almost unthinkingly. Sure, we debate whether to use a higher or lower estimate of how fast the economy will grow. But our debates are based on the assumption that one projection is better—more accurate—than another.

Are our debates based on reason or are we arguing over a myth? Let's look at the record. Since 1970, the major economic forecasters have missed just about everything. It is really a joke at how incredibly incompetent the forecasters have been. The consensus of economists missed the 1973–75 recession, the 1978–79 inflation, the 1980 recovery, the 1981–82 recession, the strength of the 1984 recovery, and the slowdown this year. In other words, economic forecasts made 1 year ago in advance missed nearly every major turn in the economy during the past 15 years. The one sure thing you can bet on is that the forecast will be wrong. When it comes to those economic changes which hurt—high unemployment and inflation—economic forecasts have consistently missed the mark.

Given this record, why do we continue to make fiscal policy based on these forecasts? Well, they satisfy one of the most fundamental yearnings of the human intellect—to foresee the future. From that dim day in prehistory, when a shaman convinced his chief that the omens were favorable for battle the next day, to today, when computers grind away at complicated statistical models, we keep trying. The computer is no better than the shaman. We continue to be disappointed.

A danger lurks behind our use of these forecasts. A good rule of thumb in undertaking any risky endeavor is to prepare for the worst but to hope for the best. All too often, in making economic policy, we do exactly the opposite.

THE PLIGHT OF THE TURKISH MINORITY IN BULGARIA

Mr. PROXMIRE. Mr. President, I recently received a letter from Ali Ferda Sevin who is the first vice president of the Assembly of Turkish American Associations. Mr. Sevin enclosed the following statement, purportedly from a Bulgarian citizen of Turkish origin.

> On January 22, the Bulgarian Army came to our towns with guns, armored trucks and tanks. It seems like we're in a war. The following morning the soldiers were going from door to door and calling everyone to come to the City Hall to have their passports made with their new Bulgarian names, which are given to them by the communist regime, at the same time (they) are forcing them to sign certain forms saying that they are changing their names of their own free will. People who are resisting said orders are being punished, beaten, raped and many of them have been killed.

The Assembly of Turkish American Associations believes that the Bulgarian Government is currently practicing physical and cultural genocide on the people of Turkish origin who live within its borders. The assembly has learned through diplomatic sources from what they consider "reliable

sources" that as many as 200 people have died in this barbaric campaign.

According to Sevin, the Bulgarian Government has made it virtually impossible for the Turkish minority, who comprise 10 percent of Bulgaria's 9 million citizens, to retain their cultural identity. A Bulgarian citizen of Turkish origin cannot be issued a birth certificate or a marriage license unless they have a Bulgarian name. In addition, without a Bulgarian name, they cannot be employed or travel.

The Assembly of Turkish American Associations further believes that Turks in Bulgaria are not allowed to engage in professions of their own choice because the Bulgarian Government restricts them to heavy manual labor. Finally, the assembly has also learned that Turks are not allowed to repair and renovate their homes and mosques, which restricts their rights of dwelling and worship.

The Bulgarian Government recently denied that Moslems were in any way restricted in their right to worship, and it issued a statement signed by Moslem leaders in Bulgaria. However, this statement made no reference at all to the rights of ethnic Turks.

Mr. Sevin asks, as a Turkish-American, that our Government condemn these despicable acts, and that the United States do all that it can to force the Bulgarian Government to cease its attempts to culturally eliminate the peaceful Turkish minority within its borders.

He is absolutely right. We must do everything we can to protect the rights of the ethnic Turkish population in Bulgaria. We should investigate further to determine if the provisions of the Genocide Convention are applicable to this situation. But if we do, the Bulgarians may simply shrug off our questions by saying that, since we are not a party to the Genocide Convention, we have no right to investigate their actions.

Mr. President, we are approaching a vital period for the Genocide Convention. The United States should and must ratify this crucial treaty right now so that we can focus world attention on the plight of the Turks in Bulgaria and of other threatened minorities elsewhere. We cannot afford to delay ratification again. If we do, it may mean the end of the Turkish population in Bulgaria.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. There will now be a period for the transaction of routine morning business.

THIRTEENTH ANNIVERSARY OF THE ABM TREATY

Mr. HART. Mr. President, today marks the 13th anniversary of the day when the Anti-Ballistic Missile Treaty between our Nation and the Soviet Union entered into effect. Thirteen years later, that treaty stands as one of the crowning achievements in our efforts to control the competition in nuclear arms and reduce the likelihood of nuclear war.

The ABM Treaty has successfully allowed both nations to stem a destabilizing and costly competition in antiballistic systems. And the treaty has helped demonstrate that mutual, verifiable arms control agreements hold mankind's best hope for securing a lasting peace in this nuclear age.

Unfortuntely, the ABM Treaty is now imperiled. The steady development of defensive technologies by both nations and apparent failures of compliance with the treaty by the Soviets have combined to threaten the treaty's continued relevance. Indeed, if both nations continue their march toward spaced-based and other defensive technologies, the ABM Treaty may be abrogated as early as this next year.

For these reasons, I applaud today's statement in support of the ABM Treaty by six former Secretaries of Defense—Secretary Harold Brown, Secretary Clark M. Clifford, Secretary Melvin R. Laird, Secretary Robert S. McNamara, Secretary Elliot L. Richardson, and Secretary James R. Schlesinger. This eminently distinguished, bipartisan group calls upon both the United States and the Soviet Union to avoid any actions that would undermine the ABM Treaty, and they urge President Reagan and Soviet General Secretary Gorbachev to reach agreements in Geneva to assure the treaty's continued validity. An anxious world can only hope that the current Secretary of Defense—as well as President Reagan, his administration, and the Soviet leadership—will take this recommendation to heart.

I applaud today's statement, recommend it to my colleagues, and ask unanimous consent that the full statement be printed in the RECORD.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

STATEMENT IN SUPPORT OF THE ABM TREATY

(By former Secretaries of Defense, released by the National Campaign to Save the ABM Treaty on October 3, 1985, the thirteenth anniversary of the Treaty)

On the thirteenth anniversary of the entering into force of the ABM Treaty, we reaffirm our view that this international agreement of unlimited duration makes an important contribution to American security and to reducing the risk of nuclear war. As former Secretaries of Defense, we call upon the American and Soviet governments both to avoid actions that would undermine the ABM Treaty and to bring to an end any prior departures from the terms of the Treaty, such as the Krasnoyarsk radar. We urge President Reagan and General Secretary Gorbachev to reach agreement in Geneva to negotiate new measures which would prevent further erosion of the Treaty and assure its continued viability.

Hon. HAROLD BROWN,
Hon. CLARK M. CLIFFORD,
Hon. MELVIN R. LAIRD,
Hon. ROBERT S. MCNAMARA,
Hon. ELLIOT L. RICHARDSON,
Hon. JAMES R. SCHLESINGER.

Mr. STAFFORD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

BUDGET ACT WAIVER

Mr. STAFFORD. Mr. President, after conferring with both the majority leader and the minority leader, I ask unanimous consent that the Senate proceed to the consideration of Senate Resolution 226, the budget waiver to accompany S. 1264, National Foundation on the Arts and the Humanities Amendments of 1985.

The PRESIDING OFFICER. The resolution will be stated.

The assistant legislative clerk read as follows:

A resolution (S. Res. 226) waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 1264.

The PRESIDING OFFICER. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to, as follows:

S. RES. 226

Resolved, That pursuant to section 402(c) of the Congressional Budget Act of 1974, the provisions of section 402(a) of such Act are waived with respect to the consideration of S. 1264, a bill to amend the National Foundation on the Arts and Humanities Act of 1965, to extend the authorization of appropriations for that Act, and for other purposes. Such waiver is necessary to permit the authorization of funds for the National Endowment for the Arts, the National Endowment for the Humanities and the Institute of Museum Services.

Mr. STAFFORD. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES AMENDMENTS OF 1985

Mr. STAFFORD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 274, S. 1264.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (S. 1264) to amend the National Foundation on the Arts and Humanities Act of 1965, to extend the authorization of ap-

propriations for that act, and for other purposes.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Labor and Human Resources, with an amendment to strike out all after the enacting clause and insert the following:

That this Act may be cited as the "National Foundation on the Arts and the Humanities Amendments of 1985".

PROJECT DEFINITION; CONSTRUCTION OF FACILITIES

SEC. 2. Section 3(d)(2) of the National Foundation on the Arts and the Humanities Act of 1965 (hereafter in this Act referred to as the "Act") is amended by inserting "for the purposes of section 5(l) only," after "(2)".

APPLICATION APPROVAL OF NATIONAL COUNCIL ON THE ARTS

SEC. 3. The last sentence of section 6(f) of the Act is amended by striking out "$17,500" and inserting in lieu thereof "$30,000".

STATE HUMANITIES COUNCILS

SEC. 4. Section 7(f)(2)(B)(i) of the Act is amended—

(1) by striking out "four" and inserting in lieu thereof "six"; and

(2) by striking out "20 per centum" and inserting in lieu thereof "25 per centum".

PROGRAM FOR THE COMMEMORATION OF THE BICENTENNIAL OF THE CONSTITUTION OF THE UNITED STATES AND THE BILL OF RIGHTS

SEC. 5. Section 7 of the Act is amended by adding at the end thereof the following new subsection:

"(i)(1) The Chairman of the National Endowment for the Humanities, with the advice of the National Council on the Humanities, shall, in accordance with the provisions of this subsection, carry out a program in the humanities for the commemoration of the bicentennial of the Constitution of the United States and the Bill of Rights.

"(2) To commemorate the bicentennial anniversary of the Constitution of the United States and the Bill of Rights, the Chairman of the National Endowment for the Humanities—

"(A) is authorized to make grants to local educational agencies, private elementary and secondary schools, private organizations, individuals, and State and local public agencies in the United States for the development of instructional materials and programs on the Constitution of the United States and the Bill of Rights which are designed for use by elementary or secondary school students; and

"(B) shall implement an annual national bicentennial Constitution and Bill of Rights competition based upon the programs developed and used by elementary and secondary schools.

"(3) In carrying out the program authorized by this subsection, the Chairman of the National Endowment for the Humanities shall have the same authority as is established in section 10.".

NATIONAL COUNCIL ON THE HUMANITIES

SEC. 6. The second sentence of section 8(b) of the Act is amended by inserting after "selected" the following: "from citizens of the United States who are recognized for their knowledge of, expertise in, or commitment to the humanities and".

AUTHORIZATION OF APPROPRIATONS

SEC. 7. (a) EXTENSION OF AUTHORIZATIONS.—(1)(A) The first sentence of section 11(a)(1)(A) of the Act is amended to read as follows: "For the purpose of carrying out section 5(c), there are authorized to be appropriated to the National Endowment for the Arts $118,678,000 for fiscal year 1986, $123,425,120 for fiscal year 1987, $128,362,125 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(B) The first sentence of section 11(a)(1)(B) of the Act is amended to read as follows: "For the purpose of carrying out section 7(c), there are authorized to be appropriated to the National Endowment for the Humanities $95,207,000 for fiscal year 1986, $99,015,280 for fiscal year 1987, $102,975,891 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(2)(A)(i) The matter preceding clause (i) of section 11(a)(2)(A) of the Act is amended by striking out "1985" and inserting in lieu thereof "1990".

(ii) The exception at the end of section 11(a)(2)(A) of the Act is amended to read as follows:

"except that the amounts so appropriated to the National Endownment for the Arts shall not exceed $8,820,000 for fiscal year 1986, $9,172,800 for fiscal year 1987, $9,539,712 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(B)(i) The matter preceding clause (i) of section 11(a)(2)(B) of the Act is amended by striking out "1985" and inserting in lieu thereof "1990".

(ii) Clause (ii) of section 11(a)(2)(B) of the Act is amended by inserting "and subgrantees" after "grantees" each time it appears in such clause.

(iii) The exception at the end of section 11(a)(2)(B) of the Act is amended re read as follows:

"except that the amounts so appropriated to the National Endowment for the Humanities shall not exceed $10,780,000 for fiscal year 1986, $11,211,200 for fiscal year 1987, $11,659,648 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(3)(A)(i) The matter preceding clause (i) of section 11(a)(3)(A) of the Act is amended by striking out "1985" and inserting in lieu thereof "1990".

(ii) The exception at the end of section 11(a)(3)(A) of the Act is amended to read as follows:

"except that the amounts so appropriated to such Endowment shall not exceed $20,580,000 for fiscal year 1986, $21,403,200 for fiscal year 1987, $22,259,328 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(B)(i) The matter preceding clause (i) of section 11(a)(3)(B) of the Act is amended by striking out "1985" and inserting in lieu thereof "1990".

(ii) The exception at the end of section 11(a)(3)(B) of the Act is amended to read as follows:

"except that the amounts so appropriated to such Endowment shall not exceed $19,600,000 for fiscal year 1986, $20,384,000 for fiscal year 1987, $21,199,360 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(b) AUTHORIZATION FOR CONSTITUTION BICENTENNIAL PROGRAM.—Section 11(a) of the Act is amended—

(1) by redesignating paragraph (4) as paragraph (5), and

(2) by inserting after paragraph (3) the following new paragraph:

"(4) Of the amounts appropriated for the fiscal year 1987 and for each of the succeeding fiscal years ending prior to October 1, 1990, $5,000,000 shall be available for the purpose of carrying out section 7(i).".

(c) AUTHORIZATION FOR ADMINISTRATION.—(1) Section 11(c)(1) of the Act is amended to read as follows:

"(1) There are authorized to be appropriated to the National Endowment for the Arts $15,582,000 for fiscal year 1986, $16,205,280 for fiscal year 1987, $16,853,491 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990, to administer the provisions of this Act, or any other program for which the Chairman of the National Endowment for the Arts is responsible.".

(2) Section 11(c)(2) of the Act is amended to read as follows:

"(2) There are authorized to be appropriated to the National Endowment for the Humanities $13,891,000 for fiscal year 1986, $14,446,640 for fiscal year 1987, $15,024,506 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990, to administer the provisions of this Act, or any other program for which the Chairman of the National Endowment for the Humanities is responsible.".

(d) AUTHORIZATION MAXIMUMS.—Section 11 of the Act is amended—

(1) by redesignating subsection (d) as subsection (e), and

(2) by inserting after subsection (c) the following new subsection:

"(d)(1) The total amount of appropriations to carry out the activities of the National Endowment for the Arts shall not exceed—

"(A) $163,660,000 for fiscal year 1986,

"(B) $170,206,400 for fiscal year 1987, and

"(C) $177,014,656 for fiscal year 1988.

"(2) The total amount of appropriations to carry out the activities for the National Endowment for the Humanities shall not exceed—

"(A) $139,478,000 for fiscal year 1986,

"(B) $145,057,120 for fiscal year 1987, and

"(C) $150,859,405 for fiscal year 1988.".

REPEALERS

SEC. 8. (a) EXECUTED INDEMNITY STUDY REPEALED.—Subsections (d) and (e) of section 9 of the Act are repealed.

(b) EXECUTED PROPERTY STUDY REPEALED.—Subsection (d) of section 10 of the Act is repealed.

MUSEUM SERVICES AUTHORIZATION

SEC. 9. Section 209(a) of the Museum Services Act is amended to read as follows:

"(a) For the purpose of making grants under section 206(a), there are authorized to be appropriated $21,600,000 for fiscal year 1986, $22,464,000 for fiscal year 1987, $23,362,560 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

ARTS AND ARTIFACTS INDEMNITY PROGRAM AMENDMENTS

SEC. 10. (a) FEDERAL COUNCIL MEMBERSHIP.—Section 2(b) of the Arts and Artifacts Indemnity Act is amended—

(1) by inserting "(1) after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) For purposes of this Act, the Secretary of the Smithsonian Institution, the Director of the National Gallery of Art, the member designated by the Chairman of the Senate Commission of Art and Antiquities and the member designated by the Speaker of the House of Representatives shall not serve as members of the Council.".

(b) ELIGIBILITY FOR INDEMNITY.—(1) Section 3(b)(1) of the Arts and Artifacts Indemnity Act is amended by striking out ", or elsewhere when part of an exchange of exhibitions, but in no case shall both parts of such an exhibition be so covered" and inserting in lieu thereof "or eleswhere, preferably when part of an exchange of exhibitions".

(2) The amendment made by paragraph (1) shall apply with respect to any exhibition which is certified under section 3(a) of the Arts and Artifacts Indemnity Act after the date of enactment of this Act.

(c) INDEMNITY AGREEMENT LOSS LIMITATIONS.—(1) Section 5(b) of the Arts and Artifacts Indemnity Act is amended by striking out "$400,000,000" and inserting in lieu thereof "$650,000,000".

(2) Section 5(c) of the Arts and Artifacts Indemnity Act is amended by striking out "$50,000,000" and inserting in lieu thereof "$75,000,000".

STUDY OF ALTERNATIVE FEDERAL FUNDING OF THE ARTS AND THE HUMANITIES

SEC. 11. (a) STUDY REQUIRED.—(1) The Comptroller General of the United States shall conduct a study to determine the feasibility of supplementing expenditures made from the general fund of the Treasury of the United States for the National Endowment for the Arts, the National Endowment for the Humanities, and the Institute of Museum Services through other Federal funding mechanisms. The study required by this section shall consider, but is not limited to, the consideration of the following funding sources:

(A) A revolving fund comprised of payments made to the Federal Government through an extension of the existing Federal copyright period for artistic, dramatic, literary, and musical works.

(B) A revolving fund comprised of payments made to the Federal Government for the right to use or publicly perform artistic, dramatic, literary, and musical works in the public domain.

(2) In carrying out the study required by this section, the Comptroller General shall frequently consult with and seek the advice of the Chairman of the National Endowment for the Arts, the Chairman of the National Endowment for the Humanities, the Director of the Institute of Museum Services, the Register of Copyrights, the Chairman of the Labor and Human Resources Committee of the Senate, and the Chairman of the Education and Labor Committee of the House of Representatives, concerning the scope, direction, and focus of the study.

(3) In conducting the study required by this section, the Comptroller General shall consider the impact which the implementation of each supplemental funding mechanism would have on—

(A) any international copyright treaties, commitments, and obligations to which the United States is a party;

(B) public participation in the arts and the humanities;

(C) private, corporate, and foundation support for the arts and the humanities;

(D) the overall quality of arts and the humanities in the United States;

(E) the creative activities of individual authors and artists; and

(F) the activities and operations of private copyrighting organizations.

(b) REPORT.—The Comptroller General shall prepare and submit to the Congress not later than one year after the date of enactment of this Act a report of the study required by this section, together with such recommendations as the Comptroller General deems appropriate.

Mr. STAFFORD. Mr. President, on behalf of the subcommittee on Education, Arts and Humanities, I am pleased to support S. 1264, the bill to reauthorize the National Foundation on the Arts and Humanities Act of 1965. In existence since 1965, this Act authorizes the National Endowment for the Arts, the National Endowment for the Humanities and the Institute of Museum Services. This bill is quite similar to the original bill introduced by our colleague, Senator QUAYLE, on June 7.

Since then, the merits of these programs have been described in hearings and throughout the entire reauthorization process. It has been stressed time and time again, Mr. President, that the combination of these three programs is important not only to our Nation's heritage and cultural developments but also to the educational well-being of all our citizens. Because of the success of the current programs, the bill we have before us is a relatively simple, straightforward reauthorization involving mostly technical changes.

First of all, Mr. President, in keeping with the Congress' concern over budget deficits, the numbers in this proposal stay within the limits contained in the first concurrent budget resolution.

This bill also reauthorizes the institute of Museum Services which, albeit small, is an important program for the operation of many of our Nation's museums. The administration has tried to eliminate the Institute repeatedly again, but we, the Congress, have just as consistently given our full support.

Furthermore, the bill amends the Arts and Artifacts Indemnity Act, the program which insures art works and thereby increases artistic and cultural opportunities in the United States. By increasing the aggregate level of insurance available at any one time to $650 million and the level of individual exhibits to $75,000 we take into consideration the inflationary impact on art works.

CBO estimates no cost increase to the Federal Government from this change as there has been only one claim submitted since enactment of this program in 1975. Furthermore, Mr. President, the amendment also modifies the exchange requirement in the Arts and Artifacts Indemnity Program to make it possible for coverage for a U.S.-owned work to go abroad. It is my belief that this change will allow for the consideration of unique exhibits which benefit the American taxpayer by fostering better worldwide understanding of American culture and heritage.

As I said earlier Mr. President, this bill is straightforward and includes mostly technical language to clarify congressional intent. I am very pleased with the bipartisan support that went into this reauthorization and am especially grateful to all the members of the subcommittee and, especially, their staff members. I commend this bill to my colleagues.

Mr. PELL. Mr. President, as the chief Senate sponsor of the original National Foundation on the Arts and Humanities Act of 1965, I am especially pleased to join with my colleague Senator STAFFORD in supporting the extension of the vital programs that assist the arts and humanities and provide critically needed aid to our Nation's museums.

With Senator STAFFORD's supportive leadership as chairman of the Subcommittee on Education, Arts and Humanities, we have developed what I believe is a sound and realistic bill that will reauthorize the component parts of the Foundation for 5 years. The current legislation expires as of October 1, 1985 and we propose to extend it through fiscal year 1990.

S. 1264 reflects the subcommittee's general satisfaction with the operation of the two Endowments and the Institute of Museum Services. The Arts and Humanities Endowments are coincidentally observing their 20th anniversary this year and it is a tremendous personal satisfaction to see the growth that has occurred over these two decades. The skepticism and distrust that met our original proposal has long since faded and these agencies are now the very cornerstone of American cultural activity. Endowment grants are now viewed as marks of distinction and achievement and they have had a profound impact on the development and appreciation of the arts and humanities in the United States.

It has also been personally rewarding to note how bipartisan support for these agencies has increased and strengthened over the years. It marks a reaffirmation that our Federal Government does indeed have an important role to play in the support of culture in this country. This role has always been that of the junior partner in any project so as to avoid a dominant Government role in dictating our cultural environment. A fundamental concept of the 1965 legislation holds true today—that private initiative should continue to be the principal and primary source for the support

and encouragement of the arts and humanities in this country.

One major area which has been of particular concern to me over the past two decades has been the humanities programs in the States. I regret that these organizations were not mandated to be official agencies of the States when the legislation was first enacted in 1965. Arts councils have been official State organizations for this entire period and one cannot help but note how successful they have become in attracting State funds for their respective programs.

I believe that the humanities councils would benefit in the long run if they had similar status as official agencies of the States. However, since the first councils were established in the early 1970's, many of them have established very positive and fruitful relationships with their State governments and I commend them for this. In the 1980 reauthorization I asked that four members of each council be appointed by the Governor in each State to broaden the membership and reinforce the linkage between council and State.

The legislation before us today will increase the Governor's appointees to six. As most councils have between 20 and 25 members, 6 gubernatorial appointees is a reasonable and appropriate number and should serve to enhance relations with the States even further.

Many of the administration's own proposals for reauthorization have been incorporated into this bill—changes that are noncontroversial, reasonably and timely. In the Arts and Artifacts Indemnification Program, for example, the aggregate amount of insurance available for exhibitions is raised from $400 to $650 million. This is a sensible change which reflects the increased value of works of art as well as the greater demand by museums for indemnification of exhibitions. This program has made it possible for the American public to view an enormous variety of arts and artifacts while saving museums over $11 million in insurance premiums. The level of indemnity for individual exhibitions is also raised from $50 to $75 million in the first increase per exhibition in the history of the program.

The Institute of Museum Services was established in 1976 in the Department of Health, Education, and Welfare and in 1984 was moved by action of the congressional authorizing committees to its current place alongside the Endowments as the third independent cultural agency under the National Foundation on the Arts and Humanities. The Institute operates a unique grant program which provides urgently needed general operating support to our Nation's museums. It also has recently developed a highly useful program of conservation support which has greatly assisted museums in caring properly for their collections.

This year 449 American museums from every geographical area of the country received GOS awards which totaled $16,723,000. Funds are provided for basic services such as security, maintenance, education and outreach programs—areas that have traditionally been the most difficult to raise private funds for.

It is absolutely critical that these institutions which preserve our national heritage and make it accessible to the public be healthy and secure both fiscally and physically. The American museum-going public and their future generations deserve no less. The Institute of Museum Services makes an important contribution toward insuring the vitality and permanence of all our museums. I am pleased to support the extension of these important Federal cultural programs and I urge my colleagues to do the same.

Mr. HATCH. Mr. President, it is fitting that on the 20th anniversary of the creation of the Arts and Humanities Foundation we in Congress both reauthorize and remember this important program. The National Endowment for the Humanities, the National Endowment on the Arts, and the Institute of Museum Services have contributed significantly to the enrichment of our Nation's cultural life. Today we have the opportunity to reaffirm the importance of these programs.

Wide public support for and appreciation of the arts and humanities is critical to any society which wants to be a civilization. Science and technology have made our lives not only more meaningful but more safe and healthful as well. However, our society must also give equal emphasis to culture and beauty. In truth, the disciplines of the arts and the humanities are much the same as the disciplines of the sciences. They all seek to understand our world and are simply different methods for making our lives more satisfying and more meaningful.

It is important that we in Congress, as well as all Americans, continue to support these disciplines and the museums that protect and display our cultural heritage. The creative impulse that generates new ideas and new solutions to society's problems should be encouraged. Today, with the passage of this reauthorization bill, Congress signals to the rest of the Nation that these programs should continue to be a high priority for public and private support.

(By request of Mr. BYRD, the following statement was ordered printed in the RECORD:)

● Mr. KENNEDY. Mr. President, I am pleased to be a cosponsor of the legislation before us now, S. 1264, to reauthorize the activities of the National Foundation of the Arts and Humanities. The National Endowment for the Arts, the National Endowment for the Humanities and the Institute of Museum Services are programs which enjoy strong bipartisan support.

The hearings held by the Subcommittee on Education, Arts and Humanities reaffirmed our enthusiastic commitment to a Federal policy in support of the arts.

Over the period of the last 20 years, the Endowments have fully realized the expectation of their enabling legislation. They have helped enormously to bring quality arts programming to more Americans. They have helped increase awareness of the arts and have been a strong impetus for fundraising for private and local sources.

A provision which I strongly support provides important new improvements in the indemnity program so that it will have wider availability and application without a loss of focus.

I attended a press conference last week when the challenge grants for 1986 were announced. For five institutions in my State of Massachusetts, the new awards will mean major capital improvement and fundraising support. The national impact of the Challenge Program is extraordinary. The program has been an exceptional one, utilizing in a very positive way, the principles of public and private partnership. For these reasons, I believe it is one of the most effective programs sponsored by the Endowment.

I would like to commend Subcommittee Chairman STAFFORD and Senator PELL for their painstaking efforts to ensure a bill that strengthens these already sound agencies.

In these days of severe budget crisis, it would be easy to overlook the arts and humanities. This bill reaffirms congressional commitment to the program that ensures that our country is as proud of its artistic achievements as it is of its scientific and technical accomplishments. It is this vision for a more complete Nation which is at the center of this bill.

This week we celebrate the 20th anniversary of the Endowments and it is entirely appropriate that the Senate mark the occasion with its endorsement of this legislation to underscore our commitment not to a Federal arts policy, but to a Federal policy in support of the arts.

I read with great interest a recent article in the New York Times which discusses the traditional American support for the arts. It echoes much of our discussion today in the Senate Chamber and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

THE ARTS' KEY ROLE IN OUR SOCIETY

(By Arthur Schlesinger, Jr.)

This is a year curiously dotted by anniversaries; and one must hope that, as we salute the bitter memories of war, a less dramatic anniversary will not slip by unnoticed.

Twenty years ago this week, the Congress passed the National Foundation of the Arts and Humanities Act. The act's preamble declared that support of the arts and humanities, "while primarily a matter for private and local initiative, is also an appropriate matter of concern to the Federal Government." In enacting this law, which led to the establishment of the National Endowments for the Arts and for the Humanities, Congress affirmed a conviction that the arts and humanities are vital to the health and glory of the Republic.

This was not a novel idea. In his first annual message, President George Washington told Congress he was "persuaded that you will agree with me in opinion that there is nothing which can better deserve your patronage than the promotion of science and literature." A third of a century later, President John Quincy Adams called for laws promoting "the cultivation and encouragement of the mechanic and of the elegant arts, the advancement of literature, and the progress of the sciences." In the third year of the Civil War, President Abraham Lincoln ordered that construction of the Capitol dome be completed. When critics objected to the diversion of labor and money from the prosecution of the war, President Lincoln said, "If people see the Capitol going on, it is a sign that we intend this Union shall go on."

President Franklin D. Roosevelt recalled this story in 1941 when, in a world ablaze with war, he dedicated the National Gallery of Art in Washington. And President John F. Kennedy recalled both these stories when he urged public support for the arts in 1962. Both Lincoln and Roosevelt, Kennedy said, "understood that the life of the arts, far from being an interruption, a distraction, in the life of a nation, is very close to the center of a nation's purpose—and is a test of the quality of a nation's civilization."

The policy of Federal support is an expression of the value the Republic places on the arts, a symbol of the role assigned to the arts in our national life. And Congress today remains steadfast in its belief in the centrality of arts to a civilized society. It has shown no disposition to repeal the act of 1965 and has steadily resisted Presidential attempts to cut National Endowments budgets.

Yet the idea of public support, and with it the idea that the state of the arts is a matter of national concern, are under increasing challenge—ironically not from Congress but from renegade parts of the intellectual community itself. We live in a decade that likes to disparage government and to exalt the market. We are told that, if a cultural institution cannot pay its way, then it has not economic justification and, if no economic justification, no social justification. Art, we are given to understand, must stand or fall by the box-office test, and the devil take the hindmost.

To deny the arts a public role is the real *trahison des clercs*. For painters, composers, writers, film-makers, sculptors, architects, orchestras, museums, libraries, concert halls, opera houses contribute indispensably to the pride and glory of the nation. They are crucial to the forming of national traditions and to the preservation of civic cohesion. George Washington wrote: "The Arts and Sciences essential to the prosperity of the State and to the ornament and happiness of human life have a primary claim to the encouragement of every lover of his Country and mankind." The arts and humanities serve us all. They are surely as worthy as banks, corporations and other agencies of private profit to be objects of Federal concern, subsidy and even bail-out.

If history tells us anything, it tells us that the United States, like all other nations, will be measured in the eyes of posterity less by the size of its gross national product and the menace of its military arsenal than by its character and achievement as a civilization. Government cannot create civilization. Its action can at best be marginal to the adventure and mystery of art. But public support reinvigorates the understanding of art as a common participation, a common possession.

"Great-nations," said John Ruskin, "Write their autobiographies in three manuscripts—the book of their deeds, the book of their words and the book of their art. Not one of these books can be understood unless we read the two others; but of the three the only quite trustworthy one is the last. The acts of a nation may be triumphant by its good fortune; and its words mighty by the genius of a few of its children; but its art only by the general gifts and common sympathies of the race."●

Mr. SIMON. Mr. President, I am pleased to support the reauthorization of the National Foundation on the Arts and Humanities Act before us today.

It is fitting that we consider a 5-year extension of the National Endowment for the Arts and the National Endowment for the Humanities on the 20th anniversary of their creation by Congress. Their sister agency, the Institute of Museum Services, is a newer addition to the Foundation and likewise makes a vital contribution to this Nation's cultural life.

Each of us has had an opportunity to benefit from the work of the two Endowments and the IMS. When we enjoy and learn from an afternoon at one of our Nation's museums or a local historical society, chances are that operations or exhibits have received support from the Endowments or the IMS. When a magnificent international touring exhibition such as the King Tut or Picasso shows comes to our country, we have the programs authorized under the Foundation Act to thank. Community outreach and touring programs by performing companies like the Eglevsky Ballet are largely the product of Foundation agency support. This year's publication of the first volumes of the Dictionary of American Dialects could not have happened without support from Foundation agencies. Many fine public broadcasting presentations, works of visual and performing artists and scholars, and local cultural agencies exist today because of the impetus they have received from small Federal grants.

These benefits come from a very small investment. Our 65 cents per capita investment in the arts and humanities can be compared to the $75 invested per capita by the Austrian Government. While Federal money is important, and the modest increases in the reauthorization bill recognize this, Foundation agencies have been very successful in generating private interest in arts and humanities program support. The Endowments leverage private support requirements of matching grants, and the substantial increase in private, foundation, and corporate giving over the past two decades is solid proof that the Endowments do spur private support.

This private/public cooperation has yielded great results. I am pleased to say that the achievements of past support for the arts and humanities can be seen in my home State of Illinois. The Newberry Library, the Art Institute of Chicago, the Field Museum, the Museum of Science and Technology, the Illinois Historical Society and individual scholars at the University of Chicago, Loyola, Northwestern, and many of our smaller private colleges and fine public institutions all receive Foundation or Foundation-generated support and provide a return on this investment that is enjoyed the world over. The Lyric Opera, the Chicago Symphony Orchestra, and experimental theater groups such as Steppenwolf and Widsom Bridge only begin to name the outstanding Illinois artists who have won the recognition and support of the Foundation agencies. I applaud the last two decades of achievement of the Endowments, and urge my colleagues to support this reauthorization bill to continue their excellent programs through fiscal year 1990. We will benefit as a people if we continue to support that which is best in creativity and scholarship.

Our Nation's continued support for the arts and humanities is possible within the constraints of fiscal responsibility. This bill before us falls within the budget limits set by the 1985 budget resolution yet provides modest increases for Arts, Humanities, and IMS. This funding will generate many times greater private support and cement the public/private partnership which was so carefully nurtured under the chairmanships of Roger Stevens, Nancy Hanks, Livingston Biddle, and Frank Hodsell at the Arts Endowment and of Barnaby Keeney, Ronald Berman, Joe Duffey, and Bill Bennett at the Humanities Endowment. Our firm support will continue their good work.

I am a strong supporter of the Foundation because it gives us all so much—from the third grader in Vermont who writes his first poem because of the artists-in-the-schools program, to the ghetto teenagers in Pittsburgh who hear their first opera through a community outreach program, to the folk artist in southern Illinois whose quiltmaking is recognized

for its artistry and history, to the scholars who produce a collected edition of Colonial papers and make them available to both the academic community and the public. Individuals, institutions and indeed our Nation benefit from our support for the arts and humanities. The committment we make today will help insure that we will have a vital culture, and wide access to that culture, for generations to come.

AMENDMENT NO. 728

(Purpose: To authorize the Commission on the Bicentennial of the Constitution of the United States to carry out an education program for the commemoration of the Bicentennial of the Constitution of the United States and the Bill of Rights and to provide for the position of Poet Laureate Consultant in Poetry in the Library of Congress)

Mr. STAFFORD. Mr. President, I send to the desk an amendment to the committee substitute.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Vermont [Mr. STAFFORD] proposes an amendment numbered 728.

Mr. STAFFORD. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 9, beginning with line 5, strike out through line 10 on page 10.

On page 10, line 12, strike out "Sec. 6" and insert in lieu thereof "Sec. 5".

On page 10, line 18, strike out "Sec. 7" and insert in lieu thereof "Sec. 6".

On page 13, strike out lines 1 through 10.

On page 13, line 11, strike out "(c)" and insert in lieu thereof "(b)".

On page 14, line 6, strike out "(d)" and insert in lieu thereof "(c)".

On page 15, line 2, strike out "Sec. 8" and insert in lieu thereof "Sec. 7".

On page 15, line 8, strike out "Sec. 9" and insert in lieu thereof "Sec. 8".

On page 15, line 17, strike out "Sec. 10" and insert in lieu thereof "Sec. 9".

On page 16, line 9, strike out the comma.

On page 16, line 23, strike out "Sec. 11" and insert in lieu thereof "Sec. 10".

On page 18, between lines 20 and 21 insert the following:

EDUCATION PROGRAM FOR THE COMMEMORATION OF THE BICENTENNIAL OF THE CONSTITUTION OF THE UNITED STATES AND THE BILL OF RIGHTS

SEC. 11. (a) GENERAL AUTHORITY.—(1) The Commission on the Bicentennial of the United States Constitution shall, in accordance with the provisions of this section, carry out an education program for the commemoration of the bicentennial of the Constitution of the United States and the Bill of Rights.

(2) To commemorate the bicentennial anniversary of the Constitution of the United States and the Bill of Rights, the Commission—

(A) is authorized to make grants to local educational agencies, private elementary and secondary schools, private organizations, individuals, and State and local public agencies in the United States for the development of instructional materials and programs on the Constitution of the United States and the Bill of Rights which are designed for use by elementary or secondary school students; and

(B) shall implement an annual national bicentennial Constitution and Bill of Rights competition based upon the programs developed and used by elementary and secondary schools.

(3) In carrying out the program authorized by this section, the Chairman of the Commission shall have the same authority as is established in section 10 of the National Foundation on the Arts and the Humanities Act of 1965.

(b) DEFINITION.—For the purpose of this section, the term "Commission" means the Commission on the Bicentennial of the United States Constitution.

(c) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated $5,000,000 for each of the fiscal years 1987, 1988, 1989, 1990 and 1991 to carry out the provisions of this section.

(2) Amounts appropriated pursuant to paragraph (1) may be used for necessary administrative expenses, including staff.

POET LAUREATE CONSULTANT IN POETRY

SEC. 12. (a) RECOGNITION OF THE CONSULTANT IN POETRY.—The Congress recognizes that the Consultant in Poetry to the Library of Congress has for some time occupied a position of prominence in the literary life of the Nation, has spoken effectively for literary causes, and has occasionally performed duties and functions sometimes associated with the position of poet laureate in other nations and societies. Individuals are appointed to the position of Consultant in Poetry by the Librarian of Congress for one- or two-year terms solely on the basis of literary merit, and are compensated from endowment funds administered by the Library of Congress Trust Fund Board. The Congress further recognizes this position is equivalent to that of Poet Laureate of the United States

(b) POET LAUREATE CONSULTANT IN POETRY ESTABLISHED.—(1) There is established in the Library of Congress the position of Poet Laureate Consultant in Poetry. The Poet Laureate Consultant in Poetry shall be appointed by the Librarian of Congress pursuant to the same procedures of appointment as established on the date of enactment of this section for the Consultant in Poetry to the Library of Congress.

(2) Each department and office of the Federal Government is encouraged to make use of the services of the Poet Laureate Consultant in Poetry for ceremonial and other occasions of celebration under such procedures as the Librarian of Congress shall approve designed to assure that participation under this paragraph does not impair the continuation of the work of the individual chosen to fill the position of Poet Laureate Consultant in Poetry.

(c) POETRY PROGRAM.—(1) The Chairman of the National Endowment for the Arts, with the advice of the National Council on the Arts, shall annually sponsor a program at which the Poet Laureate Consultant in Poetry will present a major work or the work of other distinguished poets.

(2) There are authorized to be appropriated to the National Endowment for the Arts $10,000 for the fiscal year 1987 and for each succeeding fiscal year ending prior to October 1, 1990, for the purpose of carrying out this subsection.

Mr. MATSUNAGA. Mr. President, on behalf of myself and the Senator from Maine [Mr. COHEN], I rise in support of the committee amendment which would create the Office of poet laureate/consultant in poetry of the United States.

This amendment is based on the provisions of my bill, S. 313, which was introduced in January of this year. S. 313 provided for the appointment of a poet laureate of the United States by the President of the United States. During consideration of this measure in connection with the reauthorization of the National Foundation for the Arts and the Humanities Act, however, I was asked to consider combining the proposed poet laureate of the United States with the existing Office of Poetry Consultant in the Library of Congress, and this I agreed to do. My amendment provides that the poet laureate/consultant in poetry will be appointed and compensated by the Librarian of Congress pursuant to the same procedures in effect when this measure is enacted.

My amendment further encourages other departments and agencies of the Federal Government to use the services of the poet laureate/consultant in poetry for ceremonial occasions, as long as the work of the poet laureate/consultant in poetry is not impaired, and it provides for an annual program, sponsored by the National Endowment for the Arts, at which the poet laureate/consultant in poetry would present a major work or the work of other distinguished poets. Funds in the amount of $10,000 per year are authorized for this program under the provisions of my amendment.

Mr. President, my amendment recognizes the contributions made by the Library of Congress, which has appointed poetry consultants for nearly 50 years now. The Library's consultant in poetry is well-known among poets and writers and has occasionally performed functions associated with poet laureates in other countries. Nonetheless, the poetry consultant has remained all but invisible publicly. By upgrading this position, by making the poetry consultant a poet laureate, and by giving the poet laureate a public platform, I hope to foster increased recognition and appreciation of poetry in the United States. Our country is one of only a few advanced nations which has failed to give adequate recognition to its great poets. England, from which we inherited many of our cherished democratic ideals, officially created the position of poet laureate in the 17th century, but the unofficial origin of the position dates back to the reign of King Henry III in the 13th century. In this country, poets such as Carl Sandburg, Walt Whitman, Robert Frost, Henry Wadsworth Longfellow, Archibald MacLeish, Robert Penn

Warren, Phyllis McGinley and James Dickey have captured the American spirit in a unique and timeless way. Had they been recognized as poet laureates in their time, Americans in learning institutions would no doubt have been inspired to pursue poetry as a means of creative expression.

It is my hope that the work of the future poet laureate/consultant in poetry will also reflect our Nation's great diversity—its multiethnic, multicultural, multiracial heritage, its strength and compassion, and its democratic idealism. I anticipate that this more visible, more prestigious position will inspire younger, less well-known American poets and give them a goal to which they might aspire. In this spirit, I am looking forward to the installation of our Nation's first poet laureate/consultant in poetry. I strongly urge favorable consideration of my amendment by the Senate.

Mr. BRADLEY. Mr. President, when the word "Bicentennial" is mentioned, most Americans conjur up very fond memories of tall ships, fireworks, celebrations and festivities. In 1976, we held a celebration of national scale on the 200th anniversary of the signing of the Declaration of Independence, and Americans showed their pride in our 200 years of freedom.

Why do we as a people like to celebrate the signing of the Declaration of Independence? One hundred and twenty seven years ago, Abraham Lincoln said:

> We hold this annual celebration to remind ourselves of all the good done in this process of time, of how it was done and who did it, and how we are historically connected with it; and we go from these meetings in better humor with ourselves—we feel more attached the one to the other, and more firmly bound to the country we inhabit.

The Bicentennial of the Declaration of Independence gave Americans a chance to pause for a moment and reflect on the importance of the actions in 1776 and the shared values on which this Nation is based.

Mr. President, a new bicentennial will soon be upon us—the 200th anniversary of our Constitution and Bill of Rights. This bicentennial will give Americans another opportunity to celebrate that which binds us together as a people.

We should celebrate this monumental work. And in our celebration, it is my hope that Americans—young and old—will pause to consider the central principles of the Constitution—separation of powers, checks and balances, federalism, civil liberties, and republican government. Our Constitution—200 years young—is still the model for the world.

Mark Cannon, the Executive Director of the Commission on the Bicentennial of the Constitution, recently stated that:

> Very few projects in 1976 were intended primarily to educate. But the end result was, in varying degrees, education—not only of schoolchildren, but of all Americans. However successful the Declaration Bicentennial was, several things can and should be done differently from 1987 to 1989. The Constitution Bicentennial celebration should be more than tall ships and medallions. It should be a "celebration" with greater emphasis on civic education.

I fully agree with Mark Cannon's statement. The Bicentennial of the Constitution presents us with an opportunity to educate Americans—and the peoples of the world—about our Constitution and Bill of Rights. We need to take advantage of this opportunity.

It is to this end, Mr. President, that I am pleased to cosponsor an amendment with my colleague from Vermont [Mr. STAFFORD] to establish under the jurisdiction of the Commission on the Bicentennial of the Constitution a National Competition on the Constitution and the Bill of Rights.

The competition is aimed at awakening young Americans' interest in Government and the writings of the Constitution. The competition will involve classes in hundreds of school districts throughout the Nation in local, intermediate, and State level competitions. In addition, a national competition would be held in Washington, DC, for winning classes from each State participating in the program.

Mr. President, the Commission on the Bicentennial of the Constitution will be developing many programs to involve Americans in a greater understanding of the Constitution. This program deserves to be under their jurisdiction. I urge support of this measure.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 728) was agreed to.

Mr. STAFFORD. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The question is on agreeing to the committee substitute as amended.

The committee substitute, as amended, was agreed to.

Mr. STAFFORD. Mr. President, I move to reconsider the vote by which the committee substitute, as amended, was agreed to.

Mr. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mrs. HAWKINS. Mr. President, the Arts and Artifacts Indemnities Act is one of the most important steps ever taken to facilitate the international exchange of works of art. It has been of major benefit to American art lovers by bringing international art exhibitions to this country. The bill before us, S. 1264, would alter the eligibility requirements a bit for indemnification. Would the distinguished chairman of the subcommittee with jurisdiction of this bill, the Senator from Vermont, explain the nature of the proposed change in eligibility?

Mr. Stafford. I would be happy to.

The thrust of the current program is to bring international art to the United States. Statistics bear out this orientation: since its inception, indemnification has been approved for 164 foreign exhibits coming to the United States, and only 9 American exhibits going abroad. Under the present statutory requirements, an American exhibit going abroad can receive indemnification only if it is part of an exchange of exhibits. The committee feels that this exchange requirement is in some instances too restrictive. Occasionally there will be an American exhibit or program which warrants indemnification, but which is not part of an exchange of exhibits. The committee amendment would eliminate the present requirement for an exchange, and substitute a preference. This is not intended to encourage a major shift in emphasis in the program. Instead, this will give the Federal Council for the Arts and Humanities, the Government body with the final approval of indemnity applications, the flexibility to provide coverage for exceptional American exhibitions of national or international importance which are not part of an exchange of exhibits.

Mrs. HAWKINS. Is the chairman aware of the planned program of the Rauschenberg Overseas Culture Interchange [ROCI]? America's Bicentennial artist, Robert Rauschenberg, is in the process of creating 10 original works of art reflecting the culture of each of 22 nations. Exhibits of these works, eventually numbering over 200, will tour the 22 nations, and the interchange will conclude with an exhibition of all the works at the National Gallery in Washington late in this decade. One work from each of the nations will be donated to the National Gallery, a collection of very significant value.

Mr. Rauschenberg has not sought direct Government funding for the program, but has applied for indemnification. But ROCI is not part of an exchange of exhibits, so at present it cannot qualify.

Mr. STAFFORD. I am certainly aware of the Rauschenberg Overseas Culture Interchange. This is the sort of program which in my view qualified under the committee report language as an exceptional exhibition of national or international importance. Should the Senate provision become law, I

hope the Federal Council will give careful consideration to indemnification for ROCI.

Mrs. HAWKINS. I thank the Senator, and join him in supporting ROCI.

Mr. STAFFORD. Mr. President, I know of no other speakers on this side with respect to the bill.

The PRESIDING OFFICER. The question is on the engrossment and third reading of the bill.

The bill (S. 1264), as amended was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1264

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Foundation on the Arts and the Humanities Amendments of 1985".

PROJECT DEFINITION; CONSTRUCTION OF FACILITIES

SEC. 2. Section 3(d)(2) of the National Foundation on the Arts and the Humanities Act of 1965 (hereafter in this Act referred to as the "Act") is amended by inserting "for the purposes of section 5(l) only," after "(2)".

APPLICATION APPROVAL OF NATIONAL COUNCIL ON THE ARTS

SEC. 3. The last sentence of section 6(f) of the Act is amended by striking out "$17,500" and inserting in lieu thereof "$30,000".

STATE HUMANITIES COUNCILS

SEC. 4. Section 7(f)(2)(B)(i) of the Act is amended—

(1) by striking out "four" and inserting in lieu thereof "six"; and

(2) by striking out "20 per centum" and inserting in lieu thereof "25 per centum".

NATIONAL COUNCIL ON THE HUMANITIES

SEC. 5. The second sentence of section 8(b) of the Act is amended by inserting after "selected" the following: "from citizens of the United States who are recognized for their knowledge of, expertise in, or commitment to the humanities and".

AUTHORIZATION OF APPROPRIATIONS

SEC. 6. (a) EXTENSION OF AUTHORIZATIONS.—(1)(A) The first sentence of section 11(a)(1)(A) of the Act is amended to read as follows: "For the purpose of carrying out section 5(c), there are authorized to be appropriated to the National Endowment for the Arts $118,678,000 for fiscal year 1986, $123,425,120 for fiscal year 1987, $128,362,125 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(B) The first sentence of section 11(a)(1)(B) of the Act is amended to read as follows: "For the purpose of carrying out section 7(c), there are authorized to be appropriated to the National Endowment for the Humanities $95,207,000 for fiscal year 1986, $99,015,280 for fiscal year 1987, $102,975,891 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(2)(A)(i) The matter preceding clause (i) of section 11(a)(2)(A) of the Act is amended by striking out "1985" and inserting in lieu thereof "1990".

(ii) The exception at the end of section 11(a)(2)(A) of the Act is amended to read as follows:

"except that the amounts so appropriated to the National Endowment for the Arts shall not exceed $8,820,000 for fiscal year 1986, $9,172,800 for fiscal year 1987, $9,539,712 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(B)(i) The matter preceding clause (i) of section 11(a)(2)(B) of the Act is amended by striking out "1985" and inserting in lieu thereof "1990".

(ii) Clause (ii) of section 11(a)(2)(B) of the Act is amended by inserting "and subgrantees" after "grantees" each time it appears in such clause.

(iii) The exception at the end of section 11(a)(2)(B) of the Act is amended to read as follows:

"except that the amounts so appropriated to the National Endowment for the Humanities shall not exceed $10,780,000 for fiscal year 1986, $11,211,200 for fiscal year 1987, $11,659,648 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(3)(A)(i) The matter preceding clause (i) of section 11(a)(3)(A) of the Act is amended by striking out "1985" and inserting in lieu thereof "1990".

(ii) The exception at the end of section 11(a)(3)(A) of the Act is amended to read as follows:

"except that the amounts so appropriated to such Endowment shall not exceed $20,580,000 for fiscal year 1986, $21,403,200 for fiscal year 1987, $22,259,328 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(B)(i) The matter preceding clause (i) of section 11(a)(3)(B) of the Act is amended by striking out "1985" and inserting in lieu thereof "1990".

(ii) The exception at the end of section 11(a)(3)(B) of the Act is amended to read as follows:

"except that the amounts so appropriated to such Endowment shall not exceed $19,600,000 for fiscal year 1986, $20,384,000 for fiscal year 1987, $21,199,360 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

(b) AUTHORIZATION FOR ADMINISTRATION.—(1) Section 11(c)(1) of the Act is amended to read as follows:

"(1) There are authorized to be appropriated to the National Endowment for the Arts $15,582,000 for fiscal year 1986, $16,205,280 for fiscal year 1987, $16,853,491 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990, to administer the provisions of this Act, or any other program for which the Chairman of the National Endowment for the Arts is responsible.".

(2) Section 11(c)(2) of the Act is amended to read as follows:

"(2) There are authorized to be appropriated to the National Endowment for the Humanities $13,891,000 for fiscal year 1986, $14,446,640 for fiscal year 1987, $15,024,506 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990, to administer the provisions of this Act, or any other program for which the Chairman of the National Endowment for the Humanities is responsible.".

(c) AUTHORIZATION MAXIMUMS.—Section 11 of the Act is amended—

(1) by redesignating subsection (d) as subsection (e), and

(2) by inserting after subsection (c) the following new subsection:

"(d)(1) The total amount of appropriations to carry out the activities of the National Endowment for the Arts shall not exceed—

"(A) $163,660,000 for fiscal year 1986,

"(B) $170,206,400 for fiscal year 1987, and

"(C) $177,014,656 for fiscal year 1988.

"(2) The total amount of appropriations to carry out the activities for the National Endowment for the Humanities shall not exceed—

"(A) $139,478,000 for fiscal year 1986,

"(B) $145,057,120 for fiscal year 1987, and

"(C) $150,859,405 for fiscal year 1988.".

REPEALERS

SEC. 7. (a) EXECUTED INDEMNITY STUDY REPEALED.—Subsections (d) and (e) of section 9 of the Act are repealed.

(b) EXECUTED PROPERTY STUDY REPEALED.—Subsection (d) of section 10 of the Act is repealed.

MUSEUM SERVICES AUTHORIZATION

SEC. 8. Section 209(a) of the Museum Services Act is amended to read as follows:

"(a) For the purpose of making grants under section 206(a), there are authorized to be appropriated $21,600,000 for fiscal year 1986, $22,464,000 for fiscal year 1987, $23,362,560 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990.".

ARTS AND ARTIFACTS INDEMNITY PROGRAM AMENDMENTS

SEC. 9. (a) FEDERAL COUNCIL MEMBERSHIP.—Section 2(b) of the Arts and Artifacts Indemnity Act is amended—

(1) by inserting "(1) after the subsection designation; and

(2) by adding at the end thereof the following new paragraph:

"(2) For purposes of this Act, the Secretary of the Smithsonian Institution, the Director of the National Gallery of Art, the member designated by the Chairman of the Senate Commission of Art and Antiquities and the member designated by the Speaker of the House of Representatives shall not serve as members of the Council.".

(b) ELIGIBILITY FOR INDEMNITY.—(1) Section 3(b)(1) of the Arts and Artifacts Indemnity Act is amended by striking out ", or elsewhere when part of an exchange of exhibitions, but in no case shall both parts of such an exhibition be so covered" and inserting in lieu thereof "or elsewhere preferably when part of an exchange of exhibitions".

(2) The amendment made by paragraph (1) shall apply with respect to any exhibition which is certified under section 3(a) of the Arts and Artifacts Indemnity Act after the date of enactment of this Act.

(c) INDEMNITY AGREEMENT LOSS LIMITATIONS.—(1) Section 5(b) of the Arts and Artifacts Indemnity Act is amended by striking out "$400,000,000" and inserting in lieu thereof "$650,000,000".

(2) Section 5(c) of the Arts and Artifacts Indemnity Act is amended by striking out "$50,000,000" and inserting in lieu thereof "$75,000,000".

STUDY OF ALTERNATIVE FEDERAL FUNDING OF THE ARTS AND THE HUMANITIES

SEC. 10. (a) STUDY REQUIRED.—(1) The Comptroller General of the United States shall conduct a study to determine the feasibility of supplementing expenditures made from the general fund of the Treasury of the United States for the National Endowment for the Arts, the National Endowment for the Humanities, and the Institute of Museum Services through other Federal

funding mechanisms. The study required by this section shall consider, but is not limited to, the consideration of the following funding sources:

(A) A revolving fund comprised of payments made to the Federal Government through an extension of the existing Federal copyright period for artistic, dramatic, literary, and musical works.

(B) A revolving fund comprised of payments made to the Federal Government for the right to use or publicly perform artistic, dramatic, literary, and musical works in the public domain.

(2) In carrying out the study required by this section, the Comptroller General shall frequently consult with and seek the advice of the Chairman of the National Endowment for the Arts, the Chairman of the National Endowment for the Humanities, the Director of the Institute of Museum Services, the Register of Copyrights, the Chairman of the Labor and Human Resources Committee of the Senate, and the Chairman of the Education and Labor Committee of the House of Representatives, concerning the scope, direction, and focus of the study.

(3) In conducting the study required by this section, the Comptroller General shall consider the impact which the implementation of each supplemental funding mechanism would have on—

(A) any international copyright treaties, commitments, and obligations to which the United States is a party;

(B) public participation in the arts and the humanities;

(C) private, corporate, and foundation support for the arts and the humanities;

(D) the overall quality of arts and the humanities in the United States;

(E) the creative activities of individual authors and artists; and

(F) the activities and operations of private copyrighting organizations.

(b) REPORT.—The Comptroller General shall prepare and submit to the Congress not later than one year after the date of enactment of this Act a report of the study required by this section, together with such recommendations as the Comptroller General deems appropriate.

EDUCATION PROGRAM FOR THE COMMEMORATION OF THE BICENTENNIAL OF THE CONSTITUTION OF THE UNITED STATES AND THE BILL OF RIGHTS

SEC. 11. (a) GENERAL AUTHORITY.—(1) The Commission on the Bicentennial of the United States Constitution shall, in accordance with the provisions of this section, carry out an education program for the commemoration of the bicentennial of the Constitution of the United States and the Bill of Rights.

(2) To commemorate the bicentennial anniversary of the Constitution of the United States and the Bill of Rights, the Commission—

(A) is authorized to make grants to local educational agencies, private elementary and secondary schools, private organizations, individuals, and State and local public agencies in the United States for the development of instructional materials and programs on the Constitution of the United States and the Bill of Rights which are designed for use by elementary or secondary school students; and

(B) shall implement an annual national bicentennial Constitution and Bill of Rights competition based upon the programs developed and used by elementary and secondary schools.

(3) In carrying out the program authorized by this section, the Chairman of the Commission shall have the same authority as is established in section 10 of the National Foundation on the Arts and the Humanities Act of 1965.

(b) DEFINITION.—For the purpose of this section, the term "Commission" means the Commission on the Bicentennial of the United States Constitution.

(c) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated $5,000,000 for each of the fiscal years 1987, 1988, 1989, 1990, and 1991 to carry out the provisions of this section.

(2) Amounts appropriated pursuant to paragraph (1) may be used for necessary administrative expenses, including staff.

POET LAUREATE CONSULTANT IN POETRY

SEC. 12. (a) RECOGNITION OF THE CONSULTANT IN POETRY.—The Congress recognizes that the Consultant in Poetry to the Library of Congress has for some time occupied a position of prominence in the literary life of the Nation, has spoken effectively for literary causes, and has occasionally performed duties and functions sometimes associated with the position of poet laureate in other nations and societies. Individuals are appointed to the position of Consultant in Poetry by the Librarian of Congress for one- or two-year terms solely on the basis of literary merit, and are compensated from endowment funds administered by the Library of Congress Trust Fund Board. The Congress further recognizes this position is equivalent to that of Poet Laureate of the United States.

(b) POET LAUREATE CONSULTANT IN POETRY ESTABLISHED.—(1) There is established in the Library of Congress the position of Poet Laureate Consultant in Poetry. The Poet Laureate Consultant in Poetry shall be appointed by the Librarian of Congress pursuant to the same procedures of appointment as established on the date of enactment of this section for the Consultant in Poetry to the Library of Congress.

(2) Each department and office of the Federal Government is encouraged to make use of the services of the Poet Laureate Consultant in Poetry for ceremonial and other occasions of celebration under such procedures as the Librarian of Congress shall approve designed to assure that participation under this paragraph does not impair the continuation of the work of the individual chosen to fill the position of Poet Laureate Consultant in Poetry.

(c) POETRY PROGRAM.—(1) The Chairman of the National Endowment for the Arts, with the advice of the National Council on the Arts, shall annually sponsor a program at which the Poet Laureate Consultant in Poetry will present a major work or the work of other distinguished poets.

(2) There are authorized to be appropriated to the National Endowment for the Arts $10,000 for the fiscal year 1987 and for each succeeding fiscal year ending prior to October 1, 1990, for the purpose of carrying out this subsection.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. STAFFORD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The title was amended so as to read:

A bill to amend the National Foundation on the Arts and Humanities Act of 1965, the Museum Services Act, and the Arts and Artifacts Indemnity Act, to extend the authorization of appropriations for such acts, and for other purposes.

EXTENSION OF TIME FOR ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent that the period for the transaction of routine morning business be extended until 1 p.m., with statements therein limited to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

CHILD HEALTH DAY

Mr. KASTEN. Mr. President, October 7 will mark the observance of Child Health Day, which has been celebrated on the first Monday of every October since 1928.

In 1983, President Reagan announced a new effort to ensure that no child in need of medical care is denied access to the care that he or she needs, and he enlisted the support of the American people—parents, volunteers, health professionals, and educators—in this effort.

The health care needs of our Nation's children are great, but in the last few years we have seen the overwhelming and agonizing needs of children around the world, who face death by starvation, by malnutrition, or by one of a myriad of accompanying diseases. Each year nearly 14 million children in developing countries die from malnutrition and disease.

This year the drought-driven epidemic of starvation and infant mortality affected 34 sub-Saharan African countries and prompted the creation of USA for Africa and the March 7 release of the multisuperstar recording of "We Are the World." In 9 weeks, the citizens of the United States contributed $45 million to the rescue effort. This was followed by the worldwide benefit concert by LiveAid. Tremendous support has been given not only by our own citizens but from many countries around the world to the people, and especially to the children, suffering in famine-scarred and poverty-stricken developing countries particularly in Africa, but also in the Americas, and the Near and Far East.

The world's governments increasingly are coming to the aid of those in terrible suffering, and progress is being made to save the children.

For instance, with the additional funds for health and nutrition appropriated by Congress in fiscal year 1985 for child survival, more than 50 projects and grants designed to have direct impact on the lives of developing countries' children have been obligated. The Agency for International Development [AID] is working with private voluntary organizations, and more than a third of the programs

supported by the additional funds from Congress will be carried out jointly by the United States and developing country private voluntary organizations. A few other highlights of this program:

In Bangladesh, the initiation of a nationwide program to distribute oral rehydration salts packets [ORS] through more than 8,000 outlets is beginning. Oral rehydration solution is a low-cost, extremely effective mixture of salt, sugar, and water, a simple method of eliminating death by dehydration through diarrhea, which kills 4 million children a year.

Ecuador is planning their first national immunization day in late October.

AID will be supporting vitamin A activities in five countries. A study in Indonesia which distributed vitamin A suggested that moderate vitamin A deficiency results in increased sickness and death in children.

In December, AID will sponsor a second conference to discuss the challenges and achievements that 700 of the world's scientists, physicians, and health representatives have experienced in 72 countries around the world in their efforts to promote the use of oral rehydration therapy. The conference is being held in cooperation with the International Center for Diarrhoeal Disease Research/Bangladesh, the U.N. Children's Fund [UNICEF], the UN Development Program, The World Bank, and the World Health Organization. It will directly benefit program managers who are in the front line of child survival activities and is a further step to achieve near-universal availability of this life-saving therapy within 10 years.

We are making progress in saving the lives of children and we must continue to work vigorously toward future gains. Health aid has long been recognized as one of the most valuable forms of foreign assistance. It is not only humanitarian, in that it saves the lives of children, but clearly of high importance in improving the health and the productivity of developing countries, so that they may become self-sustaining. What we do in health for these children today may go far to establishing peace, cooperation, and economic well-being in future years for all of us.

MURDER OF BENIGNO AQUINO

Mr. MURKOWSKI. Mr. President, the trial of 27 persons accused of involvement in the murder of Philippine political leader Benigno Aquino on August 21, 1983, is currently underway in Manila, Republic of the Philippines. The Congress has on several occasions spoken out with regard to the need to bring to justice those responsible for this crime, most recently in the foreign assistance authorization bill, signed by the President in August of this year.

Mr. President, I wish to enter in the RECORD the text of an announcement made by the U.S. Department of State on September 16, 1985. The Department released the texts of affidavits from six U.S. Air Force officers who were on duty at two airbases in the Philippines on August 21, 1983. The affidavits were provided to Philippine prosecutors in the ongoing trial on August 30, 1985. On September 30, 1985, it was announced in Manila that the prosecutors do not intend to use the USAF affidavits and consider the matter closed.

I believe that the Department of State's comment on this matter speaks for itself.

I also enter into the RECORD, Mr. President, copies of the six affidavits in question. Five of these affidavits were executed in the presence of and notarized by the Assistant Legal Advisor of the Department of State, Mr. Patrick M. Norton, and authenticated by the Deputy Secretary of State, Mr. John C. Whitehead. The sixth affidavit was accomplished in Manila.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

PHILIPPINES: AQUINO ASSASSINATION TRIAL—RELEASE OF USAF AFFADAVITS

It has been the consistent position of the United States since the 1983 murder of Benigno Aquino that the investigation of that crime be thorough and impartial, and that those responsible, no matter who they may be, be brought to justice and punished to the fullest extent of the law. The United States therefore believes it important that the outcome of the current Aquino assassination trial in Manila be seen by the Filipino people as based on a thorough, complete consideration of all pertinent information.

In mid-July, newspaper accounts reported that on August 21, 1983, the day of Senator Aquino's assassination in Manila, unusual levels of activity by the Philippine Air Force were witnessed at two airbases in the Philippines (Wallace Air Station and Villamor Air Force Base) by United States Air Force personnel. So far as we have been able to ascertain, no one in the Department of State, or the U.S. Embassy in Manila, or the Defense Department other than USAF personnel in the Philippines were aware of the reported activities until the July newspaper accounts.

On August 7, the Philippine Ministry of Foreign Affairs requested through the United States Embassy in Manila that the United States provide to the Philippine Government any information in its possession relating to events on August 21, 1983 as reported in the July newspaper accounts. In a discussion between the United States Ambassador in Manila and Acting Foreign Minister Castro on August 8, it was agreed that the United States would prepare sworn affidavits from the USAF personnel on duty on August 21, 1983 at the two airbases in question. It was further agreed that these affidavits would be transmitted to the prosecutors, through the Ministry of Foreign Affairs, in a sealed envelope.

In mid-August, the U.S. Air Force prepared affidavits from six USAF personnel who were on duty at Wallace Air Station or Villamor Air Base on August 21, 1983. The affidavits were sworn before a notary public. The affidavits were then "authenticated" by the Department of State and the U.S. Embassy in Manila before being presented on August 30, as had been previously agreed, in a sealed envelope to the Ministry of Foreign Affairs for transmittal to the prosecutors.

On September 13, the Chief Prosecutor (Tanodbayan), Bernardo Fernandez, announced that the prosecutors do not intend to use the USAF affidavits and consider this matter closed. We indicated to the Philippine authorities from the outset that we expected the affidavits to become public at an appropriate moment. We also indicated that we were prepared to consider any further Philippine requests for assistance in this matter. Since the Tanodbayan has stated that it will not examine this matter further, it appears to us appropriate to release the affidavits now.

Mr. Fernandez also suggested in his statement of September 13 that the affidavits had not been properly authenticated and this alleged infirmity was somehow related to the Prosecutors' decision not to use them. We do not understand the basis for this assertion. Authentication is a technical legal procedure by which the authenticity of documents is protected. There is no question of the authenticity of the affidavits. Nor is there any basis for challenging the procedures by which they were authenticated. Authentication is simply a series of attestations of the authenticity of the documents as they pass from hand-to-hand. There are several ways of doing this. In this case, the State Department verified under seal that the affidavits had been properly notarized, the U.S. Ambassador in Manila verified that the Department seal had been properly affixed. This was in accord with normal judicial procedures.

An alternative procedure would have been to involve the Philippine Consulate in Washington in the chain of authentications. We considered and rejected this alternative when the Consulate refused to make the authentications without copying the documents—a condition we considered inconsistent with the arrangements of August 8 with the Acting Foreign Minister to have the documents transmitted in a sealed envelope to the prosecutors. When it became clear that the United States would not agree to permit the Consulate to copy the affidavits, the Philippine Embassy in Washington specifically suggested precisely the procedure that we in fact followed. Under these circumstances, we cannot explain the Tanodbayan's criticism of the authentication process that was followed. The statements of Tanodbayan Fernandez on September 13 that the affidavits were somehow defective is, in our view, wholly without foundation.

The affidavits in question represent the best recollections of six different individuals as to events that occurred two years earlier. As one would expect, there are minor discrepancies in their recollections.

The one unambiguous conclusion to which the affidavits point is that there was, in fact, a highly unusual degree of activity by the Philippine Air Force on August 21, 1983 (a Sunday), and that two Philippine Air Force fighters were scrambled on that day. The affidavits include all we know about those events.

We cannot of course substitute our judgment for that of the Philippine judicial processes concerning the weight or probity of the information in the affidavits. We had

hoped, however, that a rigorous examination of that information would have occurred within the judicial processes themselves.

AFFIDAVIT

I, Michael B. Etzler, being duly sworn, depose and say:

1. I am 29 years old and a First Lieutenant in the United States Air Force (USAF). I have been in the Air Force for ten and a half years and was commissioned in September 1982. I subsequently received training as a Weapons Controller and was later assigned to Wallace Air Station in the Philippines for my first commissioned duty assignment in March 1983. I departed the Philippines in March 1984.

2. Wallace Air Station is one of four Air Defense Direction Center (ADDC) in the Philippines. The other three are manned exclusively by Philippine Air Force (PAF) personnel. Wallace has about 14 radar scopes in what is known as the "dark room." These radar scopes are sometimes used by Philippine Air Force personnel. On weekdays the Wallace ADDC is manned by about 15-20 USAF and one or two PAF personnel. On weekends ordinarily only one PAF enlisted man is present and a reduced crew of from five to seven USAF personnel are on duty.

3. Air Defense instructions are issued from the Philippine Air Defense Control Center (PADCC) at Villamor (code named Arrow) and the Air Defense Centers support Air Defense by maintaining surveillance of their assigned area within the Philippine Air Defense Identification Zone (PADIZ). It was our function at Wallace to track and monitor aircraft in our area and for training purposes to control USAF aircraft and occasionally PAF aircraft. Additionally, we were responsible for controlling USAF aircraft intercepts of unidentified or unknown aircraft.

4. It was a routine matter for Philippine Air Force personnel to use one or more of our scopes. This could happen two to three times a week while the PAF was running training missions of PAF aircraft in the area.

5. On 21 August 1983, the crew I was on reported for duty about 7 AM as usual. Other USAF personnel on duty that day were Captain Black, the Senior Director, and T/Sgt Wendell Austin. It was a slow weekend. The USAF aircraft were not training on that Sunday. Our primary responsibility was to be ready to respond should our support or assistance be required.

6. About 1100 local time that morning, Major Farolan, the Philippine Air Force Commander at Wallace, Captain Bandong, the PAF Director of Operations, Captain Bibon, A PAF Air Controller and three or four other Philippine Air Force personnel came to the dark room and asked permission to use two of our scopes and at least two frequencies, possibly more. I was playing cards with some of the other crew members at the time and said "sure" hardly bothering to look up. When I did look up and see the number of PAF personnel who were there, I became concerned that something very unusual was going on, especially since Major Farolan was present. All of the PAF personnel were in uniform which was unusual for a weekend at Wallace. Except for exercises we never saw that many PAF personnel in the dark room and certainly never on a Sunday.

7. I sent someone to fetch Captain Black who was in the break room at the time. He appeared immediately and told the PAF personnel who were already setting up their equipment to stand by. Captain Black was attempting to find out what was going on but apparently without success. Someone placed a call to the PADCC at Villamor in an attempt to find out what was going on. He did not have any luck either.

8. At about this time Major Townsend appeared. On that day Major Townsend was our Director of Operations but not on duty in the facility; rather he was on call with a protable radio. I believe that Major Townsend and Captain Black discussed the situation with Major Farolan and perhaps some of the other PAF officers. I did not hear their conversation.

9. At about this time a US airman operating the surveillance radar and another airman manning the plotting board began to plot an incoming aircraft which appeared to be at the place and time sought by the PAF. This action was at our initiative and was not requested by or coordinated with the PAF. At about the same time apparently the PAF aircraft were launched to intercept the targeted aircraft. A short time later the USAF airman stopped plotting the course of the detected aircraft. I do not know if it was because it was lost on the screen or at the direction of Major Townsend on the basis that we did not really know what was going on and the PAF had requested no assistance. It was still possible for the PAF personnel manning the radar scopes to track the aircraft on their scopes. The PAF also had its own plotter but my memory is he was never asked to make any entries on the plotting board.

10. I heard bits and pieces of conversation of the Philippine Air Force personnel on duty that day. These conversations led me to believe that they were looking for a private, non-commercial aircraft. I also heard one of the Philippine officers, possibly Captain Bibon although I cannot be sure, say that the aircraft must land at Basa whether it wanted to or not and that in no circumstances could it be allowed to land in Manila. The Filipino's seemed unusually serious throughout this situation. They were uncharacteristically uncommunicative.

11. I have examined a copy of the Wallace log for 21 August 1983, and I am told that the entry at 0340Z contains the word "(Aquino)" written in a green felt pen. This is highly unusual as our standard operating procedure required that all entries be made in black ink. I do not recall ever seeing the entry before. Had it been in the log during my tour of duty at Wallace I am reasonably certain that I would have noticed it.

AFFIDAVIT

I, David B. Hampton, being duly sworn, depose and say:

1. I am a Staff Sergeant in the United States Air Force, currently stationed with the 3400th Technical Training Group at Keesler Air Force Base, Mississippi. I have served in the United States Air Force since September 15, 1971.

2. I have served three tours of duty in the Republic of the Philippines. In 1972-73, I was stationed for thirteen months at Wallace Air Station. In 1975-76, I was again stationed for approximately one year at Wallace. From December 1978 until May 1980 I was again stationed at Wallace. From May 1980 until May 1984, I was stationed with Detachment 1, 13th Air Force, Villamor Air Base, serving as advisor to the 1st Air Division of the Philippine Air Force.

3. The Philippine Air Defense Control Center is located at Villamor Air Base. It consists of one, two-story building, comprised primarily of offices. Below ground level is located an Air Defense Control Center, sometimes known as the "operations room." In the operations room is located a larger plotting board, consisting of a plexiglass map of the territory of the Philippines and surrounding areas.

4. The Philippine Air Defense Control Center is the central controlling operational center for all Philippine Air Defense functions. It has no radar capability of its own. It is, however, directly connected with several radar sites. including Wallace Air Station.

5. Eight United States Air Force personnel are normally assigned to Villamor, including two officers and six enlisted men. Four of the enlisted men serve as Senior Control Technicians, working twelve hour shifts seven days a week. The two officers and two of the enlisted men normally work regular office hours during the week. On a normal weekend or at night, there will be one Senior Control Technician on duty.

6. I do not know the number of Philippine Air Force personnel at Villamor officially on duty at any given time. It appeared to me that approximately ten to fifteen Philippine Air Force personnel were normally on duty during the day and a lesser number in the evenings and on weekends.

7. On Sunday, August 21, 1983, I was the Senior Control Technician on duty at Villamor from 0600 until 1800 (Local Time). At approximately 0900-0930, I received a telephone call from Captain Marion Black who was the Senior Director at Wallace Air Station that day. Captain Black asked me what was going on at Villamor. I asked him what he was talking about, and he informed me that the Philippine Air Force at Wallace was requesting the use of United States Air Force radar scopes there and would not tell him why.

8. Immediately after Captain Black's phone call, I went downstairs into the "operations room." I saw there at least four Philippine Air Force officers, including Colonel Kapawan, the Chief of the Air Defense Control Center. I asked Colonel Kapawan what was going on. He informed me that it was an "internal affair." Because I knew from the Manila newspaper that Senator Aquino was expected to arrive that day, I asked Colonel Kapawan if it had to do with Senator Aquino. He repeated that it was an "internal affair." I observed that the Philippine Air Force personnel were in position to plot aircraft routes on the plotting board in the operations room. I then returned to my office, called Captain Black at Wallace and informed him of what I had been told by Colonel Kapawan.

9. Some time later in the morning, I received a further telephone call from Wallace, this time from Major Paul Townsend. I do not recall the specific content of that conversation, but I believe I informed him that I knew nothing further than I had related to Captain Black in the previous conversations.

10. Somewhat later in the day, perhaps around noon, Colonel Kapawan came into my office. I asked him again if the activity in the operations room was related to Senator Aquino. He said yes, and advised me that the Philippine Air Force had wanted to divert Senator Aquino's flight to Basa Air Base. Colonel Kapawan told me they were looking for a China Airlines flight coming from Hong Kong. Colonel Kapawan told me

that they had failed to intercept the aircraft.

AFFIDAVIT

I, Wendell A. Austin, being duly sworn, depose and say:

1. I am a Technical Sergeant in the United States Air Force, currently stationed at Buckley Air National Guard Base in Aurora, Colorado. I have served in the United States Air Force since July 1967.

2. From March 1, 1983, until March 1, 1984, I was stationed at Wallace Air Station in the Republic of the Philippines. My principal duty there was to serve as Senior Director Technician and Combat Crew Supervisor. I was the senior enlisted person on duty and administratively supervised all other enlisted personnal on duty. Under the supervision and command of the Senior Director (normally a United States Air Force Captain), I also operationally supervised all other United States Air Force personnel.

3. Operations at Wallace Air Station take place in a single building comprised of various administrative offices and an operations room more commonly known as the "dark room." In the Wallace "dark room" were located approximately a dozen radar scopes. These radar scopes were turned on at all times. During normal work days, the majority of these scopes would be manned by United States Air Force personnel. At nights and on weekends, only a small number of the radar scopes would actually be manned.

4. During normal week day operations, there were approximately 15-20 United States Air Force personnel on duty at Wallace. At night and on weekends, there were normally about eight personnel, officers and enlisted men. On week days, there were normally two Philippine Air Force enlisted men on duty. At night and on weekends, there was ordinarily only one.

5. Among my duties as Senior Director Technician was the maintenance of the United States Air Force log book at Wallace. I have reviewed the attached xeroxed copy of the log entry for 21 August 1983 and recognize it as being in my own handwriting. The time entries in the log book are in so-called "ZULU Time," that is Greenwich Mean Time. The actual local time in the Philippines was eight hours later.

6. In the fifth line for the entry at 0340 on 21 August 1983 in the log book, there is a notation "(Aquino)". I have been informed that entry is made with a green felt pen. I did not make that entry and do not know who did. The United States Air Force used a strict color coding for log book entries at Wallace. Green entries were not authorized under this system.

7. On August 21, 1983, I reported to duty at 0730 and went off duty at 1530. When I entered on duty, the only Philippine Air Force personnel present was the enlisted man normally present on Sundays. Sometime during the course of the morning, two Philippine Air Force officers and two additional enlisted men entered the "dark room." The Philippine Senior Controller—a Captain whose name I do not recall—asked the United States Air Force Senior Director, Captain Marion Black, for the use of two radar scopes and four UHF radio frequencies to run a mission. Captain Black initially assigned the Philippine Senior Controller two scopes and four UHF frequencies.

7. At this point I asked the Philippine Senior Controller for information on their mission. He said that the mission was an intercept and gave me the call signs of two F-5 aircraft. Because it was highly unusual in my experience for the Philippine Air Force to fly on Sunday, I asked the Senior Controller for additional information. He told me that the intercept had been directed by the Philippine Air Defense Control Center at Villamor Air Base, known as "Arrow," and that was all he could or would tell me. I advised Captain Black that we should not permit the use of the radar scopes until we had more information. Captain Black immediately revoked his previous permission to use the radar scopes and frequencies.

8. I then contacted the Director of Operations at Wallace, Major Paul Townsend. Major Townsend was not on duty that day. I do not recall whether I contacted him by telephone or radio. Major Townsend was, however, on base and reported promptly to the operations room.

9. Major Townsend asked the Philippine Senior Controller to explain the nature of their mission. The Philippine Senior Controller, before answering, called Arrow and conducted a conversation in Tagolog. At the end of that conversation, he informed Major Townsend that the Philippine Air Force had orders to intercept a civilian aircraft and to force it to land at a Philippine Air Force Base, whether it wanted to or not.

10. Major Townsend then called the United States Air Force Senior Director at Arrow. Major Townsend indicated that the United States Air Force Senior Director at Arrow had been unable to determine from the Philippine Air Force there what was going on. Major Townsend indicated that, after the discussion with the United States Air Force Senior Director at Arrow, they had decided to allow the Philippine Air Force to use the radar scopes and frequencies at Wallace. He further indicated that the United States Air Force would disavow any involvement or responsibility for the intercept.

11. The Philippine Air Force Controllers then assumed their positions at the two radar scopes. They were there for approximately one to two hours. During that time, two Philippine Air Force F-5 aircraft were scrambled and placed on combat air patrol somewhere over the South China Sea just northwest of the Island of Luzon. This was unusual because it was only the second time, during my one year tour, that I had seen the PAF scramble alert aircraft other than during an exercise.

12. I was told by one of the Philippine Air Force weapons controllers (a Captain of the Philippine Air Force whose name I do not recall) that the flight they were attempting to intercept was enroute from Hong Kong to Manila. He told me at the time the flight number and name of the airlines and expected time of intercept. I do not remember this information except that it was not an American flag carrier involved.

13. Somewhat later in the day, the Philippine Air Force personnel at Wallace were informed that the airliner they had been looking for had landed in Manila and that their fighters could return to base. The Philippine Air Force Controller told me that they had never seen the target airliner on the radar scopes. I had no further discussions on this subject with anyone in the Philippine Air Force.

AFFIDAVIT

I, Marion Allen Black, having been duly sworn upon oath depose and say:

1. My name is Marion Allen Black. I am 29 year old, a Captain, and have been in the Air Force almost eight years. I trained in weapons control at Tyndall Air Force Base in Florida and have served in weapons control related duties at Tampa, Florida, Okinawa, Japan, and Wallace Air Station, Republic of the Philippines. I was assigned to a one year tour at Wallace Air Station in December 1982. I was the Senior Director of an Air Defense control crew consisting of approximately 20 people.

2. Wallace is an Air Defense Direction Center. It has about 14 radar scopes. These scopes are used by both the Philippine Air Force (PAF) and the United States Air Force (USAF). Air Defense instructions are issued from the Philippine Air Defense Control Center (PADCC) at Villamor (formerly Nichols Air Base). There are four Air Defense Direction Centers (ADDC) in the Philippines. The other three are manned exclusively by PAF personnel.

3. The mission of the ADDCs is to support air defense systems by maintaining surveillance of the assigned area within the Philippine Air Defense Identification Zone (PADIZ). Thus, it was our duty to track and monitor aircraft in our area and, for training purposes, to control USAF and occasionally PAF aircraft particularly with respect to flights originating or terminating at Clark Air Base. It was also our mission to control USAF intercepts of unidentified or unknown aircraft when directed by 13th Air Force.

4. On week days the Wallace ADDC is manned by about 15-20 USAF personnel and one or two PAF personnel. Most of the time the PAF personnel stayed in the administrative area and not in the "dark room" where the radar scopes and plotting boards are located. Several times a week when the Philippine Air Force was training, the PAF personnel would request permission to use the scopes and be assigned frequencies. Such requests were routinely granted. On weekends there would ordinarily be from five to seven USAF personnel and usually one Philippine Air Force enlisted person.

5. On 21 August 1983 my crew began duty at 0700. On duty with me were T/Sgt Wendell Austin, Lt. Michael Etzler and Sgt. Mike Adams plus several others whose names I cannot recall. The Director of Operations that day was Major Paul Townsend. He was not in the building but was on call.

6. Based on the entries in the log that day and my memory, about 1030 or 1100 AM local time, Major Farolan, the Wallace PAF Site Commander, Captain Bandong, the PAF Director of Operations, and four or five other PAF personnel came to the "dark room." They asked permission to use two scopes and be assigned four frequencies for radio communications.

7. This struck us all as very unusual because we rarely saw any PAF personnel on weekends and never in such numbers (full battle staff size) except during exercises. We USAF personnel became curious and discussed the unusual situation among ourselves. I asked Major Farolan what was happening and was told in effect that I need not worry about it, it was internal Philippine Air Force business. This also struck us as unusual because Major Farolan was ordinarily a very affable, communicative person.

8. At about this time, although I can no longer remember the exact sequence, we attempted to find out what was happening by calling Sgt. Hampton at Villamor who made inquiry there and was similarly rebuffed.

9. Major Townsend arrived in response to our call and discussed the matter with Major Farolan. Before Major Townsend arrived I had told the PAF to stand by on their operation until he arrived. After discussing the matter out of my hearing Major Townsend, Major Farolan and Captain Bandong seemed to come to some meeting of the minds on the issue. Major Farolan, Captain Bandong, Major Townsend and I went into an adjoining area where Major Farolan explained that the Philippine Air Force was going to launch two F-5's to intercept a civilian aircraft and either turn it back to its origin or escort it to Basa Air Base for landing. Major Townsend then authorized the PAF to use two radar scopes and four UHF frequencies, as they had requested, but Major Townsend stated that this activity was PAF affair, in which the USAF would not take part.

10. My impression throughout these events was that the PAF was looking for a commercial airliner. I do not know on what basis I formed that impression. I also recall being told by either Major Farolan or Captain Bandong that the Philippine Government felt that it was unsafe for the aircraft to land in Manila because of threats made against a passenger's life. As I remember it, the passenger was later identified as Senator Aquino.

11. The PAF personnel approached their duties with unusual seriousness and maintained surveillance until shortly after the F-5s returned to Basa about 1220 local time.

12. Regarding the log entries for August 21, 1983, in particular the one of 0340Z time, I am told that the word "(Aquino)" appears on the original log written with a green felt pen. To the best of my knowledge that entry was not there in the log when I left Wallace in December 1983. The log entries were made in black ink only. Sometimes, red ink was used to underline. Green was never used. As far as I can determine no intercept was ever made nor do I have any other reason to suspect that it was successful. I do not know the names of any other PAF personnel who may have been in the "dark room" that day.

AFFIDAVIT

I, James H. Keys, being duly sworn, depose and say:

1. My name is James H. Keys. I am 41 years old and a Lieutenant Colonel in the United States Air Force in which I have served for almost eighteen years. I was assigned as the United States Facilities Commander at Wallace Air Station in August 1983 and served there until August 1984. I was also the Commander of the 848th Aircraft Control and Warning Squadron. As Commander of the facility, my primary concern was with managing the entire facility and seeing that the 848th accomplished its mission successfully. I delegated most of the operational duties to my Director of Operations Major Paul Townsend, who served very capably.

2. On 21 August 1983, I was called by Major Townsend who requested me to come to the operations room. No further details were discussed in the call. When I arrived in the operations room, I observed three or four Philippine Air Force (PAF) personnel who appeared to be looking for an aircraft on the radar scopes they were using. As best I can remember it was Major Townsend who told me that was what they were doing. The activity was unusual in that PAF Controllers rarely came in on a weekend.

3. I exchanged a brief greeting with Major Farolan, the Phillippine Commander, who appeared to be hesitant to discuss his current mission but he may merely have been too busy to chat very much. I do not recall if any PAF aircraft had been launched on that day. What was clear to me was that the PAF personnel were running an operation in which the United States Air Force (USAF) was not involved. I do not recall making a connection between the activity at Wallace and Senator Aquino's arrival in the Philippines. I do not remember any plans or intentions to divert an aircraft to Basa Air Base.

[ORIGINAL PREPARED IN MANILA, AUGUST 30, 1985]

I, Jesse Moultry, having been duly sworn, upon oath, depose and say:

1. My name is Jesse Moultry, I enlisted in the United States Air Force on August 6, 1971. I received an Air Force Commission April 15, 1979. I became an Air Weapons Controller after completing the basic weapons controller school at Tyndall Air Force Base, FL, on June 21, 1979.

2. My first assignment as an Air Weapons Controller was at McChord Air Force Base in the Semi-Automated Ground Environment (SAGE) Air Defense System. I spent approximately three years in this system qualifying in a number of air defense related duties before being transferred to my present assignment, Detachment 1, 13th Air Force numbered Air Force Combat Operations Staff (NAFCOS).

3. DET 1 is a 13AF air defense unit which provides air component command interface to the Philippine Air Defense System (PADS). It is a small geographically separated unit composed of two USAF officers and six enlisted personnel. We are located on the first floor of Headquarters First Air Division, home to the Philippine Air Defense Control Center (PADCC). Our mission is to represent the 13AF Commander at the PADCC regarding all air defense matters involving U.S. resources operating in or committed to the air defense of the Philippines.

4. I am the unit's Operations Officer and one of two mission ready Senior Controllers. My duties as a Senior Controller are what I'll address here. As a USAF Senior Controller, I serve as the 13AF Commander's representative to the PADCC during day to day operations. I provide liaison between Philippine Air Force (PAF) and 13AF in a joint allied environment. I assume overall responsibility as well as provide for the continuity of USAF operations at the PADCC. I exercise control and accept responsibility for the duty performance and personal conduct of all operations personnel under my control.

5. On the morning of August 21, 1983, I was not on duty at the PADCC, but I was on call. Since there were only two USAF Officers in the unit, we had to inform on-duty personnel of our whereabouts in case of an emergency or actual contingency. I was at the United States Employees Association (USEA) Compound on Roxas Blvd. I telephoned my office from there to advise them of my location. I do not recall the exact time I placed this call, but I think it was somewhere between 0900 and 1100 local. Staff Sergeant Dave Hampton, the on-duty Senior Controller Technician (SCT) answered the phone. He informed me that the PAF were out in unusual numbers, that they had scrambled fighters and when he asked what was up, he said he was basically told by PAF personnel that it was none of his business. He also informed me that Lt. Col. Keys, the 848 ACWS Commander had called looking for Lt. Col. Mason, the Detachment Commander, to get his (Mason's) opinion as to whether he (Keys) should relinquish radar scopes to the PAF who would not inform him as to what was going on. Lt. Col. Mason could not be reached so I instructed Sgt. Hampton to refer Lt. Col. Keys' call to the 13AF Command Center.

6. Upon receiving this information from S.Sgt. Hampton, I did not feel an urgency to go to the office to monitor the situation. Sgt. Hampton had said the PAF informed him it was an internal matter and nothing that would concern the USAF.

7. Within a short time after my phone conversation with Sgt. Hampton, a special news bulletin appeared on the television set in USEA's cocktail lounge announcing the death of Senator Benigno Aquino, Jr. The report said Senator Aquino had been shot by an unidentified gunman who has also been killed by AVSECOM security personnel. I did not make any connection between this and the information I had received from Sgt. Hampton.

SOVIET BOMBER AND NAVAL ACTIVITY OFF THE COAST OF ALASKA

Mr. MURKOWSKI. Mr. President, on several occasions in the past I have sought to draw the attention of my colleagues to the increasing level of Soviet Bear bomber activity off the coast of Alaska, as well as Soviet harassment of U.S. scientific research vessels and oil drilling operations in the Bering Sea.

I have made these statements in order to point out the need for improved early warning systems, such as the North Warning System and the Over-the-Horizon Backscatter [OTH-B], and command and control AWAC's aircraft in Alaska. Moreover, I have urged the Department of State to protest those Soviet actions that recklessly and needlessly threaten American lives.

To give some flavor of the activity to which I am referring I would simply point out that between September 12-19 the Alaskan Air Command made four separate intercepts of eight Soviet Bear bombers exercising off the coast of Alaska. These included Bear-H aircraft capable of carrying long-range AS-15 cruise missiles. Soviet bombers were intercepted by F-15 fighter aircraft, assisted by E-3A AWAC's, off the north and northwest coast of Alaska, 60 miles north of Point Barrow, as well as further south off the Aleutian Chain. I believe that we can expect to see more of this kind of bomber activity in the future, and I can assure my colleagues and my constituents that I will support those modernization programs needed to address the Soviet bomber threat to North America.

Mr. President, a fascinating personal account of America's continuing boundary dispute with the Soviets on the high seas is contained in an arti-

cle, "Seized by the Russians," by Tabb Thomas in the September 1985 Alaska magazine. Mr. Thomas served as the commander of the *Frieda-K*, a 120-foot landing craft providing support to a Houston-based company making a seismic survey of the Chukchi Sea off the northwest coast of Alaska, when it was seized by the Soviets on September 11, 1984. This is a chilling, real-life account that brings home the human dimension and stark reality of dealing with the Soviet Union.

Mr. President, I commend this article to the attention of my colleagues and ask that it be printed in the RECORD, along with those articles from the Anchorage Times and Washington Post that detail the recent activity of Soviet Bear bombers.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Sept. 23, 1985]

U.S. FIGHTERS TRACK SOVIET BOMBERS

ANCHORAGE, Sept. 22.—U.S. Air Force jet fighters scrambled four times in eight days this month to intercept Soviet bombers flying near Alaska, a military spokesman said.

"This is an unusual level of activity from what we have seen in the recent past," said Maj. Darrell C. Hayes, chief of public affairs for the 21st Tactical Fighter Wing at Elmendorf Air Force Base.

"But it has not increased the level of tensions," he said.

The interceptions by F15 Eagle fighters occurred between Sept. 12 and Sept. 19, he said. None of the Soviet planes, Bear A and Bear H models, carried visible armaments, Hayes said.

None of the bombers entered Alaskan airspace.

F-15 Jet Fighters Intercept Soviet Bombers Near Alaska

(By Karen Robin)

F-15 jet fighters scrambled four times over an eight-day period ending last week to intercept and escort eight Soviet bombers flying near Alaska, an Elmendorf Air Force Base spokesman said Friday.

Military officials said the interceptions represented an "unusual" amount of activity by Soviet aircraft.

U.S. Air Force F-15 Eagles intercepted the big bombers between Sept. 12 and Sept. 19, said Maj. Darrell C. Hayes, chief of public affairs at the 21st Tactical Fighter Wing headquartered at Elmendorf.

None of the aircraft, Bear A and Bear H models, intercepted off the coast of the state, carried visible armaments, he said.

On Sept. 12, fighters on alert at Galena Airport intercepted two new Bear H bombers flying off the northern coast of Alaska.

Directed by controllers from the 11th Tactical Control Group in the NORAD Region Operations Control Center at Elmendorf and by an E-3 Ariborne Warning and Control System (AWACS) aircraft, the fighters located the bombers off the northern coast of Alaska and escorted them across the Arctic Sea for about an hour.

A KC-135 aerial tanker from the Alaskan Tanker Task Force at Eielson Air Force Base refueled the fighters during the mission to extend their flying range.

On Tuesday, Sept. 17, the same team of Air Force aircraft and controllers made contact with two pairs of Soviet Bear H and Bear A bombers flying off the Aleutian chain.

And Thursday, two F-15s, one from Elmendorf, found two more Soviet bombers crusing off the state's northwest coast.

The Air Force videotaped the Thursday encounter and released the tape to television stations Friday.

"This is an unusual level of activity from what we have seen in the recent past," Hayes said.

"But it has not increased the level of tensions" between the U.S. and the U.S.S.R., he added.

The bombers did not enter Alaska airspace, Hayes said.

The AWACS, temporarily assigned to Alaska, helped the F-15 fighters locate the Russian bombers after NORAD, or North American Aerospace Defense Command, radar screens revealed them approaching United States airspace.

The Bear A is the first model of the long-range bomber line, which was designed in the 1950s and modified through the years, but still employs propeller engines.

[From the Alaska Magazine, September 1985]

SEIZED BY THE RUSSIANS

(By Tabb Thoms)

The gray ship ahead of us in the Bering Sea appeared at first to be a fishing vessel, but it was bow-on and we couldn't be sure. We were unfamiliar with the Diomede area and dependent upon the book, *U.S. Coast Pilot*, and our marine charts for navigation. Having very little information regarding the channel between the Diomede Islands, we decided to ask the gray ship for local sailing information.

I slowed the *Frieda-K* as we neared the still bow-on ship. An officer on deck motioned, and I interpreted this to mean we should tie up. So we pulled alongside and threw our lines across. Suddenly about 30 soldiers swiftly leaped from the gray ship onto the *Frieda-K*. They wore camouflage uniforms and carried machine guns, knives and pistols.

They pointed their guns at my crew on the stern. Several guards and an officer came into the wheelhouse where I stood, bewildered, and pointed guns at me. One of the soldiers swiftly disconnected all of our radio communication equipment, pulling switches and plugs and disconnecting antennas.

They ordered us to shut down the main engines, and the *Frieda-K* sat silently, overrun with armed soldiers who spoke no English. They made their desires known by nudging us with machine guns and motioning what they wanted us to do. Another 30 or so armed soldiers stood waiting at the rail of the Russian ship.

We had been seized by a Russian Frontier Guard ship.

It was Tuesday, September 11, 1984, and our 120-foot landing craft, based in Homer, Alaska, and owned by Kemp Palucci Seafoods of Duluth, Minnesota, was under contract to Digicon Geophysical, a Houston-based company making a seismic survey of the Chukchi Sea off the northwest coast of Alaska.

Our job was hauling fuel, fresh water, parts and food supplies from Nome to the seismic vessels in the Arctic, returning with seismic tapes and other goods.

The four-man crew included my brother Tate, 19, engineer; Mark Halpin, 20, first mate; Tony Miller, 25, assistant engineer; and Charley Burrall, 29, cook. I was 25 and the ship's captain. I left school at the age of 15 to work on the *Frieda-K* as a deckhand, finishing my schooling by correspondence. I passed the master's seaman license examination when I was 18, but the Coast Guard withheld the license at the time because, by law, I was too young to hold such a license.

All of us who worked on the *Frieda-K* live in Homer, a small town at the southern tip of the Kenai Peninsula, and all of us belong to the Christian Community Church there.

We had just delivered 40,000 gallons of diesel fuel and 10,000 gallons of fresh water to the seismic vessels in the Arctic and had picked up a shipment of seismic recording tapes to take back to Nome. We were about 20 hours ahead of schedule and were interested in seeing the village on American-owned Little Diomede. As we neared the Diomede Islands on that beautiful calm day, there wasn't a cloud in the sky and the sea was like glass.

We decided to divert a few miles to look at and perhaps visit the Eskimo village on Little Diomede Island. It lies on the west side of the Island and faces Russian-owned Big Diomede Island across a two-mile wide channel. When we saw the gray ship north of the islands, it seemed logical to ask if they had local knowledge that could help us get to the village.

Soon after the soldiers boarded us, a twin-engined Russian aircraft circled overhead, as did a Russian helicopter. Around us were several small power boats, apparently launched from the Frontier Guard ship.

We gathered to pray on the stern deck. The situation was clearly out of our control. While we were praying, the guards grabbed me, ripped me away from the huddle and took me to the pilot house. My crew, in shirtsleeves, was held outside on the stern deck. The Russians wouldn't allow them to move. It appeared to us that they were waiting for something.

In two hours a Russian destroyer arrived. It stopped a good distance away, and a small boat brought a load of officers and an interpreter to the *Frieda-K*.

In the meantime I assumed that all was well, for we had done nothing wrong. I was sure that the Russians would realize they had made a mistake. The Loran-C radio navigation equipment of the *Frieda-K*, as well as our marine charts, showed us to be in U.S. waters.

Later, through their interpreter, the Russian officers told me that the *Frieda-K* was inside Russian waters. I maintained that we were on the U.S. side.

Right from the start the Russians told us nothing. They asked the questions.

"You have broken the law, and in our country you have no rights," I was told.

Later the tune changed. Another interpreter told me I could ask any questions I wanted, but when I asked questions, they ususally changed the subject.

Soon after the interpreter was brought aboard, an officer questioned me. Mainly he asked, "Why have you deliberately violated the Russian boundary?" He also asked when we had last talked with any one by radio, and he wanted to know if anyone knew where we were.

I denied crossing the Russian boundary, but he refused to accept that. The interpreter was taken to the destroyer. He

brought back an official-looking paper and said, "You are located here," pointing to the latitude and longitude that had been written down, "and you must sign."

I refused.

Obviously our position was different from that of the destroyer. If, in fact, the Soviet boundary had been crossed, I was unaware. If I had signed, it would have been a lie. I also would have given the Russians an excuse to do anything they wanted with us. They would have my signature to prove to U.S. officials that we had intentionally violated the Russian boundary.

After a standoff they made Tate start the main engines and, with armed soldiers on each side of me, directed that I run the *Frieda-K* to the Russian destroyer. The main engines of the *Frieda-K* were then shut down, and the destroyer took us in tow with a soft line.

Several soldiers were ordered to take me down to my quarters. My crew, chilled from the cold, was still being held outside on the stern deck. It seemed pretty clear by this time that we were being taken to Russia.

"We need to turn things upside down," I said to Tate and Mark, as I walked by them on the stern.

Once we were under tow, the Russians relaxed a bit. Not a shot had been fired, and it was apparent that we weren't going to resist. Guards were posted on the bow, on the stern and along the decks. We weren't allowed near any exits or near the rails, apparently for fear that we might leap overboard, nor were we allowed to throw anything overboard. Whenever one of us got close to the rail a soldier would stop him with a machine gun pointed at his belly.

While under tow Tony Miller tripped the engine room alarm, which makes an extremely loud, almost frightening sound. The guards rushed about excitedly. In the confusion Tate and Mark did as I had told them to—they "turned things upside down."

They climbed atop the pilot house, pulled our emergency locator beacon from its holder and flipped it upside down, activating it.

It was our only chance of sending a distress signal, sort of like putting a message in a bottle and throwing it overboard.

The signal from the emergency locator is received by satellite. It must have been detected by a Russian satellite because after about two hours the destroyer stopped, a crew came aboard and found and dismantled it.

We were towed a little more than 24 hours. We were restricted to our quarters. I was not permitted to communicate with the crew. As we were being towed, they questioned us intensely, as they would throughout our entire captivity. They made each of us write everything we could remember about all of our family members, where they lived and what they did. They wanted to know why the *Frieda-K* was in the Bering Sea, and they wanted us to sign what we had written—but we refused to sign anything. While under tow they extensively searched the ship. They found everything we had and examined just about all of it.

The seismic tapes from the Digicon operation that we were delivering to Nome were kept in a storage van on the stern deck. The 40 sealed boxes were distinctively marked with fluorescent orange, "Do Not X-ray," and, in fluorescent green, "Digicon" was printed on each one. The Russians opened the van, looked inside, then closed it. The tapes were probably worth millions of dollars. It was as though they never saw them. Our prayers were being answered.

It was dark when we arrived in the bay of a Siberian port. The lights of a town across the bay were visible to our left. We had to start the main engines to tie up to an old sunken ship that served as a dock. Then more officials searched the ship again. We were told to display all literature on our bunks. They searched everything. They looked under mattresses, searched the engine room, pawed through the logs—even opened hundreds of boxes of filters in the engine room.

I don't know how many times they searched and re-searched the boat. After they were through, the usually neat ship appeared to be a total disaster with paper and objects strewn everywhere.

They wanted me to shut off the auxiliary power—the generator that keeps the heating system going, charges batteries, and runs the food freezers. It was cold, and I told the Russians that shutting down the power would damage the vessel. Water would freeze in the pipes, batteries would discharge, bilge pumps would be inoperative. They allowed us to leave the generator running. We were told to bring a change of clothing and one or two valuables to a place of confinement.

"For how long?" I asked. They refused to say.

All five of us wanted to take our Bibles. This they would not know. When Charley and I requested our Bibles as one of our valuables they answered, "You do it our way. Here, there is no God."

They escorted us to a covered paddy wagon, and I didn't know if we would ever see the *Frieda-K* again.

It was a 15-minute drive along a rough trail—not really a road, for we bounced and had to hang on—before we arrived at an old, run-down military barracks. The floors were rotting, and the doors wouldn't close properly. The "toilet" was a hole in the floor. There was a sink with running water. A single light bulb hung from the ceiling of each room.

We were given a simple physical by a doctor before being taken to the rooms assigned us. Then we were searched again. They took away the Bibles Charley and I had brought. Charley and I were put in one room, and the other three crew members in another. Our room was 7½ feet by 15 feet, and the windows were covered with paper. The room was cold. We had military bunks and several blankets.

More officers arrived, and they interrogated us all night for the second straight night. Question after question. We had to again write the same things over and over. I wrote my family history numerous times.

"We come to you with open hearts and friendship," was a common opening gambit. And then they'd get down to business.

Mainly they asked. "Why have you violated the Soviet boundary? Just write down you reason for violating the Soviet boundary and sign it," they repeated over an over.

None of us signed.

At times they screamed and yelled. All questions and answers had to pass through the interpreter. The officials spoke to us only in Russian. They asked about our business and our personal life. They wanted to know names of ships we had seen, including Russian ships. Except for the seismic vessels and the gray Russian ship, we had not seen any others.

The first three days were the worst. They wouldn't let us sleep. They would leave us briefly, we would lie down to rest, and then they'd come slamming back into the room, perhaps with a fresh interpreter and a new officer or two, and start the questioning all over again. The same questions repeatedly. They would not accept our explanation.

It became apparent from their questions that they had gone through our mail and literature. I said, "I want to talk to an attorney, the American Embassy, or someone in our company." They didn't respond when I made these requests.

We didn't know whether anyone in the United States knew where we were, for there had been no communications after we had been siezed.

They tried the good-guy, bad-guy approach. Two officers would question us. One would say, "let's take care of them right now." The other would say, "No, let's try to be friends" and he would be sympathetic to us. Then the first would insist. "No, let's do it right now."

They took away our watches. They did everything they could to demean us. We were met with hostility during times of interrogation. After a time the persistent interrogation began to wear on our nerves. But we determined not to sign anything that wasn't true.

The guards acted like they were in an old war movie. We could see their shadows on the windows at night, and guards were always outside the door. None would talk. They didn't even talk with each other. You would expect them to be more verbal, at least at the change of the watch. We'd hear footsteps when the fresh guard arrived, but not one word. Then the other guard would leave.

I asked one of the interpreters, "What would have happened if we had turned our ship around and tried to run."

"Korean jet 707 tried to escape," he answered, referring to the airliner shot down by the Russians in 1983. Then, mimicking an explosion with his hands, he said, "Boom! Five Americans. No problem."

At one point they told me they were going to blow up the *Frieda-K.*

They said that our barracks were luxurious compared to where they planned to take us. They threatened to put us in solitary confinement—cells with no heat, no blankets, bars and no windows. They led us to believe this is where we'd be kept—a cold, damp cell with no light. We accepted this as a very real possibility.

"How long can you hold us?" I asked.

I was told that minimum was between 5 and 10 years, but they intimated that if we didn't cooperate, sign their papers and answer their questions, it could be much longer.

By about the second day in the barracks, Tate, Mark and Tony, who had been isolated from Charley and myself, were not sure if I was still alive. They refused to eat until they had seen me.

It wasn't hard to refuse to eat the food. We could eat the bread, but the rest was pretty rugged. We were given cold, sliced, raw herring and some other kind of raw fish. There were things that looked like cubes of cheese, only weren't cheese: They were raw fat. I once stuck a spoon into some soup and when I pulled it out, it was covered with grease—like dipping a candle. It wasn't just a film of fat on top—it was a heavy layer of grease. We were thankful just to be alive.

When the others wouldn't eat, a solider came in and took me by the shoulder and led me into their room so they could see that I was still alive. Then he yanked me back into the room with Charley.

On the sixth day of our captivity at 9:15 p.m., when the officers and interpreter were gone, a solider came into the room and motioned me to follow him, pointing to me and holding his hand to his ear to indicate a telephone call.

Startled, I followed him to a room where there was an ancient telephone that looked to be about one model later than the hand-cranked style. I picked it up and heard, faintly, words in Russian.

"Hello, hello." I said, speaking and alternately listening for about a minute. Then I heard someone speaking English. It turned out to be Susan Arnold, calling from the U.S. Embassy in Moscow! People knew where we were. It was a tremendous relief.

Later the next morning, we received a telephone call from Alaska's Sen. Ted Stevens, calling from Washington, D.C. The connection (or the telephone equipment) was poor, but I understood that Senator Stevens wanted to know if any of us were hurt and what we were charged with. He told me that he had the State Department in Moscow working for our release.

"If you are being held on a technical violation, they should release you soon," he told me.

I told him that the Russians had tried to get me to sign many papers that said we had intentionally violated the Soviet boundary.

"Don't admit to anything you didn't do," he warned.

"We aren't going to sign anything," I told him.

"Is there anything you want me to tell your parents?"

"Everybody's fine."

I was taken back to my room, and minutes later the interpreter and an officer arrived. The telephone call had been a miracle. How they even found the number was incredible, let alone the timing. It was obvious the officers knew nothing about it. I think the guard who led me to the phone got into trouble over it, for we never saw him again after it was learned that I received a call.

The call came at a good time, for we were feeling low, having gone days without more than a few catnaps and without proper food. The stress was building, and we were wondering if we were going to get out. But now that our government knew we were here, we were encouraged.

After I had been questioned again, with the same questions over and over, the officer and the intepreter left. Later, when the officer learned about the phone calls, he was so angry he screamed. It didn't help his humor any when Charley and I refused to talk, answer or do anything he requested. I told him through the interpreter. "We've answered your questions numerous times. Enough is enough."

Then a lieutenant colonel arrived. We understood he was in charge of "Eastern Affairs." He was the highest military man we encountered, and the other officials were all very respectful to him. He was very friendly to us at first.

But that changed abruptly when Charley, a true missionary at heart, wrote out a plan of salvation and gave it to one of the guards who had been less unfriendly than the others. Charley figured that some day the Russian guard would get the letter translated. But he figured wrong; the guard gave the letter to his superior, and shortly thereafter the lieutenant colonel stomped into the room, slamming the door. All five of the crew of the *Frieda-K* were present. All Russians there stood to their feet. We did too, not knowing what was happening. The Colonel then spoke angrily in a loud voice for a long time—so long the interpreter couldn't keep up. It didn't matter: we understood he was steamed about something.

"What did he say?" we asked the interpreter when the Colonel stopped for breath.

The interpreter saluted and said, "He called it war propaganda and as Chief of Eastern Affairs, he denounces you and declares your actions as unfriendly to the Soviet Union."

It took awhile to shake it all out, but it turned out that he was burned up about the letter that Charley gave to the guard. War propaganda is punishable by imprisonment. From their solemn behavior, we figured we were in serious trouble. The Colonel stalked out and slammed the door behind him. We thought we were history.

I had several more phone calls, and as luck would have it, none of the officers was present when the calls came in.

About the seventh day the Russians mellowed. A whole six hours went by without them coming into our room. They allowed me to see the rest of my crew, and I filled them in on everything I knew.

At different times Tate and I were taken back to the *Frieda-K* to see that everything was all right. I was blindfolded when they took me to the boat. We brought back with us bread, cereal, peanut butter, jelly and a few other edibles.

On the eighth day of captivity the Russians entered our rooms, turned on the lights, searched us for everything we had written and confiscated what they found. Then they took us to the boat. None of the Russians was smiling.

At the dock a couple of their paddy wagons arrived loaded with all the stuff they had taken from the *Frieda-K*—all our papers, books, personal items—everything—and piled it on board. Some of the papers were left in plastic bags. Other bags were emptied on deck. They had even gone through our garbage. It was a complete disaster.

I got orders to fire up the main engines and to follow the *Aisberg*, a Russian icebreaker, as it departed the harbor. It was snowing, and there were many guards on board the *Frieda-K*.

"Where are we going? What is going on?" I repeatedly asked.

They wouldn't answer.

After running seven hours it was daylight and I spotted the U.S. Coast Guard Cutter *Sherman* ahead—a beautiful sight. It was only then that I began to think we were going to be released—with the *Frieda-K*.

They told me to stop, and we drifted. The *Aisberg* kept between us and the *Sherman* at all times. Capt. James Billingham from the *Sherman* came aboard with the lieutenant colonel who had earlier denounced us. They met without me being present, and the Colonel tried to talk Captain Billingham into signing a release that the *Frieda-K* had intentionally crossed into Russian waters.

Captain Billingham refused to sign anything until he could talk with me.

Nevertheless, he accepted the Russian's assertion that we had been in Russian waters, but not intentionally.

He signed a receipt stating that we and the *Frieda-K* were in good health. She was still a mess from the ransacking, but she was, of course, sound.

The Russians kept all of our personal film, a logbook, some marine charts and our video tapes. They did not touch the valuable seismic tapes, although they had repeatedly opened and peered into the storage van.

During the entire ordeal, none of us was physically harmed. Heading back to Alaska, escorted by the U.S. Coast Guard Cutter *Sherman*, the crew of the *Frieda-K* had a lot to think about. And so did the Russians.

FREE BALYS GAJAUSKAS CAMPAIGN

Mr. TRIBLE. Mr. President, it's a pleasure to announce to my colleagues the beginning of the "Free Balys Gajauskas Campaign," an effort by Americans in public and private life to free one of the many Christians imprisoned in the Soviet Union.

For years, CREED—the Christian rescue effort for the emancipation of dissidents—has labored to apprise the world of the plight of Christians in the U.S.S.R., and to ease the plight of individual believers. At a conference on Capitol Hill yesterday, CREED turned its attention to Balys Gajauskas, a Christian and former Helsinki monitor now serving his 33d year in a Soviet prison.

Balys' life has been one of continuous persecution. He was first imprisoned by the Nazi regime during its occupation of Lithuania. He escaped that regime, only to be jailed by the Soviets, who had since invaded the Baltic States.

Balys served the entire 25-year sentence he had received for anti-Soviet activities, an all-encompassing charge that the Soviets frequently employ against religious believers. He was released in 1973.

For 4 years following his release, Balys was harassed constantly by Soviet officials. The Soviets arrested him again, on his intended wedding day, and sentenced him to 10 years hard labor and 5 years internal exile.

One year later, Balys and his fiance were permitted to marry in the labor camp where he was being held. Their request that a Roman Catholic priest perform the ceremony was refused, and, today, his wife is not even permitted to visit him. The Soviets have refused this and other privileges because Balys has repeatedly protested the camp's interference in the religious activities of its inmates.

Throughout these tortuous years, Balys' faith and courage have remained steadfast. But for the past several years, his health has deteriorated rapidly. CREED's latest prisoner update indicates that his eyesight is failing badly, and his other health problems are worsening.

For this reason, CREED has begun a concerted effort to win Balys' freedom, to reunite him with his wife, and, hopefully, to gain for them and their daughter the right to emigrate. I am honored to serve on the advisory council to the "Free Balys Gajauskas Campaign," and I urge my colleagues to join me in contacting administration and Soviet officials in Balys' behalf.

51-059 O-86-10 (Pt. 19)

But I also want to emphasize that Balys' case is not an isolated one. Throughout the Soviet Union today, Christians languish in prisons, labor camps, and psychiatric hospitals, for the simple reason that they have remained true to their faith.

Like Jews in the Soviet Union, Christians are the target of official Soviet repression. Those Christians who disobey state laws requiring churches to register and to limit their activities, are harassed and persecuted. As we have seen in the case of Balys Gajauskas, they are also imprisoned at length.

The "Free Balys Gajauskas Campaign" is a valuable effort to free one brave man from Soviet repression. But is it also part of a larger effort to combat the Soviets' ongoing persecution of all Christians and Jews, and to ensure for believers in the U.S.S.R. the fundamental right of religious freedom.

NATIONAL EMPLOY THE HANDICAPPED WEEK

Mr. ANDREWS. Mr. President, I rise today with pride to speak on behalf of National Employ the Handicapped Week, which is occurring this week. Last year at this time, in Fargo, ND, I spoke about our responsibility to the handicapped as a society. Now, as then, I firmly believe that a civilized society can be judged by how it treats its senior citizens and handicapped individuals. For not only do we risk denying the right of self-fulfillment to some of our citizens if we do not open the doors to a productive life, but we also risk failing as a society—failing to both complete our potential and to preserving the fundamental personal rights upon which this great Nation was built.

Today, I can boastfully speak of a young man from that very same town that I spoke of earlier, Fargo, ND, who has demonstrated to us all how much every individual, handicapped or otherwise, has to offer. Mr. Keith A. Bjornson, loan specialist, Fargo, ND, of the Small Business Administration stands tall among the citizens of my home State and this Nation. Mr. Bjornson will be honored on October 10, 1985, as one of the 10 outstanding handicapped Federal employees of America. Keith is a disaster loan officer who exemplifies, as a quadraplegic, the concept of a man undaunted by both the adversities of his own handicap and the prejudices and misconceptions of his fellow man as well.

Mr. President, we salute Keith Bjornson for his accomplishments, but it would be unfair to him to stop there. There are an estimated 21 million Americans who are in someway limited in their ability to work—that is approximately 17 percent of the working-age adults of this country. This is why we use this week to further the employer's knowledge of the handicapped individuals worth, and that is why we must continue to pursue these objectives here in the Senate.

There are some key measures that I have cosponsored that are needed to continue our momentum—the momentum demonstrated by a doubling in the handicapped undergraduate population in our Nation from 1978 to 1983. For example, just recently the Senate passed S. 415, the Handicapped Children's Protection Act of 1985. This legislation guarantees reasonable attorney's fees for parents prevailing in lawsuits designed to obtain fair and equal educational opportunities for handicapped children. As with all children, we must first ensure the educational future of our handicapped children if we wish to open the avenues of employment.

Similarly, while I want to reduce the Federal deficit, I do not want it done on the backs of any one group, particularly the handicapped. That is why I have joined Senator DOLE in his efforts, on behalf of S. 887, to amend the Internal Revenue Code of 1954 to extend the deduction of expenses incurred in the removal of architectural transportation barriers. Both in rural areas and urban ones, the struggle for some individuals to get to work can be insurmountable. This is truly a tragedy and must be changed.

Unwarranted discrimination against anyone's human worth, whether with intent or by insensitivity to structurally inherent barriers, is a waste of the individual's, and society's, resources. We cannot afford to turn our backs on any section of our population for both economic reasons and moral ones. Let us all join together to lower the high rate of unemployment among the handicapped and return to them the dignity that goes with feeling useful again.

COX CABLE COMMENDED

Mr. TRIBLE. Mr. President, I would like to commend Cox Cable of Tidewater VA, for their outstanding achievements in serving their community and all of Virginia.

Cox Cable has set high standards of public service programming, providing the Tidewater VA, area with informative public affairs programming on economic, consumer, environmental and social issues.

Cox's consumer guideposts program represents the most indepth commitment to consumer awareness by any cable system in the United States. This program was recently recognized by Virginia Knauer, special assistant to the President for Consumer Affairs.

Cox Cable has devoted thousands of hours in providing their viewers with outstanding and important programs. I commend them for setting high standards in this important area of cablecasting.

THIRTEENTH ANNIVERSARY OF THE ANTIBALLISTIC MISSILE TREATY

Mr. CHAFEE. Mr. President, today marks a significant event in the history of arms control. Thirteen years ago today the Antiballistic Missile [ABM] Treaty, entered into force.

The ABM Treaty is the cornerstone of arms control efforts to limit the wasteful and destabilizing nuclear arms race, and I would like to take this opportunity to reiterate my own support for the treaty. With others, I join in the hope that President Reagan and Soviet General Secretary Gorbachev will take steps at the November summit meeting to bolster the ABM Treaty.

This treaty has prevented a dangerous arms race in antiballistic missiles. If that were its only accomplishment, the treaty would have made a valuable contribution to stability in the superpower relationship. This treaty has done much more than that. Defensive weapons, particularly in the nuclear age, are inextricably linked to offensive weapons. The ABM Treaty's major limitations on strategic defensive weapons was essential to the SALT I and SALT II limits on offensive weapons, and is equally essential to any future agreements limiting offensive weapons.

In addition the treaty embodies the assumption that nuclar war is not survivable. This self-evident proposition, stated by President Reagan on several occasions, is crucial to the maintenance of nuclear deterrence and thus our survival as a country and as a world.

Because of its central importance, the ABM Treaty will, I believe, be a major topic of discussion at the summit. Whatever else is done at this historical meeting, the ABM Treaty should emerge from it strengthened. Due to its underlying importance, I urge my colleagues to evaluate the critical defense issues before us—such as the SDI funding and antisatellite testing—in light of their potential impact on the ABM Treaty.

To commemorate today's anniversary former Secretaries of Defense Harold Brown, Clark M. Clifford, Melvin Laird, Robert S. McNamara, Elliot L. Richardson, and James R. Schlesinger, have released a statement in support of the ABM Treaty. I believe we all can fully appreciate the breadth of experience which lies behind this statement. I ask unanimous consent that their statement be printed in the RECORD at this point.

On the 13th anniversary of the entering into force of the ABM Treaty, we reaffirm our view that this international agreement of unlimited duration makes an important

contribution to American security and to reducing the risk of nuclear war. As former Secretaries of Defense, we call upon the American and Soviet governments both to avoid actions that would undermine the ABM Treaty and to bring to an end any prior departures from the terms of the treaty, such as the Kranoyarsk radar. We urge President Reagan and General Secretary Gorbachev to reach agreement in Geneva to negotiate new measures which would prevent further erosion of the treaty and assure its continued viability.

RECOGNITION OF DISTINGUISHED SERVICE

Mr. CHAFEE. Mr. President, on October 13, 1985, three members of the 102d Tactical Control Squadron, Rhode Island Air National Guard will be honored, in Rhode Island, on the occasion of their retirement.

These being honored include: First Sergeant, Chief M. Sgt. Norman W. St. John; maintenance superintendent, Chief M. Sgt. Robert N. Falardeau; and maintenance control supervisor, Senior M. Sgt. Frank A. Romano. These men have provided the State of Rhode Island and the Nation with a total of 104 years of distinguished service both at home and abroad.

They have been valued members of the 102d Tactical Air Squadron. The 102d, has been in existence since 1948 with a mission for the air traffic control of fighters and refuelers in time of emergency.

As a former Governor of Rhode Island, I have true respect for the men of the 102d—for I know what a key role they play in the safety of the people of our State.

Individually, I wish to congratulate Chief St. John for 41 years of service. Chief St. John served in World War II in the Pacific, in the Korean conflict in Tripoli and in the Berlin crisis in Germany. Chief Falardeau served for 34 years. Chief Falardeau served in Germany in World War II from November 1943 to June 1946 and again during the Berlin crisis from October 1962 to September 1962. Sergeant Romano served for 29 years with an overseas rotation in Germany during the Berlin crisis in Germany in 1961 and 1962.

I would also like to take this opportunity to mention their wives: Ruth St. John, Gabrielle Falardeau, and Patricia Romano.

I join today with all Rhode Islanders in expressing my thanks to these three highly decorated men for their years of dedicated service and in wishing them continued good health and happiness in the years ahead.

WHY ARE U.S. TAXPAYERS BANKROLLING ANGOLAN MARXISM?

Mr. SYMMS. Mr. President, yesterday's Washington Post, under the headline "U.S. Banks Help Set Up Angola Oil Field Funds," reported that American banks have played a major role in arranging over $350 million in new loans and credits for development of a major oil field in Marxist Angola, based on remarks from the visiting Angolan Minister of Foreign Trade. The same story reports that this official's visit comes amid a major Cuban and Soviet-backed offensive by Angola against anti-Marxist opposition in southern Angola led by Jonas Savimbi.

It is incredible to me and surely to the freedom-loving American people that the United States State Department has been encouraging economic support for the Soviet puppet government of Angola, and ironically, or cynically, was pushing through this fat export-import loan at the same time Congress was shifting policy by repealing the Clark amendment. While State promotes investment in Communist Angola, they strongly oppose any United States investment in Namibia—southwest Africa. Namibia is the vast territory, for my colleagues who are unfamilliar with it, to the south of Angola. Namibia was administered under a 1920 League of Nations mandate until June 17, 1985, when the South African Government turned over to the people of Namibia all administrative powers of local self-government.

Namibia has the largest uranium mine in the world, vast reserves of strategic mineral resources for which United States industry is 100 percent import-dependent. And, it is the gateway to military, economic, and political control of such other vital minerals as chromium and platinum. The only place in the free world where these minerals are found is in southern Africa.

For nearly 20 years, the Soviets have provided equipment, financial help, and the back-up of upward of 40,000 Cuban soldiers to support the efforts of the Soviet-surrogate terrorists of Swapo in their campaign to seize control of Namibia and drag it behind the Soviet Iron Curtain.

The Swapo terrorists operate from bases in the southern part of Angola. To the extent United States banks help finance economic development in Angola, they are subsidizing the Marxist government of Angola which finances Soviet combat troops, Cuban forces, and Swapo terrorists in Angola.

The 1984 Republican platform stated that—

> The Reagan-Bush administration will continue its vigorous efforts to achieve Namibian independence and the explulsion of Cubans from occupied Angola.

It is obvious that the big loan and credit package, which Bankers Trust of New York syndicated, and in which the United States Export-Import Bank participated, undermines President Reagan's policy of constructive engagement in the southern Africa region.

I therefore strongly urge the United States State Department to take cognizance of the Namibian Transitional Government of National Unity [TGNU] which now governs Namibia and exercises all powers of local self-government.

The TGNU has abolished apartheid under criminal penalties. Its 8 member Cabinet and 62 member Legislative Assembly is made up of all ethnic groups and political parties in Namibia—black, white, and colored. There has been a peaceful transition from colonial status to commonwealth status.

The United States Government should be encouraging the Transitional Government of National Unity in Namibia by helping it develop an economic infrastructure to support independence.

At present, the South African Government provides some $600 million annually to Namibia, which is over 60 percent of the Namibia budget. Without United States investment and development of Namibia's natural resources, Namibia can neither achieve complete political independence nor the economic independence necessary to support and provide its public services.

On April 25 of this year, the South African Minister of Foreign Affairs stated to the Parliament in Capetown that natural resources in Namibian territorial waters belong to Namibia and that South Africa would not try to take a cent from it. Namibia's Government corporation Swacor subsequently completed a seismological survey of the Kudu gas field, discovered in the Atlantic Ocean off the Namibian coast more than a decade ago. It was then recognized as probably the biggest source of natural gas in the world. However, nothing was done to develop it pending clarification of the Namibian independence process.

Details of the Namibian Government survey have not been published, but informed sources report that the survey has confirmed the most optimistic estimates about the Kudu field. Apparently, the Kudu gas resource is the biggest on Earth, far overshadowing the North Sea field.

Namibia is now seeking international partners to develop the Kudu field, which will take several years and probably cost in excess of $35 million. The United States Government should take the blinders off its eyes and face the reality that the people of Namibia are now in control of their own destiny. We should extend a helping hand to Namibia's Transitional Government of National Unity. If we fail to take these positive, supportive steps, the United States will lose investment opportunities, tax-generating job opportunities, and a chance to participate in

the economic development of Namibia. Unfailingly, British, French, West German, and other western countries will fill the vacuum.

At a time when the United States Government was busy promoting economic sanctions against South Africa and preventing the United States Ambassador from returning to his residence, the British and West Germans held firm and refused to either support sanctions or withdraw their Ambassadors. The diplomatic bureaucrats in the State Department, no matter how well intentioned, have managed to stick their thumbs in their own eyes one more time by following the same misguided approach with has led to Soviet empire expansionism throughout the world and a gradual diminution of United States influence. Unless the United States Government wakes up before it is too late, we will be shut out of Africa, as we have been shut out of Southeast Asia, and are being shut out of Central America while the Marxist-Leninist philosophy expands and flourishes in what were formerlly free countries of the Earth.

I encourage the State Department to take a new look at policy toward Angola and at policy toward Namibia. We have the opportunity to make great improvements in America's image in Africa, and we can do that by promoting democratic government, any by promoting investment in countries friendly to us and friendly to our system of government. We are only doing a disservice to ourselves and to the African people by bankrolling our enemies, and failing to support and invest in countries which believe us to be their friends.

Mr. President, I ask unanimous consent to have printed in the RECORD the aforementioned Washington Post article, an article by Edward Neilan from the Washington Times, entitled "Buildup by Soviets Targets South Africa"; and a piece by Rowland Evans and Robert Novak, "False Victory Claim by Angola Marxists," which appeared in the New York Post.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

U.S. BANKS HELP SET UP ANGOLA OIL FIELD FUNDS

(By David B. Ottaway)

U.S. banks have played a major role in arranging more than $350 million in new loans and credits for development of a major oil field in Marxist Angola, according to Angolan officials and banking sources.

Ismael Gaspar Martins, Angola's minister of foreign trade, told Washington Post editors and reporters Monday that Angola warmly welcomes the large investment and participation of U.S. companies in developing his war-ravaged country's depressed economy. He said he hopes others would follow the lead of U.S. oil companies.

"We are sure it can help Angola strengthen its economy," the American-educated Martins said.

The big loan and credit package, which Bankers Trust of New York syndicated and in which the U.S. Export-Import Bank participated, was signed July 26 in Paris and involved five U.S. and 10 European banks. It is believed to be one of the largest such deals for a sub-Saharan African country in many years.

Martins is visiting here as head of a five-person delegation seeking to attract more U.S. investment and promote better relations between the United States and Angola. The two have no diplomatic relations a decade after Angolan independence from Portuguese rule, but U.S. oil companies, led by Gulf, have become increasingly involved there.

His visit comes amid a major Cuban- and Soviet-backed offensive by Angola against anti-Marxist opposition in southern Angola led by Jonas Savimbi. The offensive has stirred concern among American conservatives about the fate of Savimbi's National Union for the Total Independence of Angola (UNITA).

Martins, educated on a Methodist scholarship at the University of Pennsylvania, said his government is "keeping its fingers crossed" that the United States will not provide open aid to UNITA. The 1976 Clark amendment barring clandestine aid to the anti-communist movement was repealed in July.

Martins also stressed that Angola hopes for revival of U.S.-led negotiations seeking independence of South African-administered Namibia and withdrawal of Cuban troops from Angola. The talks broke down last spring.

"We want, and are still willing to see the United States play an active role in solving regional problems." he said, stressing that Angola considers the negotiations "suspended" and does not want to abandon them.

The loan and credit package is for expansion of Angola's Takula field offshore at Cabinda in the far north. The field's "rated capacity" of production is 160,000 barrels a day compared with Angola's current level of about 220,500 barrels, a Bankers Trust official said.

The package involves $91 million in two loans for the Angolan state oil company Sonangol and the Cabinda Gulf Oil Co., a $130 million line of credit from the Export-Import Bank for equipment, a $115 million line of credit from the French state financing institution Coface and $17.2 million in other loans from commercial banks.

Martins said the total cost of developing the Takula field is $450 million but did not explain how the remaining financing would be acquired.

BUILDUP BY SOVIETS TARGETS SOUTH AFRICA

(By Edward Neilan)

The Soviet Union's stepped-up military role in Angola against the forces of anti-Marxist guerrilla leader Jonas Savimbi was dramatized on Sept. 3.

On that date, Soviet First Lt. K. Kirov Vioroshilov, instructor of the Angolan Army's 8th Motorized Brigade, was killed during an attack on Kunyamba, Cuando-Cubango Province, in southeastern Angola.

Five other Soviet officers were wounded and two armored vehicles were destroyed in the accident, according to Portuguese news agency reports.

The accelerated Soviet involvement was detailed last Wednesday in a Washington Times dispatch from Johannesburg. Quoting intelligence sources, the report by correspondent Michael Sullivan said that for the first time in Angola's civil war, Soviet officers had taken direct control of the fighting at the battalion level and and were coordinating armor, air, artillery, and ground troops against Mr. Savimbi's National Union for the Total Independence of Angola (UNITA).

"The tactics being used," wrote Mr. Sullivan, "while not new to Warsaw Pact countries, are new to the Angolan bush."

Commenting on the Times dispatch the following day, State Department spokesman Charles E. Redman said Soviet activities in Angola are "a matter of concern to the United States. It is important that the Soviet Union understand that such actions could have an effect on our relationship."

Mr. Redman, who declined to comment on the specifics of the Soviet activities, criticized Moscow's decade-long involvement in the conflict: "The Soviet role in Angola stands in sharp contrast to the role the United States is playing. We are seeking a peaceful negotiated settlement which would end the conflict in the region, the militarization of Angola's countryside and the presence of foreign troops in Angola. The Soviets are fueling that conflict."

The present Soviet-directed offensive against Mr. Savimbi's troops appears to have several goals. One is to keep the conflict going and reduce any inclination which factions in the Luanda government may have toward negotiating with Mr. Savimbi, whose movement is extremely popular with Angolans. Another is to apply pressure on the UNITA headquarters at Jamba and possibly force Mr. Savimbi's forces to flee. Such is the urgency the Soviets attach to blunting the military power of UNITA that they have introduced the HIND helicopter, MiG-23s, SU-22s and T62 tanks.

A further goal is to increase pressure on the South African government in every way possible. It is evident that in the past several months Moscow has increased its South Africa-watching and subversion capabilities in all the countries of southern Africa.

The most recent link in the Soviet surveillance chain is the newly-appointed Soviet ambassador to tiny Lesotho. South African intelligence sources point out that the appointment of Vladimir Ivanovich Gavryuskin plus a staff of 27 is out of all proportion, since Lesotho has no Soviet residents, very little trade and no other links with the Soviet Union. The new ambassador arrived recently along with several crates of sophisticated electronic monitoring equipment.

Previously, the Soviet ambassador to Mozambique, Yuri Sepellov, served concurrently as Moscow's envoy in Lesotho's capital of Maseru.

Mr. Gavryuskin, 61, studied economics at Moscow University and is said to speak English well. His first overseas posting was from 1962 to 1968 to the Soviet Embassy in London, where he served as second secretary in the economic section. In 1968 he was one of 40 Soviet officials ordered out of the country by the British Foreign Office. Mr. Gavryuskin subsequently was posted to the Soviet Embassy in Ottawa and then became consul general in Montreal. He was expelled from Canada in 1982, along with 17 other Soviet diplomats, on espionage charges.

Every Soviet embassy in Southern Africa has been beefed-up in the last six months. In the Angolan capital of Luanda, Soviet Ambassador Anatoly Kalinin heads a staff of 45. The entire Soviet intelligence operation for southern Africa is controlled by the KGB and GRU from Luanda.

The Soviet Embassy staff in Harare, Zimbabwe, was recently increased from 17 to 65, and in Gaborone, Botswana, from 21 to 60. Ambassador Sepeliov, who was kicked out of Britain in 1971 for spying, heads a staff of 100 in Maputo, Mozambique. Until a few months ago, the staff there numbered only 35.

In Lusaka, Zambia, Ambassador V. Cherendik has a staff of 130 with a Red Army general as military attache. Mr. Cherendik has been identified by South African political commentator Stephan Terblanche as "a general in the KGB who has been expelled from three African countries."

Destabilization of South Africa's political and economic structure is a known aim of the Soviet Union, and Moscow is obviously increasing its manpower in the region to accomplish that mission.

FALSE VICTORY CLAIM BY ANGOLA MARXISTS

(By Rowland Evans and Robert Novak)

JAMBA, ANGOLA.—We had just departed the place called Jamba in south-eastern Angola where Dr. Jonas Savimbi has his rear headquarters when the Marxist propaganda machine in Luanda announced that Savimbi had "abandoned" his guerrilla stronghold.

A surprising claim. Indeed, since the Jamba we had left 36 hours earlier was entirely peaceful with not even a distant gun booming, its alleged fall to the forces of Luanda's Marxist regime was a claim so astonishing that it may accurately be labelled a lie.

Reason enough exists for issuing such a lie. The regime has been trying to terminate Savimbi's courageous resistance for 10 years. Arrayed against the strongly pro Western, anti-Marxist Savimbi have been the entire armed forces of, Angola, an increasing contingent of Soviet fighter-advisers and, of course, those 25,000 or more Cuban mercenaries.

We left Jamba at 2 a.m. on Thursday, Sept. 26. A rooster had started to crow and a full moon cast a glow over the soft bush country. Not one sentry stopped our two-truck caravan, headlights glaring, as we started down the rutted track on our two-hour journey to the nearest air strip, a gravel runway smoothed out of the bush.

On Sept. 28, the correspondent of the Washington Post, Allister Sparks, wrote the following dispatch: "The Angolan government's news agency reported today that rebel leader Jonas Savimbi had abandoned his base in the southern part of the country and withdrawn into neighboring Namibia following "an important military victory by the Angolan Army."

In Savimbi's camp at Jamba, there had been quiet singing for two hours after our simple supper in a spacious, grass-thatched meeting hall where we earlier had our two-hour interview with Savimbi.

It is conceivable that the singers gathered somewhere out of sight in the darkness of late evening, were cradling loaded AK-47s in their laps with the safety catches off while they sang, waiting for the attack. Conceivable, but not likely. The soft sound of the singers helped put us to sleep in our small thatched hut.

The government's claim of overrunning Jamba is on a par with its claim several days earlier that South African troops were even then "defending" Jamba from capture. There were no South African troops here.

Yet, there propaganda claims were published around the world with the intent of building invincibility into the Communist camp. In the end, they may backfire. As surely as our eyes saw what they saw at Jamba last Thursday, the word will spread that Jamba has not fallen, seems not about to fall and may never fall.

DEBT LIMIT EXTENSION

Mr. DOLE. Mr. President, it will be my intention to proceed to the consideration of the debt limit extension. Right now, some negotiations are going on, and we hope to propose to the distinguished minority leader a limit on the number of amendments.

I know the minority leader is in the process of checking with Members on his side; we are in the process of checking with Members on our side.

It would seem to me, though, before we bring up the debt limit extension, jump right into some amendment, we might be better served to sort of find out where we are before we take off.

So I asked that the period for routine morning business be extended to 1 p.m. and that could even be extended beyond 1 p.m., but I want my colleagues to know that we are making an effort to condense the time it will take for consideration of the debt limit extension.

I am hopeful that Members who have planned on being absent tomorrow would be able to change their schedules because there is a hope that we might be able to complete action tomorrow. I say that because I am again advised by Treasury that Monday is a very, very important day and that if we intend to go conference with the House of Representatives, if we do not take final action until Monday or Tuesday, it could jeopardize, as I understand, some whose checks are in the mail.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS UNTIL 2 P.M.

Mr. DOLE. Mr. President, I understand they are still in the drafting stage on a couple of amendments which will be offered, I assume rather quickly when the debt ceiling legislation is called up.

While we are in the process of completing that drafting, I ask unanimous consent that the Senate stand in recess until 2 p.m.

There being no objection, the Senate, at 1 p.m., recessed until 2 p.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. HELMS).

ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent to proceed as if in routine morning business for not to extend beyond the hour of 2:30 with statements limited there in to 5 minutes each.

The PRESIDING OFFICER (Mr. HELMS). Without objection, it is so ordered.

Mr. DENTON addressed the Chair.

The PRESIDING OFFICER. The Senator from Alabama.

NUCLEAR POWER PLANT SECURITY AND ANTI-TERRORISM ACT OF 1985

Mr. DENTON. Mr. President, I ask unanimous consent that the Senate now turn to Calendar No. 321, S. 274, dealing with certain Federal criminal history records.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill will be stated by title.

The bill clerk read as follows:

A bill (S. 274) to provide for the national security by allowing access to certain Federal criminal history records.

There being no objection, the Senate proceeded to consider the bill (S. 274), which had been reported from the Committee on the Judiciary, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets, and the parts of the bill intended to be inserted are shown in italics.)

S. 274

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the **[**"Anti-nuclear Terrorism**]** *"Nuclear Power Plant Security and Anti-terrorism* Act of 1985".

FINDINGS

SEC. 2. The Congress finds that—

(1) the presence of nuclear power facilities, fuel cycle facilities, and nuclear materials in our society represents a potential and grave threat to our national security should terrorists gain access;

(2) the increasing threat of terrorism directed against the United States is greatly enhanced by insider access to nuclear power facilities and nuclear material; and

(3) the **[**Federal Bureau of Investigation**]** *Department of Justice* should assist in screening persons who have access to nuclear facilities and **[**material.**]** *material, by providing criminal history record checks.*

NATIONAL SECURITY ACCESS

SEC. 3. (a) The Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) is amended by adding after section 148 the following new section:

"SEC. 149. FINGERPRINTING FOR SECURITY CLEARANCE.—

"a. Every person in the process of being licensed or licensed pursuant to section 103 or 104b to operate a utilization facility shall require that each individual allowed unescorted access to the facility be fingerprinted. All fingerprints obtained by a licensee as required in the preceding sentence shall be submitted to the Attorney General of the

United States through a person or persons designated by the Commission in consultation with the Attorney General for identification and [appropriate processing] *a criminal history records check. The costs of any identification and records check conducted pursuant to the preceding sentence shall be paid by the licensee.* Notwithstanding any other provision of law, the [applicant for or holder of the license may receive the results of such search from the Attorney General.] *Attorney General may provide all the results of the search to such person or persons as designated by the Commission in consultation with the Attorney General.*

"b. The Commission, by rule, may relieve persons from the obligations imposed by this section, upon specified terms, conditions, and periods, if the Commission finds that such action is consistent with its responsibilities to promote the common defense and security and to protect the health and safety of the public. [The Commission may also prescribe regulations to establish the conditions for use of information received from the Attorney General or to limit its redissemination.".]

"c. For purposes of administering this section, the Commission shall prescribe regulations to—

"(1) implement procedures for the taking of fingerprints;

"(2) establish the conditions for use of information received from the Attorney General in order to—

"(A) limit the redissemination of such information; and

"(B) assure that such information is used solely for the purposes provided in this section; and

"(3) provide individuals subject to fingerprinting the right to complete and correct information contained in the criminal history records prior to any final adverse action.".

(b) The provisions of subsection a of section 149 of the Atomic Energy Act of 1954, as added by this Act, shall take effect upon promulgation of regulations by the Commission as set forth in subsection c of such section. Such regulations shall be promulgated on or before January 1, 1986.

[(b)] *(c)* The table of contents at the beginning of such Act is amended by inserting after the item for section 148 the following new item:

"Sec. 149. Fingerprinting for security clearance.".

Mr. DENTON. Mr. President, on January 24, 1985, I introduced S. 274, the Nuclear Power Plant Security and Anti-Terrorism Act of 1985. The bill, which would amend the Atomic Energy Act of 1954, significantly improves the security of nuclear power facilities by granting nuclear power reactor licensees access to the criminal history files of the FBI. By creating a mechanism to conduct a background investigation on any individual having unescorted access to a nuclear power facility, the bill will help to ensure that only individuals who are reliable and trustworthy have access to critically sensitive areas, thereby significantly improving the security of that nuclear power facility.

On September 12, 1985, the Judiciary Committee met in executive session to consider S. 274. During the meeting, amendments were offered by Senator LEAHY and myself which incorporated into the bill a number of changes including certain suggestions by the Nuclear Regulatory Commission and the Department of Justice. The amendments were unanimously accepted and the bill unanimously ordered to be reported to the full Senate.

Mr. President, most background checks by nuclear power reactor licensees are limited to State and local files. Unfortunately, those files do not include information about an individual's criminal record, if any, in other parts of the country. By allowing nuclear power reactor operators to have access to the FBI's national files, they would be able to obtain more complete criminal histories. That information is essential to determine who will be granted unescorted access to nuclear facilities.

The Nuclear Regulatory Commission advises that there are 85 U.S. nuclear reactor plants that produce and are licensed for full power. There are five that are licensed for fuel loading and low power. Those facilities currently produce approximately 13 percent of all U.S. electrical power. As of December 1984, 37 additional plants had been granted construction permits. When those plants become operational, nuclear power will provide approximately 25 percent of all our electrical power. Although increasingly vital for energy, nuclear facilities can also present a grave danger to the environment and to human life if they are not managed properly.

The NRC has investigated more than a dozen incidents of suspected sabotage by plant employees. The incidents involved critical valves in the wrong position, miswired electrical equipment, and other problem areas. A Commission report indicated that between 1974 and 1982 there had been 32 possible deliberate acts of damage at 24 operating reactors and reactor construction sites, including the dozen reported since 1980.

Examples of incidents include instrument valves apparently deliberately mispositioned in a way that knocked out the steam generator fed-water pump, thus forcing the operator to reduce power immediately to keep the reactor from going into emergency shutdown. That incident happened on May 1, 1982, at the Salem atomic power station in southern New Jersey. At the Beaver Valley plant near Pittsburgh, a valve normally left in an open position was found closed, and the chain and padlock that secured the valve in the open position were missing. With the valve closed, emergency cooling water would not have been available for high pressure injection into the core.

The NRC reported:

Since there were no indications of unauthorized entry to the sites of these incidents, they are thought to have involved insiders.

A 1983 Commission memorandum concluded that:

The major threat of sabotage to a nuclear plant is associated with the insider.

More stringent employee screening procedures might have prevented many incidents of that kind.

If a nuclear power facility ever became a terrorist target, obviously, the consequences could be catastrophic. If we allow nuclear power reactor licensees access to FBI criminal history files, and thus give the Bureau the authority to help screen individuals having unescorted access to sensitive areas of the nuclear plant, we will greatly aid in preventing sabotage from within.

The act which is endorsed by the NRC, the Department of Justice, and private industry, would help to ensure the safety of nuclear powerplants, and thereby protect our citizens and our environment. It is urgently needed to safeguard the security of the United States and the welfare of the American people.

Mr. President, the bill has wide based bipartisan support. Among others, the bill is supported by Senator LEAHY, ranking minority member on the Judiciary Subcommittee on Security and Terrorism, whose efforts on this matter I commend; Senator SIMPSON, chairman of the Environment and Public Works Subcommittee on Nuclear Regulation; and Senators THURMOND and BIDEN, the chairman and ranking minority member of the Judiciary Committee.

Mr. DENTON. Mr. President, I ask unanimous consent that the committee amendments be agreed to en bloc.

The PRESIDING OFFICER. Without objection, the committee amendments are considered and agreed to en bloc.

The bill is open to further amendment. If there be no further amendment to be proposed, the question is on the engrossment and the third reading of the bill.

The bill (S. 274) was ordered to be engrossed for a third reading, read the third time, and passed.

Mr. DENTON. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. WILSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. LEAHY. Mr. President, the legislation we have passed today addresses the real need for better security at our nuclear powerplants, while at the same time addressing the privacy needs and due process rights of individuals who are employed at or may be employed at these plants.

I want to especially thank my colleague and chairman of the Senate Judiciary Subcommittee on Security and Terrorism, Senator DENTON, for his leadership in introducing this important bill and seeing it through the amendment process to final passage today.

There are currently 90 licensed nuclear reactor plants in this country. Thirty-seven permits had been issued for the construction of new plants as of December 1984. These plants pose an unprecedented danger to the environment if they are not managed properly. Since 1980, the Nuclear Regulatory Commission has reported a dozen incidents of suspected sabotage by plant employees. The NRC has concluded that "The major threat of sabotage to a nuclear plant is associated with the insider."

Until today, most background checks by nuclear powerplant operators of prospective employees have been limited to State and local criminal history files. Those files do not include information about a person's criminal record, if any, in other parts of the country.

This legislation will enable nuclear powerplant operators to have access to the fullest amount of information relevant to whether the person constitutes a security risk, while at the same time ensuring that a person is not fired or not hired based on faulty or incomplete records in the criminal justice system. The information provided to the plant operator will only be used to determine if a person is fit to be given unescorted access to the nuclear facility. The bill prohibits the redissemination of this information for any other purpose. Any person who is subject to a criminal record check will have the opportunity to complete and correct the information contained in the FBI records prior to any adverse job action being taken.

The full cost of this program will be borne by the nuclear powerplant operators.

This is a bill I have been proud to cosponsor. It will make our nuclear powerplants safer, while protecting the privacy rights of plant employees to the fullest extent possible.

THE DEATH OF ROCK HUDSON

Mr. WILSON. Mr. President, astronomers tell us that even stars are impermanent, that their light must eventually fade and die. But until then, they provide luster in the night skies, and beckon to the imagination of those of us who live an earthbound existence. There are stars in this world as well. Some are brighter than others.

The death yesterday of Rock Hudson will darken the lives of all those who knew him as a friend and colleague. It will also dim the glow cast by Hollywood's entertainment community throughout this country and the world. But the stars of stage and screen differ from their galactic counterparts. They leave behind indelible images, performances which live on to make us laugh or cry or challenge our own comfortable assumptions about life.

In the last weeks of his life, Rock Hudson challenged the assumption that illness must rob a man of his dignity or usefulness to others. He gave perhaps the greatest performance of his career—only in this case, it was a performance that did not depend for its meaningfulness on the scripted words of writers or the cinematography of Hollywood cameramen. An actor who was singularly gifted in the art of light comedy made us all see and feel the tragic implications of fate. He showed us more than a touch of the heroic as well. And this morning, who can doubt that along with the feeling of sorrow which pervades the film community, there is also a feeling of admiration and profound respect for a man who turned his own suffering into a cause for renewed hope for others, less celebrated than he, but like him, victims of a savage and merciless disease.

So long as other Americans fall prey to AIDS, then no one can feel either secure or smug in their own good health. The fact is that this is a scourge confined to no single element of the population. Its victims are to be regarded with the compassion extended to anyone who is sick. More than that, they should also be afforded the encouragement which comes with the knowledge that government and experts who rely on government for their funding are committed to doing everything conceivable to fight, and ultimately conquer, this insidious ailment. I am determined that we in Congress and throughout the Federal Establishment take every step and support every measure which can provide that solace. We cannot hope to nurse every AIDS victim back to good health. But we can make certain they do not go without hope, or struggle against their illness with a feeling of abandonment to worsen an already dreadful predicament.

One of Rock Hudson's greatest triumphs as an actor came in the film version of Edna Ferber's sprawling novel, "Giant." If anyone doubted it then, no one can doubt now, that the star of that film was an authetic Hollywood giant. Lives, like movies, do not always have happy endings. But they have enduring messages. The message of Mr. Hudson's life is essentially triumphant. It will outlive him, for as long as celluloid can preserve our dreams and convey our emotions.

(Mr. DENTON assumed the chair.)

JAPANESE BARRIERS TO UNITED STATES WINE EXPORTS

Mr. WILSON. Mr. President, I rise today to discuss a matter which has become all too common a subject for discussion on the floor of the Senate—still another barrier to trade between the United States and Japan. As we are all aware, legislators and businessmen continue to struggle against the endless obstacles which have been erected in the path of increased American exports and fair access to the Japanese market. The plight of U.S. vintners anxious to market their product in Japan provides another example of these impenetrable barriers to fair trade on their part to pursue tangible reforms of their own policies of protectionism.

Last month at the insistence of our Government, United States and Japanese negotiators attempted to conduct consultations aimed at the elimination of trade barriers to the sale of American wines in Japan. These consultations were required by the wine equity provisions of the Tariff and Trade Act of 1984, which directs the U.S. Trade Representative to designate countries that have significant market potential for U.S. wine sales, but maintain trade barriers, including tariffs, inhibiting such wine trade.

On September 3, 1985, the USTR designated six countries, including Japan, as "major wine trading countries," as defined in that law. As a next step, the law requires that consultations aimed at the elimination of the identified trade barriers be conducted and concluded by the end of October of this year. By the end of November, a report on the trade barriers and the results of these bilateral consultations must be submitted to the Congress.

My colleagues may recall that I was the author of the Wine Equity Act and have followed with keen interest the manner in which USTR has implemented its provisions and pursued the requisite consultations. With only one dismal exception, each of the other countries identified as a potentially strong export market for U.S. wines, absent existing trade barriers, has indicated a willingness to consult with USTR and attempt to provide American wineries with fair access to their markets.

The one dismal—but not surprising—exception is the Government of Japan whose negotiators have repeatedly rebuffed American requests to discuss the matter. Ironically, the maze of Japanese trade barriers are more complex than those of any other country identified by USTR and, therefore, will likely require more negotiating sessions to resolve.

For example, the Japanese impose an unacceptably high tariff rate of 38 percent on imports of premium bottled wine, in order to insulate Japa-

nese wine producers and grape growers from foreign competition. Ironically, Japan's vineyards only provide 18 percent of the product used to process Japanese wines; the remaining 82 percent is acquired through imported bulk wine and grape concentrate, which receive preferential or duty free treatment, and are blended with domestic grapes to produce Japanese wines. While the Japanese suggest that the low tariffs on bulk and concentrated wines offset the prohibitively high tariffs on premium wines, in reality, their two-tiered tariff structure is blatantly self-serving and undeniably protectionistic.

In addition to these discriminatory tariffs on premium wines, the Japanese add an excise tax of 50 percent on all wines valued at or above $3 a liter. As a result, more than 90 percent of imported wines are valued at less than $3 a liter—predominately bulk wines—because premium bottled wines would be priced out of the market.

The tariffs and excise taxes are only part of the trade obstacles facing American wine exporters. In addition, the Japanese use a 7 percent dry extract level to determine tax for sweetened and unsweetened wines, stringent labeling and tolerance requirements for additives, as well as cumbersome licensing and certification requirements.

Suffice it to say that there is an abundance of complex barriers prohibiting American wine imports and requiring serious negotiations between our two countries. Obviously, the lack of cooperation displayed by Japan on this matter is not without risks. Japanese officials should realize that USTR must report to Congress with specific recommendations for further legislative action, if the negotiation process is unlikely to resolve existing trade barriers. Japan should know by now that the mood in Congress is disposed toward retaliatory trade sanctions against Japan and that any such recommendations from the Office of the U.S. Trade Representative are likely to receive a warm congressional reception and prompt action.

I caution our trading partners in Japan, whose products have long enjoyed unfettered access to American consumers and whose country presently enjoys an unacceptably large balance of trade surplus, that these bilateral consultations are not merely perfunctory. On the contrary, USTR is seeking to provide American wine exporters with fair access to Japan because the Congress of the United States has explicitly instructed the Trade Ambassador to do so. These talks, as well as any resultant recommendations for retaliatory trade actions, are not merely motivated by a desire to achieve fair trade between our two countries, but are required by U.S. law.

While the Government of Japan has gone to great lengths, including the use of a public relations firm, to convince us of their sincere interest in reversing a deteriorating trade relationship, the intransigence of Japanese negotiators regarding American wine exports speaks volumes.

On September 18, Japanese Ambassador Matsunaga told reporters at the National Press Club that his Government is "exerting its maximum efforts" to respond to United States concerns about Japanese trade barriers. According to the Ambassador, his Government "is moving ahead with very strong determination," and United States businesses should anticipate improved trading opportunities in Japanese markets.

Regrettably, I take small comfort in the Ambassador's assurances or in similar statements that were made to me personally during my recent visit to Japan. In fact, on the very day that Ambassador Matsunaga was promoting fair trade to a group of Washington reporters, Japanese negotiators were conveying to officials from USTR a disinterest in even discussing trade barriers to wine exports. As a result, nothing was accomplished. Obviously, actions by the Ambassador's negotiators did not substantiate the Ambassador's fine words about "moving ahead with a very strong determination" to improve trade opportunities. On the contrary, his negotiators conveyed an unmistakably strong determination to perpetuate the barriers to trade.

This attitude of obstructionism is truly regrettable, because Japan has an ideal opportunity to engage in meaningful negotiations with us on wine trade barriers and to demonstrate its good faith interest in improving our trade relations; however, that opportunity will expire October 31, when USTR is required to prepare its report to Congress on the status of these consultations. At that time, Congress will act to resolve unilaterally a matter that is more preferably negotiated bilaterally.

American wine is but one of hundreds of United States products for which the door to Japanese markets is tightly shut; however, it presents both of our countries with the same choice surrounding every other American commodity being denied fair access. The choice, which I have mentioned in the past, is one between a key and a fire ax. Either the negotiators for Japan can grasp the key to unlock the door for American wine exports, or the U.S. Congress will be forced to resort to the use of a statutory fire ax. Let there be no misconception within the Government of Japan—that door for American wines, as well as for American walnuts and nectarines, cherries and chocolate, forest products and telecommunications equipment, will be opened. For the long-term good of relations between our two nations, I hope that the key to fair, reciprocal trade will be found and that, within the next 4 weeks, USTR receives concrete evidence of improved opportunities within Japan for American wine exporters.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE PERMANENT PUBLIC DEBT LIMIT

Mr. MOYNIHAN. Mr. President, in a very short while, we will be taking up the legislation reported by the Committee on Finance to increase the permanent public debt limit. In this case, we shall be asked to raise the debt ceiling above $2 trillion, having more than doubled that debt since January 21, 1981.

At the same time we will be asked to accept a proposal for reducing Federal budget deficits. There is a severity to this proposal that has not ever been, to my knowledge, contemplated or entertained in this body. If it has been the plan of this administration to use the Federal deficit—a deficit created by the legislation of 1981—to be the driving and compelling force behind the dismantling of Federal programs generally, certainly we see the embodiment of such a mechanism in the measure to be proposed by the distinguished Senator from Texas.

It strikes me as an extraordinary act of a legislature of our antiquity and presumed competence to think that we can fairly enact a measure of this kind, under an absolute deadline. This body and this Congress must increase the debt ceiling by a date, if not certain, within at most 2 or 3 days, after which the U.S. Government would simply default on its obligations. It is manifestly not possible to craft a measure dealing with automatic reductions in the budget of the U.S. Government and all that is behind it in this space of time. And such is obviously not desired by its sponsors, because any close inquiry would raise questions of the sort that could not be answered in a 7-day space.

But I would like to point out one thing before this debate begins, a matter that is very simple. We are going to be asked to put in place an automatic mechanism for cutting most of the major activities of the Federal Government—the CIA, the FBI, the Department of the Interior, the Department of Housing and Urban De-

velopment, and so on. But the striking and remarkable thing is that farm programs would not be cut. It does, indeed, reassure those of us who have thought that perhaps there was some weaning of political wile in the American body politic that we were no longer capable as perhaps we once were of achieving goals by indirection. In the name of forcing reductions in "bloated Federal programs", or however they are called, we are going to be asked to cut mass transit, and defense procurement not subject to prior contracts—which is, for example, future research and development on the strategic defense initiative—and all other discretionary programs.

May I expand on this point, Mr. President, about research programs. Successful research programs begin like babies. They cost very little, but they cannot do much either. As they begin to acquire real utility, they cost more. As they reach maturity, they cost a very great deal as well indeed, but then they can achieve things. What begins in the mind of a reseacher on, let us say, particle beam accelerators, costs little more than pencil and paper for a period, but by the time you produce and test machinery, it cost a great deal.

But to return to this proposal. We are going to cut back the funds that provide the Internal Revenue Service the capacity to examine income tax returns and collect payments. We will be automatically cutting the way we collect funds for the Treasury. We are going to cut back the FBI and its efforts to combat terrorism. We are going to cut back the CIA. We are going to cut back drug enforcement programs. Programs that fall under the general category of relatively controllable outlays will face a cut of about 9 percent. But to the wonder of the casual reader, what turns out not to be a relatively controllable outlay? Surprise. Of all things, the outlay which is growing faster than any other element of the budget of which I am aware, save interest on the debt—farm price support programs—farm programs are not considered to be a relatively controllable outlay. They are somehow incorporated in the category of programs with automatic spending increases, such as cost-of-living adjustments for retirees. And under this proposal, those programs could see their future COLA's cut, but spending for them at current levels would be protected.

There is, to my knowledge, Mr. President, no automatic spending increase in the farm program. None. It is an absolute arbitrary way of saying we are going to cut everything but this, and therefore will you vote for it?

I really do think that at the outset of this debate we have to ask if this is honest. Is it honest and open to suggest that farm price-support programs have about them an automatic spending increase characteristic of pension programs or such others as might exist—the principal one being Social Security, which has been removed from this proposal entirely.

Well, price supports are a form of Social Security but we thought them to be relatively controllable. We thought that we passed a farm bill every 4 years and declared how much we would spend on it. As of yesterday, this Senator was under the understanding that farm programs are in the area of relatively controllable outlays, only this morning to learn that, no, on closer examination this is not so. This has not been made clear. This is hidden. It is hidden in the text of the legislation. It would cut drug enforcement some 10 percent the first year, while farm spending would remain at current levels. If anyone knows about it, they have said nothing, to my knowledge.

If you wonder about how high these levels are, and the degree to which they are relatively controllable, could I point out that in fiscal year 1980, Commodity Credit Corporation [CCC] outlays totaled $2.7 billion. The Senate farm bill, S. 1714, is estimated to cost $22 billion in fiscal year 1987. We have gone from $2.7 billion to $22 billion in 7 years. If that is not relatively controllable—well, perhaps that is uncontrollable, but it certainly comes under the heading of legislative increases far beyond anything associated with changes in price levels. No program has grown as expensively, as fast, and as expansively in the last 4 years. Maybe there is a case for that. I am not always sure, Mr. President. I represent New York, and although this may not be immediately persuasive to my colleagues, I happen to live on a dairy farm and have done so for 25 years. It is our home. We are surrounded by cows. I do not claim to milk them, but I talk to them a lot, and joke with them more than I should. Not as much as my children did, of course.

In 1984 and early 1985, we had a milk diversion program. Before this program was enacted in November 1983, I spoke against it on the floor. The distinguished majority leader said to me that a very careful "agreement" had been worked out in the matter. I retorted that it seemed to be a very careful deal. Let me state how that diversion program worked.

In Arizona, the average payment per participating dairyman was $226,978. Those poor fellows! I am almost moved to some of the rhetorical heights of the Senator from South Carolina when I consider the plight of the Arizona dairymen who got a quarter-of-a-million dollars in 1984 for not milking their cows.

In Florida, the average participant got $216,590; in Nevada, $215,262; in California, $125,044. In New York, the average payment was $24,749—which I knew very well would be the case.

We had a farm program casually pay a quarter-of-a-million dollars to just a few dairymen; don't worry about the side effect: The price consumers pay for milk and other dairy products.

In my State, where there are a great many small farms, the simple problem, which I tried to explain on this floor, is that milk is no longer sent to market in cans. It is picked up by tanker trucks.

If the small New York farmer, perfectly capable of making a living under ordinary circumstances, is taxed for the milk he produces but given a return for the milk he does not produce, his situation is simple: If he takes advantage of the production cuts in the program—a program he pays for—his herd output falls below the level of milk production profitable—even economically possible—to be picked up. So he has no choice except to pay a tax on the milk he produces. He receives no benefit. Fifty cents a hundredweight, or go out of dairy farming altogether. But not in Arizona, where huge feed-lot operations exist to sell their surpluses to the Federal Government, and a few dairymen receive $226,978 per person.

Mr. President, to my knowledge this automatic mechanism for dismantling programs of the Federal Government—which will cut the FBI and cut the Navy and cut the Internal Revenue Service and cut the park services and cut aid to education, and cut research on the strategic defense initiative—will not touch farm programs, which benefit but a few.

As we approach our 200th anniversary, perhaps we are reverting to the agrarian body that we once were. But I think there ought to be some acknowledgement of two things: First, since 1920, the majority of the population has lived in places the census defines as cities. Second, we have some interests abroad, and we are preparing to cut our defense, cut our counterintelligence; we are cutting the National Security Agency; we are cutting the CIA; but we do not cut the farm program. It might not grow; but it could not be cut. That is not a program; that is a tradition. That is not an option; that is an obligation.

After all, if you were an Arizona dairyman and had to make do with $226,978 a year in payments, you might not be able to go to Acapulco in the winter.

Mr. DOLE. Mr. President, if the Senator will yield, if you live in Arizona, you would not want to go to Acapulco.

Mr. MOYNIHAN. Some people come to Manhattan. At those prices, you can come to Manhattan. I will not make the distinction.

Mr. President, I know that the distinguished majority leader has business to attend to. I should like him to respond to a question.

Am I correct in my understanding that the Gramm amendment, as it is generally called, does not include farm programs under the category of the relatively controllable outlays?

Mr. DOLE. First, maybe we should get on the bill before we debate it.

That is not my understanding. My understanding is that it would be included and could be affected, because there are increases in target prices on an annual basis.

So, to me, that still would be a program that would be ripe for action under the amendment to be offered soon by Senator GRAMM, Senator RUDMAN, and Senator HOLLINGS.

Mr. MOYNIHAN. But the Senator does understand that we divide our expenditures into two groups. One is the relatively controllable, such as the Defense Department and others, and in the second group we provide arrangements for automatic cost increases, and farm programs are in the second category.

Mr. DOLE. I indicate to the Senator from New York that we are prepared to respond to that; but what I would prefer to do, if there is no objection, would be to move to consideration of the debt ceiling extension, offer the amendment, and then, within a matter of minutes, I could have Senator GRAMM give the Senator from New York the information.

Mr. MOYNIHAN. That is entirely agreeable. We were in morning business and in a quorum, and I thought I would take advantage of this opportunity. This is essential to the equity of the measure, in my view.

Mr. President, I yield the floor.

INCREASE OF PERMANENT PUBLIC DEBT LIMIT

Mr. DOLE. Mr. President, I move that the Senate now proceed to the consideration of Calendar No. 327, House Joint Resolution 372, the debt limit extension.

The PRESIDING OFFICER. The joint resolution will be stated by title.

The assistant legislative clerk read as follows:

A joint resolution (H.J. Res. 372) increasing the statutory limit on the public debt.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to, and the Senate proceeded to consider the joint resolution.

AMENDMENT NO. 729

Mr. DOLE. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE], for himself and others, proposes an amendment numbered 729:

At the end of the bill insert the following:

SEC. . DEFICIT REDUCTION PROCEDURES.

(a) SHORT TITLE.—This section may be cited as the "Balanced Budget and Emergency Deficit Control Act of 1985".

Cosponsors of the amendment are Senators GRAMM, RUDMAN, HOLLINGS, ABDNOR, ANDREWS, BOREN, BOSCHWITZ, COCHRAN, COHEN, D'AMATO, DANFORTH, DENTON, DODD, EAST, EVANS, GARN, GOLDWATER, GORTON, GRASSLEY, HATCH, HECHT, HELMS, HUMPHREY, KASTEN, KERRY, LAXALT, LUGAR, MATTINGLY, MCCLURE, MCCONNELL, MURKOWSKI, NICKLES, STEVENS, SYMMS, TRIBLE, WALLOP, WARNER, WILSON, ZORINSKY, and DIXON.

Mr. DOLE. Mr. President, I ask for the yeas and nays on the amendment.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 730

(Purpose: To require a graduated reduction of the Federal budget deficit, to balance the budget, to establish emergency procedures to avoid deficit overages, and for other purposes)

Mr. DOLE. Mr. President, I send a second-degree amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE], for himself and others, proposes an amendment numbered 730.

Cosponsors of the amendment are Senators GRAMM, RUDMAN, HOLLINGS, ABDNOR, ANDREWS, BOREN, BOSCHWITZ, COCHRAN, COHEN, D'AMATO, DANFORTH, DENTON, DODD, EAST, EVANS, GARN, GOLDWATER, GORTON, GRASSLEY, HATCH, HECHT, HELMS, HUMPHREY, KASTEN, KERRY, LAXALT, LUGAR, MATTINGLY, MCCLURE, MCCONNELL, MURKOWSKI, NICKLES, STEVENS, SYMMS, TRIBLE, WALLOP, WARNER, WILSON, ZORINSKY, and DIXON.

The assistant legislative clerk proceeded to read the amendment.

Mr. DOLE. Mr. President, I ask unanimous consent that we temporarily suspend the reading of the amendment and go into executive session.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

EXECUTIVE SESSION

Mr. WARNER. Mr. President, I ask unanimous consent that the Senate go into executive session to consider Calendar No. 377, Vice Admiral Trost.

There being no objection, the Senate proceeded to the consideration of executive business.

The PRESIDING OFFICER. The nomination will be stated.

DEPARTMENT OF THE NAVY

The legislative clerk read the nomination of Carlisle A.H. Trost to be admiral.

Mr. WARNER. Mr. President, I wish to thank the leadership.

Admiral Trost has long been my naval aide when I was Secretary. He was nominated by the President to take over the Atlantic Command and his change of command is tomorrow.

I thank the leadership for their cooperation and courtesy.

The PRESIDING OFFICER. Without objection, the nomination is considered and confirmed.

Mr. WARNER. Mr. President, I move to reconsider the vote by which the nomination was confirmed.

Mr. DOLE. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. WARNER. Mr. President, I ask unanimous consent that the President be immediately notified of the confirmation of this nomination.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. WARNER. Mr. President, I ask unanimous consent that the Senate return to the consideration of legislative business.

The PRESIDING OFFICER. Without objection, it is so ordered.

INCREASE OF PERMANENT PUBLIC DEBT LIMIT

The Senate resumed consideration of House Joint Resolution 372.

Mr. HOLLINGS. Mr. President, will the distinguished majority leader yield for a question?

Mr. DOLE. I think now we go back to the reading of the amendment.

Mr. HOLLINGS. Will the majority leader yield for a question?

Mr. DOLE. I am happy to yield for a question.

Mr. HOLLINGS. Mr. President, I wish to clarify the record. I think I have something better than a unanimous consent. Ordinarily, I understand, the Senate procedure provides that by unanimous consent when we go off of the "Compact of Free Association" and the textile amendment then we automatically go back to it after we finish the pending matter. But as I understand the majority leader says he will call the "Compact of Free Association." It is back on the calendar now, and we have the leader's word on it.

Mr. DOLE. That is correct.

Mr. HOLLINGS. That is better than unanimous consent.

Mr. DOLE. That is correct. I hope so.

Mr. HOLLINGS. Good. I thank the majority leader.

The PRESIDING OFFICER. The clerk will resume reading the amendment.

The assistant legislative clerk resumed reading the amendment.

Mr. DOLE. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the joint resolution, insert the following new section:

SEC. . DEFICIT REDUCTION PROCEDURES.

(a) SHORT TITLE.—This section may be cited as the "Balanced Budget and Emergency Deficit Control Act of 1985".

(b) CONGRESSIONAL BUDGET.—

(1) ONE CONCURRENT RESOLUTION ON THE BUDGET REQUIRED ANNUALLY.—

(A) IN GENERAL.—Section 310 of the Congressional Budget Act of 1974 is amended—

(i) by striking out all beginning with "SEC. 310. (a)" through "necessary—" in the matter preceding paragraph (1) of subsection (a) and inserting in lieu thereof the following:

"SEC. 310. (a) IN GENERAL.—Any concurrent resolution on the budget considered under section 301 or section 304 for a fiscal year shall, to the extent necessary, specify—"; and

(ii) by striking out subsection (b) and redesignating subsection (c) as subsection (b).

(B) CONFORMING CHANGES.—

(i) The table of contents in subsection (b) of section 1 of the Congressional Budget and Impoundment Control Act of 1974 is amended—

(I) by striking out "Adoption of first concurrent resolution" in the item relating to section 301 and inserting in lieu thereof "Annual adoption of concurrent resolution";

(II) by striking out "First concurrent resolution" in the item relating to section 303 and inserting in lieu thereof "Concurrent resolution"; and

(III) by striking out "Second required concurrent resolution and reconciliation" in the item relating to section 310 and inserting in lieu thereof "Reconciliation".

(ii) Paragraph (4) of section 3 of such Act is amended—

(I) by adding "and" after the semicolon at the end of subparagraph (A);

(II) by striking out subparagraph (B); and

(III) by striking out "(C) any other" and inserting in lieu thereof "(B) a".

(iii) Section 300 of the Congressional Budget Act of 1974 is amended—

(I) by striking out "first" in the item relating to April 15 and in the second item relating to May 15; and

(II) by striking out the items relating to September 15 and September 25.

(iv)(I) The heading of section 301 of the Congressional Budget Act of 1974 is amended to read as follows:

"ANNUAL ADOPTION OF CONCURRENT RESOLUTION".

(II) Section 301(a) of such Act is amended by striking out "the first concurrent resolution on the budget" in the first sentence and inserting in lieu thereof "a concurrent resolution on the budget".

(III) Section 301(b) of such Act is amended—

(aa) by striking out "first concurrent resolution on the budget" in the matter preceding paragraph (1) and inserting in lieu thereof "concurrent resolution on the budget referred to in subsection (a)"; and

(bb) in paragraph (1) by striking out all beginning with "the concurrent resolution" through "both" the second place it appears and inserting in lieu thereof "the Congress has completed action on any reconciliation bill or reconciliation resolution, or both, required by such concurrent resolution to be reported in accordance with section 310(b)".

(IV) Section 301(d) of such Act is amended by striking out "first" each place it appears.

(V) Section 301(e) of such Act is amended—

(aa) by striking out "set for" in paragraph (1) and inserting in lieu thereof "set forth"; and

(bb) by striking out "first concurrent resolution on the budget" each place it appears and inserting in lieu thereof "concurrent resolution on the budget referred to in subsection (a)".

(v) Section 302(c) of such Act is amended by striking out "or 310".

(vi)(I) The heading of section 303 of such Act is amended by striking out "FIRST".

(II) Section 303(a) of such Act is amended by striking out "first concurrent resolution on the budget" in the matter following paragraph (4) and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)".

(vii) Section 304 of such Act is amended—

(I) by striking out "first concurrent resolution on the budget" and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)"; and

(II) by striking out "pursuant to section 301".

(viii)(I) Section 305(a)(3) is amended by striking out "first concurrent resolution on the budget" and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)".

(II) Section 305(b) of such Act is amended—

(aa) in paragraph (1) by striking out ", except that" and all that follows through "15 hours"; and

(bb) in paragraph (3) by striking out "first concurrent resolution on the budget" and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)".

(ix) Section 308(a)(2)(A) of such Act is amended by striking out "first concurrent resolution on the budget" and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)".

(x) Paragraph (1) of section 309 of such Act is amended by striking out ", and other than the reconciliation bill for such year, if required to be reported under section 310(c)".

(xi) Section 310(f) of such Act is amended by striking out "subsection (a)" and inserting in lieu thereof "301(a)".

(xii) Section 311(a) of such Act is amended—

(I) by striking out "310(a)" the first place it appears and inserting in lieu thereof "301(a)"; and

(II) by striking out "310(c)" and inserting in lieu thereof "310(b)".

(xiii) Clause 1. of Rule XLIX of the Rules of the House of Representatives is amended by striking out ", 304, or 310" and inserting in lieu thereof "or 304".

(2) MAXIMUM DEFICIT AMOUNTS.—

(A) ANNUAL CONCURRENT RESOLUTION ON THE BUDGET.—

(i) POINT OF ORDER.—Section 301 of the Congressional Budget Act of 1974 is amended by redesignating subsections (c), (d), and (e) as subsections (d), (e), and (f), respectively, and inserting after subsection (b) the following new subsection:

"(c) MAXIMUM DEFICIT AMOUNT MAY NOT BE EXCEEDED—

"(1) Except as provided in paragraph (2), it shall not be in order in either the House of Representatives or the Senate to consider or adopt any concurrent resolution on the budget for a fiscal year under this section, or to consider or adopt any amendment to such a concurrent resolution, or to adopt a conference report on such a concurrent resolution, if the level of total budget outlays for such fiscal year that is set forth in such concurrent resolution or conference report (or that would result from the adoption of such amendment), exceeds the recommended level of Federal revenues for that year by an amount that is greater than the maximum deficit amount specified for such fiscal year in section 3(7).

"(2) Paragraph (1) of this subsection shall not apply to any fiscal year for which a declaration of war has been enacted.".

(ii) CONFORMING CHANGE.—Section 301(e) of such Act, as redesignated by clause (i) of this subparagraph, is amended by inserting "; and when so reported such concurrent resolution shall comply with the requirement described in paragraph (1) of subsection (c), unless such paragraph does not apply to such fiscal year by reason of paragraph (2) of such subsection" after "October 1 of such year" in the second sentence thereof.

(B) PERMISSIBLE REVISIONS OF CONCURRENT RESOLUTIONS ON THE BUDGET.—Section 304 of such Act is amended—

(i) by inserting "(a) IN GENERAL.—" after "SEC. 304."; and

(ii) by adding at the end thereof the following new subsection:

"(b) MAXIMUM DEFICIT AMOUNT MAY NOT BE EXCEEDED.—

"(1) Except as provided in paragraph (2), it shall not be in order in either the House of Representatives or the Senate to consider or adopt any concurrent resolution on the budget for a fiscal year under this section, or to consider or adopt any amendment to such a concurrent resolution, or to adopt a conference report on such a concurrent resolution, if the level of total budget outlays for such fiscal year that is set forth in such concurrent resolution or conference report (or that would result from the adoption of such amendment), exceeds the recommended level of Federal revenues for that year by an amount that is greater than the maximum deficit amount specified for such fiscal year in section 3(7).

"(2) Paragraph (1) of this subsection shall not apply to any fiscal year for which a declaration of war has been enacted.".

(C) DEFINITIONS.—Section 3 of the Congressional Budget and Impoundment Control Act of 1974 is amended by adding at the end thereof the following new paragraphs:

"(6) The term 'deficit' means, with respect to any fiscal year, the amount by which total budget outlays for such fiscal year exceed total revenues for such fiscal year. For purposes of this Act, and unless specifically superseded by a law enacted after the date of the enactment of the Balanced Budget and Emergency Deficit Control Act of 1985, the receipts of the Federal Old-Age, Survivors, and Disability Insurance Trust Fund for a fiscal year, and the taxes payable under sections 1401(a), 3101(a), and

3111(a) of the Internal Revenue Code of 1954 during such fiscal year, shall be included in total revenues for such fiscal year, and the disbursements of such Trust Fund for such fiscal year shall be included in total budget outlays for such fiscal year.

"(7) The term 'maximum deficit amount' means—

"(A) with respect to the fiscal year beginning October 1, 1985, $180,000,000,000;

"(B) with respect to the fiscal year beginning October 1, 1986, $144,000,000,000;

"(C) with respect to the fiscal year beginning October 1, 1987, $108,000,000,000;

"(D) with respect to the fiscal year beginning October 1, 1988, $72,000,000,000;

"(E) with respect to the fiscal year beginning October 1, 1989, $36,000,000,000; and"

"(F) with respect to the fiscal year beginning October 1, 1990, zero.".

(3) RECONCILIATION.—

(A) ANNUAL CONCURRENT RESOLUTION ON THE BUDGET.—

(i) DIRECTIONS TO COMMITTEES.—Section 301(b) of the Congressional Budget Act of 1974 (as amended by paragraph (1)(B)(iv)(III) of this subsection) is further amended—

(I) by striking out "may also require" in the matter preceding paragraph (1) and inserting in lieu thereof "shall also, to the extent necessary to comply with subsection (c)";

(II) by inserting "require" after the paragraph designation in paragraph (1);

(III) by inserting "require" after the paragraph designation in paragraph (2); and

(IV) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively, and inserting before paragraph (2) (as so redesignated) the following new paragraph:

"(1) specify and direct any combination of the matters described in paragraphs (1), (2), and (3) of section 310(a);".

(ii) CONFORMING CHANGES.—

(I) Section 310(a) of such Act is amended—

(aa) by inserting "or" at the end of paragraph (2);

(bb) by striking out "; or" at the end of paragraph (3) and inserting in lieu thereof a period; and

(cc) by striking out paragraph (4).

(II) Section 310(d) of such Act is amended by striking out "subsection (c)" and all that follows through "year" and inserting in lieu thereof "subsection (b) with respect to a concurrent resolution on the budget adopted under section 301(a) not later than June 15 of each year".

(III) Subsections (e) and (f) of section 310 of such Act are amended by striking out "subsection (c)" each place it appears and inserting in lieu thereof "subsection (b)".

(IV) Section 300 of such Act is amended by inserting immediately after the second item relating to May 15 the following new item:

"June 15	Congress completes action on reconciliation bill or resolution, or both, implementing first required concurrent resolution.".

(B) PERMISSIBLE REVISIONS OF CONCURRENT RESOLUTIONS ON THE BUDGET.—

(i) IN GENERAL.—Section 304(a) of such Act (as redesignated by paragraph (2)(B)(i) of this subsection) is amended by adding after the period the following new sentence: "Any concurrent resolution adopted under this section shall specify and direct any combination of the matters described in paragraphs (1), (2), and (3) of section 310(a) to the extent necessary to comply with subsection (b).".

(ii) CONFORMING CHANGE.—Section 310(d) of such Act (as amended by subparagraph (A)(ii)(II) of this paragraph) is further amended by adding at the end thereof the following new sentence: "Congress shall complete action on any reconciliation bill or reconciliation resolution reported under subsection (b) with respect to a concurrent resolution on the budget adopted under section 304(a) not later than 30 days after the adoption of the concurrent resolution.".

(4) LIMITATION ON AMENDMENTS.—

(A) CONCURRENT RESOLUTIONS ON THE BUDGET.—

(i) HOUSE OF REPRESENTATIVES.—Section 305(a)(6) of such Act is amended—

(I) by inserting "(A)" after the paragraph designation; and

(II) by adding at the end thereof the following new subparagraph:

"(B)(i) No amendment that would have the effect of increasing any specific budget outlays above the level of such outlays set forth in a concurrent resolution on the budget as reported, or of reducing any specific Federal revenues below the level of such revenues set forth in such concurrent resolution as reported, shall be in order unless such amendment ensures that the amount of total budget outlays set forth in the concurrent resolution as reported is not increased, and that the recommended level of total Federal revenues set forth in such concurrent resolution as reported is not reduced, by making an equivalent reduction in other specific budget outlays or an equivalent increase in other specific Federal revenues.

"(ii) Clause (i) of this subparagraph shall not apply to any fiscal year for which a declaration of war has been enacted.".

(ii) SENATE.—Section 305(b)(2) of such Act is amended—

(I) by inserting "(A)" before the paragraph designation; and

(II) by adding at the end thereof the following new subparagraph:

"(B)(i) No amendment that would have the effect of increasing any specific budget outlays above the level of such outlays set forth in a concurrent resolution on the budget as reported, or of reducing any specific Federal revenues below the level of such revenues set forth in such concurrent resolution as reported, shall be in order unless such amendment ensures that the amount of total budget outlays set forth in the concurrent resolution as reported is not increased, and that the recommended level of total Federal revenues set forth in the concurrent resolution as reported is not reduced, by making an equivalent reduction in other specific budget outlays or an equivalent increase in other specific Federal revenues.

"(ii) Clause (i) of this subparagraph shall not apply to any fiscal year for which a declaration of war has been enacted.".

(B) RECONCILIATION BILLS AND RESOLUTIONS.—Section 310 of such Act is amended by inserting after subsection (b) (as redesignated by paragraph (1)(A)(ii) of this subsection) the following new subsection:

"(c) LIMITATION ON AMENDMENTS TO RECONCILIATION BILLS AND RESOLUTIONS.—

"(1) It shall not be in order in either the House of Representatives or the Senate to receive or consider any amendment to a reconciliation bill or reconciliation resolution if such amendment would have the effect of increasing any specific budget outlays above the level of such outlays provided in the bill or resolution as reported, or would have the effect of reducing any specific Federal revenues below the level of such revenues provided in the bill or resolution as reported, unless such amendment ensures that total budget outlays are not increased, and that total Federal revenues are not reduced, by making an equivalent reduction in other specific budget outlays or an equivalent increase in other specific Federal revenues.

"(2) Paragraph (1) shall not apply to any fiscal year for which a declaration of war has been enacted.".

(5) ENFORCEMENT.—

(A) ALLOCATIONS OF BUDGET AUTHORITY AND OUTLAYS.—

(i) REPORTING DATE FOR ALLOCATIONS.—Section 302(b) of such Act is amended by striking out "Each such committee shall promptly report" in the last sentence and inserting in lieu thereof "Each such committee, within ten days of session after the concurrent resolution is agreed to, shall report".

(ii) ALLOCATIONS MADE BINDING.—Section 311 of such Act is amended by redesignating subsections (a) and (b) as subsections (b) and (c), respectively, and inserting immediately after "SEC. 311" the following new subsection:

"(a) LEGISLATION SUBJECT TO POINT OF ORDER AFTER ADOPTION OF ANNUAL CONCURRENT RESOLUTION ON THE BUDGET.—

"(1) IN GENERAL.—At any time after the Congress has completed action on the concurrent resolution on the budget required to be reported under section 301(a) for a fiscal year, it shall not be in order in either the House of Representatives or the Senate—

"(A) to consider any bill or resolution (including a conference report thereon), or any amendment to a bill or resolution, that provides for budget outlays or new budget authority in excess of the appropriate allocation of such outlays or authority reported under section 302(b) in connection with the most recently agreed to concurrent resolution on the budget for such fiscal year; or

"(B) to consider any bill or resolution (including a conference report thereon), or any amendment to a bill or resolution, that provides new spending authority described in section 401(c)(2)(C) to become effective during such fiscal year, if the amount of budget outlays or new budget authority that would be required for such year if such bill or resolution were enacted without change or such amendment were adopted would exceed the appropriate allocation of budget outlays or new budget authority reported under section 302(b) in connection with the most recently agreed to concurrent resolution on the budget for such fiscal year, unless such bill, resolution, or amendment was favorably reported by the Committee on Appropriations of the House involved under section 401(b)(2) along with a certification that if such bill, resolution, or amendment is enacted or adopted, the committee will reduce appropriations or take any other actions necessary to assure that the enactment or adoption of such bill, resolution, or amendment will not result in a deficit for such fiscal year in excess of the maximum deficit amount specified for such fiscal year in section 3(7).

"(2) ALTERATION OF 302(b) ALLOCATIONS.—At the time after a committee reports the allocations required to be made under section 302(b), such committee may report to its House an alteration of such allocations, provided that any alteration of such allocations must be consistent with any actions already taken by its House on legislation within the committee's jurisdiction.

"(3) EXCEPTION.—Paragraph (1) shall not apply to any fiscal year for which a declaration of war has been enacted.".

(B) MAXIMUM DEFICIT AMOUNT MAY NOT BE EXCEEDED.—Section 311(b) of such Act, as redesignated by subparagraph (A)(ii) of this subsection, is amended by inserting before the period at the end thereof the following: ", or would otherwise result in a deficit for such fiscal year that exceeds the maximum deficit amount specified for such fiscal year in section 3(7) (except to the extent that paragraph (1) of subsection (b) of section 310 does not apply by reason of paragraph (2) of such subsection)".

(C) REPORTING REQUIREMENT EXTENDED TO CONFERENCE REPORTS.—Section 308(a) of such Act is amended by striking out "the report accompanying that bill or resolution" in the matter preceding paragraph (1) and inserting in lieu thereof the following: "or whenever a conference report is filed in either House, the report accompanying that bill or resolution or the statement of managers accompanying that conference report".

(c) BUDGET SUBMITTED BY THE PRESIDENT.—

(1) MAXIMUM DEFICIT AMOUNT MAY NOT BE EXCEEDED.—Section 1105 of title 31, United States Code, is amended by adding at the end thereof the following new subsection:

"(f)(1) The budget transmitted pursuant to subsection (a) for a fiscal year shall be prepared on the basis of the best estimates then available, in such a manner as to ensure that the deficit for such fiscal year shall not exceed the maximum deficit amount specified for such fiscal year in section 3(7) of the Congressional Budget and Impoundment Control Act of 1974; and the President shall take such action under subsection (d)(2) of the Balanced Budget and Emergency Deficit Control Act of 1985 as is necessary to ensure that the deficit for such fiscal year does not exceed such maximum deficit amount.

"(2) Subject to paragraph (3) of this subsection, the deficit set forth in the budget so transmitted for any fiscal year shall not exceed the maximum deficit amount specified for such fiscal year in section 3(7) of the Congressional Budget and Impoundment Control Act of 1974, with budget outlays and Federal revenues at such levels as the President may consider most desirable and feasible. The President may also recommend alternative budgets complying with the requirement of the preceding sentence, with outlays and revenues at higher or lower levels to take account of possible changes in economic conditions or other circumstances.

"(3) Paragraph (2) shall not apply with respect to any fiscal year for which a declaration of war has been enacted.".

(2) REVISIONS AND SUPPLEMENTAL SUMMARIES.—Section 1106 of title 31, United States Code, is amended by adding at the end thereof the following new subsection:

"(c) Subsection (f) of section 1105 shall apply to revisions and supplemental summaries submitted under this section to the same extent that such subsection applies to the budget submitted under section 1105(a) to which such revisions and summaries relate.".

(d) EMERGENCY POWERS TO ELIMINATE DEFICITS IN EXCESS OF MAXIMUM DEFICITS AMOUNTS.—

(1) REPORTING OF DEFICITS IN EXCESS OF MAXIMUM DEFICIT AMOUNTS.—

(A) IN GENERAL.—

(i) FISCAL YEAR FOR WHICH CONCURRENT RESOLUTION ON THE BUDGET IS ADOPTED.—The Director of the Office of Management and Budget and the Director of the Congressional Budget Office (hereafter in this section referred to as "the Directors") shall, with respect to any fiscal year for which a concurrent resolution on the budget has been adopted before the first day of such fiscal year (I) estimate the levels of total revenues and budget outlays that may be anticipated for such fiscal year, (II) determine whether the deficit for such fiscal year will exceed the maximum deficit amount for such fiscal year and whether such excess is statistically significant, and (III) estimate the rate of real economic growth that will occur during such fiscal year. The Directors jointly shall report to the President and to the Congress not later than November 1 of such fiscal year (in the case of the fiscal year beginning October 1, 1985) and October 1 of such fiscal year (in the case of any succeeding fiscal year) if either such Director determines that the amount of the deficit for such fiscal year will exceed the maximum deficit amount for such fiscal year, identifying the amount of such excess, stating whether such excess is statistically significant, specifying the estimated rate of real economic growth for such fiscal year, and specifying the percentages by which automatic spending increases and relatively controllable expenditures shall be reduced during such fiscal year in order to eliminate such excess. In the event that the Directors are unable to agree on an amount to be set forth with respect to any item in any such report, the amount set forth for such item in such report shall be the average of the amounts proposed by each of them with respect to such item.

(ii) FISCAL YEAR WITHOUT CONCURRENT RESOLUTION ON THE BUDGET.—Not later than October 1 of any fiscal year for which a concurrent resolution on the budget has not been adopted, the Directors shall (I) estimate the level of Federal revenues and budget outlays for such fiscal year, (II) determine whether the deficit for such fiscal year will exceed the maximum deficit amount for such fiscal year and whether such excess is statistically significant, and (III) estimate the rate of real economic growth that will occur during such fiscal year, and, if either such Director determines that the amount of the deficit for such fiscal year will exceed the maximum deficit amount for such fiscal year, shall jointly report to the President and the Congress, identifying the amount of such excess, stating whether such excess is statistically significant, specifying the estimated rate of real economic growth for such fiscal year, and specifying the percentages by which automatic spending increases and relatively controllable expenditures shall be reduced in order to eliminate such excess. Any disagreement between the Directors on an amount to be set forth in any such report shall be resolved in the manner described in the last sentence of clause (i).

(B) EXCEPTION.—Subparagraph (A) shall not apply to any fiscal year for which a declaration of war has been enacted.

(2) PRESIDENTIAL ORDER.—

(A) CONTENTS.—

(i) IN GENERAL.—Except as provided in subparagraph (B), upon receipt of any report from the Directors under paragraph (1) of this subsection identifying an amount by which the deficit for a fiscal year will exceed the maximum deficit amount for such fiscal year, notwithstanding the Impoundment Control Act of 1974, the President shall issue an order that—

(I) subject to clause (ii) of this subparagraph, eliminates one-half of such excess by modifying or suspending the operation of each provision of Federal law that would (but for such order) require an automatic spending increase to take effect during such fiscal year, in such a manner as to reduce by a uniform percentage (but not below zero) the amount of increase under each such provision, and

(II) subject to clause (ii) of this subparagraph, eliminates one-half of such excess by sequestering such amounts of budget authority, obligation limitations, and loan limitations as are necessary to reduce each relatively controllable expenditure by a uniform percentage and by adjusting payments provided by the Federal Government;

and shall transmit to both Houses of the Congress a message—

(III) identifying—

(aa) the total amount and the percentage by which automatic spending increases are to be reduced under subclause (I) of this clause;

(bb) the total amount of budget authority, obligation limitations, and loan limitations which is to be sequestered and the total amount of payments which is to be adjusted under subclause (II) of this clause with respect to relatively controllable expenditures;

(cc) the amount of budget authority, obligation limitations, and loan limitations which is to be sequestered and payments which are to be adjusted with respect to each such relatively controllable expenditure in order to reduce it by the required percentage; and

(dd) the account, department, or establishment of the Government to which each amount of budget authority, obligation limitations, and loan limitations and each payment specified under subdivision (cc) of this clause would be available for obligation (but for such order), and the specific project or governmental functions involved; and

(IV) providing a full supporting details with respect to each action to be taken under subclause (I) or (II) of this clause.

(ii) LIMITATION.—Actions taken under subclause (I) of clause (i) may reduce by less than one-half the amount by which the deficit for a fiscal year exceeds the maximum deficit amount for such fiscal year, and actions taken under subclause (II) of such clause may reduce such excess by more than one-half only to the extent that compliance with the requirement that actions taken under each such subclause reduce such excess by one-half would require the reduction of automatic spending increases below zero.

(B) EXCEPTION.—If the amount of the excess of the deficit for a fiscal year over the maximum deficit amount for such fiscal year set forth in a report from the Directors under paragraph (1) of this subsection is not statistically significant, subparagraph (A) shall be applied by substituting "may" for "shall" each place it appears.

(C) DATE ISSUED.—

(i) POSITIVE REAL ECONOMIC GROWTH.—If the estimate of real economic growth set forth in a report transmitted under paragraph (1) of this subsection is zero or greater, the President shall issue the order required to be issued under this subsection pursuant to such report not later than 14 days after transmittal of such report.

(ii) NEGATIVE REAL ECONOMIC GROWTH.—

(I) IN GENERAL.—If the estimate of real economic growth set forth in a report transmitted under paragraph (1) of this subsection is less than zero, the President shall

issue the order required to be issued under this subsection pursuant to such report not later than 30 days after transmittal of such report.

(II) ALTERNATIVE PROPOSALS.—The President may, during the 30-day period specified in subclause (I), submit to each House of the Congress a joint resolution that will, if enacted—

(aa) reduce the deficit for a fiscal year to an amount not greater than the maximum deficit amount for such fiscal year, or

(bb) subject to the requirements of subsection (e) of this section, suspend (in part or in whole) the requirements of this section and of the amendments made by this section with respect to such fiscal year.

Such joint resolution shall be introduced (by request) by the majority leader of each such House on the day on which it is submitted and shall be referred on such day to the appropriate committee of such House. The committee shall report the joint resolution not later than 10 days after the date on which it is introduced. A committee failing to report a joint resolution within the 10-day period referred to in the preceding sentence shall be automatically discharged from consideration of the joint resolution, and the joint resolution shall be placed on the appropriate calendar. The provisions of section 305 of the Congressional Budget Act of 1974 for the consideration of concurrent resolutions on the budget shall also apply to consideration of any joint resolution submitted under this subparagraph and to conference reports thereon. Section 310(c) of such Act (as added by subsection (b)(4)(B) of this section) shall apply to any such joint resolution.

(D) EFFECTIVE IMMEDIATELY.—Except to the extent that it is superseded by a joint resolution enacted under paragraph (3) of this subsection, an order issued pursuant to this paragraph shall be effective from and after its issuance. Any modification or suspension of a provision of law that would (but for such order) require an automatic spending increase to take effect during a fiscal year shall apply for the one-year period beginning with the date on which such automatic increase would have taken effect during such fiscal year (but for such order).

(E) PROPOSAL OF ALTERNATIVES.—A message transmitted pursuant to this paragraph with respect to a fiscal year may be accompanied by a proposal setting forth in full detail alternative ways to reduce the deficit for such fiscal year to an amount not greater than the maximum deficit amount for such fiscal year.

(3) CONGRESSIONAL ACTION.—

(A) REPORTING OF JOINT RESOLUTIONS.—

(i) IN GENERAL.—Not later than 10 days after issuance of an order by the President under paragraph (2) with respect to a fiscal year, the Committee on the Budget of the House of Representatives or the Senate may report to its House a joint resolution superseding such order. The report accompanying such joint resolution shall explain in full detail the nature and effects of each provision of the joint resolution.

(ii) POINT OF ORDER.—It shall not be in order in the House of Representatives or the Senate to consider or agree to any joint resolution reported under clause (i) with respect to a fiscal year, any amendment thereto, or any conference report thereon if—

(I) the enactment of such joint resolution as reported;

(II) the adoption and enactment of such amendment; or

(III) the enactment of such joint resolution in the form recommended in such conference report;

would cause the amount of the deficit for such fiscal year to exceed the maximum deficit amount for such fiscal year.

(iii) DEFINITION.—For purposes of clause (i), the term "day" shall mean any calendar day on which either House of the Congress is in session.

(B) PROCEDURES.—

(i) IN GENERAL.—The provisions of section 305 of the Congressional Budget Act of 1974 for the consideration of concurrent resolutions on the budget and conference reports thereon shall also apply to consideration of joint resolutions reported under this paragraph and conference reports thereon.

(ii) LIMITATION ON AMENDMENTS.—Section 310(c) of such Act (as added by subsection (b)(4)(B) of this section) shall apply to joint resolutions reported under this paragraph.

(4) DEFINITIONS.—For purposes of this subsection:

(A) The term "automatic spending increase" shall include all Federal programs indexed directly or indirectly, whether appropriated or contained in current law. This shall include entitlements and other payments to individuals, open-ended programs and grants, and other similar programs, and shall not include increases in Government expenditures due to changes in program participation rates. Such term shall not include any increase in benefits payable under the old-age, survivors, and disability insurance program established under title II of the Social Security Act.

(B) The term "budget outlays" has the meaning given to such term in section 3(1) of the Congressional Budget and Impoundment Control Act of 1974.

(C) The term "concurrent resolution on the budget" has the meaning given to such term in section 3(4) of the Congressional Budget and Impoundment Control Act of 1974.

(D) The term "deficit" has the meaning given to such term in section 3(6) of the Congressional Budget and Impoundment Control Act of 1974.

(E) The term "maximum deficit amount" has the meaning given to such term in section 3(7) of the Congressional Budget and Impoundment Control Act of 1974.

(F) The term "real economic growth" means, with respect to a fiscal year, the nominal growth in the production of goods and services during such fiscal year, adjusted for inflation.

(G) The term "relatively controllable expenditures" means budget outlays that are classified as relatively controllable outlays in Office of Management and Budget, *Controllability of Budget Outlays*, Report No. BPS07014 (August 27, 1985).

(H) The amount by which the deficit for a fiscal year exceeds the maximum deficit amount for such fiscal year shall be treated as "statistically significant" if the amount of such excess is greater than 5 percent of such maximum deficit amount. For purposes of the fiscal year beginning October 1, 1985, the preceding sentence shall be applied by substituting "7" for "5".

(5) CONFORMING CHANGES.—

(A) RULES OF THE HOUSE OF REPRESENTATIVES.—

(i) Clause 1.(e)(3) of rule X of the Rules of the House of Representatives is amended—

(I) by striking out "and" at the end of subdivision (C);

(II) by redesignating subdivision (D) as subdivision (E); and

(III) by inserting after subdivision (C) the following new subdivision:

"(D) to report joint resolutions with respect to Presidential orders issued under subsection (d)(3) of the Balanced Budget and Emergency Deficit Control Act of 1985, and to take such other actions as may be required of it under that section; and".

(ii) Clause 4.(a) of rule XI of such Rules is amended by inserting after "Budget Act of 1974" the following: "and on joint resolutions under subsection (d)(3) of the Balanced Budget and Emergency Deficit Control Act of 1985".

(B) STANDING RULES OF THE SENATE.—Rule XXV(e)(2) of the Standing Rules of the Senate is amended—

(i) by striking out "and" at the end of subdivision (C);

(ii) by redesignating subdivision (D) as subdivision (E); and

(iii) by inserting after subdivision (C) the following new subdivision:

"(D) to report joint resolutions with respect to Presidential orders issued under subsection (d)(3) of the Balanced Budget and Emergency Deficit Control Act of 1985, and to take such other actions as may be required of it under that section; and".

(e) BUDGETARY TREATMENT OF SOCIAL SECURITY TRUST FUNDS.—

(1) FISCAL YEARS 1986 THROUGH 1992.—

(A) IN GENERAL.—Section 710 of the Social Security Act (as added by paragraph (1) of subsection (a) of section 346 of the Social Security Amendments of 1983) is amended—

(i) by striking out all beginning with "the" the first place it appears down through "Disability Insurance Trust Fund, the" and inserting in lieu thereof "The";

(ii) by striking out "sections 1401, 3101, and 3111" and inserting in lieu thereof "1401(b), 3101(b), and 3111(b)";

(iii) by redesignating all after the section designation as subsection (b);

(iv) by inserting after the section designation the following:

"(a) The receipts and disbursements of the Federal Old-Age, Survivors, and Disability Insurance Trust Fund, and the taxes imposed under sections 1401(a), 3101(a), and 3111(a) of the Internal Revenue Code of 1954, shall not be included in the totals of the budget of the United States Government as submitted by the President or of the congressional budget and shall be exempt from any general budget limitation imposed by statute on expenditures and net lending (budget outlays) of the United States Government."; and

(v) by adding at the end thereof the following new subsection:

"(c) No provision of law enacted after the date of the enactment of the Balanced Budget and Emergency Deficit Control Act of 1985 (other than a provision of an appropriation Act that appropriates funds authorized under the Social Security Act as in effect on the date of enactment of the Balanced Budget and Emergency Deficit Control Act of 1985) may provide for payments from the general fund of the Treasury to the Federal Old-Age, Survivors, and Disability Insurance Trust Fund, or for payments from such Trust Fund to the general fund of the Treasury.".

(B) APPLICATION.—The amendments made by subparagraph (A) shall apply with respect to fiscal years beginning after September 30, 1985, and ending before October 1, 1992.

(2) FISCAL YEAR 1993 AND THEREAFTER.—Section 710(a) of the Social Security Act (42 U.S.C. 911 note), as amended by section

346(b) of the Social Security Amendments of 1983 (to be effective with respect to fiscal years beginning after September 30, 1992) is amended by—

(A) inserting "(1)" after the subsection designation; and

(B) adding at the end thereof the following new paragraph:

"(2) No provision of law enacted after the date of the enactment of the Balanced Budget and Emergency Deficit Control Act of 1985 (other than a provision of an appropriation Act that appropriates funds authorized under the Social Security Act as in effect on the date of enactment of the Balanced Budget and Emergency Deficit Control Act of 1985) may provide for payments from the general fund of the Treasury to any Trust Fund specified in paragraph (1) or for payments from any such Trust Fund to the general fund of the Treasury.".

(f) WAIVERS AND AMENDMENTS.—Notwithstanding section 904(b) of the Congressional Budget and Impoundment Control Act of 1974, any other provision of law, or any rule or standing order of the Senate or the House of Representatives, no provision of this section, or of any amendment made by this section, may be waived, amended, or otherwise modified except by a joint resolution that—

(1) does so in specific terms, referring to such provision by its designation and declaring that such joint resolution waives, amends, or otherwise modifies such provision; and

(2) is addressed solely to that subject.

(g) Section 1106(a) of title 31, United States Code, is amended by striking out "July 16" and inserting in lieu thereof "September 16".

(h) Notwithstanding any other provision of law, it shall not be in order in the Senate or House of Representatives to consider any reconciliation bill or reconciliation resolution reported pursuant to a concurrent resolution on the budget agreed to under section 301, 304, or 310 of the Congressional Budget Act of 1974, or any amendment thereto, or conference report thereon that contains recommendations with respect to the Federal Old-Age Survivors Trust Fund or the Federal Disability Insurance Trust Fund, with respect to revenues attributable to the taxes imposed under sections 1401(a), 3101(a), and 3111(a) of the Internal Revenue Code of 1954, with respect to the old-age, survivors, and disability insurance program established under title II of this Act.

(i) APPLICATION.—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), this section and the amendments made by this section shall become effective on the date of the enactment of this section and shall apply with respect to fiscal years beginning after September 30, 1985, and before October 1, 1991.

(2) EXCEPTION.—The amendments made by subsections (b)(1), (b)(2)(A), (b)(3)(A), (b)(5)(A)(i), and (c) of this section shall apply with respect to fiscal years beginning after September 30, 1986, and before October 1, 1990.

(3) OASDI TRUST FUNDS.—The amendment made by subsection (e) shall apply as provided in such subsection.

Mr. DOLE. Mr. President, let me indicate for the RECORD cosponsors of both amendments. The principal sponsors are the distinguished Senator from Texas [Mr. GRAMM], the distinguished Senator from New Hampshire [Mr. RUDMAN], the distinguished Senator from South Carolina [Mr. HOLLINGS]; and in addition, the cosponsors are Senators ABDNOR, ANDREWS, BOREN, BOSCHWITZ, COCHRAN, COHEN, D'AMATO, DANFORTH, DENTON, DODD, EAST, EVANS, GARN, GOLDWATER, GORTON, GRASSLEY, HATCH, HECHT, HELMS, HUMPHREY, KASSEBAUM, KASTEN, KERRY, LAXALT, LUGAR, MATTINGLY, MCCLURE, MCCONNELL, MURKOWSKI, NICKLES, STEVENS, SYMMS, TRIBLE, WALLOP, WARNER, WILSON, ZORINSKY, and DIXON.

Mr. President, let me indicate we now have before us the Gramm-Rudman-Hollings amendment, and it would be my hope, although we have advised our colleagues there will be no votes after 3 p.m., this would be a good opportunity for the principals to explain the amendment, so it will be laid out in the RECORD.

Let me also indicate that there will be votes tomorrow. We have urged our colleagues to change their travel plans tomorrow, even those who may be leaving at 3 p.m. for St. Louis, to return to Washington.

It is my understanding there will be a Democratic caucus in the morning, so I would guess that votes could occur as early as 12 noon and we could have votes throughout tomorrow afternoon.

Again, the primary reason for this schedule is that according to the Treasury Secretary we must act on the debt ceiling extension by Monday. We could wait until Monday if we were passing a clean debt ceiling. We are not. We are probably going to amend the House debt ceiling bill maybe with one amendment, or maybe with more than one amendment. This means that the legislation will go back to the House of Representatives, which triggers a number of opportunities for the Speaker and others in the House of Representatives. They may go to conference. They may not go to conference. They may send us another debt ceiling without any amendment or another clean debt ceiling.

My point is that we cannot afford to wait until Monday or Tuesday to take final action in the Senate. We have already agreed to go out Thursday night to accommodate about a dozen Senators, and thus we are going to have a real problem of trying to complete action on the debt ceiling in addition to completing action of the reconciliation bill next week.

Following that, as I have indicated before, it would be my intention to go back to the Micronesia bill, with the textile amendment pending. At that time I assume the Senator from South Carolina would offer a cloture motion but hopefully during that period, while the petition is maturing, we might move on to the farm bill or some other legislation so that we can keep the calendar moving.

But I urge my colleagues that this would be a good opportunity between now and 6, 8, or 9 o'clock to debate the bill, make all the good arguments and any others you care to make between now and then.

I yield to the principal sponsor, Senator GRAMM.

The PRESIDING OFFICER (Mr. CHAFEE). The Senator from Texas is recognized.

Mr. GRAMM. Mr. President, I rise to speak on behalf of our amendment, the Balanced Budget and Emergency Deficit Control Act of 1985.

Mr. President, we have before us for consideration an extraordinary request that we raise the debt ceiling to over $2 trillion.

I am not going to burden this body by trying to talk about how much money that is because, the truth is, no one knows.

But what we do know is it is twice the debt ceiling that existed only 5 years ago. In bringing this debt ceiling proposal to the floor, we admit to the American people that the budget process has failed and that we have failed.

And that brings us, Mr. President, to the point of our amendment. We have to raise the debt ceiling. To fail to act on the debt ceiling, to fail to raise the debt ceiling to allow the Federal Government to borrow money to cover the deficit, would insure the default on commitments the Federal Government has made to its people and has made around the world.

The question here is not whether or not we are going to raise the debt ceiling. The question is under what kind of circumstances are we going to raise it?

I remember, Mr. President, vividly, 7 years ago I had just gotten to the other body and we voted on raising the debt ceiling. I offered an amendment at the time to tie the debt ceiling to the budget process and mandate a balanced budget by 1983, and it failed by two votes. I remember a person in the leadership getting up and saying:

Raising this debt ceiling is like a family paying its bills. Your spouse goes out and runs up big bills and you do not like it, but you don't have any alternative except to pay them.

And I got up and said:

You are not taking the analogy far enough; that in any responsible family, when people go out and spend beyond their means, they pay their bills. But they also sit down around the kitchen table, call in the credit cards, get out the butcher knife and cut up the credit cards and set out an agreement to deal with the problem.

Well, Mr. President, in my 7 years in the Congress we have raised the debt ceiling but we have never called in the credit cards. We have never set out a method to deal with the problem. We are going to do that here on this increase in the debt ceiling. The time has come for us to do something about the deficit problem. The American people, by a margin of four to one, say the deficit problem of the Federal

Government is the No. 1 problem in the country. In fact, that has been true, Mr. President, since 1982. But today, for the first time since 1982, the No. 1 issue in America is now the No. 1 issue on the floor of the U.S. Senate.

This proposal, Mr. President, is an emergency program to deal with an economic emergency. It is a 5-year program that sets out extraordinary conditions related to the Federal budget and related to our target to balance the budget.

Beginning with a deficit of $180 billion for fiscal year 1986, we set out, over a 5-year period, a $36-billion-a-year reduction in the maximum allowable deficit to achieve our goal of balancing the budget in the budget that we will adopt in 1990 for fiscal year 1991.

Now that is important, Mr. President, not only because in 5 years we are going to deliver on a balanced budget—something we all claim to be for but we very seldom vote for—but that will be the last outyear budget submitted by Ronald Reagan. And it will give him an opportunity, under this bill, after going through very difficult and soul-searching decisions, to submit a balanced budget before he leaves the White House.

These budget ceilings, beginning with $180 billion and going to zero in the budget that we will adopt in calendar year 1990, represent the maximum allowable deficit under this emergency bill.

During the 5 years in which this emergency bill is in effect, the President will be required to submit budgets that do not have deficits that exceed these limits. During the 5-year emergency period under which this bill is in effect, it will not be in order in either the Senate or the House for the Budget Committees to bring to the floor of those respective Chambers budgets that have deficits that exceed these maximum allowable amounts.

Under this emergency measure, during the next 5 years in budget deliberations, all amendments will be zero-sum amendments. So that, if somebody wants to add money to a mother's milk program, they have to kill off a hog somewhere to pay for it. If somebody wants to raise spending in one area or reduce savings in another, or cut somebody's taxes somewhere else in the budget resolution, they have to come up with a corresponding way to pay for those programs.

Once the budget is adopted, within 10 legislative days during which either House of Congress is in session, the budget authority provided by the budget adopted under this emergency plan will be allocated down to the 302(b) levels, which, in English, means it will be allocated down to the subcommittee level, and those levels of spending will be binding. It will not be in order in either the House or the Senate to bring to the floor any amendment, any spending bill, any entitlement bill that violates the 302(b) allocations. So that for the first time ever under a budget, under this emergency procedure, the budget will be binding down to the subcommittee level.

Finally, Mr. President, on October 1 of every year except the first year—in the first year we are setting it into place on November 1—the Director of the Office of Management and Budget and the Director of the Congressional Budget Office must submit jointly a report setting out a series of economic projections for the fiscal year beginning on that day. If that projection shows a nonnegative real GNP growth—in other words, if there is no recession—and if that projection shows a deficit which exceeds the maximum allowable deficit by a significant amount, which is 7 percent in the first year, 5 percent thereafter, then this joint report will report to the President and the Congress the amount of the overage and the amount by which automatic increases and discretionary programs should be sequestered across the board proportionately so as to preserve the priorities of the Congress in order to terminate the deficit.

After the receipt of this report, the President must, in 14 days or less, enforce the sequester order and issue the order sequestering spending, discretionary spending, and automatic increases across the board. That order shall go into effect immediately upon promulgation.

At that point, the President can send to the Congress a proposed alternative, and that proposal is highly privileged under the procedures of the Budget Act. Either Budget Committee can report an alternative, which is also highly privileged in procedure. But none of those alternatives will be in order on the floor unless they totally eliminate the deficit. If the Congress acts on an alternative, sends it to the President, and the President signs it, that alternative savings plan is substituted for the automatic sequester.

Let me make it clear what is included and what is not included. The Social Security trust fund, as a free-standing trust fund, self-contained, is excluded from the budget process, is moved off-budget by this amendment and is not counted as part of the sequester process. In getting the aggregate budget to calculate the deficit, the Social Security trust fund is part of that calculation. But for consideration of the budget, submission by the President, and action by the Budget Committee, it is removed from consideration.

In those areas of entitlements, where the Federal Government sets out the conditions under which an entitlement is paid, where the Federal Government sets out eligibility standards and, therefore, where the expenditure is gauged by the number of people who qualify and the amount they qualified for, only automatic increases built into the budget will be subject to sequester.

Fifty percent of the initial overage shall be counted against those automatic increases, and not just entitlement programs but any automatic increase across the board except for that in the Social Security trust fund. The proviso that is operative, however, is that the automatic increase cannot be reduced below zero. If the automatic increase reaches zero before the deficit is terminated, then the remainder is transferred to discretionary programs. Under the discretionary programs the President must sequester across-the-board budget authority so as to produce a proportionate reduction in outlay.

Let me make note of the fact, Mr. President, why this is significantly different than impoundment, and why it is significantly different than any line-item veto approach. We all know that the difficulties in those procedures is that Members of Congress are jealous of their powers, and they do not want to transfer power to the executive branch. The executive branch likewise does not want to pass power to the Congress. This bill does not create new powers. What this bill does is simply makes the President the instrument of the will of Congress in sequestering across the board proportionately so as to preserve the congressional intent in terms of priorities.

A second option exists, Mr. President, and that exists in cases where we have a recession. I think it is important to say very briefly why that is important. In 1981, in the beginning of August, we were looking at about a $60 billion deficit depending on how you figured it. When the midyear review came out and it was clear how deep the recession was, in a 2-week period the deficit jumped from $60 billion to $140 billion. Of course, we have had it ever since. So we set out here special recognition that a recession plays havoc with the budget, and we set up a special proviso, or set out a special proviso to deal with that possibility. If on November 1, the joint report of OMB and CBO—and if they differ on their numbers, we are required by law to take the midpoint of those two projections—if they project a negative real GNP growth, a recession, then the President has 30 days instead of 14 days to submit the sequester order, or to impose it. He can send to the Congress a range of proposed alternatives, including the partial, total, temporary, or permanent suspension of the requirements of this bill. This bill is also suspended automatically in years

when Congress has declared a state of war.

Mr. President, that in essence is the procedure. It is a simple procedure. There are those who have asked, is this the way you raise taxes? There are those who have asked is this the way you cut spending? Well, let me answer by saying this process does not prejudge the decisions made by Congress and by the President. This process, however, guarantees that action will be taken. It guarantees that we do not have the luxury of simply passing the buck to the American worker in terms of higher deficits. It means that we do not have the freedom to pass the burden of decisions not made onto the backs of our children and grandchildren. It means that a solution will occur. It does not dictate which solution. But it does dictate that the time has come for choosing, and that a choice will have to be made. I personally believe that with 5 years to balance the budget we can do the job, and the American people clearly believe that as well. With a $36 billion a year reduction in the deficit, at the same time that revenues are growing by over $7 billion a year, I believe that is doable by controlling spending. But the point is that if Congress and the President refuse to act, the across-the-board sequester will occur, and the spending will be reduced.

There are those who say should we submit defense to these across-the-board cuts? Should we submit portions of the farm bill? Should we submit automatic increases? Let me remind you, Mr. President, and remind my colleagues that this automatic process need not occur if we do our job. If we adopt responsible budgets with realistic assumptions, with real savings, then this automatic sequester need never occur. No one need suffer from an across-the-board reduction in a Federal benefit if Congress does its job. So I say to those who will drag every dead cat across the table they can think of in terms of some motherhood, apple-pie program that if you do not want an automatic across-the-board reduction in spending to occur, do your job, vote to control spending, and vote to deal with the deficit.

Finally, Mr. President, let me conclude, since I know my two distinguished coauthors—at least one is here—and there are others who will want to speak on this amendment as well, by saying that when we adopt the debt ceiling every year, normally we wait around until the last minute and people are wondering whether mama's check is going to bounce in Social Security, or whether some Government employee is going to be laid off. And all the people that benefit from the Federal Government breathe a sigh of relief. In fact, we have done something for them when we raise the debt ceiling.

Mr. President, we have an opportunity on this amendment to do something not just for the people that are riding in the wagon; not just for the people that are benefiting from the Federal Government. But we have an opportunity to do something for somebody that Government seldom does much for. We have an opportunity to do something for the people who do the work, who pay the taxes, who pull the wagon, who make America work because in adopting this amendment like that responsible family that makes up all of our States and congressional districts in the Congress, we pay our bills. We are honorable. We meet our commitments. But also like that responsible family, when we are having trouble making ends meet, when there is runaway spending, when we have prodigal husbands, wives or children, we call in the credit cards. We set in force a procedure to deal with the problem. This is the procedure to deal with this problem. I believe Mr. President, that while we are all prone to exaggeration, that this is probably the most significant vote that we have cast in Congress in a long time. Certainly in my 7 years, only the 1981 budget and tax cut programs would rival this in terms of importance. We made a mistake in 1981, and in the subsequent years. We committed to a budget process we did not live with. We let the deficit get out of control. We came in, set out a budget, we cut taxes, we provided incentives for people to work, save and invest, and they have done it—8 million new jobs. We brought the inflation rate to a standstill. We have rebuilt national defense, saved Social Security, and cut taxes. And America has prospered. But we have one unfulfilled promise—one thing we said we would do we have not done. It has pained me ever since as a person who cosponsored that first budget. We said we would balance the budget. If we adopt this amendment, and the President signs it into law, we will have set into place the strongest provisions that can be written in statute to force fulfillment of that promise made long ago that we balance the budget. And I am convinced, Mr. President, that by doing this we will have fufilled the commitments of the Reagan program, and will have made the progress that we have made in the last 5 years permanent.

So I urge my colleagues to adopt this amendment. I urge those on the Democratic side of the aisle to join with our Democratic cosponsors in making this a bipartisan approach to a problem—that it is a bipartisan problem.

I thank you, Mr. President.

Mr. RUDMAN. Will the Senator from Texas yield before giving up the floor?

Mr. GRAMM. Yes.

Mr. RUDMAN. I know the Senator from Texas has a great deal that he would like to say and ought to say on the bill. The Senator from South Carolina and I, who are cosponsors with the Senator from Texas, have a bit of a pressing problem in that we both are involved in marking up a bill before the Appropriations Committee this afternoon. And we would inquire of the Senator from Texas, who probably ought not to give up the floor at this time, whether he might like to yield to the Senator from South Carolina, who would like to address this issue, and then the Senator from New Hampshire, without giving up his right to be recognized. If the Senator from Texas would agree with that, I ask unanimous consent that the Senator from Texas might yield to the Senator from South Carolina and then the Senator from New Hampshire without giving up his right to the floor.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. GRAMM. I am so proud to yield to my distinguished colleague from South Carolina.

Mr. HOLLINGS. I thank the distinguished authors, our distinguished friend from Texas, Senator GRAMM, and our distinguished Senator from New Hampshire, Senator RUDMAN.

Mr. President, I am very pleased to join in on this particular initiative because it is time that we have truth in budgeting and truth in description in what we have done and realize the absolute necessity for a mechanism of this kind. In reality, we never have had truth in description or truth in reporting of the budget process. I readily acknowledge it is a very complicated story to tell.

In essence, what we are going to stop and what we are really going to cut with this particular mechanism is the fraud that we have all perpetrated on the American people and ourselves in the adoption of the budget.

Our distinguished friend from New York was listing just a little while ago the cuts in the FBI, the cuts in all the important programs that none of us want to cut.

But we have given deliberate consideration to all of these particular items. I happen to be the ranking member on Commerce, Justice, State, and Judiciary Appropriations Subcommittee and handle the FBI budget. So no one could be more concerned and more considerate, I think the RECORD will show, about the increases in the FBI budget that have gone through at the insistence of this particular Senator.

What we really need to do is to cut the fraud that we engaged in which occurred about 2 months ago.

At the time of adoption in the Senate of the budget resolution we

were all worn and weary and battle fatigue had set in. We began then the rhythmical rundown, getting ready for the August break.

At the time of that August break, I took the floor to outline exactly what we were doing, what the figures really were, and, as former chairman of the Budget Committee, why I was not voting for that budget.

I had been in the meetings all year long. I had been in the caucuses and conferences. So necessarily I feel loyalty to my comembers on the Budget Committee and deeply respect the hard work that they have performed, with the great leadership on both sides of the aisle, of Senator CHILES, the ranking member, and Senator DOMENICI, the chairman.

But I have to say that the budget they came up with didn't do enough about the deficit. I said at that particular time, "Look, this is not a $171.9 billion deficit." If you will look at the RECORD of August 1, I said, "It is nearly $192 billion to $200 billion."

Now, this afternoon as we present the Balanced Budget and Emergency Deficit Control Act—I do not believe we can get far with that title; I would prefer to call it truth in budgeting. We present the Truth in Budgeting Act because we want to accomplish something. This is not a political charade to find out who is who and what is what, to embarrass anyone, make members take a tough vote, or any of that stuff. We have been through those exercises.

This is a bipartisan move amongst colleagues to try to gain credibility in this particular body for truth in budgeting.

In going down the numbers, Senator GRAMM and I have had to make some adjustments.

First, rather than using the figure over the 5-year period in 1986 of $171.9 billion, we adjust it upward to $180 billion. We saw we were going above that, maybe substantially above it. It worried us because we were not trying to pass this particular mechanism to make traumatic cuts or require revenues and all the particular histrionics that you are going to hear as we discuss this thing. On the contrary, we want to make it realistically politically attainable.

Even after adjusting it to the $180 billion, counseling as we have with the Congressional Budget Office and the Office of Management and Budget, we have now made the adjustment for the first year rather than a 5-percent triggering figure over and above the stated deficit level of $171.9 billion, or $180 billion now—rather than the 5 percent, we put in 7 percent.

If the distinguished Senators will refer to that, they can take the 7 percent of the $180 billion and we are now working at a figure of $192.6 billion before the trigger is set on cutting the deficit. I said on August 1 it would be $192 billion. I have good authority standing here at this moment in truth in description and truth in budgeting from both the Office of Management and Budget and the Congressional Budget Office that it is going to be nearer that $192 billion figure.

What we wanted to do is to get right at the trigger level and perhaps not trigger it.

I would be the one who would say I still think perhaps we might trigger something as I relate it back to the various items. I will refer to the offshore drilling. We always embellish that some $4 billion and we are lucky to get $2 billion in offshore drilling. You know of the difficulties in California and down in the gulf, the problems we have there.

We always overdescribe the attainments of the Congress, such as Conrail. We were hoping to save $1.2 billion that we would get from Southern or somebody who wanted to buy it, or at least that amount.

We had a saving of $11.9 billion in agriculture. If we can get the bill in the next few moments on the floor we will be discussing $7.9 billion, so there is $4 billion as an outage right there.

We can get the rosy scenario where we were talking about an August 1 growth in GNP of 4 percent but now it is 1.67 percent.

So here in this period what we are trying to do is to lay our plan out on the table for our colleagues with no tricks, no pressures, no politics, as best we can keep them out of this. Everybody has priorities. Some will talk about education or what will happen to this or what will happen to that.

In my joining with Senator RUDMAN and Senator GRAMM, we have insisted that we be as impartial as we possibly could be and as unprejudiced as we possibly could be with respect to the executive branch and the Congress; with respect to the two bodies and the priorities that have been set therein, one priority being with respect to defense and the other with respect to the Social Security or social programs; with respect to the different parties, Republican and Democrats.

Democrats pride themselves in preserving Social Security and the Republicans pride themselves in not raising taxes. Our distinguished President says, "Make my day." So we are trying to be realistic about it. We are not mandating revenues and we are not mandating this or that or anything else. In that impartial, nonpartisan, bipartisan fashion, we come and say, "Here is the budget that the Congress has passed." Then, at the beginning of the fiscal year, October 1, in some 14 days—OMB and CBO have already given the particular figures on October 1. So by October 15, the President moves, if there is not a recession with his cuts.

The Washington word for that is "sequester." Our distinguished leader, Senator GRAMM, who has come off the campus, taught me that word. I have gone through and improved my vocabulary every year.

I got up here and got in an argument, I say to Senator LONG, and found I was not in an argument, I was in a dichotomy. I tried to find out what we were talking about when we talked about increasing spending, and they talk about "exacerbating." If I can ever find what "destabilizing" means—I never found anything stabilized to get destabilized. The most delightful word I have ever learned up here is "honorarium." That is a nice one, the best one I ever heard.

Now I learn from my distinguished friend, Senator GRAMM, on this particular score, that when something is "sequestered," that means the President cuts. He cuts in equal percentages, having adhered to the division of controllables and uncontrollables.

So, if you look at it realistically and we are trying to really set in a mechanism that we can all join in now, we said, "Heavens above, Congress has already voted to take Social Security off budget in 1991." That has been a solid vote. There are many still in the ranks who feel it is not a part of the budget and its difficulties only commenced back in 1968–69 when President Johnson took it and put it into the unified budget.

I think perhaps if we had a vote in the next 2 seconds, the majority of the Senate would vote that way. There is no use, in these important closing days of the national Congress, trying to get a debt limit, to find out who is where on Social Security. That would bring them from Missouri; they would turn plain around in midair if we bring that up, and they would come out on the floor and everybody would start talking about Social Security and miss the point.

So realistically, we said look at it this way: We are supposed to believe that Social Security has helped us in our analysis and the adoption of the 1986 budget. So with the outlays and expenditures, we tried to count it in—we are not trying to exacerbate, to increase that 1986 budget. We are trying to keep it the way Congress acted on it. When it comes around to that Presidential cutting or "sequestering," that is off limits, that ends that argument. There should not be any in there and some feel strongly about that. We have not arrived at that literally.

I happen to have been one who recommended back in January to freeze the COLA's. I have been trying to do that for 3 or 4 years. That is what brings me to this particular point. We have fought the good fight on a bipartisan basis since 1981 of presenting a freeze across the board and somehow,

it just does not get passed. The Budget Committee members were edging up to it at the Fourth of July break, but I am not going into that and reirritate some feelings with references to that. The fact is we did not do it.

I can identify with those on Social Security that perhaps everything should be included. But we have ended that argument with respect to this present action, because we are doing our dead-level best to pass something. We are not out here demonstrating this Thursday afternoon. We are trying to actually get this passed.

Along that line, we have been on the House side. There are some meetings going on over there right now. There is good, strong bipartisan support, I might say, in all of the House for going along with a mechanism of this kind. It may not be exactly what we may pass over here on the Senate side, but it will not be distorted in any particular fashion. I am really encouraged in that sense.

Mr. President, in the early days of the budget process, I would have liked to present my own version of a balanced budget along with Senator Muskie—because we as former Governors, in creating the budget process—thought we ought to have some teeth in it. As Governors we had developed a balanced budget approach before and it is a working thing that can be done. There is no use to look at the Federal Government and say it is an impossibility. If there is an impossibility part of the Government, it is the Congress, it is that the Congress does not want to do it.

So we want to entice and encourage and persuade as best we can all of our colleagues on both sides of the aisle—as I say, do it or work it out—and make sure that there is a mechanism instituted to balance the budget that we can live with.

On that point, Mr. President, there are some differences in thoughts that are going around, with others making suggestions about how to balance the budget. I have only recently seen the proposals made by some of my Democratic colleagues. I would take exception to the schedule for the deficit reduction and that is one reason I moved up Senator GRAMM's dates. That is when I got into the picture. We were talking about next year and we have to be realistic.

If we wait until January, when the President presents his budget along with an economic report, soon we will have Lincoln's Birthday recess, then we will finally gear up at the end of February, move into March and not get anything done until the end of April or May. But if you wait until then to "sequester" or cut, you will have already given COLA's in January, February, and perhaps March, and are not going to take them away. If, on the other hand, you want to go after defense and make some proportional cuts there, then, of course, the contracts will have already been let. I described how our distinguished Secretary of Defense, Cap Weinberger, over there, is staying up day and night, around the clock, to let all the contracts he can possibly get out before this catches him in November when we get it passed.

If you wait until next spring you will be in a position where all you can do with defense is cut operation, maintenance, readiness, or salaries, and we do not want to do that on either side of the aisle—conservative or liberal.

If we cut in defense, we should cut some new initiatives, some procurement contracts, hold them up, perhaps stretch them out, cut on some research, perhaps. But in any event, we want to make the cuts realistically obtainable and as prompt as possible.

But we did not play with real bullets this year. Nobody knew that we were going to do this or try this or even get this much support. There are some 40 Senators already here to begin with and I am confident we can get something of this kind passed in the Senate on a bipartisan basis. They did not think in these kinds of terms. No one listened at the particular time when we were trying to analyze what we had done, we were already $20 billion out. I have been telling my colleagues in the appropriations markups—we had beaten each other up. It is a good discipline and I follow Senators DOMENICI and CHILES on that, to at least stay within targets. But in reality, as we beat each other up about $50 million here or $50 million there, we are already $20 billion out. That appears on the face of this document.

On that basis, we have moved along now and picked up—I say to Senator GRAMM. I am going to ask unanimous consent that the distinguished Senator from Texas [Mr. BENTSEN] be added as a cosponsor.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. HOLLINGS. Senator GRAMM did not object?

Mr. GRAMM. I am delighted, Mr. President.

Mr. HOLLINGS. I thank the Senator very much.

Let me conclude by saying, one more time, that this is a realistic proposal. You find controllables—there are no tricks there—and uncontrollables. Those who have not worked within the budget system, and I am not speaking smugly as if that is some honor; I can tell my friends that politically, it is a negative. You can just say no, no, no to all your colleagues on all the programs. I have not picked up a vote being on the Budget Committee. But you learn and there are some descriptions for controllables and uncontrollables.

We cannot come in and change formative law, but we can take on the uncontrollable side of entitlements, whereby, at some $12.5 billion in COLA's or increases, $5.2 billion being off limits to the President—that is $5.2 billion of Social Security COLA's. You will have to go to the $7.3 billion there and then you would have to go to the other side, where the controllables are, and an equal proportional amount of defense and social programs and everything else.

And, yes, if you have gone along, you are going to have some cuts. We are trying, as I have indicated, to measure it right down the middle. It is very, very unfortunate, Mr. President, we never have listened and realized. This Congress already has approved a budget which mandates that when we meet again in the 2d session of the 99th Congress, in January, we spend some $80 billion to $85 billion more. It does this without revenues, in an election year we are back to cutting programs and everything else.

Now, that is the sort of political thing that I have tried to describe to my Democratic friends, that we have been playing a game and losing that game because we do not like to cut women, infants and children's feeding and school lunches and student loans for higher education, but those are the only places that can be cut under the game that is being played. We have already agreed, in the budget that we are talking about, not the debt limit now or the deficit, but for next year we have agreed to a 3-percent real growth or $25 billion in defense. We must pay the interest cost which is going up $30 billion. That is $55 billion. You have COLA's. If we did not cut it this year, we are not going to cut it in 1986, I can assume, so that is another $15 billion, $16 billion perhaps more if inflation goes up, CPI increases, so you are up there to $70 billion. And you look at health care costs. They run about $12 billion to $15 billion, so you already have committed on the floors of the Congress and in this administration—we have done it—$85 billion more next year and we are not going to have any revenues.

And then we will increase the deficit again. We offer this plan not just to reduce the $2 trillion debt. More important than that is the need to stop this onrushing, marathon kind of operation of rolling down the hill like a snowball, with the deficit and the debt getting bigger and bigger and bigger. If we just stopped it and did nothing more, we would have accomplished a tremendous act of progress on this whole charade that we have been playing. Why have we played this charade? Because we have committed in the adoption of the budget to spend some $85 billion more. At the same time we refused to talk about increasing reve-

nues. There is just no way in the world to stop this mammoth snowballing other than the particular mechanism that we have here before our colleagues. I can go into some of the things that I am confident will be asked about it, but the Senator from Texas has been most indulgent. Our distinguished Senator RUDMAN of New Hampshire has been working not just on this particular balanced budget and deficit reduction act or truth in budgeting, but he is also the chairman of the Commerce, Justice, State Appropriations Subcommittee, which is having its markup this afternoon, so I am limiting my remarks and saying only one word. We are going to have to mean what we say and say what we mean and not play that game at the end of the year of, "Oops, we miscalculated," and then start pointing fingers at each other. As has been stated, we are pulling in the credit cards, we are playing with real bullets, we are trying to be serious and institute a mechanism to bring back credibility to the national Government. We have fiscal responsibility at the State level. The States have been able to raise revenues, pay bills, and maintain their credit ratings in face of increased financial burdens in recent years. They have balanced their budgets, I can tell you, as a professional politician and public servant for over 35 years now. It can work at the Federal level as well. I never have succeeded passing any kind of budget freeze or anything else, but I have not given up. I am optimistic and I am proud to join Senator GRAMM and Senator RUDMAN and the many cosponsors in this particular initiative. I thank the distinguished Senator from Texas [Mr. GRAMM]. I am proud to work with him on this one and with Senator RUDMAN.

Mr. GRAMM. I yield to the Senator from New Hampshire.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. RUDMAN. Mr. President, I will be brief because, as my friend from South Carolina has pointed out, the two of us must go back to the appropriations markup to finish work on the Commerce-State-Justice Department appropriation bill which is now pending. But I want to depart from the remarks made by the Senator from South Carolina and the Senator from Texas in describing the process because I think that has been explained by them in exquisite detail and needs no further expounding by me. I want to make a couple of observations for my colleagues and for the RECORD about the Senator from Texas and the Senator from South Carolina. The Senator from Texas, although he has come to this body only this year, brings to the U.S. Senate an encyclopedic knowledge of the process, again by his 4-year service on the House Budget Committee during his 6 years in the other body. He brings a knowledge and a precision to this that, frankly, I find astounding. Working with him on this has been a pleasure because he understands this process as well as anyone in this city.

As for my friend from South Carolina, Senator HOLLINGS, who was at one time the chairman of the Senate Budget Committee, and who serves with me on the Appropriations Subcommittee on Commerce-State-Justice, not only does he bring a great deal of knowledge to this task but an understanding of the dynamics of this body, and I think probably more important than anything else he brings a certain humanity and a sense of humor to the process that probably make it more understandable and more bearable for all of us. Mr. President, I am particularly pleased to work with the Senator from Texas and the Senator from South Carolina on this issue.

I believe it was Victor Hugo who said something to the effect that there is an idea whose time has come. More than a month ago Senator GRAMM and I discussed this very briefly, at the time of the passage of the budget resolution. I voted against that budget resolution at the time saying—some thought harshly—that the resoluion was not better than nothing, as it has been propounded, but in fact was nothing. And as we come down the road now roughly 60 days later, we find this country facing deficits anywhere from $20 billion to $30 billion more than the U.S. Congress said they would be by solemn declaration no more than 60 days ago.

The fact is that we had a very narrow window of opportunity.

As I got back to New Hampshire during the month of August and traveled all over that State, what I found was that people were concerned about the deficit more than anything else. They were concerned about their future, the future of this economy, and their children's future.

All of a sudden, the press started reporting that when Congress came back, we would be asked to vote on increasing the national debt ceiling to $2 trillion. I believe that that figure, more than any other, has given us this window of opportunity. Frankly, as we stand on this floor this afternoon, whereas that window was open slightly a crack, I think we have blown the glass out of the window. I think there is a prairie fire in this town right now, sweeping through the Senate, and it is going to roll right over the House of Representatives; because the American people are not going to stand by and see the U.S. Congress go "Ho hum" and vote for a $2 trillion national debt limit unless there is some indication that we have the intestinal fortitude—known in my State as guts—to put some tough structural reform into the process, which is a failure.

Let me comment about what the national debt means to the people of my State, the people sitting in the galleries today, the people across the country, and these young pages sitting at the foot of the Presiding Officer's dais.

For every family of four in America today, this week, you are paying $34.50 a week in taxes which go to pay interest on the national debt. If that is not an astounding figure, I have not heard one; $34.50 for every family of four in America is allocated from their after-tax income—not even before-tax income—to pay interest on the debt.

So what are we supposed to do, when we come back here from our home States after the recess? Simply sit here and play coy and cute and let the leadership trample on us and beat on us and, after holding it up, realize that we have to do the responsible thing and, finally, vote again, as I have done four times in the past, to increase the national debt, and this time to $2 trillion plus?

To me, the answer was clearly "No," although, as a responsible Member of this body, I recognize that that must be done.

So the Senator from Texas, the Senator from South Carolina, and I decided that we would raise the ante, that there ought to be a price for raising the debt; and I will be pleased, strike that, I will be willing to vote for the national debt in the event that this Congress adopts this proposal or one like it.

I am fascinated that the other body is now working very vigorously to get its version. I am delighted to hear that my friends on the other side of the aisle—and I have many—who are as deeply concerned about this deficit as we are on this side of the aisle are working on a Democratic alternative. I think that is wonderful, and I say that in all sincerity; because it was Disraeli who said that in democracies, as long as nobody cares who gets the credit, a lot can get done. I do not particularly care who gets the credit. I do not care if it is called "Gramm-Hollings-Rudman" or anything else.

The important thing to the people of America is that when we leave here, be it tonight, tomorrow night, next Monday night, or 4 o'clock in the morning next Friday, when we pass the increase in the national debt, the people of America can wake up in the morning and watch the morning news and be told that the U.S. Congress finally put a stop to the irresponsibility of Congress and administrations, present and past, which have failed to confront the basic policy decisions facing America.

What does this proposal do? What it does is of the most simple essence. It forces policy decisions.

There are those in this body who believe that we should have more taxes. There are those in this body who believe that we should have less defense spending. There are others who think that we should have more social spending. None of those is addressed in this proposal.

The purpose of this proposal is not to take up a slant for or against any of those points of view. The purpose of this proposal is simply, and in a straightforward manner, to say that when Jefferson and Madison talked about checks and balances, they did not realize that there was a safety valve called the deficit and that the checks and balances could lead to gridlock; that Congress and the administration could fail in addressing basic policy and pour it all into the deficit, with phony assumptions and phony numbers and phony speeches.

At our press conference the other day, the junior Senator from Connecticut [Mr. DODD] coined a phrase that is the best I have heard in a long time. What he said was that people were practicing bumper sticker politics. That is what Congress has been practicing; and I must say, with some reluctance, that I think that is what the administration, to some extent, has been practicing—bumper sticker politics.

The Gramm-Hollings-Rudman proposal is only one thing: When all is said and done, we will stand on the floor in this body and the other body and we will vote. We will be forced to vote; because if we do not like what the President does in applying this formula, we must stand up and be counted. We cannot be engaged in a perpetual finger-pointing society, where we point our finger at the House, the House points its finger at the President, and the President points his finger back at Congress. That is what we have been doing for the last 4 years. That is precisely how dificit and debt has gone from $1 trillion to $2 trillion.

All we are asking our colleagues in this body and the other body is to give the original system of checks and balances a chance to work. Let us be responsible; let us be direct; let us be forthright. Whatever solutions come out of Congress next year, based on this proposal, only guarantee one thing, and that is that this never-ending, rising series of deficits plaguing this country and our future will end.

I again thank the Senator from South Carolina and the Senator from Texas, who truly have brought a breadth of experience to this effort, and I am glad to have had a small part in working with them.

Mr. GRAMM. Mr. President, it has been a great privilege for me to work with the distinguished Senator from New Hampshire and the distinguished Senator from South Carolina.

This is not a perfect proposal. May be somebody could come up with a better one. But it is a proposal that has been worked on for a long time. It has had input from a vast number of people with different perspectives on the problem and different backgrounds and different experiences. It is a proposal that I believe will work. It will not solve the problem, but it will make us make choices and do our job.

I recall that in my 6 years in the House, I used to read above the Speaker's chair a quotation that was carved in the wall by a Senator from New Hampshire—not our colleague WARREN RUDMAN, but another Senator from New Hampshire, Daniel Webster. That quotation concluded: "May we do something in our time worthy of being remembered."

I believe that on this amendment, on this debt ceiling, we have an opportunity to do something worthy of being remembered. I believe that we are going to do it in the U.S. Senate. I believe that we are going to adopt this comprehensive reform measure to set in place a program that will balance the budget and make our economic recovery sustainable.

I hope that when the House votes on this measure, they will read that Webster quotation and that they will do something worthy of being remembered as well; because if they do, we will have truly made history and we will truly have dealt with a problem that our Nation and our people cry out to be dealt with.

Mr. PACKWOOD. Mr. President, I ask unanimous consent that my name be added as a cosponsor of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PACKWOOD. Mr. President, we are on the debt ceiling bill, and just so that we might simply lay out what the debt ceiling bill is and why we are here to raise it, let me put it in illustrative and rather simple terms.

Assume that you have a country that has 12 people in it, and the Government promises to each of those 12 people that it will give them $100 a year—$1200. We are going to pay this out of the coffers of the Government. We raise taxes enough only to produce $1,000. So we have promised to pay $1,200, we have collected only enough to bring in $1,000, and if we are going to bring in the $1,200, we have to get the $200 someplace.

What we have been doing is borrowing it. The Government can only borrow money by authorization of Congress. So the President comes to Congress and he says to Congress, "Ladies and gentlemen of the Congress, please pass authority for the Government to borrow $200 so that we can have $1,000 of taxes and $200 of borrowed money to pay each of our citizens $100 a year." We approve it. The year goes by. We pay each of the citizens their $100. The year is gone.

Now we are into the next year. We still have 12 citizens. We are still promising to pay them $100 a year. We are still only collecting $1,000 total. So next year we are going to pay out $1,200 and have only $1,000 coming in. Again we are $200 short. Only now we have already borrowed $200 last year and all we are paying is the interest on it. We are not paying back any of the principal.

So when we get to this year the President says again to Congress, "Ladies and gentlemen of the Congress, last year you authorized me to borrow $200 to pay for the difference between what we are paying out and what we are collecting in taxes."

We are borrowing that and we are borrowing it all the time because we are not paying anything on the principal. Now by the laws that you passed we are going to continue this process of paying out $1,200 and taxing $1,000. So now we need to borrow another $200 on top of the $200 last year. And if we cannot borrow it because we are not going to tax it and we are not going to cut the spending or have not, then we cannot meet our obligations. So he asks us to increase the debt ceiling from $200 which was the ceiling last year to $400, again because we are paying nothing on the principal. So we pass a law that says the President can borrow $400.

And that is what we have been doing year after year after year, and now we are at a situation where we have borrowed up to the limit that the law allows, somewhat in excess of $1.8 trillion. And as we are going to have a deficit in the magnitude of $170 billion to $200 billion the President has come to us and said, "Ladies and gentlemen of the Congress, will you please raise the debt ceiling the slightest," in excess of $2 trillion so that we can borrow the money to pay the obligations that we said we are going to undertake?

And Congress really has no choice and Congress is as much at fault in this and is as much a partner as the President, because we have passed the laws authorizing the spending, we have even appropriated the money for the spending and now we either have to tax it, borrow it, or renege on the promises that we made about this spending, and there is an argument that can be made on occasion we should do that, but you must do one of the three.

So we are here before us today on the debate on the debt ceiling. On oc-

casion I am amused by some of my colleagues who will vote for most of the expenditures month in, month out, month in, month out, and vote against any taxes or enough taxes to pay for it, and when it comes time to vote for the debt ceiling to borrow the money make their one vote of the year in defense of fiscal conservatism by voting against the debt ceiling, having voted to spend all the money.

The time to stop spending is not when you have already promised to spend it all and appropriated it all and at the end of it go out to borrow it. The time to stop the spending is before you make the promise to spend it.

And that is what the amendment of the Senators from Texas, New Hampshire, and South Carolina is intended to do over the next 6 years, to gradually reduce the amount of spending we do so that our income equals our outgo and that we will not have to have any more increases in the debt ceiling to fund expenditures.

I am delighted to join with my colleague from Texas and others in supporting this amendment.

Every now and then I get from a constituent a question about are we going to make any effort to pay back the national debt, and my response is I hope so but I will be happy now just if we can keep even and not add to the national debt.

This amendment will do that.

Now, is this amendment in the academic community universally agreed to? Probably not. I have been in this body 17 years. I served on the Banking Committee for eight. I have been on the Finance Committee now for 12. And in that time I have heard all of the great economists at least by reputation in this country and many of the world's great economists testify. Many of them have Nobel Prizes in economics. Many of them are heads of our great university economic departments. They are nice people. But I have come to the conclusion that they no better know what is going to happen to the economy of this country than any other citizen of average competence with a reasonably intuitive feeling about spending and receiving.

Oh, there are economists—I have heard them testify—there are economists—and my good friend from Texas heard them also—who will assure us we can go on borrowing $250 billion a year, ad infinitum, that we can handle that deficit, and it makes no difference that the interest that we pay each year goes up and becomes an increasing portion of our national budget, you can do it forever, somewhat akin to the magic saltbox in the fairy tale of our youth that sat on the bottom of the sea and perpetually turned out salt and that is why the sea was salty. There is unfortunately no similar moneybox, not even as some of our colleagues think the Federal Reserve System where they would suggest that it simply print money and that will solve our problems. It will not.

There are as many good economists who agree with the amendment of the Senator from Texas, many more than those who disagree. But at the bottom I think what most of us are going to have to do is vote on what we think or feel will work or is right, or define it as you want.

The Senator from Texas is himself a distinguished academic. The limit of my formal economic academic training is limited to an introductory course at Willamette University, first year's economics. Beyond that, I have no formal training. But intuitively it seems to me that you cannot borrow forever, not the Senator from Texas, not me, not the United States, without one day your creditor finally saying "No more and, by the way, pay back a little on what you owe in addition to trying to borrow more."

It has happened to most of the civilized countries in the world and what has happened is that they have gone bankrupt from time to time. It happened to Russia after the revolution. It happened to Germany in the early 1920's. It happened to Japan after World War II. In essence, it happened to Britain under the Labor Government. They did not call it bankruptcy but for all practical purposes, that is what it was. They simply spent and spent and borrowed and borrowed and finally, the international community would loan them no more money and they went bankrupt and started all over again. If you do that, it takes not just a decade or a generation, but decades and decades and decades to reestablish your good name and credit.

Could that happen to the United States? I hope not, but I am not sure that in this sense God set us apart from all of the others and said, "You and you alone can borrow forever without repercussion."

As a matter of fact, most of the countries of the world today do not have a credit rating in the normal sense that you would define the term. Most of the countries of the world today are probably bankrupt in the actual sense, perhaps not in the technical sense, because their creditors have not yet foreclosed on them.

But if you mean most of the countries of the world borrow money in the sense that we mean one country would extend credit to another on a creditworthy basis, the answer is no. They get soft loans from international organizations or renegotiated loans from banks that they had previously loaned the money and now are in a hopeless condition and cannot renegotiate them and all they can do is extend them.

They get foreign aid from countries, including ours, which we give to them because we think it is better that we help them, even though they have no credit, than that they go through revolutions or turn against us.

But finally, even the largess of the United States cannot extend to everyone. And we have discovered that, finally, it cannot even extend always to ourselves.

So, Mr. President, I am pleased to join my colleague from Texas in his endeavor. After 17 years of listening to the world's great credit minds on one side or the other of this issue, many of them from around the world, I have come to the conclusion that this country has lived too long on borrowed ideas, borrowed money, and borrowed time. The time has come to stop.

The debate on the debt ceiling, per se, is today, tomorrow, and until we act, really, but is a minor part of this drama. A much more significant part is the amendment proposed by the Senator from Texas and his colleagues. And, while I am technically manager of this bill, as chairman of the Finance Committee, I feel more akin to a picador at the bullfight when the matador is the Senator from Texas.

I wish him good luck. He has done an extraordinary thing for this body in bringing before us this amendment. We will eventually, if it passes here, go to conference with the House. I assure him I will do everything in my power to make sure that it is adopted or, at a minimum, make sure that the House must vote on it so that everyone will understand who attempted to adopt this amendment and, if it is defeated, who defeated it.

I yield the floor.

(Mr. QUAYLE assumed the chair.)

Mr. GORTON. Mr. President, as the Senator from Oregon has so eloquently pointed out, we are now debating an increase in the debt limit of the United States. It has always seemed to me a curious vehicle on which to debate extraneous subject matter, though year after year it becomes just such a vehicle.

It seems to me to be curious because, of course, the debt limit or the national debt itself simply reflects the mathematical necessity to pay for decisions which have already been made by a Congress and by a national administration. And, as a consequence, it has always seemed to me curious, particularly, that those who have been unwilling to cast a difficult or controversial vote on either spending programs or taxing programs, nonetheless are willing to speak eloquently about the foolhardiness of increasing the debt limit.

This amendment, however, does not fall into the category of the extraneous subject matter often debated when a debt limit ceiling is before the Senate of the United States. It is total-

ly appropriate to consider a change in the system by which this body and the House of Representatives and the President of the United States made the decisions, as a part of this year's debate on the budget which inevitably led to the necessity to raise the debt limit.

Mark my words, Mr. President, and all those who will hear or read them, the Gramm-Rudman-Hollings amendment represents a dramatic, a radically new and different approach to the way in which the Congress of the United States deals with fiscal questions. In that sense, it is at least comparable in importance to the Budget Act of 1974 itself. It is a matter still of some surprise, to a Member who was not here in 1974, that it is only at that relatively recent date that the Congress first organized its debate over fiscal policy in such a fashion that all of the elements of that policy could be before the Congress at a single time. For the first time, beginning with the Budget Act of 1974, Members of this body and the House of Representatives were required to consider all spending programs and their impacts, all taxing and other revenue programs and their impacts, and the consequent deficit or, in theory, surplus—though no such surplus has ever had to be debated under the Budget Act of 1974—at one time and in the context of one single resolution.

The Budget Act of 1974, however, Mr. President, did not force action of any particular kind. While it enlightened, while it made it almost impossible for Members to ignore the consequences of their actions, the ultimate result of a debate over the budget under that act could be responsible action, it could be irresponsible action, or it could amount to no action at all.

This year, in 1985, there was perhaps more interest in the debate over the budget resolution than at any other time, with the possible exception of 1981. It took the Congress far longer than the Budget Act envisaged, from late in January until the first day of August, because many ideas designed to solve the problem of budget deficits were presented to the Members of this body and the other body and the people of the United States. Unfortunately, too many such ideas were presented for any to pass.

One of those proposals, rather late in the game, came to the conference committee on the budget at least under my name and the name of the distinguished ranking minority member of the Senate Budget Committee, the Senator from Florida, with the strong support of the Senator from South Carolina, who is one of the primary authors of this proposal. It took a different approach toward balancing the budget than I suspect the Senator from Texas would have taken or that would have been taken by a number of other Members on both sides of the aisle. It also, unfortunately, ran into opposition on the part of the President of the United States and the Speaker of the House of Representatives, and that combination was too much to overcome.

As a consequence, Mr. President, the conference committee and this body and the House accepted what we could get, accepted a budget resolution which, if enforced, would at least arrest the seemingly inevitable increase in each year's national deficit and begin perhaps modestly to reduce those deficits.

No person, however, seriously contends that the 1985 budget resolution can ever result in a balanced budget. Regrettably, no responsible person claims that it can have a dramatic and positive impact on strengthening our economy, on encouraging national growth, on providing hundreds of thousands of new jobs to Americans seeking those positions, on lowering the value of the dollar and thus on our terrible trade deficit. But it was, nonetheless, the best that could be done under the procedures set forth by the Budget Act of 1974.

Regrettably, Mr. President, to a certain extent, that agreement has already unraveled. We are unlikely to reach precisely the goals which it set, even for fiscal year 1986, much less for the years coming after 1986. Therein lies the genius of the Gramm-Rudman-Hollings proposal.

Its genius is not in the special detail, in the dates by which certain actions must be taken, or in the mechanics of the proposal. Its genius is in its theory. The amendment before us would accomplish this: change profoundly the consequences of a deadlock over budget priorities, and the consequences of inaction. To this point the consequences is deadlocked, the consequences of inaction, have been that budget deficits went on as they did before, growing for all practical purposes on automatic pilot, frustrating the people of the country, choking the economy, and frustrating even the members who vote for them.

Under Gramm-Rudman-Hollings, if the Members of the Congress of the United States cannot reach their goals, cannot reach the goals of that amendment which would result in a balanced budget by fiscal year 1990, through a course of creative compromise, then the amendment's formula will do it for us. That is to say, whereas under the present system the consequences of inaction or deadlock are a continuation of present policy and a growth of deficits, after the passage of this amendment the consequences of inaction or of a deadlock will be that we will nonetheless proceed in the direction of a balanced budget and of a stronger economy.

It is perhaps a secondary benefit of this proposal that the formula contained in the amendment by which we will reach those goals is not one which any Member would pick or would like for himself or for herself. Some of course will prefer that the entire burden of reaching a balanced budget be placed on the backs of many spending programs. Few who fall into that category, however, will feel that every spending program, domestic and foreign, defense and civilian, should be treated in a precisely equal fashion, because the needs of varying programs differ from one to another. But, in order to change the priorities set out in this amendment, they will be required to pass an alternative proposal which meets the same set of goals, and the alternative will have to be signed by the President of the United States. In other words, this amendment shifts the burden of proof, and that is the whole game. It is the most profound of all possible changes in budgeting priorities. We will reach goals which all of us share if this amendment passes this body, the House, and is signed by the President of the United States. I suspect we will reach it in a manner far different from what the mechanical formula contained in the amendment would require simply because the penalties for inaction will be so great, and the demands for a creative and sensitive response will be correspondingly great.

As a consequence, this is a magnificent idea. Its primary sponsors, the Senator from Texas, the Senator from New Hampshire and the Senator from South Carolina, are owed a great debt of gratitude, not only by every Member of this body but by the people of the United States. The finest way in which we can pay that debt, Mr. President, is to pass their proposal tomorrow by a huge majority here in the Senate, and hope that the House does likewise.

In setting out the details of their amendment, the sponsors have been particularly modest. Each of them has disclaimed the perfection of the proposal. Each has stated that he would be perfectly happy if an alternative could be discovered which would reach the same goals. In my view, Mr. President, they have been too modest. I doubt seriously that any Member of this body or of the House of Representatives will in fact come up with a better alternative. Each Member is, of course, invited to do so. In my view, this is a dramatic debate because this is a vitally important proposal. If it should pass, it would undoubtedly be the single most effective piece of legislation passed by the Congress in 1985.

We have been given a second chance, Mr. President.

We thought that we had a brief window of opportunity this summer in

which to reach our goals through the budget resolution for 1985. We failed to do so. Many felt that opportunity would not present itself again for some time. Thanks to the genius of these three members, that opportunity has presented itself promptly. It has presented itself in a form which is at least semideterminant in nature, and which will, I hope, become a permanent part of the budget process.

I commend the amendment to you, Mr. President, to the Members of this body, and to the balance of the Congress of the United States.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. SYMMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SYMMS addressed the Chair.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. SYMMS. Mr. President, as we gather here again for this annual ritual to so-call raise the debt ceiling, I would like to inquire with a couple of questions of the distinguished chairman. It is often said, and it was only last evening when I was in a meeting where people were talking about the fact that, well, there is no choice but to go ahead and raise this debt ceiling is the gist of the conversation. I say, Mr. President, that there is no choice but to go ahead because the Congress and the Government has already spent this money, and now they have to pay the bills. I made the observation to this gentleman that is not quite the case because what we are doing is establishing a line of credit for next year—starting fiscal year. Actually, it is for this year. We are starting in fiscal year 1986. I would like to ask the chairman what is the case here? We have not spent this $100 billion that is being borrowed at this point. Is that not correct?

Mr. PACKWOOD. My colleague from Idaho is right. We are not borrowing money to pay debts that we have already incurred. But what we have done is adopt a budget—as a matter of fact, it went into effect day before yesterday, and our fiscal year started October 1—in which we said we promise you, Mr. and Mrs. America, so many battleships, so much Social Security, so much education, and we will spend this over the next 12 months. That is the budget we have adopted. We voted for it. Congress voted for it. We have not spent the money. That money will be spent throughout the year—the 1st of October through the 30th of September.

If we spend money on the basis that we have said we are going to spend it in the budget resolution that we have adopted, we will spend about $180 to $200 billion more than we will take in. What we are going to borrow is that roughly $180 to $200 million to pay for the obligations which we have already voted to undertake.

Mr. SYMMS. I thank the chairman very much. I have made observations before that in the hypothetical case the President often asks for line item veto. I would say to the chairman, what would happen if the President would have his Attorney General give him a ruling that he as Chief Executive of this Government is not allowed to spend any money that he does not take in, he must then establish priorities where Congress has failed to do so, and just put them on a cash basis? It would not be $200 billion. It would be the first month's shortage like last month. In September, the Government actually ran a $3 billion surplus, I believe.

Mr. PACKWOOD. Actually, we are very close to being at that point right now. At of about next Monday, 3 or 4 days from now, we are out of cash. And the debt ceiling? We will have reached the amount of money we can borrow. We cannot borrow any more money under the existing debt ceiling. We will be out of cash. We will start to have more obligations coming due than we have cash coming in.

At that stage, the President has one of two choices, and I think he can probably constitutionally do either. We have never faced it, so no one knows.

Perhaps he might have the power to allocate, to say, "Instead of two battleships, we are going to have one, and instead of $500 million for education we are going to have $300 million."

That is technically impoundment. We had a battle in this Congress years ago regarding impoundment, as to whether the President could pick and choose things for which the money could be spent. The Congress said he was not able to do that.

But technically, it becomes a race to the bank to see who can cash their check first. It is first come, first served. If General Electric gets down there immediately for whatever money they should receive from the Government that month, and they happen to beat a little old lady with arthritis with a cane, if she does not get there faster, she would not be paid, but General Electric would get paid.

Where you have more cash coming in than going out, you can make it in that month. As the Senator is aware, the money does not come in in equal amounts each month. The months which are tax-collecting months are bigger months, and the quarterly payments months are bigger months. But over the year you would have about a $200 billion uneven flow on the average.

Mr. SYMMS. I thank the chairman very much. In other words, to accomplish the plan that I alluded to, and, in fact, have suggested to the President, he would have to put the country on notice in advance that he was going to do it, and what the Senator is saying is it has never been tested whether it is unconstitutional or not.

Mr. PACKWOOD. It has never been tested because we have always passed an increase in the debt ceiling, one, and, two, we have always been able to get people to buy the debt, to buy the bonds, to float the deficit.

Mr. SYMMS. I would envision that the President would have to announce the first priority of spending was going to be the notes, bonds and so on of the U.S. Government to keep our credit good. The chairman stated very clearly that we have to have credit. I would add that we live in a society where all debts are paid and we often think that these debts have to be paid. Either the person who lends the money pays the debt or the person who borrows the money pays the debt, but one way or the other the debt is paid.

What I would envision the President would do is he would first see that the interest is paid on all the notes and all the credit would be kept good. The little, old lady with arthritis would get her check and he would hold back for everyone else, like the States do.

The proposal that we are discussing here, the Gramm-Rudman-Hollings proposal, will, in effect, be a moderated version of that. Is that the case?

Mr. PACKWOOD. It is. There are some limitations on the Presidential sequestering power. It has to be somewhat proportionate. He cannot take it all out of defense or all out of education.

Mr. SYMMS. We will have some holdbacks that will start going into effect if we do not meet the targets?

Mr. PACKWOOD. That is correct. The President has a slight percentage of leeway, but basically the Senator is correct.

Mr. SYMMS. I share the views of the distinguished Senator from Washington who just spoke. This is very important legislation to pass. I wish there would be a way so that Congress would see fit to adopt another amendment in addition to it, after this has been resolved, that would actually take the budget that passed the House and the budget that passed the Senate and take the lowest number in each function and attach that to it so we can achieve some more savings in the first year, so we can get this started sooner.

It appears to me, and I have prepared that very amendment, as a matter of fact, that even though this

is a moderated version of that, eventually if we stuck to the blueprint of the Gramm proposal we would eventually go down the road to a balanced budget in 3 or 4 years out.

Mr. PACKWOOD. If we stick to the Gramm proposal as written, in 6 years you come to a balanced budget. You cut back the deficit about $32 billion a year for the requisite number of years until you reach the balance, which, as I recall, is about 6 years.

Mr. SYMMS. I thank the chairman very much.

I might say that in my travels, Mr. President, in my State, the farmers and timber producers have that as the first thing on their minds. When will Government get its Federal house in order so they can enjoy lower interest rates and be more competitive in the international marketplace, particularly in our region of the United States where we are so dependent on the Pacific market for our agricultural products. It is vital that we make some important moves.

I hope this will be enough. I wish it was more dramatic. I would urge my colleagues to support this proposal. Of course, this is just one Senator, but I have long said that I wish the President would take the other course. I personally believe that if the President of the United States took the initiative and put the Federal Government on a cash basis, he would have the overwhelming support of the American people. Inside the beltway he might not have the support, but outside the beltway he would have enormous support.

In my town meetings, people have constantly said that we ought to hold back as they have had to do. Those stories are all over the country about people who have had freezes in wages, freezes in salaries, and so forth.

I certainly laud the Senator from Texas, the Senator from New Hampshire, and others who have joined in this effort. I am happy to lend them my support because I believe it is so important. There is nothing that we can do as Members of this Congress which is more important than restraining the growth of spending in the Federal Government. No matter where the responsibility goes, there are 435 Members of the House and 100 Senators and 1 President. The way the Constitution is set up, those 536 people have to take the responsibility for this.

We are all elected. We represent different constituencies and different States but we have to all take the responsibility for getting the President's budget in line with revenues. This effort, though it may not be the full answer, is a step in the right direction. I laud the chairman for supporting it and I laud my colleagues who joined in the effort to bring this about. I hope we have an expeditious passage of this.

In another year or two it will certainly force us to establish priorities and make some hard decisions. It may not take a year or two to do it.

Mr. PACKWOOD. If this is adopted now, we will be making those hard choices very soon, which is all the better.

Mr. SYMMS. That is all the better.

On the point the Senator made about these debts that we incur that we agree must be paid, either by the person who lends the money or the one who borrows the money, we are reducing the risks of all the creditors of the United States and the risks of our constituents who are relying on Social Security checks and other means of support that comes through the Federal establishment a system that is going to see that the checks will always be good.

I think that is the best way we can serve our constituents. I urge passage of this amendment.

Mr. PACKWOOD. I thank the Senator for his support, Mr. President, and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeding to call the roll.

Mr. SYMMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SYMMS. Mr. President, I am not certain I asked my question clearly enough of the chairman of the Finance Committee.

The scenario I am trying to lay out is one in which President Reagan did not want the debt ceiling raised; if Congress chose to raise the debt ceiling anyway, he vetoes it; assuming we could then get 34 Senators to sustain the veto, it puts him in a situation where he would be on illegal grounds to borrow more money. So he would have to make a choice: Either do not pay all the bills or borrow money illegally.

If his Attorney General then ruled that, as Chief Executive Officer of the U.S. Government, he is not allowed to borrow money, that Congress did not approve the credit for him to borrow, then he would be in a position to say he was responsible to establish priorities of spending and put the Government on a cash basis overnight, which might mean furloughing workers, reducing the pay of Federal workers, freezing pay, possibly skewing COLAs on the high end of some of the pension programs. But he would certainly have to pay the interest on the debt.

That is the point I was making. Where would that put us constitutionally?

Mr. PACKWOOD. Let me take the question in two parts, Mr. President. I am not sure I know the answer to the latter part.

If we were to pass a debt ceiling bill and the President vetoes it and the veto is sustained, he has no legal power to borrow any money. That is the reason he is coming and asking for the increase now. If there is no increase in the debt ceiling, the Federal Government is no longer empowered to borrow any money.

If he tried to do it, my hunch is we could go to court and get a mandamus order to stop him, but I think it is a moot point. I will wager if we did not increase the debt ceiling or increased it and the President vetoed it and it was sustained, no money would be lent. It would be a very risky situation.

So let us assume the answer to the first part is he cannot borrow any money, he does not try, all of a sudden we are on a cash basis. I do not know if, under the present law, he has the legal authority to decide, himself, what to pay, what not to pay. He has to apportion it equally with the exception of contractual obligations of the United States, like the debt, which I assume he would have to pay or we could be sued on. Whether he has the power to apportion it as he chooses or has to pay it equally, reducing it equally, I do not know.

Mr. SYMMS. Mr. President, having spent the month of August in Idaho and having had a series of meetings and hearings and so forth, I would wager he has a consensus of support of the American people to go ahead and get it over with and get it settled. There would be a big crisis, as viewed in the headlines, for 1 or 2 days, but once everybody learned that the credit was still good, that the bonds and bills were still good and the money was still good, then we would live within our means and work out of what we have. Then I would perceive that, after a week or two of this showdown, he could come in and ask to raise the debt ceiling $50 billion instead of $200 billion and Congress would make these holdbacks and then we could force the issue and get it over with and still put it off.

I praise the effort being made here, because half a loaf is better than no loaf, in this case. The less money we spend, as this Senator sees it, the better off the country is going to be in the long run, because we will have accrued that much less debt that we will have to answer to in one of three ways—raise taxes, print money, or try to borrow more. All of those are rather unpleasant choices.

Mr. PACKWOOD. Those are unpleasant choices. I would not envy the President if he were put in that position, but the Senator has correctly assessed what he would have to do if he had to do it.

Mr. SYMMS. I think a prudent position for the President would be to take a look at this. Of course, I am one who thinks I am going to support this effort, but it will not break my heart if they do not raise the debt ceiling. As far as I am concerned, let them figure out as all the millions of Americans are doing, what households are doing, forcing themselves not to use their credit cards any more and paying off their past debts. Most of us have had that personal experience.

Many, many businesses are in a crunch. In my State, the mining industry is severely curtailed. They have had pay reductions of the workers. I have talked to sawmill operators who have had to reduce the pay of workers to keep the sawmill operating. We talked to many farmers who literally are on a very stringent budget, credit limits imposed on them by their banks and so forth, where they simply had no extra cash to spend.

I simply think this is a step that is really needed and I think the effort that is being made here—I foresee this will get some holdbacks. When you talk about a $1 trillion budget, if you just get a little bit of a holdback, just a percentage of a holdback, on that much money, pretty soon it adds up to real savings.

That is what we hope to achieve by the passage of the amendment. Then I hope that Congress will be willing to not come back and try to override the decision once the pressure starts mounting from around the country to spend a little bit for this and to waive that. Already, there has been some chipping away or compromise made here, as I understand it. The authors have had to agree to set Social Security aside. I hope we could limit it to just that one issue and not set anything else aside and keep that whole budget. Because is we have everything in the budget, then we shared sacrifice of everybody participating in the savings makes it much less unpleasant for people if they know that every segment of the budget—the defense part, the social welfare sector, the agriculture part, the land management, the regulatory agencies—that every part of the budget comes under the same tent, it will be much easier to accomplish this.

Mr. President, I yield the floor.

Mr. ZORINSKY. Mr. President, the time has come to declare war on these runaway deficits. I can think of no better place to begin the battle than with the bill to raise the debt ceiling. The amendment we are offering provides a mechanism which simply forces Congress to live up to its responsibility to reduce the deficit. Our amendment mandates a steady reduction in the size of the deficit, with provisions to make across-the-board cuts whenever Congress' budget does not achieve sufficient savings. By 1990, the deficit will be eliminated.

The amendment says nothing about how we should achieve our deficit reductions. I personally believe that spending cuts, not tax increases, should be used. I will shortly introduce legislation to that end. Others, however, may feel some mix of taxes and spending cuts should be used. Still others may feel that taxes alone should be used to eliminate the deficit. This amendment forecloses none of these options. It allows for that issue to be settled during the budget debate. This amendment is about the ends, not the means, of our budget dilemma. And I feel everyone here supports the end of reducing the deficit.

Mr. President, as one of the original cosponsors to this amendment, I am pleased with the groundswell of support it is receiving. While we may have to pay the bills, the time has come to call in the credit cards. I believe that the amendment provides a framework for calling in those cards and I encourage all of my colleagues to give their support.

Mr. DOLE. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Mr. President, we have had good debate this afternoon on the pending amendment.

I will ask to have printed in the RECORD a third letter from the Secretary of the Treasury, James A. Baker III, in which he indicates that he wants to emphasize the need for final action—I underscore the words "final action"—by Congress, which means the House and the Senate, on the debt limit legislation no later than October 7, which is Monday.

"Final action," "Congress," and "Monday" would indicate that we are going to have a number of votes tomorrow. We do not have much choice.

He indicates that the cash balance of the Treasury is virtually exhausted. He says:

This means that, unless a debt limit is passed by the Congress and signed into law by the President on or before October 7, 1985 or we take unprecedented and costly measures such as using Federal Financing Bank borrowing authority, the United States could be in the position of defaulting on its obligations for the first time in history.

If the debt limit is not increased by October 7, the Government likely will be unable to meet all of its essential obligations when they fall due including social security checks, payroll checks, unemployment checks, defense contracts, and principal and interest on its securities. The full consequences of a default by the United States are impossible to predict and awesome to anticipate.

I suggest that it is imperative that we try to complete action on this bill tomorrow and go to conference on Monday and have some resolution on Monday before 5 p.m.

Therefore I indicate to my colleagues that we will attempt to complete action tomorrow. It is my hope that everyone can be here and that we can vote. We have had about 2½ hours of debate in favor of the proposal, presumably there may also be debate in opposition. Then I would hope we would be prepared to vote.

Mr. President, I ask unanimous consent to have the letter from Secretary of the Treasury Baker printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

THE SECRETARY OF THE TREASURY,
Washington, DC, October 3, 1985.

Hon. ROBERT DOLE,
Majority Leader, U.S. Senate, Washington, DC.

DEAR BOB: I am writing to emphasize the need for final action by the Congress on debt limit legislation no later than October 7.

As I indicated in my letter to you on October 1, current projections indicate that Treasury's cash balance will be virtually exhausted by October 7 and the situation will deteriorate sharply thereafter.

This means that, unless a debt limit is passed by the Congress and signed into law by the President on or before October 7, 1985 or we take unprecedented and costly measures such as using Federal Financing Bank borrowing authority, the United States could be in the position of defaulting on its obligations for the first time in history.

If the debt limit is not increased by October 7, the Government likely will be unable to meet all of its essential obligations when they fall due including social security checks, payroll checks, unemployment checks, defense contracts, and principal and interest on its securities. The full consequences of a default by the United States are impossible to predict and awesome to anticipate.

I urge the Congress to pass this legislation at the earliest possible date but under no circumstances later than October 7, 1985.

Sincerely,

JAMES A. BAKER III.

MESSAGES FROM THE HOUSE

ENROLLED BILL SIGNED

At 10:48 a.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 2475. An act to amend the Internal Revenue Code of 1954 to simplify the imputed interest rules of sections 1274 and 483, and for other purposes.

The enrolled bill was subsequently signed by the President pro tempore (Mr. THURMOND).

At 2 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House agrees to the amendment of the Senate to the joint resolution (H.J. Res. 393) to provide for the temporary extension of certain programs relating to housing and community development, and for other purposes.

The message also announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 3424. An act making appropriations for the Department of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 1985, and for other purposes.

MEASURES REFERRED

The following bill was read the first and second times by unanimous consent, and referred as indicated:

H.R. 3424. An act making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 1985, and for other purposes; to the Committee on Appropriations.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. HELMS, from the Committee on Agriculture, Nutrition, and Forestry, with an amendment in the nature of a substitute and an amendment to the title:

S. 744. A bill to amend the Agriculture and Food Act of 1981 to provide protection for agricultural purchasers of farm products (Rept. No. 99-147).

By Mr. DOMENICI, from the Committee on the Budget, without recommendation without amendment:

S. Res. 226. Resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 1264.

By Mr. THURMOND, from the Committee on the Judiciary, without amendment and with a preamble:

S.J. Res. 150. Joint resolution to designate the month of March 1986 as "National Hempholia Month".

S.J. Res. 174. Joint resolution to designate November 18, 1985, as "Eugene Ormandy Appreciation Day".

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. THURMOND, from the Committee on the Judiciary:

Alan H. Nevas, of Connecticut, to be United States District Judge for the District of Connecticut;

Paul N. Brown, of Texas, to be United States District Judge for the Eastern District of Texas;

Alan A. McDonald, of Washington, to be United States District Judge for the Eastern District of Washington;

William A. Maddox, of Nevada, to be United States Attorney for the District of Nevada for a term of four years; and

Roger Hilfiger, of Oklahoma, to be United States Attorney for the Eastern District of Oklahoma.

By Mr. LUGAR, from the Committee on Foreign Relations:

Treaty Doc. 98-5. Extension of the 1971 International Wheat Agreement (Exec. Rept. No. 99-3).

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. BINGAMAN:

S. 1732. A bill to amend the Internal Revenue Code of 1954 by increasing the Federal excise tax on cigarettes by 8 cents per pack to a permanent 24 cents per pack and by providing that 50 percent of the revenues from the additional tax be deposited in the Federal Hospital Insurance Trust Fund under the Social Security Act and 50 percent of such revenues be used for health promotion and disease prevention programs in the Department of Health and Human Services; to the Committee on Finance.

By Mr. CRANSTON (for himself, Mr. KERRY, Mr. MATSUNAGA, Mr. DECONCINI, and Mr. ROCKEFELLER):

S. 1733. A bill to extend, improve, and authorize additional appropriations for the Emergency Veterans' Job Training Act of 1983, and for other purposes; to the Committee on Veterans' Affairs.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. CRANSTON:

S. Con. Res. 75. A concurrent resolution to request the President to provide economic assistance to Mexico while enhancing the national security and energy preparedness of the United States by further filling the Strategic Petroleum Reserve with petroleum obtained from Mexico; to the Committee on Foreign Relations.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BINGAMAN:

S. 1732. A bill to amend the Internal Revenue Code of 1954 by increasing the Federal excise tax on cigarettes by 8 cents per pack to a permanent 24 cents per pack and by providing that 50 percent of the revenues from the additional tax be deposited in the Federal Hospital Insurance Trust Fund under the Social Security Act and 50 percent of such revenues be used for health promotion and disease prevention programs in the Department of Health and Human Services; to the Committee on Finance.

HOSPITAL INSURANCE TRUST FUND AND HEALTH PROMOTION REVENUE ACT

Mr. BINGAMAN. Mr. President, today I am introducing legislation to promote better health and help prevent disease in our Nation. In doing so, I am pleased to join with many of my distinguished colleagues, as well as with health educators, health professionals, and concerned citizens across the country, who recognize the health threat posed by cigarette smoking.

Americans are becoming increasingly aware of the importance of better health and its relationship to the prevention of disease. This new health consciousness serves both the individual and the national interest.

At the individual level, Mr. President, cigarette smoking will kill 350,000 Americans this year. This human toll from smoking can be prevented. Recently, Harvard University's Institute for the Study of Smoking Behavior and Policy concluded that an excise tax on cigarettes is perhaps the most effective available tool to deter smoking and to reduce smoking related cost to the Federal Government. If we increase this tax, the institute explains, cigarette consumption would drop dramatically, especially among young people. For example, a 16-cent tax increase would diminish the number of teenage smokers by 17 percent or 820,000 teens. As for those smokers aged 36 and older, 630,000 would quit if the excise tax were increased to 32 cents per pack.

In addition to the health consequences of smoking, the economic costs are enormous. The Office of Technology Assessment estimates that disease and lost productivity from smoking cost our economy an estimated $65 billion a year. That is $2.17 for each pack of cigarettes sold.

The legislation which I am introducing today will raise the excise tax on cigarettes from 16 cents per pack to 24 cents per pack. I believe that this increase will provide a significant step toward discouraging cigarette smoking in the United States.

I am, however, convinced that simply increasing the cost of cigarettes is not enough, Mr. President. We must take action to address both the causes and effects of cigarette smoking. Therefore, this bill earmarks half of the additional revenues raised by the increased excise tax for health promotion and disease prevention programs already existing in the Department of Health and Human Services. It earmarks the other half for the Hospital Insurance Trust Fund, which is part A of the Medicare Program.

By earmarking funds for health promotion and disease prevention programs we will be taking necessary action to reduce the number of Americans who begin or continue to smoke, and, more important, we will save lives.

By earmarking funds for Medicare, we will help shift some of the financial burden generated by smoking to smokers. This will help to defray some of the $13 billion in smoking-related

health care and medical costs paid by Medicare each year.

Mr. President, this is not a partisan issue. I commend my colleagues on both sides of the aisle who have worked to address this matter both on the floor and in committee, especially the distinguished Senator from New Jersey [Mr. BRADLEY], and the distinguished Senator from Rhode Island [Mr. CHAFEE]. I look forward to working with them and with all Senators on this important issue.

I ask unanimous consent that the text of the bill be inserted in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1732

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Hospital Insurance Trust Fund and Health Promotion Revenue Act of 1985".

SEC. 2. INCREASE IN TAX ON CIGARETTES.

(a) RATE OF TAX.—Subsection (b) of section 5701 of the Internal Revenue Code of 1954 (relating to rate of tax on cigarettes) is amended—

(1) by striking out "$8" in paragraph (1) and inserting in lieu thereof "$12"; and

(2) by striking out "$16.80" in paragraph (2) and inserting in lieu thereof "$25.20".

(b) FLOOR STOCKS.—

(1) IMPOSITION ON TAX.—On cigarettes manufactured in or imported into the United States which are removed before October 1, 1985, and held on such date for sale by any person, there shall be imposed the following taxes:

(A) SMALL CIGARETTES.—On cigarettes, weighing not more than 3 pounds per thousand, $12 per thousand;

(B) LARGE CIGARETTES.—On cigarettes, weighing more than 3 pounds per thousand, $25.20 per thousand; except that, if more than 6½ inches in length, they shall be taxable at the rate prescribed for cigarettes weighing not more than 3 pounds per thousand, counting each 2¾ inches, or fraction thereof, of the length of each as one cigarette.

(2) LIABILITY FOR TAX AND METHOD OF PAYMENT.—

(A) LIABILITY FOR TAX.—A person holding cigarettes on October 1, 1985, to which any tax imposed by paragraph (1) applies shall be liable for such tax.

(B) METHOD OF PAYMENT.—The tax imposed by paragraph (1) shall be treated as a tax imposed under section 5701 of the Internal Revenue Code of 1954 and shall be due and payable on October 18, 1985, in the same manner as the tax imposed under such section is payable with respect to cigarettes removed on October 1, 1985.

(3) CIGARETTE.—For purposes of this subsection, the term "cigarette" shall have the meaning given to such term by subsection (b) of section 5702 of the Internal Revenue Code of 1954.

(4) EXCEPTION FOR RETAILERS.—The taxes imposed by paragraph (1) shall not apply to cigarettes in retail stocks held on October 1, 1985, at the place where intended to be sold at retail.

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendment made by subsection (a) shall apply with respect to cigarettes removed after September 30, 1985.

(2) CONFORMING AMENDMENT.—Subsection (c) of section 283 of the Tax Equity and Fiscal Responsibility Act of 1982 is amended by striking out "and before October 1, 1985".

SEC. 3. TRANSFER OF 50 PERCENT OF ADDITIONAL REVENUES TO FEDERAL HOSPITAL INSURANCE TRUST FUND.

(a) IN GENERAL.—Subsection (a) of section 1817 of the Social Security Act is amended—

(1) by striking out "100 per centum of" in the matter preceding paragraph (1);

(2) by striking out "(1) the taxes" in paragraph (1) and inserting in lieu thereof "(1) 100 per centum of the taxes";

(3) by striking out "and" at the end of paragraph (1);

(4) by striking out "(2) the taxes" in paragraph (2) and inserting in lieu thereof "(2) 100 per centum of the taxes";

(5) by striking out the period at the end of paragraph (2) and inserting in lieu thereof a semicolon; and

(6) by adding at the end thereof the following new paragraphs:

"(3) 50 per centum of the taxes received in the Treasury under section 2(b) of the Hospital Insurance Trust Fund and Health Promotion Revenue Act of 1985; and

"(4) 25 per centum of the taxes received in the Treasury after September 30, 1985, under subsection (b) of section 5701 of the Internal Revenue Code of 1954.".

(b) EFFECTIVE DATE.—The amendments made by this section shall become effective on October 1, 1985.

SEC. 4. TRANSFER OF 50 PERCENT OF ADDITIONAL REVENUES TO HEALTH PROMOTION AND DISEASE PREVENTION TRUST FUND.

(a) IN GENERAL.—Subchapter A of chapter 98 of the Internal Revenue Code of 1954 (relating to Trust Fund Code) is amended by adding at the end thereof the following new section:

"SEC. 9505. HEALTH PROMOTION AND DISEASE PREVENTION TRUST FUND.

"(a) CREATION OF TRUST FUND.—There is established in the Treasury of the United States a trust fund to be known as the 'Health Promotion and Disease Prevention Trust Fund', consisting of such amounts as may be appropriated, credited, or transferred to the Health Promotion and Disease Prevention Trust Fund as provided in this section and section 9602(b) (relating to crediting of interest, etc.).

"(b) TRANSFERS TO HEALTH PROMOTION AND DISEASE PREVENTION TRUST FUND.—There are hereby appropriated to the Health Promotion and Disease Prevention Trust Fund amounts equivalent to the following:

"(1) CIGARETTE TAXES.—25 percent of the taxes received in the Treasury after September 30, 1985, under subsection (b) of section 5701.

"(2) FLOOR STOCK TAXES.—50 percent of taxes received in the Treasury under section 2(b) of the Hospital Insurance Trust Fund and Health Promotion Revenue Act of 1985.

"(c) EXPENDITURES FROM TRUST FUND.—There are hereby appropriated and made available amounts in the Health Promotion and Disease Prevention Trust Fund for payment to the Secretary of Health and Human Services to provide funds, in addition to other appropriations and in amounts determined at the discretion of the Secretary, for any health promotion or disease prevention program administered by the Department of Health and Human Services.".

(b) CLERICAL AMENDMENT.—The table of sections for such subchapter A is amended by adding at the end thereof the following new item:

"SEC. 9505. HEALTH PROMOTION AND DISEASE PREVENTION TRUST FUND.".

EFFECTIVE DATE.—The amendments made by this section shall take effect on November 15, 1985.

By Mr. CRANSTON (for himself, Mr. KERRY, Mr. MATSUNAGA, Mr. DECONCINI, and Mr. ROCKEFELLER):

S. 1733. A bill to extend, improve, and authorize additional appropriations for the Emergency Veterans' Job Training Act of 1983, and for other purposes; to the Committee on Veterans' Affairs.

VETERANS' JOB TRAINING AMENDMENTS

Mr. CRANSTON. Mr. President, I am today introducing, as the ranking minority member of the Committee on Veterans' Affairs, S. 1733, the proposed Veterans' Job Training Amendments of 1985. Joining with me in introducing this measure is the distinguished Senator from Massachusetts [Mr. KERRY], as well as three of my fellow members of the Veterans' Affairs Committee, the distinguished Senators from Hawaii [Mr. MATSUNAGA], Arizona [Mr. DECONCINI], and West Virginia [Mr. ROCKEFELLER]. The purpose of this measure is to extend, make improvements in, and authorize the appropriation of additional funds for the Emergency Veterans' Job Training Act of 1983 [EVJTA], Public Law 98-77.

As the original Senate author of Public Law 98-77—along with the distinguished former chairman of the committee [Mr. SIMPSON], and of the extension of the program enacted last year in Public Law 98-543, I am intensely interested in this job training program. Indeed, on July 30, I joined with the distinguished chairman of the committee [Mr. MURKOWSKI] in offering an amendment that was approved by the Senate in the veterans' health bill—S. 876—to extend the period of time that veterans have to enter training under this job training program. A provision derived from our amendment that would extend that period until July 1, 1986, was incorporated into S. 1671 and signed into law on Monday, September 30, as Public Law 99-108.

BACKGROUND

Mr. President, the EVJTA originally authorized the appropriation of $150 million for each of 2 fiscal years, 1984 and 1985. However, only $150 million was appropriated for fiscal year 1984—approximately $142 milion of which has been available for the implementation of the job training program itself. At the present time, about $16 million remains unobligated under the pro-

gram; however, as veterans discontinue or complete training, that amount will increase.

The program provides cash incentives to employers to hire and train certain long-term unemployed Vietnam-era and Korean conflict veterans. It has at the present time expired in one respect. The period during which veterans could apply for participation in an EVJTA job training position expired on February 28, 1985. However, as I noted, the period during which veterans who have been certified as eligible for the program may enter training, which had expired on September 1, 1985, has just been extended to July 1, 1986, by virtue of the enactment of S. 1671.

According to a recent evaluation of the EVJTA program—carried out under contract with and released by the Veterans' Administration—more than 27,000 veterans have enrolled in training under the program with more than two-thirds receiving training in structural work occupations, machine trades, and professional, technical, and managerial positions. Those who completed the program had an average hourly wage of $6.77. The completion rate for veterans who entered training under the program was estimated to be 44 percent and the direct cost of training per participant was estimated to be $3,000.

During the Senate's consideration of S. 876 of July 30, the distinguished Senator from Massachusetts [Mr. KERRY] raised the issue of further extending and expanding the EVJTA program, and the chairman and I expressed certain reservations about proceeding with extension legislation at that time. [CONGRESSIONAL RECORD, S10395, July 30, 1985, daily edition.] The result was an agreement which led to the committee's September 12 hearing regarding the program. Senator KERRY testified very movingly and persuasively. All testimony, except for that of the administration urged extension of the EVJTA program. After careful consideration of the issues raised at that hearing, I have concluded that more can and should be done under EVJTA but that certain program improvements are called for before we provide further funding.

Thus, the measure which I am introducing today would reopen the program for new applications by eligible veterans once new appropriations are made. It would also make a number of improvements in the program designed to overcome program weaknesses revealed by our hearings and the VA program evaluation—especially the high-veteran dropout rate—and to take into account employer's general satisfaction with the program.

PROVISIONS OF PROPOSED EVJTA AMENDMENTS

First, Mr. President, our proposal would authorize the appropriation of $53 million for fiscal year 1986—to remain available through fiscal year 1988—for the EVJTA program. This amount when added to the President's fiscal year 1986 budget estimate for fiscal year 1986 outlays for the program, $35 million, equals the amount estimated in that budget for fiscal year 1985 outlays under EVJTA, $88 million.

Second, our proposal would—effective on the date on which appropriations are made available to the VA for the program or March 1, 1986, whichever occurs later—provide an additional year for veterans to apply for participation in the program and an additional 18 months for veterans to enter into job training programs under the act.

One of the concerns I raised during the Senate's consideration of S. 876 and at the committee's hearings on September 12, was that a reopening of the program to new applicants would have the effect of causing those veterans already in the EVJTA pipeline who had not yet been placed in training—principally because they were more difficult to place—to be bypassed by VA and Department of Labor personnel involved with implementation of the program, including disabled veteran Outreach specialists and local veterans' employment representatives, and by employers who would focus on veterans who are easier to place and more job ready. As I previously noted, under current law, veterans were required to apply for participation in the EVJTA program by February 28, 1985, and, by virtue of the enactment of Public Law 99-108, have until July 1, 1986, to enter training. Setting the effective date of the reopening of the program at the latter of the date of the new appropriation or March 1, as our proposal would do, coupled with permitting entry into EVJTA training by veterans who have certifications of eligibility but who have not yet been placed, would enable the VA and the Department of Labor to direct their efforts to assisting those veterans who are likely to be those most in need of employment assistance—those who are not job-ready and who have hardcore unemployment difficulties.

Mr. President, it should be noted that those veterans who have been certified for the program, who are still unemployed, and who have not yet been placed in training under EVJTA are quite likely to have special problems in obtaining and retaining employment. Not surprisingly, the VA's evaluation of the program found that employers tended to select the most employable among the veterans certified for program participation. Thus, I believe strongly that the VA and the Department of Labor need to strengthen their efforts to assist veterans under EVJTA during the recently enacted extension and will need to explore ways to provide special types of assistance, particularly in the area of employment counseling to reduce the disturbingly high noncompletion rate. I intend very strongly to urge both agencies to do a better job in this area.

Indeed, just this morning, during a hearing of the Veterans' Affairs Committee I recommended to the VA's Chief Benefits Director, John Vogel, and he agreed that the VA send a letter to all certified veterans who had not yet been placed in training positions under EVJTA advising them that the act has been reopened and urging them, if they are still interested in the program, to contact the VA or the Department of Labor for assistance. Mr Vogel assured me that such an initiative would be undertaken within the next 30 days. VA officials have also indicated informally that they hope this notification can be accomplished in a much shorter timeframe, and I would urge them to take all possible steps to do so.

As well, since there is no limit on the time by which an employer must apply for participation in the program, I will also be urging both agencies to undertake an expanded employer outreach effort so that a maximum number of job opportunities for veterans will be provided. Section 15(a)(1)(B) of EVJTA requires the VA and the Labor Department jointly to provide for an outreach program to inform employers of the program and the advantages of participating in it.

Third, our bill proposes to respond to the unacceptably high-dropout rate for veterans placed in training positions by requiring the VA and the Labor Department—who share joint responsibility for implementation of the program—to provide two new support activities: First, counseling services designed to resolve difficulties encountered by veterans during EVJTA training, and, second, the assignment of a case manager to each veteran placed in an EVJTA training position and the maintenance by the case manager of periodic contact with the veteran in order to facilitate the successful completion of training.

In carrying out the first new activity, the VA and the Labor Department would be required to advise all veterans and employers participating in EVJTA of the availability of the counseling service and encourage them to request appropriate services whenever necessary. In addition, in order to offer additional assistance to veterans of the Vietnam era, the VA would be required to advise each veteran placed in training of the supportive services available through the VA—including through the VA's Vet Center Program—and through other appropriate agencies in the community.

In connection with the second activity, I want to point out that the case manager assigned to each veteran

need not be, in each case, a trained or professional counselor. Rather, our proposal would envision that the type of case manager assigned to an individual veteran would be based on the particular needs of that veteran. For example, a veteran with no apparent, serious complicating problem or record of job difficulties—other than protracted unemployment—could be assigned a VA veterans' benefits counselor as a case manager and throughout the training period that counselor would be required to maintain contact with the veteran and the employer by making telephone contact with the veteran and the employer on a regular basis to ensure that no unforeseen problems had developed. On the other hand, a veteran who is in need of extensive job-readiness assistance might be assigned a disabled veteran Outreach specialist [DVOP] as a case manager who would maintain much more extensive contact, including periodic personal meetings with the veteran during the training period. A Vietnam veteran with a history of serious readjustment problems could be assigned a counselor from a VA vet center as his or her case manager. Also, of course, if a case manager discovered that a veteran needed more counseling than that case manager could provide, referral could be made to a counselor with the skills and experience needed to help the veteran.

The bill generally would leave to the discretion of the VA and the Department of Labor the development of a mechanism for implementing this approach and for determining how their personnel resources may best be used. The VA has more than 1,030 veterans' benefits counselors, 425 vocational rehabilitation counselors and specialists, and 221 professional counselors and approximately 350 other counseling personnel at its 189 vet centers, and the Department of Labor has the resources of more than 3,300 DVOP's and local veterans' employment representatives that could be assigned responsibilities for implementing this requirement.

Fourth, Mr. President, in light of the finding in the above-mentioned study that most employers who had hired veterans through the EVJTA Program reported that they were pleased with the program and would have hired the veteran with or without the possibility of receiving a wage subsidy, our proposal would modify the basis on which the amount of the EVJTA subsidy is based.

Under current law, payments are limited to 50 percent of the starting wages paid to the veteran for the entire training period, up to a maximum of $10,000. Maximum training periods are 15 months in the case of service-connected disabled veterans and 9 months in the case of all other eligible veterans.

Under our legislation, effective with respect to veterans hired after the latter of the date on which new appropriations are available for the program or March 1, the payments to employers would be determined based on 50 percent of the starting wages paid to the veterans during the first 3 months of the training period and 30 percent of the actual wages paid during the fourth and any succeeding months of training. I believe this approach would be more desirable than current law in a number of respects. It would still provide an attractive, marketable incentive to employers but would recognize the fact that after 3 months on the job an employee is likely to be making contributions to the employer's production levels. Also, by providing that payments in the fourth and succeeding months are to be based on actual, as opposed to starting, wages, the employer would have more incentive to give a raise to a veteran trainee. Our approach would also stretch funds that are available under EVJTA to serve more veterans. Finally, since most participating employers surveyed have indicated general satisfaction with the program and many employers have become familiar with EVJTA, this somewhat lower incentive should not reduce employer participation appreciably.

IMPROVEMENTS IN OTHER VA BENEFIT PROGRAMS

In addition to these improvements in the EVJTA authority, our measure would also make improvements and modifications, on a trial basis of about 22 months, in two existing VA authorities designed to assist certain veterans in obtaining employment and training experience.

First, Mr. President, with respect to the VA's program of assistance for apprenticeship or other on-job training programs conducted under section 1787 of title 38, United States Code, our proposal would permit a veteran to elect to have GI bill benefits which would otherwise be paid directly to the veteran to be paid to the employer instead. Veterans currently eligible for chapter 34 GI bill assistance are those who generally entered the service prior to January 1, 1977, and who have been discharged from active duty for less than 10 years. Under chapter 34, a veteran in training receives a monthly training assistance allowance—in the case of a single veteran, $274 a month for the first 6-month period of training, $205 a month for the second 6-month period, $136 a month for the third period, and $68 a month for the fourth and succeeding periods. However, no payments may be made to the employer, and there, thus, is no financial incentive for the employer to participate in the program. Indeed, the employer is required—by section 1777(b)(1) of title 38—to pay the veteran wages equal to the wages of other similarly situated employees. By permitting the veteran to elect to have the wages paid to the employer, our legislation would provide a mechanism creating an employer incentive for hiring and training eligible veterans. Let me stress, again, that this would be purely voluntary with the veteran.

In addition, since employers now approved for EVJTA training are familiar with the program and how it operates, our proposal would provide that EVJTA-approved programs would be considered to meet the requirements for approval as VA on-job training programs under the Vietnam-era GI bill. Therefore, as long as their OJT programs are currently approved under EVJTA, employers would not be required to be approved a second time pursuant to the criteria established in section 1777 of title 38, United States Code, in order to participate in the GI bill program.

Second, with respect to the VA's program of vocational rehabilitation for service-connected disabled veterans under chapter 31 of title 38, the VA would be required—for the benefit of participants in that program who are eligible to have payments made to employers in their behalf, pursuant to section 1516(b) of title 38—to take all feasible steps, utilizing such section 1516(b) payments, to establish and encourage the development of training opportunities that are consistent with the provisions of EVJTA.

The VA's chapter 31 vocational rehabilitation program is designed to assist service-connected disabled veterans who have employment handicaps to become employable and to obtain and maintain suitable employment. Under the section 1516(b) authority, the Administrator may make payments to employers for providing on-job training to veterans who have been rehabilitated to the point of employability when such payments are necessary to obtain needed training or begin employment. Pursuant to this authority, the VA has established a special employer incentives program to facilitate the placement of veterans who are generally qualified for suitable employment but who lack work experience required by an employer or who are difficult to place due to their disabilities. Under this program, an employer who hires an eligible veteran in an approved training position may be reimbursed for the direct expenses of hiring the veteran, up to one-half of the wages paid to the veteran.

Under our bill, the Administrator would be required to utilize EVJTA-approved job training programs under this segment of the VA's vocational rehabilitation program and to ensure that, in the case of a veteran who is eligible for participation in both programs, maximum efforts are made, consistent with the veteran's best in-

terests, to utilize the title 38 authority. In this manner, the VA would be able to use a program with which employers are already familiar for the benefit of VA chapter 31 vocational rehabilitation trainees and to make maximum use of title 38 benefits in lieu of limited EVJTA funds. Additionally, since the terms and conditions for an employer's participation in a chapter 31 training program would be similar to the EVJTA program, employer involvement would be facilitated.

The provisions relating to the chapter 34 and chapter 31 programs would be in effect until the expiration of an 18-month period beginning on the later of the date on which funds are appropriated and made available for the EVJTA extension or March 1, 1986. This would provide a pilot program opportunity of about 22 months to evaluate the utility of these approaches. After about 18 months of operation, the VA Administrator would be directed to submit to the Veterans' Affairs Committees a report describing and evaluating the VA's use of these new chapters 34 and 31 related provisions.

SUMMARY

Mr. President, before closing, I want to take this opportunity to note the leadership and commitment of the distinguished Senator from Massachusetts [Mr. KERRY] in the development of this proposal. As I previously noted, he first raised this issue in July and has been a vital participant in developing this intitiative. His eloquent, heartfelt testimony before the committee on September 12 was a powerful factor leading to the introduction of this measure today. I am deeply indebted to him for his assistance and cooperation.

Mr. President, I intend to be working hard, along with Senators KERRY, MATSUNAGA, DECONCINI, ROCKEFELLER, and others, to secure enactment of this measure in the forthcoming weeks. I believe it proposes a responsible approach to a very real and continuing problem of unemployment difficulties among certain groups of veterans—particularly those who continue to suffer from long-term unemployment and readjustment difficulties. Although the vast majority of Vietnam-era veterans have good jobs and are steadily employed, there continue to be too many who need the sort of assistance that EVJTA can offer.

I urge my colleagues to review this measure carefully and to join with me in this effort.

Mr. President, I ask unanimous consent that a summary of the provisions of our proposal, followed by the text of the bill itself, be printed at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

"VETERANS' JOB TRAINING AMENDMENTS OF 1985"

SUMMARY OF PROVISIONS

A. The provisions of this measure, introduced by Senator Cranston, joined by Senators Kerry, Matsunaga, DeConcini, and Rockefeller, would amend the Emergency Veterans Job Training Act of 1983 (EVJTA) to:

1. Authorize the appropriation of $53 million for fiscal year 1986 (to remain available through fiscal year 1988) for EVJTA—an amount which, when added to the President's FY 1986 Budget estimate for fiscal year 1986 outlays for the program, equals the amount estimated in that budget for fiscal year 1985 outlays under EVJTA. (Section 2(c))

(Under current law, $150 million is authorized to be appropriated for each of fiscal years 1984 and 1985 (with appropriations to remain available through fiscal year 1987).)

2. Provide (effective on the date on which appropriations are made available to the Veterans' Administration for the program or March 1, 1986, whichever occurs later) an additional one-year period for veterans to apply for participation in the program and an additional 18-month period for veterans to enter into training programs under the Act. (Section 2(d))

(Under current law, veterans were required to apply for participation in the program by February 28, 1985, and to enter training prior to September 1, 1985. Provisions of S. 1671, recently approved by both the Senate and the House and pending approval by the President, would extend the latter date to July 1, 1985. Fixing the effective date of the reopening of the program as the date on which new appropriations are available to the VA or March 1, 1986, whichever occurs later, coupled with permitting veterans to enter EVJTA training who had certifications of eligibility prior to September 1, 1985, but who had not been placed in training, would enable the VA and the Department of Labor to assist those veterans who had previously established eligibility for EVJTA but who had not yet been served—presumably those who are not job-ready and who have hard-core unemployment difficulties.)

3. Require, effective on the date of enactment, the VA and the Department of Labor jointly to provide:

(A) A program of counseling services designed to resolve difficulties encountered by veterans during EVJTA training and to advise all veterans and employers of the availability of such services and encourage them to request services whenever appropriate.

(B) A program under which a case manager is assigned to each veteran placed in an EVJTA a training position through which periodic contact is maintained with the veteran so as to facilitate the veteran's successful completion of training. (Section 2(b))

4. Require, effective on the date of enactment, the VA to advise each veteran placed in a training program of the supportive services available through the VA (including through the VA's Vet Center program) and through other appropriate agencies in the community. (Section 2(b))

5. Provide that, with respect to payments made to employers on behalf of vetrans who enter training after the date on which appropriations are made available to the Veterans' Administration for the EVJTA program or March 1, 1986, whichever is the later, the amount of the payments will be based on—

(A) Fifty percent of the starting wages paid to the veterans during the first 3 months of the training period; and

(B) Thirty percent of the actual wages paid to the veteran during the remainder of the training. (Section 2(a))

(Under current law, payments are limited to 50 percent of the starting wages paid to the veteran for the entire training period, up to a maximum of $10,000. Maximum training periods are 15 months in the case of service-connected disabled veterans and 9 months in the case of all other eligible veterans.)

B. In addition, effective on the date of enactment and for the 18-month period in whic participants could enter training under these amendments, the proposed "Veterans' Job Training Amendments of 1985" would:

1. Permit veterans entering an apprenticeship or other on-job training program under the current chapter 34 Vietnam-era GI Bill (pursuant to the authority in section 1787 of title 38, United States Code) to elect to have benefits which would otherwise be paid to the veteran ($274/month for the first six-month period for a single veteran, $205/month for the second-six month period, $136 for the third six-month period, and $68/month for the four and succeeding six-month periods) to be paid to the employer instead. (Section 3 (b))

2. Provide that programs of training currently approved under EVJTA would be considered to meet the requirements for approval as VA on-job training programs for the purposes of receiving benefits under section 1787 of title 38, United States Code. (Section 3(a))

3. Require the Administrator of Veterans' Affairs to take all feasible steps—

(A) to establish and encourage the development of training opportunities for service-connected disabled veterans participating in the VA's vocational rehabilitation program (chapter 31 of title 38, United States Code) who are eligible for participation in a program under which payments are made to employers in their behalf (pursuant to section 1516(b) of title 38) that are consistent with the provisions of EVJTA;

(B) to utilize such EVJTA-approved job training programs under this segment of the VA's vocational rehabilitation program; and

(C) to ensure that, in the case of a veteran who is eligible for participation in both programs, maximum efforts are made, consistent with the veteran's best interests, to utilize the title 38 authority. (Section 3(c))

4. Require the Administrator to submit to the House and Senate Veterans' Affairs Committees a report on the implementation of these provisions in connection with the chapters 31 and 34 programs, together with recommendations for appropriate administrative or legislative action.

S. 1733

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Veterans' Job Training Amendments of 1985".

SEC. 2. (a) The second sentence of section 8(a)(1) of the Emergency Veterans' Job Training Act of 1983 (Public Law 98-77; 97 Stat. 445) is amended to read as follows: "Subject to section 5(c) and paragraph (2), the amount paid to an employer on behalf

of a veteran for a period of training under this Act shall be—

"(A) during the first three months of that period, 50 percent of the product of (i) the starting hourly rate of wages paid to the veteran by the employer (without regard to overtime or premium pay), and (ii) the number of hours worked by the veteran during those months; and

"(B) during the fourth and any subsequent month of that period, 30 percent of the product of (i) the actual hourly rate of wages paid to the veteran by the employer (without regard to overtime or premium pay), and (ii) the number of hours worked by the veteran during those months.".

(b) Section 14 of such Act is amended by inserting "(a)" before "The" and adding at the end the following new subsections:

"(b) The Administrator and the Secretary shall jointly provide for a program of counseling services designed to resolve difficulties that may be encountered by veterans during their training under this Act and shall advise all veterans and employers participating under this Act of the availability of such services and encourage them to request such services whenever appropriate.

"(c) The Administrator shall advise each veteran who enters a program of job training under this Act of the supportive services and resources available to such veteran through the Veterans' Administration, especially readjustment counseling services under section 612A of title 38, United States Code, and other appropriate agencies in the community.

"(d) The Administrator and the Secretary shall jointly provide for a program under which a case manager is assigned to each veteran participating in a program of job training under this Act and periodic (not less than monthly) contact is maintained with each such veteran for the purpose of avoiding unncessary termination of employment and facilitating the veteran's successful completion of such program.".

(c) Section 16 of such Act is amended—

(1) by inserting "and $53 million for fiscal year 1986" after "1985"; and

(2) by striking out "1987" and inserting in lieu thereof "1988".

(d) Section 17 of such Act is amended—

(1) by striking out "Assistance" and inserting in lieu thereof "(a) Except as provided in subsection (b), assistance"; and

(b) by adding at the end the following new subsection:

"(b) In the event that funds are appropriated under section 16 for fiscal year 1986, assistance may be paid to an employer under this Act—

"(1) on behalf of a veteran who initially applies for a program of job training under this Act during the one-year period beginning on (A) the date on which such funds appropriated under section 16 for fiscal year 1986 are made available by the Director of the Office of Management and Budget to the Veterans' Administration, or (B) March 1, 1986, whichever is the later; and

"(2) for any such program which begins during the eighteen-month period beginning on such date.".

(e)(1) Except as provided in paragraph (2), the amendments made by this section shall take effect on the date of the enactment of this section.

(2) The amendment made by subsection (a) shall apply with respect to payments made for programs of training under such Act that begin after (A) the date on which the funds are appropriated pursuant to section 16 of such Act for fiscal year 1986 and are made available by the Director of the Office of Management and Budget to the Veterans' Administration, or (B) March 1, 1986, whichever is the later.

SEC. 3. (a) Notwithstanding any other provision of law and except as provided in section 1777(c)(2) of title 38, United States Code, a program of job training currently approved under section 7 of the Emergency Veterans' Job Training Act of 1983 (Public Law 98-77; 97 Stat. 443, 445) shall be considered to meet all requirements established under such section 1777 for approval of a program of training on the job.

(b) Subject to subsection (c), notwithstanding any other provision of law, a veteran pursuing a program of apprenticeship or other on-job training pursuant to section 1787 of such title may elect, upon entering such a program, to have the monthly training assistance allowance which would otherwise be paid to such veteran under such section paid (under and subject to the same terms and conditions as are applicable to payments to employers under such Act) to the employer who is conducting such program.

(c)(1) In carrying out section 1516(b) of such title, the Administrator of Veterans' Affairs shall take all feasible steps to establish and encourage, for veterans who are eligible for the making of payments on their behalf under such section, the development of training opportunities through programs of job training consistent with the provisions of such Act so as to utilize programs of job training established by employers pursuant to such Act.

(2) In carrying out such Act, the Administrator shall take all feasible steps to ensure that, in the cases of veterans who are eligible for the making of payments on their behalf under both such Act and such section, the authority to make payments under such section is utilized to the maximum extent feasible and consistent with the veteran's best interests to make payments to employers on behalf of such veterans.

(d)(1) The provisions of this section shall take effect on the date of the enactment of this section and shall expire on the last day of the eighteen-month period beginning on the later of (A) the date on which funds are appropriated pursuant to section 16 of such Act for fiscal year 1986 and are made available by the Director of the Office of Management and Budget to the Veterans' Administration, or (B) March 1, 1986.

(2) Not later than four months prior to the expiration of such provisions, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the House and the Senate a report on the implementation of and the activities carried out under this section. Such report shall contain the Administrator's evaluation of such implementation and activities and such recommendations for administrative or legislative action as the Administrator considers appropriate.

● Mr. KERRY. Mr. President, today I am pleased to cosponsor the Veterans' Job Training Amendments Act of 1985, a bill introduced by Senator CRANSTON to extend and broaden the Emergency Veterans' Job Training Act of 1983.

Last April, on behalf of Senator PRESSLER and myself, I sponsored the Veterans' Career Development Training and Job Bank Act, S. 1033, a bill which has subsequently also been cosponsored by Senators HARKIN, KENNEDY, MATSUNAGA, GORE, DURENBERGER, RIEGLE, LEVIN, and ROCKEFELLER.

In that act, I sought to retain EVJTA's basic mechanism—the principle that the United States would provide matching funding for employers who hired out-of-work veterans and placed them in job training programs leading to long-term employment—and to broaden the scope of the program so that it better met the continuing needs of unemployed veterans.

Specifically, the Veterans Career Development Training and Job Bank Act would authorize $75 million for job training in fiscal year 1986, and $100 million for fiscal year 1987 and 1988, and broaden the program by redefining eligibility to include underemployed veterans, and by adding counseling services and a Federal job bank to improve job matching.

Since that bill was filed, the House passed legislation to extend EVJTA which extended the Emergency Veterans' Training Act of 1983 for 1 more year, allowed unemployed veterans to enroll in the program after 5 weeks, instead of the 15 weeks now required, and which authorized $75 million to extend the program through fiscal year 1986.

Following the House action, I prepared an amendment to the Veterans' health care bill that would have substantially followed the action of the House. After extended discussions with Senator CRANSTON and Senator MURKOWSKI, I agreed to withhold the amendment from floor action in order that the Committee on Veterans' Affairs hold a hearing in September on my bill, EVJTA, and job training programs for veterans in general.

That hearing took place on September 17, with the full participation and involvement of the principal veterans organizations, and detailed questioning by the distinguished chairman of the Committee on Veterans' Affairs, Senator MURKOWSKI.

During that hearing, Senator CRANSTON, the ranking Democrat on the committee, reaffirmed his strong commitment to the concept of EVJTA, and to improving the program if possible. Because EVJTA would ever have come into existence without the leadership of Senator CRANSTON, I was especially pleased that Senator CRANSTON had decided to seek not only an extension of EVJTA, but such improvements to the program as he and the staff of the committee could develop.

I am glad to say that this bill embodies the profound and continued commitment to veterans that has always been displayed by Senator CRANSTON, as well as great creativity and care for the fiscal realities all of us here must work under.

The Veterans' Job Training Act Amendments of 1985 would authorize

the appropriation of $53 million for fiscal year 1986 for EVJTA, provide the kind of counseling services which I suggested in S. 1033, and permit veterans entering on-job training programs under title 38 of the current Vietnam-era GI bill to elect paying the benefits to the employer under the mechanism of EVJTA.

It makes other changes in EVJTA, such as reducing the reimbursement paid to the employer from 50 percent of starting wages for the duration of training to 50 percent of starting wages for the first 3 months of training and 30 percent of actual wages for the remaining of the training period, which should make the program increasingly cost-effective.

As a package, the Cranston bill is enormously attractive, and a real step forward in the continuation of veterans' job training programs for those veterans who still need our help. For this reason, I am very happily a cosponsor of the bill, and enormously grateful to Senator CRANSTON for his work in putting it together and for his again taking on the leadership role in an area of vital importance to veterans, as he has so many times over his distinguished career.

I do have a continuing concern about one aspect of Senator CRANSTON's bill.

Specifically, the bill delays the ability of out-of-work veterans to become eligible under EVJTA until March 1, 1986, at the earliest.

It is my understanding that Senator CRANSTON decided to delay eligibility in an effort to be certain that the hardest to place veterans who are already eligible are placed first, before new veterans who may be easier to place may enter the program. Senator CRANSTON's continuing concern for the veterans who have had the hardest time entering the job market is well-placed. But I fear that in seeking to help these veterans, we will be ignoring the profound needs of many other veterans who have not been certified for eligibility, but who may well have been out of work as long as a year by the time that Senator CRANSTON's bill would permit them to become eligible for EVJTA.

Because I believe that period of delay for new eligibility is too long, I will continue to discuss alternatives to this aspect of the Veterans' Job Training Act Amendments of 1985, and look forward to continuing my discussions with Senator CRANSTON on this issue in the weeks to come.

In closing, let me also acknowledge the special leadership and commitment to EVJTA shown by Senator ROCKEFELLER, who as Governor of West Virginia made EVJTA work very effectively there.

Senator ROCKEFELLER clearly understands at a fundamental level that the private-public partnership mechanism of EVJTA represents one of the best approaches to Government in the 1980's, and his support for EVJTA both within and outside the Veterans' Committee has helped create a climate which should facilitate the passage of this much needed extension of EVJTA. ●

ADDITIONAL COSPONSORS

S. 925

At the request of Mr. HUMPHREY, the names of the Senator from Vermont [Mr. STAFFORD], the Senator from Arizona [Mr. GOLDWATER], the Senator from North Carolina [Mr. HELMS], the Senator from Virginia [Mr. TRIBLE], the Senator from New York [Mr. MOYNIHAN], the Senator from Illinois [Mr. SIMON], the Senator from Oklahoma [Mr. NICKLES], the Senator from South Dakota [Mr. ABDNOR], and the Senator from New Mexico [Mr. DOMENICI] were added as cosponsors of S. 925, a bill to deny most-favored-nation trading status to Afghanistan.

S. 942

At the request of Mr. DANFORTH, the name of the Senator from Ohio [Mr. GLENN] was added as a cosponsor of S. 942, a bill to promote expansion of international trade in telecommunications equipment and services, and for other purposes.

S. 1084

At the request of Mr. GOLDWATER, the name of the Senator from California [Mr. WILSON] was added as a cosponsor of S. 1084, a bill to authorize appropriations of funds for activities of the Corporation for Public Broadcasting, and for other purposes.

S. 1156

At the request of Mr. DENTON, the name of the Senator from Oklahoma [Mr. BOREN] was added as a cosponsor of S. 1156, a bill to amend chapter XIV of the Comprehensive Crime Control Act of 1984, relating to victims of crime, to provide funds to encourage States to implement protective reforms regarding the investigation and adjudication of child abuse cases which minimize the additional trauma to the child victim and improve the chances of successful criminal prosecution or legal action.

S. 1292

At the request of Mr. BAUCUS, the names of the Senator from South Carolina [Mr. HOLLINGS] and the Senator from Mississippi [Mr. COCHRAN] were added as cosponsors of S. 1292, a bill to amend title VII of the Tariff Act of 1930 in order to apply countervailing duties with respect to resource input subsidies.

S. 1356

At the request of Mr. HEINZ, the name of the Senator from Connecticut [Mr. DODD] was added as a cosponsor of S. 1356, a bill to give the Nation's performance in international trade appropriately greater importance in the formulation of Government policy, to modernize the remedies available to U.S. producers regarding unfair and injurious foreign trade practices, and for other purposes.

S. 1446

At the request of Mr. ANDREWS, the name of the Senator from Oklahoma [Mr. NICKLES] was added as a cosponsor of S. 1446, a bill to amend title 38, United States Code, to improve veterans' benefits for former prisoners of wars.

S. 1513

At the request of Mr. BAUCUS, the name of the Senator from Colorado [Mr. ARMSTRONG] was added as a cosponsor of S. 1513, a bill to amend the Internal Revenue Code of 1954 to allow monthly deposits of payroll taxes for employers with monthly payroll tax payments under $5,000, and for other purposes.

S. 1622

At the request of Mr. MELCHER, the name of the Senator from Arizona [Mr. GOLDWATER] was added as a cosponsor of S. 1622, a bill to promote the development of Native American Culture and Art.

S. 1647

At the request of Mr. LAUTENBERG, the name of the Senator from Pennsylvania [Mr. HEINZ] was added as a cosponsor of S. 1647, a bill to amend the Tariff Act of 1930 to enhance the protection of intellectual property rights.

S. 1660

At the request of Mr. DENTON, the names of the Senator from New Hampshire [Mr. HUMPHREY], the Senator from Maryland [Mr. MATHIAS], the Senator from South Dakota [Mr. PRESSLER], the Senator from Louisiana [Mr. JOHNSTON], the Senator from Florida [Mr. CHILES], the Senator from Alaska [Mr. STEVENS], and the Senator from Hawaii [Mr. MATSUNAGA] were added as cosponsors of S. 1660, a bill to grant a Federal Charter to the Confederate Memorial Association.

S. 1672

At the request of Mr. BINGAMAN, the name of the Senator from Rhode Island [Mr. CHAFEE] was added as a cosponsor of S. 1672, a bill to establish an Export Promotion and Information Center.

S. 1702

At the request of Mr. THURMOND, the names of the Senator from Mississippi [Mr. COCHRAN], the Senator from Missouri [Mr. DANFORTH], the Senator from Connecticut [Mr. DODD], the Senator from Utah [Mr. GARN], the Senator from Massachusetts [Mr. KERRY], the Senator from Virginia [Mr. TRIBLE], and the Senator from Virginia [Mr. WARNER] were added as cosponsors of S. 1702, a bill to amend the Congressional Budget and Im-

51-059 O-86-11 (Pt. 19)

poundment Control Act of 1974 to require a graduated reduction of the Federal budget deficit, to establish emergency procedures to avoid unanticipated deficits, and for other purposes.

SENATE JOINT RESOLUTION 145

At the request of Mr. DURENBERGER, the name of the Senator from Indiana [Mr. LUGAR] was added as a cosponsor of Senate Joint Resolution 145, a joint resolution designating November 1985 as "National Diabetes Month."

SENATE JOINT RESOLUTION 193

At the request of Mr. SYMMS, the names of the Senator from Indiana [Mr. LUGAR], the Senator from Idaho [Mr. MCCLURE], the Senator from Oklahoma [Mr. NICKLES], the Senator from Wyoming [Mr. WALLOP], the Senator from Wisconsin [Mr. KASTEN], the Senator from Georgia [Mr. MATTINGLY], the Senator from Indiana [Mr. QUAYLE], and the Senator from California [Mr. WILSON] were added as cosponsors of Senate Joint Resolution 193, a joint resolution to authorize the President to issue a proclamation designating the week beginning October 20, 1985, as "The Lessons of Grenada Week."

SENATE JOINT RESOLUTION 197

At the request of Mr. HECHT, the name of the Senator from Michigan [Mr. LEVIN] was added as cosponsor of Senate Joint Resolution 197, a joint resolution to designate the week of October 6, 1985 through October 13, 1985 as "National Housing Week."

SENATE JOINT RESOLUTION 199

At the request of Mr. MURKOWSKI, the names of the Senator from California [Mr. CRANSTON] and the Senator from Vermont [Mr. STAFFORD] were added as cosponsors of Senate Joint Resolution 199, a joint resolution to designate the month of November 1985 as "National Elks Veterans Rememberance Month."

SENATE JOINT RESOLUTION 202

At the request of Mr. HATCH, the names of the Senator from Oklahoma [Mr. NICKLES], the Senator from Nebraska [Mr. EXON], the Senator from Nebraska [Mr. ZORINSKY], the Senator from Oklahoma [Mr. BOREN], the Senator from Connecticut [Mr. DODD], and the Senator from New Jersey [Mr. BRADLEY] were added as cosponsors of Senate Joint Resolution 202, a joint resolution to designating November 1985 as "American Liver Foundation National Liver Awareness Month."

SENATE JOINT RESOLUTION 211

At the request of Mr. DURENBERGER, the names of the Senator from Rhode Island [Mr. CHAFEE] and the Senator from Vermont [Mr. LEAHY] were added as cosponsors of Senate Joint Resolution 211, a joint resolution to provide for the designation of the week of October 6, 1985, as "National Sudden Death Syndrome Awareness Week."

SENATE CONCURRENT RESOLUTION 68

At the request of Mr. DURENBERGER, the names of the Senator from Alaska [Mr. MURKOWSKI] and the Senator from Kansas [Mrs. KASSEBAUM] were added as cosponsors of Senate Concurrent Resolution 68, a concurrent resolution expressing support for Chile's national accord for the transition to full democracy.

SENATE RESOLUTION 233

At the request of Mr. PRESSLER, the names of the Senator from Michigan [Mr. LEVIN] and the Senator from Alaska [Mr. MURKOWSKI] were added as cosponsors of Senate Resolution 233, a resolution to express the sense of the Senate on the need to reject any tax reform proposal which would remove the tax-exempt status of private purpose State and local bond obligations.

SENATE CONCURRENT RESOLUTION 75—ECONOMIC ASSISTANCE TO MEXICO THROUGH PURCHASE OF OIL FOR THE STRATEGIC PETROLEUM RESERVE

Mr. CRANSTON submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 75

Whereas the people of Mexico are struggling valiantly to recover from recent devastating earthquakes that resulted in widespread tragedy;

Whereas recovery from this natural disaster will be a lengthy process that will have severe adverse effects on the Mexican economy that was having difficulty before such disaster;

Whereas the American people are responding, and desire to respond further, to this tragedy in meaningful ways that will promote the economic recovery of Mexico;

Whereas it is in the national security interest of the United States to fill the Strategic Petroleum Reserve;

Whereas it is in the long-term economic interest of the United States to fill the Strategic Petroleum Reserve while the world price of petroleum is low, as it is currently;

Whereas the United States can act in its own economic and national security interests and at the same time provide a needed boost to the economy of Mexico by purchasing petroleum from Mexico and using such petroleum to fill the Strategic Petroleum Reserve; and

Whereas there is an existing agreement with Mexico to purchase petroleum for the Reserve, the quantity of which could easily be increased; Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that the President should—

(1) purchase, by the earliest practicable date, petroleum from Mexico for the Strategic Petroleum Reserve by utilizing the total amount in the SPR Petroleum Account that is available for acquisition of petroleum products; and

(2) submit to the Congress a plan—

(A) to make available to Mexico an additional $1,500,000,000 in a loan that would be repaid, with interest, by Mexico with petroleum to be stored in the Strategic Petroleum Reserve; and

(B) to offset, in the Federal budget, the amount of the outlay of such loan by reducing expenditures.

Mr. CRANSTON. Mr. President, today I am pleased to submit a concurrent resolution expressing the sense of the Congress that this Nation stands willing to aid our neighbor and friend Mexico to overcome the devastation resulting from recent earthquakes in a way that will both be sensitive to the determination of the proud Mexican people to remain self-sufficient, and enhance our own national security and energy preparedness.

The world is witnessing that the monumental devastation caused by the earthquake is surpassed only by the great courage and strength of the Mexican people—a people absolutely determined to overcome this catastrophe.

As Mexico's neighbor and friend, we are in a position to share in their effort to regain their homes, rebuild their lives and restore the beauty of their magnificent capital city.

The United States can be a part of this effort in a mutually beneficial way.

My concurrent resolution calls on the administration to buy oil from Mexico for our strategic petroleum reserve [SPR] using funds already appropriated by Congress for petroleum acquisition in the SPR petroleum fund.

It also calls for a loan of $1.5 billion—at a negotiated rate of interest—to be paid back in oil which we will place into the SPR.

In light of both our desire to be helpful to Mexico and our need for an emergency energy supply, this resolution suggests a policy which can help us to achieve both goals simultaneously.

A very similar resolution, House Concurrent Resolution 202, has very recently been introduced into the other body by two distinguished California Members of the House of Representatives, BARBARA BOXER and GEORGE MILLER.

Mr. President, I urge my colleagues to join us in support of this concurrent resolution.

AMENDMENTS SUBMITTED

EXTENSION OF NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES ACT

STAFFORD AMENDMENT NO. 728

Mr. STAFFORD proposed an amendment to the bill (S. 1264) to amend the National Foundation on the Arts and Humanities Act of 1965, to extend the authorization of appro-

priations for that act, and for other purposes; as follows:

On page 9, beginning with line 5, strike out through line 10 on page 10.

On page 10, line 12, strike out "Sec. 6" and insert in lieu thereof "Sec. 5".

On page 10, line 18, strike out "Sec. 7" and insert in lieu thereof "Sec. 6".

On page 13, strike out lines 1 through 10.

On page 13, line 11, strike out "(c)" and insert in lieu thereof "(b)".

On page 14, line 6, strike out "(d)" and insert in lieu thereof "(c)".

On page 15, line 2, strike out "Sec. 8" and insert in lieu thereof "Sec. 7".

On page 15, line 8, strike out "Sec. 9" and insert in lieu thereof "Sec. 8".

On page 15, line 17, strike out "Sec. 10" and insert in lieu thereof "Sec. 9".

On page 16, line 9, strike out the comma.

On page 16, line 23, strike out "Sec. 11" and insert in lieu thereof "Sec. 10".

On page 18, between lines 20 and 21 insert the following:

EDUCATION PROGRAM FOR THE COMMEMORATION OF THE BICENTENNIAL OF THE CONSTITUTION OF THE UNITED STATES AND THE BILL OF RIGHTS

SEC. 11. (a) GENERAL AUTHORITY.—(1) The Commission on the Bicentennial of the United States Constitution shall, in accordance with the provisions of this section, carry out an education program for the commemoration of the bicentennial of the Constitution of the United States and the Bill of Rights.

(2) To commemorate the bicentennial anniversary of the Constitution of the United States and the Bill of Rights, the Commission—

(A) is authorized to make grants to local educational agencies, private elementary and secondary schools, private organizations, individuals, and State and local public agencies in the United States for the development of instructional materials and programs on the Constitution of the United States and the Bill of Rights which are designed for use by elementary or secondary school students; and

(B) shall implement an annual national bicentennial Constitution and Bill of Rights competition based upon the programs developed and used by elementary and secondary schools.

(3) In carrying out the program authorized by this section, the Chairman of the Commission shall have the same authority as is established in section 10 of the National Foundation of the Arts and the Humanities Act of 1965.

(b) DEFINITION.—For the purpose of this section, the term "Commission" means the Commission on the Bicentennial of the United States Constitution.

(c) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated $5,000,000 for each of the fiscal years 1987, 1988, 1989, 1990 and 1991 to carry out the provisions of this section.

(2) Amounts appropriated pursuant to paragraph (1) may be used for necessary administrative expenses, including staff.

POET LAUREATE CONSULTANT IN POETRY

SEC. 12. (a) RECOGNITION OF THE CONSULTANT IN POETRY.—The Congress recognizes that the Consultant in Poetry to the Library of Congress has for some time occupied a position of prominence in the literary life of the Nation, has spoken effectively for literary causes, and has occasionally performed duties and functions sometimes associated with the position of poet laureate in other nations and societies. Individuals are appointed to the position of Consultant in Poetry by the Librarian of Congress for one- or two-year terms solely on the basis of literary merit, and are compensated from endowment funds administered by the Library of Congress Trust Fund Board. The Congress further recognizes this position is equivalent to that of Poet Laureate of the United States.

(b) POET LAUREATE CONSULTANT IN POETRY ESTABLISHED.—(1) There is established in the Library of Congress the position of Poet Laureate Consultant in Poetry. The Poet Laureate Consultant in Poetry shall be appointed by the Librarian of Congress pursuant to the same procedures of appointment as established on the date of enactment of this section for the Consultant in Poetry to the Library of Congress.

(2) Each department and office of the Federal Government is encouraged to make use of the services of the Poet Laureate Consultant in Poetry for ceremonial and other occasions of celebration under such procedures as the Librarian of Congress shall approve designed to assure that participation under this paragraph does not impair the continuation of the work of the individual chosen to fill the position of Poet Laureate Consultant in Poetry.

(c) POETRY PROGRAM.—(1) The Chairman of the National Endowment for the Arts, with the advice of the National Council on the Arts, shall annually sponsor a program at which the Poet Laureate Consultant in Poetry will present a major work or the work of other distinguished poets.

(2) There are authorized to be appropriated to the National Endowment for the Arts $10,000 for the fiscal year 1987 and for each succeeding fiscal year ending prior to October 1, 1990, for the purpose of carrying out this subsection.

INCREASE IN PUBLIC DEBT LIMIT

GRAMM (AND OTHERS) AMENDMENT NO. 729

Mr. DOLE (for Mr. GRAMM, for himself, Mr. RUDMAN, Mr. HOLLINGS, Mr. ABDNOR, Mr. ANDREWS, Mr. BOREN, Mr. BOSCHWITZ, Mr. COCHRAN, Mr. COHEN, Mr. D'AMATO, Mr. DANFORTH, Mr. DENTON, Mr. DODD, Mr. EAST, Mr. EVANS, Mr. GARN, Mr. GOLDWATER, Mr. GORTON, Mr. GRASSLEY, Mr. HATCH, Mr. HECHT, Mr. HELMS, Mr. HUMPHREY, Mr. KASTEN, Mr. KERRY, Mr. LAXALT, Mr. LUGAR, Mr. MATTINGLY, Mr. MCCLURE, Mr. MCCONNELL, Mr. MURKOWSKI, Mr. NICKLES, Mr. STEVENS, Mr. SYMMS, Mr. TRIBLE, Mr. WALLOP, Mr. WARNER, Mr. WILSON, Mr. ZORINSKY, Mr. DIXON, Mr. BENTSEN, and Mr. PACKWOOD) proposed an amendment to the joint resolution (H.J. Res. 372) increasing the statutory limit on the public debt; as follows:

At the end of the bill insert the following:

SEC. ——. DEFICIT REDUCTION PROCEDURES.

(a) SHORT TITLE.—This section may be cited as the "Balanced Budget and Emergency Deficit Control Act of 1985".

GRAMM (AND OTHERS) AMENDMENT NO. 730

Mr. DOLE (for Mr. GRAMM, for himself, Mr. RUDMAN, Mr. HOLLINGS, Mr. ABDNOR, Mr. ANDREWS, Mr. BOREN, Mr. BOSCHWITZ, Mr. COCHRAN, Mr. COHEN, Mr. D'AMATO, Mr. DANFORTH, Mr. DENTON, Mr. DODD, Mr. EAST, Mr. EVANS, Mr. GARN, Mr. GOLDWATER, Mr. GORTON, Mr. GRASSLEY, Mr. HATCH, Mr. HECHT, Mr. HELMS, Mr. HUMPHREY, Mr. KASTEN, Mr. KERRY, Mr. LAXALT, Mr. LUGAR, Mr. MATTINGLY, Mr. MCCLURE, Mr. MCCONNELL, Mr. MURKOWSKI, Mr. NICKLES, Mr. STEVENS, Mr. SYMMS, Mr. TRIBLE, Mr. WALLOP, Mr. WARNER, Mr. WILSON, Mr. ZORINSKY, Mr. DIXON, Mr. BENTSEN, and Mr. PACKWOOD) proposed an amendment to amendment 729 proposed by Mr. DOLE (for Mr. GRAMM and others) to the joint resolution (H.J. Res. 372) increasing the statutory limit on the public debt; as follows:

At the end of the matter proposed to be inserted, insert the following:

(b) CONGRESSIONAL BUDGET.—

(1) ONE CONCURRENT RESOLUTION ON THE BUDGET REQUIRED ANNUALLY.—

(A) IN GENERAL.—Section 310 of the Congressional Budget Act of 1974 is amended—

(i) by striking out all beginning with "SEC. 310. (a)" through "necessary—" in the matter preceding paragraph (1) of subsection (a) and inserting in lieu thereof the following:

"SEC. 310. (a) IN GENERAL.—Any concurrent resolution on the budget considered under section 301 or section 304 for a fiscal year shall, to the extent necessary, specify—

"; and

(ii) by striking out subsection (b) and redesignating subsection (c) as subsection (b).

(B) CONFORMING CHANGES.—

(i) The table of contents in subsection (b) of section 1 of the Congressional Budget and Impoundment Control Act of 1974 is amended—

(I) by striking out "Adoption of first concurrent resolution" in the item relating to section 301 and inserting in lieu thereof "Annual adoption of concurrent resolution";

(II) by striking out "First concurrent resolution" in the item relating to section 303 and inserting in lieu thereof "Concurrent resolution"; and

(III) by striking out "Second required concurrent resolution and reconciliation" in the item relating to section 310 and inserting in lieu thereof "Reconciliation".

(ii) Paragraph (4) of section 3 of such Act is amended—

(I) by adding "and" after the semicolon at the end of subparagraph (A);

(II) by striking out subparagraph (B); and

(III) by striking out "(C) any other" and inserting in lieu thereof "(B) a".

(iii) Section 300 of the Congressional Budget Act of 1974 is amended—

(I) by striking out "first" in the item relating to April 15 and in the second item relating to May 15; and

(II) by striking out the items relating to September 15 and September 25.

(iv)(I) The heading of section 301 of the Congressional Budget Act of 1974 is amended to read as follows:

"ANNUAL ADOPTION OF CONCURRENT RESOLUTION".

(II) Section 301(a) of such Act is amended by striking out "the first concurrent resolution on the budget" in the first sentence and inserting in lieu thereof "a concurrent resolution on the budget".

(III) Section 301(b) of such Act is amended—

(aa) by striking out "first concurrent resolution on the budget" in the matter preceding paragraph (1) and inserting in lieu thereof "concurrent resolution on the budget referred to in subsection (a)"; and

(bb) in paragraph (1) by striking out all beginning with "the concurrent resolution" through "both" the second place it appears and inserting in lieu thereof "the Congress has completed action on any reconciliation bill or reconciliation resolution, or both, required by such concurrent resolution to be reported in accordance with section 310(b)".

(IV) Section 301(d) of such Act is amended by striking out "first" each place it appears.

(V) Section 301(e) of such Act is amended—

(aa) by striking out "set for" in paragraph (1) and inserting in lieu thereof "set forth"; and

(bb) by striking out "first concurrent resolution on the budget" each place it appears and inserting in lieu thereof "concurrent resolution on the budget referred to in subsection (a)".

(v) Section 302(c) of such Act is amended by striking out "or 310".

(vi)(I) The heading of section 303 of such Act is amended by striking out "FIRST".

(II) Section 303(a) of such Act is amended by striking out "first concurrent resolution on the budget" in the matter following paragraph (4) and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)".

(vii) Section 304 of such Act is amended—

(I) by striking out "first concurrent resolution on the budget" and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)"; and

(II) by striking out "pursuant to section 301".

(viii)(I) Section 305(a)(3) is amended by striking out "first concurrent resolution on the budget" and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)".

(II) Section 305(b) of such Act is amended—

(aa) in paragraph (1) by striking out ", except that" and all that follows through "15 hours"; and

(bb) in paragraph (3) by striking out "first concurrent resolution on the budget" and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)".

(ix) Section 308(a)(2)(A) of such Act is amended by striking out "first concurrent resolution on the budget" and inserting in lieu thereof "concurrent resolution on the budget referred to in section 301(a)".

(x) Paragraph (1) of section 309 of such Act is amended by striking out ", and other than the reconciliation bill for such year, if required to be reported under section 310(c)".

(xi) Section 310(f) of such Act is amended by striking out "subsection (a)" and inserting in lieu thereof "301(a)".

(xii) Section 311(a) of such Act is amended—

(I) by striking out "310(a)" the first place it appears and inserting in lieu thereof "301(a)"; and

(II) by striking out "310(c)" and inserting in lieu thereof "310(b)".

(xiii) Clause 1. of Rule XLIX of the Rules of the House of Representatives is amended by striking out ", 304, or 310" and inserting in lieu thereof "or 304".

(2) MAXIMUM DEFICIT AMOUNTS.—

(A) ANNUAL CONCURRENT RESOLUTION ON THE BUDGET.—

(i) POINT OF ORDER.—Section 301 of the Congressional Budget Act of 1974 is amended by redesignating subsections (c), (d), and (e) as subsections (d), (e), and (f), respectively, and inserting after subsection (b) the following new subsection:

"(c) MAXIMUM DEFICIT AMOUNT MAY NOT BE EXCEEDED—

"(1) Except as provided in paragraph (2), it shall not be in order in either the House of Representatives or the Senate to consider or adopt any concurrent resolution on the budget for a fiscal year under this section, or to consider or adopt any amendment to such a concurrent resolution, or to adopt a conference report on such a concurrent resolution, if the level of total budget outlays for such fiscal year that is set forth in such concurrent resolution or conference report (or that would result from the adoption of such amendment), exceeds the recommended level of Federal revenues for that year by an amount that is greater than the maximum deficit amount specified for such fiscal year in section 3(7).

"(2) Paragraph (1) of this subsection shall not apply to any fiscal year for which a declaration of war has been enacted.".

(ii) CONFORMING CHANGE.—Section 301(e) of such Act, as redesignated by clause (i) of this subparagraph, is amended by inserting "; and when so reported such concurrent resolution shall comply with the requirement described in paragraph (1) of subsection (c), unless such paragraph does not apply to such fiscal year by reason of paragraph (2) of such subsection" after "October 1 of such year" in the second sentence thereof.

(B) PERMISSIBLE REVISIONS OF CONCURRENT RESOLUTIONS ON THE BUDGET.—Section 304 of such Act is amended—

(i) by inserting "(a) IN GENERAL.—" after "SEC. 304."; and

(ii) by adding at the end thereof the following new subsection:

"(b) MAXIMUM DEFICIT AMOUNT MAY NOT BE EXCEEDED.—

"(1) Except as provided in paragraph (2), it shall not be in order in either the House of Representatives or the Senate to consider or adopt any concurrent resolution on the budget for a fiscal year under this section, or to consider or adopt any amendment to such a concurrent resolution, or to adopt a conference report on such a concurrent resolution, if the level of total budget outlays for such fiscal year that is set forth in such concurrent resolution or conference report (or that would result from the adoption of such amendment), exceeds the recommended level of Federal revenues for that year by an amount that is greater than the maximum deficit amount specified for such fiscal year in section 3(7).

"(2) Paragraph (1) of this subsection shall not apply to any fiscal year for which a declaration of war has been enacted.".

(C) DEFINITIONS.—Section 3 of the Congressional Budget and Impoundment Control Act of 1974 is amended by adding at the end thereof the following new paragraphs:

"(6) The term 'deficit' means, with respect to any fiscal year, the amount by which total budget outlays for such fiscal year exceed total revenues for such fiscal year. For purposes of this Act, and unless specifically superseded by a law enacted after the date of the enactment of the Balanced Budget and Emergency Deficit Control Act of 1985, the receipts of the Federal Old-Age, Survivors, and Disability Insurance Trust Fund for a fiscal year, and the taxes payable under sections 1401(a), 3101(a), and 3111(a) of the Internal Revenue Code of 1954 during such fiscal year, shall be included in total revenues for such fiscal year, and the disbursements of such Trust Fund for such fiscal year shall be included in total budget outlays for such fiscal year.

"(7) The term 'maximum deficit amount' means—

"(A) with respect to the fiscal year beginning October 1, 1985, $180,000,000,000;

"(B) with respect to the fiscal year beginning October 1, 1986, $144,000,000,000;

"(C) with respect to the fiscal year beginning October 1, 1987, $108,000,000,000;

"(D) with respect to the fiscal year beginning October 1, 1988, $72,000,000,000;

"(E) with respect to the fiscal year beginning October 1, 1989, $36,000,000,000; and"

"(F) with respect to the fiscal year beginning October 1, 1990, zero.".

(3) RECONCILIATION.—

(A) ANNUAL CONCURRENT RESOLUTION ON THE BUDGET.—

(i) DIRECTIONS TO COMMITTEES.—Section 301(b) of the Congressional Budget Act of 1974 (as amended by paragraph (1)(B)(iv)(III) of this subsection) is further amended—

(I) by striking out "may also require" in the matter preceding paragraph (1) and inserting in lieu thereof "shall also, to the extent necessary to comply with subsection (c)";

(II) by inserting "require" after the paragraph designation in paragraph (1);

(III) by inserting "require" after the paragraph designation in paragraph (2); and

(IV) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively, and inserting before paragraph (2) (as so redesignated) the following new paragraph:

"(1) specify and direct any combination of the matters described in paragraphs (1), (2), and (3) of section 310(a);".

(ii) CONFORMING CHANGES.—

(I) Section 310(a) of such Act is amended—

(aa) by inserting "or" at the end of paragraph (2);

(bb) by striking out "; or" at the end of paragraph (3) and inserting in lieu thereof a period; and

(cc) by striking out paragraph (4).

(II) Section 310(d) of such Act is amended by striking out "subsection (c)" and all that follows through "year" and inserting in lieu thereof "subsection (b) with respect to a concurrent resolution on the budget adopted under section 301(a) not later than June 15 of each year".

(III) Subsections (e) and (f) of section 310 of such Act are amended by striking out "subsection (c)" each place it appears and inserting in lieu thereof "subsection (b)".

(IV) Section 300 of such Act is amended by inserting immediately after the second item relating to May 15 the following new item:

"June 15	Congress completes action on reconciliation bill or resolution, or both, implementing first required concurrent resolution.".

(B) PERMISSIBLE REVISIONS OF CONCURRENT RESOLUTIONS ON THE BUDGET.—

(i) IN GENERAL.—Section 304(a) of such Act (as redesignated by paragraph (2)(B)(i) of this subsection) is amended by adding after the period the following new sentence: "Any concurrent resolution adopted under this section shall specify and direct any combination of the matters described in paragraphs (1), (2), and (3) of section 310(a) to the extent necessary to comply with subsection (b).".

(ii) CONFORMING CHANGE.—Section 310(d) of such Act (as amended by subparagraph (A)(ii)(II) of this paragraph) is further amended by adding at the end thereof the following new sentence: "Congress shall complete action on any reconciliation bill or reconciliation resolution reported under subsection (b) with respect to a concurrent resolution on the budget adopted under section 304(a) not later than 30 days after the adoption of the concurrent resolution.".

(4) LIMITATION ON AMENDMENTS.—

(A) CONCURRENT RESOLUTIONS ON THE BUDGET.—

(i) HOUSE OF REPRESENTATIVES.—Section 305(a)(6) of such Act is amended—

(I) by inserting "(A)" after the paragraph designation; and

(II) by adding at the end thereof the following new subparagraph:

"(B)(i) No amendment that would have the effect of increasing any specific budget outlays above the level of such outlays set forth in a concurrent resolution on the budget as reported, or of reducing any specific Federal revenues below the level of such revenues set forth in such concurrent resolution as reported, shall be in order unless such amendment ensures that the amount of total budget outlays set forth in the concurrent resolution as reported is not increased, and that the recommended level of total Federal revenues set forth in such concurrent resolution as reported is not reduced, by making an equivalent reduction in other specific budget outlays or an equivalent increase in other specific Federal revenues.

"(ii) Clause (i) of this subparagraph shall not apply to any fiscal year for which a declaration of war has been enacted.".

(ii) SENATE.—Section 305(b)(2) of such Act is amended—

(I) by inserting "(A)" before the paragraph designation; and

(II) by adding at the end thereof the following new subparagraph:

"(B)(i) No amendment that would have the effect of increasing any specific budget outlays above the level of such outlays set forth in a concurrent resolution on the budget as reported, or of reducing any specific Federal revenues below the level of such revenues set forth in such concurrent resolution as reported, shall be in order unless such amendment ensures that the amount of total budget outlays set forth in the concurrent resolution as reported is not increased, and that the recommended level of total Federal revenues set forth in the concurrent resolution as reported is not reduced, by making an equivalent reduction in other specific budget outlays or an equivalent increase in other specific Federal revenues.

"(ii) Clause (i) of this subparagraph shall not apply to any fiscal year for which a declaration of war has been enacted.".

(B) RECONCILIATION BILLS AND RESOLUTIONS.—Section 310 of such Act is amended by inserting after subsection (b) (as redesignated by paragraph (1)(A)(ii) of this subsection) the following new subsection:

"(c) LIMITATION ON AMENDMENTS TO RECONCILIATION BILLS AND RESOLUTIONS.—

"(1) It shall not be in order in either the House of Representatives or the Senate to receive or consider any amendment to a reconciliation bill or reconciliation resolution if such amendment would have the effect of increasing any specific budget outlays above the level of such outlays provided in the bill or resolution as reported, or would have the effect of reducing any specific Federal revenues below the level of such revenues provided in the bill or resolution as reported, unless such amendment ensures that total budget outlays are not increased, and that total Federal revenues are not reduced, by making an equivalent reduction in other specific budget outlays or an equivalent increase in other specific Federal revenues.

"(2) Paragraph (1) shall not apply to any fiscal year for which a declaration of war has been enacted.".

(5) ENFORCEMENT.—

(A) ALLOCATIONS OF BUDGET AUTHORITY AND OUTLAYS.—

(i) REPORTING DATE FOR ALLOCATIONS.—Section 302(b) of such Act is amended by striking out "Each such committee shall promptly report" in the last sentence and inserting in lieu thereof "Each such committee, within ten days of session after the concurrent resolution is agreed to, shall report".

(ii) ALLOCATIONS MADE BINDING.—Section 311 of such Act is amended by redesignating subsections (a) and (b) as subsections (b) and (c), respectively, and inserting immediately after "SEC. 311" the following new subsection:

"(a) LEGISLATION SUBJECT TO POINT OF ORDER AFTER ADOPTION OF ANNUAL CONCURRENT RESOLUTION ON THE BUDGET.—

"(1) IN GENERAL.—At any time after the Congress has completed action on the concurrent resolution on the budget required to be reported under section 301(a) for a fiscal year, it shall not be in order in either the House of Representatives or the Senate—

"(A) to consider any bill or resolution (including a conference report thereon), or any amendment to a bill or resolution, that provides for budget outlays or new budget authority in excess of the appropriate allocation of such outlays or authority reported under section 302(b) in connection with the most recently agreed to concurrent resolution on the budget for such fiscal year; or

"(B) to consider any bill or resolution (including a conference report thereon), or any amendment to a bill or resolution, that provides new spending authority described in section 401(c)(2)(C) to become effective during such fiscal year, if the amount of budget outlays or new budget authority that would be required for such year if such bill or resolution were enacted without change or such amendment were adopted would exceed the appropriate allocation of budget outlays or new budget authority reported under section 302(b) in connection with the most recently agreed to concurrent resolution on the budget for such fiscal year, unless such bill, resolution, or amendment was favorably reported by the Committee on Appropriations of the House involved under section 401(b)(2) along with a certification that if such bill, resolution, or amendment is enacted or adopted, the committee will reduce appropriations or take any other actions necessary to assure that the enactment or adoption of such bill, resolution, or amendment will not result in a deficit for such fiscal year in excess of the maximum deficit amount specified for such fiscal year in section 3(7).

"(2) ALTERATION OF 302(b) ALLOCATIONS.—At the time after a committee reports the allocations required to be made under section 302(b), such committee may report to its House an alteration of such allocations, provided that any alteration of such allocations must be consistent with any actions already taken by its House on legislation within the committee's jurisdiction.

"(3) EXCEPTION.—Paragraph (1) shall not apply to any fiscal year for which a declaration of war has been enacted.".

(B) MAXIMUM DEFICIT AMOUNT MAY NOT BE EXCEEDED.—Section 311(b) of such Act, as redesignated by subparagraph (A)(ii) of this subsection, is amended by inserting before the period at the end thereof the following: ", or would otherwise result in a deficit for such fiscal year that exceeds the maximum deficit amount specified for such fiscal year in section 3(7) (except to the extent that paragraph (1) of subsection (b) of section 310 does not apply by reason of paragraph (2) of such subsection)".

(C) REPORTING REQUIREMENT EXTENDED TO CONFERENCE REPORTS.—Section 308(a) of such Act is amended by striking out "the report accompanying that bill or resolution" in the matter preceding paragraph (1) and inserting in lieu thereof the following: "or whenever a conference report is filed in either House, the report accompanying that bill or resolution or the statement of managers accompanying that conference report".

(c) BUDGET SUBMITTED BY THE PRESIDENT.—

(1) MAXIMUM DEFICIT AMOUNT MAY NOT BE EXCEEDED.—Section 1105 of title 31, United States Code, is amended by adding at the end thereof the following new subsection:

"(f)(1) The budget transmitted pursuant to subsection (a) for a fiscal year shall be prepared on the basis of the best estimates then available, in such a manner as to ensure that the deficit for such fiscal year shall not exceed the maximum deficit amount specified for such fiscal year in section 3(7) of the Congressional Budget and Impoundment Control Act of 1974; and the President shall take such action under subsection (d)(2) of the Balanced Budget and Emergency Deficit Control Act of 1985 as is necessary to ensure that the deficit for such fiscal year does not exceed such maximum deficit amount.

"(2) Subject to paragraph (3) of this subsection, the deficit set forth in the budget so transmitted for any fiscal year shall not exceed the maximum deficit amount specified for such fiscal year in section 3(7) of the Congressional Budget and Impoundment Control Act of 1974, with budget outlays and Federal revenues at such levels as the President may consider most desirable and feasible. The President may also recommend alternative budgets complying with the requirement of the preceding sentence, with outlays and revenues at higher or lower levels to take account of possible changes in economic conditions or other circumstances.

"(3) Paragraph (2) shall not apply with respect to any fiscal year for which a declaration of war has been enacted.".

(2) REVISIONS AND SUPPLEMENTAL SUMMARIES.—Section 1106 of title 31, United States Code, is amended by adding at the end thereof the following new subsection:

"(c) Subsection (f) of section 1105 shall apply to revisions and supplemental summaries submitted under this section to the same extent that such subsection applies to the budget submitted under section 1105(a) to which such revisions and summaries relate.".

(d) EMERGENCY POWERS TO ELIMINATE DEFICITS IN EXCESS OF MAXIMUM DEFICITS AMOUNTS.—

(1) REPORTING OF DEFICITS IN EXCESS OF MAXIMUM DEFICIT AMOUNTS.—

(A) IN GENERAL.—

(i) FISCAL YEAR FOR WHICH CONCURRENT RESOLUTION ON THE BUDGET IS ADOPTED.—The Director of the Office of Management and Budget and the Director of the Congressional Budget Office (hereafter in this section referred to as "the Directors") shall, with respect to any fiscal year for which a concurrent resolution on the budget has been adopted before the first day of such fiscal year (I) estimate the levels of total revenues and budget outlays that may be anticipated for such fiscal year, (II) determine whether the deficit for such fiscal year will exceed the maximum deficit amount for such fiscal year and whether such excess is statistically significant, and (III) estimate the rate of real economic growth that will occur during such fiscal year. The Directors jointly shall report to the President and to the Congress not later than November 1 of such fiscal year (in the case of the fiscal year beginning October 1, 1985) and October 1 of such fiscal year (in the case of any succeeding fiscal year) if either such Director determines that the amount of the deficit for such fiscal year will exceed the maximum deficit amount for such fiscal year, identifying the amount of such excess, stating whether such excess is statistically significant, specifying the estimated rate of real economic growth for such fiscal year, and specifying the percentages by which automatic spending increases and relatively controllable expenditures shall be reduced during such fiscal year in order to eliminate such excess. In the event that the Directors are unable to agree on an amount to be set forth with respect to any item in any such report, the amount set forth for such item in such report shall be the average of the amounts proposed by each of them with respect to such item.

(ii) FISCAL YEAR WITHOUT CONCURRENT RESOLUTION ON THE BUDGET.—Not later than October 1 of any fiscal year for which a concurrent resolution on the budget has not been adopted, the Directors shall (I) estimate the level of Federal revenues and budget outlays for such fiscal year, (II) determine whether the deficit for such fiscal year will exceed the maximum deficit amount for such fiscal year and whether such excess is statistically significant, and (III) estimate the rate of real economic growth that will occur during such fiscal year, and, if either such Director determines that the amount of the deficit for such fiscal year will exceed the maximum deficit amount for such fiscal year, shall jointly report to the President and the Congress, identifying the amount of such excess, stating whether such excess is statistically significant, specifying the estimated rate of real economic growth for such fiscal year, and specifying the percentages by which automatic spending increases and relatively controllable expenditures shall be reduced in order to eliminate such excess. Any disagreement between the Directors on an amount to be set forth in any such report shall be resolved in the manner described in the last sentence of clause (i).

(B) EXCEPTION.—Subparagraph (A) shall not apply to any fiscal year for which a declaration of war has been enacted.

(2) PRESIDENTIAL ORDER.—

(A) CONTENTS.—

(i) IN GENERAL.—Except as provided in subparagraph (B), upon receipt of any report from the Directors under paragraph (1) of this subsection identifying an amount by which the deficit for a fiscal year will exceed the maximum deficit amount for such fiscal year, notwithstanding the Impoundment Control Act of 1974, the President shall issue an order that—

(I) subject to clause (ii) of this subparagraph, eliminates one-half of such excess by modifying or suspending the operation of each provision of Federal law that would (but for such order) require an automatic spending increase to take effect during such fiscal year, in such a manner as to reduce by a uniform percentage (but not below zero) the amount of increase under each such provision, and

(II) subject to clause (ii) of this subparagraph, eliminates one-half of such excess by sequestering such amounts of budget authority, obligation limitations, and loan limitations as are necessary to reduce each relatively controllable expenditure by a uniform percentage and by adjusting payments provided by the Federal Government;

and shall transmit to both Houses of the Congress a message—

(III) identifying—

(aa) the total amount and the percentage by which automatic spending increases are to be reduced under subclause (I) of this clause;

(bb) the total amount of budget authority, obligation limitations, and loan limitations which is to be sequestered and the total amount of payments which is to be adjusted under subclause (II) of this clause with respect to relatively controllable expenditures;

(cc) the amount of budget authority, obligation limitations, and loan limitations which is to be sequestered and payments which are to be adjusted with respect to each such relatively controllable expenditure in order to reduce it by the required percentage; and

(dd) the account, department, or establishment of the Government to which each amount of budget authority, obligation limitations, and loan limitations and each payment specified under subdivision (cc) of this clause would be available for obligation (but for such order), and the specific project or governmental functions involved; and

(IV) providing a full supporting details with respect to each action to be taken under subclause (I) or (II) of this clause.

(ii) LIMITATION.—Actions taken under subclause (I) of clause (i) may reduce by less than one-half the amount by which the deficit for a fiscal year exceeds the maximum deficit amount for such fiscal year, and actions taken under subclause (II) of such clause may reduce such excess by more than one-half only to the extent that compliance with the requirement that actions taken under each such subclause reduce such excess by one-half would require the reduction of automatic spending increases below zero.

(B) EXCEPTION.—If the amount of the excess of the deficit for a fiscal year over the maximum deficit amount for such fiscal year set forth in a report from the Directors under paragraph (1) of this subsection is not statistically significant, subparagraph (A) shall be applied by substituting "may" for "shall" each place it appears.

(C) DATE ISSUED.—

(i) POSITIVE REAL ECONOMIC GROWTH.—If the estimate of real economic growth set forth in a report transmitted under paragraph (1) of this subsection is zero or greater, the President shall issue the order required to be issued under this subsection pursuant to such report not later than 14 days after transmittal of such report.

(ii) NEGATIVE REAL ECONOMIC GROWTH.—

(I) IN GENERAL.—If the estimate of real economic growth set forth in a report transmitted under paragraph (1) of this subsection is less than zero, the President shall issue the order required to be issued under this subsection pursuant to such report not later than 30 days after transmittal of such report.

(II) ALTERNATIVE PROPOSALS.—The President may, during the 30-day period specified in subclause (I), submit to each House of the Congress a joint resolution that will, if enacted—

(aa) reduce the deficit for a fiscal year to an amount not greater than the maximum deficit amount for such fiscal year, or

(bb) subject to the requirements of subsection (e) of this section, suspend (in part or in whole) the requirements of this section and of the amendments made by this section with respect to such fiscal year.

Such joint resolution shall be introduced (by request) by the majority leader of each such House on the day on which it is submitted and shall be referred on such day to the appropriate committee of such House. The committee shall report the joint resolution not later than 10 days after the date on which it is introduced. A committee failing to report a joint resolution within the 10-day period referred to in the preceding sentence shall be automatically discharged from consideration of the joint resolution, and the joint resolution shall be placed on the appropriate calendar. The provisions of section 305 of the Congressional Budget Act of 1974 for the consideration of concurrent resolutions on the budget shall also apply to consideration of any joint resolution submitted under this subparagraph and to conference reports thereon. Section 310(c) of such Act (as added by subsection (b)(4)(B) of this section) shall apply to any such joint resolution.

(D) EFFECTIVE IMMEDIATELY.—Except to the extent that it is superseded by a joint resolution enacted under paragraph (3) of this subsection, an order issued pursuant to this paragraph shall be effective from and after its issuance. Any modification or suspension of a provision of law that would (but for such order) require an automatic spending increase to take effect during a fiscal year shall apply for the one-year period beginning with the date on which such automatic increase would have taken effect during such fiscal year (but for such order).

(E) PROPOSAL OF ALTERNATIVES.—A message transmitted pursuant to this paragraph with respect to a fiscal year may be accompanied by a proposal setting forth in full detail alternative ways to reduce the deficit for such fiscal year to an amount not greater than the maximum deficit amount for such fiscal year.

(3) CONGRESSIONAL ACTION.—

(A) REPORTING OF JOINT RESOLUTIONS.—

(i) IN GENERAL.—Not later than 10 days after issuance of an order by the President under paragraph (2) with respect to a fiscal year, the Committee on the Budget of the House of Representatives or the Senate may report to its House a joint resolution superseding such order. The report accompanying such joint resolution shall explain in full detail the nature and effects of each provision of the joint resolution.

(ii) POINT OF ORDER.—It shall not be in order in the House of Representatives or the Senate to consider or agree to any joint resolution reported under clause (i) with respect to a fiscal year, any amendment thereto, or any conference report thereon if—

(I) the enactment of such joint resolution as reported;

(II) the adoption and enactment of such amendment; or

(III) the enactment of such joint resolution in the form recommended in such conference report;

would cause the amount of the deficit for such fiscal year to exceed the maximum deficit amount for such fiscal year.

(iii) DEFINITION.—For purposes of clause (i), the term "day" shall mean any calendar day on which either House of the Congress is in session.

(B) PROCEDURES.—

(i) IN GENERAL.—The provisions of section 305 of the Congressional Budget Act of 1974 for the consideration of concurrent resolutions on the budget and conference reports thereon shall also apply to consideration of joint resolutions reported under this paragraph and conference reports thereon.

(ii) LIMITATION ON AMENDMENTS.—Section 310(c) of such Act (as added by subsection (b)(4)(B) of this section) shall apply to joint resolutions reported under this paragraph.

(4) DEFINITIONS.—For purposes of this subsection:

(A) The term "automatic spending increase" shall include all Federal programs indexed directly or indirectly, whether appropriated or contained in current law. This shall include entitlements and other payments to individuals, open-ended programs and grants, and other similar programs, and shall not include increases in Government expenditures due to changes in program participation rates. Such term shall not include any increase in benefits payable under the old-age, survivors, and disability insurance program established under title II of the Social Security Act.

(B) The term "budget outlays" has the meaning given to such term in section 3(1) of the Congressional Budget and Impoundment Control Act of 1974.

(C) The term "concurrent resolution on the budget" has the meaning given to such term in section 3(4) of the Congressional Budget and Impoundment Control Act of 1974.

(D) The term "deficit" has the meaning given to such term in section 3(6) of the Congressional Budget and Impoundment Control Act of 1974.

(E) The term "maximum deficit amount" has the meaning given to such term in section 3(7) of the Congressional Budget and Impoundment Control Act of 1974.

(F) The term "real economic growth" means, with respect to a fiscal year, the nominal growth in the production of goods and services during such fiscal year, adjusted for inflation.

(G) The term "relatively controllable expenditures" means budget outlays that are classified as relatively controllable outlays in Office of Management and Budget, *Controllability of Budget Outlays*, Report No. BPS07014 (August 27, 1985).

(H) The amount by which the deficit for a fiscal year exceeds the maximum deficit amount for such fiscal year shall be treated as "statistically significant" if the amount of such excess is greater than 5 percent of such maximum deficit amount. For purposes of the fiscal year beginning October 1, 1985, the preceding sentence shall be applied by substituting "7" for "5".

(5) CONFORMING CHANGES.—

(A) RULES OF THE HOUSE OF REPRESENTATIVES.—

(i) Clause 1.(e)(3) of rule X of the Rules of the House of Representatives is amended—

(I) by striking out "and" at the end of subdivision (C);

(II) by redesignating subdivision (D) as subdivision (E); and

(III) by inserting after subdivision (C) the following new subdivision:

"(D) to report joint resolutions with respect to Presidential orders issued under subsection (d)(3) of the Balanced Budget and Emergency Deficit Control Act of 1985, and to take such other actions as may be required of it under that section; and".

(ii) Clause 4.(a) of rule XI of such Rules is amended by inserting after "Budget Act of 1974" the following: "and on joint resolutions under subsection (d)(3) of the Balanced Budget and Emergency Deficit Control Act of 1985".

(B) STANDING RULES OF THE SENATE.—Rule XXV(e)(2) of the Standing Rules of the Senate is amended—

(i) by striking out "and" at the end of subdivision (C);

(ii) by redesignating subdivision (D) as subdivision (E); and

(iii) by inserting after subdivision (C) the following new subdivision:

"(D) to report joint resolutions with respect to Presidential orders issued under subsection (d)(3) of the Balanced Budget and Emergency Deficit Control Act of 1985, and to take such other actions as may be required of it under that section; and".

(e) BUDGETARY TREATMENT OF SOCIAL SECURITY TRUST FUNDS.—

(1) FISCAL YEARS 1986 THROUGH 1992.—

(A) IN GENERAL.—Section 710 of the Social Security Act (as added by paragraph (1) of subsection (a) of section 346 of the Social Security Amendments of 1983) is amended—

(i) by striking out all beginning with "the" the first place it appears down through "Disability Insurance Trust Fund, the" and inserting in lieu thereof "The";

(ii) by striking out "sections 1401, 3101, and 3111" and inserting in lieu thereof "1401(b), 3101(b), and 3111(b)";

(iii) by redesignating all after the section designation as subsection (b);

(iv) by inserting after the section designation the following:

"(a) The receipts and disbursements of the Federal Old-Age, Survivors, and Disability Insurance Trust Fund, and the taxes imposed under sections 1401(a), 3101(a), and 3111(a) of the Internal Revenue Code of 1954, shall not be included in the totals of the budget of the United States Government as submitted by the President or of the congressional budget and shall be exempt from any general budget limitation imposed by statute on expenditures and net lending (budget outlays) of the United States Government."; and

(v) by adding at the end thereof the following new subsection:

"(c) No provision of law enacted after the date of the enactment of the Balanced Budget and Emergency Deficit Control Act of 1985 (other than a provision of an appropriation Act that appropriates funds authorized under the Social Security Act as in effect on the date of enactment of the Balanced Budget and Emergency Deficit Control Act of 1985) may provide for payments from the general fund of the Treasury to the Federal Old-Age, Survivors, and Disability Insurance Trust Fund, or for payments from such Trust Fund to the general fund of the Treasury.".

(B) APPLICATION.—The amendments made by subparagraph (A) shall apply with respect to fiscal years beginning after September 30, 1985, and ending before October 1, 1992.

(2) FISCAL YEAR 1993 AND THEREAFTER.—Section 710(a) of the Social Security Act (42 U.S.C. 911 note), as amended by section 346(b) of the Social Security Amendments of 1983 (to be effective with respect to fiscal years beginning after September 30, 1992) is amended by—

(A) inserting "(1)" after the subsection designation; and

(B) adding at the end thereof the following new paragraph:

"(2) No provision of law enacted after the date of the enactment of the Balanced Budget and Emergency Deficit Control Act of 1985 (other than a provision of an appropriation Act that appropriates funds authorized under the Social Security Act as in effect on the date of enactment of the Balanced Budget and Emergency Deficit Control Act of 1985) may provide for payments from the general fund of the Treasury to any Trust Fund specified in paragraph (1) or for payments from any such Trust Fund to the general fund of the Treasury.".

(f) WAIVERS AND AMENDMENTS.—Notwithstanding section 904(b) of the Congressional Budget and Impoundment Control Act of 1974, any other provision of law, or any rule or standing order of the Senate or the House of Representatives, no provision of this section, or of any amendment made by this section, may be waived, amended, or otherwise modified except by a joint resolution that—

(1) does so in specific terms, referring to such provision by its designation and declaring that such joint resolution waives, amends, or otherwise modifies such provision; and

(2) is addressed solely to that subject.

(g) Section 1106(a) of title 31, United States Code, is amended by striking out "July 16" and inserting in lieu thereof "September 16".

(h) Notwithstanding any other provision of law, it shall not be in order in the Senate or House of Representatives to consider any reconciliation bill or reconciliation resolution reported pursuant to a concurrent resolution on the budget agreed to under section 301, 304, or 310 of the Congressional Budget Act of 1974, or any amendment thereto, or conference report thereon that contains recommendations with respect to the Federal Old-Age Survivors Trust Fund or the Federal Disability Insurance Trust Fund, with respect to revenues attributable to the taxes imposed under sections 1401(a), 3101(a), and 3111(a) of the Internal Revenue Code of 1954, with respect to the old-age, survivors, and disability insurance program established under title II of this Act.

(i) APPLICATION.—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), this section and the amendments made by this section shall become effective on the date of the enactment of this section and shall apply with respect to fiscal years beginning after September 30, 1985, and before October 1, 1991.

(2) EXCEPTION.—The amendments made by subsections (b)(1), (b)(2)(A), (b)(3)(A), (b)(5)(A)(i), and (c) of this section shall apply with respect to fiscal years beginning after September 30, 1986, and before October 1, 1990.

(3) OASDI TRUST FUNDS.—The amendment made by subsection (e) shall apply as provided in such subsection.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. DOLE. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Thursday, October 3, to hold a hearing to consider the nomination of Anthony G. Sousa, to be a member of the Federal Energy Regulatory Commission.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ARMED SERVICES

Mr. DOLE. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on Thursday, October 3, 1985, in order to conduct a hearing on nuclear winter.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. DOLE. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on Thursday, October 3, in closed session, to receive a briefing on chemical, biological, and radiological terrorism.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SCIENCE, TECHNOLOGY, AND SPACE

Mr. DOLE. Mr. President, I ask unanimous consent that the Subcommittee on Science, Technology and Space of the Committee on Commerce, Science, and Transportation, be authorized to meet during the session of the Senate on Thursday, October 3, to conduct a meeting on earthquake preparedness.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

DEFENSE PROCUREMENT REFORM LEGISLATION FOR 1984

● Mr. QUAYLE. Mr. President, over the next 6 weeks, the Defense Acquisition Policy Subcommittee will be holding a series of hearings on the 1984 defense procurement reform legislation. The purpose of these hearings will be to take a preliminary look at the implementation of the amendments to title 10, United States Code, contained in the Competition in Contracting Act, the Defense Procurement Reform Act of 1984, and the Small Business and Federal Procurement Competition Enhancement Act of 1984.

Over the past 2 years, we have seen an unprecedented amount of legislation aimed at reforming the defense acquisition process. It is time that we began to review the status and impact of those legislative provisions that have already been enacted. Only by conducting oversight hearings on this issue can we have a proper understanding of the potential impact of future legislative proposals.

The subcommittee has scheduled a hearing on October 17 to receive the views of Hon. James P. Wade, Assistant Secretary of Defense for Acquisition and Logistics. We will follow with a hearing on October 29 in which the joint logistics commanders from the armed services and the Defense Logistics Agency have been asked to testify.

During November, we are planning three additional hearings on this topic. On November 5, we have asked the Director of the Strategic Defense Initiative Organization, Lt. Gen. James Abrahamson, to testify before the subcommittee. On November 7, we plan to receive testimony from the competition advocate generals of the services, as well as a representative of the Small Business Administration. Finally, on November 13, we will receive testimony from outside witnesses.●

THE SITUATION IN SOUTH AFRICA

● Mr. SARBANES. Mr. President, so long as news stories and pictures report the violent actions of the South African Government against South Africa's black population, public attention is understandably and rightly riveted on events in South Africa. But other actions of the South African Government, less easily photographed, deserve our attention as well. Among these is the speech which Prime Minister P.W. Botha gave to a Cape Province congress of the ruling National Party on September 30 in which he claimed to offer a "new manifesto for South Africa."

Despite the Prime Minister's assertion, there was nothing new in his speech. There was nothing in it that reflected willingness to confront the real nature of the crisis in South Africa, where black South Africans remain aliens in their own land, living under a brutal state of emergency that the government gives no indication of ending. The Botha speech does not hold out the prospect for the dismantling of the apartheid system, for the fundamental reforms that are the only remedy for the terrible injustice which persists in South Africa.

The true nature of the Botha speech has been described and commented upon this week in a news story and an editorial in the New York Times. I ask that both be printed in the RECORD:

The material follows:

[From the New York Times, Oct. 2, 1985]

APARTHEID EMBALMED

It is time to acknowledge a widespread misjudgment of South Africa's President, P.W. Botha. All year, with the storms of protest raging around him, he's been elaborating a blueprint for "reforming" the racist structure of apartheid. From afar he often seemed to be improvising, now soothing his nation's blacks, now rebuffing them, as if to stifle rebellion with ambiguity. But now that he has laid out his "manifesto for a new South Africa," only his foreign interpreters sound confused. For a man in his circumstance, he has been remarkably blunt, consistent and purposeful.

Mr. Botha is a semantic trickster. In one sentence he embraces "a united South Africa, one citizenship and a universal franchise." In the next, that becomes a South Africa of "units," with at least three categories of citizenship and a franchise that keeps voters a universe apart. With one breath, Mr. Botha describes black South Africans as a welter of distinctive tribes and "cultures." In the next, he calls them a single group that threatens to dominate the white minority.

Yet despite these obfuscations, Mr. Botha offers a program for reform that is totally coherent. It is also pathetic.

Implicitly, he acknowledges that his predecesors failed in their attempt to turn 23 million blacks into citizens of 10 barren, "independent" homelands. In the service of that scheme, millions have been uprooted or abused as aliens in their own land. Without abandoning this geographical apartheid, Mr. Botha would let the much-needed urban blacks remain in segregated townships and would invent new "group" boundaries to circumscribe their political rights and muscle.

The "homelands," four of which have been declared independent, could each become one or more "units" in Mr. Botha's reunited South Africa. So would the walled-off black townships. Blacks would then participate in political "structures" on a unit basis, managing "their own" affairs, like segregated education and housing, and having "a say at higher levels."

Even at higher levels, there could be no black chamber of Parliament alongside the new Asian and mixed-race chambers advising the white one. But a few blacks might be admitted to the still-more-advisory President's Council, to offer "inquiries and proposals,"

That is the Botha reform, unaltered by any of his moods over the year. Details to come. Black leaders who accept it might be consulted, but never those guided from "abroad" by the exiled leaders of banned black-power organizations.

No less devious than that apartheid of "homelands," Mr. Botha's scheme is even more explicit in its racism. And it is even more plainly designed to let whites divide and dominate blacks, without yielding any power or privilege. All this in the same week that South Africa's white business leaders publicly urge negotiation with acknowledged black leaders "about power sharing," full citizenship "to all our peoples" and restoration of the rule of law.

Anton Rupert, a leading Afrikaner businessman, says "Apartheid is dead, but the corpse stinks and it must be buried, not embalmed." President Botha remains, sly and stubborn, the embalmer.

[From the New York Times, Oct. 1, 1985]

BOTHA SETS OUT HIS "AGENDA" FOR RACIAL CHANGES

(By Alan Cowell)

PORT ELIZABETH, SOUTH AFRICA, September 30.—President P.W. Botha of South Africa, facing his Government's deepest racial crisis, delivered a speech tonight in which he set out what he termed an agenda for racial reform.

Hedged with qualifications, it offered political rights to black, including citizenship and an undefined vote. But it seemed to suggest that those rights would be exercised in complex and undefined political structures designed to "insure that one group is not placed in a position where it can dominate other groups."

The language is the Africaners' way of saying that white dominance in national affairs will be retained.

The "agenda," which restated in more detail some earlier proposals, also rejected the notion of a universal franchise in a unitary state and proposed continued segregation of schools, housing and "culture in the general meaning of the word."

Mr. Botha's speech was the fourth and last in a series of pronouncements on reform to party congresses, which he started in Durban on Aug. 15 with a bellicose rejection of eternal pressure on his Government to speed racial change. The Durban speech prompted a vast crumbling of international banking confidence, leading to a financial crisis that forced the authorities to suspend repayment of part of the foreign debt.

A UNITED SOUTH AFRICA

His speech tonight, at the start of the Provincial Congress of his ruling National Party, seemed to represent the most comprehensive statements he has made thus far on his intentions toward the voteless black majority of 23 million. It seemed certain, however, that many black activists would reject his proposals as falling far short of a political system reflecting South Africa's racial composition.

"I finally confirm," Mr. Botha said, "that my party and I are committed to the principle of a united South Africa, one citizenship and a universal franchise."

While the language seemed more dramatic and explicit than in the past, Mr. Botha clarified the statement by saying that his proposals—the practical implications of which are still unclear—foresaw "structures chosen by South Africans, not within structures prescribed from abroad."

The essence of his agenda, which represents a clear break from the traditional canons of apartheid, seemed to be a kind of federation or confederation of what he termed "units" based on geography and race.

"We are involved," Mr. Botha said, "in the mutual pursuance of both equal rights for individuals and security for each group."

CHANGES IN ADVISORY COUNCIL

To initiate negotiations with black personalities, he said, he was prepared to change the composition of the advisory President's Council to permit blacks to offer "inquiries and the submission of proposals" to him.

The President's Council is composed of representatives of political parties present in the segregated three-chamber Parliament and is supposed to advise Mr. Botha on policy issues and to break deadlocks in legislative debates.

A universal franchise in a unitary state, Mr. Botha said, "will cause a greater struggle and more bloodshed than we are experiencing today." More than 700 people, all but a handful of them nonwhite, have died in 13 months of protest and violence that prompted the authorities to declare a state of emergency in 36 districts on July 21.

Official security action to quell the protests, Mr. Botha said, was not "for purposes of oppression and maintaining the status quo" but "to protect the process of peaceful reform and to insure the necessary stability without which reform will be undermined by violence and revolution."

The reforms he mentioned seemed ambivalent. While Mr. Botha spoke of a "united South Africa," he made clear, for instance, that this did not mean the dismantling of the four so-called tribal homelands that have accepted a nominal independence from Pretoria and which are home to millions of blacks.

Similarly, when he spoke initially on Sept. 11 of the restoration of South African citizenship to millions of blacks, one of his senior lieutenants pointed out that citizenship did not imply South African political rights for those living the homelands.

Mr. Botha spoke tonight of a "wide spectrum of views" in South Africa that "recognizes the existence of minorities with their own language and culture, as well as an own way of life."

"It recognizes," he said, "the principle of self-determination of own community life such as education, residential areas and social welfare, local management and private ownership, in other words, in culture and the general meaning of the word."

COOPERATIVE COEXISTENCE

Much of what Mr. Botha said seemed a restatement and refining of ideas he has advanced since January for cautious political change designed, in his party's vocabulary, to replace traditional apartheid with what is called "cooperative coexistence."

His agenda, Mr. Botha said, foresaw a multiplicity of "units" that would be "recognized on a geographical and group basis," including the country's nine million urbanized blacks.

The intention, glimpsed through the code language of the dominant 2.8 million Afrikaners, seemed to be to offer some complex form of government to which the black majority, divided as before as ethnic minorities and between rural and urban dwellers, would have a say of some kind in central government that would not impinge on white life styles or on white power over white destinies and economic privilege.●

BILINGUAL EDUCATION

● Mr. QUAYLE. Mr. President, recently the Secretary of Education, William J. Bennett, announced that the Department of Education wanted to seek greater flexibility in the provision of services under the Federal Government's Bilingual Education Program. I am fully supportive of the Department's efforts and commend Secretary Bennett for putting forward this proposal.

The Bilingual Education Program has done a great deal of good over the years in helping thousands of schoolchildren learn English. However, many people associated with the programs, including teachers, parents, and school administrators, feel that the program could be improved by allowing greater flexibility in the teaching of English language skills. The Congress included a provision in last year's reauthorization of the Bilingual Education Act, to allow for a very small amount of innovation and freedom in providing bilingual education. I would have preferred to see greater reform of the act to allow local school districts much more discretion in selecting the most effective teaching method to meet the needs of their students. This is why Secretary Bennett's proposal is so commendable, and I am anxious to work with the Department of Education to give school districts more flexibility to help non-English-speaking children learn English as quickly as possible.

I would also like to include two editorials from the Washington Post. The more recent one, dated September 27, 1985, supports Secretary Bennett's recent recommendations for bilingual education. The older editorial, dated April 13, 1984, describes and is supportive of an experiment carried out by McAllen, TX, schools using the English-immersion teaching method. Language immersion is the preferred method used for teaching businessmen and women and diplomats who must learn languages quickly and thoroughly. If it works for them, we should allow our schools to use it to help our non-English-speaking children to learn English with the same quickness and efficiency. Mr. President, I ask that the two editorials be printed in the RECORD following my statement.

The editorials follow:

SECRETARY BENNETT MAKES SENSE

Students in the public schools of Fairfax County speak 70 different languages, among them Spanish, other more or less familiar European tongues and, most recently, the less familiar dialects of the Middle East, the Indian subcontinent and East Asia. School officials need federal help—and money—to teach children whose first language is a foreign one, and that help is available under the provisions of the Bilingual Education Act. Unfortunately, in recent years that program, devised to help children learn in school and become proficient in English, has placed far too much emphasis on teaching in the foreign language. It is hard enough for administrators to find qualified and dedicated teachers without having to worry about offering chemistry in Farsi or geometry in Hmong.

Secretary of Education William J. Bennett knows that the rigidity of federal policy is hampering this program, and he intends to do something about it. In a speech delivered in New York this week, Mr. Bennett announced that he will amend federal regulations to allow greater flexibility to local school districts in running bilingual programs. The law, he points out, only requires that instruction be provided in a child's native language *to the extent necessary* to allow him to achieve competence in English. Regulations mandating non-English instruction are intrusive and unnecessary, and he will revise them accordingly. The secretary will also ask Congress to eliminate the 4 per-

cent ceiling on funds for alternative instruction using only English. Some of these programs, carefully structured and staffed by multilingual teachers, have been very successful, and Mr. Bennett wants to give local school boards the right to use them.

There will be opposition of course, mostly from those who have a vested interest in continuing the exact form of instruction now mandated by Washington. Parents and students who realize that proficiency in English is an absolute prerequisite to economic advancement will differ. Children with language difficulties must be given special help, and the cultures of their native lands deserve respect and understanding. But we need not apologize, as Secretary Bennett points out, for offering assistance in a form that brings children more quickly into American language and culture and strengthens their ability to participate more fully in national life.

THE BEST WAY TO LEARN ENGLISH

On issues over which there is a great deal of "expert" disagreement, it's useful now and then to hear from people most directly involved. A story in Monday's paper, for example, reports the views of Hispanic students, their parents and teachers who are participating in an "English-immersion" project in McAllen, Texas. How does the approach compare with the more widely touted bilingual education? "When you get instruction in two languages, it's confusing," reports a parent whose older child has received bilingual instruction. "I say give them only English in school."

This will not come as welcome advice to those spokesmen for the Hispanic community who have, in all good faith, equated bilingual teaching with a proper regard for the concerns of students with limited English-speaking ability. But no one is talking about a return to the bad old "sink or swim" days when children were punished for speaking in a language other than English. Thanks to a Supreme Court decision, every child with limited knowledge of English is entitled to special help. The only question—and it is, for the sake of the children, a very important one—is how best to provide that help.

Although the McAllen experiment is far from completed, experience thus far suggests strongly that bilingual education is not the best approach. Kindergarten students in five classes using the immersion approach last year showed gains in English proficiency about a third higher than those in traditional bilingual programs. Most heartening is the fact that these students come from families that are among the poorest in the nation and that even the slowest learners seemed to benefit. That's especially important, because bilingual programs, which typically keep children from moving into all-English classes until their test scores are high enough, may simply reinforce the future disadvantages these children will face in school and the labor market.

The Wall Street Journal, in an earlier report on the Texas pilot projects, notes that Hispanic parents in several other states are beginning to question bilingual teaching. Certainly the results, measured by achievement test results, are not impressive. In rebuttal, critics of the immersion method will point out that its advantages have not been sufficiently tested. But remember that immersion—in a much harsher form—was the way most earlier immigrants learned English. And it is immersion—not the ineffective bilingual approach by which most Americans failed to learn a second language in school—that is now the preferred method used to teach businessmen and diplomats to speak foreign languages efficiently. If immersion is the method chosen by those who can afford the best, you might ask why it shouldn't be used to teach the nation's children.●

ORDERS FOR FRIDAY

RECESS UNTIL 10:30 A.M.

Mr. DOLE. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in recess until 10:30 a.m. on Friday, October 4.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF CERTAIN SENATORS

Mr. DOLE. Mr. President, I ask unanimous consent that there be special orders on tomorrow in favor of the following Senators, for not to exceed 15 minutes each: Senator GOLDWATER, Senator NUNN, and Senator PROXMIRE.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent that on tomorrow, after the special orders just identified, there be a period for the transaction of routine morning business, not to extend beyond 11:30 a.m., with Senators permitted to speak therein for not more than 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. DOLE. Mr. President, following routine morning business on tomorrow, the Senate will resume consideration of House Joint Resolution 372, the debt limit extension, or any items on the Executive Calendar that may be ready for Senate action.

Rollcall votes will occur throughout Friday's session.

At some point, maybe prior to resuming or shortly after resuming action on the debt limit, we will consider the nomination of James Miller, the OMB Director, and I am guessing that a vote could occur on that nomination, and we will make that announcement tomorrow morning.

So there will be votes tomorrow. We are not certain how many. Perhaps we can limit the number of amendments to the debt ceiling measure. I say to my colleagues on the Democratic side that if we could have an agreement for one major amendment on each side, I believe we could complete action on this bill early tomorrow afternoon. Again I am speculating, but I think I can speak for most of my colleagues on this side of the aisle, and that we might be able to obtain that agreement.

If we can attain a similar agreement on the other side of the aisle, we can dispose of the debt limit extension early tomorrow afternoon, which would accommodate a number of Senators who have official commitments elsewhere.

RECESS UNTIL 10:30 A.M.

Mr. DOLE. Mr. President, there being no further business to come before the Senate, I move that the Senate stand in recess until 10:30 a.m. Friday, October 4, 1985.

The motion was agreed to; and, at 5:08 p.m., the Senate recessed until Friday, October 4, 1985, at 10:30 a.m.

CONFIRMATION

Executive nomination confirmed by the Senate October 3, 1985:

IN THE NAVY

The following-named officer, under the provisions of title 10, United States Code, section 601, to be assigned to a position of importance and responsibility designated by the President under title 10, United States Code, section 601:

To be admiral

Vice Adm. Carlisle A.H. Trost, [redacted] /1120, U.S. Navy.

HOUSE OF REPRESENTATIVES—*Thursday, October 3, 1985*

The House met at 10 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Gracious God, we admit that we do not understand all the events of our time, nor do we grasp easy solutions for the concerns we face. Yet, O God, You have given us the direction in which we should go—the direction of justice among the peoples and respect between the nations. May Your spirit encourage us to use the talents that You have already given us, that all people will fully enjoy the gifts of Your hand. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. SCHUETTE. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. SCHUETTE. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will announce that there will be no 1-minutes today until legislative business has been concluded.

The vote was taken by electronic device, and there were—yeas 269, nays 119, answered "present" 5, not voting 41, as follows:

So the Journal was approved.

The result of the vote was announced as above recorded.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, a joint resolution of the House of the following title:

H.J. Res. 393. Joint resolution to provide for the temporary extension of certain programs relating to housing and community development, and for other purposes.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2475) "An act to amend the

Internal Revenue Code of 1954 to simplify the imputed interest rules of sections 1274 and 483, and for other purposes."

The message also announced, that Mr. ROTH and Mr. HOLLINGS be additional conferees, on the part of the Senate, on the bill (H.R. 2419) "An act to authorize appropriations for fiscal year 1986 for intelligence and intelligence-related activities of the U.S. Government, the Intelligence Community Staff, and the Central Intelligence Agency retirement and disability system, and for other purposes.

The message also announced that the Senate had passed a bill of the following title in which the concurrence of the House is requested.

S. 991. An act to provide authorization of appropriations for certain fisheries activities.

LEGISLATIVE PROGRAM

(Mr. FOLEY asked and was given permission to address the House for 1 minute.)

Mr. FOLEY I yield to the distinguished minority whip.

Mr. LOTT. I thank the gentleman for yielding to me.

I understand that there has now been a very significant change, again, in the schedule for the rest of the day and tomorrow and Monday and next week, and I know that Members are very anxious to know what we might expect.

Mr. FOLEY. Mr. Speaker, I wish to announce to the Members that we will proceed today as previously announced, with consideration of the farm bill and will rise sometime between 5:30 and 6 this afternoon.

It was our original intention to try and finish the bill today, but the course of the debate so far indicates that that is unrealistic.

Mr. LOTT. If the gentleman would yield.

Mr. FOLEY. I yield to the gentleman.

Mr. LOTT. We have been working on this farm bill now, off and on, for at least a couple weeks, and everybody I assume agrees that we need to complete action on this farm bill; we were all under the impression earlier that we were going to go until we finished it tonight, or if we could not finish tonight we would go over until tomorrow; and now we are being told we are going to quit at 5:30 or 6. I do not understand that. Why could we not at least go until we have made a little more progress today on something as important as the farm bill?

Mr. FOLEY. I will tell the gentleman that we had made our plans based on an assumption that we would be much farther along in the bill than we in fact are. This is not a criticism; the Members have the right to debate these important questions. It merely recognizes that we have many key amendments to this bill still to be considered: There is a section on tobacco, an amendment on peanuts. Additionally we must deal with cargo preference and with food stamps.

Based on the experience of the past few days, I think most of us would agree that we would have to go well into the early morning hours of Friday morning, until perhaps 2 or 3 a.m., to complete action on this bill. We are not inclined to ask that of Members.

Mr. LOTT. If the gentleman will yield, I assume the Members were prepared to do that, or at least go over into tomorrow to try to finish this very important farm legislation.

Mr. FOLEY. I understand the gentleman's concern. However, I think it is clear to all of us now that the other body will probably take some action tomorrow or Monday on the debt ceiling; and it is my understanding that Treasury has indicated to the Committee on Ways and Means, to the Finance Committee, and to the leadership on both sides that the Government will be without adequate financial resources after the first days of next week.

Rather than have a session without votes on Monday or run the risk of not being in session at a time when the Government's financial situation was becoming critical, we are going to schedule a Monday session, and will work to complete action on the farm bill that day. Although that was not our original intention, under the circumstances, we think that is necessary.

Accordingly, we are not going to meet tomorrow. Instead, we will take up final consideration of the farm bill on Monday. On that day we will, in addition, take up two bills under suspension of the rules, the Nuclear Regulatory Commission extension, H.R. 1711, and H.R. 3174, the military medical malpractice. Votes on those will occur at the end of the day on Monday rather than at its beginning.

Mr. LOTT. If the gentleman would yield further, I understand it is difficult to coordinate the schedule, and I realize you have got to accommodate such important issues as the debt ceiling, but the inability for Members to be able to depend even from day to day on what the schedule is going to be is beginning to get to the point of being hard to endure.

Mr. FOLEY. Let me respond to the gentleman that from the beginning of 1985 until now we have not once changed the Monday schedule; nor have Members been asked to return on Monday when votes were clearly indicated.

We can be 99.9 percent about the schedule, but if we are held to absolute rigidity on it at key points in the affairs of the country, I think that that may be excessive.

Mr. LOTT. Will the gentleman yield?

Mr. FOLEY. I yield to the gentleman.

Mr. LOTT. I do not think that Members object to being here on Monday if they know in advance we are going to be here on Monday, or even if they do not, when it involves something like the debt ceiling or trying to find a process to move toward a balanced budget.

I think what the Members object to is not knowing even last night that we were not going to be in session on Friday and that we now are going to quit at 5:30 on the farm bill, for heaven's sake, at a crucial time in the history of farming in this country, and we are not going to even consider it at all tomorrow; the gentleman that is our ranking member on the Committee on Agriculture did not know 10 minutes ago, was not consulted with at all, that we were not going to continue with the farm bill after 5:30 or tomorrow.

Mr. FOLEY. The chairman of the committee was just advised as well, so he is not in any sense being disadvantageous.

Mr. LOTT. Does the chairman of the Committee on Agriculture on the farm bill wish to quit at 5:30 on Thursday when we were expecting to work into the night?

Mr. FOLEY. Well, if the gentleman is suggesting that we should go tonight until 10 o'clock, we will do that.

With the Speaker's permission, I would like to amend the schedule and say the House will rise by 10 o'clock tonight, unless the bill is finished by that time.

Mr. LOTT. I would like to say that this issue is very important, and we should continue working, either into the night or tomorrow to finish the important item of the farm bill, and let us try to be more consistent in what we can expect.

Mr. MADIGAN. Will the gentleman yield?

Mr. FOLEY. I yield to the gentleman.

Mr. MADIGAN. The gentleman has correctly enumerated the major issues that are yet before us, but this gentleman is quite willing to agree with the chairman of the committee that as soon as we dispose of the issue where we already have agreed to a 1-hour time limit and are back in debate on the farm bill, if the gentleman from Texas [Mr. DE LA GARZA] wants to make a motion to limit the debate on all of those issues, like 2 hours on cargo preference, 1 hour on tobacco, 1 hour on peanuts; whatever, I will support that motion.

Mr. DE LA GARZA. Will the gentleman yield?

Mr. FOLEY. I yield to the gentleman from Texas [Mr. DE LA GARZA] but

I will say in advance that we would, on our side I believe, be willing to agree to reasonable time limits, and have always taken that position.

In the past, historically, it has been the minority side which has had concerns, which I understand, about time limitations. In fact, almost every time limitation ever imposed that I can remember, has received heavily negative votes on the minority side.

For our part, I can assure the gentleman that we welcome an opportunity to efficiently complete the work on the farm bill after long debate.

I yield to the gentleman from Texas.

Mr. DE LA GARZA. I thank the gentleman for yielding and yes, I will be very happy to accept the recommendation of my distinguished colleague from Illinois.

Mr. MADIGAN. If the gentleman will yield further, let us get on with it.

Mr. FOLEY. Mr. Speaker, if I may proceed further out of order, I would like to take this opportunity to complete the announcement of next week's schedule, and I reiterate that we intend now to continue work on the farm bill until 10 p.m. this evening, or until it is completed, with the understanding that both sides will attempt to work out time limitations on debate, in the interest of finishing the bill tonight.

The House will then not be in session tomorrow, as previously announced.

We will be in session on Monday at noon to consider the two suspension bills, and in the event that work on the farm bill is completed prior to that time, we will consider any debt limit legislation that may be sent to us by the other body.

□ 1035

We will try to keep Members advised through their respective leadership of any action in the other body on this matter later this week.

The SPEAKER. Will the gentleman make specific that we do intend to have votes on Monday.

Mr. FOLEY. Yes. Mr. Speaker, we do intend to have votes on Monday on the two suspensions previously mentioned and any consideration of the debt ceiling.

The pay equity practices in civil service is scheduled for Tuesday, October 8. On Wednesday and for the balance of the week the House will meet at 10 a.m. and will consider, subject to rules being granted, the conference report on S. 1160, the fiscal 1986 Department of Defense and H.R. 1562, the Textile Trade Enforcement Act. Additionally we will take up H.R. 3248, the Arts and Humanities authorizations, to complete consideration; and H.R. 1409, military construction authorizations, under an open rule with 2 hours of debate. The rule has already been adopted.

This announcement is made subject to the usual reservation that a further program may be announced later, and conference reports may be brought up at any time.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. May the Chair announce that in the event that the farm bill and suspensions are acted upon, and the debt ceiling is not over from the other body, we could move up the equitable pay practices in the civil service legislation to Monday.

Mr. FOLEY. I would like to repeat that for Members who did not hear it: The Chair has announced that in the event no action is taken by the other body on the debt ceiling, we will consider the Pay Equity Act on Monday. There will be votes, in other words, on Monday on one or more legislative matters.

Mr. LOTT. Mr. Speaker, will the gentleman yield?

Mr. FOLEY. I yield to the gentleman from Mississippi.

Mr. LOTT. I thank the gentleman for yielding.

All other issues could be subject to change depending on what happens the day before.

Mr. FOLEY. I will tell the gentleman that we will try earnestly not to make major changes in the schedule, subject to the usual reservations that the other body has important matters under consideration.

Mr. LOTT. On Friday will we be in session? Can we expect votes or not?

Mr. FOLEY. We will not plan to be in session on Friday.

Mr. LOTT. Do not plan to be in session on Friday, so the Members can expect not to have votes on Friday at this time.

Mr. FOLEY. That is correct.

Mr. LOTT. "We will notify you later if there is a change on that."

AUTHORIZING THE SPEAKER TO DECLARE RECESSES ON OCTOBER 9, 1985, TO RECEIVE THE PRIME MINISTER OF THE REPUBLIC OF SINGAPORE

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that it may be in order at any time on Wednesday, October 9, 1985, for the Speaker to declare recesses, subject to the call of the Chair, for the purpose of receiving in joint meeting the Prime Minister of the Republic of Singapore.

The SPEAKER. Is there objection to the request of the gentleman from Washington?

There was no objection.

TEMPORARY EXTENSION OF CERTAIN PROGRAMS RELATING TO HOUSING AND COMMUNITY DEVELOPMENT

Mr. GONZALEZ. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the joint resolution (H.R. Res. 383), to provide for the temporary extension of certain programs relating to housing and community development, and for other purposes, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the joint resolution.

The Clerk read the Senate amendment as follows:

Page 7, after line 2, insert:

SEC. 6. EXTENSIONS OF GARN-ST GERMAIN ACT.

(a) Section 141(a) of the Garn-St Germain Depository Institutions Act of 1982 is amended by striking out "upon the expiration of three years after the date of enactment of this Act" and inserting in lieu thereof "on April 15, 1986".

(b) Section 206(a) of such Act is amended by striking out "Upon the expiration of three years after the date of enactment of this Act" and inserting in lieu thereof "on April 15, 1986".

The SPEAKER. Is there objection to the request of the gentleman from Texas?

Mr. WYLIE. Mr. Speaker, I reserve the right to object and do not intend to object, but I reserve this time so that the chairman of the Subcommittee on Housing may explain what we are doing here.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

Mr. WYLIE. Under my reservation I yield to the gentleman from Texas.

Mr. GONZALEZ. I thank the gentleman for yielding, the distinguished minority ranking Member.

Mr. Speaker, the Senate accepted the resolution as we passed it out, that is, House Joint Resolution 393, except that it added two amendments having to do with an extension of provisions in the Garn-St Germain bill, also extending the effective dates of those provisions to April 15, 1986, mostly.

Now as we have done always, this is an agreement with the minority leaders on our side at the subcommittee level, and there is no objection to accepting the Senate's addition.

Mr. WYLIE. Further reserving the right to object, the gentleman from Texas has explained what this bill does. It is a simple extension of three programs, the FHA program which has already expired on September 30 needs to be extended, and it will be extended to November 14 in this bill; the so-called Net Worth Guaranty Certificate Program will be extended to April 15 of next year, and the emergency acquisition authority for failing thrift institutions will be extended to April 15, 1986.

Mr. McKINNEY. Mr. Speaker, will the gentleman yield?

Mr. WYLIE. Further reserving the right to object, I yield to the gentleman from Connecticut.

Mr. McKINNEY. I thank the gentleman for yielding.

Mr. Speaker, I think the extensions in this bill were absolutely necessary. They are short-term extensions. Certainly we need the acquisition power for troubled and failing thrift institutions.

I do want to say, however, that some serious questions have recently been raised about the usefulness on net worth certificates which are also extended by this particular prices of legislation.

In fact, GAO has reported that while, as a whole, federally insured thrifts were profitable for the period they examined, most thrifts receiving this kind of assistance, in fact, were still reporting losses and declining net worth. I think that if we are going to have this program we certainly should not extend it any more than the simple short-term extension until April so that the Banking Committee can really continue to look at the validity of this method of, quote, unquote, bailing out troubled thrift institutions with pieces of paper which really do not mean much of anything.

Mr. WYLIE. Mr. Speaker, I thank the gentleman for his contribution.

Mr. Speaker, I would yield to the chairman of the full committee, the gentleman from Rhode Island.

Mr. ST GERMAIN. I thank the gentleman for yielding.

I would say to the Members that the two provisions, the net worth certificate and the emergency acquisition powers, they are to a tee, that i's are dotted the same way, all the punctuation is similar, no changes whatsoever. And I do indeed agree with our colleague from Connecticut that there must be a review of the efficacy of the Net Worth Certificate Program, and for that reason we are granting an extension to April of next year rather than a blanket extension.

I thank the gentleman for yielding.

Mr. BEREUTER. Mr. Speaker, would the gentleman yield under his reservation?

Mr. WYLIE. I yield to the gentleman from Nebraska.

Mr. BEREUTER. I thank the gentleman for yielding.

I will not object to this procedure, but I would like to engage in a brief colloquy here. I certainly think it is important that we extend the net worth certificate legislation as well as the other items. There are about 3 percent of the savings and loan institutions that do utilize this. But I would say that we had hoped that the extension of the net worth certificate to the savings and loan institutions would be the vehicle for consideration of a similar provision for net worth certificates for agricultural banks; that is, banks that have over 20 percent of their assets in agricultural loans.

The gentleman from Kentucky [Mr. HUBBARD], the gentleman from New York, and I are sponsoring legislation to do that. We know about the opposition from various regulators, but I would ask—and the chairman of the full committee has implied—that we have an opportunity to vote on that this year. I am wondering if anyone from the majority, either the chairman or the subcommittee chairman, would be able to speak to our concern about the extension of net worth certificates to agricultural banks.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

Mr. WYLIE. I yield to the chairman of the subcommittee.

Mr. GONZALEZ. I thank the gentleman for yielding.

The chairman of the full committee, who is the author and coauthor of the Garn-St Germain legislation that contains these particular provisions that are being extended insofar as the equity provision and the other is concerned; but I will point this out, though he has left the floor I will answer this way, that with respect to extending the same provisos for the farm credit banks, that banking institution, if I recall correctly, comes under the jurisdiction of the Agriculture Committee not the Banking Committee.

Mr. BEREUTER. No. I would say to the gentleman I am talking about commercial banks that happen to be agricultural lenders out to the 20 percent. I am talking about commercial banks under the control of FDIC.

Mr. GONZALEZ. I see no reason why, if there is any immediate cause to seek that change at this time, that it could not be done. But as the chairman very aptly explained, what this extender does is simply keep alive those provisos now in the law and will give us ample opportunity between now and April 15 to seek revisions and perhaps in that process, if that is a proper vehicle to bring in these commercial banks that have farm credit associations, it could be done then.

Mr. BEREUTER. And would the gentleman repeat how many days we are extending the net worth certificates.

Mr. GONZALEZ. Actually the extender proviso of the Senate amendment would be to April 15, 1986.

Mr. WYLIE. Further reserving the right to object, may I say to the gentleman from Nebraska the chairman of the full committee has said that he would have hearings on your bill and would like to get into this subject. It is a little complicated and more than burdensome. We do need to extend the FHA program which has already expired. I do not want to take a chance of not extending the net worth program for the thrift institutions. I am not sure it does all it is supposed to do either, but I would rather be safe than sorry. We do need to extend the emergency thrift acquisition program also. This is as much as we could get out of the Senate. Members of the other body indicated they were not willing to put any new programs in any bill. So I would encourage all Members to support this legislation.

Further reserving the right to object, let me just say that the Senate amendment will extend, until April 15, 1986, the provisions contained in the Garn-St Germain Act authorizing the FDIC and the FSLIC to make emergency capital contributions to ailing thrift institutions. This assistance, commonly referred to as the "Net Worth Certificate Program," would otherwise expire on October 15 of this year.

Recently, however, serious questions have been raised about the usefulness of this type of assistance. For example, the General Accounting Office issued a report earlier this year which indicates that the program has not been successful in restoring institutions to good health. In fact, the GAO reported that while as a whole federally insured thrifts were profitable for the period examined, most thrifts receiving this kind of assistance were still reporting losses and declining net worth.

Since this issue has not been fully explored by the Banking Committee, and in view of the present problems facing the thrift industry, it is perhaps appropriate to have a short-term extension while the issues can be studied further, rather than to simply allow the authority to expire. A short-term extension will also give the Congress time to study other possible improvements in the deposit insurance system, accounting practices, disclosure requirements, and capital requirements.

The amendment will also extend, until April 15, 1986, the authority contained in the Garn-St Germain Act permitting the FDIC and the FSLIC to arrange for emergency interstate mergers and acquisitions. Under this authority, the FDIC and FSLIC may arrange for such interstate actions with respect to failed banks or failing thrift institutions. It should be noted that this authority does not authorize an interstate acquisition or merger if an in-State institution is willing to acquire the failing bank or thrift. I would like to add that while I am supporting a temporary extension of this authority, I believe that this emergency power is an extremely useful tool for the insurance agencies, will help to conserve their resources in the long run, and should be made permanent law.

Another important authority extended by this amendment is the conservatorship power of the National Credit Union Administration Board. Conservatorship has proven to be a very effective tool for the NCUA Board. It permits the Board to assume control of an institution, with no interruption in service to members, until

the credit union is back on its feet. It also prevents a dissipation of assets that could have a substantial adverse effect on the credit union and the share insurance fund. It has been estimated that over $20 million already has been saved through the use of this authority. However, unless extended, this power will expire on October 15.

Finally, Mr. Chairman, I want to emphasize that this legislation should not be considered the answer to the many financial institution questions facing this Congress. Rather, it is a stopgap measure designed to continue certain emergency programs which otherwise will expire in a matter of days. We still need to deal with the major issues—the existence of nonbank banks, the continued appropriateness of geographic boundaries, the competitive advantages between different types of financial institutions, and the reform of our deposit insurance system.

These larger issues are interrelated and extremely important both to the financial stability of our economy as a whole and to the individual depositor who places his or her faith in the Government's insurance of deposits. These issues must be confronted, and should be addressed soon, or the problems will be only that much greater and the solutions that much harder to achieve.

Mr. Speaker, in the housing area the primary authority that is extended is the insuring authority for FHA programs at the Department of Housing and Urban Development. In addition, the resolution would also extend certain housing programs under the jurisdiction of the Farmers Home Administration and the Flood and Crime Insurance Programs of the Federal Insurance Administration. These authorizations have now expired and the resolution would extend them until November 14, 1985.

I support limiting this extension to November 14 because I hope we will be able to enact the annual housing authorization bill during the interim. In the meantime, we will be assuring that these important authorities will be in place to aid potential homebuyers and insurance victims.

I support extending the authority for all the programs mentioned even though I do not support the reauthorization of the Crime Insurance Program, nor do I support a long-term authorization of the Home Mortgage Disclosure Act. These issues, however, can best be dealt with in regular order in connection with the housing authorization legislation.

Mr. FOLEY. Mr. Speaker, will the gentleman yield?

Mr. WYLIE. I yield to the gentleman from Washington.

Mr. FOLEY. I thank the gentleman for yielding.

Mr. Speaker, I am reluctant to intervene here, but if this is the unanimous-consent procedure I hope we can reach a decision on whether unanimous consent is going to be granted.

Mr. WYLIE. All right. I further reserve the right to object for just 30 seconds. I yield to the gentleman from Virginia.

Mr. PARRIS. I thank the gentleman for yielding. I will be extremely brief. My only concern with this matter, with most, if not all, of us on the committee being extremely supportive of the extensions, but I cannot permit this matter to go by without making for the record the point that we have totally circumvented the committee process in this situation. The full committee, nor appropriate subcommittee, has never addressed this problem. We have had no hearings. We have had no chance for consideration or debate. We have known the extension was upon us for some time. We have not dealt with it. I regret that on this floor, while we are trying, as the gentleman from Washington [Mr. FOLEY] indicates, to try to get on to a critical agriculture bill, here we are debating, if you will, for the first time, the extension of this important program. I want to indicate for the record that in my view that is a regrettable circumstance.

Mr. WYLIE. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GONZALEZ. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the legislation just considered.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER. Is there objection to the request of the gentleman from Washington?

There was no objection.

ADJOURNMENT TO MONDAY, OCTOBER 7, 1985

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that when the House adjourns today it adjourn to meet at noon on Monday next.

The SPEAKER. Is there objection to the request of the gentleman from Washington?

There was no objection.

HEALTH PROFESSIONS EDUCATIONAL ASSISTANCE AMENDMENTS OF 1985

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 2410) to amend the Public Health Service Act to revise and extend the programs under title VII of that act, with a Senate amendment thereto, and concur in the Senate amendment with an amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment and the House amendment to the Senate amendment, as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

That this Act may be cited as the "Health Professions Training Assistance Act of 1985".

REFERENCE

SEC. 2. Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or a repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act.

TITLE I—AUTHORIZATIONS OF APPROPRIATIONS

SCOPE AND DURATION OF FEDERAL LOAN INSURANCE PROGRAM

SEC. 101. (a) The first sentence of section 728(a) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "$250,000,000 for the fiscal year ending September 30, 1985; $275,000,000 for the fiscal year ending September 30, 1986; $290,000,000 for the fiscal year ending September 30, 1987; and $305,000,000 for the fiscal year ending September 30, 1988".

(b) The second sentence of such section is amended by striking out "1987," and inserting in lieu thereof "1991,".

SCHOLARSHIPS FOR STUDENTS OF EXCEPTIONAL FINANCIAL NEED

SEC. 102. Section 758(d) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$7,000,000 for the fiscal year ending September 30, 1986, $7,000,000 for the fiscal year ending September 30, 1987, and $7,000,000 for the fiscal year ending September 30, 1988".

DEPARTMENTS OF FAMILY MEDICINE

SEC. 103. Section 780(c) is amended by striking out "and" after "1983," and by inserting a comma and "$7,000,000 for the fiscal year ending September 30, 1986, $7,000,000 for the fiscal year ending September 30, 1987, and $7,000,000 for the fiscal year ending September 30, 1988" after "1984".

AREA HEALTH EDUCATION CENTERS

SEC. 104. The first sentence of section 781(g) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$18,000,000 for the fiscal year ending September 30, 1986, $18,000,000 for the fiscal year ending September 30, 1987, and $18,000,000 for the fiscal year ending September 30, 1988".

PHYSICIAN ASSISTANTS

SEC. 105. Section 783(d) is amended by striking out "and" after "1983," and by in-

serting before the period a comma and "$4,800,000 for the fiscal year ending September 30, 1986, $4,800,000 for the fiscal year ending September 30, 1987, and $4,800,000 for the fiscal year ending September 30, 1988".

GENERAL INTERNAL MEDICINE AND GENERAL PEDIATRICS

SEC. 106. Section 784(b) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$18,500,000 for the fiscal year ending September 30, 1986, $19,500,000 for the fiscal year ending September 30, 1987, and $22,000,000 for the fiscal year ending September 30, 1988".

FAMILY MEDICINE AND GENERAL PRACTICE OF DENTISTRY

SEC. 107. (a) The first sentence of section 786(c) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$36,000,000 for the fiscal year ending September 30, 1986, $37,000,000 for the fiscal year ending September 30, 1987, and $39,400,000 for the fiscal year ending September 30, 1988".

(b) The second sentence of such section is amended by striking out "and" after "1983," and by inserting "September 30, 1986, September 30, 1987, and September 30, 1988," after "1984,".

EDUCATIONAL ASSISTANCE TO INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS

SEC. 108. The first sentence of section 787(b) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$26,000,000 for the fiscal year ending September 30, 1986, $28,000,000 for the fiscal year ending September 30, 1987, and $30,000,000 for the fiscal year ending September 30, 1988".

CURRICULUM DEVELOPMENT AND FACULTY TRAINING GRANTS

SEC. 109. Section 788(f) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "$8,000,000 for the fiscal year ending September 30, 1986; $8,000,000 for the fiscal year ending September 30, 1987; and $8,000,000 for the fiscal year ending September 30, 1988".

ADVANCED FINANCIAL DISTRESS ASSISTANCE

SEC. 110. The first sentence of section 788B(h) is amended by inserting before the period a comma and "$4,200,000 for the fiscal year ending September 30, 1986, and $3,800,000 for the fiscal year ending September 30, 1987".

GRADUATE PROGRAMS IN HEALTH ADMINISTRATION

SEC. 111. Section 791(d) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$1,500,000 for the fiscal year ending September 30, 1986, $1,500,000 for the fiscal year ending September 30, 1987, and $1,500,000 for the fiscal year ending September 30, 1988".

TRAINEESHIPS FOR STUDENTS IN OTHER GRADUATE PROGRAMS

SEC. 112. Section 791A(c) is amended by striking out "and" after "1980;" and by inserting before the period a semicolon and "and $500,000 for the fiscal year ending September 30, 1986, and each of the next two fiscal years".

PUBLIC HEALTH TRAINEESHIPS

SEC. 113. Section 792(c) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "$3,000,000 for the fiscal year ending September 30, 1986; $3,075,000 for the fiscal year ending September 30, 1987; and $3,150,000 for the fiscal year ending September 30, 1988".

TRAINING IN PREVENTIVE MEDICINE

SEC. 114. Section 793(c) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$1,600,000 for the fiscal year ending September 30, 1986, $1,600,000 for the fiscal year ending September 30, 1987, and $1,600,000 for the fiscal year ending September 30, 1988".

TITLE II—PROGRAM REVISIONS

SCHOOLS OF CHIROPRACTIC

SEC. 201. (a) The first sentence of section 701(4) is amended—

(1) by striking out "and" after " 'school of veterinary medicine',";

(2) by inserting a comma and "and 'school of chiropractic' " after " 'school of public health' ";

(3) by striking out "and" after "a degree of doctor of veterinary medicine or an equivalent degree,"; and

(4) by inserting "and a degree of doctor of chiropractic or an equivalent degree," before "and including advanced training related to".

(b) Section 701(5) is amended—

(1) by striking out "or" after "pharmacy,"; and

(2) by inserting "or chiropractic," after "public health,".

(c) Section 737 is amended by striking out paragraph (2) and by redesignating paragraphs (3), (4), and (5) as paragraphs (2), (3), and (4), respectively.

TRAINING OF PHYSICIAN ASSISTANTS

SEC. 202. Section 701(8) is amended to read as follows:

"(8)(A) The term 'program for the training of physician assistants' means an educational program which (i) has as its objective the education of individuals who will, upon completion of their studies in the program, be qualified to provide primary health care under the supervision of a physician, and (ii) meets regulations prescribed by the Secretary in accordance with subparagraph (B).

"(B) After consultation with appropriate organizations, the Secretary shall, not later than October 1, 1986, prescribe regulations for programs for the training of physician assistants. Such regulations shall, as a minimum, require that such a program—

"(i) extend for at least one academic year and consist of—

"(I) supervised clinical practice, and

"(II) at least four months (in the aggregate) of classroom instruction,

directed toward preparing students to deliver health care;

"(ii) have an enrollment of not less than eight students; and

"(iii) train students in primary care, disease prevention, health promotion, geriatric medicine, and home health care.".

SCHOOLS OF ALLIED HEALTH

SEC. 203. (a) Section 701(10) is amended—

(1) by inserting "college," before "junior college,"; and

(2) by striking out "in a discipline of allied health leading to a baccalaureate or associate degree (or an equivalent degree of either) or to a more advanced degree" in subparagraph (A) and inserting in lieu thereof "to enable individuals to become allied health professionals or to provide additional training for allied health professionals".

(b) Section 701 is amended by adding at the end thereof the following new paragraph:

"(13) The term 'allied health professional' means an individual—

"(A) who has received a certificate, an associate's degree, a bachelor's degree, a masters' degree, a doctoral degree, or postbaccalaureate training, in a science relating to health care;

"(B) who shares in the responsibility for the delivery of health care services or related services, including—

"(i) services relating to the identification, evaluation, and prevention of diseases and disorders;

"(ii) dietary and nutrition services;

"(iii) health promotion services;

"(iv) rehabilitation services; or

"(v) health systems management services; and

"(C) who has not received a degree of doctor of medicine, a degree of doctor of osteopathy, a degree of doctor of dentistry or an equivalent degree, a degree of doctor of veterinary medicine or an equivalent degree, a degree of doctor of optometry or an equivalent degree, a degree of doctor of podiatry or an equivalent degree, a degree of bachelor of science in pharmacy or an equivalent degree, a degree of doctor of pharmacy or an equivalent degree, a graduate degree in public health or an equivalent degree, a degree of doctor of chiropractic or an equivalent degree, a graduate degree in health administration or an equivalent degree, or a doctoral degree in clinical psychology or an equivalent degree.".

GRADUATE PROGRAMS IN CLINICAL PSYCHOLOGY

SEC. 204. (a) Section 701 (as amended by section 203(b) of this Act) is further amended by adding at the end thereof the following new paragraph:

"(14) The term 'graduate program in clinical psychology' means an accredited graduate program in a public or nonprofit private institution in a State which provides training leading to a doctoral degree in clinical psychology or an equivalent degree.".

(b) Section 701(5) (as amended by section 201(b) of this Act) is further amended—

(1) by striking out "or" after "chiropractic,"; and

(2) by inserting "or a graduate program in clinical psychology," after "health administration,".

(c) Section 737 (as amended by section 201(c) of this Act) is further amended by striking out paragraph (2) (as redesignated by section 201(c) of this Act) and by redesignating paragraphs (3) and (4) (as redesignated by section 201(c) of this Act) as paragraphs (2) and (3), respectively.

NATIONAL ADVISORY COUNCIL ON HEALTH PROFESSIONS EDUCATION

SEC. 205. (a) Section 702(a) is amended by striking out the last sentence and inserting in lieu thereof the following: "Of the appointed members of the Council—

"(1) twelve shall be representatives of the health professions schools assisted under programs authorized under this title, including—

"(A) one representative of each of schools of veterinary medicine, optometry, pharmacy, podiatry, public health, and allied health, and graduate programs in health administration; and

"(B) at least six persons experienced in university administration, at least one of whom shall be a representative of a school described in subparagraph (A);

"(2) two shall be full-time students enrolled in health professions schools; and

"(3) six shall be members of the general public.".

TECHNICAL ASSISTANCE

SEC. 206. Section 709(d) is amended to read as follows:

"(d) Funds appropriated under this title may be used by the Secretary to provide technical assistance in relation to any of the authorities under this title.".

RECOVERY OF ASSISTANCE

SEC. 207. (a) Section 723 is amended to read as follows:

"RECOVERY

"SEC. 723. (a) If at any time within twenty years (or within such shorter period as the Secretary may prescribe by regulation for an interim facility) after the completion of construction of a facility with respect to which funds have been paid under section 720(a)—

"(1)(A) in case of a facility which was an affiliated hospital or outpatient facility with respect to which funds have been paid under section 720(a)(1), the owner of the facility ceases to be a public or other nonprofit agency that would have been qualified to file an application under section 605,

"(B) in case of a facility which was not an affiliated hospital or outpatient facility but was a facility with respect to which funds have been paid under paragraph (1) or (3) of section 720(a), the owner of the facility ceases to be a public or nonprofit school, or

"(C) in case of a facility which was a facility with respect to which funds have been paid under section 720(a)(2), the owner of the facility ceases to be a public or nonprofit entity,

"(2) the facility ceases to be used for the teaching or training purposes (or other purposes permitted under section 722) for which it was constructed, or

"(3) the facility is used for sectarian instruction or as a place for religious worship, the United States shall be entitled to recover from the owner of the facility the base amount prescribed by subsection (c)(1) plus the interest (if any) prescribed by subsection (c)(2).

"(b) The owner of a facility which ceases to be a public or nonprofit agency, school, or entity as described in subparagraph (A), (B), or (C) of subsection (a)(1), as the case may be, or the owner of a facility the use of which changes as described in paragraph (2) or (3) of subsection (a), shall provide the Secretary written notice of such cessation or change of use within 10 days after the date on which such cessation or change of use occurs or within 30 days after the date of enactment of this subsection, whichever is later.

"(c)(1) The base amount that the United States is entitled to recover under subsection (a) is the amount bearing the same ratio to the then value (as determined by the agreement of the parties or in an action brought in the district court of the United States for the district in which the facility is situated) of the facility as the amount of the Federal participation bore to the cost of construction.

"(2)(A) The interest that the United States is entitled to recover under subsection (a) is the interest for the period (if any) described in subparagraph (B) at a rate (determined by the Secretary) based on the average of the bond equivalent rates of ninety-one-day Treasury bills auctioned during that period.

"(B) The period referred to in subparagraph (A) is the period beginning—

"(i) if notice is provided as prescribed by subsection (b), 191 days after the date on which the owner of the facility ceases to be a public or nonprofit agency, school, or entity as described in subparagraph (A), (B), or (C) of subsection (a)(1), as the case may be, or 191 days after the date on which the use of the facility changes as described in paragraph (2) or (3) of subsection (a), or

"(ii) if notice is not provided as prescribed by subsection (b), 11 days after the date on which such cessation or change of use occurs,

and ending on the date the amount the United States is entitled to recover is collected.

"(d) The Secretary may waive the recovery rights of the United States under subsection (a)(2) with respect to a facility (under such conditions as the Secretary may establish by regulation) if the Secretary determines that there is good cause for waiving such rights.

"(e) The right of recovery of the United States under subsection (a) shall not, prior to judgment, constitute a lien on any facility.".

(b) In the case of any facility that was or is constructed on or before the date of enactment of this Act or within 180 days after the date of enactment of this Act, the period described in clause (i) or (ii), as the case may be, of section 723(c)(2)(B) of the Public Health Service Act (as amended by subsection (a) of this section) shall begin no earlier than 181 days after the date of enactment of this Act.

(c) The amendment made by subsection (a) of this section shall not adversely affect other legal rights of the United States.

(d) In addition to the authority of the Secretary of Health and Human Services under subsection (d) of section 723 of the Public Health Service Act (as amended by subsection (a) of this section), the Secretary may waive the recovery rights of the United States under subsection (a) of such section 723 with respect to St. Joseph's Hospital in Omaha, Nebraska, if the Secretary determines that adequate provision has been made, through establishment of an irrevocable trust or other legally enforceable means, to assure that the teaching and other obligations assumed with respect to such St. Joseph's Hospital as a condition of assistance under title VII of the Public Health Service Act will continue to be met.

(e)(1) Section 858(b) is amended—

(A) by striking out "not later than" and inserting in lieu thereof "within"; and

(B) by inserting "or within 30 days after the date of enactment of the Health Professions Training Assistance Act of 1985, whichever is later" before the period.

(2) Section 858(c)(2)(B) is amended by striking out "(1)" and inserting in lieu thereof "(i)".

(3) Section 858(d) is amended by striking out "subsection (a)" and inserting in lieu thereof "subsection (a)(2)".

(4) Section 9(c)(2) of the Nurse Education Amendments of 1985 is amended by striking out "subsection (c)(2)(B)(i) of section 858" and inserting in lieu thereof "clause (i) or (ii), as the case may be, of section 858(c)(2)(B)".

HEALTH EDUCATION ASSISTANCE LOAN PROGRAM

SEC. 208. (a)(1) Section 731(a)(1)(A) is amended by striking out "and" at the end of clause (iii), by redesignating clause (iv) as clause (v), and by inserting after clause (iii) the following:

"(iv) if required under section 3 of the Military Selective Service Act to present himself for and submit to registration under such section, has presented himself and submitted to registration under such section; and".

(2) Section 731(a)(1)(B) is amended by striking out "and" at the end of clause (ii), and by inserting after clause (iii) the following:

"(iv) if required under section 3 of the Military Selective Service Act to present himself for and submit to registration under such section, has presented himself and submitted to registration under such section; and".

(b)(1) Section 731(a)(2)(B) is amended to read as follows:

"(B) provides for repayment of the principal amount of the loan in installments over a period of not less than 10 years (unless sooner repaid) nor more than 25 years beginning not earlier than 9 months nor later than 12 months after the later of—

"(i) the date on which—

"(I) the borrower ceases to be a participant in an accredited internship or residency program of not more than four years in duration;

"(II) the borrower completes the fourth year of an accredited internship or residency program of more than four years in duration; or

"(III) the borrower, if not a participant in a program described in subclause (I) or (II), ceases to carry, at an eligible institution, the normal full-time academic workload as determined by the institution; or

"(ii) the date on which a borrower who is a graduate of an eligible institution ceases to be a participant in a fellowship training program not in excess of two years or a participant in a full-time educational activity not in excess of two years, which—

"(I) is directly related to the health profession for which the borrower prepared at an eligible institution, as determined by the Secretary; and

"(II) may be engaged in by the borrower during such a two-year period which begins within twelve months after the completion of the borrower's participation in a program described in subclause (I) or (II) of clause (i) or prior to the completion of the borrower's participation in such program,

except as provided in subparagraph (C), except that the period of the loan may not exceed 33 years from the date of execution of the note or written agreement evidencing it, and except that the note or other written instrument may contain such provisions relating to repayment in the event of default in the payment of interest or in the payment of the costs of insurance premiums, or other default by the borrower, as may be authorized by regulations of the Secretary in effect at the time the loan is made;".

(2) Section 731(a)(2)(C) is amended—

(A) by inserting "(including any period in such a program described in subclause (I) or subclause (II) of subparagraph (B)(i))" before the comma in clause (ii);

(B) by striking out "or the 33-year period" in clause (vi);

(C) by striking out "or" after "National Health Service Corps," in clause (v); and

(D) by inserting "or (vii) any period not in excess of two years which is described in subparagraph (B)(ii)," after "Domestic Volunteer Service Act of 1973,".

(3)(A) The provisions of clause (i) of section 731(a)(2)(B) of the Public Health Service Act (as amended by paragraph (1) of this

subsection) and the provisions of clauses (ii) and (vi) of section 731(a)(2)(C) of such Act (as amended by subparagraphs (A) and (B) of paragraph (2)) shall not apply to any individual who, prior to the date of enactment of this Act, received a loan insured under subpart I of part C of title VII of such Act.

(B) The provisions of clause (ii) of section 731(a)(2)(B) of the Public Health Service Act and clause (vii) of section 731(a)(2)(C) of such Act (as added by the amendments made by paragraphs (1) and (2)(D) of this subsection, respectively) shall apply to any loan insured under subpart I of part C of title VII of such Act after the date of enactment of this Act.

(4) Within 90 days after the date of enactment of this Act, the Secretary of Health and Human Services shall promulgate regulations to carry out clause (ii) of section 731(a)(2)(B) of the Public Health Service Act and clause (vii) of section 731(a)(2)(C) of such Act (as added by the amendments made by paragraphs (1) and (2)(D) of this subsection, respectively). Such regulations shall—

(A) prescribe criteria for the determination of the types of fellowship training programs and full-time educational activities which will be permitted under such clauses; and

(B) establish procedures for a borrower to apply to the Secretary for a determination concerning whether a particular fellowship training program or full-time educational activity will be permitted under such clauses.

(c)(1) Section 731(b) is amended by striking out "3½" and inserting in lieu thereof "3".

(2) The amendment made by paragraph (1) of this subsection shall apply to any loan insured under subpart I of part C of title VII of the Public Health Service Act after the date of enactment of this Act.

(d) Section 731(c) is amended—

(1) by striking out "section 731(a)(2)(C)" and inserting in lieu thereof "subsection (a)(2)(C)"; and

(2) by inserting before the period a comma and "unless the borrower, in the written agreement described in subsection (a)(2), agrees to make payments during any year or any repayment period in a lesser amount".

(e) Section 732(c) is amended—

(1) by redesignating clauses (1) and (2) of the second sentence as clauses (A) and (B), respectively;

(2) by inserting "(1)" before "The" in the first sentence;

(3) by striking out "2 percent per year" in the first sentence and inserting in lieu thereof "8 percent";

(4) by striking out "in advance, at such times" in the first sentence and inserting in lieu thereof "in advance at the time the loan is made"; and

(5) by adding at the end thereof the following new paragraph:

"(2) The Secretary may not increase the percentage on the principal balance of loans charged pursuant to paragraph (1) for insurance premiums, unless the Secretary has, prior to any such increase—

"(A) requested a qualified public accounting firm to evaluate whether an increase in such percentage is necessary to ensure the solvency of the student loan fund established by section 734, and to determine the amount of such an increase, if necessary; and

"(B) such accounting firm has recommended such an increase and has determined the amount of such increase necessary to ensure the solvency of such fund. The Secretary may not increase such percentage in excess of the maximum percentage permitted by paragraph (1) or increase such percentage by an amount in excess of the amount of the increase determined by a qualified accounting firm pursuant to this paragraph.".

(f) The first sentence of subsection (a) of section 734 and the first sentence of subsection (b) of such section are each amended by inserting "collection or" before "default".

(g)(1) Section 729(a) is amended by inserting "allied health," after "public health," each place it appears.

(2) Section 737 (as amended by sections 201(c) and 204(c) of this Act) is further amended—

(A) by inserting a comma and "allied health," after "public health" in paragraph (1); and

(B) by adding at the end thereof the following new paragraph:

"(4) The term 'school of allied health' means a program in a school of allied health (as defined in section 701(10)) which leads to a masters' degree or a doctoral degree.".

(h) Section 728(a) (as amended by section 101 of this Act) is further amended by inserting after the first sentence the following new sentence: "If the total amount of new loans made and installments paid pursuant to lines of credit in any fiscal year is less than the ceiling established for such year, the difference between the loans made and installments paid and the ceiling shall be carried over to the next fiscal year and added to the ceiling applicable to that fiscal year.".

(i) Section 731(a)(2) is amended by striking out "and" at the end of subparagraph (F), by redesignating subparagraph (G) as subparagraph (H), and by inserting after subparagraph (F) the following new subparagraph:

"(G) provides that the check for the proceeds of the loan shall be made payable jointly to the borrower and the eligible institution in which the borrower is enrolled; and".

HEALTH PROFESSIONS STUDENT LOAN PROGRAM

SEC. 209. (a)(1) Section 740(b)(4) is amended by inserting "doctor of pharmacy or an equivalent degree," before "doctor of podiatry".

(2) Section 741(b) is amended by inserting "doctor of pharmacy or an equivalent degree," before "doctor of podiatry".

(3) Section 741(f)(1)(A) is amended by inserting "doctor of pharmacy or an equivalent degree," before "or doctor of podiatry or an equivalent degree".

(4) Subpart II of part C of title VII is amended by adding at the end thereof the following new section:

"DEFINITION

"SEC. 745. For purposes of this subpart, the term 'school of pharmacy' means a public or nonprofit private school in a State that provides training leading to a degree of bachelor of science in pharmacy or an equivalent degree or a degree of doctor of pharmacy or an equivalent degree and which is accredited in the manner described in section 701(5).".

(b) Section 741(b) (as amended by subsection (a)(2) of this section) is further amended by inserting "(1) who is" after "student" and by inserting before the period a comma and the following: "(2) who, if pursuing a full-time course of study at the school leading to a degree of doctor of medicine or doctor of osteopathy, is of exceptional financial need (as defined by regulations of the Secretary), and (3) who, if required under section 3 of the Military Selective Service Act to present himself for and submit to registration under such section, has presented himself and submitted to registration under such section.".

(c)(1) Section 741(c) is amended to read as follows:

"(c) Such loans shall be repayable in equal or graduated periodic installments (with the right of the borrower to accelerate repayment) over the ten-year period which begins one year after the student ceases to pursue a full-time course of study at a school of medicine, osteopathy, dentistry, pharmacy, podiatry, optometry, veterinary medicine, excluding from such ten-year period—

"(1) all periods—

"(A) not in excess of three years of active duty performed by the borrower as a member of a uniformed service;

"(B) not in excess of three years during which the borrower serves as a volunteer under the Peace Corps Act; and

"(C) during which the borrower participates in advanced professional training, including internships and residencies; and

"(2) a period—

"(A) not in excess of two years during which a borrower who is a full-time student in such a school leaves the school, with the intent to return to such school as a full-time student, in order to engage in a full-time educational activity which is directly related to the health profession for which the borrower is preparing, as determined by the Secretary; or

"(B) not in excess of two years during which a borrower who is a graduate of such a school is a participant in a fellowship training program or a full-time educational activity which—

"(i) is directly related to the health profession for which such borrower prepared at such school, as determined by the Secretary; and

"(ii) may be engaged in by the borrower during such a two-year period which begins within twelve months after the completion of the borrower's participation in advanced professional training described in paragraph (1)(C) or prior to the completion of such borrower's participation in such training.".

(2) The provisions of section 741(c)(2)(A) of the Public Health Service Act (as added by the amendment made by paragraph (1) of this subsection) shall apply to—

(A) any individual who received a loan under subpart II of part C of title VII of the Public Health Service Act and to whom the provisions of such section (if such provisions had been in effect) would have applied between June 17, 1982, and July 7, 1983; and

(B) any individual who, after the date of enactment of this Act, is a full-time student in a school referred to in such section and who (prior to, on, or after the date of enactment of this Act), receives a loan under such subpart to assist such student in such student's studies in such school.

(3) The provisions of section 741(c)(2)(B) of the Public Health Service Act (as added by the amendment made by paragraph (1) of this subsection) shall apply to any loan made under subpart II of part C of title VII of such Act after the date of enactment of this Act.

(4) Within 90 days after the date of enactment of this Act, the Secretary of Health and Human Services shall promulgate regulations to carry out section 741(c)(2) of the Public Health Service Act (as added by the amendment made by paragraph (1) of this

subsection) with respect to any loan made under subpart II of part C of title VII of such Act on or after the date of enactment of this Act. Such regulations shall—

(A) with respect to the provisions of subparagraph (A) of such section—

(i) prescribe criteria for the determination of the types of full-time educational activities which will be permitted under such subparagraph;

(ii) require the school in which the borrower was enrolled as a full-time student to determine, prior to the borrower's leaving such school, whether an educational activity in which the student proposes to engage qualifies for purposes of such subparagraph and such regulations; and

(B) with respect to the provisions of subparagraph (B) of such section—

(i) prescribe criteria for the determination of the types of fellowship training programs and full-time educational activities which will be permitted under such subparagraph; and

(ii) establish procedures for a borrower to apply to the Secretary for a determination concerning whether a particular fellowship training program or full-time educational activity will be permitted under such subparagraph.

(d) Section 741(i) is amended to read as follows:

"(i) Subject to regulations of the Secretary, a school may assess a charge with respect to loans made under this subpart to cover the costs of insuring against cancellation of liability under subsection (d).".

(e) Section 741(j) is amended—

(1) by inserting "and in accordance with this section" after "Secretary" in the first sentence;

(2) by striking out "may" in such sentence and inserting in lieu thereof "shall"; and

(3) by striking out the second sentence and inserting in lieu thereof the following: "No such charge may be made if the payment of such installment or the filing of such evidence is made within 60 days after the date on which such installment or filing is due. The amount of any such charge may not exceed an amount equal to 6 percent of the amount of such installment.".

(f) Section 741 is amended by adding at the end thereof the following new subsection:

"(m) The Secretary is authorized to attempt to collect any loan which was made under this subpart, which is in default, and which was referred to the Secretary by a school with which the Secretary has an agreement under this subpart, on behalf of that school under such terms and conditions as the Secretary may prescribe (including reimbursement from the school's student loan fund for expenses the Secretary may reasonably incur in attempting collection), but only if the school has complied with such requirements as the Secretary may specify by regulation with respect to the collection of loans under this subpart. A loan so referred shall be treated as a debt subject to section 5514 of title 5, United States Code. Amounts collected shall be deposited in the school's student loan fund. Whenever the Secretary desires the institution of a civil action regarding any such loan, the Secretary shall refer the matter to the Attorney General for appropriate action.".

(g) Section 742(b) is amended by adding at the end thereof the following new paragraph:

"(5) Any funds from a student loan fund established under this subpart which are returned to the Secretary in any fiscal year shall be available for allotment under this subpart, in such fiscal year and the fiscal year succeeding such fiscal year, to schools which, during the period beginning on July 1, 1972, and ending on September 30, 1985, established student loan funds with Federal capital contributions under this subpart.".

(h) Subpart II of part C of title VII (as amended by subsection (a)(4) of this subsection) is further amended—

(1) by redesignating section 745 (as added by subsection (a)(4) of this section) as section 747; and

(2) by inserting after section 744 the following new sections:

"STUDENT LOAN INFORMATION BY INSTITUTIONS

"SEC. 745. (a) With respect to loans made by a school under this subpart after June 30, 1986, each school, in order to carry out the provisions of sections 740 and 741, shall, at any time such school makes such a loan to a student under this subpart, provide thorough and adequate loan information on loans made under this subpart to the student. The loan information required to be provided to the student by this subsection shall include—

"(1) the yearly and cumulative maximum amounts that may be borrowed by the student;

"(2) the terms under which repayment of the loan will begin;

"(3) the maximum number of years in which the loan must be repaid;

"(4) the interest rate that will be paid by the borrower and the minimum amount of the required monthly payment;

"(5) the amount of any other fees charged to the borrower by the lender;

"(6) any options the borrower may have for deferral, cancellation, prepayment, consolidation, or other refinancing of the loan;

"(7) a definition of default on the loan and a specification of the consequences which will result to the borrower if the borrower defaults, including a description of any arrangements which may be made with credit bureau organizations;

"(8) to the extent practicable, the effect of accepting the loan on the eligibility of the borrower for other forms of student assistance; and

"(9) a description of the actions that may be taken by the Federal Government to collect the loan, including a description of the type of information concerning the borrower that the Federal Government may disclose to (A) officers, employees, or agents of the Department of Health and Human Services, (B) officers, employees, or agents of schools with which the Secretary has an agreement under this subpart, or (C) any other person involved in the collection of a loan under this subpart.

"(b) Each school shall, immediately prior to the graduation from such school of a student who receives a loan under this subpart after June 30, 1986, provide such student with a statement specifying—

"(1) each amount borrowed by the student under this subpart;

"(2) the total amount borrowed by the student under this subpart; and

"(3) a schedule for the repayment of the amounts borrowed under this subpart, including the number, amount, and frequency of payments to be made.

"PROCEDURES FOR APPEAL OF TERMINATIONS

"SEC. 746. In any case in which the Secretary intends to terminate an agreement with a school under this subpart, the Secretary shall provide the school with a written notice specifying such intention and stating that the school may request a formal hearing with respect to such termination. If the school requests such a hearing within 30 days after the receipt of such notice, the Secretary shall provide such school with a hearing conducted by an administrative law judge.".

(i) Section 743 is amended by striking out "1987" each place it appears and inserting in lieu thereof "1991".

(j)(1) Section 740 is amended by adding at the end thereof the following new subsection:

"(c)(1) Any standard established by the Secretary by regulation for the collection by schools of medicine, osteopathy, dentistry, pharmacy, podiatry, optometry, or veterinary medicine of loans made pursuant to loan agreements under this subpart shall provide that the failure of any such school to collect such loans shall be measured in accordance with this subsection.

"(2) The measurement of a school's failure to collect loans made under this subpart shall be the ratio (stated as a percentage) that the defaulted principal amount outstanding of such school bears to the matured loans of such school.

"(3) For purposes of this subsection—

"(A) the term 'default' means the failure of a borrower of a loan made under this subpart to—

"(i) make an installment payment when due; or

"(ii) comply with any other term of the promissory note for such loan,

except that a loan made under this subpart shall not be considered to be in default if the loan is discharged in bankruptcy or if the school reasonably concludes from written contacts with the borrower that the borrower intends to repay the loan;

"(B) the term 'defaulted principal amount outstanding' means the total amount borrowed from the loan fund of a school that has reached the repayment stage (minus any principal amount repaid or cancelled) on loans—

"(i) repayable monthly and in default for at least 120 days; and

"(ii) repayable less frequently than monthly and in default for at least 180 days;

"(C) the term 'grace period' means the period of one year beginning on the date on which the borrower ceases to pursue a full-time course of study at a school of medicine, osteopathy, dentistry, pharmacy, podiatry, optometry, or veterinary medicine; and

"(D) the term 'matured loans' means the total principal amount of all loans made by a school under this subpart minus the total principal amount of loans made by such school to students who are—

"(i) enrolled in a full-time course of study at such school; or

"(ii) in their grace period.".

(2) Section 835(c)(3) is amended—

(A) by striking out subparagraph (C) and inserting in lieu thereof the following:

"(C) the term 'grace period' means the period of nine months beginning on the date on which the borrower ceases to pursue a full-time or half-time course of study at a school of nursing; and"; and

(B) by striking out "first" in subparagraph (D)(ii).

SCHOLARSHIPS FOR FIRST-YEAR STUDENTS OF EXCEPTIONAL FINANCIAL NEED

SEC. 210. (a) Section 758(b) is amended by redesignating paragraph (3) as paragraph

(6) and by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) A scholarship provided to a student for a school year under a grant under subsection (a) shall consist of—

"(A) payment to, or (in accordance with paragraph (4)) on behalf of, the student of the amount (except as provided in section 710) of—

"(i) the tuition of the student in such school year; and

"(ii) all other reasonable educational expenses, including fees, books, and laboratory expenses, incurred by the student in such school year; and

"(B) payment to the student of a stipend of $400 per month (adjusted in accordance with paragraph (5)) for each of the 12 consecutive months beginning with the first month of such school year.

"(3) Notwithstanding paragraph (2), the total scholarship award to a student for each year shall not exceed the cost of attendance for that year at the educational institution attended by the student (as determined by such educational institution).

"(4) The Secretary may contract with an educational institution in which is enrolled a student who has received a scholarship with a grant under subsection (a) for the payment to the educational institution of the amounts of tuition and other reasonable educational expenses described in paragraph (2)(A). Payment to such an educational institution may be made without regard to section 3324 of title 31, United States Code.

"(5) The amount of the monthly stipend, specified in paragraph (2)(B) and as previously adjusted (if at all) in accordance with this paragraph, shall be increased by the Secretary for each school year by an amount (rounded to the next highest multiple of $1) equal to the amount of such stipend multiplied by the overall percentage (as set forth in the report transmitted to the Congress under section 5305 of title 5, United States Code) of the adjustment (if such adjustment is an increase) in the rates of pay under the General Schedule made effective in the fiscal year in which such school year ends.".

(b) Section 338A(g)(1) is amended by striking out "or under section 758 (relating to scholarships for first-year students of exceptional financial need),".

CAPITATION GRANTS FOR SCHOOLS OF PUBLIC HEALTH

SEC. 211. (a)(1) Section 770 is amended to read as follows:

"CAPITATION GRANTS FOR SCHOOLS OF PUBLIC HEALTH

"SEC. 770. (a)(1) The Secretary shall make annual grants to schools of public health for the support of the education programs of such schools. The amount of the annual grant to each such school with an approved application shall be computed for each fiscal year in accordance with paragraphs (2) and (3).

"(2) Each school of public health shall receive for the fiscal year ending September 30, 1986, and for each of the next two fiscal years, an amount equal to the product of—

"(A) $1,400, and

"(B) the sum of (i) the number of full-time students enrolled in degree programs in such school in the school year beginning in such fiscal year, and (ii) the number of full-time equivalents of part-time students enrolled in degree programs in such school, determined pursuant to paragraph (3), for such school for such school year.

"(3) For purposes of paragraph (2), the number of full-time equivalents of part-time students for a school of public health for any school year is a number equal to—

"(A) the total number of credit hours of instruction in such year for which part-time students of such school, who are pursuing a course of study leading to a graduate degree in public health or an equivalent degree, have enrolled, divided by

"(B) the greater of (i) the number of credit hours of instruction which a full-time student of such school was required to take in such year, or (ii) 9,

rounded to the next highest whole number.

"(b) Notwithstanding subsection (a), if the aggregate of the amounts of the grants to be made in accordance with such subsection for any fiscal year to schools of public health with approved applications exceeds the total of the amounts appropriated for such grants for such schools under subsection (e), the amount of a school's grant for such fiscal year shall be an amount which bears the same ratio to the amount determined for the school under subsection (a) as the total of the amounts appropriated for that year under subsection (e) for grants to schools of public health bears to the amount required to make grants in accordance with subsection (a) to each of the schools of public health with approved applications.

"(c)(1) For purposes of this section, regulations of the Secretary shall include provisions relating to the determination of the number of students enrolled in a school or in a particular year-class in a school on the basis of estimates, on the basis of the number of students who in an earlier year were enrolled in a school or in a particular year-class, or on such other basis as the Secretary deems appropriate for making such determination, and shall include methods of making such determination when a school or a year-class was not in existence in an earlier year at a school.

"(2) For purposes of this section, the term 'full-time students' (whether such term is used by itself or in connection with a particular year-class) means students pursuing a full-time course of study leading to a graduate degree in public health or equivalent degree.

"(d) In the case of a new school of public health which applies for a grant under this section in the fiscal year preceding the fiscal year in which it will admit its first class, the enrollment for purposes of subsection (a) shall be the number of full-time students which the Secretary determines, on the basis of assurances provided by the school, will be enrolled in the school, in the fiscal year after the fiscal year in which the grant is made.

"(e) For payments under this section, there are authorized to be appropriated $5,000,000 for the fiscal year ending September 30, 1986, $5,125,000 for the fiscal year ending September 30, 1987, and $5,250,000 for the fiscal year ending September 30, 1988.".

(2) Section 731(a)(1)(A)(ii) is amended by striking out "(as defined in section 770(c)(2))" and inserting in lieu thereof "(as defined in section 770(c)(2) (as such section was in effect on September 30, 1985))".

(b) Section 771 is amended to read as follows:

"ELIGIBILITY FOR CAPITATION GRANTS

"SEC. 771. (a)(1) The Secretary shall not make a grant under section 770 to any school of public health in a fiscal year beginning after September 30, 1985, unless the application for the grant contains, or is supported by, assurances satisfactory to the Secretary that—

"(A) the enrollment of full-time equivalent students enrolled in degree programs in the school in the school year beginning in the fiscal year in which the grant applied for is to be made will not be less than the enrollment of such students in degree programs in the school in the school year beginning in the fiscal year ending September 30, 1983; and

"(B) the applicant will expend in carrying out its functions as a school of public health during the fiscal year for which such grant is sought, an amount of funds (other than funds for construction as determined by the Secretary) from non-Federal sources which is at least as great as the amount of funds expended by such applicant for such purpose (excluding expenditures of a nonrecurring nature) in the fiscal year preceding the fiscal year for which such grant is sought.

"(2) For purposes of subsection (a)(1)(A), the number of full-time equivalent students enrolled in a degree program in a school in a school year is equal to the sum calculated under section 770(a)(2)(B) for that school year.

"(b) The Secretary may waive (in whole or in part) application to a school of public health of the requirement of subsection (a)(1)(A) if the Secretary determines, after receiving the written recommendation of the appropriate accreditation body or bodies (approved for such purpose by the Commissioner of Education) that compliance by such school with such requirement will prevent it from maintaining its accreditation.".

(c)(1) Section 772(b) is amended—

(A) by striking out "or subsection (a) or (b) of section 788";

(B) by striking out "medicine, osteopathy, dentistry, public health, veterinary medicine, optometry, pharmacy, or podiatry," and inserting in lieu thereof "public health,";

(C) by striking out "Commissioner of Education" and inserting in lieu thereof "Secretary of Education"; and

(D) by striking out "Commissioner" each place it appears and inserting in lieu thereof "Secretary of Education".

(2) The section heading for section 772 is amended to read as follows:

"APPLICATIONS FOR CAPITATION GRANTS".

(d) The heading for part E of title VII is amended to read as follows:

"PART E—GRANTS TO IMPROVE THE QUALITY OF SCHOOLS OF PUBLIC HEALTH".

DEPARTMENTS OF FAMILY MEDICINE

SEC. 212. Section 780 is amended by redesignating subsection (c) (as amended by section 103 of this Act) as subsection (d) and by inserting after subsection (b) the following new subsection:

"(c) In making grants under subsection (a), the Secretary shall give priority to applicants that demonstrate to the satisfaction of the Secretary a commitment to family medicine in their medical education training programs.".

AREA HEALTH EDUCATION CENTERS

SEC. 213. (a) Section 781(a)(2) is amended by redesignating subparagraphs (A), (B), and (C) as clauses (i), (ii), and (iii), respectively, and by striking out all that precedes clause (i) (as so redesignated) and inserting in lieu thereof the following:

"(2)(A) The Secretary shall enter into contracts with schools of medicine and osteopathy—

"(i) which have previously received Federal financial assistance for an area health education center program under section 802 of the Health Professionals Educational Assistance Act of 1976 in fiscal year 1979 or under paragraph (1), or

"(ii) which are receiving assistance under paragraph (1),

to carry out projects described in subparagraph (B) through area health education centers for which Federal financial assistance was provided under paragraph (1) and which are no longer eligible to receive such assistance.

"(B) Projects for which assistance may be provided under subparagraph (A) are—".

(b) The last sentence of section 781(g) is amended by striking out "may" and inserting in lieu thereof "shall".

(c) Section 781(d)(2)(F) is amended to read as follows:

"(F) conduct interdisciplinary training and practice involving physicians and other health personnel including, where practicable, physician assistants and nurse practitioners;".

GENERAL INTERNAL MEDICINE AND GENERAL PEDIATRICS

SEC. 214. Section 784 is amended by redesignating subsection (b) (as amended by section 106 of this Act) as subsection (c) and by inserting after subsection (a) the following new subsection:

"(b) In making grants and entering into contracts under subsection (a), the Secretary shall give priority to applicants that demonstrate to the satisfaction of the Secretary a commitment to general internal medicine and general pediatrics in their medical education training programs.".

FAMILY MEDICINE AND GENERAL DENTISTRY

SEC. 215. (a) Section 786(b) is amended—

(1) by inserting "or an approved advanced educational program in the general practice of dentistry" before the semicolon in paragraph (1); and

(2) by striking out "residents" in paragraph (2) and inserting in lieu thereof "participants".

(b) Section 786 is amended by redesignating subsection (c) (as amended by section 107 of this Act) as subsection (d) and by inserting after subsection (b) the following new subsection:

"(c) In making grants and entering into contracts under subsection (a), the Secretary shall give priority to applicants that demonstrate to the satisfaction of the Secretary a commitment to family medicine in their medical education training programs.".

(c) Section 786(d) (as amended by section 107 of this Act and redesignated by subsection (b) of this section) is further amended by inserting before the period in the second sentence a comma and "and shall obligate not less than 7.5 percent of such amounts in each such fiscal year for grants under subsection (b)".

EDUCATIONAL ASSISTANCE TO INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS

SEC. 216. (a) Section 787(a)(1) is amended—

(1) by inserting "chiropractic," after "allied health,"; and

(2) by inserting after "podiatry" a comma and "public and nonprofit private schools which offer graduate programs in clinical psychology,".

(b) Section 787(a)(2) is amended—

(1) by striking out "and" after the last comma in subparagraph (D);

(2) by striking out the period at the end of subparagraph (E) and inserting in lieu thereof a comma and "and"; and

(3) by inserting after subparagraph (E) the following:

"(F) paying such stipends as the Secretary may determine for such individuals for any period of health professions education at a school of medicine, osteopathy, or dentistry. The term 'regular course of education of such a school' as used in subparagraph (D) includes a graduate program in clinical psychology.".

(c) Section 787(b) is amended by adding at the end thereof the following new sentence: "Of the funds appropriated under this section for any fiscal year, 20 percent shall be obligated for stipends under subsection (a)(2)(F) to individuals of exceptional financial need (as defined by regulations promulgated by the Secretary under section 758) who are students at schools of medicine, osteopathy, or dentistry.".

SPECIAL PROJECTS

SEC. 217. (a)(1) Section 788(a)(1) is amended to read as follows:

"(a)(1) The Secretary may make grants to maintain and improve schools which provide the first or last two years of education leading to the degree of doctor of medicine or osteopathy. Grants provided under this paragraph to schools which were in existence on September 30, 1985, may be used for construction and the purchase of equipment.".

(2) Paragraph (2) of section 788(a) is repealed and paragraph (3) of such section is redesignated as paragraph (2).

(3) Section 788(a)(2) (as redesignated by paragraph (2) of this subsection) is amended by inserting "or last" after "the first", by inserting "or osteopathy" after "medicine" and by inserting "or be operated jointly with a school that is accredited by" after "accredited by".

(b) Section 788(b) is amended to read as follows:

"(b)(1) The Secretary may make grants to and enter into contracts with any health profession, allied health profession, or nurse training institution, or any other public or nonprofit private entity for projects in areas such as—

"(A) health promotion and disease prevention;

"(B) curriculum development and training in health policy and policy analysis, including curriculum development and training in areas such as—

"(i) the organization, delivery, and financing of health care;

"(ii) the determinants of health and the role of medicine in health; and

"(iii) the promotion of economy in health professions teaching, health care practice, and health care systems management;

"(C) curriculum development in clinical nutrition;

"(D) the development of initiatives for assuring the competence of health professionals; and

"(E) curriculum and program development and training in applying the social and behavioral sciences to the study of health and health care delivery issues.

"(2)(A) Of the amounts available for grants and contracts under this subsection from amounts appropriated under subsection (g), at least 75 percent shall be obligated for grants to and contracts with health professions institutions, allied health institutions, and nurse training institutions.

"(B) Any application for a grant to institutions described in subparagraph (A) shall be subject to appropriate peer review by peer review groups composed principally of non-Federal experts.

"(C) The Secretary may not approve or disapprove an application for a grant to an institution described in subparagraph (A) unless the Secretary has received recommendations with respect to such application from the appropriate peer review group required under subparagraph (B) and has consulted with the National Advisory Council on Health Professions Education with respect to such application.

"(3) Of the amounts available for grants and contracts under this subsection from amounts appropriated under subsection (g), not more than 25 percent shall be obligated for grants to and contracts with public and nonprofit entities which are not health professions institutions, allied health institutions, or nurse training institutions.".

(c) Section 788(d) is amended to read as follows:

"(d)(1) The Secretary may make grants to and enter into contracts with accredited health professions schools referred to in section 701(4) or 701(10) and programs referred to in section 701(8) to assist in meeting the costs of such schools or programs of providing projects to—

"(A) improve the training of health professionals in geriatrics;

"(B) develop and disseminate curricula relating to the treatment of the health problems of elderly individuals;

"(C) expand and strengthen instruction in methods of such treatment;

"(D) support the training and retraining of faculty to provide such instruction;

"(E) support continuing education of health professionals and allied health professionals who provide such treatment; and

"(F) establish new affiliations with nursing homes, chronic and acute disease hospitals, ambulatory care centers, and senior centers in order to provide students with clinical training in geriatric medicine.

"(2)(A) Any application for a grant or contract under this subsection shall be subject to appropriate peer review by peer review groups composed principally of non-Federal experts.

"(B) The Secretary may not approve or disapprove an application for a grant or contract under this subsection unless the Secretary has received recommendations with respect to such application from the appropriate peer review group required under subparagraph (A) and has consulted with the National Advisory Council on Health Professions Education with respect to such application.".

(d) Section 788(f) (as amended by section 109 of this Act) is further amended by adding at the end thereof the following new sentence: "Of the amounts appropriated for each fiscal year to carry out this section—

"(1) 25 percent of such amount for the fiscal year ending September 30, 1986; and

"(2) 37.5 percent of such amount for each of the fiscal years ending September 30, 1987, and September 30, 1988,

shall be available to carry out subsection (d).".

(e) Section 788 is amended by redesignating subsection (f) (as amended by section 109 of this Act and subsection (d) of this section) as subsection (g) and by inserting after subsection (e) the following:

"(f) The Secretary may make grants to schools of veterinary medicine for—

"(1) the development of curricula for training in the care of animals used in research, the treatment of animals while

being used in research, and the development of alternatives to the use of animals in research;

"(2) the provision of such training; and

"(3) large animal care and research.".

(f) The heading for section 788 is amended to read as follows:

"TWO-YEAR SCHOOLS OF MEDICINE, INTERDISCIPLINARY TRAINING, AND CURRICULUM DEVELOPMENT".

ADVANCED FINANCIAL DISTRESS ASSISTANCE

SEC. 218. Subsections (b)(1) and (f) of section 788B are each amended by striking out "five" and inserting in lieu thereof "six".

GRADUATE PROGRAMS IN HEALTH ADMINISTRATION

SEC. 219. Section 791(c)(2)(A)(i) is amended by inserting before the semicolon a comma and "except that in any case in which the number of minority students enrolled in the graduate educational programs of such entity in such school year will exceed an amount equal to 45 percent of the number of all students that will be enrolled in such programs in such school year, such application shall only be required to contain assurances that at least 20 individuals will complete such programs in such school year".

PROGRAM ELIMINATIONS

SEC. 220. (a) Section 703 is repealed.

(b) Section 708(c) is repealed.

(c) Part D of title VII is repealed.

(d) Section 782 is repealed.

(e) Section 785 is repealed.

(f)(1) Section 788A is repealed.

(2) The second sentence of section 788B(a) is amended by inserting "(as such section was in effect prior to October 1, 1985)" after "section 788A".

(3) Section 788B(f) (as amended by section 218 of this Act) is further amended by striking out the last sentence.

(4) Section 788B(h) (as amended by section 110 of this Act) is further amended—

(A) by striking out "and section 788A" in the first sentence; and

(B) by striking out the second sentence.

(g) Section 789 is repealed.

ANALYSIS OF FINANCIAL DISINCENTIVES TO CAREER CHOICES IN HEALTH PROFESSIONS

SEC. 221. By October 1, 1986, the Secretary of Health and Human Services shall prepare and transmit to the Congress a report which contains—

(1) an analysis of any financial disincentive to graduates of health professions schools which affects the specialty of practice chosen by such graduates or the decision of such graduates to practice their profession in an area which lacks an adequate number of health care professionals; and

(2) recommendations for legislation and administrative action to correct any disincentives which are identified pursuant to clause (1) and which are contrary to the achievement of national health goals, including recommendations concerning the appropriateness of providing financial assistance to mitigate such disincentives.

STUDY ON COMPLIANCE WITH SELECTIVE SERVICE ACT

SEC. 222. The Secretary of Health and Human Services, in cooperation with the Director of Selective Service, shall conduct a study to determine if health professions schools are engaged in a pattern or practice of failure to comply with section 12(f) of the Military Selective Service Act (50 U.S.C. App. 462(f)) (or regulations issued under such section) or are engaged in a pattern or practice of providing loans or work assistance to persons who are required to register under section 3 of such Act (and any proclamation of the President and regulations prescribed under that section) and have not so registered. The Secretary shall complete the study and report its results to the Congress not later than one year after the date of enactment of this Act.

STUDY OF THE ROLE OF ALLIED HEALTH PERSONNEL IN HEALTH CARE DELIVERY

SEC. 223. (a)(1) The Secretary of Health and Human Services shall arrange for the conduct of a study concerning the role of allied health personnel in health care delivery. The Secretary shall request the National Academy of Sciences to conduct the study under an arrangement under which the actual expenses incurred by the Academy in conducting such study will be paid by the Secretary and the Academy will prepare the report required by subsection (c). If the National Academy of Sciences is willing to do so, the Secretary shall enter into such an arrangement with the Academy for the conduct of the study.

(2) If the National Academy of Sciences is unwilling to conduct the study required by paragraph (1) under the type of arrangement described in such paragraph, the Secretary shall enter into a similar arrangement with one or more appropriate nonprofit private entities.

(b) The study required by subsection (a) shall—

(1) assess the role of allied health personnel in health care delivery;

(2) identify projected needs, availability, and requirements of various types of health care delivery systems for each type of allied health personnel;

(3) investigate current practices under which each type of allied health personnel obtain licenses, credentials, and accreditation;

(4) assess changes in programs and curricula for the education of allied personnel and in the delivery of services by such personnel which are necessary to meet the needs and requirements identified pursuant to paragraph (2); and

(5) assess the role of the Federal, State, and local governments, educational institutions, and health care facilities in meeting the needs and requirements identified pursuant to paragraph (2).

(c) By October 1, 1987, the Secretary of Health and Human Services shall transmit to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, and make available to the public, a report—

(1) describing the study conducted under this section;

(2) containing a statement of the data obtained under such study; and

(3) specifying such recommendations for legislation and administrative action as the Secretary considers appropriate.

STUDY OF THE SUPPLY OF, AND REQUIREMENTS FOR, HEALTH PROFESSIONALS

SEC. 224. (a) The Secretary of Health and Human Services shall conduct or enter into contracts for the conduct of analytic and descriptive studies of chiropractors, clinical psychologists, veterinarians, optometrists, pharmacists, podiatrists, public health professionals, and health administrators. The studies shall include evaluations and projections of the supply of, and requirements for, each such profession by specialty and geographic location. The Secretary shall include in the report submitted on October 1, 1987, under section 708(d)(1) of the Public Health Service Act the results of the studies conducted under this subsection.

(b) The authority of the Secretary of Health and Human Services to enter into contracts under subsection (a) shall be effective for any fiscal year only to the extent or in such amounts as are provided in advance by appropriation Acts.

STUDY OF THE DELIVERY OF HEALTH CARE SERVICES TO HOMELESS INDIVIDUALS

SEC. 225. (a) The Secretary of Health and Human Services shall arrange, in accordance with subsection (c), for the conduct of a study of the delivery of inpatient and outpatient health care services to homeless individuals. Such study shall include—

(1) an evaluation of whether eligibility requirements in existing health care programs prevent homeless individuals from receiving health care services;

(2) an evaluation of the efficiency of the delivery of health care services to homeless individuals; and

(3) recommendations for activities by Federal, State, and local governments and private entities that would improve the availability of health care service delivery to homeless individuals.

(b) The Secretary shall report the results of the study required by subsection (a) to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives not later than September 30, 1986.

(c)(1) The Secretary shall request the National Academy of Sciences, acting through the Institute of Medicine, to conduct the study required by subsection (a) under an arrangement whereby the actual expenses incurred by the Academy directly related to the conduct of such study will be paid by the Secretary. If the Academy agrees to such request, the Secretary shall enter into such an agreement with the Academy.

(2) If the National Academy of Sciences declines the Secretary's request to conduct such study under such arrangement, then the Secretary, after consultation with the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, shall enter into a similar arrangement with another appropriate public or nonprofit entity to conduct such study.

RECOVERY OF ASSISTANCE FOR COMMUNITY MENTAL HEALTH CENTERS

SEC. 226. (a) Section 2115 is amended to read as follows:

"RECOVERY

"SEC. 2115. (a) If any facility with respect to which funds have been paid under the Community Mental Health Centers Act (as such Act was in effect prior to October 1, 1981) is, at any time within twenty years after the completion of remodeling, construction, or expansion or after the date of its acquisition—

"(1) sold or transferred to any entity (A) which would not have been qualified to file an application under section 222 of such Act (as such section was in effect prior to October 1, 1981) or (B) which is disapproved as a transferee by the State mental health agency or by another entity designated by the chief executive officer of the State, or

"(2) ceases to be used by a community mental health center in the provision of comprehensive mental health services,

the United States shall be entitled to recover from the transferor, transferee, or owner

of the facility, the base amount prescribed by subsection (c)(1) plus the interest (if any) prescribed by subsection (c)(2).

"(b) The transferor and transferee of a facility that is sold or transferred as described in subsection (a)(1), or the owner of a facility the use of which changes as described in subsection (a)(2), shall provide the Secretary written notice of such sale, transfer, or change within 10 days after the date on which such sale, transfer, or cessation of use occurs or within 30 days after the date of enactment of this subsection, whichever is later.

"(c)(1) The base amount that the United States is entitled to recover under subsection (a) is the amount bearing the same ratio to the then value (as determined by the agreement of the parties or in an action brought in the district court of the United States for the district in which the facility is situated) of so much of the facility as constituted an approved project or projects as the amount of the Federal participation bore to the cost of the remodeling, construction, expansion, or acquisition of the project or projects.

"(2)(A) The interest that the United States is entitled to recover under subsection (a) is the interest for the period (if any) described in subparagraph (B) at a rate (determined by the Secretary) based on the average of the bond equivalent rates of ninety-one-day Treasury bills auctioned during that period.

"(B) The period referred to in subparagraph (A) is the period beginning—

"(i) if notice is provided as prescribed by subsection (b), 191 days after the date on which such sale, transfer, or cessation of use occurs, or

"(ii) if notice is not provided as prescribed by subsection (b), 11 days after such sale, transfer, or cessation of use occurs,

and ending on the date the amount the United States is entitled to recover is collected.

"(d) The Secretary may waive the recovery rights of the United States under subsection (a)(2) with respect to a facility (under such conditions as the Secretary may establish by regulation) if the Secretary determines that there is good cause for waiving such rights.

"(e) The right of recovery of the United States under subsection (a) shall not, prior to judgment, constitute a lien on any facility.".

(b) In the case of any facility that was or is constructed, remodeled, expanded, or acquired on or before the date of enactment of this Act or within 180 days after the date of enactment of this Act, the period described in clause (i) or (ii), as the case may be, of section 2115(c)(2)(B) of the Public Health Service Act (as amended by subsection (a) of this section) shall begin no earlier than 181 days after the date of enactment of this Act.

(c) The amendments made by subsection (a) of this section shall not adversely affect other legal rights of the United States.

NURSING EDUCATION IN GERIATRICS

SEC. 227. (a)(1) Section 820(a) is amended by redesignating paragraphs (4), (5), (6), (7), and (8) as paragraphs (5), (6), (7), (8), and (9), respectively, and by inserting after paragraph (3) the following new paragraph:

"(4) demonstrate improved geriatric training in preventive care, acute care, and long-term care (including home health care and institutional care);".

(2) Section 820(d) is amended—

(A) by striking out "paragraphs (1) through (5)" in paragraph (1) and inserting in lieu thereof "paragraphs (1) through (6)";

(B) by striking out "paragraphs (6), (7), and (8)" in the first sentence of paragraph (2) and inserting in lieu thereof "paragraphs (7), (8), and (9)"; and

(C) by striking out "paragraph (7)" in the second sentence of paragraph (2) and inserting in lieu thereof "paragraph (8)".

(b) Section 821(a) is amended by adding at the end thereof the following new sentence: "In making grants and entering into contracts under this section, the Secretary shall give priority to applications for grants and contracts for education projects in geriatric and gerontological nursing.".

(c) The second sentence of section 822(a)(1) is amended by inserting "(particularly problems in the delivery of preventive care, acute care, and long-term care (including home health care and institutional care) to such patients)" after "geriatric patients".

EFFECTIVE DATE

SEC. 228. (a) Except as provided in subsection (b), this Act and the amendments and repeals made by this Act shall take effect on the date of enactment of this Act.

(b)(1) The amendments made by section 101(a) of this Act shall take effect as of October 1, 1985.

(2) The amendments made by section 208(e) of this Act shall take effect nine months after the date of enactment of this Act.

(3) The amendment made by section 208(h) of this Act shall take effect as of October 1, 1983.

(4) The provisions of section 746 of the Public Health Service Act (as added by the amendment made by section 209(h)(2) of this Act) shall take effect as of June 30, 1984.

(5) The amendments made by section 209(j) of this Act shall take effect as of June 30, 1984.

(6) The amendments made by section 213(a) of this Act shall take effect as of October 1, 1985.

Senate amendment:

Strike out all after the enacting clause and insert:

That this Act may be cited as the "Health Professions Training Assistance Act of 1985".

REFERENCE

SEC. 2. Except as otherwise specifically provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or a repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act.

TITLE I—AUTHORIZATIONS OF APPROPRIATIONS

SCOPE AND DURATION OF FEDERAL LOAN INSURANCE PROGRAM

SEC. 101. (a) The first sentence of section 728(a) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "$250,000,000 for the fiscal year ending September 30, 1985; $275,000,000 for the fiscal year ending September 30, 1986; $290,000,000 for the fiscal year ending September 30, 1987; and $300,000,000 for the fiscal year ending September 30, 1988".

(b) The second sentence of such section is amended by striking out "1987," and inserting in lieu thereof "1991,".

SCHOLARSHIPS FOR STUDENTS OF EXCEPTIONAL FINANCIAL NEED

SEC. 102. Section 758(d) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$7,000,000 for the fiscal year ending September 30, 1986, $7,000,000 for the fiscal year ending September 30, 1987, and $7,000,000 for the fiscal year ending September 30, 1988".

DEPARTMENTS OF FAMILY MEDICINE

SEC. 103. Section 780(c) is amended by striking out "and" after "1983," and by inserting a comma and "$7,500,000 for the fiscal year ending September 30, 1986, $7,500,000 for the fiscal year ending September 30, 1987, and $7,500,000 for the fiscal year ending September 30, 1988" after "1984".

AREA HEALTH EDUCATION CENTERS

SEC. 104. The first sentence of section 781(g) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$18,000,000 for the fiscal year ending September 30, 1986, $18,000,000 for the fiscal year ending September 30, 1987, and $18,000,000 for the fiscal year ending September 30, 1988".

PHYSICIAN ASSISTANTS

SEC. 105. Section 783(d) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$4,800,000 for the fiscal year ending September 30, 1986, $4,800,000 for the fiscal year ending September 30, 1987, and $4,800,000 for the fiscal year ending September 30, 1988".

GENERAL INTERNAL MEDICINE AND GENERAL PEDIATRICS

SEC. 106. Section 784(b) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$18,500,000 for the fiscal year ending September 30, 1986, $18,500,000 for the fiscal year ending September 30, 1987, and $18,500,000 for the fiscal year ending September 30, 1988".

FAMILY MEDICINE AND GENERAL PRACTICE OF DENTISTRY

SEC. 107. (a) The first sentence of section 786(c) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$36,000,000 for the fiscal year ending September 30, 1986, $36,000,000 for the fiscal year ending September 30, 1987, and $36,000,000 for the fiscal year ending September 30, 1988".

(b) The second sentence of such section is amended by striking out "and" after "1983," and by inserting "September 30, 1986, September 30, 1987, and September 30, 1988," after "1984,".

EDUCATIONAL ASSISTANCE TO INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS

SEC. 108. The first sentence of section 787(b) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$24,000,000 for the fiscal year ending September 30, 1986, $24,000,000 for the fiscal year ending September 30, 1987, and $24,000,000 for the fiscal year ending September 30, 1988".

CURRICULUM DEVELOPMENT AND FACULTY TRAINING GRANTS

SEC. 109. Section 788(f) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "$8,000,000 for the fiscal year ending September 30, 1986; $8,000,000 for the fiscal year ending September 30, 1987; and $8,000,000 for the fiscal year ending September 30, 1988".

ADVANCED FINANCIAL DISTRESS ASSISTANCE

SEC. 110. The first sentence of section 788B(h) is amended by inserting before the period a comma and "$5,600,000 for the fiscal year ending September 30, 1986, and $5,600,000 for the fiscal year ending September 30, 1987".

GRADUATE PROGRAMS IN HEALTH ADMINISTRATION

SEC. 111. Section 791(d) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$1,500,000 for the fiscal year ending September 30, 1986, $1,500,000 for the fiscal year ending September 30, 1987, and $1,500,000 for the fiscal year ending September 30, 1988".

TRAINEESHIPS FOR STUDENTS IN OTHER GRADUATE PROGRAMS

SEC. 112. Section 791A(c) is amended by striking out "and" after "1980;" and by inserting before the period a semicolon and "and $500,000 for the fiscal year ending September 30, 1986, and each of the next two fiscal years".

PUBLIC HEALTH TRAINEESHIPS

SEC. 113. Section 792(c) is amended by striking out "and" after "1983;" and by inserting before the period a semicolon and "$3,000,000 for the fiscal year ending September 30, 1986; $3,000,000 for the fiscal year ending September 30, 1987; and $3,000,000 for the fiscal year ending September 30, 1988".

TRAINING IN PREVENTIVE MEDICINE

SEC. 114. Section 793(c) is amended by striking out "and" after "1983," and by inserting before the period a comma and "$1,600,000 for the fiscal year ending September 30, 1986, $1,600,000 for the fiscal year ending September 30, 1987, and $1,600,000 for the fiscal year ending September 30, 1988".

TITLE II—PROGRAM REVISIONS

SCHOOLS OF CHIROPRACTIC

SEC. 201. (a) Section 701(4) is amended—

(1) by striking out "and" after " 'school of veterinary medicine',";

(2) by inserting a comma and "and 'school of chiropractic' " after " 'school of public health' ";

(3) by striking out "and" after "a degree of doctor of veterinary medicine or an equivalent degree,"; and

(4) by inserting "and a degree of doctor of chiropractic or an equivalent degree," before "and including advanced training related to".

(b) Section 701(5) is amended—

(1) by striking out "or" after "pharmacy,"; and

(2) by inserting "or chiropractic," after "public health,".

(c) Section 737 is amended by striking out paragraph (2) and by redesignating paragraphs (3), (4), and (5) as paragraphs (2), (3), and (4), respectively.

TRAINING OF PHYSICIAN ASSISTANTS

SEC. 202. Section 701(8) is amended to read as follows:

"(8)(A) The term 'program for the training of physician assistants' means an educational program which (i) has as its objective the education of individuals who will, upon completion of their studies in the program, be qualified to provide primary health care under the supervision of a physician, and (ii) meets regulations prescribed by the Secretary in accordance with subparagraph (B).

"(B) After consultation with appropriate organizations, the Secretary shall, not later than October 1, 1986, prescribe regulations for programs for the training of physician assistants. Such regulations shall, as a minimum, require that such a program—

"(i) extend for at least one academic year and consist of—

"(I) supervised clinical practice, and

"(II) at least four months (in the aggregate) of classroom instruction,

directed toward preparing students to deliver health care;

"(ii) have an enrollment of not less than eight students; and

"(iii) train students in primary care, disease prevention, health promotion, geriatric medicine, and home health care.".

SCHOOLS OF ALLIED HEALTH

SEC. 203. (a) Section 701(10) is amended—

(1) by inserting "college," before "junior college,"; and

(2) by striking out "in a discipline of allied health leading to a baccalaureate or associate degree (or an equivalent degree of either) or to a more advanced degree" in subparagraph (A) and inserting in lieu thereof "to enable individuals to become allied health professionals or to provide additional training for allied health professionals".

(b) Section 701 is amended by adding at the end thereof the following new paragraph:

"(13) The term 'allied health professional' means an individual—

"(A) who has received a certificate, an associate's degree, a bachelor's degree, a masters' degree, a doctoral degree, or postbaccalaureate training, in a science relating to health care;

"(B) who has responsibility for the delivery of health care services or related services, including—

"(i) services relating to the identification, evaluation, and prevention of diseases and disorders;

"(ii) dietary and nutrition services;

"(iii) health promotion services;

"(iv) rehabilitation services; or

"(v) health systems management services; and

"(C) who has not received a degree of doctor of medicine, a degree of doctor of osteopathy, a degree of doctor of dentistry or an equivalent degree, a degree of doctor of veterinary medicine or an equivalent degree, a degree of doctor of optometry or an equivalent degree, a degree of doctor of podiatry or an equivalent degree, a degree of bachelor of science in pharmacy or an equivalent degree, a degree of doctor of pharmacy or an equivalent degree, a graduate degree in public health or an equivalent degree, a degree of doctor of chiropractic or an equivalent degree, a graduate degree in health administration or an equivalent degree, or a doctoral degree in clinical psychology or an equivalent degree.".

GRADUATE PROGRAMS IN CLINICAL PSYCHOLOGY

SEC. 204. (a) Section 701 (as amended by section 203(b) of this Act) is further amended by adding at the end thereof the following new paragraph:

"(14) The term 'graduate program in clinical psychology' means an accredited graduate program in a public or nonprofit private institution in a State which provides training leading to a doctoral degree in clinical psychology or an equivalent degree.".

(b) Section 701(5) (as amended by section 201(b) of this Act) is further amended—

(1) by striking out "or" after "chiropractic,"; and

(2) by inserting "or a graduate program in clinical psychology," after "health administration,".

(c) Section 737 (as amended by section 201(c) of this Act) is further amended by striking out paragraph (2) (as redesignated by section 201(c) of this Act) and by redesignating paragraphs (3) and (4) (as redesignated by section 201(c) of this Act) as paragraphs (2) and (3), respectively.

NATIONAL ADVISORY COUNCIL ON HEALTH PROFESSIONS EDUCATION

SEC. 205. (a) Section 702(a) is amended by striking out the last sentence and inserting in lieu thereof the following: "Of the appointed members of the Council—

"(1) twelve shall be representatives of the health professions schools assisted under programs authorized under this title, including—

"(A) one representative of each of schools of veterinary medicine, optometry, pharmacy, podiatry, public health, and allied health, and graduate programs in health administration; and

"(B) at least six persons experienced in university administration, at least one of whom shall be a representative of a school described in subparagraph (A);

"(2) two shall be full-time students enrolled in health professions schools; and

"(3) six shall be members of the general public.".

TECHNICAL ASSISTANCE

SEC. 206. Section 709(d) is amended to read as follows:

"(d) Funds appropriated under this title may be used by the Secretary to provide technical assistance in relation to any of the authorities under this title.".

RECOVERY OF ASSISTANCE

SEC. 207. (a) Section 723 is amended to read as follows:

"RECOVERY

"SEC. 723. (a) If at any time within twenty years (or within such shorter period as the Secretary may prescribe by regulation for an interim facility) after the completion of construction of a facility with respect to which funds have been paid under section 720(a)—

"(1)(A) in case of a facility which was an affiliated hospital or outpatient facility with respect to which funds have been paid under section 720(a)(1), the owner of the facility ceases to be a public or other nonprofit agency that would have been qualified to file an application under section 605,

"(B) in case of a facility which was not an affiliated hospital or outpatient facility but was a facility with respect to which funds have been paid under paragraph (1) or (3) of section 720(a), the owner of the facility ceases to be a public or nonprofit school, or

"(C) in case of a facility which was a facility with respect to which funds have been paid under section 720(a)(2), the owner of the facility ceases to be a public or nonprofit entity,

"(2) the facility ceases to be used for the teaching or training purposes (or other purposes permitted under section 722) for which it was constructed, or

"(3) the facility is used for sectarian instruction or as a place for religious worship,

the United States shall be entitled to recover from the owner of the facility the base amount prescribed by subsection (c)(1) plus the interest (if any) prescribed by subsection (c)(2).

"(b) The owner of a facility which ceases to be a public or nonprofit agency, school, or entity as described in subparagraph (A), (B), or (C) of subsection (a)(1), as the case may be, or the owner of a facility the use of which changes as described in paragraph (2)

or (3) of subsection (a), shall provide the Secretary written notice of such cessation or change of use not later than 10 days after the date on which such cessation or change of use occurs.

"(c)(1) The base amount that the United States is entitled to recover under subsection (a) is the amount bearing the same ratio to the then value (as determined by the agreement of the parties or in an action brought in the district court of the United States for the district in which the facility is situated) of the facility as the amount of the Federal participation bore to the cost of construction.

"(2)(A) The interest that the United States is entitled to recover under subsection (a) is the interest for the period (if any) described in subparagraph (B) at a rate (determined by the Secretary) based on the average of the bond equivalent rates of ninety-one-day Treasury bills auctioned during that period.

"(B) The period referred to in subparagraph (A) is the period beginning—

"(i) if notice is provided as prescribed by subsection (b), 191 days after the date on which the owner of the facility ceases to be a public or nonprofit agency, school, or entity as described in subparagraph (A), (B), or (C) of subsection (a)(1), as the case may be, or 191 days after the date on which the use of the facility changes as described in paragraph (2) or (3) of subsection (a), or

"(ii) if notice is not provided as prescribed by subsection (b), 11 days after the date on which such cessation or change of use occurs,

and ending on the date the amount the United States is entitled to recover is collected.

"(d)(1) The Secretary may waive the recovery rights of the United States under subsection (a) with respect to a facility (under such conditions as the Secretary may establish by regulation) if the Secretary determines that there is good cause for waiving such rights.

"(2) In addition to the authority of the Secretary under paragraph (1), the Secretary may waive the recovery rights of the United States under subsection (a) with respect to a hospital affiliated with a school of medicine if the Secretary determines, in accordance with regulations, that adequate provision has been made, through establishment of an irrevocable trust or other legally enforceable means, to assure that the teaching and other obligations assumed with respect to the facility as a condition of assistance under this title will continue to be met.

"(e) The right of recovery of the United States under subsection (a) shall not, prior to judgment, constitute a lien on any facility.".

(b) In the case of any facility that was or is constructed on or before the date of enactment of this Act or within 180 days after the date of enactment of this Act, the period described in subsection (c)(2)(B)(i) of section 723 of the Public Health Service Act (as amended by subsection (a) of this section) shall begin no earlier than 181 days after the date of enactment of this Act.

(c) The amendment made by subsection (a) of this section shall not adversely affect other legal rights of the United States.

HEALTH EDUCATION ASSISTANCE LOAN PROGRAM

SEC. 208. (a)(1) Section 731(a)(1)(A) is amended by striking out "and" at the end of clause (iii), by redesignating clause (iv) as clause (v), and by inserting after clause (iii) the following:

"(iv) if required under section 3 of the Military Selective Service Act to present himself for and submit to registration under such section, has presented himself and submitted to registration under such section; and".

(2) Section 731(a)(1)(B) is amended by striking out "and" at the end of clause (ii), and by inserting after clause (iii) the following:

"(iv) if required under section 3 of the Military Selective Service Act to present himself for and submit to registration under such section, has presented himself and submitted to registration under such section; and".

(b)(1) Section 731(a)(2)(B) is amended to read as follows:

"(B) provides for repayment of the principal amount of the loan in installments over a period of not less than 10 years (unless sooner repaid) nor more than 25 years beginning not earlier than 9 months nor later than 12 months after the later of—

"(i) the date on which—

"(I) the borrower ceases to be a participant in an accredited internship or residency program of not more than four years in duration;

"(II) the borrower completes the fourth year of an accredited internship or residency program of more than four years in duration; or

"(III) the borrower, if not a participant in a program described in subclause (I) or (II), ceases to carry, at an eligible institution, the normal full-time academic workload as determined by the institution; or

"(ii) the date on which a borrower who is a graduate of an eligible institution ceases to be a participant in a fellowship training program not in excess of two years or a participant in a full-time educational activity not in excess of two years, which—

"(I) is directly related to the health profession for which the borrower prepared at an eligible institution, as determined by the Secretary; and

"(II) may be engaged in by the borrower during such a two-year period which begins within twelve months after the completion of the borrower's participation in a program described in subclause (I) or (II) of clause (i) or prior to the completion of the borrower's participation in such program,

except as provided in subparagraph (C), except that the period of the loan may not exceed 33 years from the date of execution of the note or written agreement evidencing it, and except that the note or other written instrument may contain such provisions relating to repayment in the event of default in the payment of interest or in the payment of the costs of insurance premiums, or other default by the borrower, as may be authorized by regulations of the Secretary in effect at the time the loan is made;".

(2) Section 731(a)(2)(C) is amended—

(A) by inserting "(including any period in such a program described in subclause (I) or subclause (II) of subparagraph (B)(i))" before the comma in clause (ii);

(B) by striking out "or the 33-year period" in clause (vi);

(C) by striking out "or" after "National Health Service Corps," in clause (v); and

(D) by inserting "or (vii) any period not in excess of two years which is described in subparagraph (B)(ii)," after "Domestic Volunteer Service Act of 1973,".

(3)(A) The provisions of clause (i) of section 731(a)(2)(B) of the Public Health Service Act (as amended by paragraph (1) of this subsection) and the provisions of clauses (ii) and (vi) of section 731(a)(2)(C) of such Act (as amended by subparagraphs (A) and (B) of paragraph (2)) shall not apply to any individual who, prior to the effective date of this Act, received a loan insured under subpart I of part C of title VII of such Act.

(B) The provisions of clause (ii) of section 731(a)(2)(B) of the Public Health Service Act and clause (vii) of section 731(a)(2)(C) of such Act (as added by the amendments made by paragraphs (1) and (2)(D) of this subsection, respectively) shall apply to any loan insured under subpart I of part C of title VII of such Act after the effective date of this Act.

(4) Within 90 days after the effective date of this Act, the Secretary of Health and Human Services shall promulgate regulations to carry out clause (ii) of section 731(a)(2)(B) of the Public Health Service Act and clause (vii) of section 731(a)(2)(C) of such Act (as added by the amendments made by paragraphs (1) and (2)(D) of this subsection, respectively). Such regulations shall—

(A) prescribe criteria for the determination of the types of fellowship training programs and full-time educational activities which will be permitted under such clauses; and

(B) establish procedures for a borrower to apply to the Secretary for a determination concerning whether a particular fellowship training program or full-time educational activity will be permitted under such clauses.

(c) Section 731(b) is amended by striking out "3½" and inserting in lieu thereof "3".

(d) Section 731(c) is amended—

(1) by striking out "section 731(a)(2)(C)" and inserting in lieu thereof "subsection (a)(2)(C)"; and

(2) by inserting before the period a comma and "unless the borrower, in the written agreement described in subsection (a)(2), agrees to make payments during any year or any repayment period in a lesser amount".

(e) Section 732(c) is amended—

(1) by redesignating clauses (1) and (2) of the second sentence as clauses (A) and (B), respectively;

(2) by inserting "(1)" before "The" in the first sentence;

(3) by striking out "2 percent per year" in the first sentence and inserting in lieu thereof "6 percent";

(4) by striking out "in advance, at such times" in the first sentence and inserting in lieu thereof "in advance at the time the loan is made"; and

(5) by adding at the end thereof the following new paragraph:

"(2) The Secretary may not increase the percentage per year on the principal balance of loans charged pursuant to paragraph (1) for insurance premiums, unless the Secretary has, prior to any such increase—

"(A) requested a qualified public accounting firm to evaluate whether an increase in such percentage is necessary to ensure the solvency of the student loan fund established by section 734, and to determine the amount of such an increase, if necessary; and

"(B) such accounting firm has recommended such an increase and has determined the amount of such increase necessary to ensure the solvency of such fund.

The Secretary may not increase such percentage in excess of the maximum percentage permitted by paragraph (1) or increase such percentage by an amount in excess of the amount of the increase determined by a qualified accounting firm pursuant to this paragraph.".

(f) The first sentence of subsection (a) of section 734 and the first sentence of subsection (b) of such section are each amended by inserting "collection or" before "default".

(g)(1) Section 729(a) is amended by inserting "allied health," after "public health," each place it appears.

(2) Section 737 (as amended by sections 201(c) and 204(c) of this Act) is further amended—

(1) by inserting a comma and "allied health," after "public health" in paragraph (1); and

(2) by adding at the end thereof the following new paragraph:

"(4) The term 'school of allied health' means a program in a school of allied health (as defined in section 701(10)) which leads to a masters' degree or a doctoral degree.".

(h) Section 728(a) (as amended by section 101 of this Act) is further amended—

(1) by striking out "The" in the first sentence and inserting in lieu thereof "(1) Except as provided in paragraph (2), the"; and

(2) by adding at the end thereof the following new paragraph:

"(2) Any portion of the total principal amount of new loans made and installments paid pursuant to lines of credit (as defined in section 737) to borrowers which is—

"(A) permitted under paragraph (1) to be covered by Federal loan insurance under this subpart for a fiscal year; and

"(B) is not, prior to the end of such fiscal year, subject to commitments for the provision of such coverage,

shall be available for such commitments in the next fiscal year succeeding such fiscal year. Any amount available under the preceding sentence in a succeeding fiscal year shall not decrease the total principal amount of new loans made and installments paid pursuant to lines of credit to borrowers which pursuant to paragraph (1) may be covered by Federal loan insurance under this subpart for that succeeding fiscal year.".

HEALTH PROFESSIONS STUDENT LOAN PROGRAM

SEC. 209. (a)(1) Section 740(b)(4) is amended by inserting "doctor of pharmacy or an equivalent degree," before "doctor of podiatry".

(2) Section 741(b) is amended by inserting "doctor of pharmacy or an equivalent degree," before "doctor of podiatry".

(3) Section 741(f)(1)(A) is amended by inserting "doctor of pharmacy or an equivalent degree," before "or doctor of podiatry or an equivalent degree".

(4) Subpart II of part C of title VII is amended by adding at the end thereof the following new section:

"DEFINITION

"SEC. 745. For purposes of this subpart, the term 'school of pharmacy' means a public or nonprofit private school in a State that provides training leading to a degree of bachelor of science in pharmacy or an equivalent degree or a degree of doctor of pharmacy or an equivalent degree and which is accredited in the manner described in section 701(5).".

(b) Section 741(b) (as amended by subsection (a)(2) of this section) is further amended by inserting "(1) who is" after "student" and by inserting before the period a comma and the following: "(2) who, if pursuing a full-time course of study at the school leading to a degree of doctor of medicine or doctor of osteopathy, is of exceptional financial need (as defined by regulations of the Secretary), and (3) who, if required under section 3 of the Military Selective Service Act to present himself for and submit to registration under such section, has presented himself and submitted to registration under such section.".

(c)(1) Section 741(c) is amended to read as follows:

"(c) Such loans shall be repayable in equal or graduated periodic installments (with the right of the borrower to accelerate repayment) over the ten-year period which begins one year after the student ceases to pursue a full-time course of study at a school of medicine, osteopathy, dentistry, pharmacy, podiatry, optometry, or veterinary medicine, excluding from such ten-year period—

"(1) all periods—

"(A) not in excess of three years of active duty performed by the borrower as a member of a uniformed service;

"(B) not in excess of three years during which the borrower serves as a volunteer under the Peace Corps Act; and

"(C) during which the borrower participates in advanced professional training, including internships and residencies; and

"(2) a period—

"(A) not in excess of two years during which a borrower who is a full-time student in such a school leaves the school, with the intent to return to such school as a full-time student, in order to engage in a full-time educational activity which is directly related to the health profession for which the individual is preparing, as determined by the Secretary; or

"(B) not in excess of two years during which a borrower who is a graduate of such a school is a participant in a fellowship training program or a full-time educational activity which—

"(i) is directly related to the health profession for which such borrower prepared at such school, as determined by the Secretary; and

"(ii) may be engaged in by the borrower during such a two-year period which begins within twelve months after the completion of the borrower's participation in advanced professional training described in paragraph (1)(C) or prior to the completion of such borrower's participation in such training.".

(2) The provisions of section 741(c)(2)(A) of the Public Health Service Act (as added by the amendment made by paragraph (1) of this subsection) shall apply to—

(A) any individual who received a loan under subpart II of part C of title VII of the Public Health Scrvice Act and to whom the provisions of such section (if such provisions had been in effect) would have applied between June 17, 1982, and July 7, 1983; and

(B) any individual who, after the effective date of this Act, is a full-time student in a school referred to in such section and who (prior to, on, or after the effective date of this Act), received a loan under such subpart to assist such student in such student's studies in such school.

(3) The provisions of section 741(c)(2)(B) of the Public Health Service Act (as added by the amendment made by paragraph (1) of this subsection) shall apply to any loan made under subpart II of part C of title VII of such Act after the effective date of this Act.

(4) Within 90 days after the effective date of this Act, the Secretary of Health and Human Services shall promulgate regulations to carry out section 741(c)(2) of the Public Health Service Act (as added by the amendment made by paragraph (1) of this subsection) with respect to any loan made under subpart II of part C of title VII of such Act on or after the effective date of this Act. Such regulations shall—

(A) with respect to the provisions of subparagraph (A) of such section—

(i) prescribe criteria for the determination of the types of full-time educational activities which will be permitted under such subparagraph;

(ii) require the school in which the borrower was enrolled as a full-time student to determine, prior to the borrower's leaving such school, whether an educational activity in which the student proposes to engage qualifies for purposes of such subparagraph and such regulations; and

(B) with respect to the provisions of subparagraph (B) of such section—

(i) prescribe criteria for the determination of the types of fellowship training programs and full-time educational activities which will be permitted under such subparagraph; and

(ii) establish procedures for a borrower to apply to the Secretary for a determination concerning whether a particular fellowship training program or full-time educational activity will be permitted under such subparagraph.

(d) Section 741(i) is amended to read as follows:

"(i) Subject to regulations of the Secretary, a school may assess a charge with respect to loans made under this subpart to cover the costs of insuring against cancellation of liability under subsection (d).".

(e) Section 741(j) is amended—

(1) by inserting "and in accordance with this section" after "Secretary" in the first sentence;

(2) by striking out "may" in such sentence and inserting in lieu thereof "shall"; and

(3) by striking out the second sentence and inserting in lieu thereof the following: "No such charge may be made if the payment of such installment or the filing of such evidence is made within 60 days after the date on which such installment or filing is due. The amount of any such charge may not exceed an amount equal to 6 percent of the amount of such installment.".

(f) Section 741 is amended by adding at the end thereof the following new subsection:

"(m) The Secretary is authorized to attempt to collect any loan which was made under this subpart, which is in default, and which was referred to the Secretary by a school with which the Secretary has an agreement under this subpart, on behalf of that school under such terms and conditions as the Secretary may prescribe (including reimbursement from the school's student loan fund for expenses the Secretary may reasonably incur in attempting collection), but only if the school has complied with such requirements as the Secretary may specify by regulation with respect to the collection of loans under this subpart. A loan so referred shall be treated as a debt subject to section 5514 of title 5, United States Code. Amounts collected shall be deposited in the school's student loan fund. Whenever the Secretary desires the institution of a civil action regarding any such loan, the Secretary shall refer the matter to the Attorney General for appropriate action.".

(g) Section 742(b) is amended by adding at the end thereof the following new paragraph:

"(5) Any funds from a student loan fund established under this subpart which are returned to the Secretary in any fiscal year shall be available for allotment under this subpart, in such fiscal year and the fiscal year succeeding such fiscal year, to schools which, during the period beginning on July

1, 1972, and ending on September 30, 1985, established student loan funds with Federal capital contributions under this subpart.".

(h) Subpart II of part C of title VII (as amended by subsection (a)(4) of this subsection) is further amended—

(1) by redesignating section 745 (as added by subsection (a)(4) of this section) as section 747; and

(2) by inserting after section 744 the following new sections:

"STUDENT LOAN INFORMATION BY INSTITUTIONS

"SEC. 745. (a) With respect to loans made by a school under this subpart after June 30, 1986, each school, in order to carry out the provisions of sections 740 and 741, shall, at any time such school makes such a loan to a student under this subpart, provide thorough and adequate loan information on loans made under this subpart to the student. The loan information required to be provided to the student by this subsection shall include—

"(1) the yearly and cumulative maximum amounts that may be borrowed by the student;

"(2) the terms under which repayment of the loan will begin;

"(3) the maximum number of years in which the loan must be repaid;

"(4) the interest rate that will be paid by the borrower and the minimum amount of the required monthly payment;

"(5) the amount of any other fees charged to the borrower by the lender;

"(6) any options the borrower may have for deferral, cancellation, prepayment, consolidation, or other refinancing of the loan;

"(7) a definition of default on the loan and a specification of the consequences which will result to the borrower if the borrower defaults, including a description of any arrangements which may be made with credit bureau organizations;

"(8) to the extent practicable, the effect of accepting the loan on the eligibility of the borrower for other forms of student assistance; and

"(9) a description of the actions that may be taken by the Federal Government to collect the loan, including a description of the type of information concerning the borrower that the Federal Government may disclose to (A) officers, employees, or agents of the Department of Health and Human Services, (B) officers, employees, or agents of schools with which the Secretary has an agreement under this subpart, or (C) any other person involved in the collection of a loan under this subpart.

"(b) Each school shall, immediately prior to the graduation from such school of a student who received a loan under this subpart after June 30, 1986, provide such student with a statement specifying—

"(1) each amount borrowed by the student under this subpart;

"(2) the total amount borrowed by the student under this subpart; and

"(3) a schedule for the repayment of the amounts borrowed under this subpart, including the number, amount, and frequency of payments to be made.

"PROCEDURES FOR APPEAL OF TERMINATIONS

"SEC. 746. In any case in which the Secretary intends to terminate an agreement with a school under this subpart, the Secretary shall provide the school with a written notice specifying such intention and stating that the school may request a formal hearing with respect to such termination. If the school requests such a hearing within 30 days after the receipt of such notice, the Secretary shall provide such school with a hearing conducted by an administrative law judge.".

(i) Section 743 is amended by striking out "1987" each place it appears and inserting in lieu thereof "1991".

(j) Section 740 is amended by adding at the end thereof the following new subsection:

"(c)(1) Any standard established by the Secretary by regulation for the collection by schools of medicine, osteopathy, dentistry, pharmacy, podiatry, optometry, or veterinary medicine of loans made pursuant to loan agreements under this subpart shall provide that the failure of any such school to collect such loans shall be measured in accordance with this subsection.

"(2) The measurement of a school's failure to collect loans made under this subpart shall be the ratio (stated as a percentage) that the defaulted principal amount outstanding of such school bears to the matured loans of such school.

"(3) For purposes of this subsection—

"(A) the term 'default' means the failure of a borrower of a loan made under this subpart to—

"(i) make an installment payment when due; or

"(ii) comply with any other term of the promissory note for such loan,

except that a loan made under this subpart shall not be considered to be in default if the loan is discharged in bankruptcy or if the school reasonably concludes from written contacts with the borrower that the borrower intends to repay the loan;

"(B) the term 'defaulted principal amount outstanding' means the total amount borrowed from the loan fund of a school that has reached the repayment stage (minus any principal amount repaid or cancelled) on loans—

"(i) repayable monthly and in default for at least 120 days; and

"(ii) repayable less frequently than monthly and in default for at least 180 days;

"(C) the term 'grace period' means the period of one year beginning on—

"(i) the date on which the borrower ceases to pursue a full-time course of study at a school of medicine, osteopathy, dentistry, pharmacy, podiatry, optometry, or veterinary medicine; or

"(ii) the date on which ends any period described in paragraph (1) or (2) of section 741(c) which is applicable to such borrower,

whichever is later; and

"(D) the term 'matured loans' means the total principal amount of all loans made by a school under this subpart minus the total principal amount of loans made by such school to students who are—

"(i) enrolled in a full-time course of study at such school; or

"(ii) in their first grace period.".

(k) Section 6103(m) of the Internal Revenue Code of 1954 is amended—

(1) by inserting "ADMINISTERED BY THE DEPARTMENT OF EDUCATION" before the period in the paragraph heading of paragraph (4); and

(2) by adding at the end thereof the following new paragraph:

"(5) INDIVIDUALS WHO HAVE DEFAULTED ON STUDENT LOANS ADMINISTERED BY THE DEPARTMENT OF HEALTH AND HUMAN SERVICES.—

"(A) IN GENERAL.—Upon written request by the Secretary of Health and Human Services, the Secretary may disclose the mailing address of any taxpayer who has defaulted on a loan made under part C of title VII of the Public Health Service Act or under subpart II of part B of title VIII of such Act, for use only by officers, employees, or agents of the Department of Health and Human Services for purposes of locating such taxpayer for purposes of collecting such loan.

"(B) DISCLOSURE TO SCHOOLS AND ELIGIBLE LENDERS.—Any mailing address disclosed under subparagraph (A) may be disclosed by the Secretary of Health and Human Services to—

"(i) any school with which the Secretary of Health and Human Services has an agreement under subpart II of part C of title VII of the Public Health Service Act or subpart II of part B of title VIII of such Act, or

"(ii) any eligible lender (within the meaning of section 737(2) of such Act) participating under subpart I of part C of title VII of such Act,

for use only by officers, employees, or agents of such school or eligible lender whose duties relate to the collection of student loans for purposes of locating individuals who have defaulted on student loans made under such subparts for the purposes of collecting such loans.".

SCHOLARSHIPS FOR FIRST-YEAR STUDENTS OF EXCEPTIONAL FINANCIAL NEED

SEC. 210. (a) Section 758(b) is amended by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) A scholarship provided to a student for a school year under a grant under subsection (a) shall consist of—

"(A) payment to, or (in accordance with paragraph (4)) on behalf of, the student of the amount (except as provided in section 710) of—

"(i) the tuition of the student in such school year; and

"(ii) all other reasonable educational expenses, including fees, books, and laboratory expenses, incurred by the student in such school year; and

"(B) payment to the student of a stipend of $400 per month (adjusted in accordance with paragraph (5)) for each of the 12 consecutive months beginning with the first month of such school year.

"(3) Notwithstanding paragraph (2), the total scholarship award to a student for each year shall not exceed the cost of attendance for that year at the educational institution attended by the student (as determined by such educational institution).

"(4) The Secretary may contract with an educational institution in which is enrolled a student who has received a scholarship with a grant under subsection (a) for the payment to the educational institution of the amounts of tuition and other reasonable educational expenses described in paragraph (2)(A). Payment to such an educational institution may be made without regard to section 3324 of title 31, United States Code.

"(5) The amount of the monthly stipend, specified in paragraph (2)(B) and as previously adjusted (if at all) in accordance with this paragraph, shall be increased by the Secretary for each school year by an amount (rounded to the next highest multiple of $1) equal to the amount of such stipend multiplied by the overall percentage (as set forth in the report transmitted to the Congress under section 5305 of title 5, United States Code) of the adjustment (if such adjustment is an increase) in the rates of pay under the General Schedule made effective in the fiscal year in which such school year ends.".

(b) Section 338A(g)(1) is amended by striking out "or under section 758 (relating to scholarships for first-year students of exceptional financial need),".

CAPITATION GRANTS FOR SCHOOLS OF PUBLIC HEALTH

SEC. 211. (a)(1) Section 770 is amended to read as follows:

"CAPITATION GRANTS FOR SCHOOLS OF PUBLIC HEALTH

"SEC. 770. (a)(1) The Secretary shall make annual grants to schools of public health for the support of the education programs of such schools. The amount of the annual grant to each such school with an approved application shall be computed for each fiscal year in accordance with paragraphs (2) and (3).

"(2) Each school of public health shall receive for the fiscal year ending September 30, 1986, and for each of the next two fiscal years, an amount equal to the product of—

"(A) $1,400, and

"(B) the sum of (i) the number of full-time students enrolled in degree programs in such school in the school year beginning in such fiscal year, and (ii) the number of full-time equivalents of part-time students enrolled in degree programs in such school, determined pursuant to paragraph (3), for such school for such school year.

"(3) For purposes of paragraph (2), the number of full-time equivalents of part-time students for a school of public health for any school year is a number equal to—

"(A) the total number of credit hours of instruction in such year for which part-time students of such school, who are pursuing a course of study leading to a graduate degree in public health or an equivalent degree, have enrolled, divided by

"(B) the greater of (i) the number of credit hours of instruction which a full-time student of such school was required to take in such year, or (ii) 9,

rounded to the next highest whole number.

"(b) Notwithstanding subsection (a), if the aggregate of the amounts of the grants to be made in accordance with such subsection for any fiscal year to schools of public health with approved applications exceeds the total of the amounts appropriated for such grants for such schools under subsection (e), the amount of a school's grant for such fiscal year shall be an amount which bears the same ratio to the amount determined for the school under subsection (a) as the total of the amounts appropriated for that year under subsection (e) for grants to schools of public health bears to the amount required to make grants in accordance with subsection (a) to each of the schools of public health with approved applications.

"(c)(1) For purposes of this section, regulations of the Secretary shall include provisions relating to the determination of the number of students enrolled in a school or in a particular year-class in a school on the basis of estimates, on the basis of the number of students who in an earlier year were enrolled in a school or in a particular year-class, or on such other basis as the Secretary deems appropriate for making such determination, and shall include methods of making such determination when a school or a year-class was not in existence in an earlier year at a school.

"(2) For purposes of this section, the term 'full-time students' (whether such term is used by itself or in connection with a particular year-class) means students pursuing a full-time course of study leading to a graduate degree in public health or equivalent degree.

"(d) In the case of a new school of public health which applies for a grant under this section in the fiscal year preceding the fiscal year in which it will admit its first class, the enrollment for purposes of subsection (a) shall be the number of full-time students which the Secretary determines, on the basis of assurances provided by the school, will be enrolled in the school, in the fiscal year after the fiscal year in which the grant is made.

"(e) For payments under this section, there are authorized to be appropriated $5,000,000 for the fiscal year ending September 30, 1986, and for each of the two succeeding fiscal years.".

(2) Section 731(a)(1)(A)(ii) is amended by striking out "(as defined in section 770(c)(2))" and inserting in lieu thereof "(as defined in section 770(c)(2) (as such section was in effect on September 30, 1985))".

(b) Section 771 is amended to read as follows:

"ELIGIBILITY FOR CAPITATION GRANTS

"SEC. 771. (a)(1) The Secretary shall not make a grant under section 770 to any school of public health in a fiscal year beginning after September 30, 1985, unless the application for the grant contains, or is supported by, assurances satisfactory to the Secretary that—

"(A) the enrollment of full-time equivalent students enrolled in degree programs in the school in the school year beginning in the fiscal year in which the grant applied for is to be made will not be less than the enrollment of such students in degree programs in the school in the school year beginning in the fiscal year ending September 30, 1983; and

"(B) the applicant will expend in carrying out its functions as a school of public health during the fiscal year for which such grant is sought, an amount of funds (other than funds for construction as determined by the Secretary) from non-Federal sources which is at least as great as the amount of funds expended by such applicant for such purpose (excluding expenditures of a nonrecurring nature) in the fiscal year preceding the fiscal year for which such grant is sought.

"(2) For purposes of subsection (a)(1)(A), the number of full-time equivalent students enrolled in a degree program in a school in a school year is equal to the sum calculated under section 770(a)(2)(B) for that school year.

"(b) The Secretary may waive (in whole or in part) application to a school of public health of the requirement of subsection (a)(1)(A) if the Secretary determines, after receiving the written recommendation of the appropriate accreditation body or bodies (approved for such purpose by the Commissioner of Education) that compliance by such school with such requirement will prevent it from maintaining its accreditation.".

(c)(1) Section 772(b) is amended—

(A) by striking out "or subsection (a) or (b) of section 788";

(B) by striking out "medicine, osteopathy, dentistry, public health, veterinary medicine, optometry, pharmacy, or podiatry," and inserting in lieu thereof "public health,";

(C) by striking out "Commissioner of Education" and inserting in lieu thereof "Secretary of Education"; and

(D) by striking out "Commissioner" each place it appears and inserting in lieu thereof "Secretary of Education".

(2) The section heading for section 772 is amended to read as follows:

"APPLICATIONS FOR CAPITATION GRANTS".

(d) The heading for part E of title VII is amended to read as follows:

"PART E—GRANTS TO IMPROVE THE QUALITY OF SCHOOLS OF PUBLIC HEALTH".

DEPARTMENTS OF FAMILY MEDICINE

SEC. 212. Section 780 is amended by redesignating subsection (c) (as amended by section 103 of this Act) as subsection (d) and by inserting after subsection (b) the following:

"(c) In making grants under subsection (a), the Secretary shall give priority to applicants that demonstrate to the satisfaction of the Secretary a commitment to family medicine in their medical education training programs.".

AREA HEALTH EDUCATION CENTERS

SEC. 213. (a) Section 781(a)(2) is amended by redesignating subparagraphs (A), (B), and (C) as clauses (i), (ii), and (iii), respectively, and by striking out all that precedes clause (i) (as so redesignated) and inserting in lieu thereof the following:

"(2)(A) The Secretary shall enter into contracts with schools of medicine and osteopathy—

"(i) which have previously received Federal financial assistance for an area health education center program under section 802 of the Health Professionals Educational Assistance Act of 1976 in fiscal year 1979 or under paragraph (1), or

"(ii) which are receiving assistance under paragraph (1),

to carry out projects described in subparagraph (B) through area health education centers for which Federal financial assistance was provided under paragraph (1) and which are no longer eligible to receive such assistance.

"(B) Projects for which assistance may be provided under subparagraph (A) are—".

(b) The last sentence of section 781(g) is amended by striking out "may" and inserting in lieu thereof "shall".

(c) Section 781(d)(2)(F) is amended to read as follows:

"(F) conduct interdisciplinary training and practice involving physicians and other health personnel including, where practicable, physician assistants and nurse practitioners;".

GENERAL INTERNAL MEDICINE AND GENERAL PEDIATRICS

SEC. 214. Section 784 is amended by redesignating subsection (b) (as amended by section 106 of this Act) as subsection (c) and by inserting after subsection (a) the following new subsection:

"(b) In making grants and entering into contracts under subsection (a), the Secretary shall give priority to applicants that demonstrate to the satisfaction of the Secretary a commitment to general internal medicine and general pediatrics in their medical education training programs.".

FAMILY MEDICINE AND GENERAL DENTISTRY

SEC. 215. (a) Section 786(b) is amended—

(1) by inserting "or an approved advanced educational program in the general practice of dentistry" before the semicolon in paragraph (1); and

(2) by striking out "residents" in paragraph (2) and inserting in lieu thereof "participants".

(b) Section 786 is amended by redesignating subsection (c) (as amended by section 107 of this Act) as subsection (d) and by inserting after subsection (b) the following new subsection:

"(c) In making grants under subsection (a), the Secretary shall give priority to applicants that demonstrate to the satisfaction of the Secretary a commitment to family

medicine in their medical education training programs.".

(c) Section 786(d) (as amended by section 107 of this Act and redesignated by subsection (b) of this section) is further amended by inserting before the period in the second sentence a comma and "and shall obligate not less than 7.5 percent of such amounts in each such fiscal year for grants under subsection (b)".

EDUCATIONAL ASSISTANCE TO INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS

SEC. 216. (a) Section 787(a)(1) is amended—

(1) by inserting "chiropractic," after "allied health,"; and

(2) by inserting after "podiatry" a comma and "public and nonprofit private schools which offer graduate programs in clinical psychology,".

(b) Section 787(a)(2) is amended—

(1) by striking out "and" after the last comma in subparagraph (D);

(2) by striking out the period at the end of subparagraph (E) and inserting in lieu thereof a comma and "and"; and

(3) by inserting after subparagraph (E) the following:

"(F) paying such stipends as the Secretary may determine for such individuals for any period of health professions education at such a school.

The term 'regular course of education of such a school' as used in subparagraph (D) includes a graduate program in clinical psychology.".

(c) Section 787(b) is amended by adding at the end thereof the following new sentence: "Not less than 25 percent, and not more than 35 percent, of the funds appropriated under this section for any fiscal year shall be obligated for stipends under subsection (a)(2)(F) to individuals of exceptional financial need (as defined by regulations promulgated by the Secretary under section 758).".

SPECIAL PROJECTS

SEC. 217. (a)(1) Section 788(a)(1) is amended to read as follows:

"(a)(1) The Secretary may make grants to maintain and improve schools which provide the first or last two years of education leading to the degree of doctor of medicine or osteopathy. Grants provided under this paragraph to schools which were in existence on September 30, 1985, may be used for construction and the purchase of equipment.".

(2) Paragraph (2) of section 788(a) is repealed and paragraph (3) of such section is redesignated as paragraph (2).

(3) Section 788(a)(2) (as redesignated by paragraph (2) of this subsection) is amended by inserting "or last" after "the first", by inserting "or osteopathy" after "medicine" and by inserting "or be operated jointly with a school that is accredited by" after "accredited by".

(b) Section 788(b) is amended to read as follows:

"(b)(1) The Secretary may make grants to and enter into contracts with any health profession, allied health profession, or nurse training institution, or any other public or nonprofit private entity for projects in areas such as—

"(A) health promotion and disease prevention;

"(B) curriculum development and training in health policy and policy analysis, including curriculum development and training in areas such as—

"(i) the organization, delivery, and financing of health care;

"(ii) the determinants of health and the role of medicine in health; and

"(iii) the promotion of economy in health professions teaching, health care practice, and health care systems management;

"(C) curriculum development in clinical nutrition;

"(D) the development of initiatives for assuring the competence of health professionals; and

"(E) curriculum and program development and training in applying the social and behavioral sciences to the study of health and health care delivery issues.

"(2)(A) Of the amounts available for grants and contracts under this subsection from amounts appropriated under subsection (g)(1), at least 75 percent shall be obligated for grants to and contracts with health professions institutions, allied health institutions, and nurse training institutions.

"(B) Any application for a grant to institutions described in subparagraph (A) shall be subject to appropriate peer review by peer review groups composed principally of non-Federal experts.

"(C) The Secretary may not approve or disapprove an application for a grant to an institution described in subparagraph (A) unless the Secretary has consulted with the National Advisory Council on Health Professions Education with respect to such application.

"(3) Of the amounts available for grants and contracts under this subsection from amounts appropriated under subsection (g)(1), not more than 25 percent shall be obligated for grants to and contracts with public and nonprofit entities which are not health professions institutions, allied health institutions, or nurse training institutions.".

(c) Section 788(d) is amended to read as follows:

"(d)(1) The Secretary may make grants to and enter into contracts with schools of medicine and osteopathy or other appropriate public or nonprofit private entities to assist in meeting the costs of such schools or entities of providing projects to—

"(A) improve the training of health professionals in geriatrics;

"(B) develop and disseminate curricula relating to the treatment of the health problems of elderly individuals;

"(C) expand and strengthen instruction in methods of such treatment;

"(D) support the training and retraining of faculty to provide such instruction;

"(E) support continuing education of health professionals and allied health professionals who provide such treatment; and"

"(F) establish new affiliations with nursing homes, chronic and acute disease hospitals, ambulatory care centers, and senior centers in order to provide students with clinical training in geriatric medicine.

"(2)(A) Any application for a grant under this subsection shall be subject to appropriate peer review by peer review groups composed principally of non-Federal experts.

"(B) The Secretary may not approve or disapprove an application for a grant under this subsection unless the Secretary has consulted with the National Advisory Council on Health Professions Education with respect to such application.".

(d) Section 788 is amended by redesignating subsection (f) (as amended by section 109 of this Act) as subsection (g) and by inserting after subsection (e) the following:

"(f) The Secretary may make grants to schools of veterinary medicine for—

"(1) the development of curricula for training in the care of animals used in research, the treatment of animals while being used in research, and the development of alternatives to the use of animals in research;

"(2) the provision of such training; and

"(3) large animal care and research.".

(e) The heading for section 788 is amended to read as follows:

"TWO-YEAR SCHOOLS OF MEDICINE, INTERDISCIPLINARY TRAINING, AND CURRICULUM DEVELOPMENT".

ADVANCED FINANCIAL DISTRESS ASSISTANCE

SEC. 218. Subsections (b)(1) and (f) of section 788B are each amended by striking out "five" and inserting in lieu thereof "six".

GRADUATE PROGRAMS IN HEALTH ADMINISTRATION

SEC. 219. Section 791(c)(2)(A)(i) is amended by inserting before the semicolon a comma and "except that in any case in which the number of minority students enrolled in the graduate educational programs of such entity in such school year will exceed an amount equal to 45 percent of the number of all students that will be enrolled in such programs in such school year, such application shall only be required to contain assurances that at least 20 individuals will complete such programs in such school year".

PROGRAM ELIMINATIONS

SEC. 220. (a) Section 703 is repealed.

(b) Section 708(c) is repealed.

(c) Part D of title VII is repealed.

(d) Section 782 is repealed.

(e) Section 785 is repealed.

(f)(1) Section 788A is repealed.

(2) The second sentence of section 788B(a) is amended by inserting "(as such section was in effect prior to October 1, 1985)" after "section 788A".

(3) Section 788B(f) (as amended by section 218 of this Act) is further amended by striking out the last sentence.

(4) Section 788B(h) (as amended by section 110 of this Act) is further amended—

(A) by striking out "and section 788A" in the first sentence; and

(B) by striking out the second sentence.

(g) Section 789 is repealed.

ANALYSIS OF FINANCIAL DISINCENTIVES TO CAREER CHOICES IN HEALTH PROFESSIONS

SEC. 221. By October 1, 1986, the Secretary of Health and Human Services shall prepare and transmit to the Congress a report which contains—

(1) an analysis of any financial disincentive to graduates of health professions schools which affects the specialty of practice chosen by such graduates or the decision of such graduates to practice their profession in an area which lacks an adequate number of health care professionals; and

(2) recommendations for legislation and administrative action to correct any disincentives which are identified pursuant to clause (1) and which are contrary to the achievement of national health goals, including recommendations concerning the appropriateness of providing financial assistance to mitigate such disincentives.

STUDY ON COMPLIANCE WITH SELECTIVE SERVICE ACT

SEC. 222. The Secretary of Health and Human Services, in cooperation with the Director of Selective Service, shall conduct a study to determine if health professions schools are engaged in a pattern or practice of failure to comply with section 12(f) of the Military Selective Service Act (50 U.S.C. App. 462(f)) (or regulations issued under

such section) or are engaged in a pattern or practice of providing loans or work assistance to persons who are required to register under section 3 of such Act (and any proclamation of the President and regulations prescribed under that section) and have not so registered. The Secretary shall complete the study and report its results to the Congress not later than one year after the effective date of this Act.

STUDY OF THE ROLE OF ALLIED HEALTH PERSONNEL IN HEALTH CARE DELIVERY

SEC. 223. (a)(1) The Secretary of Health and Human Services shall arrange for the conduct of a study concerning the role of allied health personnel in health care delivery. The Secretary shall request the National Academy of Sciences to conduct the study under an arrangement under which the actual expenses incurred by the Academy in conducting such study will be paid by the Secretary and the Academy will prepare the report required by subsection (c). If the National Academy of Sciences is willing to do so, the Secretary shall enter into such an arrangement with the Academy for the conduct of the study.

(2) If the National Academy of Sciences is unwilling to conduct the study required by paragraph (1) under the type of arrangement described in such paragraph, the Secretary shall enter into a similar arrangement with one or more appropriate nonprofit private entities.

(b) The study required by subsection (a) shall—

(1) assess the role of allied health personnel in health care delivery;

(2) identify projected needs, availability, and requirements of various types of health care delivery systems for each type of allied health personnel;

(3) investigate current practices under which each type of allied health personnel obtain licenses, credentials, and accreditation;

(4) assess changes in programs and curricula for the education of allied personnel and in the delivery of services by such personnel which are necessary to meet the needs and requirements identified pursuant to paragraph (2); and

(5) assess the role of the Federal, State, and local governments, educational institutions, and health care facilities in meeting the needs and requirements identified pursuant to paragraph (2).

(c) By October 1, 1987, the Secretary of Health and Human Services shall transmit to the Committee on Labor and Human Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives, and make available to the public, a report—

(1) describing the study conducted under this section;

(2) containing a statement of the data obtained under such study; and

(3) specifying such recommendations for legislation and administrative action as the Secretary considers appropriate.

RECOVERY OF ASSISTANCE FOR COMMUNITY MENTAL HEALTH CENTERS

SEC. 224. (a) Section 2115 is amended to read as follows:

"RECOVERY

"SEC. 2115. (a) If any facility with respect to which funds have been paid under the Community Mental Health Centers Act (as such Act was in effect prior to October 1, 1981) is, at any time within twenty years after the completion of remodeling, construction, or expansion or after the date of its acquisition—

"(1) sold or transferred to any entity (A) which would not have been qualified to file an application under section 222 of such Act (as such section was in effect prior to October 1, 1981) or (B) which is disapproved as a transferee by the State mental health agency or by another entity designated by the chief executive officer of the State, or

"(2) ceases to be used by a community mental health center in the provision of comprehensive mental health services,

the United States shall be entitled to recover from the transferor, transferee, or owner of the facility, the base amount prescribed by subsection (c)(1) plus the interest (if any) prescribed by subsection (c)(2).

"(b) The transferor and transferee of a facility that is sold or transferred as described in subsection (a)(1), or the owner of a facility the use of which changes as described in subsection (a)(2), shall provide the Secretary written notice of such sale, transfer, or change not later than 10 days after the date on which such sale, transfer, or cessation of use occurs.

"(c)(1) The base amount that the United States is entitled to recover under subsection (a) is the amount bearing the same ratio to the then value (as determined by the agreement of the parties or in an action brought in the district court of the United States for the district in which the facility is situated) of so much of the facility as constituted an approved project or projects as the amount of the Federal participation bore to the cost of the remodeling, construction, expansion, or acquisition of the project or projects.

"(2)(A) The interest that the United States is entitled to recover under subsection (a) is the interest for the period (if any) described in subparagraph (B) at a rate (determined by the Secretary) based on the average of the bond equivalent rates of ninety-one-day Treasury bills auctioned during that period.

"(B) The period referred to in subparagraph (A) is the period beginning—

"(i) if notice is provided as prescribed by subsection (b), 191 days after the date on which such sale, transfer, or cessation of use occurs, or

"(ii) if notice is not provided as prescribed by subsection (b), 11 days after such sale, transfer, or cessation of use occurs,

and ending on the date the amount the United States is entitled to recover is collected.

"(d) The Secretary may waive the recovery rights of the United States under subsection (a) with respect to a facility (under such conditions as the Secretary may establish by regulation) if the Secretary determines that there is good cause for waiving such rights.

"(e) The right of recovery of the United States under subsection (a) shall not, prior to judgment, constitute a lien on any facility.".

(b) In the case of any facility that was or is constructed, remodeled, expanded, or acquired on or before the date of enactment of this Act or within 180 days after the date of enactment of this Act, the period described in subsection (c)(2)(B)(i) of section 2115 of the Public Health Service Act (as amended by subsection (a) of this section) shall begin no earlier than 181 days after the date of enactment of this Act.

(c) The amendments made by subsection (a) of this section shall not adversely affect other legal rights of the United States.

EFFECTIVE DATE

SEC. 225. (a) Except as provided in subsection (b), this Act and the amendments and repeals made by this Act shall take effect on October 1, 1985.

(b)(1) The provisions of section 207 of this Act and the amendment made by subsection (a) of such section shall take effect on the date of enactment of this Act.

(2) The amendment made by section 209(j) of this Act shall take effect June 30, 1984.

(3) The provisions of section 224 of this Act and the amendment made by subsection (a) of such section shall take effect on the date of enactment of this Act.

Mr. WAXMAN (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment and the House amendment to the Senate amendment be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER. Is there objection to the initial request of the gentleman from California?

Mr. MADIGAN. Mr. Speaker, reserving the right to object, I would ask the gentleman from California to explain the amendment at the desk.

□ 1050

Mr. WAXMAN. If the gentleman will permit, this amendment is an amendment that would bring the Health Professions Training Assistance Act of 1985 to the terms that were agreed upon by the majority and minority of both this House and the other body.

Mr. MADIGAN. Can the gentleman assure me that the objection of the ranking minority member of the Committee on Energy and Commerce, the gentleman from North Carolina [Mr. BROYHILL], has been addressed in this amendment?

Mr. WAXMAN. As I understood the gentleman's objection, there was an extraneous matter in this legislation, and we at his request have removed that objectionable provision from the bill.

Mr. Speaker, on behalf of myself and my distinguished colleague from Illinois [Mr. MADIGAN], I am pleased to present an amendment to H.R. 2410, the Health Professions Training Assistance Act of 1985 and accompanying Senate amendment. The amendment I am offering today represents a compromise betweeen the original bill that passed the House on July 15, 1985, and S. 1283, the companion legislation that passed the Senate and was returned to the House as an amendment to H.R. 2410.

This compromise was the result of lengthy negotiations between the Subcommittee on Health and the Environment and the Senate Committee on Labor and Human Resources. It has broad bipartisan support. Approval of this amendment will permit immediate consideration in the Senate of this long-overdue legislation. Immediate action is necessary to remove the cloud that has been hanging over the education of many students for nearly a year.

This bill should never have been necessary. Last year a bill with similar provisions passed the Congress by an overwhelming, bipartisan vote. Unfortunately, the President pocket-vetoed that legislation. This year the President has proposed to eliminate the educational assistance programs in title VII of the Public Health Service Act, citing the current perception that there is or will soon be a surplus of physicians. But this ignores the two principal purposes of these programs: First, helping disadvantaged students enter the health professions; and second, addressing persistent national personnel shortages in primary care, public health, and preventive medicine. This legislation demonstrates that in spite of recognized increases in the supply of health professionals, persistent geographic and specialty maldistribution problems warrant reauthorization of title VII programs.

The pocket veto also has threatened the important loan programs in title VII. This is entirely unreasonable, since those programs involve either private money or revolving funds and can continue with no new Federal appropriations. In addition, the pocket veto prevented from taking effect numerous provisions needed to reduce student loan default rates and to strengthen collection procedures.

The funding levels in this bill are quite modest. The total authorizations are frozen at the 1985 appropriations level for 1 year. For the 2 subsequent years, funding is permitted to increase at rates of 2.7 percent and 2.3 percent, respectively, or about one-half of the level estimated by the CBO as necessary to continue current services.

The bill reflects more than a $50 million reduction in spending from the earlier vetoed bill.

Mr. Speaker, these important programs have enjoyed strong bipartisan support in the past. I hope that this House will continue that tradition.

I urge each Member's support for this important legislation.

Mr. Speaker, the following comments and description are presented to aid in the interpretation of this legislation. The same material will be included in the RECORD when the Senate approves this amendment.

COMMENTS AND LEGISLATIVE DESCRIPTION

This legislation reauthorizes Title VII of the Public Health Service Act, commonly referred to as the health manpower law. However, current law is significantly modified, recognizing that it is no longer necessary or appropriate for the Federal Government to provide incentives for training increasing numbers of health professionals. Instead, this revised version of title VII is focused on three areas:

First, student assistance through a Loan Guarantee Program and a limited federally financed loan program—neither of which requires the appropriation of funds—and through scholarships and stipends to disadvantaged students. Management and accountability of all student support programs have been clarified and strengthed to ensure timely payment of debts.

Second, support for programs designed to encourage minority and disadvantaged students to pursue careers in the health professions. The statute was amended to clarify that the federally funded loan program is only for economically disadvantaged students, and the Disadvantaged Assistance Program was amended to direct 20 percent of those funds to stipends for students.

Third, support for primary care training programs in family medicine, general internal medicine, and general pediatrics.

Furthermore, this revised bill repeals numerous obsolete and redundant sections of title VII and the budget authority for fiscal year 1986 is reduced by $31 million from the authorized for fiscal year 1984, the most recent fiscal year for which funds were authorized by this act.

AUTHORIZATIONS FOR APPROPRIATIONS

This legislation is a strong endorsement of the importance of reauthorizing the programs in title VII, but Federal budget deficits warrant freezing total funding at the level of the fiscal year 1985 appropriation for 1 year. It is not possible to provide for continuing services at that level, but funding in the 2 subsequent years is authorized to rise by about one-half of the appropriate inflationary estimates of the Congressional Budget Office. These Authorizations are some $50 million below the levels for comparable years that were in the conference agreement that was pocket-vetoed late in 1984.

HEAL LOAN PROGRAM

Under the HEAL Program, students borrow private, not Federal, funds from commercial lenders at market rates. The Secretary maintains a student loan insurance fund with premiums charged to lenders, who pass on the premium costs to the student borrowers. The Federal Government reinsures the loan insurance pool and would be liable if the pool were bankrupted by excessive defaults.

When the reauthorization of title VII was pocket-vetoed, the authority for issuing Federal guarantees for loans to new borrowers expired. The program was continued into fiscal year 1985 with unused obligational authority from previous fiscal years. There have been numerous reports that this balance will soon be exhausted and no further loans to new borrowers could be made.

Because this program involves very limited Federal expenditures—only administrative costs unless the insurance fund were to have insufficient funds—and is a critical source of last-resort funds for many health professions students, authority for loans for fiscal year 1985 and authority to carryover unobligated balances from previous years have been added. The authorized level for subsequent years was raised by $25 million for fiscal year 1986, and by $15 million for each of the remaining 2 years. If the total amount of new loans made and installments paid is less than the authorized level for a fiscal year, the balance remaining is added to the authorized level for the next fiscal year. Thus in any year, the ceiling established for that year is the authorized amount for that year plus any balance carried over from previous years.

The inspector general of the Department of Health and Human Services completed an extensive report on the HEAL Program on March 22, 1985. The report identified serious interrelated deficiencies in program operations, insufficient insurance premiums, unnecessary borrowing by students and inefficient collection efforts. A number of the inspector general's recommendations to improve collections and stabilize the insurance pool are included in this bill, including increased insurance premiums, requiring an actuarial analysis as a basis for increases in the insurance premiums, narrowing the payback period, and allowing negative amortization. In addition, loan disbursements must be issued jointly to the student and eligible institution.

The majority of the inspector general's recommendations can be accomplished through regulations, and the Secretary of Health and Human Services is encouraged to implement those recommendations that are consistent with the overall purposes of the HEAL Program. Specifically, the following should be incorporated in regulations as soon as possible:

First, require financial aid officers to reconcile information provided on the HEAL application with any prior loan application on file, and report any discrepancies found in that examination which cannot be reconciled to the lender.

Second, allow borrowers to receive loan payments covering costs for no more than 6 months at one time.

Third, formalize specific requirements for entrance and exit interviews, including debt counseling for student borrowers.

Fourth, require lenders to inform borrowers of their loan balance and projected payment for that balance at least semiannually.

Fifth, require lenders to contact borrowers promptly to convert loans to repayment status.

Sixth, require lenders to determine that an applicant has no prior default on any loan.

Seventh, require lenders to use collection practices which are at least as extensive and effective as those used in other collections done by the lender. These requirements should include at least the use of a collection agency—which may be internal—and the referral of delinquent accounts to a national credit agency.

The cost to borrowers who participate in this unsubsidized loan program are substantial. At the same time, it is important to provide access to adequate capital for health professions students from limited financial backgrounds, who must finance the high cost of obtaining their professional training. In order to maximize the availability of this essential program while minimizing student indebtedness, the HEAL Program should be used only to meet necessary educational expenses. In considering the amount for which a student is eligible, the institution shall review at least the financial assistance available to

the student and the income available to the student and to the student's spouse.

The vetoed bill also contained a provision, added by Mr. STOKES on the House Floor, that would have changed the way in which interest accrues on HEAL loans prior to the payback period, from semiannual compound to simple interest. Some banks, however, claimed that this provision would threaten their continued participation in the HEAL Program because of the cost of holding assets drawing simple interest that cannot be collected annually. This bill modifies the Stokes amendment by returning to semiannual compounding but lowering the interest rate form T-bill + 3½ percent to T-bill + 3 percent. This modification was found acceptable because the monthly payments would be virtually the same as they would have been under the simple interest formula, thus accomplishing Mr. STOKES' intent of reducing student indebtedness. This version of the Stokes amendment was preferred by the banks that had raised concerns about simple interest and is intended to assure their continued participation.

The bill also incorporates a provision increasing the insurance premium payable by borrowers to cover the cost of loan defaults and requiring a qualified public accounting firm to evaluate whether additional funds are needed to keep the fund solvent. Insurance premiums must be collected at the time the loan is made, not over the life of the loan, so that persons who ultimately default will share equally in the costs of insurance. It is expected that the Department of Health and Human Services will coordinate better with lenders and schools the ongoing administration of the HEAL Program with respect to the collection of delinquent and defaulted loans.

Another provision allows insurance funds to be used for collection costs. It is intended that this refers only to those costs incurred by the Federal Government, not the costs incurred by lenders. Lenders are expected to make every effort to collect loans prior to requesting reimbursement from the insurance fund. The costs of such collection activities are to be borne out of the interest rates provided.

To stimulate repayment during low-earning years, the prohibition against negative amortization is modified. The bill now gives to students—not to lenders—the option to elect a repayment schedule incorporating annual payments that are less than the interest accruing during that year.

HEALTH PROFESSIONS STUDENT LOANS

Under the HPSL Program, health professions schools maintain revolving funds from which they make loans at 9 percent interest to their students. Medical and osteopathic students must meet a definition of exceptional financial need to qualify for these loans. Because no funds were appropriated in fiscal year 1984 or fiscal year 1985 for new Federal capital contributions to the revolving funds, no new authorizations are included at this time. The bill does provide that any excess cash or other funds returned to the Secretary from a school loan fund in any fiscal year are required to be available in that and succeeding fiscal years for payment to other school loan funds. To assist schools that have relatively small revolving funds, many of which also have a high proportion of students from disadvantaged backgrounds, distribution of this money is limited to schools establishing loan funds in recent years.

The bill includes last year's conference provisions intended to improve loan collections. Schools may refer defaulted loans to the Secretary for assistance in collection. Penalty charges are provided for when installments are past due, and detailed information is to be made available to students on their loan obligations. Health professionals who have received low-interest loans at public expense for their education must be held to their responsibility to repay their loans, and, in so doing, to replenish the revolving loan funds.

Many schools have commented that the June 3, 1983, regulations regarding loan collection performance standards have placed an impossible burden on them by redefining previously ambiguous regulations in ways that cannot now be met. Further, they argue that they should not be excluded from the loan program for previous administrative inadequacies that were not monitored adequately by the Department and for which no corrective action was ever recommended by the Department.

Schools should be required to do everything currently possible to collect old loans and come into compliance on a reasonable timetable. In addition, when determining compliance, the Department should consider administrative problems beyond the control of current officials responsible for loan collection. Termination of a loan agreement with a school benefits virtually no one and may preclude needy students from attending a particular school. Therefore, termination should be reserved for recalcitrant institutions that do not make good faith efforts to redress previous administrative shortcomings. In particular, the Department should not take measures that would penalize future students unfairly by terminating loan agreements before schools have adequate opportunity to bring their collection procedures into conformance with current regulations. Thus, the bill includes the conference provision requiring written notice and a formal hearing before an administrative law judge when agreements are to be terminated. The bill also includes a new formula for determining loan collection performance standards. The Committee on Labor and Human Resources and the Subcommittee on Health and the Environment intend to monitor the performance of the Department in improving loan collections and will consider the need for additional legislation in the future if insufficient progress is made or unfair procedures are applied.

Under current law, when a loan is canceled, the Secretary is required to pay the schools its proportionate share of the loan. The bill deletes this requirement but allows schools to assess charges to cover the costs of insuring against cancellation caused by the death or permanent and total disability of the borrower. It is intended that regulations implementing this charge will provide for a uniform insurance program based on expected national rates of cancellation, rather than permit individual schools to determine the charges.

EDUCATIONAL ASSISTANCE TO INDIVIDUALS FROM DISADVANTAGED BACKGROUNDS

The bill includes new authority directing that 20 percent of the funds appropriated for this program in each fiscal year be awarded as stipends to students who meet the exceptional financial need criteria set forth by the Secretary pursuant to section 758 and who are enrolled at schools of medicine, osteopathy, or dentistry.

In light of increasing tuition costs and limited Federal resources it is appropriate to target a portion of the funds under this program directly to students in serious financial need. These funds are to be utilized to assist students in schools of medicine, osteopathy, and dentistry in all years of attendance. The stipends awarded under this program are to be awarded only to assist students in attendance at these schools for the purpose of meeting the costs of their tuition, books and equipment, and living expenses. Such stipends are to be awarded to needy students in amounts no greater than $10,000 per student per year.

This new aspect of the Disadvantaged Assistance Program should be administered by the Division of Student Assistance in the Bureau of Health Professions.

CAPITATION SUPPORT FOR SCHOOLS OF PUBLIC HEALTH

Capitation support is intended to create incentives to address personnel shortages in the various health professions. The capitation provisions for all professions other than schools of public health have had no appropriations authorized in recent years because personnel needs appear to have been met or even exceeded in those fields. Those provisions are repealed by the bill.

Because public health can still demonstrate some shortages, the bill reauthorizes appropriations for capitation for schools of public health.

The schools have reported that many students now must attend graduate school part time and that this makes it difficult for some schools of public health to meet the capitation requirements in current law. But since capitation is meant to stimulate enrollment, it would not be appropriate to continue reauthorizing appropriations while deleting or seriously weakening that requirement. To address the situation of schools with increasing numbers of part-time students, the bill changes the method of calculating a school's eligibility. The capitation requirement is expressed in terms of "full-time equivalent" students as of 1983, and calculates enrollments using the formula already applied under section 770(A)(2)(A) of the act. This eliminates the burdensome aspects of the current requirement while continuing the encouragment to keep up enrollments that is embodied in the capitation approach.

A waiver from these requirements exists in the current law. Quality of education is essential, and when enrollment requirements clearly would compromise training of a limited number of public health specialists to meet documented needs, the waiver provision should be utilized. However, the waiver should not be applied in a way that undermines the enrollment requirement.

SUPPORT FOR PRIMARY CARE PROGRAMS IN FAMILY MEDICINE, GENERAL INTERNAL MEDICINE, AND GENERAL PEDIATRICS

Continuing support for these programs is necessary because of the difficulty in financing primary care training programs out of patient care revenues, research moneys and institutional support as other departments and programs can do. Because these programs serve important national health care needs and cost-containment objectives by encouraging medical students into primry care specialties. This is particularly important while the method of payment for primary care services and education are being revised to provide more equity with other specialities. In addition, schools should demonstrate a real commitment to primary care training and, accordingly, the bill instructs the Secretary to give priority to applicant institutions that demonstrate such commitment. Because expressions of commitment might vary among programs, the bill leaves the definition of commitment flexible, to be interpreted by the Secretary taking into account the characteristics of the applicant institution and its other training programs.

Development of adequate numbers of educators in general internal medicine and general pediatrics is an important adjunct to efforts to foster primary care medicine through the funding of residency programs. The training of such faculty further enhances the necessary integration of general internal medicine and general pediatrics into traditional medical education training programs. Accordingly, if sufficient funds are available to maintain approved residencies, it would be appropriate for a portion of funds under section 784 to be used for model faculty development programs.

SUPPORT FOR PROGRAMS IN GENERAL DENTISTRY

The need to expand the number of types of programs to train general dentists has become clear in recent years. Accordingly, the bill expands the program to include advanced educational programs, in addition to residencies, and sets aside for general dentistry 7½ percent of funds appropriated for programs in family medicine and general dentistry.

TWO-YEAR SCHOOLS OF MEDICINE, INTERDISCIPLINARY TRAINING, AND CURRICULUM DEVELOPMENT

It is no longer appropriate to encourage additional conversion of 2-year schools of medicine to 4-year schools. Nevertheless, some existing 2-year schools require assistance in maintaining and improving their programs. This is equally the case for schools that provide the first 2 years of training as for those that provide the last 2 years, and the restriction of grants to only the former group was eliminated. Because of the importance of certain improvements such as medical libraries for schools without libraries, it should be clear that grants under this section may be used for construction and the purchase of equipment, as well as for other projects, in schools already in existence.

This list of 24 areas for special projects in existing law provides insufficient direction to the Secretary. Accordingly, the list was reduced to five high-priority topics. One particular area that needs greater emphasis is training of health professionals in geriatrics and the problems of the elderly, as documented by recent studies. To highlight this need the bill specifies it in greater detail and provides that a specified portion of appropriations for this section shall be devoted to such training and curriculum development.

The bill also incorporates a provision requiring that at least 75 percent of amounts appropriated for special projects shall go to peer-reviewed applications from health professions schools and not more than 25 percent to other applicants. Two-year schools that are eligible for grants for their maintenance or improvement should be considered health professions schools for the other projects in this provision.

REPEALS

The bill includes provisions adopted in the conference agreement repealing numerous sections considered obsolete or redundant. None of the repealed authorities relate to currently funded activities in health professions training.

Mr. MADIGAN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the initial request of the gentleman from California?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the legislation just considered.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

FOOD SECURITY ACT OF 1985

The SPEAKER. Pursuant to House Resolution 267 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill H.R. 2100.

□ 1051

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 2100) to extend and revise agricultural price support and related programs, to provide for agricultural export, resource conservation, farm credit, and agricultural research and related programs, to continue food assistance to low-income persons, to ensure consumers an abundance of food and fiber at reasonable prices, and for other purposes, with Mr. BONIOR of Michigan in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole House rose on Wednesday, October 2, title VA was open for amendment at any point to amendments printed in the CONGRESSIONAL RECORD before September 24, 1985, and pending was an amendment offered by the gentleman from Illinois [Mr. MADIGAN] on which debate had been limited to 1 hour, to be equally divided and controlled by the gentleman from Texas [Mr. DE LA GARZA] and the gentleman from Illinois [Mr. MADIGAN].

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA Mr. Chairman, I yield 4 minutes to the gentleman from Minnesota [Mr. PENNY].

Mr. PENNY. Mr. Chairman, this is our last opportunity to vote for a better price for farm commodities. If we adopt the Madigan amendment, we are telling farmers across America that this farm bill will not give you an opportunity to improve farm commodity prices. For those who argue that we ought to strike the Bedell provision what they are really arguing is for us to continue the same farm program for the next several years. What they are really arguing is for us to lower farm income. What they are really arguing is for us to say that there is nothing we are going to do to stop the departure from agriculture of 200,000 to 500,000 farmers across the United States of America.

The Bedell referendum plan is the last element in this farm bill that gives grain producers a chance to vote for a better price for their grain commodities. If we vote this down, there is no alternative. Keep that in mind.

Those who are asking us to strike this provision from the bill are not offering an alternative that does a better job of providing a price for agriculture. They are here to tell us that we should strike this and then leave the same old stuff in place for the next 5 years. If the same old stuff was working, we would not have monumental farm debt out there in farm country! It is not working. If we strike the Bedell program, we tell folks that deterioration of our farm economy is going to continue for the next several years.

Mr. BROWN of Colorado. Mr. Chairman, will the gentleman yield?

Mr. PENNY. I yield to the gentleman from Colorado.

Mr. BROWN of Colorado. The gentleman might want to look at the

other amendments that are in the RECORD, because there are alternatives offered that do not run into the major problems that I think this amendment offers.

Mr. PENNY. The amendment would provide for a better farm price. I think I might concur that there are alternatives available to us. But to my knowledge the amendments do not improve farm income as this amendment would. They do not improve farm income as the Stangeland-Glickman approach would have. Any alternative that is left to us if we strike Bedell from the bill leaves us with a lower income for farmers, a lower price.

Mr. BROWN of Colorado. I would just submit to the gentleman that the way this bill is structured now, it would eliminate most livestock feeding in the gentleman's State and transfer it across the border to Canada. If that is an assistance to agriculture in anybody's book, I cannot believe it.

I ask the gentleman to take a look at the economics of this bill, because it will significantly reduce livestock feeding in his State. The bill will reduce the price of feeder cattle and calves. Farmer-feeders will face much higher cost for feed ground or mixed off the farm.

Mr. PENNY. If I might respond, livestock producers in my State would have an opportunity under this approach to continue to grow their grain and to feed it to their livestock. They are not, as some livestock producers are in other regions of the Nation, buying large quantities of grain or feed for consumption on their farm. We do not have major livestock factories in southern Minnesota. We are not there with such a large herd that we have to go out and buy our grain, for the most part, to feed our livestock. Our farmers could, under the provisions of this program, produce for consumption on the farm, and that is not going to be a detriment to them. So livestock producers in Minnesota are going to find that this program will get better grain prices but will not be a detriment to the livestock industry. It may be a detriment to the biggest livestock operations in America, but I do not think we ought to be about the business of promoting that kind of agriculture.

Mr. MADIGAN. Mr. Chairman, I yield such time as he may consume to the gentleman from Ohio [Mr. LATTA].

Mr. LATTA. Mr. Chairman, I had the extreme pleasure of serving on the Committee on Agriculture when I first came to this Congress, and that was before the chairman or the ranking minority member came to the committee. I have heard this two-price system that we now have before us debated many, many times, and it was always turned down, for the very same reasons. So I take this time to point them out, with an inquiry and a colloquy with the ranking minority member, whose amendment must pass—and I emphasize that: whose amendment must pass—or we could very conceivably have a two-price system for agriculture in this country that we have not adopted these many years.

Let me start by asking the gentleman who proposes the amendment, the ranking minority member on the committee, what this two-price system actually means to, say, U.S. consumers versus foreign consumers of our U.S.-produced corn and feed grains? Does it mean higher prices for American consumers versus lower prices for, say, a consumer in the Soviet Union?

Mr. MADIGAN. The gentleman is correct that our grain exports would be subsidized so as to sell lower in the world market, whether that was the Soviet Union, Canada, Mexico, wherever. The price of our subsidized grain selling in those markets would be less than the mandated price in the domestic market.

Mr. LATTA. So the gentleman is saying that even though we are going to be producing this grain, that our consumers across the country would have to pay a higher price than the people who would be purchasing it offshore?

Mr. MADIGAN. That is correct.

Mr. LATTA. Well, that is going to be very hard to explain, and it was pretty hard to explain when I was on the Committee on Agriculture when these things came up, that we would have a situation like this.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. LATTA. No, I cannot yield now. The gentleman knows what is in his amendment, and so do I.

Mr. BEDELL. I do not think the gentleman does.

Mr. LATTA. I do not yield to the gentleman at this time. I will be happy to yield to him if he has something to say, but not at this time.

Let me proceed. I can remember when I was on the Committee on Agriculture that we had a wheat program my farmers could not and did not support. Incidentally, I happen to represent what I think is the best agricultural district in the State of Ohio, we have a lot of farmers, and they are hurting financially and we must do something about it. Whether or not this is what we want to do about it is the question. Back in those days farmers had to carry a little card around in their pockets to indicate he was authorized to sell his own wheat. There was a great deal of aggravation and unhappiness with this program. It was so restrictive that a chicken farmer in Michigan sold out and went to Australia because of it.

Now, I am going to ask the gentleman whether or not we are going to have a certificate-type plan where you have to have certificates to sell grain in our domestic market versus the foreign market which we will be subsidizing?

Mr. MADIGAN. If the gentleman will yield, if a person participates in the program, they would get a marketing certificate which would allow them to sell in the domestic market. If they choose not to participate in the program, they could still grow a commodity but they could not sell it in the United States. They would either have to consume it on their farm or find a way to sell it outside the United States themselves.

Mr. LATTA. So they would still have to produce a certificate in order to sell their grain domestically.

Let me just ask another question, because it has been brought up here by the previous speaker that you could still produce if this bill passed as is, without the gentleman's amendment, they could still produce for livestock raised on your own land to feed to your own livestock.

But let me ask the gentleman whether or not these large cattle yards would be able to purchase the lower-priced feed to feed to their cattle that foreign competitors would be able to purchase?

Mr. MADIGAN. No. The gentleman is touching on the objection of the gentleman from Colorado [Mr. BROWN] and others, that if you were not able to grow as much as you needed for your hogs or your cattle or whatever, you would be obliged to buy the higher priced U.S. grain which would be selling to your Canadian competitor for less money in Canada than you would have to pay for it in the United States. The gentleman is correct.

Mr. LATTA. Everybody knows that we have had a problem with the importation of pork from Canada. Does the gentleman mean to tell me that under this program Canadians would be able to buy the cheaper exported grain to feed to their hogs and ship these hogs produced with cheaper feed into the United States.

Mr. MADIGAN. If the gentleman will yield, I will soon have to reclaim the time for other speakers, but the gentleman is correct, and that is one of the objections being raised by the Department of Agriculture, one of the objections being raised by the pork producers, by the livestock industry and by others, and it is also an objection that was raised yesterday in a letter addressed to me from the U.S. Trade Representative.

Mr. LATTA. I have one further question. May I ask the gentleman about the vote by which this amendment came out of the committee? Was it a close vote, or was it overwhelming, after members had studied it?

Mr. MADIGAN. It was at one point in the committee defeated as a manda-

tory provision. It was brought back as a referendum provision, adopted by a 22 to 18 vote, with Members of both parties voting on both sides of the question.

Mr. LATTA. Was the vote 20 to 18?

Mr. MADIGAN. 22 to 18.

Mr. LATTA. 22 to 18. So it was not overwhelming. There was quite a split, politically, within the committee after members had studied it.

Mr. MADIGAN. On both sides.

Mr. LATTA. I thank the gentleman and in conclusion, I believe the committee should look at other ways to raise farm income. A good ethanol program would help. The Department of Agriculture estimates the export subsidies to be paid under this plan could reach $10 billion. They could consider giving this export subsidy to the farmer rather than to an exporter.

Mr. MADIGAN. I thank the gentleman from Ohio.

Mr. DE LA GARZA. Mr. Chairman, I yield 2 minutes to the gentleman from Oklahoma [Mr. ENGLISH].

Mr. ENGLISH. Mr. Chairman, I think that we probably have gone through the Bedell amendment to the point where most people have a good understanding of what the issues are that face us. There have been those who are opposed to this amendment and would seek to strike it from the legislation that have cited various instances as to why they do not think this legislation should be included and approved.

I would simply say that the place to make those arguments are to the farmers of this Nation. Let the farmers determine whether or not they feel that this particular approach is one that should be followed. That is the reason that the bill as it stands today provides the farmers with the options. It allows the farmers to decide. It allows the farmers to determine their own fate.

□ 1105

That is where those who do not favor this approach for one reason or another should be making the arguments.

I think that for this body to deny those farmers the opportunity to vote particularly during the times in which we are facing the most serious financial crisis since the Great Depression, I think would do a disservice to American agriculture, certainly to the American farmer, and I would dare say to the economy of this Nation in total. Because if the agriculture situation continues to deteriorate, and if we find ourselves in a position in which farmer income is reduced year after year through the life of this bill, there is no way that other segments of this Nation's economy are going to escape.

I would urge that this particular amendment be defeated.

Mr. MADIGAN. Mr. Chairman, I yield 4 minutes to the gentleman from Mississippi [Mr. FRANKLIN].

Mr. FRANKLIN. I thank the ranking member on the committee for yielding me this time.

Mr. Chairman, I want to commend the chairman of the committee and all others for extending this debate on what I consider to be the most crucial issue of the 1985 farm bill.

Make no mistake about it, my colleagues, this vote that we will take very shortly is the crucial vote because it determines the philosophical approach that the United States of America is going to take toward agriculture for the next 5 years. That philosophical question boils down, really, to this: Are the farmers of this country going to be able to choose for themselves what they can plant on their land, how productive they need to be, or are they going to rely on the U.S. Government to mandate to them what they can and what they cannot do? That is the Bedell provisions that the Madigan amendment attacks, and I rise in strong support of the Madigan amendment.

I have heard it argued here throughout this debate that we need to take those farmers out in this country who are causing a problem and mandate that they come into the Government program and comply with that program. Now what that means, my fellow colleagues, is that to be efficient and to be productive in this country has now been termed to be bad, and that we have got to do something about that. Because there are those who argue that there are farmers in this country who by their efficiency of production are causing a problem and have to be reined in and mandated and controlled by the Government. That is what this amendment actually does.

I have to say to you, my colleagues, that we will change the philosophy toward ownership on the farm; we will change our philosophy toward the decision that individual farmer makes when he decides what he is going to do with the resources he has if we allow this particular provision to remain in the agriculture bill.

It has also been argued that we need higher farm income. I do not think that there is one member of the Agriculture Committee or one Member of this great body who does not agree with that statement that we do need to have a higher farm income. The question is how do we do that?

I do not think that we ought to bite into the shiny apple that the serpent offered to Eve and to allow that to happen through a referendum that promises all would be devastating in the outyears. You have heard the arguments over and over again that in the first year the amount of land that has to be set aside is somewhat limited. But in the outyears, 1987, 1988, 1989, the amount of land that would have to be set aside by the American farmer, manditorily, where he would have no choice, is left to the discretion of the Secretary of Agriculture and would have to come into line with the amount of production we need in this country.

The Members also heard that the Department of Agriculture estimates in order to get that production in line that the set-asides would have to be upward of 40 or 50 percent in those outyears. My friends, the district that I represent is a rural district. It is 268 miles long and 150 miles wide. It does not have a big city in it. It is all rural, small town communities. Those rural, small town communities depend on agriculture almost totally for their survival. Not only the people who participate directly in agriculture, but all the subsidiary input industries, the feed, the seed suppliers, the fertilizer dealers, and the agricultural aviators. Even the barbers have to depend on the farm economy for their survival.

I urge my colleagues to vote for the Madigan amendment so that we can hopefully restore higher income to our American farmers.

Mr. DE LE GARZA. Mr. Chairman, I yield 5 minutes to the author of the amendment as it appears in the bill, the gentleman from Iowa [Mr. BEDELL].

Mr. BEDELL. I thank the gentleman for yielding me this time.

Mr. Chairman, first of all, I want to commend the chairman and I want to commend the committee for the work they have done. I even want to commend the other side of the aisle. We do not agree on these issues, but thank God we live in a country where we can debate what be believe. I do not question their sincerity one bit.

Yesterday, the Governor of Iowa declared an economic emergency in Iowa. That is the first time that has been done since the Great Depression. Our committee has worked long and hard to try to fashion the best farm bill that we possibly could under the budget restraints that we face, and it has not been easy. I would like to see a better farm bill.

One of the provisions in that farm bill is the referendum. There are some misconceptions that I think need to be straightened out a little bit in regard to what that would do. One of them is that we would lose our exports. It is admitted by the Department that our exports will increase under the Bedell amendment if we keep it in the bill, compared to if we lose it.

It is said that we would cause tremendous set-asides. The fact is that your set-asides are primarily dependent upon your exports, and if we are going to have the strongest export program we possibly can have, certain-

ly we are doing everything we can to limit our exports.

It is said that it would be devastating to livestock producers. Actually, we are going to have corn at $3.25. The average price in next year's dollars of corn over the past 10 years has been $3.51. Somebody tell me how by lowering the price from what it has been over the last 10 years, we are going to devastate an industry. My people would tell you that cheap corn is cheap cattle. I believe that. I believe that is correct. We have got a chart here to show what has generally happened with corn prices and cattle prices. Clearly, as corn prices have gone up, cattle prices have gone up.

Sure, the gentleman from California represents a tremendously big commercial feedlot; they are taking the work away from our farmers because the cattle are moving there. They are moving there partly because of the special tax breaks we have given them, and they are moving there partly because we are selling them corn cheaper than it costs our own feeders to raise that corn. I do not think that is what we want to do for our farmers.

Mr. BROWN of Colorado. Mr. Chairman, will the gentleman yield?

Mr. BEDELL. I will not yield. I only have a limited amount of time.

Mr. Chairman, there are three sources farmers have for income. One of them is the domestic market. Another is the foreign market. Another one is the Government. We are going to give them less money from the Government; we said that in our budget. Foreign markets are in a disaster. Farmers are going to get less money from the foreign markets—no question. The only thing that is left is the domestic market. All the provisions we have say we are going to lower loan rates and lower domestic prices and lower that source of income.

Now, it may be all right to do that in some areas of the country, but let me tell you, in Iowa, for us to come out of this body saying we are going to lower farm income of all three sources of income to farmers is not what I think they expect this Congress to do.

Mr. Chairman, whenever anybody proposes something different, there are always those people who say it will not work, and it will not work for this reason; they can always find a million reasons why it will not work. I understand that and I do not doubt the sincerity of those people.

□ 1115

But, Mr. Chairman, I think we need to look at the alternative. Agriculture is in trouble today. Without the referendum, the bill would simply continue the present program except that it would lower farm income from where it is under the present program.

Somebody said that this is a philosophical approach. That is exactly right. This is a philosophical approach, and the question is, Are we going to continue with the program we have had, with the problems we have in agriculture, or are we going to say that we think maybe farmers ought to have a chance to vote to try to help themselves have a program that would cost the taxpayers less money and would help us to solve our problem?

Let us not forget that it still would not take effect unless 60 percent of the farmers said that is what they want. When New York City was in trouble, I voted to help them out even though it might cost us some money. The same with Chrysler.

Mr. Chairman, we are one Nation. We are now simply asking to give farmers a chance to vote on whether or not they prefer a different farm policy—one, I repeat, that would reduce Government cost. I plead with the Members at this time, with the problems that we have in our rural areas, not to turn their backs. Give farmers this one opportunity to at least have an opportunity to vote as to whether or not we will have a better program for farmers.

Mr. Chairman, I urge Members to stay with the committee bill. I urge them not to turn their backs on the farmers and knock out the one opportunity we have to try to help agriculture in these most difficult times.

Mr. BROWN of Colorado. Mr. Chairman, will the gentleman yield?

Mr. BEDELL. I yield to the gentleman from Colorado.

Mr. BROWN of Colorado. The gentleman made reference to whom I represent. I do not have time yet, and I hope to get some, but very briefly the gentleman's representation of who I represent is not accurate, and I would be glad to fill the gentleman in on that.

Mr. BEDELL. Does the gentleman not represent the Monford feeders?

Mr. BROWN of Colorado. I represent the eastern part of Colorado, not California, and if the gentleman would grant me time, I would be happy to explain why his bill harms Iowa livestockmen and hurts his farmers.

The CHAIRMAN. The time of the gentleman from Iowa [Mr. BEDELL] has expired.

Mr. MADIGAN. Mr. Chairman, I yield 5 minutes to the gentleman from Kansas [Mr. ROBERTS]

Mr. ROBERTS. Mr. Chairman, first, if New York City or the State of Massachusetts were in the kind of trouble that we are experiencing in farm country we would be debating this issue for months. I must tell my colleagues that I bitterly resent this farm bill being debated under strict time limits. My people are going through extreme hardship and adversity, and I have 5 minutes to debate the bill that will affect their daily lives and pocketbooks perhaps more than any other provision. I bitterly resent that.

Throughout this effort I have felt that a referendum on a workable policy alternative was a goal we should explore fully. But I also believe it is absolutely crucial that farmers and ranchers know what we have to live with once the speeches are over. The times are such in farm country we cannot afford a stump speech or cotton candy referendum. We have to determine as best we can what the producer has to live with in black and white when he signs up at the local ASCS office. If we are to have a mandatory program of supply management, it cannot in my judgment be mandatory for some and voluntary for others. Given the interrelationship between cotton, rice, and especially soybeans, a mandatory program on only two commodities—wheat and feed grains—will eventually lead to all sorts of planting and cropping aberrations.

Now I know the gentleman from Iowa has frozen the current acreage base so that that will not happen. That too will lead to distortions and the loss of individual cropping freedom, not to mention the complete undoing of acreage base reform as sponsored by the gentleman from Texas [Mr. STENHOM] and myself.

This program provides for a loan rate for wheat at $4.50 a bushel. Now that is only 12 cents above the current target price. We are asking producers to live with an entirely different marketing system for only 12 cents. And if you discount the storage cost, it goes down from $4.50 to $4.30; that is 8 cents below the current target price. If we are going to embrace a program of strict supply management in order to guarantee a fair price, then we should be paying farmers some parity prices. That loan should be at 90 percent of parity if we go down this road.

Now the amount of ground that the farmer would have to set aside in order to qualify for that $4.50 loan is 30 percent the first year, and then up to the discretion of the Secretary in the remaining years. And the Secretary tells me that that set-aside in order to balance the supply and demand would be near 50 percent of the farmer's acreage base. The gentleman from Iowa [Mr. BEDELL] says that is not true, he disagrees, it is not that much, that with mandated export subsidies that the USDA is wrong. I would only point out that if export demand follows our current projections, we will be taking under loan mountains of grain, more mountains of grain, with a corresponding cost. In this case we have a real difference of opinion to say the least.

A real problem occurs in allowing one sector of our agriculture economy to impose burdens on another sector. Farmer feeders who cannot feed their

own grain on the farm are in a much different situation than anyone else in the feeding business who will have to purchase their feed at the higher price. I suspect that, really given the comparative advantage our feedlots in Kansas have gained in recent years, in comparison to the gentleman's home State, this bill could be called the Iowa Feedlot Restoration Act of 1985.

The USDA estimates that if this provision becomes law, there will be a 14-percent decline in the red meat industry. Again I know that the gentleman from Iowa [Mr. BEDELL] disagrees, but that is the estimate. If that is the case, then this bill's theme song will be "Mamas, Don't Let Your Babies Grow Up To Be Cowboys."

Now, suppose in a farm family we have one youngster working down at the commercial feedlot, another is in the local implement dealership, and another is on the home place. One youngster would be getting a $4.50 loan—he deserves more than that really—minus the storage. But that legislated price may be at the expense of his other two brothers. If this legislation has a pocketbook impact on the livestock industry, then our cowboys at least ought to have a right to vote.

In this provision we mandate the Secretary of Agriculture to match unfair trading practices with our surplus grain or with payments. How does the Secretary do this? Well, we do not tell him how or at what cost; we just say, "Do it, Mr. Secretary." And we have the CBO, the Congressional Budget Office, to say that it will cost less money.

Now, the gentleman from Iowa [Mr. BEDELL] has emphasized that the USDA is wrong, and others have said CBO is vague to say the least. Let us try "PRE"—that is the Pat Roberts estimate. We have 1.8 billion bushels of wheat in surplus. The world price is estimated to be as low as $2 a bushel. Take the difference between that price and the $4.50 loan rate, and we have a subsidy cost of at least $2.6 billion for wheat. The "PRE" does not include corn. What we have proposed, then, is to take that $4.50 grain under loan in the front door and then mandate to the Secretary of Agriculture to kick that same surplus out the back door.

I have not even touched on the proposition that we can somehow impose section 22 authority to impose a 50-percent tariff on imports of all grain products coming into this country. But even those sanctions would not be sufficient. If the world price for wheat stood at $2.50, a 50-percent tariff would price foreign wheat at $3.75, and that is still below the loan level in this bill.

Let's talk about something not mentioned before during the debate, enforcement. These certificates will have to be handled by every processor, flour miller, baker, or anyone who buys grain domestically. Keeping track and making sure that fraud and abuse is kept to a minimum will be a real burden to the USDA.

Say you are a farmer feeder and you generally purchase grain from your neighbor to guarantee your feed supply. Home grown is your cost of production. More than home grown is $4.50. Haul a load of grain at a handshake price with your neighbor and you are subject to a civil penalty in an amount three times the loan rate and your acreage base is reduced for next year. Who enforces this and at what cost? It's not spelled out.

The CHAIRMAN. The time of the gentleman from Kansas [Mr. ROBERTS] has expired.

Mr. ROBERTS. Mr. Chairman, I would ask my leader for 1 additional minute.

Mr. MADIGAN. Mr. Chairman, I have very little time remaining, but since the gentleman from Missouri [Mr. EMERSON] has indicated he will not need all of his time, I do yield 1 additional minute to the gentleman from Kansas [Mr. ROBERTS].

Mr. ROBERTS. Mr. Chairman, I thank the gentleman, and I thank my colleague, the gentleman from Missouri.

I will not have time to go into all the additional points in regard to what I think the farmer would face at the ASCS office, but I want to talk a little bit about this referendum, or farmers and ranchers having a voice in their destiny. They did that when they elected us to do this job. If this is a good idea because we have not done our job well or late or because of differences of opinion, then it should also be a good idea in regard to the deficit or the proposed tax bill. Let the taxpayer decide every 2 years how much in taxes he is going to pay.

In earlier debate, the chairman of the committee, the gentleman from Texas [Mr. DE LA GARZA] said the situation in farm country is so serious we cannot afford to gamble, that my marketing loan concept was too risky. The gentleman from Washington [Mr. FOLEY], the recognized godfather of the very best farm program legislation we have on the books, underscored the need for stability and predictability. If the marketing loan was unpredictable, this program is a virtual land mine. Where are those voices today?

It is not predictable. This referendum occurs every 2 years. Can we see a referendum every 2 years, given the adversity we are going through and the strong differences of opinion all throughout farm country on what we need to do?

At least, if the farmer would vote the program in we should keep it intact for 4 years. But that is not the point. The point is that every Memer of this House knows full well the President is going to veto this bill if Mr. BEDELL'S referendum is included. Democrat members have stated in public, that different agriculture interests need not worry, that the referendum will be dropped in conference.

So, you see you don't have to answer the tough questions I have raised. But the farmer would have to live with them. We don't even have to vote on the proposed program. We only vote on the referendum. Why not a truth in referendum. Vote on the program, up or down. But, that will not be the case.

In closing, I thank the gentleman from Iowa. He has offered his program in good faith. We both share concern and fear regarding what is happening to our people. But, in the case of the gentleman's proposition, I fear this is not an expedition that will open up new frontiers of price and profit but a referendum that will lead us into a box canyon with no way out.

Mr. Chairman, I urge my colleagues to vote for the Madigan motion.

The CHAIRMAN. The time of the gentleman from Kansas [Mr. ROBERTS] has expired.

Mr. DE LA GARZA. Mr. Chairman, I yield 1 minute to the gentleman from North Carolina [Mr. ROSE].

Mr. ROSE. Mr. Chairman, I thank the gentleman for yielding me this time.

We have just heard two of the most sincere and intelligent Members of this body express entirely opposing views on a very controversial piece of legislation. As a member of the Committee on Agriculture, I watched the Bedell amendment take effect and shape and finally come to be marginally adopted by the Agriculture Committee. It did not win by any landslide, nobody has been here to say that, but it did represent the hard work and the thinking of a great number of our colleagues who thought this was something that was worth trying.

I am always saying, "If it ain't broke, don't fix it." I say that about the programs from my area. But something is clearly broke in the area that this amendment addresses, and I would in all sincerity urge that my colleagues in the House give the Bedell provision a chance and vote down the Madigan amendment.

Mr. MADIGAN. Mr. Chairman, I yield 2 minutes to the gentleman from Missouri [Mr. EMERSON].

Mr. EMERSON. Mr. Chairman, I rise in support of the amendment offered by the gentleman from Illinois [Mr. MADIGAN] to strike the Bedell mandatory certificate program. I also want to associate myself with the remarks of the able ranking minority member of the Committee on Agriculture and all that he has said about this proposal. The gentleman is absolutely correct, in my view.

This particular option of the Bedell language, however attractive it might appear at first glance, would be devastating to the agriculture economy. Now, that is what my farmers tell me.

Sure, it will increase income to producers on the acres they produce, but they will be planting on a greatly reduced number of acres. More money on a smaller production base is not the answer and really does not provide more income overall, as the proponents of Bedell argue.

Additionally, the farm community, quite realistically, includes more than just wheat and corn farmers. Seed, fertilizer, and implement dealers are a part of that community, too. So are red meat producers. So are the producers of a myriad of other commodities.

If this program is enacted, the large reductions in corn and wheat production necessary to make this program work would be financially disastrous to this other group that is so affected by farm policy. If these businesses leave the rural community, they take with them jobs, tax bases, and services vital to rural America.

If Members do not want to believe me on that subject or if they do not want to believe my farmers, the Des Moines Register, a highly respected newspaper in the State of Iowa, from whence comes the author of the language we are seeking to strike, says so itself, and I wish to quote from an editorial in that newspaper. Granted this newspaper is referring to the proposal offered by the gentleman from Iowa who serves in the other body. The gentleman from Iowa who serves in this body says that they are two different proposals, but there are great similarities in the two proposals, and in that regard I wish to include a comparison of the two proposals:

SIMILARITIES BETWEEN BEDELL AND HARKIN/ALEXANDER

Both mandatory control programs. The Bedell provisions are a back-door mandatory control program. The name may be different—National Marketing Certificate Program—but the intent is the same: anyone who doesn't comply with its "mandatory controls" could not sell in the U.S.

Both include producer referendums. A producer regardless of size gets one vote. Some producers have a much greater stake in this mandatory/voluntary control decision than other producers and this degree of interest is not reflected in the referendum in Bedell.

Both harm the export market for agricultural commodities. Neither program contains any export promotion programs. This is not surprising because it would be impossible to promote the sale of $4.50 or $5.00 wheat in export markets.

Both would require subsidies of $5–$7 billion each year to maintain exports at a constant level.

Given the level of the loan rates in both proposals, there is little question that the government will eventually assume ownership of all output which can't be sold domestically.

Similar implications for the livestock industry—the other half of agriculture: Feed costs will rise, livestock producers (beef, pork, poultry) have no vote in either referendum.

I will quote from the editorial in the Des Moines Register, as follows:

Psst. Hey, you on the combine. How about a guaranteed price for corn of $3.60 a bushel? How about almost $7 for soybeans. And it won't cost the taxpayers a thing.

Such a deal! No wonder Senator Tom Harkin's proposed farm bill is a hit among country singers. It's a quick, simple answer to farm problems, and it's temptingly different from existing law, which hasn't exactly brought prosperity to the Corn Belt.

Unfortunately, in concentrating on the single goal of raising commodity prices, some other things are sort of brushed over—the rights of land owners, higher food prices, possible devastation of the livestock industry, the withdrawal of U.S. agriculture from world markets.

The proposal is to raise commodity prices by limiting production. That would be done with mandatory acreage reductions, if a 60-percent majority of producers approved in a referendum. For the minority whose operations might be imperiled by acreage reductions—too bad.

To maintain the price levels envisioned, the legislation would necessitate that about 30 percent of the corn acreage and 40 percent of the soybean acreage be idled. It would be like PIK every year. A third of rural America would be shut down, permanently.

Not many farmers would be content operating at 30 percent under capacity for long. The legislation would be an incentive for farms to get bigger.

The most basic problem is the difficulty in maintaining a domestic price for commodities that is substantially above the world market price.

Aside from forfeiting the export market and destroying export-related jobs, there would be a tendency for livestock and poultry production to shift abroad, where feed costs would be lower.

Either that or the domestic livestock industry would have to be protected. One protectionist measure would lead to another.

There also would be an incentive for livestock producers to switch to alternative feed sources, just as the soft-drink industry switched from sugar to corn syrup when price supports forced U.S. sugar prices substantially above world prices. What would high corn price supports do to the economics of corn syrup? Of corn-based ethanol?

Along with the question of freedom of choice vs. mandatory production controls, the plan has too many unexplored side effects. It could create as many problems as it solved.

The clincher is to look at existing programs, such as those for sugar and tobacco, that feature high price supports and mandatory production controls.

Harkin's legislation is billed as the way to save the family farm, but existing programs like it tend to work mostly to the advantage of landlords or big operators.

There aren't any easy solutions to big, complex problems.

Mr. DE LA GARZA. Mr. Chairman, I yield 3 minutes to the gentleman from Missouri [Mr. VOLKMER].

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. VOLKMER. I yield to the gentleman from Iowa.

Mr. BEDELL. Mr. Chairman, I think it ought to be pointed out that that same Des Moines Register to which the gentleman referred ran a poll, and their poll in the State of Iowa showed that by a 2-to-1 margin Iowa farmers preferred a mandatory program as compared to what is now in the bill.

Mr. VOLKMER. Mr. Chairman, I thank the gentleman from Iowa for that observation.

I would just like to say to the House that it has been my pleasure to work with the gentleman from Iowa [Mr. BEDELL] on the incorporation of this provision in the farm bill, and I strongly urge all Members to vote against the Madigan amendment. I, for one, would have much preferred to have the mandatory program that I had offered as an amendment. The program of the gentleman from Iowa that is in the bill is really a compromise. It is a compromise between what is in the bill as present law and what some of us feel would have been much better for agriculture, that is, higher prices for reduced production.

We were unable to get that. This is something that perhaps we can take back to our farmers and say, "Look, we have at least got you a little bit higher price."

The provisions in the present bill do not provide for higher income; in fact, they are lower cash prices each year for the next 4 years. The Bedell amendment would provide a stabilized higher income for farmers.

I say let the farmers decide. Let them have a choice. That is all we are asking, that the farmers have a choice whether they want to go for reduced production and higher income—higher net income, if you figure it out—or all-out production, as the administration has proposed, at lower prices.

□ 1130

Now the gentleman who has offered the amendment to strike is the same gentleman who offered H.R. 1420 to the House Agriculture Committee which was the administration proposal. Under that proposal, which is basically the Barney Frank amendment on target prices that this House overwhelmingly rejected, the administration had proposed that farm income go down each year dramatically, at least 10 percent a year, until by the end of 4 years we had a market clearing price. What is a market clearing price? Four dollars for beans is what they want. How much for corn? Less than $2 is what they want. How much for wheat? Around $2.25.

How many farmers will we have? We will clear the market maybe of some of our commodities, but we are going to clear this country of a lot more farmers unless we have the Bedell amendment and give the option to the farmers to vote on it.

If we had followed this administration, and if we follow the gentleman from Illinois, we are going to have

about 50 percent fewer farmers in this country at the end of the next 4-year period.

Mr. Chairman, before I yield back the balance of my time, I would like to emphasize that for those who are budget conscious, the Bedell amendment saves more on the budget than what is in the bill than any other program.

Mr. Chairman, I yield back the balance of my time.

Mr. MADIGAN. Mr. Chairman, I yield such time as he may consume to the gentleman from Minnesota [Mr. STANGELAND].

Mr. STANGELAND. Mr. Chairman, I rise in support of the Madigan amendment.

First, let me say that no Member is more aware of the current agricultural crisis because I am one of the few Members of this body who came to Congress as a hands-on, practicing family farmer.

I have good friends who I know are just as sincere in their convictions and who support a mandatory controls referendum. Many of them worked very closely with me and strongly supported my "marketing loan" amendment with deficiency payments "targeted" to family-sized farms—Mr. DORGAN of North Dakota, Mr. PENNY of Minnesota, Mr. DASCHLE of South Dakota, and Mr. GLICKMAN of Kansas, just to name a few.

I deeply respect each of these Members' convictions and intentions. But I must sincerely disagree with them that the answer to our problems rests with mandatory Government controls.

We must not seek what may seem a tempting, short-term fix that in truth will destroy all future hope and opportunity for America's family farmers.

The debate on the 1985 farm bill was launched over 6 months ago with the release of the administration's proposed farm plan. I have vehemently opposed the administration's 1985 farm bill proposals because I believe they would be disastrous for my Minnesota producers and all of American agriculture.

But those who actually believe that we can turn our backs completely on the export market by implementing mandatory Government controls are pursuing just as narrow and shortsighted a course as the Reagan plan which assumes all of our problems can be solved by the export market.

Either one of these plans—the administration's naive "free market" ideology and the mandatory control advocates' "no market" ideology—would most certainly put American agriculture on a sure fire course for self-destruction.

There is no question that strict mandatory production controls would ultimately raise farm prices. But would it be worth permanently retiring 50 percent of the richest cropland in the world? Saying goodbye to our hard-earned export markets? Dashing any hopes for significant market growth in the future? Adding American agriculture to the list of slowly dying U.S. industries that have already conceded defeat to foreign competition? I don't think so.

I wish I knew for sure just what these proposed mandatory controls would mean for our farmers. For instance, I have seen conservative estimates showing that 5 years of 40 to 45 percent mandatory set-asides for wheat would still not permit us to reach a desired level of ending stocks. Yet the authors of mandatory control programs in the House Agriculture Committee argue that 35 percent set-asides will be sufficient. And believe it or not, I've got people back in my home State of Minnesota who actually tell farmers they will only have 15 percent set-asides.

Who am I to believe? More to the point, who should my farmers believe? Is it 15, 35, or more than 50 percent of their farmland that my producers are going to be forced, by law, to lay idle for the next 5 years and beyond?

Regarding exports, the mandatory controls approach raises even more questions. On the one hand, I hear the authors in the Agriculture Committee admit that mandatory controls would guarantee our farmers the role of residual supplier in the world market. In other words, every foreign buyer would first go to Argentina, Australia, Canada, France, and anyone else with grain to sell, and only then—after they had exhausted every other possible source—would they turn to the United States to satisfy any remaining grain needs. Yet even though some are forthcoming enough to admit their proposal would make America's farmers the world's residual supplier, there are people in Minnesota telling my farmers that—believe it or not—our exports would not be affected due to Government subsidies.

Don't they realize we already have a "bonus bushel" program in place that, so far, has proven more of an embarrassment than a cureall? Even if it could be made to work, how long will the American people put up with the Government subsidizing grain so it is cheaper in Moscow than Minneapolis? How long will farmers be content to see the Government operate a farm program that devotes billions of dollars in subsidies for Cargill, or the Soviet Union, or any other exporter or foreign buyer?

The fact of the matter is that once we go the route of mandatory Government controls in agriculture there is no turning back. There are hundreds of millions of acres of potential cropland in Argentina and Brazil that is just waiting to go into production should we foolishly try to artificially price ourselves out of the export market. Once these acres begin to be cropped they will be permanent, and this additional production from Argentina, Brazil, and other countries will perpetually displace our farmer's exports for decades into the future.

Make no mistake about it—going the route of mandatory controls for just 1 year would do more damage to our farmers' future export opportunities than all past agricultural embargoes combined. Members of both political parties have often spoke about the long-term damage previous embargoes have done to our reputation as a reliable supplier. We repeatedly cite the historical evidence showing how the Soviet Union, Japan, and others channeled their purchases and agricultural investments to other food-selling nations for one reason—because our credibility as a reliable supplier had been impaired. What do the proponents of mandatory controls honestly think our export customers will do when we deliberately step away from the export market and convert American agriculture into a strictly domestic industry? By the time we calculate the amount of foreign capital that will begin flowing into the cultivation of additional land in Argentina, Brazil, and our other export competitors, our present share of the world export market will be an irretrievable memory of the past.

And to those who claim that the referendum contained in the committee bill is not mandatory, that sort of ridiculous analogy is like saying Jimmy Carter would have merely imposed a "voluntary" Soviet grain embargo had he allowed farmers to sell in the Soviet market but not in our own. There is no choice to be made by farmers under this program. As important as the export market is to U.S. grain farmers, by preventing them from selling one kernel in our own country if they choose to export, you have left them with no alternative but to abide by the mandatory restrictions handed down from Washington.

I realize that much of the disagreement over the mandatory controls issue boils down to personal philosophy—but I find it difficult to understand how the proponents of mandatory Government controls can place their total confidence in "pointy headed bureaucrats" in Washington dictating how farmers, by law, must manage their farming operations. In other words, do they really believe that the same Government which in the past has imposed embargoes, put foreign policy considerations ahead of agriculture, pursued high interest rate Federal Reserve Board policies, run up $200 billion deficits, and created a burdensome overvalued dollar is now going to be trusted to solve all of agriculture's problems by dictating to Farmers: First, what crops they can plant; second, how much they can plant; third, the amount they can harvest; and fourth, where and to whom they can sell. To sincerely believe that the same Government responsible for screwing up American agriculture is now going to be suddenly transformed into the total salvation of our farmers is almost laughable, except that the true result of running American agriculture by Government fiat is enough to make all of us cry.

I am convinced that the imposition of mandatory Government controls would permanently condemn American agriculture to the same plight as the slowly dying U.S. industries that have already withdrawn and conceded defeat to foreign competition.

Farmers are not quitters. Most have had to fight for everything they've got. But they want to see our Government start imple-

menting policies like the "marketing loan" that work for them when competing in the world market, instead of embargoes, an overvalued dollar, or mandatory controls, which only further jeopardize farm exports and work against the interest of family farmers and all of rural America.

Mr. MADIGAN. Mr. Chairman, I yield 3 minutes to the gentleman from Iowa [Mr. LIGHTFOOT].

Mr. LIGHTFOOT. Mr. Chairman, for a week now this body has been debating the merits of a variety of proposals for a new farm bill. This is by no means the beginning of the debate, but a culmination of months of sometimes agonizing negotiation, compromise and soul searching. This has been a long road where the continued problems on the farm serve as a constant reminder that the action we take here today, this week, must realistically and responsibly address these concerns. As happens with any attempt to respond to major problems, there are delays and there is the inertia of the system which prolongs a final decision. While this process has dragged on, the emotionalism of the issue has built along with it. In the past few weeks, we've seen people from the entertainment industry and others far removed from agriculture espouse the merits of this or that farm plan. Though I respect and appreciate the vital role they have played in getting the message across that this country's farm problems are real and widespread, they are simply not qualified to set the agenda for this farm bill debate. I would suggest to those entertainers who advocate a mandatory farm program to apply the same standards to their industry. How would it be if the United States dictated what bookings could be accepted, dictated that next year those bookings will be decreased by 40 percent and dictated what price they would receive for their work? I suggest that all the amplifiers at the Farmaid Concert would have clicked off.

I think, more than anything else, the strong emotions surrounding the farm crisis brings into sharp focus our responsibilities here—to keep a cool head, and not to make bad decisions in the face of bad times. I think we're seeing a congressional response fueled by that emotion and I'm not convinced that this response in the best interest of this country's farmers.

As a part of the Agriculture Committee's farm bill, we're being asked to approve a referendum where the country's farmers would be voting on mandatory controls in exchange for a guaranteed price for their feed grains. My first problem with this part of the bill—and I have several—is the contention that it is a voluntary program. I have to wonder how voluntary a decision it is when a choice not to participate would in effect be a choice to forfeit the ability to sell on the domestic market. A farmer couldn't even sell to his next door neighbor. I object not to the idea of a referendum, but to the consequences of this particular referendum. In the past, I've supported a number of referendums for corn, soybeans, beef, and pork. I will support more in the future.

The proposal also leaves a series of unanswered questions. For example, there is the suggestion that the plan will increase the value of our exports by some 15 percent. With many nations in the world already underselling us at current prices, I have heard no convincing argument to lead me to believe that this portion of the bill would do anything but aggravate this situation. By the same token, I challenge you to show me how American agriculture is to survive without a strong export market. This is not a risk we should be willing to take in times where our balance of trade stands at record deficits.

Nor do I believe that we should stand up here and pit one segment of the agricultural economy against the other. As we watch beef producers taking losses of over $100 per head and more, we're seriously considering a plan which would guarantee a substantial increase in their production costs. Also, the Congressional Budget Office estimates that set-asides of corn acreage would have to reach 40 percent to maintain the prices in the Bedell section of the bill, seriously affecting farm equipment and fertilizer dealers, and the countless other rural business that are so essential to the agricultural equation.

On the issue of increased farm income, I've seen reports that on a 100-acre corn base at the average Iowa per acre land cost, this plan will actually yield less net income than our present program. Tell me this is an improvement. Even if there were to be a net gain in the first year of the program, as we continue in the succeeding years to cut back our production to meet the commodity surplus cap, how many farmers do you know that can survive on a 40-percent reduction of their productive capacity?

As I told you at the outset, I have listened to and participated in this debate for months. I have met regularly with every conceivable farm and commodity group and have heard their stories and positions. Some of them supported this proposal, many did not. I have the greatest respect and admiration for my colleague from Iowa, Mr. BEDELL, and I know that he is doing what he feels is the best thing for the farmer in Iowa and in this country. I also appreciate the dedication and sincerity of the various groups participating in this debate. What I hear from them, what I hear from the Agriculture Committee, and what I hear from the farmers and mainstreet businesses in my district—regardless of their position—is do something, anything. They are absolutely right, and we must heed that call. But our responsibiltiy is to do what is right, what most likely will create the circumstances under which our agricultural economy and the farmer who turns its giant wheel, will survive. For the reasons I've stated, I do not feel that the Bedell proposal offers the likelihood that we will accomplish those ends. The agricultural industry is not an island off by itself, unaffected by the forces of national or world economies. We know that now more than ever. Just as I know that agriculture does not exist in a free world market and could not survive if stripped totally and immediately of Government support, I am equally convinced that a dramatic increase in Government intervention is not the solution.

Agriculture's problems will not be solved by the consequences of a single farm bill, but its continued decline can be assured by the actions we take here today. We must have an agricultural policy that does not take away from us our ability to respond to the forces of trade and commerce. We must have an agricultural policy that does not deny farmers the ability to creatively and independently market their commodities. And we must have an agricultural policy that supports prices in the worst of circumstances and frees the farmer to take advantage of the best of circumstances. And I don't believe Congressman BEDELL's plan allows us to meet these important goals.

However, with the rejection of mandatory controls, we are not left without an option. The Agriculture Committee has given us the opportunity to address those concerns I just mentioned through another part of its bill. Although this plan is not without its own problems, it will supply the necessary support in the short run without eliminating our options in the longer term. This approach could be substantially improved by an increase in target prices for corn to somewhere around the $3.50 Mark, and I would support a clean amendment to that effect.

But our efforts to defend rural America must not end there. We must muster the courage and take the responsibility to address those forces which have done more to burden the American farmer than anything else. We have a Federal deficit that is an outrage, a trade policy that is about as predictable and consistent as the Iowa weather, and a farm credit system that is reeling under record losses.

Beyond this farm bill, here is where our task lies. And without addressing these parallel challenges, our efforts here today might well be in vain. The greatest mistake we could make is to put into place a policy that would further tie our hands as we attempt to

make responsible, long range, fundamental improvements in agriculture.

America was not built, nor will she prosper in the future if we turn away from the basic principles of free men and women working in a free society. A government that guarantees that one will never fail is one that guarantees that one will never succeed. Our farmers and our Nation deserve more than that.

Mr. DE LA GARZA. Mr. Chairman, in order to facilitate the debate for the rest of the day, I ask unanimous consent that the remainder of the bill after this title be printed in the RECORD, and open to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

The text of the remainder of the bill following title VA is as follows:

TITLE VI—COTTON

LOAN RATES, TARGET PRICES, AND ACREAGE LIMITATION AND LAND DIVERSION PROGRAMS FOR THE 1986 THROUGH 1990 CROPS OF UPLAND COTTON

SEC. 601. Effective only for the 1986 through 1990 crops of upland cotton, section 103 of the Agricultural Act of 1949 (7 U.S.C. 1444) is amended by adding at the end thereof the following:

"(i) Notwithstanding any other provision of law—

"LOANS

"(1) The Secretary, on presentation of warehouse receipts reflecting accrued storage charges of not more than sixty days, shall make available for each of the 1986 through 1989 crops of upland cotton to producers nonrecourse loans for a term of ten months from the first day of the month in which the loan is made at such level, per pound, as will reflect for Strict Low Middling one-and-one-sixteenth-inch upland cotton (micronaire 3.5 through 4.9) at average location in the United States the smaller of (A) 85 per centum of the average price (weighted by market and month) of such quality of cotton as quoted in the designated United States spot markets during three years of the five-year period ending July 31 in the year in which the loan level is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, or (B) 90 per centum of the average, for the fifteen-week period beginning July 1 of the year in which the loan level is announced, of the five lowest-priced growths of the growths quoted for Middling one-and-three-thirty-seconds-inch cotton C.I.F. northern Europe (adjusted downward by the average difference during the period April 15 through October 15 of the year in which the loan is announced between such average northern European price quotation of such quality of cotton and the market quotations in the designated United States spot markets for Strict Low Middling one-and-one-sixteenth-inch cotton (micronaire 3.5 through 4.9)). If for any crop the average northern European price determined under clause (B) of the first sentence of this paragraph is less than the average United States spot market price determined under clause (A) of the first sentence of this paragraph, notwithstanding the foregoing provisions of this paragraph, the Secretary may increase the loan level to such level as the Secretary may deem appropriate, not in excess of the average United States spot market price determined under clause (A) of the first sentence of this paragraph. In no event (other than as provided in the next sentence) shall the loan level for a crop of upland cotton be less than 95 per centum of the loan level for the preceding crop of upland cotton as computed without regard to any adjustment made under the next sentence. If the Secretary determines that the world price of upland cotton is below the loan level computed under the foregoing provisions, the Secretary shall reduce the loan level so computed to a level the Secretary determines necessary for upland cotton to be competitive in domestic and export markets, except that the amount of the reduction shall not exceed 20 per centum of the loan level that would have been in effect but for this sentence. The loan level for any crop of upland cotton shall be determined and announced by the Secretary not later than November 1 of the calendar year preceding the marketing year for which such loan is to be effective, and such level shall not thereafter be changed. Nonrecourse loans provided for in this subsection, on request of the producer during the tenth month of the loan period for the cotton, shall be made available for an additional term of eight months, except that such request to extend the loan period shall not be approved in a month when the average price of Strict Low Middling one-and-one-sixteenth-inch cotton (micronaire 3.5 through 4.9) in the designated spot markets for the preceding month exceeded 130 per centum of the average price of such quality of cotton in such markets for the preceding thirty-six-month period.

"LIMITED GLOBAL IMPORT QUOTA

"(2) Whenever the Secretary determines that the average price of Strict Low Middling one-and-one-sixteenth-inch cotton (micronaire 3.5 through 4.9) in the designated spot markets for a month exceeded 130 per centum of the average price of such quality of cotton in such markets for the preceding thirty-six months, notwithstanding any other provision of law, the President shall immediately establish and proclaim a special limited global import quota for upland cotton subject to the following conditions:

"(A) The amount of the special quota shall be equal to twenty-one days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent three months for which data are available.

"(B) If a special quota has been established under this paragraph during the preceding twelve months, the amount of the quota next established hereunder shall be the smaller of twenty-one days of domestic mill consumption calculated as set forth in subparagraph (A) or the amount required to increase the supply to 130 per centum of the demand.

"(C) As used in subparagraph (B), the term 'supply' means, using the latest official data of the Bureau of the Census, the Department of Agriculture, and the Department of the Treasury, the carryover of upland cotton at the beginning of the marketing year (adjusted to four-hundred-and-eighty-pound bales) in which the special quota is established, plus production of the current crop, plus imports to the latest date available during the marketing year, and the term 'demand' means the average seasonally adjusted annual rate of domestic mill consumption in the most recent three months for which data are available, plus the larger of average exports of upland cotton during the preceding six marketing years or cumulative exports of upland cotton, plus outstanding export sales, for the marketing year in which the special quota is established.

"(D) When a special quota is established under the provisions of this paragraph, a ninety-day period from the effective date of the proclamation shall be allowed for entering cotton under such quota.

Notwithstanding the foregoing provisions of this paragraph, a special quota period shall not be established that overlaps an existing quota period.

"TARGET PRICES

"(3)(A) The Secretary shall make payments available for each of the 1986 through 1990 crops of upland cotton to the producers on each farm at a rate equal to the amount by which the higher of—

"(i) the average market price per pound received by farmers for upland cotton during the calendar year that includes the first five months of the marketing year for such crop, as determined by the Secretary, or

"(ii) the loan level determined under paragraph (1) for such crop,

is less than the established price per pound times in each case the farm program acreage for upland cotton (determined in accordance with paragraph (5) or (8)(C), but in no event on a greater acreage than the acreage actually planted to upland cotton for harvest), multiplied by the program yield for the farm for upland cotton (determined in accordance with paragraph (7)).

"(B)(i) The established price for the 1986 and 1987 crops of upland cotton shall be 81 cents per pound. Subject to the provisions of clause (ii), the established price per pound for upland cotton for each of the 1988, 1989, and 1990 crops shall be not less than 90 per centum of the United States average cost of production per pound for the three crop years immediately preceding the crop year before the crop year, based upon then current total economic cost calculations of the Economic Research Service of the Department of Agriculture.

"(ii) In no event shall the established price for a crop of upland cotton be less than 95 per centum of the established price for the preceding crop, nor may the Secretary set the established price for the 1988, 1989, or 1990 crop of upland cotton at a level less than the level for the preceding crop of upland cotton unless the Secretary certifies to Congress at the time the Secretary announces the program for the crop that the cost of production for such crop of upland cotton for all producers, as estimated by the Economic Research Service of the Department of Agriculture in consultation with the National Agricultural Cost of Production Standards Review Board, will be 5 per centum below the cost of production for the preceding crop of upland cotton for all producers.

"(C) Notwithstanding the foregoing provisions of this subsection, if the Secretary adjusts the loan level for a crop of upland cotton in accordance with the fourth sentence of paragraph (1) or the loan level for the crop before such adjustment is established at a level below $0.55 per pound, the Secretary shall provide emergency compensation by increasing the established price payments for upland cotton by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the loan level had not been made or as if the reduction in the loan level before such adjustment to a level

below $0.55 had not occurred, and any payments under this subparagraph shall not be included in the payments subject to limitations under the provisions of section 1011 of the Food Security Act of 1985.

"INVENTORY CONTROL AND ACREAGE REDUCTION

"(4)(A)(i) With respect to a crop of upland cotton, if the Secretary estimates (not later than November 1 of the year before the calendar year in which the crop is to be harvested) that, in the absence of an acreage reduction program, the quantity of upland cotton on hand in the United States on the last day of the marketing year for the crop will exceed one-third of the quantity of upland cotton that the Secretary estimates will be used domestically and for export during the marketing year for such crop, then, in order to reasonably ensure making progress toward achievement of the goal set forth in clause (ii), the Secretary shall establish—

"(I) a limitation on acreage planted to upland cotton in accordance with subparagraph (B); and

"(II) if the Secretary determines that such acreage limitation program will not achieve such goal, a payment-in-kind land diversion program in accordance with subparagraph (C).

"(ii) The goal referred to in clause (i) is that the quantity of upland cotton on hand on the last day of the marketing year for such crop will not exceed one-third of the amount of the crop that the Secretary estimates will be used domestically and for export during that marketing year.

"(iii) In no event may—

"(I) the acreage limitation for a crop with respect to any farm exceed 25 per centum of the upland cotton crop acreage base for that farm for that crop; nor

"(II) acreage diverted from production for a crop under the payment-in-kind land diversion program with respect to any farm exceed 25 per centum of the upland cotton crop acreage base for that farm for that crop.

"(B)(i) If an upland cotton acreage limitation is announced under subparagraph (A), such limitation shall be achieved by applying a uniform percentage reduction to the upland cotton crop acreage base for the crop for each cotton-producing farm.

"(ii) A number of acres on the farm determined by dividing (I) the product obtained by multiplying the number of acres required to be withdrawn from the production of upland cotton times the number of acres actually planted to upland cotton, by (II) the number of acres authorized to be planted to upland cotton under the limitation established by the Secretary shall be devoted to conservation uses, in accordance with regulations issued by the Secretary, that will ensure protection of such acreage from weeds and wind and water erosion. The number of acres so determined is hereafter in this subsection referred to as 'reduced acreage'.

"(iii) The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the reduced acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(C) If a payment-in-kind land diversion program is in effect under subparagraph (A), the acreage planted to upland cotton for harvest on a farm shall be limited to the upland cotton crop acreage base for the farm for the crop reduced by a percentage uniformly applied to each farm, in addition to the reduction required under subparagraph (B), and land diversion payments in kind shall be made to producers who devote to approved conservation uses an acreage of cropland on the farm equivalent to the reduction required from the upland cotton crop acreage base for the farm in accordance with land diversion contracts entered into by the Secretary with such producers. Such payments shall be made from the stocks of upland cotton owned by the Commodity Credit Corporation. If such stocks are insufficient for such purpose, the Secretary shall substitute cash payments as necessary. Such substitution shall be applied on a uniform basis to each producer. The amounts payable to producers under land diversion contracts may be determined through such means as the Secretary determines appropriate. Any payments in kind (including any cash substitutes) made under this paragraph shall not be included in the payments subject to limitations under the provisions of section 1011 of the Food Security Act of 1985. The total of such payments in kind (including any cash substitutes) that any person may receive for any crop of upland cotton may not exceed $50,000.

"(D) The reduced acreage and the diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"COMPLIANCE

"(5) Producers who knowingly produce upland cotton in excess of the permitted upland cotton acreage for the farm, as established under paragraph (4), shall be ineligible for upland cotton loans and payments for the crop involved with respect to that farm. If an acreage limitation or a payment-in-kind land diversion program is announced under paragraph (4) for a crop of upland cotton, paragraph (8) shall not be applicable to such crop, including any prior announcement that may have been made under paragraph (8) with respect to such crop. The individual farm program acreage shall be the acreage on the farm planted to upland cotton for harvest within the permitted upland cotton acreage for the farm as established under paragraph (4).

"ACREAGE BASES

"(6) Upland cotton crop acreage bases for each crop of upland cotton shall be determined under title VI.

"YIELDS

"(7) The program yields for farms for each crop of upland cotton shall be determined under title VI.

"NATIONAL PROGRAM ACREAGE, PROGRAM ALLOCATION FACTOR, AND INDIVIDUAL FARM PROGRAM ACREAGES

"(8)(A) Except for crops for which there is an acreage limitation program under paragraph (4), the Secretary shall establish a national program acreage for each of the 1986 through 1990 crops of upland cotton. Such national program acreage shall be announced by the Secretary not later than November 1 of the calendar year preceding the year for which such acreage is established. The Secretary may revise the national program acreage first announced for any crop for the purpose of determining the allocation factor under subparagraph (B) if the Secretary determines it necessary based on the latest information, and the Secretary shall announce such revised national program acreage as soon as it is made. The national program acreage shall be the number of harvested acres the Secretary determines (on the basis of the estimated weighted national average of the upland cotton program yields for the crop for which the determination is made) will produce the quantity of upland cotton (less imports) that the Secretary estimates will be used domestically and for export during the marketing year for such crop. The national program acreage shall be subject to such adjustment as the Secretary determines necessary, taking into consideration the estimated carryover supply, so as to provide for an adequate but not excessive total supply of upland cotton for the marketing year for the crop for which such national program acreage is established. In no event shall the national program acreage be less than ten million acres.

"(B) The Secretary shall determine a program allocation factor for each crop of upland cotton. The allocation factor (not to exceed 100 per centum) shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvested for such crop.

"(C) The individual farm program acreage for each crop of upland cotton shall be determined by multiplying the allocation factor by the acreage of upland cotton planted for harvest on the farms for which individual farm program acreages are required to be determined. The farm program acreage shall not be further reduced by application of the allocation factor if the producers reduce the acreage on the farm planted to upland cotton for harvest from the upland cotton crop acreage base established for the farm under title VI by at least the percentage recommended by the Secretary in the announcement of the national program acreage. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage planted to upland cotton for harvest is less than the upland cotton crop acreage base established for the farm under title VI, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for upland cotton, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"ADMINISTRATIVE PROVISIONS

"(9)(A) An operator of a farm desiring to participate in the program conducted under paragraph (4) shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary, by

mutual agreement with the producers on the farm, may terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(B) The Secretary shall provide for the sharing of payments made under this subsection for any farm among the producers on the farm on a fair and equitable basis.

"(C) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(D) If the failure of a producer to comply fully with the terms and conditions of the program formulated under this subsection precludes the making of loans and payments, the Secretary nevertheless may make such loans and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(E) The Secretary may issue such regulations as the Secretary determines necessary to carry out this subsection.

"(F) The Secretary shall carry out the program authorized by this subsection through the Commodity Credit Corporation.

"(G) The provisions of subsection 8(g) of the Soil Conservation and Domestic Allotment Act (relating to assignment of payments) shall apply to payments under this subsection.

"CROSS-COMPLIANCE AND OFFSETTING COMPLIANCE

"(10) Notwithstanding any other provision of law—

"(A) compliance on a farm with the terms and conditions of any other commodity program may not be required as a condition of eligibility for loans or payments under this subsection; and

"(B) the Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this subsection for such farm, to comply with the terms and conditions of the upland cotton program with respect to any other farm operated by such producers.

"RECOURSE LOANS FOR SEED COTTON

"(11) To encourage and assist producers in the orderly ginning and marketing of their cotton production, the Secretary shall make recourse loans available to such producers on seed cotton in accordance with the authority vested in the Secretary under the Commodity Credit Corporation Charter Act.".

COMMODITY CREDIT CORPORATION SALES PRICE RESTRICTIONS

SEC. 602. Effective only with respect to the period beginning August 1, 1978, and ending July 31, 1991, the tenth sentence of section 407 of the Agricultural Act of 1949 (7 U.S.C. 1427) is amended by striking out all of that sentence through the words "110 per centum of the loan rate, and (2)" and inserting in lieu thereof the following: "Notwithstanding any other provision of law, (1) the Commodity Credit Corporation shall sell upland cotton for unrestricted use at the same prices as it sells cotton for export, in no event, however, at less than 115 per centum of the loan rate for Strict Low Middling one-and-one-sixteenth-inch upland cotton (micronaire 3.5 through 4.9) adjusted for such current market differentials reflecting grade, quality, location and other value factors as the Secretary determines appropriate plus reasonable carrying charges, and (2)".

MISCELLANEOUS COTTON PROVISIONS

SEC. 603. Sections 103(a) and 203 of the Agricultural Act of 1949 (7 U.S.C. 1444(a) and 1446d) shall not be applicable to the 1986 through 1990 crops.

SKIPROW PRACTICES

SEC. 604. Section 374(a) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1374(a)) is amended by striking out "1985" and inserting in lieu thereof "1990".

MARKETING CERTIFICATES

SEC. 605. (a) Notwithstanding any other provision of law, whenever, during the period beginning August 1, 1986, and ending July 31, 1991, the world price of upland cotton (adjusted to United States qualities and location), as determined by the Secretary of Agriculture, is below the current loan rate for upland cotton determined under section 103(i) of the Agricultural Act of 1949, to make United States upland cotton competitive in world markets and to maintain and expand domestic consumption and exports of upland cotton produced in the United States, the Commodity Credit Corporation, under such regulations as the Secretary may prescribe, shall make payments, through the issuance of payment-in-kind certificates, to first handlers of cotton (persons regularly engaged in buying or selling upland cotton) who have entered into an agreement with the Commodity Credit Corporation to participate in the program in such monetary amounts and subject to such terms and conditions as the Secretary determines will make upland cotton produced in the United States available for domestic consumption or for export at competitive prices, including such payments as may be necessary to make raw cotton in inventory on August 1, 1986, available on the same basis.

(b) The value of each certificate issued under subsection (a) shall be based on the difference between the loan rate for upland cotton as determined under section 103(i) of the Agricultural Act of 1949, and the prevailing world market price of upland cotton, as determined by the Secretary of Agriculture under a published formula submitted for public comment before its adoption.

(c) The Commodity Credit Corporation, under regulations prescribed by the Secretary of Agriculture, may assist any person receiving payment-in-kind certificates under this section in the redemption of certificates for cash, or marketing or exchange of such certificates for (1) upland cotton owned by the Commodity Credit Corporation or (2) (if the Secretary and the person agree) other agricultural commodities or products owned by the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this section.

(d) Insofar as practicable, the Secretary of Agriculture shall permit owners of certificates to designate the commodities and products, including storage sites thereof, they would prefer to receive in exchange for certificates. In the case of any certificate not presented for redemption, marketing, or exchange within a reasonable number of days after its issuance to be established by the Secretary, reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after such reasonable number of days and ending with the date of its presentation to the Commodity Credit Corporation.

(e) The Secretary of Agriculture shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and products for certificates under this section from adversely affecting the income of producers of such commodities or products.

(f) Under regulations prescribed by the Secretary of Agriculture, certificates issued to cotton handlers under this section may be transferred to other handlers and persons approved by the Secretary.

(g) For any year or other period for which a payment-in-kind program is in effect under this section, the Secretary of Agriculture, for the purposes of calculating loan levels under section 103(i) of the Agricultural Act of 1949, shall consider the average market prices for such year or period to be increased by the average rate of payment under the program for such year or period if such average market prices are below the loan level for such year or period.

TITLE VII—RICE

LOAN RATES, TARGET PRICES, AND ACREAGE LIMITATION AND LAND DIVERSION PROGRAMS FOR THE 1986 THROUGH 1990 CROPS OF RICE

SEC. 701. Effective only for the 1986 through 1990 crops of rice, section 101 of the Agricultural Act of 1949 (7 U.S.C. 1441) is amended by adding at the end thereof the following:

"(j) Notwithstanding any other provision of law—

"LOANS

"(1) The Secretary shall make available to producers in the several States of the United States loans and purchases for each of the 1986 through 1990 crops of rice at a level, per hundredweight, not less than 85 per centum of the average price per hundredweight for rice received by farmers during the marketing years for the three preceding crops of rice, as determined by the Secretary. In no event (other than as provided in the next sentence) shall the level of loans and purchases for a crop of rice be less than 95 per centum of the level for the preceding crop of rice as computed without regard to any adjustment made under the next sentence. If the Secretary determines that the world price of rice is below the loan level computed under the foregoing provisions, the Secretary shall reduce the loan level so computed to a level the Secretary determines necessary to make rice competitive in domestic and export markets, except that the amount of the reduction shall not exceed 20 per centum of the loan level that would have been in effect but for this sentence. The loan and purchase level and the established price for each of the 1986 through 1990 crops of rice shall be announced not later than January 31 of the calendar year for the crop harvested in that calendar year. Any loan made under this paragraph shall have a term of ten months beginning on the first day of the month in which the loan is made.

"TARGET PRICES

"(2)(A) The Secretary shall make payments available to producers for each of the 1986 through 1990 crops of rice grown in the several States of the United States in amounts computed as provided in this paragraph. Payments for each such crop of rice shall be computed by multiplying (i) the payment rate, by (ii) the farm program acreage for the crop, by (iii) the program yield established for the crop for the farm. In no event shall payments be made under this para-

graph for any crop on a greater acreage than the acreage actually planted to rice.

"(B) The payment rate for a crop of rice shall be the amount by which the established price for the crop of rice exceeds the higher of—

"(i) the national average market price per hundredweight received by farmers during the calendar year that includes the first five months of the marketing year for such crop, as determined by the Secretary, or

"(ii) the loan level determined under paragraph (1) for such crop.

"(C)(i) The established price per hundredweight for rice for the 1986 and 1987 crops shall be $11.90 per hundredweight. Subject to the provisions of clause (ii) the established price per hundredweight for rice for each of the 1988, 1989, and 1990 crops shall be not less than 90 per centum of the United States average cost of production per hundredweight for the three crop years immediately preceding the year before the crop year, based upon then current total economic cost calculations of the Economic Research Service of the Department of Agriculture.

"(ii) In no event shall the established price for a crop of rice be less than 95 per centum of the established price for the preceding crop, nor may the Secretary set the established price for the 1988, 1989, or 1990 crop of rice at a level less than the level for the preceding crop of rice unless the Secretary certifies to Congress at the time the Secretary announces the program for the crop that the cost of production for such crop of rice for all producers, as estimated by the Economic Research Service of the Department of Agriculture in consultation with the National Agricultural Cost of Production Standards Review Board, will be 5 per centum below the cost of production for the preceding crop of rice for all producers.

"(D) Notwithstanding the foregoing provisions of this subsection, if the Secretary adjusts the level of loans and purchases for a crop of rice in accordance with the third sentence of paragraph (1), the Secretary shall provide emergency compensation by increasing the established price payments for rice by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made, and any payments under this subparagraph shall not be included in the payments subject to limitations under the provisions of section 1011 of the Food Security Act of 1985.

"INVENTORY CONTROL AND ACREAGE REDUCTIONS

"(3)(A)(i) With respect to a crop of rice, if the Secretary estimates (not later than January 31 of the calendar year in which the crop is to be harvested) that, in the absence of an acreage reduction program, the quantity of rice on hand in the United States on the last day of the marketing year for the crop will exceed one-fifth of the quantity of rice that the Secretary estimates will be used domestically and for export during the marketing year for such crop, then, in order to reasonably ensure making progress toward achievement of the goal set forth in clause (ii), the Secretary shall establish—

"(I) a limitation on the acreage planted to rice in accordance with subparagraph (B); and

"(II) if the Secretary determines that such acreage limitation program will not achieve such goal, a payment-in-kind land diversion program in accordance with subparagraph (C).

"(ii) The goal referred to in clause (i) is that the quantity of rice on hand at the last day of the marketing year for such crop will not exceed one-fifth of the amount of the crop that the Secretary estimates will be used domestically and for export during that marketing year.

"(iii) In no event may—

"(I) the acreage limitation for a crop with respect to any farm exceed 25 per centum of the rice crop acreage base for that farm for that crop; nor

"(II) the acreage diverted from production for a crop under the payment-in-kind land diversion program with respect to any farm exceed 25 per centum of the rice crop acreage base for that farm for that crop.

"(B)(i) If a rice acreage limitation is announced under subparagraph (A), such limitation shall be achieved by applying a uniform percentage reduction to the rice crop acreage base for the crop for each rice-producing farm.

"(ii) A number of acres on the farm determined by dividing (I) the product obtained by multiplying the number of acres required to be withdrawn from the production of rice times the number of acres actually planted to rice, by (II) the number of acres authorized to be planted to rice under the limitation established by the Secretary shall be devoted to conservation uses, in accordance with regulations issued by the Secretary, that will ensure protection of such acreage from weeds and wind and water erosion. The number of acres so determined is hereafter in this subsection referred to as 'reduced acreage'.

"(iii) The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the reduced acreage to be devoted to sweet sorghum, hay and grazing, or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

"(C) If a payment-in-kind land diversion program is in effect under subparagraph (A), the acreage planted to rice for harvest on a farm shall be limited to the rice crop acreage base for the farm for the crop reduced by a percentage uniformly applied to each farm, in addition to the reduction under subparagraph (B), and land diversion payments in kind shall be made to producers who devote, to the extent prescribed by the Secretary, to approved conservation uses an acreage of cropland on the farm equivalent to the reduction required from the rice crop acreage base for the farm in accordance with land diversion contracts entered into by the Secretary with such producers. Such payments shall be made from stocks of rice owned by the Commodity Credit Corporation. If such stocks are insufficient for such purpose, the Secretary shall substitute cash payments as necessary. Such substitution shall be applied on a uniform basis to each producer. The amounts payable to producers under land diversion contracts may be determined through such means as the Secretary determines appropriate. Any payments in kind (including any cash substitutes) made under this paragraph shall not be included in the payments subject to limitations under the provisions of section 1011 of the Food Security Act of 1985. The total of such payments in kind (including any cash substitutes) that any person may receive for any crop of rice may not exceed $50,000.

"(D) The reduced acreage and the diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"COMPLIANCE

"(4) Producers who knowingly produce rice in excess of the permitted rice acreage for the farm, as established under paragraph (3), shall be ineligible for rice loans and payments for the crop involved with respect to that farm. If an acreage limitation or a payment-in-kind land diversion program is announced under paragraph (3) for a crop of rice, paragraph (7) shall not be applicable to such crop, including any prior announcement that may have been made under paragraph (7) with respect to such crop. The individual farm program acreage shall be the acreage on the farm planted to rice for harvest within the permitted rice acreage for the farm as established under paragraph (3).

"ACREAGE BASES

"(5) Rice crop acreage bases for each crop of rice shall be determined under title VI.

"YIELDS

"(6) The program yields for farms for each crop of rice shall be determined under title VI.

"NATIONAL PROGRAM ACREAGE, PROGRAM ALLOCATION FACTOR, AND INDIVIDUAL FARM PROGRAM ACREAGES

"(7)(A) Except for crops in which there is an acreage limitation program under paragraph (3), the Secretary shall proclaim a national program acreage for each of the 1986 through 1990 crops of rice. The proclamation shall be made not later than January 31 of the calendar year for the crop harvested in that calendar year. The Secretary may revise the national program acreage first proclaimed for any crop for the purpose of determining the allocation factor under subparagraph (B) if the Secretary determines a revision necessary based on the latest information, and the Secretary shall proclaim such revised national program acreage as soon as it is made. The national program acreage for rice shall be the number of harvested acres the Secretary determines (on the basis of the weighted national average of the rice program yields for the crop for which the determination is made) will produce the quantity of rice (less imports) that the Secretary estimates will be used domestically and for export during the marketing year for such crop. If the Secretary determines that carryover stocks of rice are excessive or an increase in stocks is needed to ensure desirable carryover, the Secretary may adjust the national program acreage by the amount the Secretary determines will accomplish the desired increase or decrease in carryover stocks.

"(B) The Secretary shall determine a program allocation factor for each crop of rice. The allocation factor for rice shall be determined by dividing the national program acreage for the crop by the number of acres that the Secretary estimates will be harvest-

ed for such crop. In no event may the allocation factor for any crop of rice be more than 100 per centum nor less than 80 per centum.

"(C) The individual farm program acreage for each crop of rice shall be determined by multiplying the allocation factor by the acreage of rice planted for harvest on the farms for which individual farm program acreages are required to be determined. The farm program acreage shall not be further reduced by application of the allocation factor if the producers reduce the acreage on the farm planted to rice for harvest from the rice crop acreage base established for the farm under title VI by at least the percentage recommended by the Secretary in the proclamation of the national program acreage. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage planted to rice for harvest is less than the rice acreage base established for the farm under title VI, but for which the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for rice, the Secretary may make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"ADMINISTRATIVE PROVISIONS

"(8)(A) An operator of a farm desiring to participate in the program conducted under paragraph (3) shall execute an agreement with the Secretary providing for such participation not later than such date as the Secretary may prescribe. The Secretary, by mutual agreement with the producers on the farm, may terminate or modify any such agreement if the Secretary determines such action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities.

"(B) The Secretary shall provide for the sharing of payments made under this subsection for any farm among the producers on the farm on a fair and equitable basis.

"(C) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(D) If the failure of a producer to comply fully with the terms and conditions of the program formulated under this subsection precludes the making of loans, purchases, and payments, the Secretary, nevertheless, may make such loans, purchases, and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the failure. The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(E) The Secretary may issue such regulations as the Secretary determines necessary to carry out this subsection.

"(F) The Secretary shall carry out the program authorized by this subsection through the Commodity Credit Corporation.

"(G) The provisions of subsection 8(g) of the Soil Conservation and Domestic Allotment Act (relating to assignment of payments) shall apply to payments under this subsection.

"CROSS-COMPLIANCE AND OFFSETTING COMPLIANCE

"(9) Notwithstanding any other provision of law—

"(A) compliance on a farm with the terms and conditions of any other commodity program may not be required as a condition of eligibility for loans, purchases, or payments under this subsection; and

"(B) the Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this subsection for such farm, to comply with the terms and conditions of the rice program with respect to any other farm operated by such producers.".

NONAPPLICABILITY OF SECTION 101 OF THE AGRICULTURAL ACT OF 1949

SEC. 602. That portion of section 101 of the Agricultural Act of 1949 (7 U.S.C. 1441) preceding subsection (a) shall not be applicable to the 1986 through 1990 crops of rice.

EXPORT MARKETING CERTIFICATES

SEC. 703. (a) Notwithstanding any other provision of law, whenever, during the period beginning August 1, 1986, and ending July 31, 1991, the world price for rice (adjusted to United States qualities and location), as determined by the Secretary of Agriculture, is below the current loan rate for rice determined under section 101(j) of the Agricultural Act of 1949, to make United States rice competitive in world markets and to maintain and expand exports of rice produced in the United States, the Commodity Credit Corporation, under such regulations as the Secretary may prescribe, may make payments, through the issuance of payment-in-kind certificates, to exporters of rice who have entered into an agreement with the Commodity Credit Corporation to participate in the program in such monetary amounts and subject to such terms and conditions as the Secretary determines will make rice produced in the United States available for export at competitive prices consistent with the purposes of this section, including such payments as may be necessary to make rice in inventory on August 1, 1986, available on the same basis.

(b) The value of each certificate issued under subsection (a) shall be based on the difference between the loan rate for rice, as determined under section 101(j) of the Agricultural Act of 1949, and the prevailing world market price for rice, as determined by the Secretary of Agriculture under a published formula submitted for public comment before its adoption.

(c) The Commodity Credit Corporation, under regulations prescribed by the Secretary of Agriculture, may assist any person receiving payment-in-kind certificates under this section in the redemption of certificates for cash, or marketing or exchange of such certificates for (1) rice owned by the Commodity Credit Corporation or (2) (if the Secretary and the person agree) other agricultural commodities or products owned by the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this section.

(d) Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and products, including storage sites thereof, they would prefer to receive in exchange for certificates. In the case of any certificate not presented for redemption, marketing, or exchange within a reasonable number of days after its issuance to be established by the Secretary, reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after such reasonable number of days and ending with the date of its presentation to the Commodity Credit Corporation.

(e) The Secretary of Agriculture shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and products for certificates under this section from adversely affecting the income of producers of such commodities or products.

(f) Under regulations prescribed by the Secretary of Agriculture, certificates issued to rice exporters under this section may be transferred to other exporters and persons approved by the Secretary.

(g) For any year or other period for which a payment-in-kind program is in effect under this section, the Secretary of Agriculture, for the purposes of calculating loan levels under section 101(i) of the Agricultural Act of 1949, shall consider the average market prices for such year or period to be increased by the average rate of payment under the program for such year or period if such average market prices are below the loan level for such year or period.

TITLE VIII—PEANUTS

SUSPENSION OF MARKETING QUOTAS AND ACREAGE ALLOTMENTS

SEC. 801. The following provisions of the Agricultural Adjustment Act of 1938 shall not be applicable to the 1986 through 1990 crops of peanuts:

(1) subsections (a) through (j) of section 358;

(2) subsections (a) through (h) of section 358a;

(3) subsections (a), (b), (d), and (e) of section 359;

(4) part I of subtitle C of title III; and

(5) section 371.

POUNDAGE QUOTAS

SEC. 802. Effective only for the 1986 through 1990 crops of peanuts, section 358 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358) is amended by adding at the end thereof the following:

"(q) The national poundage quota for peanuts for each of the 1986 through 1990 marketing years shall be established by the Secretary at a level that is equal to the quantity of peanuts (in tons) that the Secretary estimates will be devoted in each such marketing year to domestic edible, seed, and related uses, except that the national poundage quota for any such marketing year shall not be less than one million one hundred thousand tons. The national poundage quota for a marketing year shall be announced by the Secretary not later than December 15 preceding such marketing year.

"(r) The national poundage quota established under subsection (q) of this section shall be apportioned among the States so that the poundage quota allocated to each State shall be equal to the percentage of the national poundage quota allocated to farms in the State for 1985.

"(s)(1) A farm poundage quota for each of the 1986 through 1990 marketing years shall be established—

"(A) for each farm that had a farm poundage quota for the 1985 marketing year; and

"(B) if the poundage quota apportioned to a State under subsection (r) of this section for any such marketing year is larger than such quota for the immediately preceding marketing year, for each other farm on which peanuts were produced for marketing in at least two of the three immediately preceding crop years, as determined by the Secretary.

The farm poundage quota for each of the 1986 through 1990 marketing years for each farm described in subparagraph (A) of the

preceding sentence shall be the same as the farm poundage quota for such farm for the immediately preceding marketing year, as adjusted under paragraph (2) of this subsection, but not including any increases for undermarketings from previous years or any increases resulting from the allocation of quotas voluntarily released for one year under paragraph (7) of this subsection. The farm poundage quota, if any, for each of the 1986 through 1990 marketing years for each farm described in subparagraph (B) of the first sentence of this paragraph shall be equal to the quantity of peanuts allocated to such farm for such year under paragraph (2) of this subsection. For the purposes of this paragraph, if the farm poundage quota, or any part thereof, is permanently transferred in accordance with section 358a of this Act, the receiving farm shall be considered as possessing the farm poundage quotas (or portion thereof) of the transferring farm for all subsequent marketing years.

"(2) If the poundage quota apportioned to a State under subsection (r) of this section for any of the 1986 through 1990 marketing years is increased over the poundage quota apportioned to the State for the immediately preceding marketing year, such increase shall be allocated equally to—

"(A) each farm in the State for which a farm poundage quota was established for the marketing year immediately preceding the marketing year for which the allocation is being made; and

"(B) each other farm in the State on which peanuts were produced in at least two of the three immediately preceding crop years, as determined by the Secretary.

If the poundage quota apportioned to a State under subsection (r) of this section for any of the 1987 through 1990 marketing years is decreased from the poundage quota apportioned to the State under such subsection for the immediately preceding marketing year, such decrease shall be allocated equally to each farm in the State for which a farm poundage quota was established for the marketing year immediately preceding the marketing year for which the allocation is being made.

"(3) The farm poundage quota established for a farm for any of the 1986 through 1990 marketing years shall be reduced, insofar as practicable and on such fair and equitable basis as the Secretary may by regulation prescribe, to the extent that the Secretary determines that the farm poundage quota established for the farm for any two of the three marketing years preceding the marketing year for which the determination is being made was not produced, or considered produced, on the farm. For the purposes of this paragraph, the farm poundage quota for any such preceding marketing year shall not include any increases for undermarketing of quota peanuts from previous years or any increase resulting from the allocation of quotas voluntarily released for one year under paragraph (7) of this subsection.

"(4) For purposes of this subsection, the farm poundage quota shall be considered produced on a farm if—

"(A) the farm poundage quota was not produced on the farm because of drought, flood, or any other natural disaster, or any other condition beyond the control of the producer, as determined by the Secretary; or

"(B) the farm poundage quota for the farm was released voluntarily under paragraph (7) of this subsection for only one of the three marketing years immediately preceding the marketing year for which the determination is being made.

"(5) Notwithstanding any other provision of law, the farm poundage quota established for a farm under this subsection, or any part of such quota, may be permanently released by the owner of the farm, or the operator with the permission of the owner, and the poundage quota for the farm for which such quota is released shall be adjusted downward to reflect the quota that is so released.

"(6) The total amount of the farm poundage quotas reduced or voluntarily released from farms in a State for any marketing year under paragraphs (3) and (5) of this subsection shall be allocated, as the Secretary may by regulation prescribe, to other farms in the State on which peanuts were produced in at least two of the three crop years immediately preceding the year for which such allocation is being made, except that not less than 25 per centum of such total amount of farm poundage quota in the State shall be allocated to farms for which no farm poundage quota was established for the immediately preceding year's crop.

"(7) The farm poundage quota, or any portion thereof, established for a farm for a marketing year may be voluntarily released to the Secretary to the extent that such quota, or any part thereof, will not be produced on the farm for the marketing year. Any farm poundage quota so released in a State shall be allocated to other farms in the State on such basis as the Secretary may by regulation prescribe. Any adjustment in the farm poundage quota for a farm under this paragraph shall be effective only for the marketing year for which it is made and shall not be taken into consideration in establishing a farm poundage quota for the farm from which such quota was released for any subsequent marketing year.

"(8) The farm poundage quota for a farm for any marketing year shall be increased by the number of pounds by which the total marketings of quota peanuts from the farm during previous marketing years (excluding any marketing year before the marketing year for the 1984 crop) were less than the total amount of applicable farm poundage quotas (disregarding adjustments for undermarketings from prior marketing years) for such marketing years, except that no increase for undermarketings in previous marketing years shall be made to the poundage quota for any farm to the extent that the quota on such farm for the marketing year was reduced under paragraph (3) of this subsection for failure to produce. Any increases in farm poundage quotas under this paragraph shall not be counted against the national poundage quota for the marketing year involved. Any increase in the farm poundage quota for a farm for a marketing year under this paragraph may be used during the marketing year by the transfer of additional peanuts produced on the farm to the quota loan pool for pricing purposes on such basis as the Secretary shall by regulation prescribe.

"(9) Notwithstanding the foregoing provisions of this subsection, if the total of all increases in individual farm poundage quotas under paragraph (8) of this subsection exceeds 10 per centum of the national poundage quota for the marketing year in which such increases shall be applicable, the Secretary shall adjust such increases so that the total of all such increases does not exceed 10 per centum of the national poundage quota.

"(t) For each farm for which a farm poundage quota is established under subsection (s) of this section, and when necessary for purposes of this Act, a farm yield of peanuts shall be determined for each such farm. Such yield shall be equal to the average of the actual yield per acre on the farm for each of the three crop years in which yields were highest on the farm out of the five crop years 1973 through 1977. If peanuts were not produced on the farm in at least three years during such five-year period or there was a substantial change in the operation of the farm during such period (including, but not limited to, a change in operator, lessee who is an operator, or irrigation practices), the Secretary shall have a yield appraised for the farm. The appraised yield shall be that amount determined to be fair and reasonable on the basis of yields established for similar farms that are located in the area of the farm and on which peanuts were produced, taking into consideration land, labor, and equipment available for the production of peanuts, crop rotation practices, soil and water, and other relevant factors.

"(u) Not later than December 15 of each calendar year, the Secretary shall conduct a referendum of farmers engaged in the production of quota peanuts in the calendar year in which the referendum is held to determine whether such farmers are in favor of or opposed to poundage quotas with respect to the crops of peanuts produced in the five calendar years immediately following the year in which the referendum is held, except that, if as many as two-thirds of the farmers voting in any referendum vote in favor of poundage quotas, no referendum shall be held with respect to quotas for the second, third, fourth, and fifth years of the period. The Secretary shall proclaim the result of the referendum within thirty days after the date on which it is held, and if more than one-third of the farmers voting in the referendum vote against quotas, the Secretary also shall proclaim that poundage quotas will not be in effect with respect to the crop of peanuts produced in the calendar year immediately following the calendar year in which the referendum is held.

"(v) For the purposes of this part and title I of the Agricultural Act of 1949—

"(1) 'quota peanuts' means, for any marketing year, any peanuts produced on a farm having a farm poundage quota, as determined in subsection (s) of this section, that are eligible for domestic edible use as determined by the Secretary, that are marketed or considered marketed from a farm, and that do not exceed the farm poundage quota of such farm for such year;

"(2) 'additional peanuts' means, for any marketing year (A) any peanuts that are marketed from a farm for which a farm poundage quota has been established and that are in excess of the marketings of quota peanuts from such farm for such year, and (B) all peanuts marketed from a farm for which no farm poundage quota has been established in accordance with subsection (s) of this section;

"(3) 'crushing' means the processing of peanuts to extract oil for food uses and meal for feed uses, or the processing of peanuts by crushing or otherwise when authorized by the Secretary; and

"(4) 'domestic edible use' means use for milling to produce domestic food peanuts (other than those described in paragraph (3) of this subsection) and seed and use on a farm, except that the Secretary may exempt from this definition seeds of peanuts that are used to produce peanuts excluded under section 359(c) of this Act, are unique strains, and are not commercially available.".

SALE, LEASE, OR TRANSFER OF FARM POUNDAGE QUOTA

SEC. 803. Effective only for the 1986 through 1990 crops of peanuts, section 358a of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358a) is amended by adding at the end thereof the following:

"(k) The owner, or the operator with permission of the owner, of any farm for which a farm poundage quota has been established under this Act may, subject to such terms, conditions, or limitations as the Secretary may prescribe, sell or lease all or any part of such poundage quota to any other owner or operator of a farm within the same county for transfer to such farm, except that any such lease of poundage quota may be entered into in the fall only if the quota has been planted on the farm from which the quota is to be leased and only under such terms and conditions as the Secretary may by regulation prescribe. The owner or operator of a farm may transfer all or any part of such farm's farm poundage quota to any other farm owned or controlled by such owner or operator that is in the same county or in a county contiguous to such county in the same State and that had a farm poundage quota for the preceding year's crop. Notwithstanding the foregoing provisions of this subsection, in the case of any State for which the poundage quota allocated to the State was less than ten thousand tons for the preceding year's crop, all or any part of a farm poundage quota may be transferred by sale or lease or otherwise from a farm in one county to a farm in another county in the same State.

"(l) Transfers (including transfer by sale or lease) of farm poundage quotas under this section shall be subject to the following conditions:

"(1) no transfer of the farm poundage quota from a farm subject to a mortgage or other lien shall be permitted unless the transfer is agreed to by the lienholders;

"(2) no transfer of the farm poundage quota shall be permitted if the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act determines that the receiving farm does not have adequate tillable cropland to produce the farm poundage quota;

"(3) no transfer of the farm poundage quota shall be effective until a record thereof is filed with the county committee of the county to which such transfer is made and such committee determines that the transfer complies with the provisions of this section; and

"(4) such other terms and conditions that the Secretary may by regulation prescribe.".

MARKETING PENALTIES; DISPOSITION OF ADDITIONAL PEANUTS

SEC. 804. Effective only for the 1986 through 1990 crops of peanuts, section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359) is amended by adding at the end thereof the following:

"(m)(1) The marketing of any peanuts for domestic edible use in excess of the farm poundage quota for the farm on which such peanuts are produced shall be subject to penalty at a rate equal to 140 per centum of the support price for quota peanuts for the marketing year (August 1 through July 31) in which such marketing occurs. The marketing of any additional peanuts from a farm shall be subject to the same penalty unless such peanuts, in accordance with regulations established by the Secretary, are—

"(A) placed under loan at the additional loan rate in effect for such peanuts under section 108B of the Agricultural Act of 1949 and not redeemed by the producers;

"(B) marketed through an area marketing association designated pursuant to section 108B(3)(A) of the Agricultural Act of 1949; or

"(C) marketed under contracts between handlers and producers pursuant to the provisions of subsection (q) of this section.

Such penalty shall be paid by the person who buys or otherwise acquires the peanuts from the producer, or if the peanuts are marketed by the producer through an agent, the penalty shall be paid by such agent, and such person or agent may deduct an amount equivalent to the penalty from the price paid to the producer. If the person required to collect the penalty fails to collect such penalty, such person and all persons entitled to share in the peanuts marketed from the farm or the proceeds thereof shall be jointly and severally liable for the amount of the penalty. Peanuts produced in a calendar year in which farm poundage quotas are in effect for the marketing year beginning therein shall be subject to such quotas even though the peanuts are marketed prior to the date on which such marketing year begins. If any producer falsely identifies or fails to certify planted acres or fails to account for the disposition of any peanuts produced on such planted acres, an amount of peanuts equal to the farm's average yield, as determined under section 358(t) of this Act, times the planted acres, shall be deemed to have been marketed in violation of permissible uses of quota and additional peanuts, and the penalty in respect thereof shall be paid and remitted by the producer.

"(2) The Secretary shall authorize, under such regulations as the Secretary shall prescribe, the county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act to waive or reduce marketing penalties provided for under this subsection in cases in which such committees determine that the violations that were the basis of the penalties were unintentional or without knowledge on the part of the parties concerned. Errors in weight that do not exceed one-tenth of 1 per centum in the case of any one marketing document shall not be considered to be marketing violations except in cases of fraud or conspiracy.

"(n) Only quota peanuts may be retained for use as seed or for other uses on a farm and when so retained shall be considered as marketings of quota peanuts, except that the Secretary may exempt from consideration as marketings of quota peanuts seeds of peanuts that are used to produce peanuts excluded under subsection (c) of this section, are unique strains, and are not commercially available. Additional peanuts shall not be retained for use on a farm and shall not be marketed for domestic edible use, except as provided in subsection (r) of this section. Seed for planting of any peanut acreage in the United States shall be obtained solely from quota peanuts marketed or considered marketed for domestic edible use.

"(o) Upon a finding by the Secretary that the peanuts marketed from any crop for domestic edible use by a handler are larger in quantity or higher in grade or quality than the peanuts that could reasonably be produced from the quantity of peanuts having the grade, kernel content, and quality of the quota peanuts acquired by such handler from such crop for such marketing, such handler shall be subject to a penalty equal to 140 per centum of the loan level for quota peanuts on the quantity of peanuts that the Secretary determines are in excess of the quantity, grade, or quality of the peanuts that could reasonably have been produced from the peanuts so acquired.

"(p)(1) Except as otherwise provided in paragraph (2) of this subsection, the Secretary shall require that the handling and disposal of additional peanuts be supervised by agents of the Secretary or by area marketing associations designated pursuant to section 108B(3)(A) of the Agricultural Act of 1949.

"(2)(A) Supervision of the handling and disposal of additional peanuts by a handler shall not be required under paragraph (1) of this subsection if the handler agrees in writing, prior to any handling or disposal of such peanuts, to comply with provisions that the Secretary shall by regulation prescribe.

"(B) The regulations issued by the Secretary under subparagraph (A) of this paragraph shall include, but need not be limited to, the following provisions:

"(i) A handler of shelled peanuts may export peanuts classified by type in the following quantities (less such reasonable allowance for shrinkage as the Secretary may prescribe):

"(I) sound split kernel peanuts in an amount equal to twice the poundage of such peanuts purchased by the handler as additional peanuts;

"(II) sound mature kernel peanuts in an amount equal to the poundage of such peanuts purchased by the handler as additional peanuts less the amount of sound split kernel peanuts purchased by the handler as additional peanuts; and

"(III) the remaining quantity of total kernel content of peanuts purchased by the handler as additional peanuts and not crushed domestically.

"(ii) A handler shall ensure that any additional peanuts exported are evidenced by onboard bills of lading, or other appropriate documentation as may be required by the Secretary, or both.

"(iii) If a handler suffers a loss of peanuts as a result of fire, flood, or any other condition beyond the control of the handler, the portion of such loss allocated to contracted additional peanuts shall not be greater than the portion of the handler's total peanut purchases for the year attributable to contracted additional peanuts purchased for export by the handler during such year.

"(3) A handler shall submit to the Secretary adequate financial guarantees, as well as evidence of adequate facilities and assets, to ensure the handler's compliance with the obligation to export peanuts.

"(4) Quota and additional peanuts of like type and segregation or quality may, under regulations issued by the Secretary, be commingled and exchanged on a dollar value basis to facilitate warehousing, handling, and marketing.

"(5) The failure by a handler to comply with regulations issued by the Secretary governing the disposition and handling of additional peanuts shall subject the handler to a penalty at a rate equal to 140 per centum of the loan level for quota peanuts on the quantity of peanuts involved in the violation. A handler shall not be subject to a penalty for failure to export additional peanuts if such peanuts were not delivered to the handler.

"(6) If any additional peanuts exported by a handler are reentered into the United States in commercial quantities as determined by the Secretary, the importer thereof shall be subject to a penalty at a rate equal to 140 per centum of the loan level for quota peanuts on the quantity of peanuts reentered.

"(q) A handler may, under such regulations as the Secretary may issue, contract with producers for the purchase of addition-

al peanuts for crushing or export or both. Any such contract shall be completed and submitted to the Secretary (or if designated by the Secretary, the area marketing association) for approval before August 1 of the year in which the crop is produced. Each such contract shall contain the final price to be paid by the handler for the peanuts involved and a specific prohibition against the disposition of such peanuts for domestic edible or seed use.

"(r) Subject to the provisions of section 407 of the Agricultural Act of 1949, any peanuts owned or controlled by the Commodity Credit Corporation may be made available for domestic edible use in accordance with regulations established by the Secretary. Additional peanuts received under loan shall be offered for sale for domestic edible use at prices not less than those required to cover all costs incurred with respect to such peanuts for such items as inspection, warehousing, shrinkage, and other expenses, plus—

"(1) not less than 100 per centum of the loan value of quota peanuts if the additional peanuts are sold and paid for during the harvest season upon delivery by and with the written consent of the producer;

"(2) not less than 105 per centum of the loan value of quota peanuts if the additional peanuts are sold after delivery by the producer but not later than December 31 of the marketing year; or

"(3) not less than 107 per centum of the loan value of quota peanuts if the additional peanuts are sold later than December 31 of the marketing year.

For the period from the date additional peanuts are delivered for loan to March 1 of the calendar year following the year in which such additional peanuts were harvested, the area marketing association designated pursuant to section 108B(3)(A) of the Agricultural Act of 1949 shall have sole authority to accept or reject lot list bids when the sales price, as determined under this subsection, equals or exceeds the minimum price at which the Commodity Credit Corporation may sell its stocks of additional peanuts, except that the area marketing association and the Commodity Credit Corporation may agree to modify the authority granted by this sentence to facilitate the orderly marketing of additional peanuts.

"(s)(1) The person liable for payment or collection of any penalty provided for in this section shall be liable also for interest thereon at a rate per annum equal to the rate per annum of interest that was charged the Commodity Credit Corporation by the Treasury of the United States on the date such penalty became due.

"(2) The provisions of this section shall not apply to peanuts produced on any farm on which the acreage harvested for nuts is one acre or less if the producers who share in the peanuts produced on such farm do not share in the peanuts produced on any other farm.

"(3) Until the amount of the penalty provided by this section, other than a penalty on an importer under subsection (p)(6), is paid, a lien on the crop of peanuts with respect to which such penalty is incurred, and on any subsequent crop of peanuts subject to farm poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States.

"(4) Notwithstanding any other provision of law, the liability for and the amount of any penalty assessed under this section shall be determined in accordance with such procedures as the Secretary by regulation may prescribe. The facts constituting the basis for determining the liability for or amount of any penalty assessed under this section, when officially determined in conformity with the applicable regulations prescribed by the Secretary, shall be final and conclusive and shall not be reviewable by any other officer or agency of the Government. Nothing in this section shall be construed as prohibiting any court of competent jurisdiction from reviewing any determination made by the Secretary with respect to whether such determination was made in conformity with the applicable law and regulations. All penalties imposed under this section shall for all purposes be considered civil penalties.

"(5) Notwithstanding any other provision of law, the Secretary may reduce the amount of any penalty assessed against handlers under this section if the Secretary finds that the violation upon which the penalty is based was minor or inadvertent, and that the reduction of the penalty will not impair the operation of the peanut program, except that the amount of any penalty imposed on a handler under this section that resulted from the failure to export contracted additional peanuts shall not be reduced by the Secretary.".

PRICE SUPPORT PROGRAM

SEC. 805. Effective only for the 1986 through 1990 crops of peanuts, the Agricultural Act of 1949 is amended by adding after section 108A the following:

"PRICE SUPPORT FOR 1986 THROUGH 1989 CROPS OF PEANUTS

"SEC. 108B. Notwithstanding any other provision of law—

"(1) the Secretary shall make price support available to producers through loans, purchases, and other operations on quota peanuts for each of the 1986 through 1990 crops. The national average quota support rate for the 1986 crop of quota peanuts shall be equal to the national average support rate established for the 1985 crop of quota peanuts, adjusted by the Secretary by a percentage equal to the percentage of any increase in the prices paid by farmers for commodities and services, interest, taxes, and wage rates during the period beginning with calendar year 1981 and ending with calendar year 1985, as determined by the Secretary. The national average quota support rate for each of the 1987 through 1990 crops of quota peanuts shall be the national average quota support rate for the immediately preceding crop, adjusted to reflect any increase, during the calendar year immediately preceding the marketing year for the crop for which a level of support is being determined, in the national average cost of peanut production, excluding any change in the cost of land, except that in no event shall the national average quota support rate for any such crop exceed by more than 6 per centum the national average quota support rate for the preceding crop. The levels of support so announced shall not be reduced by any deductions for inspection, handling, or storage. The Secretary may make adjustments for location of peanuts and such other factors as are authorized by section 403 of this Act. The Secretary shall announce the level of support for quota peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the level of support is being determined;

"(2) the Secretary shall make price support available to producers through loans, purchases, or other operations on additional peanuts for each of the 1986 through 1990 crops at such levels as the Secretary finds appropriate, taking into consideration the demand for peanut oil and peanut meal, expected prices of other vegetable oils and protein meals, and the demand for peanuts in foreign markets, except that the Secretary shall set the support rate on additional peanuts at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of such peanuts. The Secretary shall announce the level of support for additional peanuts of each crop not later than February 15 preceding the marketing year for the crop for which the level of support is being determined;

"(3)(A) in carrying out paragraphs (1) and (2) of this section, the Secretary shall make warehouse storage loans available in each of the three producing areas (described in section 1446.60 of title 7 of the Code of Federal Regulations (January 1, 1985)) to a designated area marketing association of peanut producers that is selected and approved by the Secretary and that is operated primarily for the purpose of conducting such loan activities. The Secretary may not make warehouse storage loans available to any cooperative that is engaged in operations or activities concerning peanuts other than those operations and activities specified in this section and section 359 of the Agricultural Adjustment Act of 1938. Such area marketing associations shall be used in administrative and supervisory activities relating to price support and marketing activities under this section and section 359 of the Agricultural Adjustment Act of 1938. Loans made under this subparagraph shall include, in addition to the price support value of the peanuts, such costs as the area marketing association reasonably may incur in carrying out its responsibilities, operations, and activities under this section and section 359 of the Agricultural Adjustment Act of 1938;

"(B) the Secretary shall require that each area marketing association establish pools and maintain complete and accurate records by area and segregation for quota peanuts handled under loan and for additional peanuts placed under loan, except that separate pools shall be established for Valencia peanuts produced in New Mexico, and bright hull and dark hull Valencia peanuts shall be considered as separate types for the purpose of establishing such pools. Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed only to producers who placed peanuts in the pool and shall be distributed in proportion to the value of the peanuts placed in the pool by each producer. Net gains for peanuts in each pool shall consist of—

"(i) for quota peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in such pool plus an amount from the pool for additional peanuts, to the extent of the net gains from the sale for domestic food and related uses of additional peanuts in the pool for additional peanuts equal to any loss on disposition of all peanuts in the pool for quota peanuts; and

"(ii) for additional peanuts, the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts less any amount allocated to offset any loss on the pool for quota peanuts as provided in clause (i).

"(4) notwithstanding any other provision of this section—

"(A) any distribution of net gains on additional peanuts shall be first reduced to the

extent of any loss by the Commodity Credit Corporation on quota peanuts placed under loan; and

"(B)(i) the proceeds due any producer from any pool shall be reduced by the amount of any loss that is incurred with respect to peanuts transferred from an additional loan pool to a quota loan pool under the provisions of section 358(s)(8) of the Agricultural Adjustment Act of 1938; and

"(ii) losses in area quota pools other than losses incurred as a result of transfers from additional loan pools to quota loan pools under section 358(s)(8) of the Agricultural Adjustment Act of 1938, shall be offset by any gains or profits from pools in other production areas (other than separate type pools established under the first sentence of paragraph (3)(B) in such manner as the Secretary shall by regulation prescribe;

"(5) notwithstanding the foregoing provisions of this section or any other provision of law, no price support shall be made available by the Secretary for any crop of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 358(u) of the Agricultural Adjustment Act of 1938.".

REPORTS AND RECORDS

SEC. 806. Effective only for the 1986 through 1990 crops of peanuts, the first sentence of section 373(a) of the Agricultural Adjustment Act of 1938 is amended by inserting before "all brokers and dealers in peanuts" the following: "all farmers engaged in the production of peanuts,".

SUSPENSION OF CERTAIN PRICE SUPPORT PROVISIONS

SEC. 807. Section 101 of the Agricultural Act of 1949 (7 U.S.C. 1441) shall not be applicable to the 1986 through 1990 crops of peanuts.

TITLE IX—SOYBEANS

SOYBEAN PRICE SUPPORT

SEC. 901. Effective only for the 1986 through 1990 crops of soybeans, section 201 of the Agricultural Act of 1949 is amended by—

(1) inserting in the first sentence "soybeans," after "tung nuts,"; and

(2) adding at the end thereof the following:

"(g)(1) The price of soybeans shall be supported through loans and purchases during each of the five marketing years beginning with the 1986 marketing year at a level equal to 75 per centum of the simple average price received by farmers for soybeans for each of the preceding five marketing years, excluding the high and low valued years, except that in no event shall the Secretary establish a support price of less than $5.02 per bushel. Notwithstanding the foregoing provisions of this paragraph, if the Secretary determines (A) that the average price of soybeans received by producers in the previous marketing year (including the marketing year for the 1985 crop of soybeans) was not more than 105 per centum of the level of loans and purchases for soybeans for such marketing year, or (B) with respect to the 1986 crop only, that the level of loans or purchases computed under the foregoing provisions would discourage the exportation of soybeans and cause excessive stocks of soybeans in the United States, the Secretary may reduce the level of loans and purchases for soybeans for the marketing year by the amount the Secretary determines necessary to maintain domestic and export markets for soybeans, except that (subject to the following sentence) the level of loans and purchases may not be reduced by more than 10 per centum in any year nor below $4.50 per bushel. If the Secretary exercises the authority provided in the preceding sentence with respect to the level of loans and purchases for the 1986 crop of soybeans based on a determination that the level of loans and purchases computed under the first sentence of this paragraph would discourage the exportation of soybeans and cause excessive stocks of soybeans in the United States, the level of loans and purchases for such crop may not be reduced by more than 5 per centum. For the purposes of this subsection, the soybean marketing year shall be the twelve-month period beginning on September 1 and ending August 31. The Secretary shall make a preliminary announcement of the level of price support not earlier than thirty days in advance of the beginning of the market year based upon the latest information and statistics available when such level of price support is announced, and shall make a final announcement of such level as soon as full information and statistics are available on prices for the five years preceding the beginning of the marketing year. In no event shall such final level of support be announced later than October 1 of the marketing year for which the announcement applies; nor shall the final level of support be less than the level of support set forth in the preliminary announcement.

"(2) Notwithstanding any other provision of law, the Secretary shall not require participation in any production adjustment control program for soybeans or any other commodity as a condition of eligibility for price support for soybeans or allow the planting of soybeans for harvest on acreage set aside or diverted from production under any other Government program.".

TITLE X—GENERAL COMMODITY PROVISIONS

Subtitle A—The Agricultural Efficiency and Equity Act of 1985

SHORT TITLE

SEC. 1001. This subtitle may be cited as the "Agricultural Efficiency and Equity Act of 1985".

ACREAGE BASE AND PROGRAM YIELD SYSTEM FOR THE WHEAT, FEED GRAIN, UPLAND COTTON, AND RICE PROGRAMS

SEC. 1002. The Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) is amended by inserting, after title V, as added by section 551 of this Act, the following:

"TITLE VI—ACREAGE BASE AND PROGRAM YIELD SYSTEM FOR THE WHEAT, FEED GRAIN, UPLAND COTTON, AND RICE PROGRAMS

"SEC. 601. The purpose of this title is to prescribe a system for establishing farm and crop acreage bases and program yields for the wheat, feed grain, upland cotton, and rice programs under this Act that is efficient, equitable, flexible, and predictable.

"DEFINITIONS

"SEC. 602. For purposes of this title—

"(1) the term 'program' means the farm and crop acreage base and program yield system established under this title;

"(2) the term 'program crop' means any crop of wheat, feed grains, upland cotton, or rice;

"(3) the term 'crop year' means the calendar year in which a crop is normally harvested, except that, in the case of a crop that is normally harvested in January, February, or March of any calendar year, the term 'crop year' with respect to such crop means the calendar year in which such crop is planted and during which substantially all growth occurs;

"(4) the term 'county committee' means the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act for the county in which the farm is located; and

"(5) the term 'cooperator' means any producer of any program crop who is considered a cooperator under the provisions of section 101(e).

"FARM ACREAGE BASES

"SEC. 603. (a) The Secretary shall provide, for each farm on which at least one program crop was produced during at least one of the five crop years immediately preceding the 1986 crop year, for the establishment and maintenance of farm acreage bases.

"(b)(1) The county committee shall determine the farm acreage base for any crop year beginning after the 1985 crop year for any farm referred to in subsection (a), which, except as otherwise provided in paragraph (2), shall be the number of acres equal to the total of—

"(A) the average of the total acres on the farm planted to wheat and feed grains for harvest (or considered as so planted under section 609) in each of the five crop years immediately preceding such crop year;

"(B) the average of the total acres on the farm planted to upland cotton and rice for harvest (or considered as so planted under section 609)—

"(i) (for each of the 1986 through 1988 crop years for which such base is being determined) in each of the preceding crop years beginning with the 1984 crop year; and

"(ii) (for each of the 1989 and succeeding crop years for which such base is being determined) in each of the five crop years immediately preceding such crop year; and

"(C) the average of the total acres on the farm otherwise considered, under section 609, as planted to program crops for harvest in each of the five crop years immediately preceding such crop year,

except that for each of the 1986 through 1988 crop years for which such base is being determined, such number of acres may not exceed the average acreage on the farm planted to program crops (or considered as so planted under section 609) for harvest during the two preceding crop years.

"(2) For the purpose of determining the farm acreage base for the 1986 crop year for any farm referred to in subsection (a), the county committee may construct a planting history for such farm if—

"(A) planting records for such farm for any of the five crop years preceding the 1986 crop year are incomplete or unavailable; or

"(B) during at least one but not more than four of the five crop years preceding the 1986 crop year of such crop, no program crop was produced on such farm.

Such planting history shall be established in a fair and equitable manner in accordance with regulations that the Secretary shall publish no later than sixty days after the date of enactment of the Food Security Act of 1985.

"CROP ACREAGE BASES

"SEC. 604. (a)(1) The Secretary shall provide for the establishment and maintenance of crop acreage bases for each program crop (including any program crop produced under an established practice of double cropping) produced on each farm referred to in section 603(a).

"(2) The sum of the crop acreage bases for all program crops produced on any farm for any crop year shall not exceed the farm acreage base for such farm for such crop year, except to the extent that the excess is due to

an established practice of double cropping, as determined by the county committee and subject to such regulations as the Secretary may prescribe. To the extent that, because of the different procedures for calculating crop acreage bases for wheat and feed grains and for upland cotton and rice provided for in subsection (b), the sum of crop acreage bases for the farm for a crop year would exceed the farm acreage base for the crop year but for the operation of the preceding sentence, the crop acreage bases for the farm shall be adjusted by the county committee, in consultation with the farm operator, so that the sum of the crop acreage bases does not exceed the farm acreage base.

"(b)(1) The county committee shall determine the crop acreage base for any program crop for any crop year beginning after the 1985 crop year for any farm referred to in section 603(a). Except as otherwise provided in subsection (a)(2), the crop acreage base for any program crop for any crop year beginning after the 1985 crop year for any farm referred to in section 603(a) shall be—

"(A) if the program crop is wheat or feed grains, the number of acres that is equal to the average of the number of acres on the farm planted to such crop for harvest (or considered as so planted under section 609) in each of the five crop years preceding such crop year; and

"(B) if the program crop is upland cotton or rice—

"(i) for each of the 1986 through 1988 crop years, the number of acres that is equal to the average of the number of acres on the farm planted to such crop for harvest (or considered as so planted under section 609) in each of the preceding crop years beginning with the 1984 crop year; and

"(ii) for each of the 1989 and succeeding crop years, the number of acres that is equal to the average of the number of acres on the farm planted to such crop for harvest (or considered as so planted under section 609) in each of the five crop years preceding such crop year.

"(2) For the purpose of determining the crop acreage base for any program crop for the 1986 crop year for any farm referred to in section 603(a), the county committee may construct a planting history for such crop if—

"(A) planting records for such crop for any of the five crop years preceding the 1986 crop year are incomplete or unavailable; or

"(B) during at least one but not more than four of the five crop years preceding the 1986 crop year, the program crop was not produced on the farm.

Such planting history shall be established in a fair and equitable manner in accordance with regulations that the Secretary shall publish no later than sixty days after the date of enactment of the Food Security Act of 1985.

"ADJUSTMENT OF CROP ACREAGE BASES BY PRODUCERS

"SEC. 605. (a) Any producer, by submitting notice to the county committee before the time specified in subsection (c) with respect to any crop year, may increase or decrease the crop acreage base for any program crop for the producer's farm for such crop year to the extent provided in subsection (b).

"(b)(1) An adjustment of any crop acreage base for any farm under subsection (a) (or, in the case of an adjustment in the crop acreage bases for two or more program crops, the sum of the number of acres by which each such crop acreage base is increased or decreased) may not exceed the number of acres that is equal to 10 per centum of the farm acreage base for such farm for such crop year, except that such adjustment (or the sum of the number of acres by which crop acreage bases are increased or decreased when bases for two or more program crops are adjusted) for the 1986 crop year may not exceed the number of acres that is equal to 20 per centum of the farm acreage base for such farm for such crop year. No such adjustment shall be construed to increase the farm acreage base for such farm for such crop year.

"(2) The Secretary may suspend, on a nationwide basis, any limitation contained in paragraph (1) with respect to the crop acreage base for any program crop if the Secretary determines that—

"(A) a short supply or other similar emergency situation exists with respect to the program crop; or

"(B) market factors exist that require the suspension of the limitation to achieve the purposes of the program.

"(c) Any notice under subsection (a) shall be submitted by the producer to the county committee before the first day of the sixty-day period ending on—

"(1) the final date required by law for the announcement by the Secretary of any acreage or supply control program with respect to the program crop for the crop year involved; or

"(2) in the case of—

"(A) wheat, July 1 of the year preceding such crop year;

"(B) feed grains, September 30 of the year preceding such crop year;

"(C) upland cotton, November 1 of the year preceding such crop year; and

"(D) rice, January 1 of such crop year,

whichever date occurs first with respect to the program crop.

"PROGRAM YIELDS

"SEC. 606. (a) The Secretary shall provide for establishing a program yield for each program crop for each crop year for any farm.

"(b)(1) The county committee shall determine the program yield for any program crop for any crop year beginning with the 1986 crop for any farm. Subject to paragraphs (2) and (3), and except as otherwise provided in subsection (d), the program yield for any program crop for any crop year for any farm shall be the average of the actual yield per harvested acre for the crop for such farm for each of the five crop years immediately preceding such crop year, excluding the crop year with the highest yield per harvested acre, the crop year with the lowest yield per harvested acre, and any crop year in which such crop was not planted on the farm.

"(2) The program yield for any program crop for any crop year for any farm shall not be more than 150 per centum nor, except as provided in paragraph (3), less than 90 per centum of the program yield for the crop for the immediately preceding crop year for the farm.

"(3) The program yield for any program crop for the 1986 crop year shall not be less than the yield established for the crop for the 1985 crop year under this Act.

"(c) Under such regulations as the Secretary may prescribe, the county committee for any county may adjust any program yield for any program crop for any farm within the county to the extent that the committee determines that—

"(1) a significant change in any farming practice on the farm will materially and permanently affect the yield for the crop on the farm, or

"(2) because of the occurrence of a natural disaster or other similar condition beyond the control of the producer, the program yield for the crop on the farm does not accurately reflect the productive potential of the farm.

"(d) In the case of any farm for which the actual yield per harvested acre for any program crop referred to in subsection (b)(1) for any crop year is not available, the county committee may assign the farm a yield for the crop for such crop year on the basis of actual yields for the crop for such crop year on farms that the committee determines are similar to such farm with respect to size, location, and farming practices.

"RESPONSIBILITIES OF COUNTY COMMITTEES

"SEC. 607. (a)(1) Effective for each of the 1986 and subsequent crop years, each county committee, at such time and in such manner as the Secretary may by regulation prescribe, shall request any producer who seeks to be considered a cooperator, or otherwise participate in the commodity programs under this Act, with respect to a farm for a crop year to specify the total number of acres on the farm planted to program crops for harvest in each of the five crop years immediately preceding such crop year, and the total number of acres on the farm planted to each program crop in each such crop year for harvest. Before the beginning of the crop year, the county committee shall—

"(A) establish or adjust the farm acreage base and each crop acreage base for the crop year for each such farm on the basis of such information; and

"(B) notify each such producer of the farm acreage base and each crop acreage base that shall apply to such farm for such crop year.

"(2) For each of the 1986 and subsequent crop years, each county committee in accordance with such regulations as the Secretary may prescribe, shall maintain records of the farm acreage base for each farm operated by a producer within the county and the crop acreage base for each program crop produced on each such farm.

"(3) The records of the farm acreage base and crop acreage base for a farm for the 1986 crop year shall reflect the determinations made under sections 603(b) and 604(b) and shall include—

"(A) any crop planting history for the farm, as submitted to the county committee by a producer who seeks to be considered a cooperator or otherwise participate in the commodity programs under this Act; and

"(B) any construction of planting history for the farm made by the county committee to the extent provided in sections 603(b)(2) and 604(b)(2).

"(b)(1) Effective for each of the 1986 and subsequent crop years, each county committee, at such time and in such manner as the Secretary may by regulation prescribe, shall request any producer who seeks to be considered a cooperator, or otherwise participate in the commodity programs under this Act, with respect to a farm for a crop year to supply such information as may be necessary for determining the program yield as provided in section 606 for any program crop produced on any farm within such county by the producer for the crop year. The county committee shall notify each producer of such determination for each crop year.

"(2) For each of the 1986 and subsequent crop years, each county committee in accordance with such regulations as the Secretary may prescribe, shall maintain records

of the program yield for any program crop for any crop year for any farm operated by a producer within the county.

"(3) The records of program yield for any program crop for any crop year for a farm shall reflect the determinations made under section 606 and shall include—

"(A) any crop history for the five crop years immediately preceding the 1986 crop year, as submitted to the county committee by a producer who seeks to be considered a cooperator or otherwise participate in the commodity programs under this Act;

"(B) any construction of crop yield history for the farm made by the county committee to the extent provided in section 606(d);

"(C) the actual yield per harvested acre for the crop for the farm for the 1986 and each subsequent crop year; and

"(D) any adjustment in the program yield for the crop for the farm made by the county committee under section 606(c).

"NEW PRODUCERS AND SIMILAR SITUATIONS

"SEC. 608. Each county committee may provide for the establishment of a farm acreage base and crop acreage bases with respect to any farm located within the county if such farm acreage base and crop acreage bases cannot be established under sections 603 and 604. Such bases shall be established in a fair and equitable manner in accordance with regulations that the Secretary shall publish no later than sixty days after the date of enactment of the Food Security Act of 1985, except that no such bases shall be established for a farm if the producer on such farm is subject to sanctions under any provision of Federal law for cultivating highly erodible land or converted wetland.

"SPECIAL RULES

"SEC. 609. (a) For purposes of determining any farm acreage base or any crop acreage base under this title, the number of acres planted to any program crop in a crop year includes any acreage that, under any other provision of law, is reserved from production of a program crop for such crop year because of the participation of the producer in an acreage or crop limitation program under such provision of law (except to the extent that such acreage is planted to soybeans), including any acreage devoted to conserving uses, or planted to program crops not for harvest or to nonprogram crops (except soybeans), by a person participating in the program in excess of the acreage required to be reserved from production of the program crop for such crop year.

"(b) For purposes of determining any farm acreage base under this title, the number of acres planted to a program crop in a crop year also includes any acreage that—

"(1) is devoted by the producer to a conserving use during such crop year in the normal course of farming operations, as determined by the county committee under regulations that the Secretary shall publish no later than sixty days after the date of enactment of the Food Security Act of 1985;

"(2) the producer is unable to plant to such crop (or, if planted to such crop, is unable to harvest) during such crop year because of the occurrence of a natural disaster or other similar condition beyond the control of the producer, as determined by the county committee; or

"(3) except as provided in subsection (c), is planted to soybeans.

"(c) In any crop year that acreage planted and considered planted under the provisions of subsections (a) and (b) to all program crops on a farm, before the application of the rules under this subsection, would be determined to exceed the farm acreage base for the farm for such crop year, and such determination would not occur but for the planting of soybeans, a number of acres equal to the difference between (1) the total of (A) the acreage planted (and considered planted under the provisions of subsections (a) and (b)) to wheat, feed grains, upland cotton, and rice for the farm for such crop year and (B) the total acreage planted to soybeans, and (2) the farm acreage base for such farm for such crop year, shall not be considered planted under subsection (b)(3).

"(d) If a county committee determines that the occurrence of a natural disaster or other similar condition beyond the control of the producer prevented the planting of a program crop on any farm within the county (or substantially destroyed any such program crop after it had been planted but before it had been harvested), under such regulations as the Secretary may prescribe, the producer may plant any other crop, including any other program crop, on the acreage of such farm that, but for the occurrence of such disaster or other condition, would have been devoted to the production of such program crop. For purposes of determining the farm acreage base, the crop acreage base, or the eligibility of such producer to be considered a cooperator or otherwise participate in a commodity program under this Act, any acreage on the farm on which a substitute crop, including any program crop, is planted under this subsection shall be taken into account as if such acreage had been planted to the program crop for which the other crop was substituted.

"APPEAL PROCEDURE

"SEC. 610. The Secretary shall establish, by regulation, an appeal procedure under which a person who is adversely affected by any determination made under this title may seek administrative review of such determination.".

REPEAL OF OUTDATED PROGRAM PROVISIONS

SEC. 1003. (a) Effective beginning with the 1986 crop of wheat, feed grains, upland cotton, and rice, the Agricultural Adjustment Act of 1938 is amended by—

(1) striking out sections 326, 327, 328, 329, 330, 332, 333, 334, 334a, 335, 336, 338, 339, 342, 342a, 343, 344, 344a, 345, 346, 372(a), 379b, 379c, 379d, 379e, 379f, 379g, 379h, 379i, and 379j (7 U.S.C. 1326, 1327, 1328, 1329, 1441 note, 1332, 1333, 1334, 1334b, 1335, 1336, 1338, 1339, 1342, 1342a, 1343, 1344, 1344b, 1345, 1346, 1372a, 1379b, 1379c, 1379d, 1379e, 1379f, 1379g, 1379h, 1379i, and 1379j, respectively)

(2) in section 361 (7 U.S.C. 1361), striking out "corn, wheat, cotton, peanuts, and rice" and inserting in lieu thereof "and peanuts";

(3) in section 371(a) (7 U.S.C. 1371(a)), striking out "cotton, rice,", and striking out the comma after "peanuts";

(4) in section 371(b) (7 U.S.C. 1371(b)), striking out "cotton, rice,";

(5) in section 373 (7 U.S.C. 1373), striking out "corn, wheat, cotton, rice, peanuts," in subsection (b) and both places it appears in subsection (a), and inserting in lieu thereof "peanuts";

(6) section 374(b) (7 U.S.C. 1374(b)), striking out the phrase "farm acreage allotment" each time it appears and inserting in lieu thereof the phrase "crop acreage base";

(7) in the last sentence of section 374(c) (7 U.S.C. 1374(c)), inserting "or permitted acreage" after "allotment";

(8) in section 375(a) (7 U.S.C. 1375(a)), striking out "corn, wheat, cotton, rice, peanuts," and inserting in lieu thereof "peanuts";

(9) in section 377 (7 U.S.C. 1377)—

(A) striking out "(excluding any allotment released from the farm or reapportioned to the farm and any allotment provided for the farm pursuant to subsection (f)(7)(A) of section 344)"; and

(B) in the first proviso, striking out "or, in the case of upland cotton on a farm which qualified for price support on the crop produced in any such year under section 103(b) of the Agricultural Act of 1949, as amended, 75 per centum of the farm domestic allotment established under section 350 for any such year"; and

(10) in section 378 (7 U.S.C. 1378), adding at the end thereof the following:

"(g) In applying the provisions of this section to a farm for which a farm acreage base has been determined under the provisions of the Agricultural Efficiency and Equity Act of 1985, the word 'allotment', wherever it appears, shall be construed to mean 'farm acreage base and any crop acreage base comprised therein'.".

(b) Effective beginning with the 1986 crop of wheat, Public Law 74, 77th Congress, is repealed.

PRICE SUPPORT LEVELS FOR COOPERATORS UNDER PERMANENT LAW

SEC. 1004. (a) Effective beginning with the 1986 crops, the Agricultural Act of 1949 is amended by—

(1) in section 101 (7 U.S.C. 1441)—

(A) in the introductory paragraph, inserting "(with respect only to tobacco and peanuts)" before "producers have not disapproved marketing quotas for such crop"; and

(B) amending subsection (d)(3) to read as follows:

"(3) the level of price support to cooperators for any crop of peanuts for which marketing quotas have been disapproved by producers shall be 50 per centum of the parity price therefor; and no price support shall be made available for any crop of tobacco for which marketing quotas have been disapproved by producers;"; and

(C) in paragraph (5) of subsection (d), inserting "except with respect to wheat, corn, upland cotton, and rice," before "price support may be made";

(2) in section 103(a) (7 U.S.C. 1444(a))—

(A) in the first sentence, striking out "for which producers have not disapproved marketing quotas"; and

(B) in the third sentence, striking out "and in case marketing quotas are disapproved";

(3) in section 105 (7 U.S.C. 1444) striking out "producers" both places it appears and inserting in lieu thereof "cooperators";

(4) in section 107 (7 U.S.C. 1445a)—

(A) in paragraph (1), striking out "accompanied by domestic certificates" and inserting in lieu thereof "produced by a cooperator";

(B) striking out paragraphs (2), (3), (5), and (6); and

(C) redesignating paragraph (4) as paragraph (2); and

(5) amending section 408(b) (7 U.S.C. 1428(b)) to read as follows:

"(b) A 'cooperator' (1) with respect to wheat, feed grains, upland cotton, and rice, shall be a 'cooperator' as that term is defined in section 101(e) of this Act, and (2) with respect to any other basic agricultural commodity, shall be a producer on whose farm the acreage planted to the commodity does not exceed the farm acreage allotment for the commodity under title III of the Agricultural Adjustment Act of 1938.".

(b) Section 101 of the Agricultural Act of 1949 (7 U.S.C. 1441) is amended by adding after subsection (d) the following:

"(e)(1) Only a producer who is a cooperator for a crop shall be eligible for price support under any program carried out by the Secretary for rice, upland cotton, feed grains, or wheat for such crop under this section, or section 103(a), 105, or 107 of this Act, respectively.

"(2) A producer of wheat, feed grains, upland cotton, or rice shall be considered a cooperator for a crop of such commodity with respect to a farm if the producer has a farm acreage base for the crop year involved for the farm, and a crop acreage base for the crop year involved for each program crop (as defined in section 602(2) of this Act) produced on such farm, under title VI of this Act, and—

"(A) the number of acres on the farm planted to all program crops (as defined in section 602(2) of this Act) for harvest by such producer for such crop does not exceed the farm acreage base for such farm for the crop year involved, except to the extent that such excess is due to an established practice of double cropping, and

"(B) the number of acres on the farm planted to each program crop (as defined in section 602(2) of this Act) for harvest by such producer for the crop year involved does not exceed the crop acreage base for such program crop for such farm for such crop year.

"(3) The Secretary may suspend, on a nationwide basis, any farm acreage base limitation or any crop acreage base limitation with respect to a crop of a commodity under this subsection, if the Secretary determines that—

"(A) a short supply or other similar emergency situation exists with respect to any such commodity; or

"(B) market factors exist that require the suspension of any such limitation to achieve the purposes of the farm and crop acreage base and program yield system established under title VI of this Act.

"(4) Notwithstanding any other provision of this subsection, the Secretary may, on a nationwide basis, consider a producer a cooperator for any crop of rice, upland cotton, feed grains, or wheat produced on a farm by such producer if—

"(A) such producer has established and maintained a farm acreage base and a crop acreage base applicable to such commodity for such crop year on such farm, and

"(B) the number of acres on such farm planted to such commodity for harvest by such producer in such crop year does not exceed the crop acreage base for such commodity on such farm for such crop year.".

CONFORMING CHANGES

SEC. 1005. (a) Effective beginning with the 1986 crop of wheat, section 327 of the Food and Agriculture Act of 1962 (7 U.S.C. 1339b) is repealed.

(b) Effective beginning with the 1986 crops, the first sentence of section 706 of the Food and Agriculture Act of 1965 (7 U.S.C. 1305) is amended by striking out "feed grain" and inserting in lieu thereof the word "acreage".

(c) Effective beginning with the 1986 crop of upland cotton, section 506 of the Agriculture and Food Act of 1981 (7 U.S.C. 1342 note) is repealed.

Subtitle B—Miscellaneous Commodity Provisions

PAYMENT LIMITATIONS FOR WHEAT, FEED GRAINS, COTTON, AND RICE

SEC. 1011. Notwithstanding any other provision of law—

(1) The total amount of payments (excluding disaster payments) that a person shall be entitled to receive under one or more of the annual programs established under the Agricultural Act of 1949 for wheat, feed grains, upland cotton, extra long staple cotton, and rice shall not exceed $50,000 for each of the 1986 through 1990 crops.

(2) The total amount of disaster payments that a person shall be entitled to receive under one or more of the annual programs established under the Agricultural Act of 1949 for wheat and feed grains shall not exceed $100,000 for each of the 1986 through 1990 crops.

(3) The term "payments" as used in this section shall not include loans or purchases, nor any part of any payment that is determined by the Secretary of Agriculture to represent compensation for resource adjustment (excluding land diversion payments other than those diversion payments in kind made under section 103(i) or 101(j) of the Agricultural Act of 1949, as added by this Act, or section 1021 of this Act) or public access for recreation.

(4) If the Secretary of Agriculture determines that the total amount of payments that will be earned by any person under the program in effect for any crop will be reduced under this section, any acreage requirement established under a set-aside or acreage limitation program for the farm or farms on which such person will be sharing in payments earned under such program shall be adjusted to such extent and in such manner as the Secretary determines will be fair and reasonable in relation to the amount of the payment reduction.

(5) The Secretary of Agriculture shall issue regulations defining the term "person" and prescribing such rules as the Secretary determines necessary to ensure a fair and reasonable application of such limitation: Provided, That the provisions of this section that limit payments to any person shall not be applicable to lands owned by States, political subdivisions, or agencies thereof, so long as such lands are farmed primarily in the direct furtherance of a public function, as determined by the Secretary. The rules for determining whether corporations and their stockholders may be considered as separate persons shall be in accordance with the regulations issued by the Secretary on December 18, 1970, under section 101 of the Agricultural Act of 1970.

NONRECOURSE LOAN LIMIT

SEC. 1012. Effective with respect to the 1986 through 1990 crops of wheat, feed grains, soybeans, peanuts, and tobacco, section 405 of the Agricultural Act of 1949 (7 U.S.C. 1425) is amended by—

(1) designating the existing text thereof as subsection (a);

(2) striking out "No producer" in the first sentence and inserting in lieu thereof "Except as otherwise provided in subsection (b) of this section, no producer"; and

(3) adding at the end thereof the following:

"(b) For each of the 1986 through 1990 crops, the total amount of nonrecourse loans that a person may receive for wheat, feed grains, soybeans, peanuts, or tobacco under one or more of the annual programs established under this Act for such crop shall not exceed an amount that causes the total outstanding principal balance for the person for such nonrecourse loans for all such commodities of the crop to exceed $250,000. Any such loan to the person whenever the outstanding principal balance for the person for nonrecourse loans for such commodities is $250,000 shall be recourse in nature. The regulations defining the term 'person' and prescribing rules applicable to limitations issued under section 1011(5) of the Food Security Act of 1985 shall apply to the term 'person' as used in this subsection and the limitation established under this subsection, except that the term 'person', as used in this subsection, shall not include any association to which loans are made under sections 106A(b) and 108B(3) of this Act.".

EXTENSION OF THE NATIONAL AGRICULTURAL COST OF PRODUCTION STANDARDS REVIEW BOARD

SEC. 1013. (a) Subsection (c) of section 1006 of the Agriculture and Food Act of 1981 (7 U.S.C. 4102(c)) is amended to read as follows:

"(c) A person may serve as a member of the Board for one or more terms.".

(b) Section 1014 of the Agriculture and Food Act of 1981 (7 U.S.C. 4110) is amended by striking out "1985" and inserting in lieu thereof "1990".

COMMODITY CREDIT CORPORATION SALES PRICE RESTRICTIONS FOR WHEAT AND FEED GRAINS

SEC. 1014. Effective only for the marketing years for the 1986 through 1990 crops, section 407 of the Agricultural Act of 1949 (7 U.S.C. 1427) is amended by—

(1) striking out in the third sentence the matter following the third colon and inserting in lieu thereof the following: "Provided, That the Corporation shall not sell any of its stocks of wheat, corn, grain sorghum, barley, oats, and rye, respectively, at less than 115 per centum of the current national average loan rate for the commodity, adjusted for such current market differentials reflecting grade, quality, location, and other value factors as the Secretary determines appropriate plus reasonable carrying charges.";

(2) striking out in the fifth sentence "current basic county support rate including the value of any applicable price-support payment in kind (or a comparable price if there is no current basic county support rate)" and inserting in lieu thereof the following: "current basic county loan rate (or a comparable price if there is no current basic county loan rate)"; and

(3) striking out in the seventh sentence ", but in no event shall the purchase price exceed the then current support price for such commodities" and inserting in lieu thereof the following: "or unduly affecting market prices, but in no event shall the purchase price exceed the Corporation's minimum sales price for such commodities for unrestricted use".

APPLICATION OF TERMS IN THE AGRICULTURAL ACT OF 1949

SEC. 1015. Effective only for the 1986 through 1990 crops of wheat, feed grains, upland cotton, and rice, section 408(k) of the Agricultural Act of 1949 (7 U.S.C. 1428(k)) is amended to read as follows:

"REFERENCES TO TERMS MADE APPLICABLE TO WHEAT, FEED GRAINS, UPLAND COTTON, AND RICE

"(k) References made in sections 402, 403, 406, 407, and 416 to the terms 'support price', 'level of support', and 'level of price support' shall be considered to apply as well to the level of loans and purchases for wheat, feed grains, upland cotton, and rice under this Act; and references made to the terms 'price support', 'price support operations', and 'price support program' in such sections and in section 401(a) shall be con-

sidered as applying as well to the loan and purchase operations for wheat, feed grains, upland cotton, and rice under this Act.".

NORMALLY PLANTED ACREAGE AND TARGET PRICES

SEC. 1016. Section 1001 of the Food and Agriculture Act of 1977 (7 U.S.C. 1309) is amended by striking out "1985" in each place that it appears in subsections (a) and (b) and inserting in lieu thereof "1990".

HAYING AND GRAZING

SEC. 1017. (a) Section 109 of the Agricultural Act of 1949 (7 U.S.C. 1445d) is amended by—

(1) striking out "1985" in the first sentence of subsection (a) and inserting in lieu thereof "1990"; and

(2) effective beginning with the 1986 crops, striking out "farm program payment yield" in the first sentence of subsection (c) and inserting in lieu thereof "program yield".

(b) Effective beginning with the 1986 crops, the Agricultural Act of 1949 is amended by adding at the end thereof the following new section:

"SEC. 424. Notwithstanding any other provisions of this Act, in carrying out any acreage limitation, set-aside, or land diversion program under this Act for wheat, feed grains, upland cotton, or rice, the Secretary shall permit participating producers in any State to devote all or any part of the acreage diverted from production under the program to haying and grazing during the eight months of each year selected by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act for such State: Provided, That a producer may not sell any hay or other crop harvested from the acreage devoted to haying and grazing under this section.".

SUPPLEMENTAL SET-ASIDE AND ACREAGE LIMITATION AUTHORITY

SEC. 1018. Effective for the 1986 through 1990 crops of wheat and feed grains, section 113 of the Agricultural Act of 1949 (7 U.S.C. 1445h) is amended to read as follows:

"SUPPLEMENTAL SET-ASIDE AND ACREAGE LIMITATION AUTHORITY

"SEC. 113. Notwithstanding any other provision of law or prior announcement made by the Secretary to the contrary, the Secretary may announce and provide for a set-aside or acreage limitation program under section 105C or 107D of this title for one or more of the 1986 through 1990 crops of wheat and feed grains if the Secretary determines that such action is in the public interest as a result of the imposition of restrictions on the export of any such commodity by the President or other member of the executive branch of Government. To carry out effectively a set-aside or acreage limitation program authorized under this section, the Secretary may make such modifications and adjustments in such program as the Secretary determines necessary because of any delay in instituting such program.".

NORMAL SUPPLY

SEC. 1019. Notwithstanding any other provision of law, if the Secretary of Agriculture determines that the supply of wheat, corn, upland cotton, or rice for the marketing year for any of the 1986 through 1990 crops of such commodity is not likely to be excessive and that program measures to reduce or control the planted acreage of the crop are not necessary, such a decision shall constitute a determination that the total supply of the commodity does not exceed the normal supply and no determination to the contrary shall be made by the Secretary with respect to such commodity for such marketing year.

MULTIYEAR SET-ASIDES

SEC. 1020. Notwithstanding any other provision of law—

(a) The Secretary of Agriculture may enter into multiyear set-aside contracts for a period not to extend beyond the 1990 crops. Such contracts may be entered into only as a part of the programs in effect for the 1986 through 1990 crops of wheat, feed grains, upland cotton, and rice, and only producers participating in one or more of such programs shall be eligible to contract with the Secretary under this section. Producers agreeing to a multiyear set-aside agreement shall be required to devote the set-aside acreage to vegetative cover capable of maintaining itself through such period to provide soil protection, water quality enhancement, wildlife production, and natural beauty. Grazing of livestock under this section shall be prohibited, except in areas of a major disaster, as determined by the President, if the Secretary finds there is a need for such grazing as a result of such disaster. Producers entering into agreements under this section shall also agree to comply with all applicable State and local laws and regulations governing noxious weed control.

(b) The Secretary of Agriculture shall provide cost-sharing incentives to farm operators for the establishment of vegetative cover, whenever a multiyear set-aside contract is entered into under this section.

(c) The Secretary of Agriculture may issue such regulations as the Secretary determines necessary to carry out this section.

(d) The Secretary of Agriculture shall carry out the program authorized by this section through the Commodity Credit Corporation.

COST REDUCTION OPTIONS

SEC. 1021. (a) Notwithstanding any other provision of law, whenever the Secretary of Agriculture determines that an action authorized under subsection (c), (d), or (e) of this section will reduce the total of the direct and indirect costs to the Government of a commodity program administered by the Secretary without adversely affecting income to small- and medium-sized producers participating in such program, the Secretary shall take such action with respect to the commodity program involved.

(b) In the announcement of the specific provisions of any commodity program administered by the Secretary of Agriculture, the Secretary shall include a statement setting forth which, if any, of the actions are to be initially included in the program, and a statement that the Secretary reserves the right to initiate at a later date any action not previously included but authorized by this section, including the right to reopen and change a contract entered into by a producer under the program if the producer voluntarily agrees to the change.

(c) When a nonrecourse loan program is in effect for a crop of a commodity, the Secretary of Agriculture may enter the commercial market to purchase such commodity if the Secretary determines that the cost of such purchases plus appropriate carrying charges will probably be less than the comparable cost of later acquiring the commodity through defaults on nonrecourse loans under the program.

(d) When the domestic market price of a commodity for which a nonrecourse loan program is in effect is insufficient to cover the principal and accumulated interest on a loan made under such program, thereby encouraging default by a producer, the Secretary of Agriculture may provide for settlement of such loan and redemption by the producer of the commodity securing such loan for less than the total of the principal and all interest accumulated thereon if the Secretary determines that such reduction in the settlement price will yield savings to the Government due to—

(1) receipt by the Government of a portion rather than none of the accumulated interest;

(2) avoidance of default; or

(3) elimination of storage, handling, and carrying charges on the forfeited commodity:

but the Secretary may not reduce the settlement price to less than the principal due on the loan.

(e) When a production control or loan program is in effect for a crop of a major agricultural commodity, the Secretary of Agriculture may at any time prior to harvest reopen the program to participating producers for the purpose of accepting bids from producers for the conversion of acreage planted to such crop to diverted acres in return for payment in kind from Commodity Credit Corporation surplus stocks of the commodity to which the acreage was planted, if the Secretary determines that (1) changes in domestic or world supply or demand conditions have substantially changed after announcement of the program for that crop, and (2) without action to further adjust production, the Government and producers will be faced with a burdensome and costly surplus. Such payments in kind shall not be included within the payment limitation of $50,000 per person established under section 1011 of this Act, but shall be limited to a total of $20,000 per year per producer for any one commodity.

(f) The authority provided in this section shall be in addition to, and not in place of, any authority granted to the Secretary of Agriculture under any other provision of law.

PRODUCER RESERVE PROGRAM FOR WHEAT AND FEED GRAINS

SEC. 1022. (a) Except as provided by subsection (b) of this section, effective beginning with the 1986 crops, section 110 of the Agricultural Act of 1949 (7 U.S.C. 1445e) is amended by—

(1) in the first sentence of subsection (a), striking out "and" after "supply" and inserting in lieu thereof a comma, and inserting before the period at the end thereof the following: ", and provide for adequate, but not excessive, carryover stocks to ensure a reliable supply of the commodities";

(2) in the third sentence of subsection (b)—

(A) in clause (1), striking out "nor more than five years" and inserting in lieu thereof ", with extensions as warranted by market conditions";

(B) in clause (4), striking out "before the market price for wheat or feed grains has reached" and inserting in lieu thereof "when the total amount of wheat or feed grains in storage under programs under this section is below the upper limits for such storage as set forth in clauses (A) and (B) of subsection (e)(2) and the market price for wheat or feed grains is below";

(C) in clause (5), striking out "a specified level, as determined by the Secretary" and inserting in lieu thereof "the higher of 140 per centum of the nonrecourse loan rate for the commodity or the established price for such commodity, as determined under title I of this Act";

(3) adding at the end of subsection (b) the following:

"Whenever—

"(A)(i) the total amount of wheat stored under storage programs established under this section is less than 17 per centum of the estimated total domestic and export usage of wheat during the then current marketing year for wheat, as determined by the Secretary, or

"(ii) the total amount of feed grains stored under storage programs established under this section is less than 7 per centum of the estimated total domestic and export usage of feed grains during the then current marketing year for feed grains, as determined by the Secretary; and

"(B) the market price of the commodity, as determined by the Secretary, does not exceed 140 per centum of the nonrecourse loan rate for the commodity,

the Secretary shall encourage participation in the programs under this section by offering producers increased storage payments and loan levels, interest waivers, or such other incentives as the Secretary determines necessary to maintain the total amount of storage under the programs at the levels specified in clauses (A) and (B). The Secretary shall ensure that producers are afforded a fair and equitable opportunity to participate in each producer storage program, taking into account regional differences in the time of harvest."; and

(4) in subsection (e)—

(A) inserting "(1)" after "(e)";

(B) inserting before the period at the end of the second sentence the following: ", subject to the upper limits on the total amount of wheat and feed grains that may be stored under storage programs established under this section set out in paragraph (2)";

(C) striking out the third sentence; and

(D) adding at the end thereof the following:

"(2) Prior to the harvest of each crop of wheat and feed grains, the Secretary shall determine and establish upper limits on the total amount of wheat and feed grains that may be stored under storage programs established under this section to be effective during the marketing year for such crop, as follows:

"(A) The upper limit on the total amount of wheat that may be stored under such programs shall not exceed 30 per centum of the estimated total domestic and export usage of wheat during the marketing year for the crop of wheat, as determined by the Secretary;

"(B) the upper limit on the total amount of feed grains that may be stored under such programs shall not exceed 15 per centum of the estimated total domestic and export usage of feed grains during the marketing year for the crop, as determined by the Secretary; and

"(C) notwithstanding clauses (A) and (B), the Secretary may establish the upper limits at higher levels—not in excess of 110 per centum of the levels determined under clauses (A) and (B)—if the Secretary determines that the higher limits are necessary to achieve the purposes of this section.".

(b) The amendment made by subsection (a)(2)(B) of this section shall take effect with respect to any loan made under section 110 of the Agricultural Act of 1949 the date for repayment of which occurs after the date of enactment of this Act.

ADVANCE DEFICIENCY PAYMENTS

SEC. 1023. Effective for the 1986 through 1990 crops of wheat, feed grains, upland cotton, and rice, the Agricultural Act of 1949 is amended by inserting before section 108 the following:

"SEC. 107E. (a) Effective for each of the 1986 through 1990 crops of wheat, feed grains, upland cotton, and rice, if the Secretary establishes an acreage limitation or set-aside program for a crop of wheat, feed grains, upland cotton, and rice, under this title and determines that deficiency payments will likely be made for such commodity for such crop, the Secretary shall make available advance deficiency payments to producers who agree to participate in such program.

"(b) Advance deficiency payments under this section shall be made to producers under the following terms and conditions:

"(1) Payments shall be made available to producers with respect to any such crop as soon as practicable after October 1 of the calendar year in which the crop is harvested; but the Secretary, at the Secretary's discretion, may make payments available to any producer prior to such date at any time after the producer files notice of intention to participate in the program for the crop.

"(2) Payments shall be made available to producers in such amounts as the Secretary determines appropriate to encourage adequate participation in the program, except that the amount may not exceed an amount determined by multiplying (A) the estimated farm program acreage for the crop, by (B) the program yield for the crop, by (C) 50 per centum of the projected payment rate, as determined by the Secretary.

"(3) In any case in which the deficiency payment payable to a producer for a crop, as finally determined by the Secretary under this title is less than the amount paid to the producer as an advance deficiency payment for the crop under this section, the producer shall refund an amount equal to the difference between the amount advanced and the amount finally determined by the Secretary to be payable to the producer as a deficiency payment for the crop concerned.

"(4) If the Secretary determines under this title that deficiency payments will not be made available on a crop with respect to which advance deficiency payments have already been made under this section, the producers who received such advance payments shall refund such payments.

"(5) Any refund required under paragraph (3) or (4) shall be due at the end of the marketing year for the crop with respect to which such payments were made.

"(6) If a producer fails to comply with the requirements under the acreage limitation or set-aside program involved after obtaining an advance deficiency payment under this section, the producer shall repay, immediately, the amount of the advance, plus interest thereon in such amount as the Secretary shall prescribe by regulations.

"(c) The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(d) The Secretary shall carry out the program provided for in this section through the Commodity Credit Corporation.

"(e) The program provided for in this section shall be in addition to, and not in place of, any authority granted to the Secretary or the Commodity Credit Corporation under any other provision of law.".

DISCRETIONARY WHEAT AND FEED GRAIN EXPORT CERTIFICATE PROGRAMS

SEC. 1024. Effective for the 1986 through 1990 crops of wheat and feed grains, the Agricultural Act of 1949 (7 U.S.C. 1421 et seq.) is amended by inserting after section 107E, as added by section 1024 of this Act, the following:

"SEC. 107F. (a)(1) The Secretary may establish a program, applicable to any of the 1986 through 1990 crops of wheat or feed grains, to provide incentives for the export of any of such crops of wheat and feed grains from private stocks. The program for any such crop established under this subsection by the Secretary shall include the following terms:

"(A) The Secretary shall issue wheat or feed grain export certificates to producers to whom the Secretary makes loans and payments under section 107D or 105C, respectively, for a crop if such producers comply with the terms and conditions of the program for such crop.

"(B) Each such certificate shall bear a monetary denomination and a designation specifying a quantity of the crop of the commodity involved, selected by the Secretary.

"(C) The aggregate quantity of wheat or feed grains specified in all export certificates distributable to eligible producers of the crop involved shall be equal to—

"(i) the aggregate amount of wheat or feed grains produced by producers participating in the program for the crop under section 107D or 105C, as determined by multiplying the acreage planted by each such producer for harvest times the producer's program yield for the commodity; times

"(ii) an export production factor.

For purposes of this subparagraph, the export production factor for a crop shall be determined by the Secretary by dividing the quantity of such crop harvested domestically that the Secretary estimates will not be used domestically and will be available for export (excluding the portion of the crop expected to be added to carryover stocks) during the marketing year for such crop by the quantity of such crop that the Secretary estimates will be harvested domestically.

"(D) Wheat or feed grain export certificates shall be distributed among eligible producers in a manner that will ensure that each eligible producer receives certificates having an aggregate face value that represents an equal rate of return per unit of wheat or feed grains produced by such producer for such crop. For purposes of determining such rate of return, the Secretary shall take into consideration regional variations in the costs incurred by producers to market the commodity (including transportation costs).

"(E) An export certificate issued under this subsection shall be redeemed by the Secretary for a cash amount equal to the monetary denomination on such certificate (or, at the option of the Secretary, a quantity of the commodity involved having a current fair market value equal to such amount) only on presentation by a holder who exports a quantity of the crop involved (including processed wheat or feed grains) equal to the quantity designated in the certificate and only if the Secretary has not redeemed previously an export certificate issued under this subsection presented in connection with the particular wheat or feed grains so exported.

"(2) The Secretary shall carry out this subsection through the Commodity Credit Corporation. If sufficient funds are available to the Corporation, there shall be expended to carry out this subsection with respect to the export of the crop of wheat or feed grains involved an amount not less than the product of—

"(A) 21 cents for wheat, 11 cents for corn, and such amounts for grain sorghums, oats, and, if designated by the Secretary, barley as the Secretary determines fair and reasonable in relation to the amount specified for corn; times

"(B) the aggregate of the wheat or feed grain acreage planted to the commodity for harvest by producers participating in the program for the crop with respect to which deficiency payments are available under section 107D or 105C of this Act; times

"(C) the average of the program yields for the crop.

"(3) Funds expended to carry out export certificate programs established under this subsection shall be in addition to, and not in place of, funds authorized by any other law to be expended to finance or encourage the export of wheat or feed grains.

"(4) For the purposes of facilitating the transfer of export certificates under this subsection, the Commodity Credit Corporation may buy and sell certificates in accordance with regulations prescribed by the Secretary.

"(b)(1) Effective for each of the 1986 through 1990 crops of wheat or feed grains, the Secretary may issue to eligible producers (who, for the purposes of this subsection, are producers of wheat or feed grains participating in the program under this Act for such crop who meet the requirements of paragraph (2)) export marketing certificates, denominated in bushels of wheat or feed grains, as applicable, for the crop, which shall be used, under such terms and conditions as the Secretary may prescribe consistent with the provisions of this subsection, as follows:

"(A) Not later than three months before the beginning of the marketing year for a crop of wheat or feed grains, the Secretary may issue to eligible producers that plant at least 50 per centum of the farm's wheat or feed grain crop acreage base for such crop, export marketing certificates to be applicable to such marketing year that, in the aggregate, shall equal the quantity of the commodity the Secretary estimates will be exported during the marketing year. Each such eligible producer shall receive certificates for a quantity of the commodity that bears the same ratio to the quantity of estimated exports as the producer's crop acreage base for that crop of the commodity bears to the aggregate total of all such eligible producers' crop acreage bases for that crop, rounded upward to the nearest full bushel.

"(B) The denomination of export marketing certificates shall be one bushel (with no accompanying cash face value), except that the Secretary may issue certificates in multiples of such denomination, and any certificate in the multiple of such denomination, may be exchanged by the producer, at the county Agricultural Stabilization and Conservation Service office, for certificates representing an equivalent quantity of the commodity in different multiples, to facilitate the operation of the program under this subsection. Each export marketing certificate shall designate the producer by name and the crop involved.

"(C) If seven months after the beginning of the marketing year for the crop, the Secretary determines that the amount of the commodity that will be exported during the marketing year for that crop will exceed the aggregate quantity of the commodity represented by all the export marketing certificates so issued, the Secretary may issue additional export marketing certificates to producers that initially received certificates for the crop sufficient to cover the additional exports, such certificates to be apportioned among such producers so that each producer receives the same portion of the additional certificates issued that the producer received of the export certificates initially issued for the crop, as provided in subparagraph (A), rounded upward to the nearest full bushel.

"(D) Producers may convey export marketing certificates issued under this subsection to purchasers of the commodity involved sold by the producers at any time prior to the end of the marketing year for the crop described in the certificate. If a producer has less wheat or feed grains to sell than the quantity represented by the export marketing certificates issued to the producer, because of reduced production or other reason or because, in the case of additional certificates issued under subparagraph (C), the producer had disposed of the producer's wheat or feed grains prior to the issuance of such additional certificates, the producer, at any time prior to the end of the marketing year for the crop involved, may sell the extra export marketing certificates to any person for such price as agreed on by the producer and purchaser. Any certificate may be reconveyed without restriction.

"(2) To be eligible to receive export certificates under this subsection for a crop of wheat or feed grains, a producer of such commodity must participate in the program under this title for such crop, and—

"(A) if there is no acreage limitation or set-aside in effect for the crop, limit the acreage on the farm planted to the crop for harvest to the farm's wheat or feed grain crop acreage base, as applicable; or

"(B) if an acreage limitation is in effect for the crop, limit the acreage on the farm planted to the crop for harvest to the farm's wheat or feed grain crop acreage base, as applicable, reduced to the extent required under the acreage limitation program, and comply with any other terms of the acreage limitation program established by the Secretary; or

"(C) if a set-aside program is in effect for the crop, comply with the set-aside and other terms of the set-aside program established by the Secretary.

"(3) Whenever the Secretary issues certificates under this subsection for a crop of wheat or feed grains, no person may export wheat or wheat products, or feed grains or feed grain products, from the United States during the marketing year for the crop without surrendering to the Secretary, at the time of export, export marketing certificates for such crop representing the quantity of the commodity being exported or, in the case of wheat or feed grain products, the equivalent quantity of the commodity contained in the products being exported. Persons that fail to comply with the requirements of the preceding sentence shall be guilty of a misdemeanor and shall be subject, on conviction for each violation thereof, to a fine of not more than $25,000 or imprisonment for not to exceed one year, or both such fine and imprisonment. This paragraph shall not apply to exports of commodities or products owned by the Government of the United States or agencies and instrumentalities thereof, nor to commodities or products provided to the exporter by the Commodity Credit Corporation under an export development program.

"(4) Any person who falsely makes, issues, alters, forges, or counterfeits any export marketing certificate, or with fraudulent intent possesses, transfers, or uses any such falsely made, issued, altered, forged, or counterfeited export marketing certificate, shall be deemed guilty of a felony and on conviction thereof shall be subject to a fine of not more than $10,000 or imprisonment of not more than ten years, or both such fine and imprisonment.

"(5) For the purposes of facilitating the transfer of export certificates under this subsection, the Commodity Credit Corporation may buy and sell certificates in accordance with regulations prescribed by the Secretary.".

REQUIRED DISPOSITION OF SURPLUS COMMODITIES

SEC. 1025. If the Secretary of Agriculture determines that Government-owned food and feed stocks acquired by the Commodity Credit Corporation through nonrecourse loan programs under the Agricultural Adjustment Act of 1938 or the Agricultural Act of 1949 cannot be disposed of in normal domestic trade channels without impairment of the price support programs under such Acts or sold abroad at competitive world prices, the Commodity Credit Corporation, under regulations issued by the Secretary, shall dispose of such commodities for the purposes of emergency domestic food assistance, emergency humanitarian food needs in developing countries, market development, export enhancement, or other such appropriate uses.

NONCOMPLIANCE BASED ON EXCESS IDLED ACRES

SEC. 1026. Title IV of the Agricultural Act of 1949 is amended by adding, after section 424, as added by section 1017 of this Act, the following:

"SEC. 425. A producer who removes land from production under an acreage limitation or set-aside program for a crop of wheat, feed grains, cotton, or rice under this Act and who idles more land than is required by the provisions of the program shall not have such producer's payments under this Act for such crop reduced, nor be subject to any other monetary fine or penalty, for failure to plant the program crop on acres so idled or to accurately report planted and idled acres unless the Secretary finds by the preponderance of the evidence that the producer's acts were committed to obtain funds from the Government of the United States to which such producer was not entitled by law.".

ADVANCE RECOURSE COMMODITY LOANS

SEC. 1027. Effective for the 1986 through 1990 crops, the Agricultural Act of 1949 is amended by adding at the end thereof the following:

"SEC. 426. Notwithstanding any other provision of this Act, the Secretary may make advance recourse loans available to producers of the commodities of the 1986 through 1990 crops for which nonrecourse loans are made available under this Act if the Secretary finds that such action is necessary to ensure that adequate operating credit is available to producers. These recourse loans may be made available under such reasonable terms and conditions as the Secretary may prescribe, except that the Secretary shall require that a producer obtain crop insurance for the crop as a condition of eligibility for a loan.".

LIQUID FUELS

SEC. 1028. Section 423(a) of the Agricultural Act of 1949 (7 U.S.C. 1433b) is amended by striking out all after "the Commodity Credit Corporation", and inserting in lieu thereof the following: "the Corporation may, under terms and conditions established by the Secretary, make its accumulated stocks of agricultural commodities available, at no cost or reduced cost, to encourage the purchase of such commodities for the production of liquid fuels and agricultural commodity byproducts. In carrying out the program established by this section, the Secretary shall ensure, insofar as possible, that any use of

agricultural commodities made available be made in such manner as to encourage increased use and avoid displacing usual marketings of agricultural commodities.".

Division B—Trade, Conservation, and Credit

TITLE XI—TRADE

Subtitle A—Public Law 480 and Use of Surplus Commodities in International Programs

TITLE II OF PUBLIC LAW 480—FUNDING LEVELS

SEC. 1101. Effective October 1, 1985, section 204 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1724) is amended by—

(1) striking out "$1,000,000,000" in the first sentence and inserting in lieu thereof "$1,200,000,000";

(2) striking out "calendar" both places it appears in the first sentence and inserting in lieu thereof "fiscal"; and

(3) inserting after the first sentence the following: "The President may waive the limitation in the preceding sentence if the President determines that such waiver is necessary to undertake programs of assistance to meet urgent humanitarian needs.".

TITLE II OF PUBLIC LAW 480—MINIMUM FOR FORTIFIED OR PROCESSED FOOD AND NONPROFIT AGENCY PROPOSALS

SEC. 1102. Effective October 1, 1985, title II of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1721–1726) is amended by adding at the end thereof the following:

"SEC. 207. Not less than 75 per centum of the agricultural commodities made available for distribution in each fiscal year under this title for nonemergency programs shall be fortified or processed food. The President may waive the requirement under the preceding sentence, or make available a smaller percentage of fortified or processed food than required under the preceding sentence, during any fiscal year in which the President determines that the requirements of the programs established under this title will not be best served by the distribution of fortified or processed food in the amounts required under the preceding sentence. In making agricultural commodities available for distribution as provided in this section, the President shall consider the nutritional assistance to the recipients and benefits to the United States that would result from distributing such commodities in the form of processed milk and plant protein products, as well as fruit, nut, and vegetable products.

"SEC. 208. Any request by a nonprofit or voluntary agency for agricultural commodities for a nonemergency food program under this title shall include—

"(1) a statement of the intended use of any foreign currency proceeds generated by such agency through the use of commodities made available under this title for such program; and

"(2) a statement of any possible detrimental disruption of traditional cultural food consumption habits that might arise from the distribution of commodities under such program.".

EXTENSION OF THE PUBLIC LAW 480 AUTHORITIES

SEC. 1103. Section 409 of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1736c) is amended by—

(1) striking out "1985" in the first sentence and inserting in lieu thereof "1990"; and

(2) in the second sentence—

(A) striking out "amendment" and inserting in lieu thereof "amendments"; and

(B) inserting "and the Food Security Act of 1985" after "Agriculture and Food Act of 1981".

FACILITATION OF EXPORTS

SEC. 1104. It is the sense of Congress that—

(1) the President should work with the People's Republic of China to facilitate the export of commodities, including dairy products and white wheat (in quantities sufficient to establish the quality of United States white wheat), to that country under the Agricultural Trade Development and Assistance Act of 1954 and section 416 of the Agricultural Act of 1949 with a view to increasing markets for those commodities in the People's Republic of China; and

(2) the President, to the extent practicable, should respond favorably to any request of the People's Republic of China seeking such receipt of commodities.

FARMER-TO-FARMER PROGRAM UNDER PUBLIC LAW 480

SEC. 1105. (a) Notwithstanding any other provision of law, not less than one-tenth of 1 percent of the funds available for each of the fiscal years ending September 30, 1986, and September 30, 1987, to carry out the Agricultural Trade Development and Assistance Act of 1954 shall be used to carry out paragraphs (1) and (2) of section 406(a) of that Act. Any such funds used to carry out paragraph (2) of section 406(a) shall not constitute more than one-fourth of the funds used as provided by the first sentence of this subsection, shall be used for activities in direct support of the farmer-to-farmer program under paragraph (1) of section 406(a), and shall be administered whenever possible in conjunction with programs under sections 296 through 300 of the Foreign Assistance Act of 1961.

(b) Not later than 120 days after the date of enactment of this Act, the Administrator of the Agency for International Development, in conjunction with the Secretary of Agriculture, shall submit to Congress a report indicating the manner in which the Agency intends to implement the provisions of paragraphs (1) and (2) of section 406(a) of the Agricultural Trade Development and Assistance Act of 1954 with the funds made available under subsection (a).

USE OF SURPLUS COMMODITIES IN INTERNATIONAL PROGRAMS

SEC. 1106. Effective October 1, 1985, section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431) is amended by—

(1) striking out the last two sentences of subsection (a); and

(2) amending subsection (b) to read as follows:

"(b)(1) The Secretary, subject to the requirements of paragraph (10), may furnish eligible commodities for carrying out programs of assistance in developing countries and friendly countries under title II of the Agricultural Trade Development and Assistance Act of 1954, as approved by the Secretary, and for such purposes as are approved by the Secretary. To ensure that the furnishing of commodities under this subsection is coordinated with and complements other United States foreign assistance, assistance under this subsection shall be coordinated through the mechanism designated by the President to coordinate assistance under the Agricultural Trade Development and Assistance Act of 1954.

"(2) As used in this subsection, the term 'eligible commodities' means—

"(A) dairy products, grains, and oilseeds acquired by the Commodity Credit Corporation through price support operations that the Secretary determines meet the criteria specified in subsection (a); and

"(B) such other edible agricultural commodities as may be acquired by the Secretary of Agriculture or the Commodity Credit Corporation in the normal course of operations and that are available for disposition under this subsection, except that no such commodities may be acquired for the purpose of their use under this subsection.

"(3)(A) Commodities may not be made available for disposition under this subsection in amounts that (i) will, in any way, reduce the amounts of commodities that traditionally are made available through donations to domestic feeding programs or agencies, or (ii) will prevent the Secretary from fulfilling any agreement entered into by the Secretary under a payment-in-kind program under this Act or other Acts administered by the Secretary.

"(B) The requirements of section 401(b) of the Agricultural Trade Development and Assistance Act of 1954 shall apply with respect to commodities furnished under this subsection. Commodities may not be furnished for disposition to any country under this subsection except on determinations by the Secretary that (i) the receiving country has the absorptive capacity to use the commodities efficiently and effectively; and (ii) such disposition of the commodities will not interfere with usual marketings of the United States, nor disrupt world prices of agricultural commodities and normal patterns of commercial trade with developing countries.

"(C) The Secretary shall take reasonable precautions to ensure that—

"(i) commodities furnished under this subsection will not displace or interfere with sales that otherwise might be made; and

"(ii) sales or barter under paragraph (7) will not unduly disrupt world prices of agricultural commodities nor normal patterns of commercial trade with friendly countries.

"(4) Agreements may be entered into under this subsection to provide eligible commodities in installments over an extended period of time.

"(5)(A) Section 203 of the Agricultural Trade Development and Assistance Act of 1954 shall apply to the commodities furnished under this subsection.

"(B) The Commodity Credit Corporation may pay the processing and domestic handling costs incurred, as authorized under this subsection, in the form of eligible commodities, as defined in paragraph (2)(A), if the Secretary determines that such in-kind payment will not disrupt domestic markets.

"(6) The cost of commodities furnished under this subsection, and expenses incurred under section 203 of the Agricultural Trade Development and Assistance Act of 1954 in connection with those commodities, shall be in addition to the level of assistance programmed under that Act and shall not be considered expenditures for international affairs and finance.

"(7) Eligible commodities, and products thereof, furnished under this subsection may be sold or bartered only with the approval of the Secretary and solely as follows:

"(A) Sales and barter that are incidental to the donation of the commodities or products.

"(B) Sales and barter to finance the distribution, handling, and processing costs of the donated commodities or products in the importing country or in a country through which such commodities or products must be transshipped, or other activities in the importing country that are consistent with providing food assistance to needy people.

"(C) Sales and barter of commodities and products furnished to intergovernmental agencies or organizations, insofar as they are consistent with normal programming procedures in the distribution of commodities by those agencies or organizations.

"(D)(i) Sales of commodities and products furnished to nonprofit and voluntary agencies, or cooperatives, for food assistance under agreements that provide for the use, by the agency or cooperative, of foreign currency proceeds generated from such sale of commodities or products for the purposes established in clause (ii) of this subparagraph.

"(ii) Foreign currency proceeds generated from the sales of commodities and products under this subparagraph shall be used by nonprofit and voluntary agencies, or cooperatives, for activities carried out by the agency or cooperative that will directly supplement the transportation, distribution, and use of commodities and products donated under this subsection.

"(iii) Except as otherwise provided in clause (v), such agreements, taken together for each fiscal year, shall provide for sales of commodities and products for foreign currency proceeds in amounts that are, in the aggregate, not less than 5 per centum of the quantity of all commodities and products furnished for carrying out programs of assistance under this subsection in such fiscal year.

"(iv) Foreign currency proceeds generated from the sale of commodities or products under this subparagraph shall be expended within the country of origin within one year of acquisition of such currency, except that the Secretary may permit the use of such proceeds (I) in countries other than the country of origin as necessary to expedite the transportation of commodities and products furnished under this subsection and (II) after one year of acquisition as appropriate to achieve the purposes of clause (i).

"(v) The provisions of clause (iii) of this subparagraph establishing minimum annual allocations for sales and use of proceeds shall not apply to the extent that there have not been sufficient requests for such sales and use of proceeds nor to the extent required under paragraph (3).

"(E) Sales and barter to cover expenses incurred under paragraph (5)(a).

Except as otherwise provided in subparagraph (C), no portion of the proceeds or services realized from sales or barter under paragraph (7) may be used to meet operating and overhead expenses.

"(8)(A) To the maximum extent practicable, expedited procedures shall be used in the implementation of this subsection.

"(B) The Secretary shall issue regulations governing sales and barter, and the use of foreign currency proceeds, under paragraph (7) of this subsection that will provide reasonable safeguards to prevent the occurrence of abuses in the conduct of activities provided for in paragraph (7).

"(9) Not later than April 1, 1987, and annually thereafter, the Secretary shall report to Congress on sales and barters, and use of foreign currency proceeds, under paragraph (7) during the preceding fiscal year. Such report shall include information on—

"(A) the quantity of commodities furnished for such sale or barter;

"(B) the amount of funds (including dollar equivalents for foreign currencies) and value of services generated from such sales and barters in such fiscal year;

"(C) how such funds and services were used;

"(D) the amount of foreign currency proceeds that were used under agreements under subparagraph (D) of paragraph (7) in such fiscal year, and the percentage of the quantity of all commodities and products furnished under this subsection in such fiscal year such use represented;

"(E) the Secretary's best estimate of the amount of foreign currency proceeds that will be used, under agreements under subparagraph (D) of paragraph (7), in the then current fiscal year and the next following fiscal year (if all requests for such use are agreed to), and the percentage of the quantity of all commodities and products that the Secretary estimates will be furnished under this subsection in each such fiscal year that such estimated use represents;

"(F) the effectiveness of such sales, barter, and use during such fiscal year in facilitating the distribution of commodities and products under this subsection;

"(G) the extent to which sales, barter, or use displaces or interferes with commercial sales of United States agricultural commodities and products that otherwise would be made, or affects usual marketings of the United States, or disrupts world prices of agricultural commodities or normal patterns of trade with friendly countries, or discourages local production and marketing of agricultural commodities in the countries in which commodities and products are distributed under this subsection; and

"(H) the Secretary's recommendations, if any, for changes to improve the conduct of sales, barter, or use activities under paragraph (7).

"(10)(A) Subject to the limitations established under paragraph (3), the Secretary shall make available for disposition under this subsection in each of the fiscal years ending September 30, 1986, and September 30, 1987, not less than the minimum quantities of eligible commodities specified in subparagraph (B).

"(B) The minimum quantity of eligible commodities that shall be made available for disposition under this subsection in each fiscal year shall be (i) 1,000,000 metric tons in fiscal year 1986, and 600,000 metric tons in fiscal year 1987, of grains and oilseeds from the Corporation's uncommitted stocks, or an amount equal to 10 per centum of the Corporation's uncommitted stocks of grains and oilseeds as of the end of such fiscal year (as estimated by the Secretary), whichever is less, and (ii) 10 per centum of the Corporation's uncommitted stocks of dairy products, but not less than 150,000 metric tons of such products to the extent that uncommitted stocks are available. The Secretary shall make such estimation of expected year-end levels of the Corporation's uncommitted stocks prior to the beginning of the fiscal year. The Secretary's determination as to the amount of the Corporation's stocks that shall be made available for disposition under this subsection for such fiscal year shall be published in the Federal Register, along with a breakdown by kind of commodity and the quantity of each kind of commodity that shall be made available, before the beginning of such fiscal year.

"(C)(i) The Secretary may waive the minimum quantity requirements of subparagraphs (A) and (B) for a fiscal year—

"(I) to the extent that the Secretary determines and reports to Congress that there are not sufficient requests for eligible commodities under this subsection for such fiscal year; or

"(II) if the Secretary determines that the restrictions on the furnishing of commodities under paragraph (3) prevent the making available of commodities in such minimum quantities.

"(ii) For any fiscal year in which the minimum levels of uncommitted Commodity Credit Corporation stocks specified in subparagraph (B) are not made available and during which any requests for commodities under this subsection are rejected, the Secretary shall provide a detailed, written explanation to Congress, at the end of such fiscal year, of the reasons for the rejections of such requests.".

Subtitle B—Food Security Wheat Reserve

EXTENSION OF THE RESERVE

SEC. 1111. Section 302(i) of the Food Security Wheat Reserve Act of 1980 (7 U.S.C. 1637f-1(i)) is amended by striking out "1985" both places it appears and inserting in lieu thereof "1990".

Subtitle C—Maintenance and Development of Export Markets

TRADE POLICY DECLARATION

SEC. 1121. (a) Congress finds that—

(1) the volume and value of United States agricultural exports have significantly declined in recent years as a result of unfair foreign competition and the high value of the dollar;

(2) this decline has been exacerbated by the lack of uniform and coherent objectives in United States agricultural trade policy and the absence of direction and coordination in trade policy formulation;

(3) agricultural interests have been underrepresented in councils of government responsible for determining economic policy that has contributed to a strengthening of the United States dollar;

(4) foreign policy objectives of the United States have been introduced into the trade policy process in a manner injurious to the goal of maximizing United States economic interests through trade; and

(5) the achievement of that goal is in the best interests of the United States.

(b) It is hereby declared to be the agricultural trade policy of the United States to—

(1) provide through all means possible agricultural commodities and their products for export at competitive prices, with full assurance of quality and reliability of supply;

(2) support the principle of free trade and the promotion of fairer trade in agricultural commodities and their products;

(3) cooperate fully in all efforts to negotiate with foreign countries reductions in current barriers to fair trade;

(4) counter aggressively unfair foreign trade practices using all available means, including export restitution, export bonus programs, and, if necessary, restrictions on United States imports of foreign agricultural commodities and their products, as a means to encourage fairer trade;

(5) remove foreign policy constraints to maximize United States economic interests through agricultural trade; and

(6) provide for consideration of United States agricultural trade interests in the design of national fiscal and monetary policy that may foster continued strength in the value of the dollar.

AGRICULTURAL TRADE CONSULTATIONS

SEC. 1122. (a) To improve the orderly marketing of United States agricultural commodities, to achieve higher income for United States producers of agricultural commodities, and to reduce the likelihood of an agricultural commodity price war and the need for export subsidy programs, the Secretary of Agriculture shall, in coordination

with the United States Trade Representative, confer with representatives of other major agricultural producing countries and, at the earliest possible date, initiate and pursue multilateral agricultural trade consultations among major agricultural producing countries.

(b) It is the sense of Congress that the objectives of the consultations called for in subsection (a) should be to—

(1) increase the exchange of information on worldwide agricultural production, demand, and commodity supply levels;

(2) determine a more equitable sharing of responsibility for maintaining agricultural commodity reserves and managing supplies of agricultural commodities; and

(3) attain increased cooperation in restraining export subsidy programs.

(c) The Secretary of Agriculture shall report to Congress by July 1, 1986, and annually thereafter, on the progress of efforts to initiate and pursue the consultations called for in subsection (a), including any agreements reached with respect to the objectives set forth in subsection (b).

DEPARTMENT OF AGRICULTURE EXPORT DEVELOPMENT PROGRAMS

SEC. 1123. (a) Effective for the fiscal year ending September 30, 1986, the Secretary of Agriculture may use $325,000,000 of funds of the Commodity Credit Corporation for direct export credit under the blended credit export sales program of the Department of Agriculture.

(b) Effective for the fiscal year ending September 30, 1986, the Secretary of Agriculture shall make available under the Export Credit Guarantee Program (GSM-102) carried out by the Commodity Credit Corporation credit guarantees for not less than $5,000,000,000 in short-term credit extended to finance export sales of United States agricultural commodities.

(c) Notwithstanding any other provision of law, the Secretary of Agriculture may not charge an origination fee with respect to any credit guarantee transaction under the Export Credit Guarantee Program (GSM-102) in excess of an amount equal to one-third of one percent of the credit extended under the transaction.

COOPERATOR MARKET DEVELOPMENT PROGRAM

SEC. 1124. (a) It is the sense of Congress that the cooperator market development program of the Foreign Agricultural Service should be continued to help develop new markets and expand and maintain existing markets for United States agricultural commodities, using nonprofit agricultural trade organizations to the maximum extent practicable.

(b) The cooperator market development program shall be exempt from the requirements of Circular A 110 issued by the Office of Management and Budget.

DEVELOPMENT AND EXPANSION OF MARKETS FOR UNITED STATES AGRICULTURAL COMMODITIES

SEC. 1125. (a)(1) Notwithstanding any other provision of law, effective for the period provided in subsection (h), the Secretary of Agriculture shall formulate and carry out a program under which agricultural commodities acquired by the Commodity Credit Corporation are provided to United States exporters, processors, or foreign purchasers, at no cost or reduced cost, to encourage the development and expansion of export markets for United States agricultural commodities.

(2)(A) The term "agricultural commodities", as used in this section in referring to United States agricultural commodities, includes, but is not limited to—

(i) wheat, feed grains, upland cotton, rice, soybeans, and dairy products produced in the United States;

(ii) any other agricultural commodity produced in the United States that is determined by the Secretary of Agriculture to be in surplus supply and that can be purchased with funds available under section 32 of the Act entitled "An Act to amend the Agricultural Adjustment Act, and for other purposes", approved August 24, 1935; and

(iii) products of the commodities and products described in clauses (i) and (ii) that are processed in the United States.

(B) United States agricultural commodities, as described in clause (ii) of subparagraph (A), may not be purchased with funds available under section 32 of the Act entitled "An Act to amend the Agricultural Adjustment Act, and for other purposes", approved August 24, 1935, for the sole purpose of use under the program under this section; and such commodities, or products thereof, may not be furnished to United States exporters, processors, or foreign purchasers under the program under this section except by mutual agreement of such exporter, processors, or purchaser and the Secretary.

(3) The Secretary of Agriculture—

"(A) shall provide agricultural commodities or cash, or both, under the program to the extent necessary, as determined by the Secretary,

(i) to counter or offset the adverse effect on United States exports of an agricultural commodity of export subsidies used by other countries to promote sales of that agricultural commodity, and

(ii) to reduce to world price levels, as determined by the Secretary, the cost to exporters (including the cost of acquisition, handling, and an amount that reflects a fair return to such exporters) of grain purchased for export by such exporters and accompanied by a marketing certificate as provided under title V of the Agricultural Act of 1949, and

(B) may provide agricultural commodities under the program—

(i) to compensate, in whole or in part, for the high value of the United States dollar relative to other currencies, to increase the competitiveness of United States agricultural commodities in world markets;

(ii) to compensate, in whole or in part, overseas purchasers that buy United States agricultural commodities on credit for any increases in the value of the United States dollar while such credit is outstanding;

(iii) to offset, in whole or in part, interest charges that accrue on credit purchases of United States agricultural commodities by export customers;

(iv) to offset, in whole or in part, transportation charges involved in the export of United States agricultural commodities;

(v) in barter or countertrade transactions in which United States agricultural commodities are exported in exchange for other commodities or products;

(vi) for overseas sale to obtain foreign currencies to finance overseas trade offices for the use and benefit of United States exporters and commodity groups working to expand exports of United States agricultural commodities; and

(vii) for any other comparable purpose that the Secretary determines appropriate to expand United States agricultural exports and ensure competitiveness in world markets for United States agricultural commodities.

(b) In carrying out the program established by this section, the Secretary of Agriculture—

(1) shall take such action as may be necessary to ensure that the program provides equal treatment to domestic and foreign purchasers and users of United States agricultural commodities in any case in which the importation into the United States of a manufactured product made, in whole or in part, from an agricultural commodity provided for export under the program would place domestic users of the agricultural commodity at a competitive disadvantage;

(2) may provide to a United States exporter, processor, or foreign purchaser, under the program, agricultural commodities of a kind different than the agricultural commodity involved in the transaction for which assistance under this section is being provided;

(3) may purchase, through the Commodity Credit Corporation, agricultural commodities for use under the program if Commodity Credit Corporation stocks are insufficient or not available for use under the program;

(4) shall consider for participation in the program all interested foreign purchasers, including those who have traditionally purchased United States agricultural commodities and who continue to purchase such commodities on an annual basis in quantities greater than the level of purchases in a previous representative period;

(5) shall ensure, insofar as possible, that any use of agricultural commodities made available under this section be made in such manner as to encourage increased use and avoid displacing usual marketings of United States agricultural commodities; and

(6) shall take reasonable precautions to prevent the resale or transshipment to other countries, or use for other than domestic use in the importing country, of agricultural commodities provided under this section.

(c) The Secretary of Agriculture shall carry out the program established by this section through the Commodity Credit Corporation.

(d) Any price restrictions that otherwise may be applicable to dispositions of agricultural commodities owned by the Commodity Credit Corporation shall not apply to agricultural commodities provided under this section.

(e)(1) In carrying out barter and countertrade transactions, as authorized under subsection (a)(3), the Secretary of Agriculture may acquire and hold strategic or other materials that the United States does not domestically produce in amounts sufficient for its requirements and for which national stockpile or reserve goals established by law are unmet, giving priority to materials that entail less risk of loss through deterioration and have lower storage costs than the agricultural commodities they replace. Each agency of the United States Government that procures strategic or other materials acquired under any such transaction shall reimburse the Commodity Credit Corporation for such procurement and otherwise cooperate with the Secretary in the conduct of the transaction.

(2) In addition to holding strategic and other materials to which title is acquired under such barter or countertrade transactions, the Secretary may (A) hold in storage strategic and other materials of the sort to which title may be so acquired even though it has not been (and impose a charge for costs incurred in storing such materials), and (B) issue negotiable warehouse receipts for such materials so stored to permit the use of such materials as collateral to secure loans to finance the export of United States agricultural commodities.

(f)(1) Except as otherwise expressly provided in this section, the Secretary of Agriculture shall aggressively administer the program under this section solely to develop and expand exports of United States agricultural commodities and maximize the total dollar return on such exports.

(2) The program under this section shall not be used to expand exports (A) to any country with which the United States does not have full diplomatic relations, except that the foregoing shall not be construed as preventing the Secretary from carrying out the program with the people of Taiwan under the provisions of the Taiwan Relations Act or (B) to any country against which an embargo on the export of United States agricultural commodities has been imposed by the President under law.

(3) The program under this section shall not be used to promote any goal of foreign policy of the United States other than those goals set forth in paragraph (1).

(g) Not later than March 1 of the second calendar year beginning after the date of the enactment of this Act, the Secretary of Agriculture shall report to Congress on the exports from the United States of agricultural commodities to each foreign country during the calendar years 1979 through 1982 and to each foreign country during the immediately preceding calendar year, and on the exports to each such country during the immediately preceding calendar year of agricultural commodities made available under the program under this section. The report shall also include, for the same time periods, information on exports to each such country of agricultural commodities produced outside the United States that are used for the same or similar purposes as exports of agricultural commodities to such country from the United States. For the purpose of the report, exports shall be listed by kind, value, and quantity, and for exports of agricultural commodities produced outside the United States, the country of origin shall be provided.

(h) The program under this section shall be in operation only during the marketing years for the 1985 through 1990 crops of agricultural commodities produced in the United States.

(i) The Secretary of Agriculture shall issue such regulations as are necessary to implement the provisions of this section, after consultation with the United States Trade Representative, not later than 60 days after the date of enactment of this Act.

(j) The program established under this section shall be in addition to, and not in place of, any authority granted to the Secretary of Agriculture or the Commodity Credit Corporation under any other provision of law.

EXPORT ADVISORY COUNCIL

SEC. 1126. (a) There is established an Export Advisory Council to advise the Secretary of Agriculture and the United States Trade Representative on how best to use the agricultural export development and expansion program established under section 1125.

(b) The Export Advisory Council shall be composed of the Secretary of Agriculture, the United States Trade Representative, and 12 other persons selected and appointed as follows:

(1) The Chairman and the ranking minority member of the Committee on Agriculture of the House of Representatives each shall appoint three members to the Council; and the Chairman and the ranking minority member of the Committee on Agriculture, Nutrition, and Forestry of the Senate each shall appoint three members to the Council; and

(2) The 12 members so appointed shall be selected from among persons with experience and skills in world trade in agricultural commodities and products thereof.

(c) The members of the Export Advisory Council shall be appointed not later than 60 days after the date of enactment of this Act. A vacancy in the membership of the Council shall be filled in the same manner as the original appointment.

(d)(1) Each member of the Export Advisory Council who is not otherwise a fulltime employee of the Federal Government shall receive for each day such member is engaged in the performance of the functions of the Council the daily equivalent of the annual rate of basic pay payable for level V of the Executive Schedule under section 5316 of title 5 of the United States Code.

(2) Each member of the Council shall be reimbursed for actual and necessary travel expenses incurred while away from such member's home or regular place of business and engaged in the performance of the functions of the Council in the same manner and to the same extent as provided under section 5703 of title 5 of the United States Code.

(e) The Secretary of Agriculture shall chair the Export Advisory Council, except that, in the Secretary's absence, the United States Trade Representative shall chair the Council.

(f) The Export Advisory Council shall meet not less frequently than once every two months. The Council shall review in detail the functioning of the agricultural export development and expansion program under section 1123, including any proposal (whether or not acted on) for use of the program that has been submitted to the Secretary, and make such recommendations for improvements in the operations of the program as the Council deems appropriate.

(g) The Export Advisory Council shall report semiannually to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives on the state of the program under section 1123 and its operations. Each member of the Council shall have the opportunity to review each such report before its submission to the Committees and to have appended to the report, as an addendum, any comments such member may make on the report or on the operations of the program.

(h) On request of the Export Advisory Council, the Secretary of Agriculture shall furnish the Council with such personnel and support services as are necessary to assist the Council in carrying out its duties and functions.

(i) The term of the Export Advisory Council shall expire at the time that the agricultural export development and expansion program under section 1125 ceases operation.

AGRICULTURAL EXPORT CREDIT REVOLVING FUND

SEC. 1127. Section 4(d) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(d)) is amended by—

(1) in paragraph (1)(A), striking out "three" and inserting in lieu thereof "ten";

(2) in paragraph (2), striking out all that follows "fund" and inserting in lieu thereof the following: "to extend credit for purposes of market development and expansion and to meet credit competition for export sales.";

(3) striking out the second sentence of paragraph (4), and inserting in lieu thereof the following: "All funds received by the Corporation in payment for direct credit extended by the Corporation after September 30, 1985, including interest or other receipts on investments and credit obligations, in financing export sales shall be added to and become a part of such revolving fund.";

(4) striking out "1985" both places it appears in paragraph (6) and inserting in lieu thereof "1990"; and

(5) striking out paragraph (8).

INTERMEDIATE CREDIT FOR AGRICULTURAL EXPORTS

SEC. 1128. Section 4(b) of the Food for Peace Act of 1966 (7 U.S.C. 1707a(b)) is amended by—

(1) adding at the end of paragraph (1) the following: "Such financing may consist of the provision of direct credit or guaranteeing the repayment of loans made by entities other than the Corporation to finance such sales.";

(2) in paragraph (2)—

(A) striking out "or" at the end of clause (A);

(B) striking out the period at the end and inserting in lieu thereof "; or"; and

(C) adding at the end thereof the following:

"(C) otherwise promote the export of United States agricultural commodities.";

(3) in paragraph (3)—

(A) striking out "and" at the end of clause (C);

(B) striking out "credit" in clause (D);

(C) striking out the period at the end and inserting in lieu thereof "; and"; and

(D) adding at the end thereof the following:

"(E) otherwise to promote the export of United States agricultural commodities.";

(4) in paragraph (4), striking out "to encourage credit competition, or";

(5) in paragraph (5)—

(A) inserting "through the provision of direct credit" after "subsection"; and

(B) amending paragraph (A) to read as follows:

"(A) Repayment shall be in dollars with interest at a rate determined by the Secretary, except that the Secretary may permit a purchaser to make repayment in other currencies of a portion—not to exceed 10 per centum—of the principal and interest payments under any financing arrangement entered into under paragraph (3)(C), and the Secretary may use such portion of the principal and interest payments for the purpose of developing markets for agricultural products of the United States in the purchaser's country, in cooperation with the private sector."; and

(6) inserting at the end thereof the following:

"(10) The Secretary shall make available for the financing of transactions under this subsection not less than $500,000,000 for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990, of which not less than $150,000,000 shall be available, for each such fiscal year, for financing arrangements entered into under paragraph (3)(C). Not less than 25 per centum of the funds provided in any fiscal year for the financing of transactions under this subsection shall be made available for financing that consists of the provision of direct credit.".

MARKET EXPANSION RESEARCH

SEC. 1129. The Secretary of Agriculture, using available funds, shall increase and intensify research programs conducted by or for the Department of Agriculture that are

directed at developing technology to overcome barriers to expanded sales of United States agricultural commodities and the products of such commodities in foreign markets, including research programs for the development of procedures to meet plant quarantine requirements and improvement in the transportation and handling of perishable agricultural commodities.

EXPORT SUBSIDY REPORTS

SEC. 1130. (a) Congress finds that—

(1) aggressive trading practices on the part of foreign competitors are eroding the sales of United States agricultural commodities and the products of such commodities in traditional foreign markets of the United States and are inhibiting the expansion of sales of such commodities and products in other foreign markets;

(2) export subsidies by foreign governments have severely undercut the sale of United States agricultural commodities and products in Third World country markets; and

(3) accurate, adequate, and current data on the nature and extent of such subsidies have not been readily available to appropriate United States officials or to agricultural sectors in the United States affected by such subsidies.

(b) The Secretary of Agriculture shall require appropriate officers and employees of the Department of Agriculture stationed in foreign countries to prepare and submit annually, directly to the Secretary, detailed information documenting the nature and extent of programs in such countries that provide direct government support for the export of agricultural commodities and the products of such commodities. The Secretary shall also require such reports to identify opportunities for the export of United States agricultural commodities and the products of such commodities to the foreign countries in which the officers and employees are stationed.

(c) The Secretary of Agriculture shall compile the information contained in the reports each year and make such information available to Congress and to other interested parties.

CONTRACT SANCTITY

SEC. 1131. It is hereby declared to be the policy of the United States—

(1) to foster and encourage the export of agricultural commodities and the products of such commodities;

(2) not to restrict or limit the export of such commodities and products except under the most compelling circumstances;

(3) that any prohibition or limitation on the export of such commodities or products should be imposed only in time of a national emergency declared by the President under the Export Administration Act; and

(4) that contracts for the export of such commodities or products entered into before the imposition of any prohibition or limitation on the export of such commodities or products should not be abrogated.

Subtitle D—Transportation Charges For Waterborne Cargoes of Donated Commodities

EFFECT ON OTHER LAWS

SEC. 1141. Nothing in this Act shall be construed as exempting export activities from the cargo preference laws except to the extent those activities were exempt under Public Law 95-501 (7 U.S.C. 1707a(b)) before September 13, 1985.

Subtitle E—Agricultural Imports

CONSULTATIONS ON IMPORT RESTRICTIONS

SEC. 1151. Before relaxing or removing a restriction on the importation of an agricultural commodity into the United States, the authority within the Department of Agriculture proposing that relaxation or removal shall consult with all other appropriate authorities within the Department of Agriculture, including the Foreign Agricultural Service and the Animal and Plant Health Inspection Service.

STUDY

SEC. 1152. (a) The Secretary of Agriculture, in conjunction with the United States Trade Representative, not later than 120 days after the date of enactment of this Act, shall complete a study to determine—

(1) the effect of apricot imports into the United States on the domestic apricot industry; and

(2) the extent and nature of apricot subsidies existing in the countries from which such apricot imports are derived.

(b) The Secretary shall report the results of the study conducted under subsection (a), as soon as the study is completed, to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

FINDINGS

SEC. 1153. Congress finds that—

(1) world trade in agricultural commodities has stagnated in recent years, and at the same time the United States has lost a considerable portion of its market share of such trade;

(2) since 1981 the decline in exports of United States agricultural commodities has amounted to a reduction of $10,000,000,000 and twenty-five million tons, a reduction of some 25 per centum in the export contribution to farm income;

(3) in part as a result of the loss of export markets, the farm economy in the United States has been in serious economic distress that has reached beyond the farmer and affected the businesses that serve the farmer and the entire economy of rural America as well;

(4) an increase in world trade in agricultural commodities and in the United States' share of such trade is essential to a healthy farm economy, since exports have accounted for over one-third of the demand for agricultural commodities;

(5) the reduction in exports is attributable to a number of factors, including, among others, the high value of the dollar, unfair trading practices used by other countries to the detriment of the United States, and severe financial problems in many developing countries that have restricted the purchasing power in those countries;

(6) there are many legislative authorities available to the United States that, if used creatively, could reverse this trend in exports and make a major long-term contribution toward increasing exports of agricultural commodities—authorities in existing law and new authorities provided under this Act;

(7) these authorities include programs to make commercial exports more competitive in world markets with exports of other countries, to develop new commercial markets, and to offset unfair trading practices of third countries, as well as programs to provide food assistance to developing countries to help their economies grow so that they may become larger markets for United States exports of agricultural commodities;

(8) the countries with the greatest potential for long-term growth in United States agricultural exports are the developing nations where three-fourths of the world's people live, many of them chronically hungry and subject to food emergencies. These are also countries where increased incomes readily translate into increased food and fiber consumption;

(9) the crisis in rural America calls for new initiatives on the part of the United States to apply long-range sustained planning in the use of its exports and food aid authorities that would enable this Nation to make maximum use of its agricultural and related resources;

(10) to accomplish these objectives, it is essential to identify those countries that have the greatest long-term economic growth potential, to treat each country as a unique market, and to coordinate and integrate the legislative authorities available to the United States in a manner that addresses the specific need of each country; and

(11) it is necessary for the President to appoint a Special Assistant for Agricultural Exports and Food Aid to provide improved long-term coordination and planning of efforts among United States Government agencies administering the commercial and foreign assistance programs and to provide integrated direction for these programs.

SPECIAL ASSISTANT FOR AGRICULTURAL EXPORTS AND FOOD AID

SEC. 1154. (a) In order to implement the findings set forth in section 1153, the President shall appoint, with the advice and consent of the Senate, a Special Assistant for Agricultural Exports and Food Aid, who shall hold office at the pleasure of the President, and shall have the rank of Ambassador. The Special Assistant for Agricultural Exports and Food Aid shall report directly to the President and the Congress.

(b) The Special Assistant for Agricultural Exports and Food Aid shall have overall responsibility for developing and coordinating a long-term international agricultural policy for utilizing the agricutural and related resources of the United States and its export and food aid programs in maximizing exports of agricultrual commodities and products thereof consistent with economic and humanitarian objectives, and preparing reports as provided in subsection (c). The Special Assistant shall coordinate activities as provided under this section in consultation with the Secretary of Agriculture, the Secretary of State, the United States Trade Representative, and the Administrator of the Agency for International Development.

(c) Not later than one year after the date of enactment of this Act, the Special Assistant for Agricultural Exports and Food Aid shall submit to the President and the Congress a report that—

(1) contains a global analysis that evaluates future production and food needs in the world, with special attention to the developing countries;

(2) identifies a minimum of fifteen target countries that are most likely to emerge as growth markets for agricultural commodities and products thereof in the next five to ten years; and

(3) contains a detailed plan for using available export and food aid authorities to increase United States exports of agricultural commodities and products thereof to each of such target countries, and specifies the particular export and food aid authorities to be used in each such country and the manner in which such authorities are to be used. Each year thereafter the Special Assistant shall submit a revised report to the

President and the Congress that evaluates the progress made in implementing the plan, contains any changes that need to be made in the plan based on changed conditions, and recommends any changes in legislative authorities that are needed to accomplish the objectives of this section.

(d) The Special Assistant for Agricultural Exports and Food Aid may for the purpose of carrying out functions under this section—

(1) subject to the civil service and classification laws, appoint, employ, and fix the compensation of such officers and employees as are necessary, but not to exceed fifteen full-time employees, and prescribe their authority and duties;

(2) employ experts and consultants in accordance with section 3109 of title 5, United States Code, and compensate individuals so employed for each day (including travel time) at rates not in excess of the maximum rate of pay for grade GS-18 as provided in section 5332 of title 5, United States Code, and while such experts and consultants are so serving away from their homes or regular places of business, to pay such employees travel expenses and per diem in lieu of subsistence at rates authorized by section 5703 of title 5, United States Code, for persons in Government service intermittently employed;

(3) utilize, with their consent, the services, personnel and facilities of other Federal agencies;

(4) enter into and perform such contracts, leases, cooperative agreements, or other transactions as may be necessary in the conduct of the work under this section and on such terms as the Special Assistant may deem appropriate, with any agency or instrumentality of the United States, or with any public or private person, firm, association, corporation, or institution;

(5) accept voluntary and uncompensated services, notwithstanding the provisions of section 1342 of title 31, United States Code; and

(6) promulgate such rules and regulations as may be necessary to carry out the functions, powers, and duties vested in the Special Assistant.

(e) Effective October 1, 1985, there are authorized to be appropriated to the Office of the Special Assistant for Agricultural Exports and Food Aid for each fiscal year such sums as are necessary to carry out the provisions of this section.

TITLE XII—RESOURCE CONSERVATION

Subtitle A—Conservation of Highly Erodible Land and Wetlands

DEFINITIONS

SEC. 1201. As used in this subtitle—

(1) the term "agricultural commodity" means any agricultural commodity planted and produced by annual tilling of the soil, or on an annual basis by one-trip planters;

(2) the term "conservation district" means any district or unit of State or local government formed under State or territorial law for the express purpose of developing and carrying out a local soil and water conservation program, whether referred to as a conservation district, soil conservation district, soil and water conservation district, resource conservation district, natural resource district, land conservation committee, or by any similar name;

(3) the term "wetland", except when such term is part of the term "converted wetland", means land that has a predominance of hydric soils and that is inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of hydrophytic vegetation typically adapted for life in saturated soil conditions;

(4) the term "converted wetland"—

(A) means wetland that has been drained, dredged, filled, leveled, or otherwise manipulated (including any activity that results in impairing or reducing the flow, circulation, or reach of water) for the purpose or to have the effect of making the production of agricultural commodities possible if—

(i) such production would not have been possible but for such action; and

(ii) before such action—

(I) such land was wetland; and

(II) such land was neither highly erodible land nor highly erodible cropland, as defined in this section; but

(B) does not include—

(i) artificial lakes, ponds, or wetland created by excavating or diking non-wetland to collect and retain water for purposes such as water for livestock, fish production, irrigation, settling basins, cooling, rice production, or flood control;

(ii) wet areas created by water delivery systems or the application of water for irrigation;

(iii) wetland on which production of agricultural commodities is possible as a result of natural conditions, such as drought, and without actions by the producer that destroy natural wetland characteristics; or

(iv) wetland on which such production is possible as a result of actions by the producer whose cumulative and individual effect on the hydrological and biological values of the wetlands is minimal, as determined by the Secretary under regulations prescribed by the Secretary in consultation with the Secretary of the Interior;

(5) the term "field" means that term as defined in section 718.2 of title 7 of the Code of Federal Regulations, except that—

(A) any highly erodible land and any converted wetland on which an agricultural commodity is produced after the date of the enactment of this Act and that is not exempt under section 1203 shall be considered as part of the field in which such land was included on that date of enactment; and

(B) the Secretary shall provide for modification of the boundaries of fields to effectuate the purposes and facilitate the practical administration of this subtitle;

(6) the term "highly erodible land" means land—

(A) that is classified by the Soil Conservation Service of the Department of Agriculture as class IVe, VI, VII, or VIII land under the land capability classification system in effect on the date of the enactment of this Act; or

(B) that, if used to produce an agricultural commodity, would have an excessive average annual rate of erosion in relation to the soil loss tolerance level, as established by the Secretary, and as determined by the Secretary through application of factors from the universal soil loss equation and the wind erosion equation, including factors for climate, soil erodibility, and field slope;

and, for the purposes of this paragraph, the land capability class or rate of erosion for a field shall be that determined by the Secretary to be the predominant class or rate of erosion under regulations issued by the Secretary;

(7) the term "highly erodible cropland" means highly erodible land that is in cropland uses, as determined by the Secretary; and

(8) the term "Secretary" means the Secretary of Agriculture.

PROGRAM INELIGIBILITY FOR PRODUCTION ON HIGHLY ERODIBLE LAND OR CONVERTED WETLAND

SEC. 1202. (a) Except as provided in section 1203 and notwithstanding any other provision of law, following the date of the enactment of this Act any person who in any crop year produces an agricultural commodity on highly erodible land or on converted wetland shall be ineligible, as to any commodity produced during that crop year by such person, for—

(1) any type of price support or payments made available under the Agricultural Act of 1949, the Commodity Credit Corporation Charter Act, or any other Act;

(2) a farm storage facility loan under section 4(h) of the Commodity Credit Corporation Charter Act;

(3) crop insurance under the Federal Crop Insurance Act;

(4) a disaster payment under the Agricultural Act of 1949; or

(5) a loan made, insured, or guaranteed under the Consolidated Farm and Rural Development Act or any other provision of law administered by the Farmers Home Administration, if the Secretary determines that such loan will be used for a purpose that will contribute to excessive erosion of highly erodible land, or conversion of wetlands (other than as provided in this section) to produce agricultural commodities.

(b) The Secretary shall issue regulations defining the term "person" and prescribing rules to govern determinations of persons who shall be ineligible for program benefits under this section so as to ensure fair and reasonable determination of ineligibility, including regulations that protect the interests of landlords, tenants, and sharecroppers. The ineligibility under subsection (a) of a tenant or sharecropper for benefits shall not cause a landlord to be ineligible for benefits for which the landlord would otherwise be eligible with respect to commodities produced on wetlands other than those operated by the tenant or sharecropper.

EXEMPTIONS

SEC. 1203. (a) No person shall become ineligible for program loans, payments, and benefits, as provided under section 1202, as the result of the production of a crop of an agricultural commodity—

(1) except as otherwise provided in section 1205(m), on any land that was cultivated to produce any of the 1981 through 1985 crops of agricultural commodities or that was set aside, diverted, or otherwise not cultivated under provisions of a Department of Agriculture program for any such crops to reduce production of an agricultural commodity;

(2) planted before the date of the enactment of this Act;

(3) planted during any crop year beginning before the date of the enactment of this Act;

(4) on highly erodible land in an area—

(A) within a conservation district, under a conservation system that has been approved by the conservation district after it has been determined that the conservation system is in conformity with technical standards set forth in the Soil Conservation Service technical guide for that conservation district; or

(B) not within a conservation district, under a conservation system determined by the Secretary to be adequate for the production of an agricultural commodity on highly erodible land;

(5) on highly erodible land that is planted in reliance on the determination by the Soil

Conservation Service that the land is not highly erodible land, but the exemption under this paragraph shall not apply to any crop that was planted on any land after the Soil Conservation Service determines that the land is highly erodible land;

(6) on converted wetland if the land became converted wetland before the date of the enactment of this Act; or

(7) on wetland that became converted wetland—

(A) within a conservation district, in accordance with a wetland conservation plan that has been approved by the conservation district under regulations prescribed by the Secretary in consultation with the Secretary of the Interior acting through the United States Fish and Wildlife Service; or

(B) not within a conservation district, in accordance with a wetland conservation plan that has been approved by the Secretary under regulations prescribed by the Secretary in consultation with the Secretary of the Interior acting through the United States Fish and Wildlife Service.

(b) Section 1202 shall not apply to any loan made before the date of the enactment of this Act.

COMPLETION OF SOIL SURVEYS

SEC. 1204. The Secretary shall, as soon as practicable, complete soil surveys on those private lands that do not have a soil survey suitable for use in determining the land capability class for purposes of this subtitle, and, insofar as possible, concentrate on those localities where significant amounts of highly erodible land are being converted to the production of agricultural commodities.

CONSERVATION RESERVE PROGRAM

SEC. 1205. (a) Notwithstanding any other provision of law, the Secretary shall formulate and carry out a program, in accordance with this section, of contracts with owners and operators of highly erodible cropland to assist them in conserving and improving the soil and water resources of their farms or ranches. Under the program, the Secretary shall not place under contract more than 25 percent of the cropland in any one county.

(b)(1) To carry out this section, except as otherwise provided in paragraph (2), during the period beginning October 1, 1985, and ending September 30, 1990, the Secretary shall enter into conservation reserve contracts, covering in the aggregate not in excess of 20 million acres of highly erodible cropland, with owners and operators of highly erodible cropland. Each such contract under this subsection shall be not less than ten years in duration; and in each such contract, the owner and operator shall agree to—

(A) effectuate during the contract period a plan approved by the local conservation district (or, in an area not within a conservation district, a plan approved by the Secretary) or, if the plan involves conversion to trees, a plan approved by the appropriate State forestry agency, for converting highly erodible cropland normally devoted to the production of an agricultural commodity on the farm or ranch into a less intensive use, such as pasture, permanent grass or legumes, forbs, shrubs, or trees, substantially in accordance with the schedule outlined therein, except to the extent that any requirements thereof are waived or modified by the Secretary;

(B) forfeit all rights to further payments under the contract and refund to the United States all payments, with interest, received thereunder on the violation of the contract at any stage during the time the owner or operator has control of the land if the Secretary, after considering the recommendations of the soil conservation district and the Soil Conservation Service, determines that the violation is of such a nature as to warrant termination of the contract, or make refunds or accept such payment adjustments as the Secretary may deem appropriate if the Secretary determines that the violation by the owner or operator does not warrant termination of the contract;

(C) on transfer of the owner's or operator's right and interest in the farm or ranch during the contract period, forfeit all rights to further payments under the contract and refund to the United States all payments received thereunder, or accept such payment adjustments or make such refunds as the Secretary may deem appropriate and consistent with the objectives of this section, unless the transferee agrees with the Secretary to assume all obligations under the contract;

(D) not conduct, during the term of the contract, any harvesting or grazing nor otherwise make commercial use of the forage on land that is subject to the contract, nor adopt any similar practice specified in the contract by the Secretary as a practice that would tend to defeat the purposes of the contract, except that the Secretary may permit harvesting or grazing or other commercial use of the forage on land that is subject to the contract in response to a drought or other similar emergency;

(E) not conduct, during the term of the contract, any planting of trees on land that is subject to the contract unless the contract specifies that the harvesting and commercial sale of such trees as Christmas trees is prohibited, nor otherwise make commercial use of trees on land that is subject to the contract unless it is expressly permitted in the contract, nor adopt any similar practice specified in the contract by the Secretary as a practice that would tend to defeat the purposes of the contract. No contract shall prohibit activities consistent with customary forestry practice, such as pruning, thinning (including, but not limited to, thinning that results in commercial pulpwood and fence post harvesting), or stand improvement of trees, on lands converted to forestry use; and

(F) such additional provisions as the Secretary determines are desirable and are included in the contract to effectuate the purposes of the program or to facilitate the practical administration thereof.

(2) Notwithstanding any provision of paragraph (1) that is inconsistent with this paragraph, as a part of the program, in addition to the conservation reserve contracts provided for under paragraph (1), the Secretary shall remove up to 5 million additional acres of highly erodible cropland from production through long-term conservation reserve contracts, of up to 10 years in duration, with the owners and operators of such cropland. Contract payments made to the owners and operators of highly erodible cropland under this paragraph shall be made in surplus agricultural commodities held by the Commodity Credit Corporation, except that, if the Secretary determines that sufficient stocks of commodities will not be available or that payment in commodities under this paragraph will have a depressing effect on the market price of such commodities, the Secretary may make such payments in cash.

(c) The plan, as described in subsection (b)(1)(A), for converting highly erodible cropland normally devoted to the production of agricultural commodities on a farm or ranch to a less intensive use shall set forth the conservation measures and practices to be installed by the owner or operator during the contract period and the commercial use, if any, to be made of the land during such period and may provide for the permanent retirement of any existing cropland base and allotment history for the land.

(d)(1)(A) In return for such agreement by the owner and operator, the Secretary shall agree to—

(i) provide technical assistance;

(ii) share the cost of carrying out the conservation measures and practices set forth in the contract for which the Secretary determines that cost-sharing is appropriate and in the public interest; and

(iii) pay an annual land rental fee, for a period of years not in excess of the duration of the contract, necessary for converting highly erodible cropland normally devoted to the production of an agricultural commodity on the farm or ranch to a less intensive use and necessary for obtaining the retirement of any cropland base and allotment history that the owner and operator agree to retire permanently.

(B) The Secretary shall provide payment to each contracting party—

(i) with respect to any cost-share payment obligation incurred by the Secretary under the contract, as soon as possible after the obligation is incurred; and

(ii) with respect to any annual land rental fee obligation incurred by the Secretary under the contract, as soon as practicable after October 1 of each calendar year, except that the Secretary, at the Secretary's discretion, may pay any such fee prior to such date at any time during the year that the obligation is incurred.

(2) A reduction, based on a ratio between the total cropland acreage on the farm and the acreage placed in the conservation reserve, as determined by the Secretary, shall be made during the period of the contract in crop bases, quotas, and allotments with respect to crops for which there is a production adjustment program.

(3) No persons who enter into a contract under this section for a farm or ranch may receive annual rental fees applicable to the farm or ranch under the contract in excess of $50,000 per year. The Secretary shall issue regulations defining the term "persons", as used in this paragraph, and prescribing such rules as the Secretary determines necessary to ensure a fair and reasonable application of the limitation contained in this paragraph; and the rules for determining whether corporations and their stockholders may be considered as separate persons shall be in accordance with the regulations issued by the Secretary on December 18, 1970, under section 101 of the Agricultural Act of 1970.

(e) The Secretary shall pay 50 per centum of the cost of installing, and maintaining for the normally expected lifespan, conservation measures and practices set forth in contracts under this section for which the Secretary determines that cost-sharing is appropriate and in the public interest.

(f)(1) In determining the amount of annual land rental to be paid for converting highly erodible cropland normally devoted to the production of an agricultural commodity to less intensive use, the Secretary may consider, among other things, the amount necessary to encourage owners and operators of highly erodible cropland to participate in the program under this section. The total amount payable to owners and operators in the form of annual land rental

fees under contracts entered into under this section may be determined through the submission of bids in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate.

(2) In determining the acceptability of contract offers, the Secretary may take into consideration the extent of erosion on the land that is the subject of the contract and the productivity of the acreage diverted and may, where appropriate, accept contract offers that provide for the establishment of—

(A) shelterbelts and windbreaks; or

(B) permanently vegetated stream borders, filter strips of permanent grass, forbs, shrubs, and trees that will reduce sedimentation substantially.

(g) Except as otherwise provided in this section, payments under this section—

(1) shall be made in cash or in commodities in such amount and on such time schedule as agreed on and specified in the contract; and

(2) may be made in advance of determination of performance.

(h) If a person who is entitled to any payment or compensation under this section dies, becomes incompetent, or disappears before receiving the payment or compensation, or is succeeded by another who renders or completes the required performance, the Secretary shall make or provide the payment or compensation, in accordance with appropriate regulations and without regard to any other provisions of law, in such manner as the Secretary determines to be fair and reasonable in light of all the circumstances.

(i)(1) No contract shall be entered into under this section concerning land with respect to which the ownership has changed in the three-year period preceding the first year of the contract period unless—

(A) the new ownership was acquired by will or succession as a result of the death of the previous owner;

(B) the new ownership was acquired before January 1, 1985; or

(C) the Secretary determines that the land was acquired under circumstances that give adequate assurance that such land was not acquired for the purpose of placing it in the program.

(2) Paragraph (1) shall not prohibit the continuation of an agreement by a new owner after an agreement has been entered into under this section, nor require a person to own the land as a condition of eligibility for entering into the contract if the person has operated the land to be covered by a contract under this section for at least three years preceding the date of the contract or since January 1, 1985, whichever is later, and controls the land for the contract period.

(j) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers, including provision for sharing, on a fair and equitable basis, in payments under the program.

(k) The Secretary may terminate any contract under this section by mutual agreement with the owner and operator if the Secretary determines that termination would be in the public interest, or may agree to any modification of contracts as the Secretary may determine to be desirable to carry out the purposes of this section or facilitate its administration, or to be in the public interest.

(l) Notwithstanding section 1202, the Secretary, by appropriate regulation, may provide for preservation of cropland base and allotment history applicable to acreage converted from the production of agricultural commodities under this section, for the purpose of any Federal program under which the history is used as a basis for participation in the program or for an allotment or other limitation in the program, unless the owner and operator agree under the contract to retire permanently that cropland base and allotment history.

(m) In the event of the termination of a contract under subsection (b)(1)(B) or (k) and on expiration of the term of any contract entered into under subsection (b), the highly erodible cropland that was the subject of such contract shall be considered highly erodible cropland for the purposes of section 1202.

(n) The Secretary may carry out the program under this section through the Commodity Credit Corporation. There are authorized to be appropriated, without fiscal year limitation, such sums as may be necessary to reimburse the Commodity Credit Corporation for any amounts expended by it in accordance with this section and not previously reimbursed.

(o) The Secretary shall consider for inclusion in the program under this section those lands that are not highly erodible lands but that pose an off-farm environmental threat or, if permitted to remain in production, pose a threat of continued degradation of productivity due to soil salinity.

ADMINISTRATIVE PROVISIONS

SEC. 1206. (a) In addition to the appropriations authorized under section 1205(n), there are hereby authorized to be appropriated such other sums as may be necessary to carry out this subtitle.

(b) In carrying out this subtitle, the Secretary shall use the services of local, county, and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act, and the technical services of the Soil Conservation Service, the Forest Service, State foresters or equivalent State officials, and conservation districts.

(c) The Secretary shall establish, by regulation, an appeal procedure under which a person who is adversely affected by any determination made under this subtitle may seek review of such determination.

(d) The Secretary shall, within 180 days after the enactment of this subtitle publish in the Federal Register such regulations as the Secretary determines desirable to implement this subtitle.

(e) The authority provided by this subtitle shall be in addition to and not in place of other authorities available to the Secretary and the Commodity Credit Corporation for carrying out soil and water conservation programs.

Subtitle B—Water Resource Conservation

TECHNICAL ASSISTANCE FOR WATER RESOURCES; REPORTS

SEC. 1211. (a) Notwithstanding any other provision of law, the Secretary of Agriculture may formulate plans and provide technical assistance to property owners and agencies of State and local governments and interstate river basin commissions, at their request, to—

(1) protect the quality and quantity of subsurface water including water in the Nation's aquifers,

(2) enable property owners to reduce their vulnerability to flood hazards that also may affect water resources, and

(3) control the salinity in the Nation's agricultural water resources.

(b) The Secretary shall submit by February 15, 1987, and the fifteenth day of February each year thereafter, to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate reports evaluating the plans and technical assistance authorized in subsection (a). Each such report shall include any recommendations as to whether the plan and assistance should be extended, and, if so, how they could be improved, and any other relevant information and data relating to costs and other elements of the plan or assistance that would be helpful to such Committees.

Subtitle C—Soil and Water Resources Conservation Act of 1977

SHORT TITLE

SEC. 1221. This subtitle may be cited as the "Soil and Water Resources Conservation Act Amendments of 1985".

EXTENSION OF THE ACT

SEC. 1222. The Soil and Water Resources Conservation Act of 1977 (16 U.S.C. 2001 et seq.) is amended by—

(1) amending section 5(d) to read as follows:

"(d) The Secretary shall conduct four comprehensive appraisals under this section, to be completed by December 31, 1979, December 31, 1985, December 31, 1995, and December 31, 2005, respectively. The Secretary may make such additional interim appraisals as the Secretary deems appropriate.";

(2) amending section 6(b) to read as follows:

"(b) The initial program shall be completed not later than December 31, 1979, and program updates shall be completed by December 31, 1987, December 31, 1997, and December 31, 2007, respectively.";

(3) amending section 7(a) to read as follows:

"SEC. 7. (a) At the time Congress convenes in 1980, 1986, 1996, and 2006, the President shall transmit to the Speaker of the House of Representatives and the President of the Senate the appraisal developed under section 5 of this Act and completed prior to the end of the previous year. At the time Congress convenes in 1980, 1988, 1998, and 2008, the President shall transmit to the Speaker of the House of Representatives and the President of the Senate the initial program or updated program developed under section 6 of this Act and completed prior to the end of the previous year, together with a detailed statement of policy regarding soil and water conservation activities of the United States Department of Agriculture.";

(4) striking out section 7(b) and redesignating section 7(c) as section 7(b); and

(5) amending section 10 to read as follows:

"SEC. 10. The provisions of this Act shall terminate on December 31, 2008.".

TITLE XIII—CREDIT

JOINT OPERATIONS

SEC. 1301. (a) Sections 302 and 311(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1922 and 1941(a), respectively) are each amended by—

(1) striking out "and partnerships" each place it appears after "corporations" and inserting ", partnerships, and joint operations" in lieu thereof;

(2) striking out ", and partnerships" each place it appears after "corporations" and inserting ", partnerships, and joint operations" in lieu thereof; and

(3) striking out "members, stockholders, or partners, as applicable," each place it appears and inserting "individuals" in lieu thereof.

(b) Section 343 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1991) is amended by—

(1) striking out "and" before "(6)"; and

(2) inserting before the period at the end thereof the following: ", and (7) the term 'joint operation' means a joint farming operation in which two or more farmers work together sharing equally or unequally land, labor, equipment, expenses, and income".

WATER AND WASTE DISPOSAL FACILITIES

SEC. 1302. Section 306(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)) is amended by—

(1) adding at the end of paragraph (2) the following:

"The Secretary shall fix the grant rate for each project in conformity with regulations issued by the Secretary that shall provide for a graduated scale of grant rates establishing higher rates for projects in communities that have lower community population and income levels, except that the grant rate shall be the maximum rate permitted under this paragraph for any project in a community that has—

"(A) a population of 1,500 or fewer inhabitants; and

"(B) a median household income level that does not exceed the higher of—

"(i) the poverty line established by the Office of Management and Budget, as revised under section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2)); or

"(ii) 80 per centum of the statewide nonmetropolitan median household income."; and

(2) adding at the end thereof the following:

"(16)(A) In providing financial assistance for water and waste disposal facilities under this section, the Secretary shall use a project selection system to determine which of the applicants for assistance meeting the basic requirements of this section shall be selected to receive assistance. The project selection system shall provide for the objective and uniform comparison of requests for assistance (in the form of preapplications) on the basis of relative need as reflected by factors to be determined by the Secretary.

"(B) The factors referred to in subparagraph (A) shall include—

"(i) low community median income;

"(ii) low population; and

"(iii) severity of health hazards resulting from inadequate provision for the reliable supply of potable water or from inadequate means of disposing of waste.

"(C) The three factors set forth in subparagraph (B) shall—

"(i) be weighted equally; and

"(ii) account for not less than 75 per centum of the total rating points in the project selection system.

"(17)(A) The Secretary may make grants to private nonprofit organizations for the purpose of enabling them to provide to associations described in paragraph (1) of this subsection technical assistance and training to—

"(i) identify, and evaluate alternative solutions to, problems relating to the obtaining, storage, treatment, purification, or distribution of water or the collection, treatment, or disposal of waste in rural areas;

"(ii) prepare applications to receive financial assistance for any purpose specified in paragraph (2) of this subsection from any public or private source; and

"(iii) improve the operation and maintenance practices at any existing works for the storage, treatment, purification, or distribution of water or the collection, treatment, or disposal of waste in rural areas.

"(B) In selecting recipients of grants to be made under subparagraph (A), the Secretary shall give priority to private nonprofit organizations that have experience in providing the technical assistance and training described in subparagraph (A) to associations serving rural areas in which residents have low income and in which water supply systems or waste facilities are unhealthful.

"(C) Not less than 2 per centum of any funds provided in appropriations acts to carry out paragraph (2) of this subsection for any fiscal year shall be reserved for grants under subparagraph (A) unless the applications, qualifying for grants, received by the Secretary from eligible nonprofit organizations for the fiscal year total less than 2 per centum of those funds.

"(18) In the case of water and waste disposal facility projects serving more than one separate rural community, the Secretary shall use the median population level and the community income level of all the separate communities to be served in applying the standards specified in paragraphs (2) and (16) of this subsection and section 307(a)(3)(A).

"(19) The Secretary may make grants, aggregating not to exceed $10,000,000 in any fiscal year, to associations described in paragraph (1) of this subsection to test cost-effective methods of meeting the basic needs of rural residents who do not have and cannot afford safe drinking water services. Such grants may include, but are not limited to, financing for—

"(A) costs associated with the development or improvement of individual or small, multiuser drinking water facilities;

"(B) costs associated with enabling such rural residents to connect to community water supply systems, such as the payment of connection fees;

"(C) costs associated with improving the operation, maintenance, or management of small community water systems that are currently unable to provide safe drinking water at affordable rates to such rural residents; or

"(D) costs associated with implementing other alternatives to meeting the basic drinking water needs of such rural residents.

"(20) Notwithstanding any other provision of law, grants under paragraph (2) of this subsection may be used to pay the local share requirements of another Federal grant-in-aid program.".

INTEREST RATES—WATER AND WASTE DISPOSAL FACILITY AND COMMUNITY FACILITY LOANS

SEC. 1303. Section 307(a)(3)(A) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1927(a)(3)(A)) is amended by—

(1) striking out "where the median family income of the persons to be served by such facility is below the poverty line prescribed by the Office of Management and Budget, as adjusted under section 624 of the Economic Opportunity Act of 1964 (42 U.S.C. 2971d)" and inserting in lieu thereof "where the median household income of the persons to be served by such facility is below the higher of 80 per centum of the statewide nonmetropolitan median household income or the poverty line established by the Office of Management and Budget, as revised under section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))";

(2) inserting before the period at the end thereof the following: "; and not in excess of 7 per centum per annum on loans for such facilities that do not qualify for the 5 per centum per annum interest rate but are located in areas where the median household income of the persons to be served by the facility does not exceed 100 per centum of the statewide nonmetropolitan median household income"; and

(3) adding at the end thereof the following: "The interest rate on loans for water and waste disposal facilities and loans for essential community facilities shall be the lower of (i) the rate in effect at the time of the loan approval, or (ii) the rate in effect at the time of the loan closing.".

EFFECTIVE DATE OF SECTIONS 1302 AND 1303

SEC. 1304. The amendments made by sections 1302 and 1303 shall become effective on October 1, 1985, and shall apply to any association described in section 306(a)(1) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)(1)) without regard to whether the application for the loan or grant involved was made by the association before that date.

MINERAL RIGHTS AS COLLATERAL

SEC. 1305. Section 307 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1927) is amended by adding at the end thereof the following:

"(d) With respect to a farm ownership loan made after the date of the enactment of this subsection, unless appraised values of the rights to oil, gas, or other minerals are specifically included as part of the appraised value of collateral securing the loan, the rights to oil, gas, or other minerals located under the property shall not be considered part of the collateral securing the loan. Nothing in this subsection shall preclude including, as part of the collateral securing the loan, any payment or other compensation the borrower may receive for damages to the surface of the collateral real estate resulting from the exploration for or recovery of minerals.".

RURAL INDUSTRIAL ASSISTANCE

SEC. 1306. Section 310B of the Consolidated Farm and Rural Development Act (7 U.S.C. 1932) is amended by—

(1) adding at the end of subsection (a) the following: "No loan may be made, insured, or guaranteed under this subsection that exceeds $25,000,000 in principal amount."; and

(2) effective on October 1, 1986, adding at the end thereof the following:

"(f)(1) The Secretary may make grants under this subsection to public and nonprofit private institutions for the purpose of enabling them to establish and operate centers of rural technology development that have, as a primary objective, the improvement of the economic condition of rural areas by promoting the development (through technological innovation and adaptation of existing technology) and commercialization of (A) new products that can be produced in rural areas, and (B) new processes that can be used in such production.

"(2) Grants under this subsection shall be made on a competitive basis. In making grants, the Secretary shall give preference to applicants that will establish centers for rural technology in areas that have (A) few industries and agribusinesses, (B) high levels of unemployment, (C) high rates of out-migration of people, business, and industries, and (D) low levels of per capita income.

"(3) The Secretary shall issue regulations implementing this subsection that shall include provisions for the monitoring and evaluation of the rural technology development activities carried out by institutions that receive grants under this subsection.".

ELIGIBILITY FOR EMERGENCY LOANS

SEC. 1307. (a) Section 321(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961(a)) is amended by—

(1) inserting after "United States" in clause (1) of the first sentence "and who are owner-operators (in the case of loans for a purpose under subtitle A) or operators (in the case of loans for a purpose under subtitle B) of not larger than family farms";

(2) in clause (2) of the first sentence, striking out "farm cooperatives or private domestic corporations or partnerships in which a majority interest is held by members, stockholders, or partners who are citizens of the United States if the cooperative, corporation, or partnership is engaged primarily in farming, ranching, or aquaculture," and inserting in lieu thereof the following: "farm cooperatives, private domestic corporations, partnerships, or joint operations (A) that are engaged primarily in farming, ranching, or aquaculture, and (B) in which a majority interest is held by individuals who are citizens of the United States and who are owner-operators (in the case of loans for a purpose under subtitle A) or operators (in the case of loans for a purpose under subtitle B) of not larger than family farms (or in the case of such cooperatives, corporations, partnerships, or joint operations in which a majority interest is held by individuals who are related by blood or marriage, as defined by the Secretary, such individuals must be either owners or operators of not larger than a family farm and at least one such individual must be an operator of not larger than a family farm),"; and

(3) inserting after the first sentence the following: "In addition to the foregoing requirements of this subsection, in the case of farm cooperatives, private domestic corporations, partnerships, and joint operations, the family farm requirement of the preceding sentence shall apply as well to all farms in which the entity has an ownership and operator interest (in the case of loans for a purpose under subtitle A) or an operator interest (in the case of loans for a purpose under subtitle B).".

(b) Effective with respect to disasters occurring after September 30, 1985, section 329 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1970) is amended by adding at the end thereof the following: "Notwithstanding the third sentence of section 321(a) of this subtitle, eligibility of an applicant for assistance under this subtitle based on production losses shall be determined solely on the basis of the factors designated in this section without regard to the Secretary's failure to designate a county or counties for emergency loan purposes.".

COUNTY COMMITTEES

SEC. 1308. Section 332(a) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1982(a)) is amended to read as follows:

"(a) In each county or area in which activities are carried out under this title, there shall be a county committee composed of three members. Two members shall be elected, from among their number, by farmers deriving the principal part of their income from farming who reside within the county or area, and one member, who shall reside within the county or area, shall be appointed by the Secretary for a term of three years. At the first election of county committee members under this subsection, one member shall be elected for a term of one year and one member shall be elected for a term of two years. Thereafter, elected members of the county committee shall be elected for a term of three years. The Secretary, in selecting the appointed member of the county committee, shall ensure that, to the greatest extent practicable, the committee is fairly representative of the farmers in the county or area. The Secretary may appoint an alternate for each member of the county committee. Appointed and alternate members of the county committee shall be removable by the Secretary for cause. The Secretary shall issue such regulations as are necessary relating to the election and appointment of members and alternate members of the county committees.".

USE OF PROCEEDS FROM MINERAL SALES OR LEASES

SEC. 1309. Section 333 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1983) is amended by—

(1) in subsection (d), striking out "and" following the semicolon;

(2) in subsection (e), striking out the period and inserting in lieu thereof "; and"; and

(3) adding at the end thereof the following:

"(f) with respect to loans made after the date of enactment of this subsection, unless the appraised value of rights to oil, gas, and other minerals is specifically included as part of the appraised value of collateral securing a loan, that a borrower having an outstanding loan made, insured, or held by the Secretary for farm ownership purposes under subtitle A, farm operating purposes under subtitle B, disaster emergency purposes under subtitle C, or economic emergency purposes under the Emergency Agricultural Credit Adjustment Act of 1978, be permitted to use the royalties generated from and any other proceeds under the sale or lease of rights to oil, gas, or other minerals located under the property securing the loan to make prospective scheduled payments on the loan.".

ADMINISTRATION OF FARM REAL ESTATE ACQUIRED BY THE SECRETARY

SEC. 1310. Section 335 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1985) is amended by adding at the end thereof the following:

"(e)(1) Notwithstanding any other provision of this title, the Secretary shall administer any real property that is farmland and that is acquired under this title or under the Emergency Agricultural Credit Adjustment Act of 1978 in conformity with the following provisions:

"(A) The Secretary shall not offer for sale or sell any such real property—

"(i) if placing the property on the market will have a detrimental effect on the value of farmland in the area; or

"(ii) in any State or portion of a State identified by the Secretary as having suffered substantial reduction in the average value of farmland since 1980, until such time as such State or portion of the State experiences a period of 12 consecutive months for which the average farmland value therein, at the end of the 12 month period, equals or exceeds the value of the farmland at the beginning of such period.

"(B) The Secretary shall, with respect to any such real property that is offered for sale, make the property available, to the maximum extent practicable, in tracts not larger than those that can be operated efficiently as a family farm, and offer the property on a priority basis to the previous owner and to beginning farmers.

"(C) The Secretary shall, with respect to leasing and operating such real property—

"(i) not lease or operate the real property for the production of agricultural commodities that the Secretary has determined to be in surplus supply and shall devote such real estate to conserving uses; and

"(ii) if the real property is highly erodible cropland, devote that property to conserving uses;

"(D) To the extent the Secretary may lease or operate real property under this subsection, the Secretary shall—

"(i) offer to lease such real property on a competitive bid basis, giving priority in making awards to the previous owner, family farmers, and beginning farmers; and

"(ii) if the Secretary determines to administer such property through management contracts, offer the contracts on a competitive bid basis, giving preference to persons who will live in, and own and operate qualified small businesses in, the area where the property is located.

"(E) The Secretary may lease the property to the previous operator regardless of the restrictions in this paragraph (1), and priority in leasing shall be to the previous owner.

"(2) Notwithstanding any other provisions of law, compliance by the Secretary with this subsection shall not cause any acreage allotment, marketing quota, or acreage base assigned to such property to lapse, terminate, be reduced, or otherwise be adversely affected.".

FARM DEBT RESTRUCTURE AND CONSERVATION SET-ASIDE

SEC. 1311. (a) The last sentence of section 335(c) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1985(c)) is amended by striking out "all of the interest of the United States, including mineral rights" and inserting in lieu thereof "all the interests of the United States (including mineral rights) other than easements acquired under subsection (f)".

(b) Section 335 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1985) is amended by adding after the subsection added by section 1310 of this Act the following:

"(f)(1) The Secretary may acquire and retain easements for conservation, recreational, and wildlife purposes for a term of not less than 50 years, in real property that is wetlands, upland, highly erodible land, or any other land determined by the Secretary to be marginal for use as cropland if such real property—

"(A) is determined by the Secretary to be suitable for the purpose involved; and

"(B)(i) is administered under this title by the Secretary; or

"(ii)(I) secures any loan made under any law administered by the Farmers Home Administration and held by the Secretary, and the borrower involved is unable, as determined by the Secretary, to repay such loan in a timely manner; and

"(II) was row cropped in each year of the 3-year period ending on the effective date of this subsection.

"(2) The terms and conditions specified in the easement shall—

"(A) specify the uses to which the real property will be put by the owner of the real property (including such borrower and any successor in interest of such borrower);

"(B) identify the conservation measures to be taken, and the recreational and wildlife uses to be allowed, with respect to the real property; and

"(C) require the owner to allow the Secretary, and any person or governmental entity designated by the Secretary, to have access to the real property for the purpose of monitoring compliance with the easement.

"(3) Any easement acquired by the Secretary under this subsection shall be purchased from the borrower involved by cancelling that part of the aggregate amount of the borrower's outstanding loans held by the Secretary under laws administered by the Farmers Home Administration that bears the same ratio to the aggregate amount of the borrower's outstanding loans held by the Secretary under all such laws as the number of acres of the borrower's real property that are subject to the easement bears to the aggregate number of acres securing such loans.

"(4) The Secretary shall consult with the Director of the Fish and Wildlife Service of the Department of the Interior for purposes of—

"(A) selecting real property in which the Secretary shall acquire easements under this subsection;

"(B) formulating the terms and conditions of those easements; and

"(C) enforcing those easements.

"(5) The Secretary, and any governmental entity or person designated by the Secretary, may enforce an easement acquired under this subsection by the Secretary.

"(6) For purposes of this subsection—

"(A) the term 'governmental entity' means any agency of the United States, of a State, or of a unit of local government of a State;

"(B) the term 'highly erodible land' means land classified by the Soil Conservation Service of the Department of Agriculture as class IVe, VI, VII, or VIII land under the land capability classification system in effect on the effective date of this subsection;

"(C) the term 'recreational uses' includes hunting;

"(D) the term 'wetlands' has the meaning given it in section 3 of the Water Bank Act; and

"(E) the term 'wildlife' means fish or wildlife as defined in section 2(a) of the Lacey Act Amendments of 1981.

"(7) This subsection shall not apply with respect to the cancellation of any part of any loan made after the date of enactment of this subsection.".

(c) The second sentence of section 1001 of the Agricultural Act of 1970 (16 U.S.C. 1501) is amended by—

(1) striking out "perpetual"; and

(2) inserting "for a term of not less than 50 years" after "easements".

(d) Any part of a loan cancelled under section 335(f) of the Consolidated Farm and Rural Development Act shall not be included in income, and shall not have any effect on any tax attribute with respect to any taxpayer or property, for purposes of the Internal Revenue Code of 1954.

REAUTHORIZATION

SEC. 1312. (a) Section 346 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1994) is amended by adding at the end thereof the following:

"(f) Notwithstanding the provisions of subsection (a)—

"(1) loans for each of the fiscal years 1986, 1987, and 1988 are authorized to be insured, or made to be sold and insured, or guaranteed under the Agricultural Credit Insurance Fund as follows:

"(A)(i) for fiscal year 1986, real estate loans, $700,000,000, of which $650,000,000 shall be for insured loans and $50,000,000 for guaranteed loans, with authority to transfer 25 per centum of such amounts between categories;

"(ii) for each of the fiscal years 1987 and 1988, guaranteed real estate loans, $700,000,000;

"(B) operating loans, $3,150,000,000, of which $2,500,000,000 shall be for insured loans and $650,000,000 for guaranteed loans, with authority to transfer 25 per centum of such amounts between categories; and

"(C) insured or guaranteed emergency loans, $1,300,000,000 for fiscal year 1986, $700,000,000 for fiscal year 1987, and $600,000,000 for fiscal year 1988.

Not less than 25 per centum of the funds that may be used for insured loans for farm ownership purposes and not less than 25 per centum of the funds that may be used for insured loans for farm operating purposes shall be made available for loans to low-income, limited-resource applicants to the extent needed to meet applications filed by such farmers who are eligible for such loans. The Secretary shall inform in writing all applicants for loans for farm ownership and farm operating purposes of the availability of the loan program for low-income, limited-resource borrowers and the general nature of the program; and

"(2) loans for each of the fiscal years 1986, 1987, and 1988 are authorized to be insured, or made to be sold and insured, or guaranteed under the Rural Development Insurance Fund as follows:

"(A) Insured water and waste disposal facility loans, $340,000,000.

"(B) Industrial development loans, $250,000,000.

"(C) Insured community facility loans, $115,000,000.".

(b) Effective for the period ending September 30, 1988, the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) is amended by inserting, after section 346, the following:

"SEC. 346A. Notwithstanding any other provision of this Act, effective for the period beginning October 1, 1986, and ending September 30, 1988, no farm ownership loans made under subtitle A of this Act may be insured, or made to be sold or insured, under the Agricultural Credit Insurance Fund.".

ADMINISTRATION OF GUARANTEED FARM LOAN PROGRAMS; USE OF TALENTS OF OLDER AMERICANS

SEC. 1313. The Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.) is amended by adding at the end thereof the following:

"SEC. 349. Notwithstanding any other provision of this title, the Secretary shall ensure that farm loan guarantee programs carried out under this title are designed so as to be responsive to borrower and lender needs and to include provision under reasonable terms and conditions for advances, before completion of the liquidation process, of guarantee proceeds on loans in default.

"SEC. 350. (a) Notwithstanding any other provision of law, the Secretary may make grants to, or enter into cooperative agreements with, private nonprofit organizations designated by the Secretary of Labor under title V of the Older Americans Act of 1965 to use the talents of older Americans in programs authorized by other provisions of this title. Funding for such grants or agreements may be made available from such programs.

"(b) Before awarding any grant or entering into any agreement under subsection (a) of this section, the Secretary shall certify that the grant or agreement will not—

"(1) result in the displacement of individuals currently employed by the agency concerned, including partial displacement through reduction of nonovertime hours, wages, or employment benefits;

"(2) result in the employment of any individual when any other individual is in a layoff status from the same or substantially equivalent job within the jurisdiction of the agency concerned; or

"(3) affect existing contracts for services.

"(c) The Secretary may not award a grant or enter into an agreement under this section unless funding for that grant or agreement is provided in advance in an appropriations Act.".

PROTECTION FOR PURCHASERS OF FARM PRODUCTS

SEC. 1314. (a) Congress finds that—

(1) certain State laws permit a secured lender to enforce liens against a purchaser of farm products even if the purchaser does not know that the sale of the products violates the lender's security interest in the product, lacks any practical method for discovering the existence of the security interest, and has no reasonable means to ensure that the seller uses the sales proceeds to repay the lender;

(2) these laws subject the purchaser of farm products to double payment for the products, once at the time of purchase, and again when the seller fails to repay the lender;

(3) the exposure of purchasers of farm products to double payment inhibits free competition in the market for farm products; and

(4) this exposure constitutes a burden on and an obstruction to interstate commerce in farm products.

(b) The purpose of this section is to remove such burden on and obstruction to interstate commerce in farm products.

(c) For the purposes of this section—

(1) the term "buyer in the ordinary course of business" means a person who—

(A) in the ordinary course of business, buys farm products from a person engaged in farming operations who is in the business of selling farm products; and

(B) buys the products in good faith and without knowledge that the sale is in violation of the ownership rights or security interest of a third party in the products;

(2) the term "farm products" means crops or livestock used or produced in farming operations or products of crops or livestock in their unmanufactured states (such as ginned cotton, wool-clip, maple syrup, milk, and eggs) that are in the possession of a person engaged in farming operations;

(3) the term "security interest" means an interest in farm products that secures payment or performance of an obligation; and

(4) the term "knows" or "knowledge" means actually knows or actual knowledge.

(d) Notwithstanding any other provision of Federal, State, or local law, a buyer in the ordinary course of business who buys farm products from a seller engaged in farming operations shall take free of a security interest created by the seller even though the security interest is perfected and even though the buyer knows of its existence, except that a buyer of farm products takes subject to a security interest created by the seller if—

(1) within one year before the sale of the farm products the buyer has received from the secured party or the seller written notice of—

(A) the security interest including, but not limited to, the name and address of the secured party and of the seller, and a reasonable description of the property, including the jurisdiction where the property is located; and

(B) any payment obligations imposed on the buyer by the secured party as conditions for waiver and release of the security interest; and

(2) the buyer has failed to perform those obligations.

(e) Notwithstanding any other provisions of Federal, State, or local law, a commission merchant or selling agent who sells farm products for others shall not be subject to a security interest created by the seller in such farm products even though the security interest is perfected and even though the commission merchant or selling agent knows of its existence, if the sale is made in the ordinary course of business, except that a commission merchant or selling agent who sells farm products for others shall be subject to a security interest created by the seller in such farm products if—

(1) within one year before the sale of the farm products the commission merchant or selling agent has received from the secured party or the seller written notice of—

(A) the security interest including, but not limited to, the name and address of the secured party and of the seller, and a reasonable description of the property, including the jurisdiction where the property is located; and

(B) any payment obligations imposed on the commission merchant or selling agent by the secured party as conditions for waiver or release of the security interest; and

(2) the commission merchant or selling agent has failed to perform those obligations.

(f) A security agreement in which a seller of farm products creates a security interest in another may provide that the seller is obligated to furnish the secured party a list of the persons to whom the seller will sell the products. If a security agreement contains such a provision, the seller shall be subject to the provisions of subsection (g) if the seller sells the farm products collateral to a buyer not included on such a list unless the seller has—

(1) notified the secured party (in writing) of the identity of the buyer at least 7 days before the sale; or

(2) has accounted to the secured party for the proceeds of that sale within 10 days after the sale.

(g) A person violating subsection (f) shall be fined not more than $5,000.

(h) This section shall become effective 30 days after enactment, except that security interests created before the effective date shall be exempt for a period of one year from the provisions of this section.

PROHIBITING COORDINATED FINANCIAL STATEMENT

SEC. 1315. The Secretary of Agriculture shall not use or require the submission of, in connection with an application submitted on or after the date of the enactment of this Act for any initial or subsequent farmer-type loan under any program of the Department of Agriculture carried out by the Farmers Home Administration, the coordinated financial statement referred to in the proposed regulations of the Farmers Home Administration published in the Federal Register of November 8, 1983 (48 F.R. 51312-51317), or any other form or document in a format substantially similar to the coordinated financial statement.

REGULATORY RESTRAINT

SEC. 1316. (a) Congress finds and declares that—

(1) high production costs and low commodity prices have combined to reduce farm income to the lowest levels since the depths of the Depression in the 1930's, to subject many agricultural producers, through no fault of their own, to severe economic hardship, and in many cases temporarily but seriously to impair producers' ability to meet loan repayment schedules in a timely fashion; and

(2) a policy of adverse classification of agricultural loans by bank examiners under these circumstances will trigger a wave of foreclosures and similar actions on the part of banks, thereby depressing land values and prices for agricultural facilities and equipment and having a devastating effect on farmers and the banking industry, and upon rural areas of the United States in general.

(b) It is therefore the sense of Congress that the Federal bank regulatory agencies should ensure, in their examination procedures, that examiners exercise caution and restraint and give due consideration not only to the current cash flow of agricultural borrowers under financial stress, but to factors such as their loan collateral and ultimate ability to repay as well, for so long as the adverse economic effects of the cost-price squeeze of recent years continue to impair the ability of these borrowers to meet scheduled repayments on their loans.

Division C—Research, Extension, and Teaching

TITLE XIV—NATIONAL AGRICULTURAL RESEARCH, EXTENSION, AND TEACHING POLICY ACT AMENDMENTS OF 1985

SHORT TITLE

SEC. 1401. This title may be cited as the "National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1985".

FINDINGS

SEC. 1402. Section 1402 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101) is amended by—

(1) in paragraph (8)—

(A) striking out "and" at the end of subparagraph (N);

(B) inserting "and" at the end of subparagraph (O); and

(C) adding, at the end thereof, the following:

"(P) research on new or improved food processing (such as food irradiation) or value-added food technologies;";

(2) in paragraph (10)—

(A) striking out "The research" and all that follows through the colon in the matter preceding the subparagraphs, and inserting in lieu thereof the following: "The research, extension, and teaching programs must be maintained and constantly adjusted to meet ever-changing challenges. National support of cooperative research, extension, and teaching efforts must be reaffirmed and strengthened to meet major needs and challenges in the following areas:";

(B) redesignating subparagraphs (B), (C), (D), (E), (F), and (G) as subparagraphs (C), (D), (F), (G), (H), and (I), respectively;

(C) inserting after subparagraph (A) the following:

"(B) AGRICULTURAL POLICY.—The effects of technological, economic, sociological, and environmental developments on our agricultural structure are strong and continuous. It is critical that emerging agricultural-related technologies, economic changes, and sociological and environmental developments, both national and international, be analyzed on a continuing basis in an interdisciplinary fashion to determine the effect of those forces on the structure of agriculture and to improve agricultural policy decisionmaking.";

(D) inserting after subparagraph (D), as redesignated by subparagraph (B) of this paragraph, the following:

"(E) COORDINATION OF THE REGULATORY RESPONSIBILITIES OF THE FEDERAL GOVERNMENT RELATING TO BIOTECHNOLOGY.—Biotechnology guidelines and regulations must be made consistent throughout the Federal Government so they may promote scientific development and protect the public. The biotechnology risk assessment processes used by various Federal agencies must be standardized.";

(E) amending subparagraph (F), as redesignated by subparagraph (B) of this paragraph, to read as follows:

"(F) NATURAL RESOURCES.—Improved management of soil, water, forest, and range resources is vital to maintain the resource base for food, fiber, and wood production. An expanded research program in the areas of soil and water conservation and forest and range production practices is needed to develop more economical and effective management systems. Key objectives of this research are—

"(i) incorporating water and soil-saving technologies into current and evolving production practices;

"(ii) developing more cost-effective and practical conservation technologies;

"(iii) managing water in stressed environments;

"(iv) protecting the quality of the Nation's surface water and groundwater resources;

"(v) establishing integrated multidisciplinary organic farming research projects, including research on alternative farming systems, that will identify options from which individual farmers may select the production components that are most appropriate for their individual situations;

"(vi) developing better targeted pest management systems; and

"(vii) improving forest and range management technologies that meet demands more efficiently, better protect multi-resource options, and enhance quality of output.";

(F) in subparagraph (G), as redesignated by subparagraph (B) of this paragraph, striking out "to" before "the economy" and striking out "owner-operated" before "family farms"; and

(G) amending subparagraph (I), as redesignated by subparagraph (B) of this paragraph, to read as follows:

"(I) INTERNATIONAL FOOD AND AGRICULTURE.—United States agricultural production has proven its ability to produce abundant quantities of food for an expanding world population. Despite rising expectation for improved diets in the world today, there are instances of drought, civil unrest, economic crisis, or other conditions that preclude the local production or distribution of food. There are instances where localized problems impede the ability of farmers to produce needed food products. It is also recognized that many nations have progressive and effective agricultural research programs that produce results of interest and applicability to United States agriculture. The exchange of knowledge and information between nations is essential to the well-being of all nations. A dedicated effort involving the Federal Government, the State cooperative institutions, and other colleges and universities is needed to expand international food and agricultural research, extension, and teaching programs. Improved cooperation and communication by the Department of Agriculture and the cooperators with international agricultural research centers, counterpart agencies, and universities in other nations are necessary to improve food and agricultural progress throughout the world.";

(3) striking out the period at the end of paragraph (11) and inserting in lieu thereof "; and"; and

(4) adding at the end thereof the following:

"(12) the Nation's agricultural system is increasingly dependent on science and technology to maintain and improve productivity levels, manage the resource base, provide high quality products, and protect the environment. A constant source of food and agricultural scientific expertise is imperative to maintain this dynamic system.".

DEFINITIONS

SEC. 1403. Section 1404(8) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3103(8)) is amended by—

(1) striking out "and" at the end of subparagraph (H);

(2) adding "and" at the end of subparagraph (I); and

(3) adding at the end thereof the following:

"(J) international food and agricultural issues such as agricultural development, institution development, germ plasm collection and preservation, information exchange and storage, and scientific exchanges;".

COORDINATION OF EFFORTS FOR EFFECTIVE TRANSFER OF NEW TECHNOLOGIES

SEC. 1404. Section 1405 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3121) is amended by—

(1) striking out "and" at the end of paragraph (10);

(2) striking out the period at the end of paragraph (11) and inserting in lieu thereof "; and"; and

(3) adding at the end thereof the following:

"(12) coordinate the efforts of States, State cooperative institutions, State extension services, the Joint Council, the Advisory Board, and other appropriate institutions in assessing the current status of, and developing a plan for, the effective transfer of new technologies, including biotechnology, to the farming community, with particular emphasis on addressing the unique problems of small- and medium-sized farms in gaining information about those technologies.".

JOINT COUNCIL ON FOOD AND AGRICULTURAL SCIENCES

SEC. 1405. (a) Section 1407(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3122(a)) is amended by striking out "1985" and inserting in lieu thereof "1990".

(b) Section 1407(d)(2) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3122(d)(2)) is amended by—

(1) striking out "and" at the end of subparagraph (F);

(2) striking out the period at the end of subparagraph (F) and inserting in lieu thereof "; and"; and

(3) adding at the end thereof the following:

"(H) coordinate with the Secretary in assessing the current status of, and developing a plan for, the effective transfer of new technologies to the farming community.".

NATIONAL AGRICULTURAL RESEARCH AND EXTENSION USERS ADVISORY BOARD

SEC. 1406. (a) Section 1408(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3123(a)) is amended by striking out "1985" and inserting in lieu thereof "1990".

(b) Section 1408(f)(2) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3123(f)(2)) is amended by—

(1) striking out "and" at the end of subparagraph (E);

(2) striking out the period at the end of subparagraph (F) and inserting in lieu thereof "; and"; and

(3) adding at the end thereof the following:

"(G) coordinating with the Secretary in assessing the current status of, and developing a plan for, the effective transfer of new technologies to the farming community.".

PROJECT TERMINATION

SEC. 1407. Section 1409 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3124) is amended by—

(1) inserting "(a)" after "SEC. 1409."; and

(2) adding at the end thereof the following:

"(b) In the event that a research project being conducted by the Agricultural Research Service is proposed to be terminated, notice in writing of such intended action shall be given to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate at least fifteen days prior to the date of the proposed termination of the project.".

FEDERAL-STATE PARTNERSHIP AND COORDINATION

SEC. 1408. Section 1409A of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3124a) is amended by—

(1) in the first sentence of subsection (a)—

(A) striking out "and" at the end of paragraph (2);

(B) striking out the period at the end of paragraph (3) and inserting in lieu thereof "; and"; and

(C) adding at the end thereof the following:

"(4) international agricultural programs under sections 296 through 300 of the Foreign Assistance Act of 1961 (22 U.S.C. 2220a-2220e).."; and

(2) adding at the end thereof the following:

"(d) To promote research for purposes of developing agricultural policy alternatives, the Secretary shall designate at least one State cooperative institution to conduct research in an interdisciplinary fashion and to report on a regular basis with respect to the effect of emerging technological, economic, sociological, and environmental developments on the structure of agriculture. Support for this effort should include grants to examine the role of various food production, processing, and distribution systems that may primarily benefit small- and medium-sized family farms, such as diversified farm plans, energy, water, and soil conservation technologies, direct and cooperative marketing, production and processing cooperatives, and rural community resource management.

"(e) To address more effectively the critical need for reducing farm input costs, improving soil, water, and energy conservation on farms and in rural areas, using sustainable agricultural methods, adopting alternative processing and marketing systems, and encouraging rural resources management, the Secretary shall designate at least one State agricultural experiment station and one Agricultural Research Service facility to examine these issues in an integrated and comprehensive manner, while conducting ongoing pilot projects contributing additional research through the Federal-State partnership.".

SECRETARY'S REPORT

SEC. 1409. Section 1410 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3125) is amended by—

(1) adding "and" after the semicolon at the end of paragraph (2);

(2) striking out the semicolon and "and" at the end of paragraph (3) and inserting in lieu thereof a period; and

(3) striking out paragraph (4).

COMPETITIVE, SPECIAL, AND FACILITIES RESEARCH GRANTS

SEC. 1410. (a) Section 2 of the Act entitled "An Act to facilitate the work of the Department of Agriculture, and for other purposes", approved August 4, 1965 (7 U.S.C. 450i), is amended by—

(1) in the third sentence of subsection (b)—

(A) in paragraph (2), inserting ", with emphasis on biotechnology," after "(2) research";

(B) striking out "and" at the end of paragraph (5);

(C) striking out the period at the end of paragraph (6) and inserting in lieu thereof a semicolon; and

(D) adding at the end thereof the following:

"(7) interdisciplinary agricultural policy research on the effect of emerging technologies, economic changes, and sociological and environmental developments on the structure of agriculture; and

"(8) research to reduce farm input costs through the collection of national and international data and the transfer of appropriate technology relating to sustainable agricultural systems, soil, energy, and water conservation technologies, rural and farm resource management, and the diversification of farm product processing and marketing systems.";

(2) effective on the later of the date of the enactment of this Act or October 1, 1985, after the fourth sentence of subsection (b), inserting the following:

"No grant may be made under this subsection for any purpose for which a grant may be made under subsection (d) or for the planning, repair, rehabilitation, acquisition, or construction of a building or a facility.";

(3) effective October 1, 1985, striking out the last sentence in subsection (b) and inserting in lieu thereof the following:

"There are hereby authorized to be appropriated annually, for the purpose of carrying out the provisions of this subsection, such sums as may be necessary for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990. Four per centum of the amount appropriated for each of such fiscal years to carry out this subsection shall be retained by the Secretary to pay administrative costs incurred by the Secretary to carry out this subsection.";

(4) effective on the later of the date of the enactment of this Act or October 1, 1985, in subsection (c) by adding after the first sentence the following:

"No grant may be made under this subsection for any purpose for which a grant may be made under subsection (d) or for the planning, repair, rehabilitation, acquisition, or construction of a building or facility.";

(5) effective October 1, 1985, adding at the end of subsection (c) the following:

"Four per centum of the amount appropriated for any fiscal year to carry out this subsection shall be retained by the Secretary to pay administrative costs incurred by the Secretary to carry out this subsection."; and

(6) adding at the end thereof the following:

"(i) The Federal Advisory Committee Act (5 U.S.C. App.) and title XVIII of the Food

and Agriculture Act of 1977 (7 U.S.C. 2281-2289) shall not apply to panels or boards created for the purpose of reviewing applications or proposals submitted under the provisions of this section.".

RESEARCH FACILITIES ACT

SEC. 1411. (a) Section 1 of the Act entitled "An Act to assist the States to provide additional facilities for research at the State agricultural experiment stations", approved July 22, 1963 (hereinafter in this section referred to as the "Act of July 22, 1963) (7 U.S.C. 390), is amended by—

(1) inserting "and equipment" after "finance physical facilities"; and

(2) striking out "an adequate research program" and inserting in lieu thereof "agricultural research and related academic programs".

(b) Section 2 of the Act of July 22, 1963 (7 U.S.C. 390a), is amended by striking out "which are to become a part of such buildings".

(c) Section 3 of the Act of July 22, 1963 (7 U.S.C. 390b), is amended by—

(1) amending paragraph (1) to read as follows:

"(1) the term 'State' means any one of the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and the Virgin Islands of the United States;"; and

(2) inserting ", forestry, or veterinary medicine" after "to conduct agricultural" in paragraph (2).

(d) Section 4 of the Act of July 22, 1963 (7 U.S.C. 390c), is amended by—

(1) effective October 1, 1985, amending subsection (a) to read as follows:

"(a) There are hereby authorized to be appropriated, for grants to eligible institutions under this Act to be used for the purpose set out in section 2 of this Act, $20,000,000 for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990."; and

(2) amending subsection (b) to read as follows:

"(b) No grant may be made under section 2 of this Act for an amount exceeding 50 per centum of the cost of the project for which such grant is made. The remaining cost of such project shall be paid with funds from non-Federal sources.".

(e) Section 5 of the Act of July 22, 1963 (7 U.S.C. 390d), is amended by—

(1) striking out "apportioned" and inserting in lieu thereof "appropriated"; and

(2) striking out ", which are to become part of such buildings".

(f) Section 6 of the Act of July 22, 1963 (7 U.S.C. 390e), is repealed.

(g) Section 7 of the Act of July 22, 1963 (7 U.S.C. 390f), is amended by—

(1) inserting "equipment and" after "multiple-purpose"; and

(2) inserting "and related programs, including forestry and veterinary medicine," after "food and agricultural research".

(h) Section 8 of the Act of July 22, 1963 (7 U.S.C. 390g), is repealed.

(i)(1) Section 9(a) of the Act of July 22, 1963 (7 U.S.C. 390h(a)), is amended by—

(A) striking out "authorized to receive" and inserting in lieu thereof "that receives";

(B) striking out "section 4" and inserting in lieu thereof "section 2"; and

(C) striking out "section 4(b)" and inserting in lieu thereof "section 3(2)".

(2) Section 9(b) of the Act of July 22, 1963 (7 U.S.C. 390h(b)), is amended by—

(A) striking out "allotted funds received" and inserting in lieu thereof "funds received under this Act"; and

(B) striking out "allocated or".

(j) Clause (3) of section 10 of the Act of July 22, 1963 (7 U.S.C. 390i), is amended to read as follows: "(3) those eligible institutions, if any, that were prevented, because of failure to repay funds as required by section 7(b) of this Act, from receiving any grant under this Act".

(k) Sections 7, 9, 10, and 11 of the Act of July 22, 1963 (7 U.S.C. 390f, 390h, 390i, 390j), are redesignated as sections 6, 7, 8, and 9, respectively.

(l) The Act of July 22, 1963 (7 U.S.C. 390 et seq.), is amended by adding at the end thereof the following:

"SEC. 10. This Act may be cited as the 'Research Facilities Act'.".

GRANTS AND FELLOWSHIPS FOR FOOD AND AGRICULTURAL SCIENCES EDUCATION

SEC. 1412. (a) Section 1417(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3152(a)) is amended by—

(1) striking out "Such grants shall be made without regard to matching funds, but each" in the last sentence of paragraph (2) and inserting in lieu thereof "Each"; and

(2) striking out the last sentence in paragraph (3) and inserting in lieu thereof: "Each recipient institution shall have a significant ongoing commitment to the food and agricultural sciences generally and to the specific subject area for which such a grant is to be used.".

(b) Effective October 1, 1985, section 1417(d) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3152(d)) is amended by striking out all after "provisions of this section" and inserting in lieu thereof "such sums as may be necessary for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990.".

(c) Section 1417 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3152) is amended by adding at the end thereof the following new subsection:

"(e) The Federal Advisory Committee Act (5 U.S.C. App.) and title XVIII of the Food and Agriculture Act of 1977 (7 U.S.C. 2281-2289) shall not apply to panels or boards created for the purpose of reviewing applications or proposals submitted under the provisions of this section.".

STUDY

SEC. 1413. (a) Section 1424 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3174) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out

"Sec. 1424. Study."

and inserting in lieu thereof

"Sec. 1424. Repealed.".

HUMAN NUTRITION RESEARCH AND INFORMATION MANAGEMENT SYSTEM

SEC. 1414. (a) Section 1427 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3177) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out

"Sec. 1427. Report to Congress."

and inserting in lieu thereof

"Sec. 1427. Repealed.".

ANIMAL HEALTH SCIENCE RESEARCH ADVISORY BOARD

SEC. 1415. The first sentence of section 1432(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3194(a)) is amended by striking out "1985" and inserting in lieu thereof "1990".

APPROPRIATIONS FOR CONTINUING ANIMAL HEALTH AND DISEASE RESEARCH PROGRAMS

SEC. 1416. The first sentence of section 1433(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3195(a)) is amended by striking out "1985" and all that follows through the end of the sentence and inserting in lieu thereof "1990.".

APPROPRIATIONS FOR RESEARCH ON NATIONAL OR REGIONAL PROBLEMS

SEC. 1417. Subsection (a) of section 1434 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3196(a)) is amended by striking out "1985" and all that follows through the end of the subsection and inserting in lieu thereof "1990.".

EXTENSION AT 1890 LAND-GRANT COLLEGES, INCLUDING TUSKEGEE INSTITUTE

SEC. 1418. The third sentence of section 1444(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3221(a)) is amended by—

(1) striking out ", through the fiscal year ending September 30, 1985,"; and

(2) inserting before the period at the end thereof the following: ", and related acts pertaining to cooperative extension work at the land-grant institutions identified in the Act of May 8, 1914".

AUTHORITY TO AWARD GRANTS TO UPGRADE 1890 LAND-GRANT COLLEGE EXTENSION FACILITIES

SEC. 1419. (a) It is hereby declared to be the intent of Congress to assist the institutions eligible to receive funds under the Act of August 30, 1890 (7 U.S.C. 321 et seq.), including Tuskegee Institute (hereinafter referred to in this section as "eligible institutions"), in the acquisition and improvement of extension facilities and equipment so that eligible institutions may participate fully with the State cooperative extension services in a balanced way in meeting the extension needs of the people of their respective States.

(b) There are authorized to be appropriated for the purpose of carrying out this section $10,000,000 for each of the fiscal years ending September 30, 1986, September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990, such sums to remain available until expended.

(c) Four per centum of the sums appropriated under this section shall be available to the Secretary of Agriculture for administration of the grants program under this section. The remaining funds shall be made available for grants to the eligible institutions for the purpose of assisting them in the purchase of equipment and land, and the planning, construction, alteration, or renovation of buildings, to provide adequate facilities to conduct extension work in their respective States.

(d) Grants awarded under this section shall be made in such amounts and under such terms and conditions as the Secretary of Agriculture shall determine necessary for carrying out the purposes of this section.

(e) Federal funds provided under this section may not be used for the payment of any overhead costs of the eligible institutions.

(f) The Secretary of Agriculture may promulgate such rules and regulations as the Secretary deems necessary to carry out the provisions of this section.

AGRICULTURAL RESEARCH AT 1890 LAND-GRANT COLLEGES, INCLUDING TUSKEGEE INSTITUTE

SEC. 1420. Section 1445 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3222) is amended by—

(1) adding at the end of subsection (a) the following: "No more than 5 per centum of the funds received by an institution in any fiscal year, under this section, may be carried forward to the succeeding fiscal year."; and

(2) amending subsection (g)(2) to read as follows:

"(2) Whenever it shall appear to the Secretary from the annual statement of receipts and expenditures of funds by any eligible institution that an amount in excess of 5 per centum of the preceding annual appropriation allotted to that institution under this section remains unexpended, such amount in excess of 5 per centum of the preceding annual appropriation allotted to that institution shall be deducted from the next succeeding annual allotment to the institution.".

INTERNATIONAL AGRICULTURAL RESEARCH AND EXTENSION

SEC. 1421. Section 1458(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3291(a)) is amended by—

(1) striking out "the training" in paragraph (3) and inserting in lieu thereof "technical assistance and the training and advising"; and

(2) inserting "through the development of highly qualified scientists with specialization in international development" in paragraph (4) after "countries".

INTERNATIONAL TRADE DEVELOPMENT CENTERS

SEC. 1422. (a) Effective October 1, 1985, the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101 et seq.) is amended by inserting, after section 1458, the following:

"GRANTS TO STATES FOR INTERNATIONAL TRADE DEVELOPMENT CENTERS

"SEC. 1458A. (a) The Secretary shall establish and carry out a program to make grants to States for the establishment and operation of international trade development centers, or the expansion of existing international trade development centers, in the United States to enhance the exportation of agricultural products and related products. Such grants shall be based on a matching formula of 50 per centum Federal and 50 per centum State funding (including funds received by the State from private sources and from units of local government).

"(b) In making grants under subsection (a), the Secretary shall give preference to States that intend to use, as sites for international trade development centers, landgrant colleges and universities (as defined in section 1404(10) of this Act) that—

"(1) operate agricultural programs;

"(2) have existing international trade programs that use an interdisciplinary approach and are operated jointly with State and Federal agencies to address international trade problems; and

"(3) have an effective and progressive communications system that might be linked on an international basis to conduct conferences or trade negotiations.

"(c) Such centers may—

"(1) through research, establish a permanent data base to address the problems faced by potential exporters, including language barriers, interaction with representatives of foreign governments, transportation of goods and products, insurance and financing within foreign countries, and collecting international marketing data;

"(2) be used to house permanent or temporary exhibits that will stimulate and educate trade delegations from foreign nations with respect to agricultural products and related products produced in the United States and be made available for use by State and regional entities for exhibits, trade seminars, and negotiations involving such products; and

"(3) carry out such other activities relating to the exportation of agricultural products and related products as the Secretary may approve.

"(d) There are hereby authorized to be appropriated such sums as are necessary to carry out the provisions of this section.".

(b) Effective October 1, 1985, the table of contents of the Food and Agriculture Act of 1977 is amended by inserting a new item:

"Sec. 1458A. Grants to States for international trade development centers."

after the item

"Sec. 1458. International agricultural research and extension.".

AGRICULTURAL INFORMATION EXCHANGE WITH IRELAND

SEC. 1423. The Secretary of Agriculture shall undertake discussions with representatives of the Government of Ireland that may lead to an agreement that will provide for the development of a program between the United States and Ireland whereby there will be a greater exchange of agricultural scientific and educational information, techniques, and data; agricultural marketing information, techniques, and data; and agricultural producer, student, teacher, agribusiness (private and cooperative) personnel; and the fostering of joint investment ventures, cooperative research, and the expansion of United States trade with Ireland. The Secretary shall periodically report to the Chairman of the Committee on Agriculture of the House of Representatives and the Chairman of the Committee on Agriculture, Nutrition, and Forestry of the Senate to keep such committees apprised of the progress and accomplishments, and such other information as the Secretary deems appropriate, with regard to the development of such program.

EVALUATION OF THE EXTENSION SERVICE AND THE COOPERATIVE EXTENSION SERVICES

SEC. 1424. (a) Section 1459 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3301) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out

"Sec. 1459. Evaluation of the Extension Service and the Cooperative Extension Services."

and inserting in lieu thereof

"Sec. 1459. Repealed.".

WEATHER AND WATER ALLOCATION STUDY

SEC. 1425. (a) Section 1460 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3302) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out

"Sec. 1460. Weather and water allocation study."

and inserting in lieu thereof

"Sec. 1460. Repealed.".

ORGANIC FARMING STUDY

SEC. 1426. (a) Section 1461 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3303) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out

"Sec. 1461. Organic farming study."

and inserting in lieu thereof

"Sec. 1461. Repealed.".

AGRICULTURAL RESEARCH FACILITIES STUDY

SEC. 1427. (a) Section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3304) is repealed.

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by striking out

"Sec. 1462. Agricultural research facilities study."

and inserting in lieu thereof

"Sec. 1462. Repealed.".

AUTHORIZATION OF APPROPRIATIONS FOR AGRICULTURAL RESEARCH PROGRAMS

SEC. 1428. (a) Effective October 1, 1985, section 1463(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3311(a)) is amended by striking out "$505,000,000" and all that follows through "subsequent fiscal year", and inserting in lieu thereof "$600,000,000 for the fiscal year ending September 30, 1986, $610,000,000 for the fiscal year ending September 30, 1987, $620,000,000 for the fiscal year ending September 30, 1988, $630,000,000 for the fiscal year ending September 30, 1989, and $640,000,000 for the fiscal year ending September 30, 1990".

(b) Effective October 1, 1985, section 1463(b) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3311(b)) is amended by striking out "$120,000,000" and all that follows through "subsequent fiscal year", and inserting in lieu thereof "$270,000,000 for the fiscal year ending September 30, 1986, $280,000,000 for the fiscal year ending September 30, 1987, $290,000,000 for the fiscal year ending September 30, 1988, $300,000,000 for the fiscal year ending September 30, 1989, and $310,000,000 for the fiscal year ending September 30, 1990".

AUTHORIZATION OF APPROPRIATIONS FOR EXTENSION EDUCATION

SEC. 1429. Effective October 1, 1985, section 1464 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3312) is amended by striking out "$260,000,000" and all that follows through "subsequent fiscal year", and inserting in lieu thereof "$350,000,000 for the fiscal year ending September 30, 1986, $360,000,000 for the fiscal year ending September 30, 1987, $380,000,000 for the fiscal year ending September 30, 1988, $400,000,000 for the fiscal year ending September 30, 1989, and $420,000,000 for the fiscal year ending September 30, 1990".

GENERAL AUTHORITY TO ENTER INTO CONTRACTS, GRANTS, AND COOPERATIVE AGREEMENTS

SEC. 1430. Section 1472 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3318) is amended by—

(1) redesignating subsections (b), (c), and (d) as subsections (c), (d), and (e), respectively; and

(2) inserting after subsection (a) the following:

"(b) Notwithstanding the provisions of chapter 63 of title 31 of the United States Code, the Secretary may use a cooperative agreement as the legal instrument reflecting a relationship between the Department of Agriculture and State cooperative institutions, as defined in section 1404(16) of this Act, State departments of agriculture, colleges and universities, other research or educational institutions and organizations, Federal and private agencies and organizations, individuals, or any other party, when the Secretary determines that the objectives of the agreement will serve a mutual interest of the parties to the agreement in agricultural research, extension, and teaching activities, including statistical reporting, and that all parties will contribute resources to the accomplishment of those objectives. Notwithstanding any other provision of law, any Federal agency may participate in any such cooperative agreement by contributing funds through the appropriate agency of the Department of Agriculture or otherwise when it is mutually agreed that the objectives of the agreement will further the authorized programs of the contributing agency.".

RESTRICTION ON TREATMENT OF INDIRECT COSTS AND TUITION REMISSION

SEC. 1431. Section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3319) is amended by inserting at the end thereof the following: "The prohibition on the use of funds for the reimbursement of indirect costs shall not apply to funds transferred, advanced, or reimbursed to the Department of Agriculture under the provisions of the Foreign Assistance Act of 1961 (22 U.S.C. 2151 et seq.). For agreements involving the use of such funds, the amount of indirect costs to be reimbursed shall be negotiated on a case-by-case basis.".

DIRECTION OF TECHNOLOGY DEVELOPMENT

SEC. 1432. (a) The National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101 et seq.) is amended by inserting after section 1473 the following new sections 1473A and 1473B:

"TECHNOLOGY DEVELOPMENT FOR SMALL- AND MEDIUM-SIZED FARMING OPERATIONS

"SEC. 1473A. It is the sense of Congress that the agricultural research, extension, and teaching activities conducted by the Department of Agriculture relating to the development, application, transfer, or delivery of agricultural technology, and, to the greatest extent practicable, any funding that is received by the Department of Agriculture for such activities, should be directed to technology that can be used effectively by small- and medium-sized farming operations.

"SPECIAL TECHNOLOGY DEVELOPMENT RESEARCH PROGRAM

"SEC. 1473B. (a) Notwithstanding the provisions of chapter 63 of title 31 of the United States Code, the Secretary may enter into cooperative agreements with private agencies, organizations, and individuals to share the cost of research projects, or to allow the use of Federal facilities and services on a cost-sharing or cost-reimbursable basis, to develop new agricultural technology to further the research programs of the Department of Agriculture.

"(b) Any funds received by the Secretary under cooperative agreements made under subsection (a) shall be deposited in a separate account or accounts, to be available until expended. Such funds may be used to pay directly the cost of such research projects or to supplement appropriations of funds that do or will bear all or part of such cost.".

(b) The table of contents of the Food and Agriculture Act of 1977 is amended by inserting new items:

"Sec. 1473A. Technology development for small- and medium-sized farming operations.

"Sec. 1473B. Special technology development research program."

after the item

"Sec. 1473. Restriction on treatment of indirect costs and tuition remission.".

SUPPLEMENTAL AND ALTERNATIVE CROPS

SEC. 1433. (a) The National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101 et seq.), as amended by section 1432 of this Act, is amended by inserting after section 1473B the following new section:

"PILOT PROGRAM AND TECHNICAL ASSISTANCE TO ESTABLISH SUPPLEMENTAL AND ALTERNATIVE CROPS

"SEC. 1473C. Notwithstanding any other provision of law, during the period beginning October 1, 1986, and ending September 30, 1989, the Secretary shall develop and implement a research and pilot project program for the development of supplemental and alternative crops, using such funds as are appropriated to the Secretary each fiscal year under this title. The development of supplemental and alternative crops is of critical importance to producers of agricultural commodities whose livelihood is threatened by the decline in demand experienced with respect to certain of their crops due to changes in consumption patterns or other related causes. The Secretary shall use such research funding, special or competitive grants, or other means, as the Secretary determines, to further the purposes of this section in the implementation of a comprehensive and integrated program. The program developed and implemented by the Secretary shall include—

"(1) an examination of the adaptation of supplemental and alternative crops;

"(2) the establishment and extension of various methods of planting, cultivating, harvesting, and processing supplemental and alternative crops at pilot sites in areas adversely affected by declining demand for crops grown in the area;

"(3) the transfer of such applied research from pilot sites to on-farm practice as soon as practicable;

"(4) the establishment through grants, cooperative agreements, or other means of such processing, storage, and transportation facilities near such pilot sites for supplemental and alternative crops as the Secretary determines will facilitate the achievement of a successful pilot program; and

"(5) the application of such other resources and expertise as the Secretary deems appropriate to support the program.

The pilot program may include, but shall not be limited to, agreements, grants, and other arrangements to conduct comprehensive resource and infrastructure assessments, to develop and introduce supplemental and alternative income-producing crops, to develop and expand domestic and export markets for such crops, and to provide technical assistance to farm owners and operators, marketing cooperatives, and others. The Secretary shall use the expertise and resources of the Agricultural Research Service, the Cooperative State Research Service, the Extension Service, and the land-grant colleges and universities for the purpose of carrying out this section.".

(b) The table of contents of the Food and Agriculture Act of 1977, as amended by section 1432 of this Act, is amended by inserting after the item relating to section 1473B the following new item:

"Sec. 1473C. Pilot program and technical assistance to establish supplemental and alternate crops.".

AQUACULTURE ASSISTANCE PROGRAMS

SEC. 1434. Section 1475 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3322) is amended by—

(1) in the first sentence of subsection (b)—

(A) striking out "and" at the end of paragraph (2);

(B) inserting "and" at the end of paragraph (3); and

(C) inserting after paragraph (3) the following:

"(4) nonprofit private research institutions;";

(2) in the last sentence of subsection (b), inserting "(of which amount an in-kind contribution may not exceed 50 percent)" after "matching grant";

(3) in the first sentence of subsection (d), striking out "State agencies" and all that follows through "universities,", and inserting in lieu thereof "any of the non-Federal entities specified in subsection (b)"; and

(4) amending the last sentence of subsection (d) to read as follows:

"Funds made available for the operation of such regional centers may be used for the acquisition or rehabilitation of existing buildings or facilities, or the construction of new buildings or facilities, to house such centers, except that not more than $250,000 may be used for the acquisition, rehabilitation, or construction of any single building or facility. To the extent practicable, the aquaculture research, development, and demonstration centers established under this subsection shall be geographically located so that they are representative of the regional aquaculture opportunities in the United States.".

(5) in the first sentence of subsection (e), inserting "the House Committee on Merchant Marine and Fisheries," after "House Committee on Agriculture,".

AQUACULTURE ADVISORY BOARD

SEC. 1435. The first sentence of section 1476(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3323(a)) is amended by striking out "1985" and inserting in lieu thereof "1990".

AUTHORIZATION OF APPROPRIATIONS—AQUACULTURE RESEARCH

SEC. 1436. (a) Section 1477(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3324(a)) is amended by striking out "1985" and all that follows down through "subsequent fiscal year", and inserting in lieu thereof "1990".

(b) Section 1477(b) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3324(b)) is amended by—

(1) striking out the first sentence; and

(2) in the second sentence, striking out "these funds" and inserting in lieu thereof "funds appropriated under subsection (a)".

RANGELAND RESEARCH ADVISORY BOARD

SEC. 1437. The first sentence of section 1482(a) of the National Agricultural Re-

search, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3335(a)) is amended by striking out "1985" and inserting in lieu thereof "1990".

AUTHORIZATION OF APPROPRIATIONS—RANGELAND RESEARCH

SEC. 1438. Section 1483(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3336(a)) is amended by striking out "1985" and all that follows down through "subsequent fiscal year", and inserting in lieu thereof "1990".

AUTHORIZATION OF APPROPRIATIONS FOR FEDERAL AGRICULTURAL RESEARCH FACILITIES

SEC. 1439. (a) There are authorized to be appropriated for fiscal year 1988 and for each succeeding fiscal year such sums as may be necessary for the planning, construction, acquisition, alteration, and repair of buildings and other public improvements, including the cost of acquiring or obtaining rights to use land, of or used by the Agricultural Research Service, except that the cost of planning any one facility shall not exceed $500,000, and the total cost of any one facility shall not exceed $5,000,000.

(b) Not later than 60 days after the end of each of the fiscal years 1986 through 1990, the Secretary of Agriculture shall submit to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate a report specifying—

(1) the location of each building, laboratory, research facility, and other public improvement of or to be used by the Agricultural Research Service that is planned, constructed, acquired, repaired, or remodeled, with funds appropriated under subsection (a), in the fiscal year involved; and

(2) with respect to each such building, laboratory, research facility, and improvement—

(A) the amount of such funds obligated in the fiscal year; and

(B) the amount of such funds expended in the fiscal year for such item.

AGRICULTURAL RESEARCH AT 1890 LAND-GRANT COLLEGES, INCLUDING TUSKEGEE INSTITUTE

SEC. 1440. Effective October 1, 1985, section 1432(b)(5) of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1981 (7 U.S.C. 3222 note) is amended by striking out "September" the first place it appears and all that follows through "1985", and inserting in lieu thereof "September 30, 1986, September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990".

AUTHORITY TO AWARD GRANTS TO UPGRADE 1890 LAND-GRANT COLLEGE RESEARCH FACILITIES, INCLUDING TUSKEGEE INSTITUTE

SEC. 1441. (a) Section 1433(a) of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1981 (7 U.S.C. 3223(a)) is amended by inserting ", including agricultural libraries," after "research facilities and equipment".

(b) Section 1433(b) of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1981 (7 U.S.C. 3223(b)) is amended by—

(1) striking out "and" before "September 30, 1986"; and

(2) inserting "and September 30, 1987," after "1986,".

SOYBEAN RESEARCH ADVISORY INSTITUTE

SEC. 1442. (a) Section 1446 of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1981 (7 U.S.C. 2281 note) is repealed.

(b) The table of contents of the Agriculture and Food Act of 1981 is amended by striking out

"Sec. 1446. Soybean Research Advisory Institute."

and inserting in lieu thereof

"Sec. 1446. Repealed.".

SMITH-LEVER ACT

SEC. 1443. (a) Section 2 of the Act entitled "An Act to provide for cooperative agricultural extension work between the agricultural colleges in the several States receiving the benefits of an Act of Congress approved July second, eighteen hundred and sixty-two, and Acts supplementary thereto, and the United States Department of Agriculture", approved May 8, 1914 (hereinafter in this section referred to as the Smith-Lever Act) (7 U.S.C. 342) is amended by—

(1) inserting "development of practical applications of research knowledge and" after "consist of the"; and

(2) inserting "of existing or improved practices or technologies" after "practical demonstrations".

(b) Section 3 of the Smith-Lever Act (7 U.S.C. 343) is amended by adding at the end thereof the following:

"(f)(1) The Secretary of Agriculture may conduct educational, instructional, demonstration, and publication distribution programs through the Federal Extension Service and may enter into cooperative agreements with private nonprofit and profit organizations and individuals to share the cost of such programs through contributions from private sources as provided in this subsection.

"(2) The Secretary may receive contributions under this subsection from private sources for the purposes described in paragraph (1) and may provide matching funds in an amount not greater than 50 per centum of such contributions.

"(3) Notwithstanding any other provision of law, beginning with the fiscal year ending September 30, 1986, and for each fiscal year thereafter through the fiscal year ending September 30, 1991, not more than one-half of one per centum of the funds appropriated to the Federal Extension Service for such fiscal year may be used to provide matching funds in accordance with paragraph (2).

"(4) Not later than one year after the date of the enactment of the Food Security Act of 1985, the Secretary shall submit a report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the progress of such programs and shall make recommendations to the committees regarding how other similar private sector initiatives could be used by the Federal Extension Service.".

(c) The Secretary of Agriculture shall conduct a study to determine whether any funds that are—

(1) appropriated after the date of the enactment of this Act to carry out the Smith-Lever Act (7 U.S.C. 341 et seq.), other than section 8 of such Act; and

(2) in excess of the aggregate amount appropriated to carry out the Smith-Lever Act (other than section 8 of such Act) in fiscal year 1985;

can be allocated more effectively among the States. Not later than one year after the date of the enactment of this Act, the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report summarizing the results of such study and containing the recommendations of the Secretary regarding the allocation of such funds.

(d) This section and the amendments made by this section shall take effect on October 1, 1985.

PESTICIDE RESISTANCE STUDY

SEC. 1444. The Secretary of Agriculture shall conduct a study on the detection and management of pesticide resistance and, within one year after the date of enactment of this Act, submit to the President and Congress a report on this study. The study shall include—

(1) a review of existing efforts to examine and identify the mechanisms, genetics, and ecological dynamics of target populations of insect and plant pests developing resistance to pesticides;

(2) a review of existing efforts to monitor current and historical patterns of pesticide resistance; and

(3) a strategy for the establishment of a national pesticide resistance monitoring program, involving Federal, State, and local agencies, as well as the private sector.

DIETARY ASSESSMENT AND STUDIES

SEC. 1445. (a)(1) The Secretary of Agriculture shall conduct an assessment of existing scientific literature regarding the relationship, if any, between dietary cholesterol and blood cholesterol. The Secretary shall consult with all agencies of the Federal Government that are involved in research relating to dietary and blood cholesterol in conducting the assessment. The assessment, to the extent practicable, shall summarize and evaluate all existing literature on this subject.

(2) The Secretary shall develop a protocol and conduct a feasibility assessment for a definitive study by the Department of Agriculture on the relationship between dietary and serum cholesterol. Such study shall be conducted under the supervision and coordination of the Department of Agriculture with such assistance from other agencies of government as the Secretary may deem appropriate.

(3) The Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report on the results of the findings under paragraphs (1) and (2) not later than one year after date of the enactment of this Act. Such report shall contain a final report on the assessment of existing research and literature required under paragraph (1) and a detailed protocol and plan for implementation of the study mandated under paragraph (2). The report shall contain a budget estimate and timetable for conduct and completion of the study provided for in paragraph (2).

(b)(1) The Secretary of Agriculture shall conduct an assessment of existing research and literature with regard to dietary calcium and its importance as a nutrient. The Secretary shall consult with all agencies of the Federal Government that are involved in research relating to calcium in conducting the assessment. The assessment, to the extent practicable, shall summarize and evaluate all existing literature on this subject.

(2) The Secretary shall develop a protocol for a study to determine the importance of dietary calcium in human development and health promotion. The study shall include, at a minimum, a comprehensive investigation of the role of calcium in bone health and maintenance of skeletal integrity as well as in the regulation of hypertension.

The study shall be conducted under the supervision and coordination of the Department of Agriculture, with such assistance from other agencies of government and private sector organizations as the Secretary may deem appropriate.

(3) The Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report on the results of the Secretary's findings under paragraphs (1) and (2) not later than one year after the date of the enactment of this Act. Such report shall contain an assessment of existing research and literature required by paragraph (1) and a detailed protocol and plan for implementation of the study required by paragraph (2). The report shall contain a budget estimate and timetable for conducting and completing the study required by paragraph (2).

NUTRITION RESEARCH

SEC. 1446. (a) Congress, by the National Agricultural Research, Extension, and Teaching Policy Act of 1977, (1) in section 1421 of such Act, found that nutrition and health considerations are important factors in the agricultural policy of the United States; (2) in section 1405 of such Act, designated the Department of Agriculture as the lead agency of the Federal Government for human nutrition research, except with respect to the biomedical aspects of nutrition research concerned with diagnosis for treatment of disease; and (3) in section 1423 of such Act, required the Secretary of Agriculture to establish research in food and human nutrition as a separate and distinct mission of the Department of Agriculture.

(b) Congress acknowledges that the Secretary of Agriculture has established a nutrition education program and reaffirms its belief that nutrition research continues to have a vital role in agricultural production.

(c) Not later than one year after the date of the enactment of this Act, the Secretary of Agriculture shall submit to the appropriate committees of Congress a comprehensive plan for implementing a national food and human nutrition research program. The plan shall include, but not be limited to, recommendations relating to research directions, educational activities, and funding levels necessary to carry out such plan. The Secretary shall thereafter submit an annual report to the Congress on the human nutrition research activities of the Department of Agriculture.

SPECIAL GRANTS FOR FINANCIALLY STRESSED FARMERS AND DISLOCATED FARMERS

SEC. 1447. (a) Section 502 of the Rural Development Act of 1972 (7 U.S.C. 2662) is amended by inserting at the end thereof the following:

"(f) SPECIAL GRANTS FOR FINANCIALLY STRESSED FARMERS AND DISLOCATED FARMERS.—(1) The Secretary shall provide special grants for programs to develop income alternatives for farmers who have been adversely affected by the current farm and rural economic crisis and those displaced from farming. Such programs shall consist of educational and counseling services to farmers to assess human and nonhuman resources, assess income earning alternatives, identify resources and opportunities available to the farmer in the local community, county, and State, implement financial planning and management strategies, and provide linkages to specific resources and opportunities that are available to the farmer, such as reentering agriculture, new business opportunities, other off-farm jobs, job search programs, and retraining skills. The Secretary also may provide support to mental health officials in developing outreach programs in rural areas.

"(2) Grants may be made under paragraph (1) during the period beginning on the date of enactment of the Food Security Act of 1985 and ending three years thereafter.".

(b) Section 503(c) of the Rural Development Act of 1972 (7 U.S.C. 2663(c)) is amended by inserting "and section 502(f)" after "section 502(e)" both times it appears therein.

ANNUAL REPORT ON FAMILY FARMS

SEC. 1448. Section 102(b) of the Food and Agriculture Act of 1977 (7 U.S.C. 2266) is amended by—

(1) redesignating clause (3) as clause (5); and

(2) in clause (2), striking out "Federal" and all that follows through the end of the clause, and inserting in lieu thereof the following:

"current Federal income, excise, estate, and other tax laws, and proposed changes in such laws, may affect the structure and organization of, returns to, and investment opportunities by family and nonfamily farm owners and operators, both foreign and domestic, (3) identification and analysis of new food and agricultural production and processing technological developments, especially in the area of biotechnology, and evaluation of the potential effect of such developments on (A) the economic structure of the family farm system, (B) the competitive status of domestically produced agricultural commodities and foods in foreign markets, and (C) the achievement of Federal agricultural program objectives, (4) an assessment of the credit needs of family farms and the extent to which those needs are being met, and an analysis of the effects of the farm credit situation on the economic structure of the family farm system, and".

Division D—Food Assistance Programs

TITLE XV—FOOD STAMP AND RELATED PROVISIONS

ELIGIBILITY OF THE HOMELESS

SEC. 1501. (a) The first sentence of section 3(i) of the Food Stamp Act of 1977 (7 U.S.C. 2012(i)) is amended by—

(1) in clause (1), after "consumption", inserting "(or in the case of an individual who does not reside in a permanent dwelling or who has no fixed address, for such individual's consumption)"; and

(2) in clause (2), after "consumption" both places it appears, inserting "(or in the case of individuals who do not reside in permanent dwellings or who have no fixed addresses, for such individuals' consumption)".

(b) Section 11(e)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(2)) is amended by—

(1) striking out the semicolon at the end and inserting a period in lieu thereof; and

(2) adding at the end thereof the following: "The State agency shall provide a method of certifying and issuing coupons to eligible households who do not reside in permanent dwellings or who have no fixed addresses, and shall take steps to ensure that such method limits participation in the food stamp program to eligible households.".

DETERMINATION OF FOOD SALES VOLUME

SEC. 1502. Section 3(k) of the Food Stamp Act of 1977 (7 U.S.C. 2012(k)) is amended by inserting after "food sales volume" in clause (1) the following: ", as determined by visual inspection, sales records, purchase records, or other inventory or accounting record-keeping methods that are customary or reasonable in the retail food industry,".

THRIFTY FOOD PLAN

SEC. 1503. Section 3(o) of the Food Stamp Act of 1977 (7 U.S.C. 2012(o)) is amended by—

(1) striking out "fifty-four" in the first sentence and inserting in lieu thereof "fifty";

(2) striking out "and" at the end of clause (7) of the second sentence;

(3) in clause (8) of the second sentence—

(A) striking out "and each October 1 thereafter,"; and

(B) inserting after "June 30" the following: "and, on February 1, 1986, further adjust the cost of such diet to reflect the Secretary's best estimate of the changes in the cost of the thrifty food plan occurring during the three-month period following June 30,"; and

(4) inserting before the proviso at the end of the second sentence the following: ", and (9) on October 1, 1986, and each October 1 thereafter, using the actual cost of the thrifty food plan as of September 30 of the previous calendar year as the base, adjust the cost of such diet to reflect changes in the cost of the thrifty food plan for the nine months ending the preceding June 30 and the Secretary's best estimate as to further changes in such cost occurring during the three-month period following June 30, and round the result to the nearest lower dollar increment for each household size".

DEFINITIONS OF THE DISABLED

SEC. 1504. Section 3(r) of the Food Stamp Act of 1977 (7 U.S.C. 2012(r)) is amended by—

(1) inserting before the semicolon at the end of paragraph (2) the following: ", federally or State administered supplemental benefits of the type described in section 1616(a) of the Social Security Act if the Secretary determines that such benefits are conditioned on meeting the disability or blindness criteria used under title XVI of the Social Security Act, or federally or State administered supplemental benefits of the type described in section 212(a) of Public Law 93-66 (42 U.S.C. 1382 note)";

(2) inserting before the semicolon at the end of paragraph (3) the following: "or receives disability retirement benefits from a governmental agency because of a disability considered permanent under section 221(i) of the Social Security Act (42 U.S.C. 421(i))";

(3) inserting "or non-service-connected" after "service-connected" in paragraph (4)(A);

(4) striking out "or" at the end of paragraph (5);

(5) striking out the period at the end of paragraph (6) and inserting in lieu thereof "; or"; and

(6) adding at the end thereof the following:

"(7) is an individual receiving an annuity under section 2(a)(1)(iv) or 2(a)(1)(v) of the Railroad Retirement Act of 1974 (45 U.S.C. 231a(a)(1)(iv) or 231a(a)(1)(v)), if the individual's service as an employee under the Railroad Retirement Act of 1974, after December 31, 1936, had been included in the term 'employment' as defined in the Social Security Act, and if an application for disability benefits had been filed.".

STATE AND LOCAL SALES TAXES

SEC. 1505. Effective October 1, 1987, section 4(a) of the Food Stamp Act of 1977 (7 U.S.C. 2013(a)) is amended by inserting before the period at the end of the first sentence the following: ", except that a State may not participate in the food stamp program if the Secretary determines that State or local sales taxes are collected within that

State on purchases of food made with coupons issued under this Act".

RELATION OF FOOD STAMP AND COMMODITY DISTRIBUTION PROGRAMS

SEC. 1506. Section 4(b) of the Food Stamp Act of 1977 (7 U.S.C. 2013(b)) is amended by—

(1) striking out the first sentence; and

(2) striking out "also" in the second sentence.

CATEGORICAL ELIGIBILITY

SEC. 1507. (a) Section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014) is amended by—

(1) inserting after the first sentence in subsection (a) the following: "Notwithstanding any other provisions of this Act, except sections 6(b), 6(d)(2), and 6(g) and the third sentence of section 3(i), households in which each member receives benefits under a State plan approved under part A of title IV of the Social Security Act, supplemental security income benefits under title XVI of the Social Security Act, or aid to the aged, blind, or disabled under title I, X, XIV, or XVI of the Social Security Act, shall be eligible to participate in the food stamp program."; and

(2) striking out subsection (j).

(b) Section 11(i) of the Food Stamp Act of 1977 (7 U.S.C. 2020(i)) is amended by adding at the end thereof the following: "No household shall have its application to participate in the food stamp program denied nor its benefits under the food stamp program terminated solely on the basis that its application to participate has been denied or its benefits have been terminated under any of the programs carried out under the statutes specified in the second sentence of section 5(a) and without a separate determination by the State agency that the household fails to satisfy the eligibility requirements for participation in the food stamp program.".

EXCLUDED INCOME

SEC. 1508. (a) Effective February 1, 1986, section 5(d) of the Food Stamp Act of 1977 (7 U.S.C. 2014(d)) is amended by—

(1) inserting "except as provided in subsection (j)," after the comma at the end of clause (1);

(2) in clause (3)—

(A) striking out "higher education" and inserting in lieu thereof "post-secondary education"; and

(B) adding at the end thereof "and to the extent loans include any origination fees and insurance premiums,";

(3) inserting "and no portion of any Federal educational grant, to the extent it provides income assistance beyond that used for tuition and mandatory school fees," before "shall be considered such reimbursement" in the proviso of clause (5);

(4) inserting ", but household income that otherwise is included under this subsection shall be reduced by the extent that the cost of producing self-employment income exceeds the income derived from self-employment" before the comma in clause (9);

(5) inserting "except as otherwise provided in subsection (k) of this section" after "food stamp program" in clause (10).

(b) Effective October 1, 1985, section 5 of the Food Stamp Act of 1977 (7 U.S.C. 2014) is amended by adding at the end thereof the following:

"(j) Assistance provided to a third party on behalf of a household for living expenses by a State or local government in place of a regular benefit payable directly to the household under title IV of the Social Security Act or a State or local general assistance program (but excluding medical, child care, energy, and emergency or special assistance) shall be treated as money payable directly to the household.

"(k) Notwithstanding the provisions of section 142(b) of the Job Training Partnership Act (29 U.S.C. 1552(b)), earnings to individuals participating in on-the-job training programs under section 205(5) of the Job Training Partnership Act shall be considered earned income for purposes of the food stamp program.".

DEDUCTIONS FROM INCOME

SEC. 1509. (a) Section 5(e) of the Food Stamp Act of 1977 (7 U.S.C. 2014(e)) is amended by—

(1) in the second sentence, striking out "homeownership component" and inserting in lieu thereof "homeowners' costs and maintenance and repair component";

(2) effective February 1, 1986, in the third sentence, striking out "18" and inserting in lieu thereof "20";

(3) amending the fourth sentence by—

(A) effective February 1, 1986—

(i) inserting ", excluding expenses paid on behalf of the household under the Low Income Home Energy Assistance Act (42 U.S.C. 8621 et seq.)," after "by a household for shelter" in clause (2);

(ii) amending the proviso to clause (2) to read as follows: ": Provided, That the amount of such excess shelter expense deduction shall not exceed $155 a month in the forty-eight contiguous States and the District of Columbia, and shall not exceed, in Alaska, Hawaii, Guam, and the Virgin Islands of the United States, $260, $215, $180, and $110 a month, respectively, adjusted on October 1, 1986, and on each October 1 thereafter, to the nearest lower dollar increment to reflect changes in the shelter (exclusive of homeowners' costs and maintenance and repair component), fuel, and utilities components of housing costs in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics, as appropriately adjusted by the Bureau of Labor Statistics after consultation with the Secretary, for the twelve months ending the preceding June 30,"; and

(iii) amending clause (3) to read as follows:

"(3) a deduction combining the dependent care and excess shelter expense deductions under clauses (1) and (2), the maximum allowable level of which shall not exceed the maximum allowable deduction under clause (2)";

(B) effective October 1, 1986—

(i) in clause (1), striking out "the same as" and all that follows through "clause (2) of this subsection", and inserting in lieu thereof "$160";

(ii) striking out ", or (2)" and inserting in lieu thereof "and (2)"; and

(iii) striking out ", or (3)" and all that follows down to the period at the end thereof; and

(4) after the seventh sentence, inserting the following: "A State agency may use one or more standard utility allowances for households on behalf of which a payment is made under the Low Income Home Energy Assistance Act (42 U.S.C. 8621, et seq.) but who also incur out-of-pocket heating or cooling expenses. A State agency shall allow a household to switch between any standard utility allowance and a deduction based on its actual utility costs at the end of any certification period and up to two additional times during each twelve-month period."; and

(5) effective February 1, 1986, in the last sentence—

(A) striking out "$35 a month" in clause (A) and inserting in lieu thereof "the lesser of $35 a month or 5 per centum of monthly household income after any exclusions and before any deductions provided for in this section"; and

(B) inserting ", excluding expenses paid on behalf of the household under the Low Income Home Energy Assistance Act (42 U.S.C. 8621 et seq.)," after "by a household for shelter" in clause (C).

RETROSPECTIVE BUDGETING AND MONTHLY REPORTING SIMPLIFICATION

SEC. 1510. (a) Section 5(f)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2014(f)(2)) is amended by—

(1) amending subparagraph (A) to read as follows:

"(A) Household income for—

"(i) migrant farmworker households, and

"(ii) households—

"(I) that have no earned income, and

"(II) in which all adult members are elderly or disabled members,

shall be calculated on a prospective basis, as provided in paragraph (3)(A).";

(2) in subparagraph (B)—

(A) striking out "(i)";

(B) inserting "the first sentence of" after "under" the first place it appears; and

(C) striking out "(ii)" and all that follows through "this Act,"; and

(3) striking out subparagraph (C) and inserting in lieu thereof the following:

"(C) Except as provided in subparagraphs (A) and (B), household income for households that have earned income and for households that include any member who has recent work history shall be calculated on a retrospective basis as provided in paragraph (3)(B).

"(D) Household income for all other households may be calculated, at the option of the State agency, on a prospective basis as provided in paragraph (3)(A) or on a retrospective basis as provided in paragraph (3)(B).".

(b) Section 6(c)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2015(c)(1)) is amended by—

(1) amending the first sentence to read as follows: "State agencies shall require households with respect to which household income is determined on a retrospective basis under section 5(f)(2)(C) of this Act to file periodic reports of household circumstances in accordance with standards prescribed by the Secretary, except that a State agency may, with the prior approval of the Secretary, select categories of households (including all such households) that may report at specified less frequent intervals on a showing by the State agency, which is satisfactory to the Secretary, that to require households in such categories to report monthly would result in unwarranted expenditures for administration of this subsection."; and

(2) inserting after the second sentence the following: "State agencies may require households, other than households with respect to which household income is required by section 5(f)(2)(A) to be calculated on a prospective basis, to file periodic reports of household circumstances in accordance with the standards prescribed by the Secretary under the preceding provisions of this paragraph.".

RESOURCES LIMITATION

SEC. 1511. Section 5(g) of the Food Stamp Act of 1977 (7 U.S.C. 2014(g)) is amended by—

(1) effective October 1, 1986, in the first sentence, striking out "$1,500, or, in the case of a household consisting of two or more persons, one of whom is age 60 or over, if its resources exceed $3,000" and inserting in lieu thereof "$2,250, or, in the case of a

household which consists of or includes a member who is 60 years of age or older, if its resources exceed $3,500"; and

(2) in the second sentence—

(A) inserting "and inaccessible resources" after "relating to licensed vehicles";

(B) after "physically disabled household member" inserting "and any other property, real or personal, to the extent that it is directly related to the maintenance or use of such vehicle"; and

(C) inserting after "$4,500," the following: "except that the Secretary shall, on October 1, 1986, and on each October 1 thereafter, adjust such amount to reflect changes in the Consumer Price Index for All Urban Consumers, United States city average, for used cars (base year 1967=100), published by the Bureau of Labor Statistics, for the twelve months ending the preceding June 30, and round the result to the nearest $100 increment, but such amount, as adjusted, may not exceed $5,500,".

DISASTER TASK FORCE

SEC. 1512. Section 5(h)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2014(h)(2)) is amended to read as follows:

"(2) The Secretary shall—

"(A) establish a Food Stamp Disaster Task Force to assist States in implementing and operating the disaster program and the regular food stamp program in the disaster area; and

"(B) send members of the Task Force to the disaster area as soon as possible after the disaster occurs to provide direct assistance to State and local officials.".

ELIGIBILITY DISQUALIFICATIONS

SEC. 1513. Section 6 of the Food Stamp Act of 1977 (7 U.S.C. 2015) is amended by—

(1) in the first sentence of subsection (d)(1)—

(A) striking out "no household shall be eligible for assistance under this Act if it includes a" and inserting in lieu thereof "(A) no person shall be eligible to participate in the food stamp program who is";

(B) striking out all that follows "(iii)" through "days; or (iv)"; and

(C) inserting before the period at the end thereof the following: "; and (B) no household shall be eligible to participate in the food stamp program (i) if the head of the household is a physically and mentally fit person between the ages of eighteen and sixty and such individual refuses to do any of those acts described in clause (A) of this sentence, or (ii) if the head of the household voluntarily quits any job without good cause, but, in such case, the period of ineligibility shall be ninety days";

(2) adding at the end of subsection (d)(1) the following: "Any period of ineligibility for violations under this paragraph shall end when the household member who committed the violation complies with the requirement that has been violated. If the household member who committed the violation leaves the household during the period of ineligibility, such household shall no longer be subject to sanction for such violation and, if it is otherwise eligible, may resume participation in the food stamp program, but any other household of which such person thereafter becomes the head of the household shall be ineligible for the balance of the period of ineligibility.";

(3) inserting at the end of clause (2) of subsection (e) the following: "except for individuals who are assigned to or placed in an institution of higher learning through a program under the Job Training Partnership Act,";

(4) striking out subclause (C) of clause (3) of subsection (e) and redesignating subclauses (D) and (E) thereof as subclauses (C) and (D), respectively; and

(5) in clause (2) of subsection (f)—

(A) striking out "section 203(a)(7)" and "(8 U.S.C. 1153(a)(7))" in subclause (D) and inserting in lieu thereof "sections 207 and 208" and "(8 U.S.C. 1157 and 1158)", respectively;

(B) striking out "because of persecution" and all that follows through "natural calamity" in subclause (D); and

(C) striking out "because of the judgment of the Attorney General" and all that follows in subclause (F) through "political opinion".

EMPLOYMENT AND TRAINING PROGRAM

SEC. 1514. (a) Section 6(d) of the Food Stamp Act of 1977 (7 U.S.C. 2015(d)), as amended by section 1513(1) of this Act, is amended by—

(1) amending clause (A)(ii) of paragraph (1) to read as follows:

"(ii) refuses without good cause to participate in an employment and training program under paragraph (4), to the extent required under paragraph (4), including any reasonable employment requirements as are prescribed by the State agency in accordance with paragraph (4), and the period of ineligibility shall be two months;"; and

(2) adding at the end thereof the following:

"(4)(A) Each State agency shall implement an employment and training program designed by the State agency for the purpose of assisting members of households participating in the food stamp program in gaining skills, train,ng, or experience that will increase their ability to obtain regular employment. For purposes of this Act, an 'employment and training program' means a program that contains, at the option of the State agency, one or more of the following components:

"(i) Job search programs with terms and conditions comparable to those prescribed in subparagraphs (A) and (B) of section 402(a)(35) of part A of title IV of the Social Security Act, except that a State agency shall have no obligation to incur costs exceeding $25 per participant per month, as provided in subparagraph (B)(vi), and the State agency shall retain the option to apply employment requirements prescribed under this clause to program applicants at the time of application.

"(ii) Job search training programs that include, to the extent determined appropriate by the State agency, reasonable job search training and support activities that may consist of jobs skills assessments, job finding clubs, training in techniques for employability, job placement services, or other direct training or support activities, including educational programs, determined by the State agency to expand the job search abilities or employability of those subject to the program.

"(iii) Programs designed to improve the employability of household members through actual work experience or training, or both, and to enable individuals employed under such programs to move promptly into regular public or private employment. The facilities of the State public employment offices and agencies operating programs under the Job Training Partnership Act may be used to find employment and training opportunities for household members under the programs. Employment or training experience assignments shall be limited to projects that serve a useful public purpose in fields such as health, social services, environmental protection, education, urban and rural development and redevelopment, welfare, recreation, public facilities, public safety, and day care. To the extent possible, the prior training, experience, and skills of the participating member shall be used in making appropriate employment experience assignments. An employment or training experience program established under this clause shall—

"(I) not provide any work that has the effect of replacing the employment of an individual not participating in the employment or training experience program;

"(II) provide the same benefits and working conditions that are provided at the job site to employees performing comparable work for comparable hours; and

"(III) reimburse participants for actual costs of transportation and other actual costs that are reasonably necessary and directly related to participation in the program, but not to exceed $25 in the aggregate per month.

"(iv) As approved by the Secretary, other programs, projects, and experiments, such as a supported work program, aimed at accomplishing the purpose of the employment and training program.

"(B)(i) The State agency may provide that participation in an employment and training program may supplement or supplant other requirements imposed on those subject to the program.

"(ii) Each State agency shall exempt from any requirement for participation in any program under this paragraph categories of household members to which the State agency determines that the application of such participation requirement is impracticable as applied to such categories due to factors such as, but not limited to, the availability of work opportunities and the cost-effectiveness of the employment requirements. In making such a determination, the State agency may designate a category consisting of all such household members residing in a specified area of the State. The State agency shall also exempt or suspend from such participation requirement individual household members not included in any such category but with respect to whom it determines that such participation is impracticable because of personal circumstances such as, but not limited to, lack of job readiness and employability, the remote location of work opportunities, and unavailability of dependent care. The State agency shall determine the extent to which any individual must fulfill the requirements of this paragraph.

"(iii) The total hours of work in an employment and training program carried out under this paragraph required of members of a household, together with the hours of work of such members in any other program carried out under section 20, in any month collectively may not exceed a number of hours equal to the household's allotment for such month divided by the higher of the applicable State minimum wage or Federal minimum hourly rate under the Fair Labor Standards Act of 1938. The total hours of participation in such program required of any member of a household, individually, in any month, together with any hours worked in another program carried out under section 20 and any hours worked for compensation (in cash or in kind) in any other capacity, shall not exceed one hundred and twenty hours per month.

"(iv) Each State agency shall establish requirements, determined by the State agency to be appropriate, for participation by individuals not exempt under clause (ii) in one or more employment and training programs

under this paragraph (which requirements may vary among participants), but may operate programs under this paragraph in which individuals elect to participate. The State agency shall permit individuals not subject to the requirements described in the preceding sentence or who have complied, or are in the process of complying, with such requirements to participate in any progam under this paragraph.

"(v) The Secretary shall promulgate guidelines that, to the maximum extent practicable, enable a State agency to design and operate an employment and training program under this paragraph that is compatible and consistent with similar programs operated within the State.

"(vi) A State agency shall reimburse participants for transportation costs and other expenses incurred by participants in the employment and training program, except that the State agency may limit such reimbursement to each participant to $25 per month.".

(b) Section 11(e) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)) is amended by—

(1) striking out "and" at the end of paragraph (20);

(2) striking out the period at the end of paragraph (21) and inserting in lieu thereof "; and"; and

(3) adding at the end thereof the following:

"(22) the manner in which the State agency will carry out the employment and training program under section 6(d)(4).".

(c) Section 16 of the Food Stamp Act of 1977 (7 U.S.C. 2025) is amended by adding at the end thereof the following:

"(h)(1) The Secretary shall allocate among the State agencies in each fiscal year, from funds appropriated for such fiscal year under section 18(a)(1), the amount of $40,000,000 for the fiscal year ending September 30, 1986, $50,000,000 for the fiscal year ending September 30, 1987, $60,000,000 for the fiscal year ending September 30, 1988, and $75,000,000 for each of the fiscal years ending September 30, 1989, and September 30, 1990, to carry out the employment and training program under section 6(d)(4), except as provided in paragraph (3), during such fiscal year.

"(2) If, in carrying out such program during such fiscal year, a State agency incurs costs that exceed the amount allocated to the State agency under paragraph (1), the Secretary shall pay such State agency an amount equal to 50 per centum of such additional costs, subject to the limitation in paragraph (3).

"(3) The Secretary shall reimburse each State agency in an amount equal to 50 per centum of the total amount of payments made or costs incurred by the State agency in connection with transportation costs and other expenses reasonably incurred by participants in the employment and training program, except that such total amount shall not exceed an amount representing $25 per participant per month.

"(4) The Secretary shall monitor the employment and training programs carried out by State agencies under section 6(d)(4) to measure their effectiveness in terms of the increase in the numbers of household members who obtain employment and the numbers of such members who retain such employment as a result of their participation in such employment and training programs. The Secretary shall, not later than January 1, 1989, report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate on the effectiveness of such employment and training programs.".

STAGGERING OF COUPON ISSUANCE

SEC. 1515. Section 7 of the Food Stamp Act of 1977 (7 U.S.C. 2016) is amended by adding at the end thereof the following:

"(h)(1) The State agency may implement a procedure for staggering the issuance of coupons to eligible households throughout the entire month: Provided, That the procedure ensures that, in the transition period from other issuance procedures, no eligible household experiences an interval between coupon issuances of more than thirty-five days, either through regular issuances by the State agency or through supplemental issuances.

"(2) For any eligible household that applies for participation in the food stamp program during the last fifteen days of a month and is issued benefits within that period, coupons shall be issued for the first full month of participation by the later of five working days after the beginning of the following month or five working days after verification procedures are completed.".

DISCLOSURE OF INFORMATION SUBMITTED BY RETAIL STORES

SEC. 1516. Section 9(c) of the Food Stamp Act of 1977 (7 U.S.C. 2018(c)) is amended by inserting before the period at the end of the second sentence the following: ", except that such information may be disclosed to and used by State agencies that administer the special supplemental food program for women, infants and children, authorized under section 17 of the Child Nutrition Act of 1966, for purposes of administering the provisions of that Act and the regulations issued under that Act".

CREDIT UNIONS

SEC. 1517. Section 10 of the Food Stamp Act of 1977 (7 U.S.C. 2019) is amended by—

(1) inserting ", or which are insured under the Federal Credit Union Act and have retail food stores or wholesale food concerns in their field of membership" after "Federal Savings and Loan Insurance Corporation" the first place it appears; and

(2) inserting "or the Federal Credit Union Act" after "Federal Savings and Loan Insurance Corporation" the second place it appears.

CHARGES FOR REDEMPTION OF COUPONS

SEC. 1518. (a) Section 10 of the Food Stamp Act of 1977 (7 U.S.C. 2019), as amended by section 1517 of this Act, is amended by adding at the end thereof the following: "No financial institution may impose on or collect from a retail food store a fee or other charge for the redemption of coupons that are submitted to the financial institution in a manner consistent with the requirements, other than any requirements relating to cancellation of coupons, for the presentation of coupons by financial institutions to the Federal Reserve banks.".

(b) The Secretary of Agriculture, in consultation with the Board of Governors of the Federal Reserve System, shall issue regulations implementing the amendment made by subsection (a).

PUBLIC INFORMATION

SEC. 1519. (a) Section 11(e)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(1)) is amended by inserting, after "funds provided under this Act", the following: "except for activities, implemented at the discretion of the State agency, that provide program information (including program eligibility and benefit guidelines) to unemployed, disabled, or elderly persons who apply, or may be eligible, for participation in the program".

(b) The first sentence of section 16(a) of the Food Stamp Act of 1977 (7 U.S.C. 2025(a)) is amended by striking out "and (4) fair hearings" and inserting in lieu thereof "(4) fair hearings, and (5) activities providing program information to unemployed, disabled, or elderly persons".

OFFICE HOURS

SEC. 1520. Section 11(e)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2020(e)(2)), as amended by section 1501(c) of this Act, is amended by adding at the end thereof the following: "The State agency shall assess, from time to time, the need for operating food stamp offices within the State during evening and weekend hours;".

EXPANDED FOOD AND NUTRITION EDUCATION PROGRAM

SEC. 1521. Section 11(f) of the Food Stamp Act of 1977 (7 U.S.C. 2020(f)) is amended by adding at the end thereof the following: "State agencies shall encourage food stamp program participants to participate in the expanded food and nutrition education program conducted under section 3(d) of the Act of May 8, 1914 (7 U.S.C. 343(d)), commonly known as the Smith-Lever Act. At the request of personnel of such education program, State agencies, wherever practicable, shall allow personnel and information materials of such education program to be placed in food stamp offices.".

FOOD STAMP PROGRAM INFORMATION AND SIMPLIFIED APPLICATION AT SOCIAL SECURITY ADMINISTRATION OFFICES

SEC. 1522. (a) Clause (2) of the first sentence of section 11(i) of the Food Stamp Act of 1977 (7 U.S.C. 2020(i)) is amended by—

(1) inserting "applicants for or" after "members are";

(2) striking out "permitted" and all that follows through "office", and inserting in lieu thereof "informed of the availability of benefits under the food stamp program and be assisted in making a simple application to participate in such program at the social security office".

(b) Section 11(j) of the Food Stamp Act of 1977 (7 U.S.C. 2020(j)) is amended to read as follows:

"(j)(1) Any individual who is an applicant for or recipient of social security benefits (under regulations prescribed by the Secretary in conjunction with the Secretary of Health and Human Services) shall be informed of the availability of benefits under the food stamp program and shall be provided with a simple application to participate in such program at the social security office.

"(2) The Secretary and the Secretary of Health and Human Services shall revise the memorandum of understanding in effect on the date of enactment of the Food Security Act of 1985, regarding services to be provided in social security offices under this subsection and subsection (i), in a manner to ensure that—

"(A) applicants for and recipients of social security benefits are adequately notified in social security offices that assistance may be available to them under this Act;

"(B) applications for assistance under this Act from households in which all members are applicants for or recipients of supplemental security income will be forwarded immediately to the State agency in an efficient and timely manner; and

"(C) the Secretary of Health and Human Services receives from the Secretary reimbursement for costs incurred to provide such services.".

(c) Not later than 180 days after the date of the enactment of this Act, the Secretary of Agriculture shall submit a report, to the Committee on Agriculture of the House of

Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, describing the nature and extent of the costs being incurred by the Secretary of Health and Human Servics to comply with subsections (i) and (j) of section 11 of the Food Stamp Act of 1977, as amended by subsections (a) and (b).

RETAIL FOOD STORES AND WHOLESALE FOOD CONCERNS

SEC. 1523. Section 12 of the Food Stamp Act of 1977 (7 U.S.C. 2021) is amended by adding at the end thereof the following:

"(e)(1) In the event any retail food store or wholesale food concern that has been disqualified under subsection (a) is sold or the ownership thereof is otherwise transferred to a bona fide purchaser or transferee, the person or persons who sell or otherwise transfer ownership of the retail food store or wholesale food concern shall be subjected to a civil money penalty in an amount established by the Secretary through regulations to reflect that portion of the disqualification period that has not yet expired. If the retail food store or wholesale food concern has been disqualified permanently, the civil money penalty shall be double the penalty for a ten-year disqualification period, as calculated under regulations issued by the Secretary. The disqualification period imposed under subsection (b) shall continue in effect as to the person or persons who sell or otherwise transfer ownership of the retail food store or wholesale food concern notwithstanding the imposition of a civil money penalty under this subsection.

"(2) At any time after a civil money penalty imposed under paragraph (1) has become final under the provisions of section 14(a), the Secretary may request the Attorney General to institute a civil action against the person or persons subject to the penalty in a district court of the United States for any district in which such person or persons are found, reside, or transact business to collect the penalty and such court shall have jurisdiction to hear and decide such action. In such action, the validity and amount of such penalty shall not be subject to review.".

STATE AGENCY LIABILITY, QUALITY CONTROL, AND AUTOMATIC DATA PROCESSING

SEC. 1524. (a) Effective with respect to the fiscal year beginning October 1, 1985, and each fiscal year thereafter, section 16 of the Food Stamp Act of 1977 (7 U.S.C. 2025) is amended by—

(1) in paragraph (2)(A) of subsection (d), inserting before the period at the end thereof the following:

"less any amount the payment of which is waived under paragraph (6) and less any amount payable as a result of the use by the State agency of correctly processed information received from an automatic information exchange system made available by any Federal department or agency"; and

(2) adding, at the end of subsection (d), the following:

"(6)(A) The Secretary, at the request of a State agency, shall waive the payment of a portion—not more than 15 per centum—of a claim, asserted against the State for a fiscal year under paragraphs (2) and (3), equal to the amount that the State agency shows it will devote to the planning, design, development, installation, or expansion of automatic data processing, computerized information, or related systems, or to other administrative efforts, designed to reduce payment error rates and approved by the Secretary. To obtain such waiver, the State agency must show, to the satisfaction of the Secretary, that (i) the systems or administrative efforts on which the request for a waiver is based are in addition to systems or administrative efforts that are already in place or part of an existing plan for the State agency, and (ii) such systems or administrative efforts can reasonably be expected to improve the management, integrity, or efficiency of the food stamp program operated by the State agency.

"(B) Amounts used for systems or administrative efforts as a result of a waiver of a claim under this paragraph may not be credited by the State agency as its share of the costs incurred for data and information systems under the cost-sharing programs provided for in subsections (a) and (g).

"(C) If a proposed system or administrative effort on which a waiver of a claim under this paragraph is based is not implemented within six months after a target date for implementation agreed on by the Secretary and the State agency, the Secretary shall terminate the waiver unless the Secretary determines that there is good cause for the State agency's failure to implement the system or administrative effort (including good faith efforts to implement the system or administrative effort) in a timely manner, and, on such termination, the State agency shall again become liable for full payment of the claim under paragraphs (2) and (3).

"(7) To facilitate the implementation of paragraphs (2) and (3), each State agency shall submit to the Secretary expeditiously data regarding its operations in each fiscal year sufficient for the Secretary to establish the payment error rate for the State agency for such fiscal year and determine the amount for which the State agency will be liable for such fiscal year under paragraphs (2) and (3). The Secretary shall make a determination for a fiscal year, and notify the State agency of such determination, within nine months following the end of each fiscal year. The Secretary shall initiate efforts to collect the amount owed by the State agency as a claim established under paragraphs (2) and (3) for a fiscal year, except with respect to the portion of such payment that is waived under paragraph (6), and, as applicable, subject to the conclusion of any formal or informal appeal procedure and administrative or judicial review under section 14 (as provided for in paragraph (5)), before the end of the fiscal year following such fiscal year."; and

(3) in subsection (g), inserting "(or in the case of State agencies that submit plans that satisfy the elements of the model automation and computerization plan under section 11(o), as determined by the Secretary, 90 per centum)" after "75 per centum".

(b) Section 11 of the Food Stamp Act of 1977 (7 U.S.C. 2020) is amended by adding at the end thereof the following:

"(o)(1) The Secretary shall develop, after consultation with and with the assistance of an advisory group of State agencies appointed by the Secretary without regard to the provisions of the Federal Advisory Committee Act, a model plan for the comprehensive automation of data processing and computerization of information systems under the food stamp program. The plan shall be developed and made available for public comment through publication of the proposed plan in the Federal Register not later than October 1, 1986. The Secretary shall complete the plan, taking into consideration public comments received, not later than December 1, 1986. The elements of the plan shall include, but not be limited to, intake procedures, eligibility determinations and calculation of benefits, verification procedures, coordination with related Federal and State programs, the issuance of benefits, reconciliation procedures, the generation of notices, and program reporting.

"(2) Not later than April 1, 1987, the Secretary shall prepare and submit to Congress an evaluation of the degree and sufficiency of each State's automated data processing and computerized information systems for the administration of the food stamp program. Such report shall include, for each State, an analysis of additional steps needed for the State to achieve effective and cost-efficient data processing and information systems. The Secretary, thereafter, shall periodically update such report.

"(3) Based on the Secretary's findings in any of the reports submitted under paragraph (2), the Secretary may require a State agency, as necessary to rectify identified shortcomings in the administration of the food stamp program in the State, to take specified steps to automate data processing systems or computerize information systems for the administration of the food stamp program in the State if the Secretary finds that, in the absence of such systems, there will be program accountability or integrity problems that will substantially affect the administration of the food stamp program in the State.".

(c) The first sentence of section 11(g) of the Food Stamp Act of 1977 (7 U.S.C. 2020(g)) is amended by inserting "the automation or computerization requirements imposed on the State agency under subsection (o)(3) of this section," after "pursuant to subsection (d) of this section,".

PILOT PROJECTS

SEC. 1525. (a) Section 17(b)(1) of the Food Stamp Act of 1977 (7 U.S.C. 2026(b)(1)) is amended by striking out "October 1, 1985" the last place it appears and inserting in lieu thereof "October 1, 1990".

(b) Section 17(d) of the Food Stamp Act of 1977 (7 U.S.C. 2026(d)) is amended by adding at the end thereof the following: "On the request of a State or political subdivision in which a pilot project is conducted under this subsection, the Secretary shall continue the project beyond any initial term established by the Secretary if the Secretary finds that the project has a beneficial effect on program administrative costs and error rates and the continuation of the project will not result in undue added program costs.".

AUTHORIZATION CEILING; AUTHORITY TO REDUCE BENEFITS

SEC. 1526. Section 18 of the Food Stamp Act of 1977 (7 U.S.C. 2027) is amended by—

(1) inserting, after the first sentence of subsection (a)(1), the following:

"To carry out the provisions of this Act, there are hereby authorized to be appropriated not in excess of $13,584,000,000 for the fiscal year ending September 30, 1986; not in excess of $14,369,000,000 for the fiscal year ending September 30, 1987; not in excess of $15,276,000,000 for the fiscal year ending September 30, 1988; not in excess of $16,142,000,000 for the fiscal year ending September 30, 1989; and not in excess of $16,985,000,000 for the fiscal year ending September 30, 1990."; and

(2) in the second sentence of subsection (b), striking out "the limitation set herein," and inserting in lieu thereof "the appropriation amount authorized in subsection (a)(1),".

PUERTO RICO BLOCK GRANT

SEC. 1527. Effective October 1, 1985, section 19 of the Food Stamp Act of 1977 (7 U.S.C. 2028) is amended by—

(1) striking out "for each fiscal year" in subsection (a)(1)(A) and inserting in lieu thereof "for the fiscal year ending September 30, 1986, $862,000,000 for the fiscal year ending September 30, 1987, $898,000,000 for the fiscal year ending September 30, 1988, $936,000,000 for the fiscal year ending September 30, 1989, and $974,000,000 for the fiscal year ending September 30, 1990,";

(2) striking out "noncash" in subsection (a)(1)(A);

(3) striking out the comma after "needy persons" and all that follows in subsection (a)(1)(A), and inserting in lieu thereof a period;

(4) striking out "and 50 per centum of the related administrative expenses" in subsection (a)(1)(B) and inserting in lieu thereof "and related administrative expenses"; and

(5) striking out "a single agency which shall be" in clause (i) of subsection (b)(1)(A) and inserting in lieu thereof "the agency or agencies directly."

FEASIBILITY STUDY

SEC. 1528. The Secretary of Agriculture shall conduct a study to determine the feasibility of extending the food stamp program under the Food Stamp Act of 1977 to American Samoa. The Secretary shall complete the study and submit a report of the study to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives not later than April 1, 1986. In conducting the study, the Secretary shall—

(1) determine the various demographic and economic circumstances of the people of American Samoa; and

(2) analyze the features of the food stamp program under the Food Stamp Act of 1977, and the regulations issued thereunder, including benefit, eligibility, and administrative rules, that would have to be revised, with respect to American Samoa, to ensure that the program would operate efficiently and effectively in light of circumstances peculiar to American Samoa.

COMMODITY DISTRIBUTION PROGRAMS

SEC. 1529. (a) Effective October 1, 1985, section 4 of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note) is amended by—

(1) striking out "1982, 1983, 1984, and 1985" in the first sentence of subsection (a) and inserting in lieu thereof "1986, 1987, 1988, 1989, and 1990"; and

(2) in subsection (b), striking out "under 18 years of age" and inserting in lieu thereof "18 years of age and under".

(b) Effective October 1, 1985, section 5(a) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note) is amended by—

(1) striking out ", which projects shall operate no longer than two years, and" in clause (1) and inserting in lieu thereof a semicolon;

(2) striking out "1982 through 1985" in clause (2) and inserting in lieu thereof "1986 through 1990";

(3) redesignating clause (2) as clause (5); and

(4) inserting after clause (1) the following:

"(2) shall permit local agencies administering the commodity supplemental food program, at their option, to provide supplemental commodities, furnished under the program, to low-income elderly persons under terms and conditions that the Secretary by regulation shall prescribe to ensure that (A) the provision of assistance under this clause does not serve to restrict the provision of assistance under the program to women, infants, and children eligible for such assistance, and (B) local agencies do not terminate or reduce commodity assistance to women, infants, and children to provide assistance to the elderly; (3) shall, in any fiscal year, approve applications of additional sites for the program in areas in which the program currently does not operate to the full extent that this can be done within the appropriations available for the program for that fiscal year and without reducing actual participation levels (including participation of elderly persons under clause (2)) in areas in which the program is in effect; (4) shall provide information on the program and its application procedures to agencies that could operate the program and that are located in areas covered neither by the program nor by the special supplemental food program for women, infants, and children authorized under section 17 of the Child Nutrition Act of 1966;".

(c) Notwithstanding any other provision of law, in implementing the commodity supplemental food program under section 4 of the Agriculture and Consumer Protection Act of 1973, the Secretary of Agriculture shall allow agencies distributing agricultural commodities to low-income elderly people under such programs on the date of enactment of this Act to continue such distribution at levels no lower than existing caseloads.

(d) Effective October 1, 1985—

(1) section 209 of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is repealed; and

(2) clause (5) of section 5(a) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note), as so redesignated by subsection (b)(3), is amended by striking out "amount appropriated for the provision of commodities to State agencies" and inserting in lieu thereof "sum of (A) the amount appropriated for the commodity supplemental food program and (B) the value of all additional commodities donated by the Secretary to State and local agencies that are provided without charge or credit for distribution to program participants".

TITLE XVI—AMENDMENTS TO THE TEMPORARY EMERGENCY FOOD ASSISTANCE ACT OF 1983 AND OTHER COMMODITY DISTRIBUTION PROVISIONS

Subtitle A—Amendments to the Temporary Emergency Food Assistance Act of 1983

EMERGENCY FEEDING ORGANIZATIONS—DEFINITIONS

SEC. 1601. Section 201A of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by inserting, before the semicolon at the end of paragraph (1), the following:

"(including the activities and projects of charitable institutions, food banks, hunger centers, soup kitchens, and similar public or private nonprofit eligible recipient agencies) hereinafter in this title referred to as 'emergency feeding organizations'".

REPEAL OF PROVISIONS RELATING TO THE FOOD SECURITY WHEAT RESERVE

SEC. 1602. (a) Section 202 of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by—

(1) striking out the subsection designation for subsection (a); and

(2) striking out subsection (b).

(b) The second sentence of section 203A of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by striking out ", except that wheat from the Food Security Wheat Reserve may not be used to pay such costs".

REPEAL OF PROVISIONS RELATING TO PROCESSING AGREEMENTS

SEC. 1603. (a) Section 203 of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note), is repealed.

(b) Section 203B(a) of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by striking out "and to private companies that process such commodities for eligible recipient agencies under sections 203 and 203A of this Act".

STATE COOPERATION

SEC. 1604. Section 203B of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by adding at the end thereof the following:

"(d) Each State agency receiving commodities under this title may—

"(1) enter into cooperative agreements with State agencies of other States for joint provision of such commodities to an emergency feeding organization that serves needy persons in a single geographical area part of which is situated in each of such States; or

"(2) transfer such commodities to any such emergency feeding organization in the other State under such agreement.".

REPORT ON COMMODITY DISPLACEMENT

SEC. 1605. Section 203C(a) of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by adding at the end thereof the following: "The Secretary shall submit to Congress each year a report as to whether and to what extent such displacements or substitutions are occurring.".

AUTHORIZATION FOR FUNDING AND RELATED PROVISIONS

SEC. 1606. Section 204 of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by—

(1) redesignating subsection (c) as subsection (d); and

(2) after subsection (b), inserting the following:

"(c)(1) There are authorized to be appropriated $50,000,000 for each of the fiscal years ending September 30, 1986, and September 30, 1987, for the Secretary to make available to the States for State and local payments for costs associated with the distribution of commodities by emergency feeding organizations under this title. Funds appropriated under this paragraph for any fiscal year shall be allocated to the States on an advance basis, dividing such funds among the States in the same proportions as the commodities distributed under this title for such fiscal year are divided among the States. If a State agency is unable to use all of the funds so allocated to it, the Secretary shall reallocate such unused funds among the other States in the same manner as the original allocations were made.

"(2) Each State shall make available to emergency feeding organizations in the State not less than 20 per centum of the funds provided as authorized in paragraph (1) that it has been allocated for a fiscal year, as necessary to pay for, or provide advance payments to cover, the direct expenses of the emergency feeding organizations for distributing commodities to needy persons. As used in this paragraph, the term 'direct expenses' includes costs of transporting, storing, handling, and distributing commodities incurred after they are received by the organization; costs associated with determinations of eligibility, verification, and documentation; costs involved in publishing

announcements of times and locations of distribution; and costs of recordkeeping, auditing, and other administrative procedures required for participation in the program under this title. If a State makes a payment, using State funds, to cover direct expenses of emergency feeding organizations, the amount of such payment shall be counted toward the amount a State must make available for direct expenses of emergency feeding organizations under this paragraph.

"(3) States to which funds are allocated for a fiscal year under this subsection shall submit financial reports to the Secretary, on a regular basis, as to the use of such funds. No such funds may be used by States or emergency feeding organizations for costs other than those involved in covering the expenses related to the distribution of commodities by emergency feeding organizations.".

REAUTHORIZATIONS

SEC. 1607. Section 210 of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by—

(1) in subsection (c)—

(A) striking out "the fiscal years ending September 30, 1984, and September 30, 1985" and inserting in lieu thereof "the period beginning October 1, 1983, and ending September 30, 1987";

(B) striking out "prior to the beginning of the fiscal year ending September 30, 1985" and inserting in lieu thereof "as early as feasible but not later than the beginning of each of the fiscal years ending September 30, 1985, September 30, 1986, and September 30, 1987"; and

(C) striking out "second twelve months" and inserting in lieu thereof "such fiscal year"; and

(2) adding at the end thereof the following:

"(d) The regulations issued by the Secretary under this section shall include provisions that set standards with respect to liability for commodity losses under the program under this title in situations in which there is no evidence of negligence or fraud, and conditions for payment to cover such losses. Such provisions shall take into consideration the special needs and circumstances of emergency feeding organizations, including use of volunteers, limited financial resources, and the effect that sanctions could have on the ability of such organizations to meet the food needs of low-income populations.".

PROGRAM TERMINATION

SEC. 1608. Section 212 of the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note) is amended by striking out "September 30, 1985" and inserting in lieu thereof "September 30, 1987".

REPORT

SEC. 1609. Not later than April 1, 1987, the Secretary of Agriculture shall report to Congress on the activities of the program conducted under the Temporary Emergency Food Assistance Act of 1983. Such report shall include information on—

(1) the volume and types of commodities distributed under the program;

(2) the types of State and local agencies receiving commodities for distribution under the program;

(3) the populations served under the program and their characteristics;

(4) the Federal, State, and local costs of commodity distribution operations under the program (including transportation, storage, refrigeration, handling, distribution, and administrative costs); and

(5) the amount of Federal funds provided to cover State and local costs under the program.

Subtitle B—Commodity Distribution Amendments

DISTRIBUTION OF SURPLUS COMMODITIES; PROCESSING AGREEMENTS

SEC. 1611. Effective October 1, 1985, section 1114(a) of the Agriculture and Food Act of 1981 (7 U.S.C. 1431e) is amended by—

(1) inserting "(1)" after "(a)";

(2) in the first sentence, inserting "(including, but not limited to, cheese, nonfat dry milk, and wheat)" after "commodities" the first place it appears; and

(3) adding, at the end thereof, the following:

"(2)(A) Effective through September 30, 1987, whenever a commodity is made available without charge or credit under any nutrition program administered by the Secretary of Agriculture, the Secretary shall encourage consumption of such commodity through agreements with private companies under which the commodity is reprocessed into end-food products for use by eligible recipient agencies. The expense of reprocessing shall be paid by such eligible recipient agencies.

"(B) To maintain eligibility to enter into, and to continue, any agreement with the Secretary of Agriculture under subparagraph (A), a private company shall annually settle all accounts with the Secretary and any appropriate State agency regarding commodities processed under such agreements.".

TITLE XVII—NUTRITION PROGRAMS

Subtitle A—Food, Nutrition, and Consumer Education

FINDINGS

SEC. 1701. Congress finds that individuals in households eligible to participate in programs under the Food Stamp Act of 1977 and other low-income individuals, including those residing in rural areas, should have greater access to nutrition and consumer education to enable them to use their food budgets, including food assistance, effectively and to select and prepare foods that satisfy their nutritional needs and improve their diets.

PURPOSE

SEC. 1702. The purpose of the program provided for under section 1703 is to expand effective food, nutrition, and consumer education services to the greatest practicable number of low-income individuals, including those participating in or eligible to participate in the programs under the Food Stamp Act of 1977, to assist them to—

(1) increase their ability to manage their food budgets, including food stamps and other food assistance;

(2) increase their ability to buy food that satisfies nutritional needs and promotes good health; and

(3) improve their food preparation, storage, safety, preservation, and sanitation practices.

PROGRAM

SEC. 1703. The cooperative extension services of the States shall, with funds made available under this subtitle, carry out an expanded program of food, nutrition, and consumer education for low-income individuals in a manner designed to achieve the purpose set forth in section 1702. In operating the program, the cooperative extension services may use the expanded food and nutrition education program, and other food, nutrition, and consumer education activities of the cooperative extension services or similar activities carried out by them in collaboration with other public or private nonprofit agencies or organizations. In carrying out their responsibilities under the program, the cooperative extension services are encouraged to—

(1) provide effective and meaningful food, nutrition, and consumer education services to as many low-income individuals as possible;

(2) employ educational methodologies, including innovative approaches, that accomplish the purpose set forth in section 1702; and

(3) to the extent practicable, coordinate activities carried out under the program with the delivery to low-income individuals of benefits under food assistance programs.

ADMINISTRATION

SEC. 1704. (a) The program provided for under section 1703 shall be administered by the Secretary of Agriculture through the Extension Service, in consultation with the Food and Nutrition Service and the Human Nutrition Information Service. The Secretary shall ensure that the Extension Service coordinates activities carried out under this subtitle with the ongoing food, nutrition, and consumer education activities of other agencies of the Department of Agriculture.

(b) The Secretary of Agriculture, not later than April 1, 1989, shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report evaluating the effectiveness of the program provided for under section 1703.

AUTHORIZATION OF APPROPRIATIONS

SEC. 1705. (a) There are hereby authorized to be appropriated to to carry out this subtitle $5,000,000 for the fiscal year ending September 30, 1986; $6,000,000 for the fiscal year ending September 30, 1987; and $8,000,000 for each of the fiscal years ending September 30, 1988, September 30, 1989, and September 30, 1990.

(b) Any funds appropriated under this section for a fiscal year shall be allocated in the manner specified in subparagraphs (A) and (B) of section 1425(c)(2) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977.

(c) Any funds appropriated to carry out this subtitle shall supplement any other funds appropriated to the Department of Agriculture for use by the Department and the cooperative extension services of the States for food, nutrition, and consumer education for low-income households.

Subtitle B—Nutrition Monitoring

SURVEY BY THE DEPARTMENT OF AGRICULTURE

SEC. 1711. The Secretary of Agriculture shall—

(1) in conducting the Department of Agriculture's continuing survey of food intakes of individuals and any nationwide food consumption survey, include a sample that is representative of low-income individuals and, to the extent practicable, the collection of information on food purchases and other household expenditures by such individuals;

(2) to the extent practicable, continue to maintain the nutrient data base established by the Department of Agriculture; and

(3) encourage research by public and private entities relating to effective standards, methodologies, and technologies for accurate assessment of the nutritional and dietary status of individuals.

Division E—Miscellaneous

TITLE XVIII—MISCELLANEOUS

Subtitle A—Processing, Inspection, and Labelling

EGG PROCESSING

SEC. 1801. Section 8 of the Egg Products Inspection Act (21 U.S.C. 1037) is amended by—

(1) redesignating subsections (d) and (e) as subsections (e) and (f), respectively; and

(2) inserting after subsection (c) the following:

"(d) No person shall process, for commerce, any eggs for human food in any manner that—

"(1) does not allow examination of the content of individuals eggs being processed; and

"(2) allows egg content to commingle with the egg shell or shell membrane during processing.".

INSPECTION AND OTHER STANDARDS FOR IMPORTED POULTRY PRODUCTS

SEC. 1802. (a) Section 18 of the Poultry Products Inspection Act (21 U.S.C. 467) is amended by adding at the end thereof the following:

"(d) Notwithstanding any other provision of law, all poultry or poultry products capable of use as human food, offered for importation into the United States, shall be subject to the same inspection, sanitary, quality, species verification, and residue standards applied to products produced in the United States. Any such imported poultry articles that do not meet such standards shall not be permitted entry into the United States. The Secretary shall enforce this provision through (1) the imposition of random inspections for such species verification and for residues, and (2) random sampling and testing of internal organs and fat of the carcasses for residues at the point of slaughter by the exporting country in accordance with methods approved by the Secretary.".

(b) This section shall take effect six months after the date of enactment of this Act.

INSPECTION AND OTHER STANDARDS FOR IMPORTED MEAT AND MEAT FOOD PRODUCTS

SEC. 1803. Section 20(f) of the Federal Meat Inspection Act (21 U.S.C. 620(f)) is amended by striking out the last sentence and inserting in lieu thereof the following:

"Each foreign country from which such meat articles are offered for importation into the United States shall obtain a certification issued by the Secretary stating that the country maintains a program using reliable analytical methods to ensure compliance with the United States standards for residues in such meat articles. No such meat articles shall be permitted entry into the United States from a country for which the Secretary has not issued such certification. The Secretary shall periodically review such certifications and shall revoke any certification if the Secretary determines that the country involved is not maintaining a program that uses reliable analytical methods to ensure compliance with United States standards for residues in such meat articles. The consideration of any application for a certification under this subsection and the review of any such certification, by the Secretary, shall include the inspection of individual establishments to ensure that the inspection program of the foreign country involved is meeting such United States standards.".

EXAMINATION AND REPORT OF LABELING AND SANITATION STANDARDS FOR IMPORTATION OF AGRICULTURAL COMMODITIES

SEC. 1804. (a)(1) The Comptroller General of the United States shall conduct a study of Department of Health and Human Services and Department of Agriculture product purity and inspection requirements and regulations currently in effect for imported food products and agricultural commodities. The study shall evaluate the effectiveness of Federal regulations and inspection procedures to detect prohibited chemical residues and foreign matter in or on food or raw agricultural commodities in processed or unprocessed form.

(2) The study shall include a review of Federal regulations and inspection procedures currently in effect to detect in imported live animals chemical and chemical residues the use of which is prohibited in the production of domestic live animals.

(3) The study shall include recommendations regarding the feasibility of requiring that quality control reports relating to product purity and inspection procedures be submitted from processing plants certified by the Secretary of Agriculture as eligible to export meat and meat food products to the United States.

(4) The study shall include recommendations on the adequacy of the Department of Health and Human Services and the Department of Agriculture to prescribe and enforce food sanitation requirements and chemical and chemical residue standards for imported agricultural commodities and food products.

(e) The study also shall evaluate the feasibility of requiring all imported meat and meat food products, agricultural commodities, and products of such commodities to bear a label stating the country of origin of such commodities and products. The study shall include an evaluation of the feasibility of requiring any person owning or operating an eating establishment that serves any meat or meat food product required to be marked or labeled under paragraph (1) or (2) of section 7(c) of the Federal Meat Inspection Act (21 U.S.C. 607(c)) to inform individuals purchasing food from such establishment that meat or meat food products served at the establishment may be imported articles—

(1) by displaying a sign indicating that imported meat is served in such establishment; or

(2) by providing the information specified in paragraph (1) of such section 7(c) on the menus offered to such individuals.

(c) The Secretary shall submit the results of the study conducted under subsection (a) to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate not later than one year after the date of enactment of this Act.

Subtitle B—Beef Promotion and Research Act of 1985

AMENDMENT TO BEEF RESEARCH AND INFORMATION ACT

SEC. 1811. (a) This section may be cited as the "Beef Promotion and Research Act of 1985".

(b) Sections 2 through 20 of the Beef Research and Information Act (7 U.S.C. 2901-2918) are amended to read as follows:

"CONGRESSIONAL FINDINGS AND DECLARATION OF POLICY

"SEC. 2. (a) Congress finds that—

"(1) beef and beef products are basic foods that are a valuable part of human diet;

"(2) the production of beef and beef products plays a significant role in the Nation's economy, beef and beef products are produced by thousands of beef producers and processed by numerous processing entities, and beef and beef products are consumed by millions of people throughout the United States and foreign countries;

"(3) beef and beef products should be readily available and marketed efficiently to ensure that the people of the United States receive adequate nourishment;

"(4) the maintenance and expansion of existing markets for beef and beef products are vital to the welfare of beef producers and those concerned with marketing, using, and producing beef products, as well as to the general economy of the Nation;

"(5) there exist established State and national organizations conducting beef promotion, research, and consumer education programs that are invaluable to the efforts of promoting the consumption of beef and beef products; and

"(6) beef and beef products move in interstate and foreign commerce, and beef and beef products that do not move in such channels of commerce directly burden or affect interstate commerce of beef and beef products.

"(b) It, therefore, is declared to be the policy of Congress that it is in the public interest to authorize the establishment, through the exercise of the powers provided herein, of an orderly procedure for financing (through assessments on all cattle sold in the United States and on cattle, beef, and beef products imported into the United States) and carrying out a coordinated program of promotion and research designed to strengthen the beef industry's position in the marketplace and to maintain and expand domestic and foreign markets and uses for beef and beef products. Nothing in this Act shall be construed to limit the right of individual producers to raise cattle.

"DEFINITIONS

"SEC. 3. For purposes of this Act—

"(1) the term 'promotion' means any action, including paid advertising, to advance the image and desirability of beef and beef products with the express intent of improving the competitive position and stimulating sales of beef and beef products in the marketplace;

"(2) the term 'research' means studies testing the effectiveness of market development and promotion efforts, studies relating to the nutritional value of beef and beef products, other related food science research, and new product development;

"(3) the term 'consumer information' means nutritional data and other information that will assist consumers and other persons in making evaluations and decisions regarding the purchasing, preparing, and use of beef and beef products;

"(4) the term 'industry information' means information and programs that will lead to the development of new markets, marketing strategies, increased efficiency, and activities to enhance the image of the cattle industry;

"(5) the term 'Board' means the Cattlemen's Beef Promotion and Research Board established under section 5(1);

"(6) the term 'Committee' means the Beef Promotion Operating Committee established under section 5(4);

"(7) the term 'person' means any individual, group of individuals, partnership, corporation, association, cooperative, or any other entity;

"(8) the term 'cattle' means live domesticated bovine animals regardless of age;

"(9) the term 'beef' means flesh of cattle;

"(10) the term 'beef products' means edible products produced in whole or in part from beef, exclusive of milk and products made therefrom;

"(11) the term 'producer' means any person who owns or acquires ownership of cattle, except that a person shall not be considered to be a producer if the person's only share in the proceeds of a sale of cattle or beef is a sales commission, handling fee, or other service fee;

"(12) the term 'importer' means any person who imports cattle, beef, or beef products from outside the United States;

"(13) the term 'United States' means the several States and the District of Columbia;

"(14) the term 'qualified State beef council' means a beef promotion entity that is authorized by State statute or is organized and operating within a State, that receives voluntary contributions and conducts beef promotion, research, and consumer information programs, and that is recognized by the Board as the beef promotion entity within such State;

"(15) the term 'Secretary' means the Secretary of Agriculture; and

"(16) the term 'Department' means the Department of Agriculture.

"ISSUANCE OF ORDERS

"SEC. 4. (a) During the period beginning on the effective date of this section and ending thirty days after receipt of a proposal for a beef promotion and research order, the Secretary shall publish such proposed order and give due notice and opportunity for public comment on such proposed order. Such proposal may be submitted by any organization meeting the requirements for certification under section 6 or any interested person, including the Secretary.

"(b) After notice and opportunity for public comment are given, as provided for in subsection (a), the Secretary shall issue a beef promotion and research order. The order shall become effective not later than one hundred and twenty days following publication of the proposed order.

"REQUIRED TERMS IN ORDERS

"SEC. 5. An order issued under section 4(b) shall contain the following terms and conditions:

"(1) The order shall provide for the establishment and selection of a Cattlemen's Beef Promotion and Research Board. Members of the Board shall be cattle producers and importers appointed by the Secretary from (A) nominations submitted by eligible State organizations certified under section 6 (or, if the Secretary determines that there is no eligible State organization in a State, the Secretary may provide for nominations from such State to be made in a different manner), and (B) nominations submitted by importers under such procedures as the Secretary determines appropriate. In determining geographic representation for cattle producers on the Board, whole States shall be considered as a unit. Each unit that includes a total cattle inventory greater than five hundred thousand head shall be entitled to at least one representative on the Board. If there are units that do not have total cattle inventories equal to or greater than five hundred thousand head, such units shall be combined and provided collective representation on the Board. A unit may be represented on the Board by more than one member. For each additional million head of cattle within a unit, such unit shall be entitled to an additional member on the Board. The Board may recommend a change in the level of inventory per unit necessary for representation on the Board and, on such recommendation, the Secretary may change the level necessary for representation on the Board. The number of members on the Board that represent importers shall be determined by the Secretary on a proportional basis, by converting the volume of imported beef and beef products into live animal equivalencies.

"(2) The order shall define the powers and duties of the Board, which shall be exercised at an annual meeting, and shall include only the following powers:

"(A) To administer the order in accordance with its terms and provisions.

"(B) To make rules and regulations to effectuate the terms and provisions of the order.

"(C) To elect members of the Board to serve on the Committee.

"(D) To approve or disapprove budgets submitted by the Committee.

"(E) To receive, investigate, and report to the Secretary complaints of violations of the order.

"(F) To recommend to the Secretary amendments to the order.

In addition, the order shall determine the circumstances under which special meetings of the Board may be held.

"(3) The order shall provide that the term of appointment to the Board shall be three years with no member serving more than two consecutive terms, except that initial appointments shall be proportionately for one-year, two-year, and three-year terms; and that Board members shall serve without compensation, but shall be reimbursed for their reasonable expenses incurred in performing their duties as members of the Board.

"(4) The order shall provide that the Board shall elect from its membership ten members to serve on the Beef Promotion Operating Committee, which shall be composed of ten members of the Board and ten producers elected by a federation that includes as members the qualified State beef councils. The producers elected by the federation shall be certified by the Secretary as producers that are directors of a qualified State beef council. The Secretary also shall certify that such directors are duly elected by the federation as representatives to the Committee. The Committee shall develop plans or projects of promotion and advertising, research, consumer information, and industry information, which shall be paid for with assessments collected by the Board. The Committee shall be responsible for developing and submitting to the Board, for its approval, budgets on a fiscal year basis of its anticipated expenses and disbursements, including probable costs of advertising and promotion, research, consumer information, and industry information projects. The Board shall approve or disapprove such budgets and, if approved, shall submit such budget to the Secretary for the Secretary's approval. The total costs of collection of assessments and administrative staff incurred by the Board during any fiscal year shall not exceed 5 per centum of the projected total assessments to be collected by the Board for such fiscal year. The Board shall use, to the extent possible, the resources, staffs, and facilities of existing organizations.

"(5) The order shall provide that terms of appointment to the Committee shall be one year, and that no person may serve on the Committee for more than six consecutive terms. Committee members shall serve without compensation, but shall be reimbursed for their reasonable expenses incurred in performing their duties as members of the Committee. The Committee shall use staff and facilities of the Board and of industry organizations to prevent duplication and inefficient use of funds, except that staff of industry organizations may not receive compensation from the Board, but shall be reimbursed for their reasonable expenses incurred in performing their duties on behalf of the Committee.

"(6) The order shall provide that, to ensure coordination and efficient use of funds, the Committee shall enter into contracts or agreements for implementing and carrying out the activities authorized by this Act with established national nonprofit industry-governed organizations, including the federation referred to in paragraph (4), to implement programs of promotion, research, consumer information, and industry information. Any such contract or agreement shall provide that—

"(A) the person entering the contract or agreement shall develop and submit to the Committee a plan or project together with a budget or budgets that shows estimated costs to be incurred for the plan or project;

"(B) the plan or project shall become effective on the approval of the Secretary; and

"(C) the person entering the contract or agreement shall keep accurate records of all of its transactions, account for funds received and expended, and make periodic reports to the Committee of activities conducted, and such other reports as the Secretary, the Board, or the Committee may require.

"(7) The order shall require the Board and the Committee to—

"(A) maintain such books and records, which shall be available to the Secretary for inspection and audit, as the Secretary may prescribe;

"(B) prepare and submit to the Secretary, from time to time, such reports as the Secretary may prescribe; and

"(C) account for the receipt and disbursement of all funds entrusted to them.

"(8) The order shall provide that each person making payment to a producer for cattle purchased from the producer shall, in the manner prescribed by the order, collect an assessment and remit the assessment to the Board. The Board shall use qualified State beef councils to collect such assessments. The order also shall provide that each importer of cattle, beef, or beef products shall pay an assessment, in the manner prescribed by the order, to the Board. The assessments shall be used for payment of the costs of plans and projects, as provided for in paragraph (4), and expenses in administering the order, including more administrative costs incurred by the Secretary after the order has been promulgated under this Act, and to establish a reasonable reserve. The rate of assessment prescribed by the order shall be one dollar per head of cattle, or the equivalent thereof in the case of imported beef and beef products. A producer who can establish that the producer is participating in a program of an established qualified State beef council shall receive credit, in determining the assessment due from such producer, for contributions to such program of up to 50 cents per head of cattle or the equivalent thereof. There shall be only one qualified State beef council in each State. Any person marketing from beef from cattle of the person's own production shall remit

the assessment to the Board in the manner prescribed by the order.

"(9) The order shall provide that the Board, with the approval of the Secretary, may invest, pending disbursement, funds collected through assessments only in obligations of the United States or any agency thereof, in general obligations of any State or any political subdivision thereof, in any interest-bearing account or certificate of deposit of a bank that is a member of the Federal Reserve System, or in obligations fully guaranteed as to principal and interest by the United States.

"(10) The order shall prohibit any funds collected by the Board under the order from being used in any manner for the purpose of influencing governmental action or policy, with the exception of recommending amendments to the order.

"(11) The order shall require that each person making payment to a producer, any person marketing beef from cattle of the person's own production directly to consumers, and any importer of cattle, beef, or beef products maintain and make available for inspection such books and records as may be required by the order and file reports at the time, in the manner, and having the content prescribed by the order. Such information shall be made available to the Secretary as is appropriate to the administration or enforcement of this Act, the order, or any regulation issued under this Act. In addition, the Secretary shall authorize the use of information regarding persons paying producers that is accumulated under a law or regulation other than this Act or regulations under this Act.

"All information so obtained shall be kept confidential by all officers and employees of the Department, and only such information so obtained as the Secretary deems relevant may be disclosed by them and then only in a suit or administrative hearing brought at the request of the Secretary, or to which the Secretary or any officer of the United States is a party, and involving the order. Nothing in this paragraph may be deemed to prohibit—

"(A) the issuance of general statements, based on the reports, of the number of persons subject to the order or statistical data collected therefrom, which statements do not identify the information furnished by any person; or

"(B) the publication, by direction of the Secretary, of the name of any person violating the order, together with a statement of the particular provisions of the order violated by the person.

"No information obtained under the authority of this Act may be made available to any agency or officer of the United States for any purpose other than the implementation of this Act and any investigatory or enforcement act necessary for the implementation of this Act. Any person violating the provisions of this paragraph shall, on conviction, be subject to a fine of not more than $1,000, or to imprisonment for not more than one year, or both, and if an officer or employee of the Board or the Department, shall be removed from office.

"(12) The order shall contain terms and conditions, not inconsistent with the provisions of this Act, as necessary to effectuate the provisions of the order.

"CERTIFICATION OF ORGANIZATIONS TO NOMINATE

"SEC. 6. (a) The eligibility of any State organization to represent producers and to participate in the making of nominations under section 5(1) shall be certified by the Secretary. The Secretary shall certify any State organization that the Secretary determines meets the eligibility criteria established under subsection (b) and such determination as to eligibility shall be final.

"(b) A State cattle association or State general farm organization may be certified as described in subsection (a) if such association or organization meets all of the following eligibility criteria:

"(1) The association or organization's total paid membership is comprised of at least a majority of cattle producers or the association or organization's total paid membership represents at least a majority of the cattle producers in the State.

"(2) The association or organization represents a substantial number of producers that produce a substantial number of cattle in the State.

"(3) The association or organization has a history of stability and permanency.

"(4) A primary or overriding purpose of the association or organization is to promote the economic welfare of cattle producers.

"(c) Certification of State cattle associations and State general farm organizations shall be based on a factual report submitted by the association or organization involved.

"(d) If more than one State organization is certified in a State (or in a unit referred to in section 5(1)), such organizations may caucus to determine any of such State's (or such unit's) nominations under section 5(1).

"REQUIREMENT OF REFERENDUM

"SEC. 7. (a) During the twenty-fourth month following implementation of the order issued under this Act, unless the Board recommends an earlier date, in which event such earlier date shall be used, the Secretary shall conduct a referendum among cattle producers who, during a representative period as determined by the Secretary, have been engaged in the production of cattle for the purpose of ascertaining whether the order shall be continued. The order shall be continued only if the Secretary determines that it has been approved by not less than a majority of the producers voting in the referendum who, during a representative period as determined by the Secretary, have been engaged in the production of cattle. If continuation of the order is not approved by a majority of those voting in the referendum, the Secretary shall terminate collection of assessments under the order within six months after the Secretary determines that continuation of the order is not favored by a majority voting in the referendum and shall terminate the order in an orderly manner as soon as practicable after such determination.

"(b) After the initial referendum, the Secretary may conduct a referendum on the request of a representative group comprising 10 per centum or more of the number of cattle producers to determine whether cattle producers favor the termination or suspension of the order. The Secretary shall suspend or terminate collection of assessments under the order within six months after the Secretary determines that suspension or termination of the order is favored by a majority of the producers voting in the referendum who, during a representative period as determined by the Secretary, have been engaged in the production of cattle and shall terminate or suspend the order in an orderly manner as soon as practicable after such determination.

"(c) The Department shall be reimbursed from assessments collected by the Board for any expenses incurred by the Department in connection with conducting any referendum under this section, except for the salaries of Government employees. Any referendum conducted under this section shall be conducted on a date established by the Secretary, whereby producers shall certify that they were engaged in the production of cattle during the representative period and, on the same day, shall be provided an opportunity to vote in the referendum. Each referendum shall be conducted at county extension offices, and there shall be provision for an absentee mail ballot on request.

"ENFORCEMENT

"SEC. 8. The Secretary may issue orders to restrain or prevent any person from violating the order issued under section 4(b), or regulation issued thereunder, and may assess a civil penalty of not more than $1,000 for violation of the order issued under section 4(b), following an opportunity for an administrative hearing on the record, whenever the Secretary believes that the administration and enforcement of this Act and the order would be adequately served by such procedure. The district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, the order or any regulation made or issued under this Act. Any civil action authorized to be brought under this section shall be referred to the Attorney General for appropriate action.

"INVESTIGATIONS; POWER TO SUBPOENA AND TAKE OATHS AND AFFIRMATIONS; AID OF COURTS

"SEC. 9. The Secretary may make such investigations as the Secretary deems necessary for the effective administration of this Act or to determine whether any person subject to this Act has engaged or is about to engage in any act that constitutes or will constitute a violation of this Act, the order, or any rule or regulation issued under this Act. For the purpose of such investigation, the Secretary may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any records that are relevant to the inquiry. The attendance of witnesses and the production of records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpoena to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the attendance and testimony of the person and the production of records. The court may issue an order requiring such person to appear before the Secretary to produce records or to give testimony regarding the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt thereof. Process in any such case may be served in the judicial district in which such person is an inhabitant or wherever such person may be found.

"ADMINISTRATIVE PROVISIONS

"SEC. 10. (a) Nothing in this Act may be construed to preempt or supersede any other program relating to beef promotion organized and operated under the laws of the United States or any State.

"(b) The provisions of this Act applicable to the order shall be applicable to amendments to the order.

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 11. There are authorized to be appropriated such sums as may be necessary to carry out this Act. Sums appropriated to

carry out this Act shall not be available for payment of the expenses or expenditures of the Board or the Committee in administering any provisions of the order issued under section 4(b) of this Act.".

(c) The amendments made by this section shall take effect on October 1, 1985.

Subtitle C—Pork Promotion, Research, and Consumer Information Act of 1985

SHORT TITLE

SEC. 1821. This subtitle may be cited as the "Pork Promotion, Research, and Consumer Information Act of 1985".

FINDINGS AND DECLARATION OF PURPOSE

SEC. 1822. (a) Congress finds that—

(1) pork and pork products are basic foods that are a valuable and healthy part of the human diet;

(2) the production of pork and pork products plays a significant role in the economy of the United States, because pork and pork products are produced by thousands of producers, organized in a federation by county, State, and national associations that include many small and medium-sized producers, and because pork and pork products are consumed by millions of people throughout the United States on a daily basis;

(3) pork and pork products must be readily available and marketed efficiently to ensure that the people of the United States receive adequate nourishment;

(4) the maintenance and expansion of existing markets and development of new markets for pork and pork products are vital to the welfare of pork producers and those concerned with producing and marketing pork and pork products, as well as to the general economy of the United States;

(5) pork and pork products move in interstate and foreign commerce, and pork and pork products that do not move in such channels of commerce directly burden or affect interstate commerce in pork and pork products; and

(6) in recent years, increasing quantities of low-cost, imported pork and pork products have been brought into the United States, replacing domestic pork and pork products in normal channels of trade.

(b)(1) It is, therefore, the purpose of this subtitle to authorize the establishment of an orderly procedure for financing, through an adequate assessment, an effective and coordinated program of promotion, research, and consumer information designed to strengthen the position of the pork industry in the marketplace and to maintain, develop, and expand markets for pork and pork products. Such procedure shall be implemented and such program shall be conducted at no cost to the Government of the United States.

(2) Nothing in this subtitle may be construed to—

(A) permit or require the imposition of quality standards for pork or pork products;

(B) provide for control of the production of pork or pork products, or

(C) otherwise limit the right of the individual pork producer to produce pork and pork products.

DEFINITIONS

SEC. 1823. For purposes of this subtitle—

(1) the term "porcine animals" means swine raised for slaughter, feeder pigs, or seedstock;

(2) the term "pork" means the flesh of porcine animals;

(3) the term "pork products" means products produced or processed in whole or in part from pork;

(4) the term "Secretary" means the Secretary of Agriculture;

(5) the term "person" means any individual, group of individuals, partnership, corporation, association, organization, cooperative, or any other entity;

(6) the term "pork producer" means any person who produces porcine animals in the United States for sale in commerce;

(7) the term "importer" means any person who imports porcine animals, pork, or pork products into the United States;

(8) the term "promotion" means any action, including paid advertising, to present a favorable image for porcine animals, pork, or pork products to the public with the express intent of improving the competitive position and stimulating sales of porcine animals, pork, or pork products;

(9) the term "research" means any type of research designed to advance, expand, or improve the image, desirability, nutritional values, usage, marketability, production, or quality of porcine animals, pork, or pork products as well as any dissemination to any person of the results of such research;

(10) the term "consumer information" means activities intended to broaden the understanding of sound nutritional principles as they relate to pork and pork products, including the role of pork and pork products in a balanced, healthy diet;

(11) the term "marketing" means the sale or other disposition in commerce of pork or pork products;

(12) the term "Delegate Body" means the National Pork Producers Delegate Body provided for under section 1827(b) of this subtitle;

(13) the term "Board" means the National Pork Producers Board of Directors provided for under section 1827(c) of this subtitle;

(14) the term "Committee" means the National Pork Producers Executive Committee provided for under section 1827(d) of this subtitle;

(15) the term "order" means a pork and pork products promotion, research, and consumer information order issued under section 1826;

(16) the term "State association" means the organization of pork producers in a State that is generally recognized as representing the pork producers of that State;

(17) the term "State" means any of the 50 States; and

(18) the term "gross amount of checkoff" means the total amount of assessment collected throughout the United States under section 1827(g) in any applicable period of time.

PORK AND PORK PRODUCTS ORDER

SEC. 1824. To effectuate the declared policy of this subtitle, the Secretary shall, in accordance with this subtitle, issue and, from time to time, may amend orders applicable to persons engaged in the production and sale of pork and pork products in the United States. Not more than one order shall be in effect at any given time. Each order issued under this section shall become effective not more than 90 days following the publication of such order.

NOTICE AND HEARING

SEC. 1825. During the period ending 30 days after receipt of a proposal for an order submitted by any person who might be affected by this subtitle, the Secretary shall publish the proposed order and give due notice of and opportunity for a hearing on the proposed order.

FINDINGS AND ISSUANCE OF AN ORDER

SEC. 1826. After notice of and opportunity for a hearing has been provided in accordance with section 1825, the Secretary shall issue and publish an order if the Secretary finds, and sets forth in such order, that, on the evidence introduced at such hearing, the issuance of the order and all the terms and conditions thereof will assist in carrying out the purpose of this subtitle.

REQUIRED TERMS AND CONDITIONS IN ORDERS

SEC. 1827. (a) Any order issued by the Secretary under this subtitle shall contain the terms and conditions described in this section and, except as provided in section 1828, no others.

(b)(1) The order shall provide for the establishment and appointment by the Secretary, within 30 days of the effective date of the order, of a National Pork Producers Delegate Body, which shall consist of one or more members from each State. Nominations of members of the Delegate Body shall be submitted by each State association. Each State entitled to only one Delegate Body member may nominate an alternate who may attend Delegate Body meetings, but who shall serve only when the member is absent from a meeting. If a State association does not submit nominations, or there is no State association in a State, the Secretary may provide for nominations from that State to be made in a different manner.

(2) Members of the Delegate Body shall serve for a term of one year.

(3) At the first annual meeting, the Delegate Body shall select a Chairman by a majority vote. At every annual meeting thereafter, the Chairman of the Delegate Body shall be the President of the Committee provided for in subsection (d).

(4) The members of the Delegate Body shall serve without compensation, but shall be reimbursed for their reasonable expenses incurred in performing their duties as members of the Delegate Body.

(5) The Delegate Body shall nominate 11 pork producer members for appointment to the Committee from among the members of the Board provided for in subsection (c) and shall submit such nominations to the Secretary. The Delegate Body shall meet annually to make such nominations. A majority of the Delegate Body shall vote in person to nominate members to the Committee.

(c)(1) The order shall provide for the establishment and appointment by the Secretary, within 30 days after the effective date of the order, of a National Pork Producers Board of Directors whose primary function shall be to serve as liaison between the State associations and the Committee and to counsel with and advise the Committee on policy matters. The Board shall consist of one member from each State who is also a member of the Delegate Body and who is appointed from nominations submitted by each State association or, if a State association does not submit nominations or if there is no association in a State, from nominations submitted in a manner provided for by the Secretary.

(2) Members of the Board shall serve for 3-year terms, with no member serving more than two consecutive 3-years terms, except that initial appointments to the Board shall be staggered with an equal number of members appointed, to the maximum extent possible, to 1-year, 2-year, and 3-year terms.

(3) The Chairman of the Board shall be the President of the Committee provided for in subsection (d)(3).

(4) The members of the Board shall serve without compensation, but shall be reimbursed for their reasonable expenses incurred in performing their duties as members of the Board.

(d)(1) The order shall provide for the establishment and appointment by the Secretary of an 11-member National Pork Producers Executive Committee consisting of pork producers from among the members of the Board from nominations submitted to the Secretary by the Delegate Body in accordance with subsection (b)(5).

(2) Members of the Committee shall serve for 3-year terms with no member serving more than two consecutive 3-year terms, except that initial appointments to the Committee shall be staggered with an equal number of members appointed, to the maximum extent possible, to 1-year, 2-year, and 3-year terms.

(3) The Committee shall select its President by a majority vote.

(4) A majority of the members of the Committee shall constitute a quorum at any meeting of the Committee, and a majority of votes cast at any meeting at which a quorum is present shall determine any motion or election.

(5) Members of the Committee shall serve without compensation, but shall be reimbursed for their reasonable expenses incurred in performing their duties as members of the Committee.

(6) The powers and duties of the Committee shall be to—

(A) develop on its own initiative, as well as to receive from other persons, proposals for promotion, research, and consumer information plans or projects and submit to the Secretary for approval any such plans or projects. Each plan or project must be approved by the Secretary before becoming effective;

(B) administer the order in accordance with its terms and provisions and consistent with the provision of this subtitle;

(C) prescribe rules and regulations to effectuate the terms and provisions of the order;

(D) receive, investigate, and report to the Secretary, complaints of violations of the order,

(E) make recommendations to the Secretary with respect to amendments that should be made to the order; and

(F) employ a staff and conduct routine business.

(e) The order shall provide that the Committee shall prepare and submit to the Secretary, for the Secretary's approval, budgets (on a fiscal period basis) of its anticipated expenses and disbursements in the administration of the order, including projected costs of pork and pork products promotion, research, and consumer information plans or projects.

(f) The order shall provide that the Committee, with the approval of the Secretary, may enter into contracts or agreements with any person for the development and conduct of the activities authorized under the order and for the payment of the cost thereof with funds collected through assessments under the order. Any such contract or agreement shall provide that—

(1) the person entering the contract or agreement shall develop and submit to the Committee a plan or project together with a budget or budgets that shall show the estimated costs to be incurred from the plan or project;

(2) any such plan or project shall become effective on the approval of the Secretary; and

(3) the person entering the contract or agreement shall keep accurate records of all of its transactions and make periodic reports to the Committee of the activities it has conducted and accounting for funds received and expended, and such other reports as the Secretary or the Committee may require.

(g) The order shall provide that, in the manner prescribed by the order—

(1) each person who makes payment to a pork producer for porcine animals, pork, or pork products produced in the United States; and

(2) each importer with respect to imported porcine animals, pork, and pork products;

shall pay an assessment to the Committee, unless such person or importer proves that an assessment was previously paid under this subtitle by any person with respect to such porcine animals, pork, or pork products. The rate of assessment prescribed by the initial order shall be three-tenths of one per centum of the market value of the porcine animals, pork, or pork products involved in the sale or of the imported porcine animals, pork, or pork products. In orders issued after the initial order, the rate of assessment may be increased pursuant to a majority vote of the Delegate Body. No such increase may exceed one-tenth of one per centum of the market value and the rate of assessment may not exceed five-tenths of one per centum unless the Delegate Body, after the initial referendum called for in section 1829(a), recommends additional increases in the rate of assessment in any amount it determines and such additional increases are approved in a mandatory referendum conducted under section 1830(b).

(h) The order shall provide that funds collected by the Committee from the assessments shall be distributed in the following manner:

(1) Each State association that is operating a State pork promotion program under State law or on a voluntary basis as of the date of enactment of this Act shall receive an amount equal to the product of the gross amount of checkoff and the percentage applicable to such State association determined by the Delegate Body, to use for the purposes described in paragraph (3)(A) and for the administrative expenses of such association.

(2) The National Pork Producers Council, a nonprofit corporation of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 and incorporated in the State of Iowa, shall receive an amount equal to 60 per centum of the gross amount of checkoff, to use for the purposes described in paragraph (3)(A) and for the administrative expenses of that organization.

(3) The Committee shall retain the remaining funds for use in—

(A) financing promotion, research, and consumer information plans or projects in accordance with this section;

(B) expenses for the administration, maintenance, and functioning of the Committee as may be authorized by the Secretary;

(C) accumulation of reasonable reserve funds to permit an effective promotion, research, and consumer information program to continue in years when the assessment income may be reduced; and

(D) administrative costs incurred by the Secretary to carry out this subtitle after an order has been promulgated under this subtitle, including any expenses incurred for the conduct of referenda under this subtitle.

(i) The order shall provide that no promotion funded with assessments collected under this subtitle may make any false or misleading claims on behalf of pork or pork products or false or misleading statements with respect to the attributes or use of any competing product.

(j) The order shall provide that no funds collected through assessments may be used, in any manner, for the purpose of influencing legislation as defined in subsections (d) and (e)(2) of section 4911 of the Internal Revenue Code of 1954.

(k) The order shall provide that the Committee shall maintain books and records and prepare and submit to the Secretary such reports from time to time as may be required by the Secretary for appropriate accounting with respect to the receipt and disbursement of funds entrusted to it, and shall cause a complete audit report to be submitted to the Secretary at the end of each fiscal year.

(l) The order shall provide that the Committee, with the approval of the Secretary, may invest, pending disbursement under a plan or project, funds collected through assessments only in obligations of the United States, or of any State or any political subdivision thereof, in any interest-bearing account or certificate of deposit of a bank that is a member of the Federal Reserve System, or in obligations fully guaranteed as to principal and interest by the United States.

PERMISSIVE PROVISIONS

SEC. 1828. (a) On the recommendation of the Delegate Body or Committee, and with the approval of the Secretary, any order issued by the Secretary under this subtitle may contain one or more of the provisions described in this section.

(b)(1) The order may provide that each person purchasing porcine animals from pork producers for commercial use and each importer shall maintain and make available for inspection such books and records as may be specified by the order and file reports at the time, in the manner, and having the content prescribed by the order, including documentation of the State of origin of the porcine animals being purchased or the place of origin of the porcine animals, pork, or pork products being imported. Such information shall be made available to the Secretary and the Committee as is appropriate or necessary to the effectuation, administration, or enforcement of this subtitle or of any order issued under to this subtitle.

(2) All information obtained under paragraph (1) shall be kept confidential by all employees of the Secretary and of the Committee. Only such information as the Secretary deems relevant shall be disclosed and only in a suit or administrative hearing brought at the direction or on the request of the Secretary, or to which the Secretary or any officer of the United States is a party, involving the order with reference to which the information was furnished or acquired. Nothing in this paragraph shall prohibit—

(A) issuance of general statements based on the reports of a number of persons subject to any order or statistical data collected therefrom if such statements or data do not identify the information furnished by any person; or

(B) the publication, by direction of the Secretary, of the name of any person violating any order issued under this subtitle, together with a statement of the particular provisions of the order violated by such person.

Any person willfully violating this paragraph shall, upon conviction, be subject to a fine of not more than $1,000 or to imprisonment for not more than one year, or to both, and, if an employee of the Committee or the Secretary, shall be removed from office.

(c) The order may contain terms and conditions incidental to, and not inconsistent

with, the terms and conditions specified in this subtitle and necessary to effectuate the other provisions of the order.

REQUIREMENT OF REFERENDUM

SEC. 1829. (a) The Secretary shall conduct a referendum during a period not earlier than two years, and not later than three years, after the date of the enactment of this Act, among pork producers who, during a representative period (as determined by the Secretary), have marketed the equivalent of at least 50 porcine animals a year, for the purpose of ascertaining whether the order then in effect shall be continued. Such order shall be continued only if the Secretary determines that it has been approved by not less than a majority of the pork producers voting in the referendum. If continuation of the order is not approved by a majority of the pork producers voting in the referendum, the Secretary shall terminate collection of assessments under the order within six months and shall terminate the order in an orderly manner as soon as practicable after such determination.

(b) The Secretary shall be reimbursed from assessments collected by the Committee for any expenses (other than compensation payable to officers and employees of the United States) incurred in connection with conducting any referendum under this section and section 1830.

SUSPENSION AND TERMINATION OF ORDERS; ADDITIONAL REFERENDA

SEC. 1830. (a) After the initial referendum provided for in section 1829(a), the Secretary shall, whenever the Secretary finds that any order issued under this subtitle or any provision of the order obstructs or does not tend to effectuate the declared policy of this subtitle, terminate or suspend the operation of such order or such provisions.

(b) After the initial referendum provided for in section 1829(a), the Secretary shall, on request of a number of pork producers who, during a representative period (as determined by the Secretary) have marketed the equivalent of at least 50 porcine animals and compromise 15 per centum or more of the number of pork producers subject to the order, conduct a referendum to determine whether the producers favor the termination or suspension of the order. The Secretary shall suspend or terminate collection of assessments under the order within six months after the Secretary determines that suspension or termination of the order is favored by a majority of the pork producers voting in the referendum who, during a representative period (as determined by the Secretary), have marketed the equivalent of at least 50 porcine animals a year, and shall terminate or suspend the order in an orderly manner as soon as practicable after such determination.

(c) The termination or suspension of any order, or any provision of the order, shall not be considered an order within the meaning of this subtitle.

PETITION AND REVIEW

SEC. 1831. (a) Any person subject to any order issued under this subtitle may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and requesting a modification of the order or an exemption from the order. Such person shall thereupon be given an opportunity for a hearing on the petition, in accordance with regulations issued by the Secretary. After the hearing, the Secretary shall make a determination granting or denying the petition.

(b) The district courts of the United States in any district in which the person is an inhabitant or does business are hereby vested with jurisdiction to review such determination, if a complaint for that purpose is filed within 20 days after the date the person receives notice of such determination. Service of process in such proceedings may be had on the Secretary by delivering a copy of the complaint to the Secretary. If the court determines that the determination is not in accordance with law, the court shall remand such proceedings to the Secretary with directions either (1) to make such ruling as the court shall determine to be in accordance with law, or (2) to take such further proceedings as, in its opinion, the law requires.

ENFORCEMENT

SEC. 1832. (a) The district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, any order, rule, or regulation issued under this subtitle. Any civil action authorized to be brought under this subsection shall be referred to the Attorney General for appropriate action, except that the Secretary is not required to refer to the Attorney General violations of this subtitle whenever the Secretary believes that the administration and enforcement of this subtitle would be adequately served by suitable written notice or warning to any person committing such violation or by administrative action under subsection (b).

(b)(1) Any person who willfully violates any provision of any order, rule, or regulation issued by the Secretary under this subtitle may be assessed a civil penalty by the Secretary of not more than $1,000 for each such violation and, in the case of a willful failure to pay, collect, or remit any assessment as required by any order, in addition to the amount due, a penalty equal to the amount of the assessment payable with respect to porcine animals, pork, or pork products with respect to which the failure applies. Each violation shall be a separate offense. In addition to or in lieu of such civil penalty, the Secretary may issue an order requiring such person to cease and desist from violating such order, rule, or regulation. No penalty shall be assessed, nor cease and desist order issued, unless the Secretary gives such person notice and opportunity for a hearing on the record with respect to such violation. Any order issued under this paragraph by the Secretary shall be final and conclusive unless such person files an appeal from such order with the appropriate United States court of appeals not later than 30 days after such person receives notice of such order.

(2) Any person against whom an order is issued under paragraph (1) may obtain review of such order in the court of appeals of the United States for the circuit in which such person resides or does business or in the United States Court of Appeals for the District of Columbia Circuit by filing a notice of appeal in such court within 30 days from the date of such order and by simultaneously sending a copy of such notice by certified mail to the Secretary. The Secretary shall promptly file in such court a certified copy of the record on which such violation was found. The findings of the Secretary shall be set aside only if found to be unsupported by substantial evidence.

(3) Any person who fails to obey a valid cease and desist order issued under paragraph (1) by the Secretary shall be subject to a civil penalty assessed by the Secretary, after opportunity for a hearing on the record, of not more than $5,000 for each offense. Each day during which such failure continues shall be deemed a separate violation of such order.

(4) If any person fails to pay a valid civil penalty imposed under this subsection by the Secretary, the Secretary shall refer the matter to the Attorney General for recovery of the amount assessed in any appropriate district court of the United States. In such action, the validity and appropriateness of the order imposing such civil penalty shall not be subject to review.

(c) The remedies provided in subsections (a) and (b) shall be in addition to, and not exclusive of, other remedies that may be available.

INVESTIGATIONS; POWER TO SUBPOENA AND TAKE OATHS AND AFFIRMATIONS; AID OF COURTS

SEC. 1833. The Secretary may make such investigations as the Secretary deems necessary for the effective administration of this subtitle or to determine whether any person subject to the provisions of this subtitle has engaged or is about to engage in any act that constitutes or will constitute a violation of any provision of this subtitle or of any order, rule, or regulation issued under this subtitle. For the purpose of such investigation, the Secretary may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any records that are relevant to the inquiry. The attendance of witnesses and the production of records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpoena to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or does business, in requiring the attendance and testimony of the person and the production of records. The court may issue an order requiring such person to appear before the Secretary to produce records or to give testimony touching the matter under investigation. Any failure to obey an order issued under this section by the court may be punished by the court as a contempt thereof. Process in any such case may be served in the judicial district in which such person is an inhabitant or wherever such person may be found.

ADMINISTRATIVE PROVISION

SEC. 1834. The provisions of this subtitle applicable to orders shall be applicable to amendments to orders.

AUTHORIZATION OF APPROPRIATIONS

SEC. 1835. There are authorized to be appropriated such sums as may be necessary for the Secretary to carry out this subtitle, subject to reimbursement from the Committee under section 1827(h)(3)(D). Any sums appropriated to carry out this subtitle shall not be available for payment of the expenses or expenditures of the Committee in administering any provisions of any order issued under this subtitle.

PREEMPTION

SEC. 1836. This subtitle is intended to occupy the field of promotion, research, and consumer education involving pork and pork products and the obtaining of funds therefor from pork producers. Any regulation of such activities or requirements with respect to the promotion, research, and consumer education involving pork (other than any regulation or requirement relating to matters of public health) that is in addition to or different from those made under this subtitle may not be imposed by any State.

Subtitle D—Watermelon Research and Promotion Act

SHORT TITLE

SEC. 1841. This subtitle may be cited as the "Watermelon Research and Promotion Act".

FINDINGS AND DECLARATION OF POLICY

SEC. 1842. (a) Congress finds that—

(1) the per capita consumption of watermelons in the United States has declined steadily in recent years;

(2) watermelons are an important cash crop to many farmers in the United States and are an economical, enjoyable, and healthful food for consumers;

(3) approximately 2,607,600,000 pounds of watermelons with a farm value of $158,923,000 were produced in 1981 in the United States;

(4) watermelons move in the channels of interstate commerce, and watermelons that do not move in such channels directly affect interstate commerce;

(5) the maintenance and expansion of existing markets and the establishment of new or improved markets and uses for watermelons are vital to the welfare of watermelon growers and those concerned with marketing, using, and handling watermelons, as well as the general economic welfare of the Nation; and

(6) the development and implementation of coordinated programs of research, development, advertising, and promotion are necessary to maintain and expand existing markets and establish new or improved markets and uses for watermelons.

(b) It is declared to be the policy of Congress that it is essential in the public interest, through the exercise of the powers provided herein, to authorize the establishment of an orderly procedure for the development, financing (through adequate assessments on watermelons harvested in the United States for commercial use), and carrying out of an effective, continuous, and coordinated program of research, development, advertising, and promotion designed to strengthen the watermelon's competitive position in the marketplace, and establish, maintain, and expand domestic and foreign markets for watermelons produced in the United States. The purpose of this subtitle is to so authorize the establishment of such procedure and the development, financing, and carrying out of such program. Nothing in this subtitle may be construed to dictate quality standards nor provide for the control of production or otherwise limit the right of individual watermelon producers to produce watermelons.

DEFINITIONS

SEC. 1843. As used in this subtitle—

(1) the term "Secretary" means the Secretary of Agriculture;

(2) the term "person" means any individual, group of individuals, partnership, corporation, association, cooperative, or other entity;

(3) the term "watermelon" means all varieties of watermelon grown by producers in the forty-eight contiguous States of the United States;

(4) the term "handler" means any person (except a common or contract carrier of watermelons owned by another person) who handles watermelons in a manner specified in a plan issued under this subtitle or in regulations promulgated thereunder;

(5) the term "producer" means any person engaged in the growing of five or more acres of watermelons;

(6) the term "promotion" means any action taken by the Board, under this subtitle, to present a favorable image for watermelons to the public with the express intent of improving the competitive position of watermelons in the marketplace and stimulating sales of watermelons, and shall include, but not be limited to, paid advertising; and

(7) the term "Board" means the National Watermelon Promotion Board provided for in section 1847.

ISSUANCE OF PLANS

SEC. 1844. To effectuate the declared policy of this subtitle, the Secretary shall, under the provisions of this subtitle, issue, and from time to time may amend, orders (applicable to producers and handlers of watermelons) authorizing the collection of assessments on watermelons under this subtitle and the use of such funds to cover the costs of research, development, advertising, and promotion with respect to watermelons under this subtitle. Any order issued by the Secretary under this subtitle shall hereinafter in this subtitle be referred to as a "plan". Any plan shall be applicable to watermelons produced in the forty-eight contiguous States of the United States.

NOTICE AND HEARINGS

SEC. 1845. (a) When sufficient evidence, as determined by the Secretary, is presented to the Secretary by watermelon producers and handlers, or whenever the Secretary has reason to believe that a plan will tend to effectuate the declared policy of this subtitle, the Secretary shall give due notice and opportunity for a hearing on a proposed plan. Such hearing may be requested by watermelon producers or handlers or by any other interested person, including the Secretary, when the request for such hearing is accompanied by a proposal for a plan.

(b) After notice and opportunity for hearing as provided in subsection (a) of this section, the Secretary shall issue a plan if the Secretary finds, and sets forth in such plan, on the evidence introduced at the hearing that the issuance of the plan and all the terms and conditions thereof will tend to effectuate the declared policy of this subtitle.

REGULATIONS

SEC. 1846. The Secretary may issue such regulations as may be necessary to carry out the provisions of this subtitle and the powers vested in the Secretary under this subtitle.

REQUIRED TERMS IN PLANS

SEC. 1847. (a) Any plan issued under this subtitle shall contain the terms and provisions described in this section.

(b) The plan shall provide for the establishment by the Secretary of the National Watermelon Promotion Board and for defining its powers and duties, which shall include the powers to—

(1) administer the plan in accordance with its terms and conditions;

(2) make rules and regulations to effectuate the terms and conditions of the plan;

(3) receive, investigate, and report to the Secretary complaints of violations of the plan; and

(4) recommend to the Secretary amendments to the plan.

(c) The plan shall provide that the Board shall be composed of representatives of producers and handlers, and one representative of the public, appointed by the Secretary from nominations submitted in accordance with this subsection. An equal number of representatives of producers and handlers shall be nominated by producers and handlers, and the representative of the public shall be nominated by the producer and handler members of the Board, in such manner as may be prescribed by the Secretary. If producers and handlers fail to select nominees for appointment to the Board, the Secretary may appoint persons on the basis of representation as provided for in the plan. If the Board fails to nominate a public representative, the Secretary shall choose such representative for appointment.

(d) The plan shall provide that all Board members shall serve without compensation, but shall be reimbursed for reasonable expenses incurred in performing their duties as members of the Board.

(e) The plan shall provide that the Board shall prepare and submit to the Secretary for the Secretary's approval a budget, on a fiscal period basis, of its anticipated expenses and disbursements in the administration of the plan, including probable costs of research, development, advertising, and promotion.

(f) The plan shall provide for the fixing by the Secretary of assessments to cover costs incurred under the budgets provided for in subsection (e), and under section 1848(f), based on the Board's recommendation as to the appropriate rate of assessment, and for the collection of the assessments by the Board.

(g) The plan shall provide that—

(1) funds collected by the Board shall be used for research, development, advertising, or promotion of watermelons and such other expenses for the administration, maintenance, and functioning of the Board as may be authorized by the Secretary, including any referendum and administrative costs incurred by the Department of Agriculture under this subtitle;

(2) no advertising or sales promotion program under this subtitle shall make any reference to private brand names nor use false or unwarranted claims in behalf of watermelons or their products or false or unwarranted statements with respect to attributes or use of any competing products;

(3) no funds collected by the Board shall in any manner be used for the purpose of influencing governmental policy or action, except as provided by subsections (b)(4) and (f); and

(4) assessments shall be made on watermelons produced by producers and watermelons handled by handlers, and the rate of such assessments shall be the same, on a per-unit basis, for producers and handlers. If a person performs both producing and handling functions, both assessments shall be paid by such person.

(h) The plan shall provide that, notwithstanding any other provisions of this subtitle, any watermelon producer or a refund of the assessment from the Board, under regulations, and on a form and within a time period (not less than 90 days), prescribed by the Board and approved by the Secretary. A producer or handler who timely makes demand in accord with the regulations, on submission of proof satisfactory to the Board that the producer or handler paid the assessment for which the refund is sought, shall receive such refund within 60 days after demand therefor.

(i) The plan shall provide that the Board, subject to the provisions of subsections (e), (f), and (g), shall develop and submit to the Secretary, for the Secretary's approval, any research, development, advertising, or promotion program or project, and that a program or project must be approved by the Secretary before becoming effective.

(j) The plan shall provide the Board with authority to enter into contracts or agreements, with the approval of the Secretary,

for the development and carrying out of research, development, advertising, or promotion programs or projects, and the payment of the cost thereof with funds collected under this subtitle.

(k) The plan shall provide that the Board shall (1) maintain books and records, (2) prepare and submit to the Secretary such reports from time to time as may be prescribed for appropriate accounting with respect to the receipt and disbursement of funds entrusted to it, and (3) cause a complete audit report to be submitted to the Secretary at the end of each fiscal period.

PERMISSIVE TERMS IN PLANS

SEC. 1848. (a) Any plan issued under this subtitle may contain one or more of the terms and provisions described in this section, but except as provided in section 1847 no others.

(b) The plan may provide for the exemption, from the provisions of the plan, of watermelons used for nonfood uses, and authority for the Board to establish satisfactory safeguards against improper use of such exemption.

(c) The plan may provide for the designation of different handler payment and reporting schedules with respect to assessments, as provided for in sections 1847 and 1849, to recognize differences in marketing practices and procedures used in different production areas.

(d) The plan may provide for the establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and other sales promotion of watermelons and for the disbursement of necessary funds for such purposes. Any such program or project shall be directed toward increasing the general demand for watermelons, and promotional activities shall comply with the provisions of section 1847(g).

(e) The plan may provide for establishing and carrying out research and development projects and studies to the end that the marketing and use of watermelons may be encouraged, expanded, improved, or made more efficient, and for the disbursement of necessary funds for such purposes.

(f) The plan may provide authority for the accumulation of reserve funds from assessments collected under this subtitle, to permit an effective and continuous coordinated program of research, development, advertising, and promotion in years when watermelon production and assessment income may be reduced, except that the total reserve fund may not exceed the amount budgeted for two years operation.

(g) The plan may provide for the use of funds from assessments collected under this subtitle, with the approval of the Secretary, for the development and expansion of sales of watermelons in foreign markets.

(h) The plan may contain terms and conditions incidental to and not inconsistent with the terms and conditions specified in this subtitle and necessary to effectuate the other provisions of the plan.

ASSESSMENT PROCEDURES

SEC. 1849. (a) Each handler required to pay assessments under a plan, as provided for under section 1847(f), shall be responsible for payment to the Board, as it may direct, of the assessments. A handler also shall collect from any producer, or shall deduct from the proceeds paid to any producer, on whose watermelons a producer assessment is made, the assessments required to be paid by the producer. The handler shall remit producer assessments to the Board as the Board directs. Such handler shall maintain a separate record with respect to each producer for whom watermelons were handled. Such records shall indicate the total quantity of watermelons handled by the handler, including those handled for producers and for the handler, the total quantity of watermelons handled by the handler that are included under the terms of the plan, as well as those that are exempt under the plan, and such other information as may be prescribed by the Board. To facilitate the collection and payment of assessments, the Board may designate different handlers or classes of handlers to recognize differences in marketing practices or procedures used in any State or area. The handler shall be assessed an equal amount as the producer. No more than one assessment on a producer nor more than one assessment on a handler shall be made on any watermelons.

(b) Handlers responsible for payment of assessments under subsection (a) shall maintain and make available for inspection by the Secretary such books and records as required by the plan and file reports at the times, in the manner, and having the content prescribed by the plan, to the end that information and data shall be made available to the Board and to the Secretary that is appropriate or necessary to the effectuation, administration, or enforcement of this subtitle or of any plan or regulation issued under this subtitle.

(c) All information obtained under subsections (a) and (b) shall be kept confidential by all officers and employees of the Department of Agriculture and of the Board, and only such information so furnished or acquired as the Secretary deems relevant shall be disclosed by them, and then only in a suit or administrative hearing brought at the direction, or on the request, of the Secretary, or to which the Secretary or any officer of the United States is a party, and involving the plan with reference to which the information to be disclosed was furnished or acquired. Nothing in this subsection shall be deemed to prohibit—

(1) the issuance of general statements based on the reports of a number of handlers subject to a plan if such statements do not identify the information furnished by any person; or

(2) the publication by direction of the Secretary of the name of any person violating any plan together with a statement of the particular provisions of the plan violated by such person.

Any such officer or employee violating the provisions of this subsection shall on conviction be subject to a fine of not more than $1,000 or imprisonment for not more than one year, or both, and shall be removed from office.

PETITION AND REVIEW

SEC. 1850. (a) Any person subject to a plan may file a written petition with the Secretary, stating that the plan or any provision of the plan, or any obligation imposed in connection therewith, is not in accordance with law and praying for a modification thereof or to be exempted therefrom. The person shall be given an opportunity for a hearing on the petition, in accordance with regulations prescribed by the Secretary. After the hearing, the Secretary shall make a ruling on the petition, which shall be final if in accordance with the law.

(b) The district courts of the United States in any district in which the person is an inhabitant, or in which the person's principal place of business is located, are hereby vested with jurisdiction to review such ruling, provided that a complaint for that purpose is filed within twenty days from the date of the entry of the ruling. Service of process in such proceedings may be had on the Secretary by delivering to the Secretary a copy of the complaint. If the court determines that the ruling is not in accordance with law, it shall remand the proceedings to the Secretary with directions either to (1) make such ruling as the court shall determine to be in accordance with law, or (2) take such further proceedings as, in its opinion, the law requires. The pendency of proceedings instituted under subsection (a) shall not impede or delay the United States or the Secretary from obtaining relief under section 1851(a).

ENFORCEMENT

SEC. 1851. (a) The several district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, any plan or regulation made or issued under this subtitle. The facts relating to any civil action that may be brought under this subsection shall be referred to the Attorney General for appropriate action, except that nothing in this subtitle shall be construed as requiring the Secretary to refer to the Attorney General violations of this subtitle whenever the Secretary believes that the administration and enforcement of the plan or regulation would be adequately served by administrative action under subsection (b) or suitable written notice or warning to any person committing the violations.

(b)(1) Any person who violates any provision of any plan or regulation issued by the Secretary under this subtitle, or who fails or refuses to pay, collect, or remit any assessment or fee required of the person thereunder, may be assessed a civil penalty by the Secretary of not less than $500 nor more than $5,000 for each violation. Each violation shall be a separate offense. In addition to or in lieu of such civil penalty, the Secretary may issue an order requiring the person to cease and desist from continuing the violation. No penalty shall be assessed nor cease and desist order issued unless the person is given notice and opportunity for a hearing before the Secretary with respect to the violation. The order of the Secretary assessing a penalty or imposing a cease and desist order shall be final and conclusive unless the person affected by the order files an appeal from the Secretary's order with the appropriate United States court of appeals.

(2) Any person against whom a violation is found and a civil penalty assessed or cease and desist order issued under paragraph (1) may obtain review in the court of appeals of the United States for the circuit in which such person resides or carries on business or in the United States Court of Appeals for the District of Columbia Circuit by filing a notice of appeal in such court within thirty days after the date of the order and by simultaneously sending a copy of the notice by certified mail to the Secretary. The Secretary shall promptly file in such court a certified copy of the record on which the violation was found. The findings of the Secretary shall be set aside only if found to be unsupported by substantial evidence.

(3) Any person who fails to obey a cease and desist order after it has become final and unappealable, or after the appropriate court of appeals has entered a final judgment in favor of the Secretary, shall be subject to a civil penalty assessed by the Secretary, after opportunity for a hearing and for judicial review under the procedures speci-

fied in paragraphs (1) and (2), of not more than $500 for each offense. Each day during which the failure continues shall be deemed a separate offense.

(4) If any person fails to pay an assessment of a civil penalty after it has become a final and unappealable order, or after the appropriate court of appeals has entered final judgment in favor of the Secretary, the Secretary shall refer the matter to the Attorney General for recovery of the amount assessed in any appropriate district court of the United States. In such action, the validity and appropriateness of the final order imposing the civil penalty shall not be subject to review.

INVESTIGATION AND POWER TO SUBPOENA

SEC. 1852. (a) The Secretary may make such investigations as the Secretary deems necessary to carry out effectively the Secretary's responsibilities under this subtitle or to determine whether a handler or any other person has engaged or is engaging in any acts or practices that constitute a violation of any provision of this subtitle, or of any plan or regulation issued under this subtitle. For the purpose of an investigation, the Secretary may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, and documents that are relevant to the inquiry. The attendance of witnesses and the production of records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpoena issued to, any person, including a handler, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the attendance and testimony of witnesses and the production of books, papers, and documents; and such court may issue an order requiring the person to appear before the Secretary, there to produce records, if so ordered, or to give testimony touching the matter under investigation. Any failure to obey such order of the court may be punished by the court as contempt thereof. All process in any such case may be served in the judicial district in which the person is an inhabitant or wherever the person may be found. The site of any hearing held under this subsection shall be within the judicial district in which the handler or other person is an inhabitant or in which the person's principal place of business is located.

(b) No person shall be excused from attending and testifying or from producing books, papers, and documents before the Secretary, or in obedience to the subpoena of the Secretary, or in any cause or proceeding, criminal or otherwise, based on, or growing out of, any alleged violation of this subtitle, or of any plan or regulation issued thereunder, on the grounds that the testimony or evidence, documentary or otherwise, required of the person may tend to incriminate the person or subject the person to a penalty or forfeiture. However, no person shall be prosecuted or subjected to any penalty or forfeiture on account of any transaction, matter, or thing concerning which the person is compelled, after having claimed the person's privilege against self-incrimination, to testify or produce evidence, documentary or otherwise, except that any individual so testifying shall not be exempt from prosecution and punishment for perjury committed in so testifying.

REQUIREMENT OF REFERENDUM

SEC. 1853. The Secretary shall conduct a referendum among producers and handlers not exempt under sections 1843(5) and 1848(b) who, during a representative period determined by the Secretary, have been engaged in the production or handling of watermelons, for the purpose of ascertaining whether the issuance of a plan is approved or favored by producers and handlers. The referendum shall be conducted at the county extension offices. No plan issued under this subtitle shall be effective unless the Secretary determines that the issuance of the plan is approved or favored by not less than two-thirds of the producers and handlers voting in such referendum, or by the producers and handlers of not less than two-thirds of the watermelons produced and handled during the representative period by producers and handlers voting in such referendum, and by not less than a majority of the producers and a majority of the handlers voting in the referendum. The ballots and other information or reports that reveal or tend to reveal the vote of any producer or handler or the person's volume of watermelons produced or handled shall be held strictly confidential and shall not be disclosed. Any officer or employee of the Department of Agriculture violating the provisions hereof shall on conviction be subject to the penalties provided in section 1849(c) of this subtitle.

SUSPENSION OR TERMINATION OF PLANS

SEC. 1854. (a) Whenever the Secretary finds that a plan or any provision thereof obstructs or does not tend to effectuate the declared policy of this subtitle, the Secretary shall terminate or suspend the operation of the plan or provision.

(b) The Secretary may conduct a referendum at any time, and shall hold a referendum on request of the Board or 10 per centum or more of the watermelon producers and handlers eligible to vote in a referendum, to determine if watermelon producers and handlers favor the termination or suspension of the plan. The Secretary shall terminate or suspend the plan at the end of the marketing year whenever the Secretary determines that the termination or suspension is favored by a majority of those voting in the referendum, and who produce or handle more than 50 per centum of the volume of the watermelons produced by the producers or handled by the handlers voting in the referendum. Any such referendum shall be conducted at county extension offices.

AMENDMENT PROCEDURE

AUTHORIZATION OF APPROPRIATIONS

SEC. 1857. There are authorized to be appropriated such sums as are necessary to carry out the provisions of this subtitle, except that the funds so appropriated shall not be available for the payment of any expenses or expenditures of the Board in administering any provision of any plan issued under authority of this subtitle.

Subtitle E—Marketing Orders

MAXIMUM PENALTY FOR ORDER VIOLATIONS

SEC. 1861. (a) Section 8c(14) of the Agricultural Adjustment Act (7 U.S.C. 608c(14)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended by striking out "$500" and inserting in lieu thereof "$5,000".

(b) The amendment made by subsection (a) shall not apply with respect to any violation described in section 8c(14) of the Agricultural Adjustment Act occurring before the date of the enactment of this Act.

LIMITATION ON AUTHORITY TO TERMINATE MARKETING ORDERS

SEC. 1862. (a) Section 8c(16) of the Agricultural Adjustment Act (7 U.S.C. 608c(16)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended by—

(1) in subparagraph (A)—

(A) striking out "The Secretary" and inserting in lieu thereof "(i) Except as provided in clause (ii), the Secretary"; and

(B) adding at the end thereof the following:

"(ii) The Secretary may not terminate any order issued under this section for a commodity for which there is no Federal program established to support the price of such commodity unless the Secretary finds that termination is favored by a majority of the producers referred to in subparagraph (B). The Secretary may make such finding with respect to termination only in the manner specified in subparagraph (B).."; and

(2) in subparagraph (C), striking out "The termination" and inserting in lieu thereof "Except as otherwise provided in this subsection with respect to the termination of an order issued under this section, the termination".

(b) The amendment made by subsection (a) shall apply with respect to the termination of any order issued under section 8c of the Agricultural Adjustment Act (7 U.S.C. 608c), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, and in effect on or after July 10, 1985.

CONFIDENTIALITY OF INFORMATION

SEC. 1863. Section 8d(2) of the Agricultural Adjustment Act (7 U.S.C. 608d(2)), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, is amended by—

(1) inserting in the first sentence ", or provided by a producer or handler under section 8c," after "pursuant to this section"; and

(2) in clause (A) of the second sentence, striking out "the information furnished by any person", and inserting in lieu thereof "or disclose any specific item of information furnished by any person, or reveal the identity of such person".

Subtitle F—Grain Inspection

GRAIN STANDARDS

SEC. 1871. Section 4 of the United States Grain Standards Act (7 U.S.C. 76) is amended by adding at the end thereof the following:

"(c) If the Government of any country requests that moisture content remain a criterion in the official grade designations of grain, such criterion shall be included in determining the official grade designation of grain shipped to such country.

"(d) The Administrator shall issue regulations establishing a new grade for each type of grain that exceeds the standards in effect on September 30, 1985, for United States No. 1 grade of such grain.".

IMPROVED QUALITY STANDARDS FOR EXPORTED GRAIN

SEC. 1872. Section 6 of the United States Grain Standards Act (7 U.S.C. 78) is amended by adding at the end thereof the following:

"(c)(1) To protect the quality of grain exported from the United States, no dockage or foreign material (including but not limited to dust or particles of whatever origin) once removed from grain shall be recombined with any grain when there is a possibility that the recombined product may be export-

ed from the United States; and no dockage or foreign material of any origin may be added to any grain that may be exported when the result will be to reduce the grade or quality of the grain or to reduce its ability to resist spoilage.

"(2) Nothing in paragraph (1) shall be construed to prohibit—

"(A) the treatment of grain to suppress, destroy, or prevent insects and fungi injurious to stored grain;

"(B) the export of dockage or foreign material removed from grain when such dockage or foreign material is pelletized or a part of a processed ration for livestock, poultry, or fish and is exported separately and uncombined with any whole grain;

"(C) the blending of grain with similar grain of a different grade to adjust the quality of the resulting mixture;

"(D) the addition to grain of confetti, or any other material that serves the same purpose, in an amount necessary to facilitate identification of ownership or origin of a particular lot of grain; and

"(E) the addition of any other foreign material that may be determined by the Secretary to be in the interest of grain producers and to be neutral or constructive in achieving the goal of protecting the quality of grain exported from the United States.

"(3) Adjustment of the moisture content of grain that may be exported is permitted by the blending of such grain with a similar grain of different moisture content if the difference between the moisture contents of the grains being blended does not exceed 4 per centum, but the addition of water to grain that may be exported is prohibited except by aeration of such grain with natural air.".

Subtitle G—Agricultural Stabilization and Conservation Committees

ASC COMMITTEE REFORM

SEC. 1881. (a)(1) The fifth paragraph of section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) is amended by striking out the first through the seventh sentences and inserting in lieu thereof:

"In carrying out the provisions of this section, the Secretary shall use the services of local and State committees selected as hereinafter provided. The Secretary shall designate local administrative areas as units for administration of programs. There shall be three local administrative areas in each county, except that, in counties with less than one hundred and fifty farmers, the county committee selected as hereinafter provided may reduce the number of local administrative areas to one, and except that the Secretary may include more than one county or parts of different countries in a local administrative area when the Secretary determines that there are insufficient farmers in an area to establish a slate of candidates for a community committee and hold an election. Each local administrative area shall have one community committee consisting of at least three members elected to three-year terms in a community election to be held every third year, except that there may be more than one community committee per administrative area in counties that, as of the date of enactment of the Food Security Act of 1985, have more than three community committees. Only one local administrative area shall hold an election in any given year in each county. Community committee members shall serve without pay. Community committees shall meet at least twice annually. Only farmers within a local administrative area who are producers who participate or cooperate in programs administered within their area shall be eligible for nomination and election to the community committee for that area. Only farmers who are participating or cooperating producers within an area shall be eligible to vote in the election in that area. Each county shall have a county committee which shall consist of three members, who shall be elected on a rotating basis—one each year from within one of the three administrative areas. The community committee candidate receiving the greatest number of votes shall be the county committee member and shall serve a three-year term. In an administrative area with more than one community committee, the one community committee candidate receiving the greatest number of votes shall be the county committee member. Should the candidate receiving the greatest number of votes decline to serve on the county committee, the candidate receiving the greatest number of votes and who is willing to serve shall become the county committee member. In counties with only one community and in administrative areas containing more than one county or parts of different counties, community and county committee members shall be elected for three-year terms in accordance with regulations to be issued by the Secretary. The Secretary, by regulation, may set levels of, and provide, pay for county committees.".

(2) The fifth paragraph of section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) is amended by striking out the 13th sentence.

(b) To ensure continuity of the farmer-elected committee system, the Secretary shall provide by regulation for the orderly implementation of the amendments made by subsection (a) by authorizing members of local and county committees duly elected on or before the effective date of this Act to serve out their unexpired terms.

Subtitle H—Miscellaneous

COMMODITY CREDIT CORPORATION STORAGE CONTRACTS

SEC. 1891. Section 4(h) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714b(h)) is amended by inserting, after the colon at the end of the second proviso, the following: "And provided further, That any contract entereigation of the Corporation to pay for the use of any space in a facility shall be relieved to the extent that the Corporation does not use the space and payment is made by another person for the use of such space, and (3) if the Corporation determines that it no longer needs the space reserved in the facility, the Corporation may be relieved, for the remaining term of the contract, of its obligations to an extent and in a manner that will provide significant savings to the Corporation while permitting the owner of the facility reasonable time to lease such space to another person:".

WEATHER AND CLIMATE INFORMATION IN AGRICULTURE

SEC. 1892. (a) Congress finds that—

(1) agricultural and silvicultural operations are vulnerable to damage from atmospheric conditions that accurate and timely reporting of weather information can help prevent;

(2) the maintenance of current weather and climate analysis and information dissemination systems, and Federal, State, and private efforts to improve these systems, is essential if agriculture and silviculture are to mitigate damage from atmospheric conditions;

(3) agricultural and silvicultural weather services at the Federal level should be maintained with joint planning between the National Oceanic and Atmospheric Administration and the Department of Agriculture; and

(4) efforts should be made, involving user groups, weather and climate information providers, and Federal and State governments, to expand the use of weather and climate information in agriculture and silviculture.

(b) It, therefore, is declared to be the policy of Congress that it is in the public interest to maintain an active Federal involvement in providing agricultural and silvicultural weather and climate information and that efforts should be made, among users of this information and among private providers of this information, to improve use of this information.

EMERGENCY FEED PROGRAM

SEC. 1893. Clause (2) of section 1105(b) of the Food and Agriculture Act of 1977 (7 U.S.C. 2267(b)) is amended by striking out "feed for such person's livestock" and inserting in lieu thereof "feed that has adequate nutritive value and is suitable for each of such person's respective particular types of livestock".

ILLEGAL ACTIVITIES

SEC. 1894. Notwithstanding any other provision of law, any person, corporation, or other legal entity convicted under Federal or State law of planting, growing, cultivating, producing, storing, or harvesting cannabis (marihuana) or other prohibited drug-producing plant on any part of the lands owned or controlled by such person or entity, or of permitting any such activity on lands owned or controlled by the person or entity, shall be ineligible for the year (or years) in which the illegal activity occurs to receive any benefits under any loan, purchase, payment, indemnity, land diversion, conservation, or other program administered by the Department of Agriculture for the benefit of agricultural producers.

DEPARTMENT OF DEFENSE LAND

SEC. 1895. Notwithstanding any other provision of law, land owned by or under control of the Department of Defense or any agency thereof, that is leased for the production of agricultural commodities, shall not be eligible for participation in any program administered by the Department of Agriculture.

TITLE XIX—NATIONAL AGRICULTURAL POLICY COMMISSION ACT OF 1985

SHORT TITLE

SEC. 1901. This title may be cited as the "National Agricultural Policy Commission Act of 1985".

DEFINITIONS

SEC. 1902. As used in this title—

(1) the term "Commission" means the National Commission on Agricultural Policy established under section 1903;

(2) the term "Governor" means the chief executive officer of a State; and

(3) the term "State" means the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, or the Trust Territory of the Pacific Islands.

ESTABLISHMENT OF COMMISSION

SEC. 1903. (a) There is established a National Commission on Agricultural Policy to conduct a study of the structure, procedures, and methods of formulating and administering agricultural policies, programs, and practices of the United States.

(b) In addition to the members specified in subsection (c), the Commission shall be com-

posed of fifteen members appointed or designated by the President and selected as follows:

(1) The President shall request Governors of States to nominate members representing individuals and industries directly affected by agricultural policies, including—

(A) producers of major agricultural commodities in the United States;

(B) processors or refiners of United States agricultural commodities;

(C) exporters, transporters, or shippers of United States agricultural commodities;

(D) suppliers of production equipment or materials to United States farmers;

(E) providers of financing or credit for agricultural purposes; and

(F) consumers of United States agricultural commodities.

(2) The Governor of a State may submit to the President a list of not less than two, nor more than four, nominees to serve on the Commission who represent individuals and industries referred to in paragraph (1).

(3)(A) Except as provided in subparagraphs (B) and (C), the President shall appoint 15 individuals from a total of, to the extent practicable, not less than sixty individuals nominated by States under paragraph (2) to serve on the Commission.

(B) The President may appoint to the Commission not more than—

(i) one individual nominated by a particular State; and

(ii) eight individuals of the same political party.

(C) If the President determines that the individuals nominated by States under paragraph (2) are not broadly representative of the individuals and industries referred to in paragraph (1), the President may substitute no more than three other individuals to serve on the Commission who represent such individuals and industries.

(c)(1) The chairmen and ranking minority members of the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate shall—

(A) serve as ex officio members of the Commission; and

(B) have the same voting rights as the members of the Commission selected and appointed under subsection (b).

(2) The chairmen and ranking minority members may designate other members of the respective committees to serve in their stead as members of the Commission.

(d) A vacancy in the Commission shall be filled in the manner in which the original appointment was made.

(e) The Commission shall elect a chairman from among the members of the Commission who are selected and appointed under the provisions of subsection (b).

(f) The Commission shall meet at the call of the chairman or a majority of the Commission.

CONDUCT OF STUDY

SEC. 1904. The Commission shall study the structure, procedures, and methods of formulating and administering agricultural policies, programs, and practices of the United States, including—

(1) the effectiveness of existing agricultural programs in improving farm income;

(2) the manner in which the programs may be improved to retain a family-farm system of agricultural production;

(3) the effect of legislative and administrative changes in agricultural policy on planning and long-term profitability of farmers;

(4) the effect on farmers of the existing system and structure of formulating and implementing agriculture policy;

(5) the effect of national and international economic trends on United States agricultural production;

(6) the means of adjusting the agricultural policies, programs, and practices of the United States to meet changing economic conditions;

(7) potential areas of conflict and compatibility between the structure of making agricultural policy and long-term stability in policy and practices;

(8) changing demographic trends and the way they affect agriculture and agricultural policy consistency; and

(9) the role of State and local governments in future agricultural policy.

REPORTS

SEC. 1905. Not later than twelve months after the date of the enactment of this Act, and each twelve months thereafter during the existence of the Commission, the Commission shall submit an annual report to the President and Congress containing the findings and recommendations of the Commission with respect to the matters referred to in section 1904. The Commission shall not comment on legislation pending before Congress unless specifically requested to do so by the Chairman of an appropriate committee.

ADMINISTRATION

SEC. 1906. (a) The heads of executive agencies, the General Accounting Office, the International Trade Commission, and the Congressional Budget Office, to the extent permitted by law, shall provide the Commission with such information as the Commission may require in carrying out duties and functions of the Commission.

(b)(1) Except as provided in paragraph (2), members of the Commission shall serve without any additional compensation for work performed on the Commission.

(2) Members who are private citizens of the United States may be allowed travel expenses, including a per diem in lieu of a subsistence expense, as authorized by law for persons serving intermittently in the Government service under sections 5701 through 5707 of title 5 of the United States Code.

(c) Subject to the availability of funds appropriated in advance and such rules as may be adopted by the Commission and without regard to the provisions of title 5 of United States Code governing appointments in the competitive service or the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to the classification and General Schedule pay rates, the Chairman of the Commission may appoint and fix the compensation of a director and such additional staff personnel as the Commission determines are necessary to carry out duties and functions of the Commission.

(d)(1) On the request of the Commission, the Secretary of Agriculture shall furnish the Commission with such personnel and support services as are necessary to assist the Commission in carrying out duties and functions of the Commission.

(2) On the request of the Commission, the heads of other executive agencies and the General Accounting Office may furnish the Commission with such personnel and support services as the head of the agency or Office and the Chairman of the Commission agree are necessary to assist the Commission in carrying out duties and functions of the Commission.

(3) The Commission shall not be required to pay or reimburse an agency or the Office for personnel and support services provided under this section.

(e)(1) In accordance with section 12 of the Federal Advisory Committee Act, the Secretary of Agriculture shall maintain records of—

(A) the disposition of any funds that may be at the disposal of the Commission; and

(B) the nature and extent of activities of the Commission.

(2) The Comptroller General of the United States shall have access to such records for the purpose of audit and examination.

(f) The Commission shall be exempt from sections 7(d), 10(e), 10(f), and 14 of the Federal Advisory Committee Act and sections 4301 through 4308 of title 5 of the United States Code.

AUTHORIZATION OF APPROPRIATIONS

SEC. 1907. (a) There are authorized to be appropriated such sums as are necessary to carry out this title.

(b) To the maximum extent practicable, expenses of the Commission shall be carried out using funds available to the Secretary of Agriculture.

TERMINATION

SEC. 1908. This title and the Commission shall terminate five years after the date of enactment of this Act.

TITLE XX—NATIONAL AQUACULTURE IMPROVEMENT ACT OF 1985

SHORT TITLE

Sec. 2001. This Act may be cited as the "National Aquaculture Improvement Act of 1985".

FINDINGS, PURPOSE, AND POLICY

SEC. 2002. Section 2 of the National Aquaculture Act of 1980 (which Act is hereinafter referred to as the "Act of 1980") (16 U.S.C. 2801) is amended—

(1) by amending subsection (a)(3)—

(A) by striking out "10 per centum" and inserting in lieu thereof "13 percent", and

(B) by striking out "3 per centum" and inserting in lieu thereof "6 percent";

(2) by amending subsection (a)(7) by inserting "scientific," before "economic,", and by inserting "the lack of supportive Government policies," immediately after "management information,";

(3) by amending subsection (b)—

(A) by striking out "and" at the end of paragraph (2),

(B) by redesignating paragraph (3) as paragraph (4), and

(C) by inserting after paragraph (2) the following new paragraph:

"(3) establishing the Department of Agriculture as the lead Federal agency with respect to the coordination and dissemination of national aquaculture information by designating the Secretary of Agriculture as the permanent chairman of the coordinating group and by establishing a National Aquaculture Information Center within the Department of Agriculture; and"; and

(4) by amending subsection (c) by inserting "for reducing the United States trade deficit in fisheries products," immediately after "potential" in the first sentence.

DEFINITIONS

SEC. 2003. Section 3 of the Act of 1980 (16 U.S.C. 2802) is amended—

(1) by redesignating paragraph (8) as paragraph (9); and

(2) by inserting after paragraph (7) the following new paragraph:

"(8) The term 'Secretary' means the Secretary of Agriculture.".

NATIONAL AQUACULTURE DEVELOPMENT PLAN

SEC. 2004. Section 4 of the Act of 1980 (16 U.S.C. 2803) is amended as follows:

(1) Subsection (a) is amended—

(A) by striking out "Secretaries" each place it appears in paragraph (2) and inserting in lieu thereof "Secretary";

(B) by amending the first sentence of paragraph (2) by inserting "the Secretary of Commerce and the Secretary of the Interior," immediately after "shall consult with".

(C) by striking out paragraph (3).

(2) Subsection (b) is amended—

(A) by inserting "to" immediately after "determine" in paragraph (1);

(B) by striking out "Secretaries deem" in paragraph (6) and inserting in lieu thereof "Secretary deems"; and

(C) by striking out "Secretaries" in the matter following paragraph (6) and inserting in lieu thereof "Secretary".

(3) Subsection (c) is amended—

(A) by striking out "Secretaries determine" in paragraph (1) and inserting in lieu thereof "Secretary determines";

(B) by striking out "and" at the end of subparagraph (A);

(C) by striking out the period at the end of subparagraph (B) and inserting in lieu thereof "; and"; and

(D) by inserting immediately after subparagraph (B) the following new subparagraph:

"(C) the concurrence of the Secretaries.".

FUNCTIONS AND POWERS OF SECRETARIES

SEC. 2005. Section 5 of the Act of 1980 (16 U.S.C. 2804) is amended as follows:

(1) Subsection (c) is amended to read as follows:

"(c) INFORMATION SERVICES.—(1) In addition to performing such other mandatory functions under this Act—

"(A) the Secretaries shall collect and analyze scientific, technical, legal, and economic information relating to aquaculture, including acreages, water use, production, marketing, culture techniques, and other relevant matters;

"(B) the Secretary shall—

"(i) establish, within the Department of Agriculture, a National Aquaculture Information Center that shall serve as a repository for the information generated under subparagraph (A) and other provisions of this Act and shall, on a request basis, make that information available to the public,

"(ii) arrange with foreign nations for the exchange of information relating to aquaculture and support a translation service, and

"(iii) conduct a study of the extent to which the United States aquaculture industry has access to relevant Federal programs which assist the agricultural sector and report to Congress on the findings of such study by December 31, 1986;

"(C) the Secretary of Commerce shall conduct a study, and report to Congress thereon by December 31, 1987, to determine whether existing capture fisheries could be adversely affected by competition from products produced by commercial aquacultural enterprises and include in such study an assessment of any adverse effect, by species and by geographical region, on such fisheries and recommend measures to ameliorate any such effect; and

"(D) the Secretary of the Interior, in consultation with the Secretary of Commerce, shall undertake a study, and report to Congress thereon by December 31, 1987, to identify exotic species introduced into the United States waters as a result of aquaculture activities, and to determine the potential benefits and impacts of the introduction of exotic species.

"(2) Any production information submitted to the Secretaries under paragraph (1)(A) shall be confidential and may only be disclosed if required under court order. The Secretaries shall preserve such confidentiality. The Secretaries may release or make public any information in any aggregate or summary form that does not directly or indirectly disclose the identity, business transactions, or trade secrets of any person who submits such information.".

(2) Subsection (d) is amended—

(A) by striking out "Secretaries" each place it appears and inserting in lieu thereof "Secretary";

(B) by inserting "and in consultation with the Secretary of Commerce and the Secretary of the Interior," immediately after "group" in the first sentence;

(C) by striking out "under section 4(d)" in the second sentence;

(D) by striking out "deem" in the second sentence and inserting in lieu thereof "deems"; and

(E) by striking out the last sentence and inserting in lieu thereof "The first report required under this subsection shall be submitted to Congress by February 1, 1987, and subsequent reports on February 1 of every other year thereafter.".

COORDINATION OF NATIONAL ACTIVITIES REGARDING AQUACULTURE

SEC. 2006. Section 6 of the Act of 1980 (16 U.S.C. 2805) is amended as follows:

(1) Subsection (a) is amended by inserting ", who shall be the permanent chairman of the coordinating group" immediately after "Agriculture" in paragraph (1).

(2) Subsection (c) is repealed.

(3) Subsections (d), (e), and (f) are redesignated as subsections (c), (d), and (e), respectively.

(4) Subsection (e) (as redesignated) is amended—

(A) by striking out "subsection (d)" in the second sentence and inserting in lieu thereof "subsection (c)".

AUTHORIZATION OF APPROPRIATIONS

SEC. 2007. Section 10 of the Act of 1980 (16 U.S.C. 2809) is amended by striking out "1985" in each of paragraphs (1), (2), and (3) and inserting in lieu thereof "1985, and $1,000,000 for each of fiscal years 1986, 1987, and 1988".

Mr. DE LA GARZA. Mr. Chairman, further to facilitate and expedite the debate today, I ask unanimous consent that all debate on title VIII on peanuts, and all amendments thereto on that title, be limited to 1 hour, the time to be divided equally between the proponents and the opponents.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. DE LA GARZA. Mr. Chairman, I ask unanimous consent that debate on title XV and all amendments thereto, which is the food stamps section, be limited to 1 hour, to be divided equally between the proponents and the opponents, and further, that the debate on the Petri amendment to title XXI be limited to 1 hour, the time to be equally divided between the proponents and the opponents.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. ENGLISH. Reserving the right to object, Mr. Chairman, I did not hear the gentleman mention cargo preference, and I was wondering exactly what the time limit is to be on that.

I yield to the gentleman.

Mr. DE LA GARZA. Mr. Chairman, I did not ask for that at this point.

Mr. ENGLISH. Mr. Chairman, I withdraw by reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. DE LA GARZA. Mr. Chairman, I yield 2 minutes to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Chairman, I cannot add to much to what has been said, but I would urge a vote against the Madigan amendment. Basically, I would urge that we consider the fate and the structure of American agriculture right now. It is at a serious crossroads. We have lost thousands of farmers and are likely to lose hundreds of thousands more if the same old stuff continues.

Now, while this bill that the chairman has brought to the floor is much better than what the President has proposed and therefore it deserves a "yes" vote on final passage, it essentially is a continuation fundamentally of past practices.

Now, American agriculture is at a crossroads where we can see 30 or 40 years from now 10, 20, or 30 percent of the farmers out of business, maybe even 50 percent.

What is past is prolog. The past 30 years has seen a reduction dramatically in the number of farmers in America and that trend is continuing.

What the language in the bill offered by my colleague, the gentleman from Iowa, does is give farmers a choice if they want to take another fork in the road, and to go down that fork in the road they have to approve it by a super majority, 60 percent of the farmers voting, to have a program that, yes, does involve a more mandatory component; yes, does involve a fairly radical change in agriculture, but it is a new fork in the road that gives them the choice of voting on that just might save their lives.

Now, it is indeed possible that a majority of farmers would not support it and therefore we would continue under the voluntary program, the same old program of what we have been doing for the last 30 or 40 years. If that is the way, so be it; but why not let these farmers have the choice of deciding.

The future of American agriculture is very bleak indeed and this amendment by the gentleman from Illinois

[Mr. MADIGAN] will make it even bleaker.

Mr. Chairman, I urge opposition to the Madigan amendment and support for the Bedell amendment.

Mr. MADIGAN. Mr. Chairman, I yield such time as he may consume to the gentleman from Utah [Mr. NIELSON].

Mr. NIELSON of Utah. Mr. Chairman, I rise in strong support of the Madigan amendment.

Mr. MADIGAN. Mr. Chairman, I yield 4 minutes to the gentleman from Texas [Mr. STENHOLM].

Mr. STENHOLM. Mr. Chairman, I rise in support of the Madigan amendment to strike the Bedell amendment.

I do this, sincerely commending the efforts of the gentleman from Iowa [Mr. BEDELL] to deal with the farm income problem. I recognize that the gentleman has worked extremely hard.

There is no question in my mind that income for wheat and corn farmers would go up theoretically by $277 million for wheat and $1.5 billion for corn farmers in the first year; but my opposition to the Bedell amendment comes from three major areas.

The first is, at what cost will this wheat and corn farm income increase be to other segment of agriculture, on the cattle industry, on the poultry industry, on the dairy industry and on the cotton industry?

I know the gentleman contends that he takes care of the export problems, but let me point out very clearly to this committee this House of Representatives, those who are not on the Agriculture Committee. I am on that committee. I saw the Bedell amendment after we voted on it in the Agriculture Committee. I never got a chance to look at it before we voted on it.

There are trade implications. If we are going to deal with something as major as the complete and total subsidization of wheat and corn in the world markets, should we not in the House Agriculture Committee have considered the trade implications? Should we not have contended with the Ways and Means Committee? Should we not have consulted between the two committees?

Mr. VOLKMER. Mr. Chairman, will the gentleman yield?

Mr. STENHOLM. I am happy to yield to the gentleman from Missouri.

Mr. VOLKMER. Mr. Chairman, I just would like to point out to the gentleman and to the Members that the gentleman spoke vehemently against the Bedell amendment in the Agriculture Committee, did he not?

Mr. STENHOLM. Yes; but I did not know what I was talking on. That is why I was opposing it. I did not even see it. I did not have a copy of the amendment before we voted on it.

Mr. VOLKMER. Mr. Chairman, if the gentleman will yield further, it is the same amendment that we had in July and that we took up and debated, and the gentleman had a copy long before.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. STENHOLM. I yield to the gentleman from Kansas.

Mr. ROBERTS. Mr. Chairman, that is exactly the point. With the time constraints, I did not even have a chance to read into the record or for my colleagues to listen about the enforcement problems.

Who is going to enforce this act? There are treble damages, and if you reduce your acreage base, if you are caught selling your grain to your neighbor to his feed lot.

Now, that is just a small portion of this and we did not even get a chance to address it under these time constraints.

Mr. STENHOLM. Mr. Chairman, that is a fact. Most members of the Agriculture Committee did not see the Bedell amendment before it was voted on.

My second point is that I served on the State ASC committee during the previous administration. I am a very strong believer in the county-elected ASC system. Were this amendment to pass and a referendum occur next February, the policing of this certificate system will be tremendous.

I cannot say that we should not allow we farmers to vote. My opposition to the Bedell amendment is, Vote on what? This amendment, we should have spent more time on it if we wanted farmers to vote on it. We voted, we debated, we spent considerable time on the Volkmer amendment, and the House Agriculture Committee voted it down twice, 24 to 17 and 22 to 19.

The collective best judgment on the House Agriculture Committee is that we should not go to mandatory-referendum-certificated penalties on individuals who want to grow corn and wheat. That was the collective judgment of the House Agriculture Committe, not the Bedell amendment.

Nowhere were we ever in agreement that this is the direction to go. I think it is a cruel hoax on our farmers who do need the increased income, no question about that. We must have increased income, but I submit that nothing in this farm bill as it is, as is proposed by any amendment, is going to take care of the short-term economic farm problems in Iowa, in Texas, or the United States. Until we bring about a balanced budget for the Government of the United States, our farmers are going to continue to take it on the chin, and for us to make the kind of changes suggested and to take the Bedell approach, which is a compromise and again I commend the gentleman for his efforts to try to bring it about and I believe the gentleman would agree that we have tried to be helpful in some of the areas to try to make it work better; but it is physically impossible to do it under the current structure of the amendment.

I urge support for the Madigan amendment.

PARLIAMENTARY INQUIRY

Mr. DE LA GARZA. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. DE LA GARZA. Mr. Chairman, under the unanimous-consent agreement on the time and on opening the bill for amendment at any point, does the Chair intend to proceed title by title?

The CHAIRMAN. It is the intention of the Chair to proceed title by title for amendments.

Mr. DE LA GARZA. I thank the Chair.

Mr. Chairman, one of our concluding speakers is on the way. I wonder if the gentleman from Illinois would agree to yield time to one of his speakers on his side at this point.

□ 1145

Mr. MADIGAN. Mr. Chairman, I yield 2 minutes to the gentleman from Nebraska [Mr. BEREUTER].

Mr. BEREUTER. I thank the gentleman for yielding this time to me.

Mr. Chairman, I have complimented the committee previously in the general debate; please consider this a reiteration of those compliments I have a very short period of time to discuss this amendment which is crucial to the future of my State, and much like the gentleman from Kansas, Mr. Roberts, I believe that if this was a California economy in total jeopardy or a New England economy, we would have adequate time to discuss it, even a special session if necessary.

I am probably one of those 5 percent or less of the Members of this body who does not have his feet set firmly in concerete on this particular issue at the moment, but I do have a couple of questions.

First of all, I recall the words, for example, of my colleague, the gentleman from North Dakota [Mr. DORGAN], who said; "what we have is not working," and he is absolutely right. On the other hand, the Bedell alternative is a very high-risk proposal. It is a high-risk proposal because basically we will be in competition with the European Community, and I think it is crucial that we not take out of production a third of our land or more because the dislocation, in the agribusiness community on mainstreet America, in whole communities, and in whole States and regions of the country even with a farm economy with restored health, is going to be incredible.

Farmers voting on a referendum are voting not just for themselves and their families but for everyone in States like Nebraska and the whole western Grain Belt. Therefore, I think that Members of Congress who support the Bedell referendum, if it is approved by the farmers in February, are simply going to have to commit themselves if events prove it necessary to the extraordinarily large export subsidies to avoid that kind of dislocation. I think that is a commitment that Members of Congress must understand and accept if they support the Bedell amendment here.

I would ask the gentleman from Iowa [Mr. BEDELL] if he would respond quickly to a couple of questions.

Mr. BEDELL. I would be glad to.

Mr. BEREUTER. One: I assume that the export subsidies provided for under the gentleman's alternative do not carry with them cargo preference requirements with those subsidies.

Mr. BEDELL. That is the intent of the author.

Mr. BEREUTER. I thank the gentleman.

I would also hope that if, in fact, the Bedell amendment referendum is sustained in this bill and approved by the farm voters, that the Committee on Agriculture, with the leadership of the chairman and the leadership of the gentleman from Iowa [Mr. BEDELL] would serve as a forum for discussions between now the passage of the farm bill and the referendum date so that the Nation might have the benefit of a full public dialog on this issue, because the future of so many American people and whole States are affected by the outcome of such a referendum.

Mr. BEDELL. I completely agree with the gentleman and that would certainly be my intent.

Mr. BEREUTER. I thank the gentleman.

Mr. Chairman, I would vote the agriculture groups are extremely divided on this issue. Even within the farm and agribusiness groups that have taken positions one finds, great division of opinion: So I believe it is essential, with the largest surpluses of grain in the history of the world out there, with bumper crops all over America today, that again we come back and carefully reexamine the kinds of export subsidies that will be required to meet and beat the subsidized competition of the European Economic Community and other competitive Nations. I hope that in debate here and in conference, we look for alternatives to the status quo of existing farm programs that will work, including the Stangeland-Roberts Marketing Loan approach as well.

The CHAIRMAN. The Chair will announce that the gentleman from Illinois [Mr. MADIGAN] has 3 minutes remaining and the gentleman from Texas [Mr. DE LA GARZA] has 12 minutes remaining.

Mr. DE LA GARZA. Mr. Chairman, I yield 2 minutes to the distinguished majority whip, the gentleman from Washington [Mr. FOLEY].

Mr. FOLEY. I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in opposition to the Madigan amendment. This bill has been the subject of long and very difficult debate for not only weeks, but months, of work by the Committee on Agriculture, and on a number of occasions the committee was sharply divided and not, I might say, usually on partisan grounds. It was usually divided among both sides of the aisle on various issues. This is one such division. There was a divided vote, and a relatively close vote, on retaining the so-called Bedell referendum in the bill.

It was, however, decided by the committee to make this an integral part of the Committee on Agriculture's report on the farm bill of 1985, and I urge all Members on both sides of the aisle, to the extent I can, to keep the bill together so we can bring this bill forward as a unified report of the Committee on Agriculture.

I might note that almost without exception, we have stayed with the Committee bill so far in this consideration. Since through the the consideration of earlier titles we have stayed with the committee position, and I would hope Members will stay with the committee position on this and allow the Bedell amendment and the Bedell referendum to continue to be a part of the farm bill as reported by the House of Representatives.

Mr. MADIGAN. Mr. Chairman, I yield 1 minute to the gentleman from Colorado [Mr. BROWN].

Mr. BROWN of Colorado. I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in support of the Madigan amendment, not in opposition to the gentleman from Iowa because he is a man of compassion and has a sincere interest in the lot of farmers.

Mr. Chairman, this amendment is a disaster for agriculture, and let me suggest why. We have heard from the gentleman from Minnesota, from the gentleman from Kansas, and others. If we look at the cost of transporting an animal, from the growing areas of this country to the Canadian and Mexican borders, that cost is going to run, for a 750-pound animal, from about $10 to $25. The cost differential for feeding that animal in Mexico or Canada under this bill, with $2 a hundred difference in the price of corn, will be from $50 to $75. This bill will cause the export of our livestock for feeding with less expensive grain.

What we are talking about is providing an incentive to remove animals from this country for livestock feeding overseas. We are talking about decimating the best customers our grain farmers have. The shift outside the country will occur because the cost of feeding will be enough cheaper outside the country to offset the cost of transportation. Remember that we don't have a quota on importing the animals after they have been fed.

Anyone who knows the feeding process in Iowa, in Minnesota, in North Dakota, and South Dakota, knows this will be a disaster for their people. The bill will dramatically reduce the domestic consumption of grain. The bill will drive the grain farmers best customer out of the country because of the price differential.

The higher cost of feeding in the United States will eliminate much of our $4.2 billion in annual exports of meat and related products. Our exports will be reduced because it will be less expensive for the products to be produced overseas than in the United States if the Bedell amendment passes.

Mr. DE LA GARZA. Mr. Chairman, I move to strike the requisite number of words, and I take this time on behalf of our committee to thank all the Members for their attendance and attention to this very important amendment.

Again, Mr. Chairman, I ask my colleagues to stay with the committee. We labored long and hard.

This process began at the beginning of last year. We had hearings throughout the country, and then at the beginning of July we began the markup process. Unfortunately, we find ourselves here on the floor at this late date, at this point in time, due to the budget process, of having to comply with the budget requirements. Our fiscal 1986 budget was not finished until August, and that is why we were forced to wait until now to bring the bill to the floor. But at last, the long process is nearing an end.

There are great philosophical differences on one issue or another before the House, but let me say that where we are now is that we have on the extreme right a submission of the President that was not embraced by anyone. We have on the extreme left a proportion that would be mandatory for everyone and would include, nonetheless, a referendum, but would not be acceptable to the House—as was seen by the action on the proposal offered by our colleague, the gentleman from Missouri [Mr. VOLKMER].

Then we go toward the center, and somewhat to the right we have what came from the subcommittee, a more or less standard loan rate and target price, with some modifications, freezing target levels and trying not to reduce income, which has been our intent all along.

Then on the other side of that center line we have the proposal by our distinguished colleague, the gentleman from Iowa [Mr. BEDELL].

So we have then, I would say, the best of two worlds. We have a proposition, the norm, from the subcommittee which would be a fallback to the proposition offered by the gentleman from Iowa, and this would then give the farmers an opportunity to vote.

I am not going to discuss who votes and who does not vote under the Bedell proposal. Perhaps even that could be refined later. The issue is, again, that agriculture is in very difficult circumstances, and I have said, and someone may wonder if I am changing position, and I am not, that we cannot do radical surgery. It is too much of a risk; too much of a gamble. This proposal is not new. It has been tried before, but certainly it is an opportunity for us to go the center, to take two routes.

Farmers will choose. Do they go the standard way or do they go this other way. Related provisions regarding exports we have further down the line in another section. Those provisions address how we would utilize the tools of government to try and stabilize the export situation.

What we need to do at this point, we have to sell what we produce. We do not produce to store it, whoever pays for it. We have to sell what we produce. Again, I repeat my phrase. It is not a question of supply and demand but, rather demand and supply.

□ 1155

We are working toward that end with the committee bill. We are seeking to anticipate future production trends. Some of the experts predict, Luther Tweeten, for example, predicts, that inbalance of supply and demand would be almost the same from now until the end of the century, almost the same every year.

Further, we have to be able to deal with, we should be dealing with, the variable prices weekly. We need the tools to do this. The Bedell proposal allows us a shorter span of time to deal with the variables in the prices.

What the farmer needs is not charity, nor food stamps. Basically, I would say respectfully not even understanding or sympathy. He needs the price for his crop.

We do not have unlimited supplies of money. The Treasury does not have unlimited funds to just prop up and pay the farmer for whatever he grows, however much he needs or we need for a reliable supply into the marketplace here and abroad.

So that, Mr. Chairman, is very briefly, without passion, just an attempt to state as best I can the facts. We think that we have in the committee version a proposal that is compatible with what we perceive to be the needs, and now is not the time to turn our backs on the farmer. We need to do something.

There are differences of opinion. You have seen that there are differences of opinion.

But I think, even on a close vote, that it is very difficult for Members from a particular district—it is very hard, Mr. Chairman—to see a farmer or visit with the farmer who tells you with tears in his eyes, "Do something. Do something."

This is an attempt to try to do something somewhere near the center in a way that provides the farmers two alternatives, and then let them choose: this or that. I would hope that the membership of the House would support the committee and stay with the committee to allow farmers to make that choice.

The CHAIRMAN. The gentleman from Texas [Mr. DE LA GARZA] has 5½ minutes remaining.

Mr. DE LA GARZA. Mr. Chairman, I yield back the balance of my time.

Mr. MADIGAN. Mr. Chairman, I yield myself the balance of my time.

The CHAIRMAN. The gentleman from Illinois [Mr. MADIGAN] is recognized for 2 minutes.

Mr. MADIGAN. Mr. Chairman, I want to read into the RECORD the list of the farm organizations that do not agree with the gentleman from Iowa [Mr. BEDELL] and his provision: the National Cattlemen's Association, the American Farm Bureau Federation, the National Grange, the National Grain and Feed Association, the National Pork Producers Council, the National Association of Wheat Growers, the National Corn Growers Association, and the American Soybean Association. They all oppose the provision by the gentleman from Iowa [Mr. BEDELL] and support the motion to strike.

Is it possible that all of those farm organizations are wrong and that the gentleman from Iowa [Mr. BEDELL] is right? I suppose that is possible, but it is not very likely.

Let me read the list of the business organizations that say we would lose jobs in America if the Bedell provision becomes law: the American Bakers Association, the American Cotton Shippers Association, the American Meat Institute, the Florida Phosphate Council, the Food Marketing Institute, the Independent Bakers Association, the Milk Industry Foundation, Millers' National Foundation, the National-American Wholesale Grocers Association, and the National Broiler Council. All those business organizations are against Bedell and for the motion to strike. It is unlikely that they are all wrong.

With regard to another provision in the bill, the gentleman from Texas [Mr. DE LA GARZA], our distinguished chairman, said it was no time to gamble with untried ideas. I suggest to the gentleman, ladies and gentlemen of the Committee of the Whole, that that is no less true with regard to the Bedell provision.

Questions have been raised by the Congressional Budget Office that have never been answered by the proponents. Questions have been raised by the Trade Department in the Department of Agriculture that have never been answered.

I have a letter from the Special Trade Representative opposing the Bedell provision and saying it was not corrected with regard to the trade deficiencies by the amendment adopted the day before yesterday.

I urge everyone who cares about the future of agriculture in America to support the motion to strike, and I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Illinois [Mr. MADIGAN].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. MADIGAN. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 251, noes 174, not voting 9, as follows:

[Roll No. 333]

NOT VOTING—9

Addabbo	Ford (MI)	McEwen
Berman	Gradison	Rodino
Clay	Kindness	Wright

□ 1220

Mr. PERKINS, Mr. ANNUNZIO, and Mrs. LLOYD changed their votes from "aye" to "no."

Mrs. LLOYD, Mrs. BOGGS, Mrs. SCHROEDER, Mr. CHAPPEL, and Mr. DICKS changed their votes from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

Mr. WEAVER. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. Without objection, the gentleman from Oregon [Mr. WEAVER] is recognized for 5 minutes.

There was no objection.

Mr. WEAVER. Mr. Chairman, with that vote we just placed the American farmer in his grave. It was his last hope and his last chance.

I talked to Members, and I asked them why they voted "aye," and most of them responded that they thought it was just another price-support program. That is exactly what the Bedell language was not.

It was to give the farmer a chance to control supply with marketing certificates, to bring it into balance with demand so the price could rise to a point where he could make a profit, pay off his debts, and stay in business producing food for this country. Now he has no chance.

The supports in the bill are so low that they are tantamount to bankruptcy, and that is what is going to happen now to the average American farmer. He no longer has a hope. A few fat cats will stay in business. Perhaps some Members were called by some fat cats and told to support the Madigan amendment. But the average American farmer in this country knew that this was his last hope, and I only hope that somehow, some way, we can get into this bill or a bill soon after some kind of language to allow the American farmer to control his own supply, to be a businessman and produce what the market will take.

Remember, and I wish we had been able to get the message across, the Bedell language was simply a way the farmer controlled his supply. It was not a price-support program that raised Government spending. It would have cut tens of billions of dollars from the deficit, tens of billions of dollars of deficit reduction had the Bedell language become law. It would have raised the prices for the farmers who could have stayed in business.

I deeply, deeply regret the action.

When I came to Congress 10 years ago this was the language I wanted to see in the farm bill, and I had hoped finally we could have done that. I am sorry we voted this way, but the will of the House is the will of the House.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. Are there any amendments to title VI, cotton?

Are there any amendments to title VII, rice?

Are there any amendments to title VIII, peanuts?

AMENDMENT OFFERED BY MR. LUNDINE

Mr. LUNDINE. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment Offered By Mr. LUNDINE: Page 159, strike out line 2 and all that follows through line 12 on page 185, and insert in lieu thereof the following:

NATIONAL POUNDAGE QUOTA AND FARM POUNDAGE QUOTA

SEC. 801. Effective only for the 1986 through 1988 crops of peanuts, subsections (k) through (p) of section 358 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358(k)-(p)) are amended to read as follows:

"(k) The national poundage quota for peanuts for each marketing year shall be 800,000 tons for 1986; 600,000 tons for 1987; and 400,000 tons for 1988.

"(l) The national poundage quota established under subsection (k) of this section shall be apportioned among the States so that the poundage quota allocated to each State shall be equal to the percentage of the national poundage quota allocated to farms in the State for 1985.

"(m)(1) A farm poundage quota shall be established for each farm which had a farm poundage quota for the 1985 crop year.

"(2) The poundage quota apportioned to a State under subsection (1) of this section shall be allocated among such farms in the State so that the poundage quota allocated to each farm shall be equal to the percentage of the poundage quota allocated to such farm for 1985.

"(n)(1) For each farm for which a farm poundage quota was established for the 1985 crop of peanuts, and when necessary for purposes of this Act, a farm yield of peanuts shall be determined for each farm.

"(2) Such yield shall be equal to the average of the actual yield per acre on the farm for each of the three crop years in which yields were highest on the farm out of the five crop years 1981 through 1985.

"(3) In the event that peanuts were not produced on the farm in at least three years during such five-year period or there was a substantial change in the operation of the farm during such period (including, but not limited to, a change in operator, lessee who is an operator, or irrigation practices), the Secretary shall have a yield appraised for the farm. The appraised yield shall be that amount determined to be fair and reasonable on the basis of yields established for similar farms which are located in the area of the farm and on which peanuts were produced, taking into consideration land, labor, and equipment available for the production of peanuts, crop rotation practices, soil and water, and other relevant factors.

"(o)(1) Not later than December 15 of each calendar year, the Secretary shall conduct a referendum of farmers engaged in

the production of quota peanuts in the calendar year in which the referendum is held to determine whether such farmers are in favor of or opposed to poundage quotas with respect to the crops of peanuts produced in the three calendar years immediately following the year in which the referendum is held, except that, if as many as two-thirds of the farmers voting in any referendum vote in favor of poundage quotas, no referendum shall be held with respect to quotas for the second and third years of the period.

"(2) The Secretary shall proclaim the result of the referendum within thirty days after the date on which it is held.

"(3) If more than one-third of the farmers voting in the referendum vote against quotas, the Secretary also shall proclaim that poundage quotas will not be in effect with respect to the crop of peanuts produced in the calendar year immediately following the calendar year in which the referendum is held.

"(p) For the purposes of this part and title I of the Agricultural Act of 1949 (7 U.S.C. 1441 et seq.):

"(1) The term 'quota peanuts' means, for any marketing year, any peanuts produced on a farm having a farm poundage quota, as determined in subsection (m) of this section—

"(A) that are eligible for demestic edible use as determined by the Secretary,

"(B) that are marketed or considered marketed from a farm, and

"(C) that do not exceed the farm poundage quota of such farm for such year.

"(2) The term 'additional peanuts' means, for any marketing year—

"(A) any peanuts that are marketed from a farm for which a farm poundage quota has been established and that are in excess of the marketings of quota peanuts from such farm for such year, and

"(B) all peanuts marketed from a farm for which no farm poundage quota has been established in accordance with subsection (m) of this section.

"(3) The term 'crushing' means—

"(A) the processing of peanuts to extract oil for food uses and meal for feed uses, or

"(B) the processing of peanuts by crushing or processing into flakes or otherwise when authorized by the Secretary.

"(4) The term 'domestic edible use' means use for milling to produce domestic food peanuts (other than those described in paragraph (3) of this subsection) and seed and use on a farm, except that the Secretary may exempt from this definition seeds of peanuts that are used to produce peanuts excluded under section 359(c) of this Act, are unique strains, and are not commercially available.".

SALE, LEASE, OR TRANSFER OF FARM POUNDAGE QUOTA

SEC. 802. Effective only for the 1986 through 1988 crops of peanuts, subsections (i) and (j) of section 358a of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358a (i) and (j)) are amended to read as follows:

"(i)(1) The owner, or the operator with permission of the owner, of any farm for which a farm poundage quota has been established under this Act may, subject to such terms, conditions, or limitations as the Secretary may prescribe, sell or lease all or any part of such poundage quota to any other owner or operator of a farm within the same county for transfer to such farm.

"(2) The owner or operator of a farm may transfer all or any part of such farm's farm poundage quota to any other farm owned or controlled by such owner or operator that is in the same country or in a county contiguous to such county in the same State and that had a farm poundage quota for the 1985 crop.

"(3) Notwithstanding the foregoing provisions of this subsection—

"(A) in the case of any county in any State for which the poundage quota allocated to the State was less than 10,000 tons for the 1985 crop,

"(B) in any other State, in the case of any county for which the poundage quota allocated to the county was less than 10,000 tons for the 1985 crop, and

"(C) in the cae of any farm in any county in which the farm poundage quota established for the farm was not produced on the farm during any two of the three marketing years preceding the year of which the determination is being made, all or any part of a farm poundage quota may be transferred by sale or lease or otherwise from a farm in one county to a farm in another county in the same State.

"(j) Transfers (including transfer by sale or lease) of farm poundage quotas under this section shall be subject to the following conditions:

"(1) No transfer of the farm poundage quota from a farm subject to a mortgage or other lien shall be permitted unless the transfer is agreed to by the lienholders.

"(2) No transfer of the farm poundage quota shall be permitted if the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590H(b)) determines that the receiving farm does not have adequate tillable cropland to produce the farm poundage quota.

"(3) No transfer of the farm poundage quota shall be effective until a record thereof is filed with the county committee of the county to which such transfer is made and such committee determines that the transfer complies with the provisions of this section.

"(4) Such other terms and conditions that the Secretary may by regulation prescribe.".

MARKETING PENALTIES; DISPOSITION OF ADDITIONAL PEANUTS

SEC. 803. Effective only for the 1986 through 1988 crops of peanuts, section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359) is amended by striking out subsections (f) through (l) and inserting in lieu thereof the following new subsections:

"(f)(1)(A) The marketing of any peanuts for domestic edible use in excess of the farm poundage quota for the farm on which such peanuts are produced shall be subject to penalty at a rate equal to 140 per centum of the support price for quota peanuts for the marketing year in which such marketing occurs.

"(B) For purposes of this section, the marketing year for peanuts shall be the twelve-month period beginning on August 1 and ending on July 31.

"(C) The marketing of any additional peanuts from a farm shall be subject to the same penalty unless such peanuts, in accordance with regulations established by the Secretary, are either—

"(i) placed under loan at the additional loan rate in effect for such peanuts under section 108B of the Agricultural Act of 1949 and not redeemed by the producers,

"(ii) marketed through an area marketing association designated pursuant to section 108B(e)(1) of the Agricultural Act of 1949, or

"(iii) marketed under contracts between handlers and producers, pursuant to the provisions of subsection (j) of this section.

"(D)(i) Such penalty shall be paid—

"(I) by the person who buys or otherwise acquires the peanuts from the producer, or

"(II) if the peanuts are marketed by the producer through an agent, by such agent.

"(ii) If a person or agent is required to pay a penalty under clause (i) of this subparagraph, such person or agent may deduct an amount equivalent to the penalty from the price paid to the producer.

"(E) If the person required to collect the penalty fails to collect such penalty, such person and all persons entitled to share in the peanuts marketed from the farm or the proceeds thereof shall be jointly and severally liable for the amount of the penalty.

"(F) Peanuts produced in a calendar year in which farm poundage quotas are in effect for the marketing year beginning therein shall be subject to such quotas even though the peanuts are marketed prior to the date on which such marketing year begins.

"(G) If any producer falsely identifies or fails to certify planted acres or fails to account for the disposition of any peanuts produced on such planted acres, an amount of peanuts equal to the farm's average yield, as determined under section 35B(n) of this Act, times the planted acres, shall be deemed to have been marketed in violation of permissible uses of quota and additional peanuts. The penalty in respect thereof shall be paid and remitted by the producer.

"(2)(A) The Secretary shall authorize, under such regulations as the Secretary shall prescribe, the county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or reduce marketing penalties provided for under this subsection in cases in which such committees determine that the violations that were the basis of the penalties were unintentional or without knowledge on the part of the parties concerned.

"(B) Errors in weight that do not exceed one-tenth of 1 per centum in the case of any one marketing document may not be considered marketing violations except in cases of fraud or conspiracy.

"(g)(1) Only quota peanuts may be retained for use as seed or for other uses on a farm.

"(2) Peanuts retained under paragraph (1) shall be considered as marketings of quota peanuts, except that the Secretary may exempt from consideration as marketings of quota peanuts seeds of peanuts that are used to produce peanuts excluded under section 395(c) of this Act, are unique strains, and are not commercially available.

"(3) Additional peanuts may not be retained for use on a farm and may not be marketed for domestic edible use, except as provided in subsection (k) of this section.

"(4) Seed for planting of any peanut acreage in the United States shall be obtained solely from quota peanuts marketed or considered marketed for domestic edible use.

"(h) On a finding by the Secretary that the peanuts marketed from any crop for domestic edible use by a handler are larger in quantity or higher in grade or quality than the peanuts that could reasonably be produced from the quantity of peanuts having the grade, kernel content, and quality of the quota peanuts acquired by such handler from such crop for such marketing, such handler shall be subject to a penalty equal to 120 per centum of the loan level for quota peanuts on the quantity of peanuts

that the Secretary determines are in excess of the quantity, grade, or quality of the peanuts that could reasonably have been produced from the peanuts so acquired.

"(i)(1) The Secretary shall require that the handling and disposal of additional peanuts be supervised by agents of the Secretary or by area marketing associations designed pursuant to section 108B(e)(1) of the Agricultural Act of 1949.

"(2) Quota and additional peanuts of like type and segregation or quality may, under regulations prescribed by the Secretary, be commingled and exchanged on a dollar value basis to facilitate warehousing, handling, and marketing.

"(3) Failure by the handler to comply with regulations issued by the Secretary governing the disposition and handling of additional peanuts shall subject the handler to a penalty at a rate equal to 120 per centum of the loan level for quota peanuts on the quantity of peanuts involved in the violation.

"(j) Handlers may, under regulations prescribed by the Secretary, contract with producers for the purchase of additional peanuts for crushing, export, or both. All such contracts shall be completed and submitted to the Secretary (or if designated by the Secretary, the area marketing association) for approval prior to August 1 of the year in which the crop is produced.

"(k)(1) Subject to the provisions of section 407 of the Agricultural Act of 1949 (7 U.S.C. 1427), any peanuts owned or controlled by the Commodity Credit Corporation may be made available for domestic edible use in accordance with regulations established by the Secretary.

"(2) Additional peanuts received under loan shall be offered for sale for domestic edible use at prices not less than those required to cover all cost incurred with respect to such peanuts for such items as inspection, warehousing, shrinkage, and other expenses, plus—

"(A) not less than 100 per centum of the loan value of quota peanuts if the additional peanuts are sold and paid for during the harvest season on delivery by the producer,

"(B) not less than 105 per centum of the loan value of quota peanuts if the additional peanuts are sold after delivery by the producer by not later than December 31 of the marketing year, or

"(C) not less than 107 per centum of the loan value of quota peanuts if the additional peanuts are sold later than December 31 of the marketing year.

"(3) For the period from the date additional peanuts are delivered for loan to March 1 of the calendar year following the year in which such additional peanuts were harvested, the area marketing association designated pursuant to section 108B(e)(1) of the Agricultural Act of 1949 shall have sole authority to accept or reject lot list bids when the sales price as determined under this section equals or exceeds the minimum price at which the Commodity Credit Corporation may sell its stocks of additional peanuts, except that the area marketing association and the Commodity Credit Corporation may agree to modify the authority granted by this paragraph in order to facilitate the orderly marketing of additional peanuts.

"(l)(1) The person liable for payment or collection of any penalty provided for in this section shall be liable also for interest thereon at a rate per annum equal to the rate of interest which was charged the Commodity Credit Corporation by the Treasury of the United States on the date such penalty became due.

"(2) The provisions of this section shall not apply to peanuts produced on any farm on which the acreage harvested for nuts is one acre or less if the producers who share in the peanuts produced on such farm do not share in the peanuts produced on any other farm.

"(3) Until the amount of the penalty provided by this section is paid, a lien on the crop of peanuts with respect to which such penalty is incurred, and on any subsequent crop of peanuts subject to farm poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States.

"(4)(A) Notwithstanding any other provision of law, the liability for and the amount of any penalty assessed under this section shall be determined in accordance with such procedures as the Secretary by regulations may prescribe.

"(B) The facts constituting the basis for determining the liability for or amount of any penalty assessed under this section, when officially determined in conformity with the applicable regulations prescribed by the Secretary, shall be final and conclusive and may not be reviewable by any other officer or agency of the Government.

"(C) Nothing in this section shall be construed as prohibiting any court of competent jurisdiction from reviewing any determination made by the Secretary with respect to whether such determination was made in conformity with the applicable law and regulations.

"(D) All penalties imposed under this section shall for all purposes be considered civil penalties.

"(5) Notwithstanding any other provision of law, the Secretary may reduce the amount of any penalty assessed against handlers under this section if the Secretary finds that—

"(A) the violation on which the penalty is based was minor or inadvertent, and

"(B) the reduction of the penalty will not impair the operation of the peanut program.

"(m) Notwithstanding any other provision of law, the Secretary may not permit peanuts which are otherwise ineligible for price support as quota peanuts because of defects, as determined by the Secretary, to be eligible for price support at levels applicable to quota peanuts regardless of whether the quota allocated to the farm has been fully utilized for the crop year. The Secretary may, if deemed necessary, make peanuts so ineligible for price support as quota peanuts, if they have been pledged as collateral for a price support loan, available to buyers for seed use or edible use at prices which are applicable to quota peanuts.".

PRICE SUPPORT PROGRAM

SEC. 804. Effective only for the 1986 through 1988 crops of peanuts, the Agricultural Act of 1949 is amended by adding after section 108A (7 U.S.C. 1445c-1)) the following new section:

"SEC. 108B. Notwithstanding any other provision of law: "(a)(1) The Secretary shall make price support available to producers through loans, purchases, or other operations on quota peanuts for each of the 1986 through 1988 crops.

"(2) Except as provided in paragraphs (3) and (4) of this subsection, the national average quota support rate for each of the 1986 through 1988 crops of quota peanuts shall be $500 per ton for the 1986 crop, $480 per ton for the 1987 crop, and $460 per ton for the 1988 crop.

"(3) The Secretary may increase the national average quota support rate for a crop of peanuts prescribed under paragraph (2) by an account determined by the Secretary, taking into account the factors referred to in section 401(b) of this Act.

"(4) Such levels of support may not be reduced by any deductions for inspection, handling, or storage, except that the Secretary may make adjustments for the location of peanuts and such other factors as are authorized by section 403 of this Act.

"(b)(1) Except as provided in paragraph (2) of this subsection, the Secretary shall make price support available to producers through loans, purchases, or other operations on additional peanuts for each of the 1986 through 1988 crops at such levels as the Secretary finds appropriate, taking into account the factors referred to in section 401(b) of this Act.

"(2) The Secretary shall set the support rate on additional peanuts at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of such peanuts.

"(c)(1) Except as provided in paragraph (2) of this subsection, the Secretary shall make price support available to producers through loans, purchases, or other operations on peanuts of the 1989 crop at such level as the Secretary finds appropriate, taking into account the factors referred to in section 401(b) of this Act.

"(2) The Secretary shall set the support rate at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of such peanuts.

"(d) The Secretary shall announce each of the levels of support determined under subsection (b) or (c) not later than February 15 preceding the marketing year for the crop for which the level of support is being determined.

"(e)(1)(A) In carrying out subsections (a), (b), and (c) of this section, the Secretary shall make warehouse storage loans available in each of the three producing areas (described in section 1446.11 of title 7, Code of Federal Regulations (1984 ed.)) to a designated area marketing association of peanut producers that is selected and approved by the Secretary and that is operated primarily for the purposes of conducting such loan activities.

"(B) The Secretary may not make warehouse storage loans available to any cooperative that is engaged in operations or activities concerning peanuts other than those operations and activities specified in this section and in section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(C) Such area marketing associations shall be used in administrative and supervisory activities relating to price support and marketing activities under this section and section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(D) Loans made under this paragraph shall include, in addition to the price support value of the peanuts, such costs as the area marketing association reasonably may incur in carrying out its responsibilities, operations, and activities under this section and section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(2)(A) The Secretary shall require that each area marketing association establish pools and maintain complete and accurate records by type, area, and segregation for—

"(i) quota peanuts of the 1986 through 1988 crops handled under loan,

"(ii) additional peanuts of the 1986 through 1988 crops placed under loan,

"(iii) additional peanuts produced without a contract between a handler and a producer as described in section 359(j) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359(j)), and

"(iv) all peanuts of the 1989 crop placed under loan.

"(B) Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed in proportion to the value of the peanuts placed in the pool by each producer.

"(C) For the 1986 through 1988 crops, net gains for peanuts in each pool shall consist of—

"(i) for quota peanuts—

"(I) the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in such pool, plus

"(II) an amount from the pool for additional peanuts to the extent of the net gains from the sale for domestic food and related uses of additional peanuts in the pool for additional peanuts equal to any loss on disposition of all peanuts in the pool for quota peanuts, and

"(ii) for additional peanuts—

"(I) the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts, less

"(II) any amount allocated to offset any loss on the pool for quota peanuts as provided in clause (i) of this subparagraph.

"(D) Notwithstanding any other provision of this section, any distribution of net gains on additional peanuts of any type to any producer shall be reduced to the extent of any loss by the Commodity Credit Corporation on quota peanuts of a different type placed under loan by such producer.

"(E) For the 1989 crop, net gains shall be the amount over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool.

"(f) Notwithstanding the foregoing provisions of this section or any other provision of law, no price support shall be made available by the Secretary for any of the 1986 through 1988 crops of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 358(o) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358(o)).".

REPORTS AND RECORDS

SEC. 805. Effective only for the 1986 through 1988 crops of peanuts, the first sentence of section 373(a) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1373(a)) is amended by inserting immediately before "all brokers and dealers in peanuts" the following: "all farmers engaged in the production of peanuts,".

SUSPENSION OF MARKETING QUOTAS AND ACREAGE ALLOTMENTS

SEC. 806. The following provisions of the Agricultural Adjustment Act of 1938 shall not be applicable to the 1986 through 1989 crops of peanuts:

(1) Subsections (a) through (j) of section 358 (7 U.S.C. 1358(a)-(j));

(2) Subsections (a) through (h) of section 358a (7 U.S.C. 1358a(a)-(h));

(3) Subsections (a), (b), (d), and (e) of section 359 (7 U.S.C. 1359(a), (b), (d), and (e));

(4) Part I of subtitle C of title III (7 U.S.C. 1361 et seq.); and

(5) Section 371 (7 U.S.C. 1371).

SUSPENSION OF CERTAIN PRICE SUPPORT PROVISIONS

SEC. 807. Section 101 of the Agricultural Act of 1949 (7 U.S.C. 1441) shall not be applicable to the 1986 through 1989 crops of peanuts.

Mr. LUNDINE [during the reading]. Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from New York?

There was no objection.

The CHAIRMAN. Under the unanimous-consent request that was agreed to, 1 hour will be devoted to this title and all amendments thereto.

PARLIAMENTARY INQUIRIES

Mr. MADIGAN. I thank the Chair for that clarification. That time is to be evenly divided between the majority and the minority; is that the understanding, Mr. Chairman?

The CHAIRMAN. This title and all amendments thereto. Time has not been allocated.

Mr. ROSE. Mr. Chairman, I thought our understanding was that time would be divided between the proponents and the opponents of the Lundine amendment. That was my understanding.

Mr. MADIGAN. I am trying to establish the parameters of the agreement. If that is the agreement, I have no objection to it. I just want to be sure that everbody understands whatever it is that we have got here.

Mr. ROSE. I thought that was our understanding. I will be happy to accommodate any Member on the gentleman's side who wishes to speak in opposition to the Lundine amendment.

Mr. MADIGAN. Mr. Chairman, is it the Chair's understanding that the time on peanuts is divided between the proponents and opponents?

The CHAIRMAN. That is correct.

Mr. MADIGAN. May we then identify who is managing the time for the proponents and opponents?

Mr. ROSE. May I inquire, Mr. Chairman, does the gentleman from Illinois have the time?

The CHAIRMAN. The gentleman from Illinois has the time.

Mr. ROSE. Mr. Chairman, I would request that I be allowed to manage the time for the opponents of the Lundine amendment, and Mr. LUNDINE can capably manage his own 30 minutes.

Mr. MADIGAN. So that the time would be evenly divided between Mr. ROSE and Mr. LUNDINE.

Mr. ROSE. Yes. sir.

Mr. MADIGAN. I have no objection to that.

The CHAIRMAN. The Chair intends to recognize the gentleman from New York [Mr. LUNDINE], but before the Chair does that, let the Chair announce that there is another amendment to this title which may be offered.

Mr. LUNDINE. Mr. Chairman, I ask unanimous consent that debate on the Lundine amendment be restricted to 50 minutes, to be equally divided.

Mr. Chairman, I will inform the minority that I will honor requests for time in favor of the amendment, as Mr. ROSE has indicated he will to those opposed.

The CHAIRMAN. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. LUNDINE. Mr. Chairman, I have a technical amendment to the Lundine amendment to H.R. 2100. This technical amendment has been shared with both the majority and minority counsel, and I ask unanimous request to modify my amendment in conformity with the technical amendment.

The CHAIRMAN. The Clerk will report the modification.

The Clerk read the modification as follows:

Modification offered by Mr. LUNDINE to the amendment offered by Mr. LUNDINE: In section 804, strike out "Effective only for the 1986 through 1988 crops of peanuts," and substitute in lieu thereof "Effective only for the 1986 through 1990 crops of peanuts,".

In section 804, in the amendment that adds section 108B to the Agriculture Act of 1949:

Strike out in section 108B(c)(1), "of the 1989 crop" and insert in lieu thereof "of each of the 1989 and 1990 crops,";

Strike out in section 108B(e)(2)(A)(iv) and section 108B(e)(2)(E), "1989 crop" and insert in lieu thereof "1989 and 1990 crops".

In sections 806 and 807, strike out "1986 through 1989" and substitute in lieu thereof "1986 through 1990".

Mr. LUNDINE (during the reading). Mr. Chairman, I ask unanimous consent that the modification be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from New York?

There was no objection.

The CHAIRMAN. Without objection, the modification is agreed to.

There was no objection.

The text of the Lundine amendment, as modified, is as follows:

Amendment offered by Mr. LUNDINE, as modified: Page 159, strike out line 2 and all that follows through line 12 on page 185, and insert in lieu thereof the following:

NATIONAL POUNDAGE QUOTA AND FARM POUNDAGE QUOTA

SEC. 801. Effective only for the 1986 through 1988 crops of peanuts, subsections (k) through (p) of section 358 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358(k)-(p)) are amended to read as follows:

"(k) The national poundage quota for peanuts for each marketing year shall be 800,000 tons for 1986; 600,000 tons for 1987; and 400,000 tons for 1988.

"(1) The national poundage quota established under subsection (k) of this section shall be apportioned among the States so that the poundage quota allocated to each State shall be equal to the percentage of the national poundage quota allocated to farms in the State for 1985.

"(m)(1) A farm poundage quota shall be established for each farm which had a farm poundage quota for the 1985 crop year.

"(2) The poundage quota appcrtioned to a State under subsection (1) of this section shall be allocated among such farms in the State so that the poundage quota allocated to each such farm shall be equal to the percentage of the poundage quota allocated to such farm for 1985.

"(n)(1) For each farm for which a farm poundage quota was established for the 1985 crop of peanuts, and when necessary for purposes of this Act, a farm yield of peanuts shall be determined for each farm.

"(2) Such yield shall be equal to the average of the actual yield per acre on the farm for each of the three crop years in which yields were highest on the farm out of the five crop years 1981 through 1985.

"(3) In the event that peanuts were not produced on the farm in at least three years during such five-year period or there was a substantial change in the operation of the farm during such period (including, but not limited to, a change in operator, lessee who is an operator, or irrigation practices), the Secretary shall have a yield appraised for the farm. The appraised yield shall be that amount determined to be fair and reasonable on the basis of yields established for similar farms which are located in the area of the farm and on which peanuts were produced, taking into consideration land, labor, and equipment available for the production of peanuts, crop rotation practices, soil and water, and other relevant factors.

"(o)(1) Not later than December 15 of each calendar year, the Secretary shall conduct a referendum of farmers engaged in the production of quota peanuts in the calendar year in which the referendum is held to determine whether such farmers are in favor of or opposed to poundage quotas with respect to the crops of peanuts produced in the three calendar years immediately following the year in which the referendum is held, except that, if as many as two-thirds of the farmers voting in any referendum vote in favor of poundage quotas, no referendum shall be held with respect to quotas for the second and third years of the period.

"(2) The Secretary shall proclaim the result of the referendum within thirty days after the date on which it is held.

"(3) If more than one-third of the farmers voting in the referendum vote against quotas, the Secretary also shall proclaim that poundage quotas will not be in effect with respect to the crop of peanuts produced in the calendar year immediately following the calendar year in which the referendum is held.

"(p) For the purposes of this part and title I of the Agriculture Act of 1949 (7 U.S.C. 1441 et seq.):

"(1) The term 'quota peanuts' means, for any marketing year, any peanuts produced on a farm having a farm poundage quota, as determined in subsection (m) of this section—

"(A) that are eligible for domestic edible use as determined by the Secretary,

"(B) that are marketed or considered marketed from a farm, and

"(C) that do not exceed the farm poundage quota of such farm for such year.

"(2) The term 'additional peanuts' means, for any marketing year—

"(A) any peanuts that are marketed from a farm for which a farm poundage quota has been established and that are in excess of the marketings of quota peanuts from such farm for such year, and

"(B) all peanuts marketed from a farm for which no farm poundage quota has been established in accordance with subsection (m) of this section.

"(3) The term 'crushing' means—

"(A) the processing of peanuts to extract oil for food uses and meal for feed uses, or

"(B) the processing of peanuts by crushing or processing into flakes or otherwise when authorized by the Secretary.

"(4) The term 'domestic edible use' means use for milling to produce domestic food peanuts (other than those described in paragraph (3) of this subsection) and seed and use on a farm, except that the Secretary may exempt from this definition seeds of peanuts that are used to produce peanuts excluded under section 359(c) of this Act, are unique strains, and are not commercially available.".

SALE, LEASE, OR TRANSFER OF FARM POUNDAGE QUOTA

SEC. 802. Effective only for the 1986 through 1988 crops of peanuts, subsections (i) and (j) of section 358a of the Agricultural Adjustment Act of 1938 (7 U.S.C. 135a (i) and (j)) are amended to read as follows:

"(i)(1) The owner, or the operator with permission of the owner, of any farm for which a farm poundage quota has been established under this Act may, subject to such terms, conditions, or limitations as the Secretary may prescribe, sell or lease all or any part of such poundage quota to any other owner or operator of a farm within the same county for transfer to such farm.

"(2) The owner or operator of a farm may transfer all or any part of such farm's farm poundage quota to any other farm owned or controlled by such owner or operator that is in the same county or in a county contiguous to such county in the same State and that had a farm poundage quota for the 1985 crop.

"(3) Notwithstanding the foregoing provisions of this subsection—

"(A) in the case of any county in any State for which the poundage quota allocated to the State was less than 10,000 tons for the 1985 crop,

"(B) in any other State, in the case of any county for which the poundage quota allocated to the county was less than 10,000 tons for the 1985 crop, and

"(C) in the case of any farm in any county in which the farm poundage quota established for the farm was not produced on the farm during any two of the three marketing years preceding the year for which the determination is being made,

all or any part of a farm poundage quota may be transferred by sale or lease or otherwise from a farm in one county to a farm in another county in the same State.

"(J) Transfers (including transfer by sale or lease) of farm poundage quotas under this section shall be subject to the following conditions:

"(1) No transfer of the farm poundage quota from a farm subject to a mortgage or other lien shall be permitted unless the transfer is agreed to by the lienholders.

"(2) No transfer of the farm poundage quota shall be permitted if the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) determines that the receiving farm does not have adequate tillable cropland to produce the farm poundage quota.

"(3) No transfer of the farm poundage quota shall be effective until a record thereof is filed with the county committee of the county to which such transfer is made and such committee determines that the transfer complies with the provisions of this section.

"(4) Such other terms and conditions that the Secretary may by regulation prescribe.".

MARKETING PENALTIES; DISPOSITION OF ADDITIONAL PEANUTS

SEC. 803. Effective only for the 1986 through 1988 crops of peanuts, section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359) is amended by striking out subsections (f) through (l) and inserting in lieu thereof the following new subsections:

"(f)(1)(A) The marketing of any peanuts for domestic edible use in excess of the farm poundage quota for the farm on which such peanuts are produced shall be subject to penalty at a rate equal to 140 per centum of the support price for quota peanuts for the marketing year in which such marketing occurs.

"(B) For purposes of this section, the marketing year for peanuts shall be the twelve-month period beginning on August 1 and ending on July 31.

"(C) The marketing of any additional peanuts from a farm shall be subject to the same penalty unless such peanuts, in accordance with regulations established by the Secretary, are either—

"(i) placed under loan at the additional loan rate in effect for such peanuts under section 1088 of the Agricultural Act of 1949 and not redeemed by the producers,

"(ii) marketed through an area marketing association designated pursuant to section 1088(e)(1) of the Agricultural Act of 1949, or

"(iii) marketed under contracts between handlers and producers, pursuant to the provisions of subsection (j) of this section.

"(D)(i) Such penalty shall be paid—

"(I) by the person who buys or otherwise acquires the peanuts from the producer, or

"(II) if the peanuts are marketed by the producer through an agent, by such agent.

"(ii) If a person or agent is required to pay a penalty under clause (i) of this subparagraph, such person or agent may deduct an amount equivalent to the penalty from the price paid to the producer.

"(E) If the person required to collect the penalty fails to collect such penalty, such person and all persons entitled to share in the peanuts marketed from the farm or the proceeds thereof shall be jointly and severally liable for the amount of the penalty.

"(F) Peanuts produced in a calendar year in which farm poundage quotas are in effect for the marketing year beginning therein shall be subject to such quotas even though the peanuts are marketed prior to the date on which such marketing year begins.

"(G) If any producer falsely identifies or fails to certify planted acres or fails to account for the disposition of any peanuts produced on such planted acres, an amount of peanuts equal to the farm's average yield, as determined under section 358(n) of this Act, times the planted acres, shall be deemed to have been marketed in violation of permissible uses of quota and additional peanuts. The penalty in respect thereof shall be paid and remitted by the producer.

"(2)(A) The Secretary shall authorize, under such regulations as the Secretary shall prescribe, the county committees es-

tablished under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or reduce marketing penalties provided for under this subsection in cases in which such committees determine that the violations that were the basis of the penalties were unintentional or without knowledge on the part of the parties concerned.

"(B) Errors in weight that do not exceed one-tenth of 1 per centum in the case of any one marketing document may not be considered marketing violations except in cases of fraud or conspiracy.

"(g)(1) Only quota peanuts may be retained for use as seed or for other uses on a farm.

"(2) Peanuts retained under paragraph (1) shall be considered as marketings of quota peanuts, except that the Secretary may exempt from consideration as marketings of quota peanuts seeds of peanuts that are used to produce peanuts excluded under section 359(c) of this Act, are unique strains, and are not commercially available.

"(3) Additional peanuts may not be retained for use on a farm and may not be marketed for domestic edible use, except as provided in subsection (k) of this section.

"(4) Seed for planting of any peanut acreage in the United States shall be obtained solely from quota peanuts marketed or considered marketed for domestic edible use.

"(h) On a finding by the Secretary that the peanuts marketed from any crop for domestic edible use by a handler are larger in quantity or higher in grade or quality than the peanuts that could reasonably be produced from the quantity of peanuts having the grade, kernel content, and quality of the quota peanuts acquired by such handler from such crop for such marketing, such handler shall be subject to a penalty equal to 120 per centum of the loan level for quota peanuts on the quantity of peanuts that the Secretary determines are in excess of the quantity, grade, or quality of the peanuts that could reasonably have been produced from the peanuts so acquired.

"(i)(1) The Secretary shall require that the handling and disposal of additional peanuts be supervised by agents of the Secretary or by area marketing associations designated pursuant to section 108B(e)(1) of the Agricultural Act of 1949.

"(2) Quota and additional peanuts of like type and segregation or quality may, under regulations prescribed by the Secretary, be commingled and exchanged on a dollar value basis to facilitate warehousing, handling, and marketing.

"(3) Failure by a handler to comply with regulations issued by the Secretary governing the disposition and handling of additional peanuts shall subject the handler to a penalty at a rate equal to 120 per centum of the loan level for quota peanuts on the quantity of peanuts involved in the violation.

"(j) Handlers may, under regulations prescribed by the Secretary, contract with producers for the purchase of additional peanuts for crushing, export, or both. All such contracts shall be completed and submitted to the Secretary (or if designated by the Secretary, the area marketing association) for approval prior to August 1 of the year in which the crop is produced.

"(k)(1) Subject to the provisions of section 407 of the Agricultural Act of 1949 (7 U.S.C. 1427), any peanuts owned or controlled by the Commodity Credit Corporation may be made available for domestic edible use in accordance with regulations established by the Secretary.

"(2) Additional peanuts received under loan shall be offered for sale for domestic edible use at prices not less than those required to cover all costs incurred with respect to such peanuts for such items as inspection, warehousing, shrinkage, and other expenses, plus—

"(A) not less than 100 per centum of the loan value of quota peanuts if the additional peanuts are sold and paid for during the harvest season on delivery by the producer,

"(B) not less than 105 per centum of the loan value of quota peanuts if the additional peanuts are sold after delivery by the producer by not later than December 31 of the marketing year, or

"(C) not less than 107 per centum of the loan value of quota peanuts if the additional peanuts are sold later than December 31 of the marketing year.

"(3) For the period from the date additional peanuts are delivered for loan to March 1 of the calendar year following the year in which such additional peanuts were harvested, the area marketing association designated pursuant to section 108B(e)(1) of the Agricultural Act of 1949 shall have the sole authority to accept or reject lot list bids when the sales price as determined under this section equals or exceeds the minimum price at which the Commodity Credit Corporation may sell its stocks of additional peanuts, except that the area marketing association and the Commodity Credit Corporation may agree to modify the authority granted by this paragraph in order to facilitate the orderly marketing of additional peanuts.

"(l)(1) The person liable for payment or collection of any penalty provided for in this section shall be liable also for interest thereon at a rate per annum equal to the rate of interest which was charged the Commodity Credit Corporation by the Treasury of the United States on the date such penalty became due.

"(2) The provisions of this section shall not apply to peanuts produced on any farm on which the acreage harvested for nuts is one acre or less if the producers who share in the peanuts produced on such farm do not share in the peanuts produced on any other farm.

"(3) Until the amount of the penalty provided by this section is paid, a lien on the crop of peanuts with respect to which such penalty is incurred, and on any subsequent crop of peanuts subject to farm poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States.

"(4)(A) Notwithstanding any other provision of law, the liability for and the amount of any penalty assessed under this section shall be determined in accordance with such procedures as the Secretary by regulations may prescribe.

"(B) The facts constituting the basis for determining the liability for or amount of any penalty assessed under this section, when officially determined in conformity with the applicable regulations prescribed by the Secretary, shall be final and conclusive and may not be reviewable by any other officer or agency of the Government.

"(C) Nothing in this section shall be construed as prohibiting any court of competent jurisdiction from reviewing any determination mady by the Secretary with respect to whether such determination was made in conformity with the applicable law and regulations.

"(D) All penalties imposed under this section shall for all purposes be considered civil penalties.

"(5) Notwithstanding any other provision of law, the Secretary may reduce the amount of any penalty assessed against handlers under this section if the Secretary finds that—

"(A) the violation on which the penalty is based was minor or inadvertent, and

"(B) the reduction of the penalty will not impair the operation of the peanut program.

"(m) Notwithstanding any other provision of law, the Secretary may not permit peanuts which are otherwise ineligible for price support as quota peanuts because of defects, as determined by the Secretary, to be eligible for price support at levels applicable to quota peanuts regardless of whether the quota allocated to the farm has been fully utilized for the crop year. The Secretary may, if deemed necessary, make peanuts so ineligible for price support as quota peanuts, if they have been pledged as collateral for a price support loan, available to buyers for seed use or edible use at prices which are applicable to quota peanuts.".

PRICE SUPPORT PROGRAM

SEC. 804. Effective only for the 1986 through 1990 crops of peanuts, the Agricultural Act of 1949 is amended by adding after section 108A (7 U.S.C. 1445c-1) the following new section:

"SEC. 108B. Notwithstanding any other provision of law:

"(a)(1) The Secretary shall make price support available to producers through loans, purchases, or other operations on quota peanuts for each of the 1986 through 1988 crops.

"(2) Except as provided in paragraphs (3) and (4) of this subsection, the national average quota support rate for each of the 1986 through 1988 crops of peanuts shall be $500 per ton for the 1986 crop, $480 per ton for the 1987 crop, and $460 per ton for the 1988 crop.

"(3) The Secretary may increase the national average quota support rate for a crop of peanuts prescribed under paragraph (2) by an amount determined by the Secretary, taking into account the factors referred to in section 401(b) of this Act.

"(4) Such levels of support may not be reduced by any deductions for inspection, handling, or storage, except that the Secretary may make adjustments for the location of peanuts and such other factors as are authorized by section 403 of this Act.

"(b)(1) Except as provided in paragraph (2) of this subsection, the Secretary shall make price support available to producers through loans, purchases, or other operations on additional peanuts for each of the 1986 through 1988 crops at such levels as the Secretary finds appropriate, taking into account the factors referred to in section 401(b) of this Act.

"(2) The Secretary shall set the support rate on additional peanuts at a level estimated by the Secretary to ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of such peanuts.

"(C)(1) Except as provided in paragraph (2) of this subsection, the Secretary shall make price support available to producers through loans, purchases, or other operations on peanuts of each of the 1989 and 1990 crops, at such level as the Secretary finds appropriate, taking into account the factors referred to in section 401(b) of this Act.

"(2) The Secretary shall set the support rate at a level estimated by the Secretary to

ensure that there are no losses to the Commodity Credit Corporation on the sale or disposal of such peanuts.

"(d) The Secretary shall announce each of the levels of support determined under subsection (b) or (c) not later than February 15 preceding the marketing year for the crop for which the level of support is being determined.

"(e)(1)(A) In carrying out subsections (a), (b), and (c) of this section, the Secretary shall make warehouse storage loans available in each of the three producing areas (described in section 1446.11 of title 7, Code of Federal Regulations (1984 ed.)) to a designated area marketing association of peanut producers that is selected and approved by the Secretary and that is operated primarily for the purpose of conducting such loan activities.

"(B) The Secretary may not make warehouse storage loans available to any cooperative that is engaged in operations or activities concerning peanuts other than those operations and activities specified in this section and in section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(C) Such area marketing associations shall be used in administrative and supervisory activities relating to price support and marketing activities under this section and section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(D) Loans made under this paragraph shall include, in addition to the price support value of the peanuts, such costs as the area marketing association reasonably may incur in carrying out its responsibilities, operations, and activities under this section and section 359 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359).

"(2)(A) The Secretary shall require that each area marketing association establish pools and maintain complete and accurate records by type, area, and segregation for—

"(i) quota peanuts of the 1986 through 1988 crops handled under loan,

"(ii) additional peanuts of the 1986 through 1988 crops placed under loan,

"(iii) additional peanuts produced without a contract between a handler and a producer as described in section 359(j) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1359(j)), and

"(iv) all peanuts of the 1989 and 1990 crops placed under loan.

"(B) Net gains on peanuts in each pool, unless otherwise approved by the Secretary, shall be distributed in proportion to the value of the peanuts placed in the pool by each producer.

"(C) For the 1986 through 1988 crops, net gains for peanuts in each pool shall consist of—

"(i) for quota peanuts—

"(I) the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in such pool, plus

"(II) an amount from the pool for additional peanuts to the extent of the net gains from the sale for domestic food and related uses of additional peanuts in the pool for additional peanuts equal to any loss on disposition of all peanuts in the pool for quota peanuts, and

"(ii) for additional peanuts—

"(I) the net gains over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool for additional peanuts, less

"(II) any amount allocated to offset any loss on the pool for quota peanuts as provided in clause (i) of this subparagraph.

"(D) Notwithstanding any other provision of this section, any distribution of net gains on additional peanuts of any type to any producer shall be reduced to the extent of any loss by the Commodity Credit Corporation on quota peanuts of a different type placed under loan by such producer.

"(E) For the 1989 and 1990 crops, net gains shall be the amount over and above the loan indebtedness and other costs or losses incurred on peanuts placed in the pool.

"(f) Notwithstanding the foregoing provisions of this section or any other provision of law, no price support shall be made available by the Secretary for any of the 1986 through 1988 crops of peanuts with respect to which poundage quotas have been disapproved by producers, as provided for in section 358(o) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358(o)).".

REPORTS AND RECORDS

SEC. 805. Effective only for the 1986 through 1988 crops of peanuts, the first sentence of section 373(a) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1373(a)) is amended by inserting immediately before "all brokers and dealers in peanuts" the following: "all farmers engaged in the production of peanuts,".

SUSPENSION OF MARKETING QUOTAS AND ACREAGE ALLOTMENTS

SEC. 806. The following provisions of the Agricultural Adjustment Act of 1938 shall not be applicable to the 1986 through 1990 crops of peanuts:

(1) Subsections (a) through (j) of section 358 (7 U.S.C. 1358(a)-(j));

(2) Subsections (a) through (h) of section 358a (7 U.S.C. 1358a(a)-(h));

(3) Subsections (a), (b), (d), and (e) of section 359 (7 U.S.C. 1359(a), (b), (d), and (e));

(4) Part I of subtitle C of title III (7 U.S.C. 1361 et seq.); and

(5) Section 371 (7 U.S.C. 1371).

SUSPENSION OF CERTAIN PRICE SUPPORT PROVISIONS

SEC. 807. Section 101 of the Agricultural Act of 1949 (7 U.S.C. 1441) shall not be applicable to the 1986 through 1990 crops of peanuts.

The CHAIRMAN. The gentleman from New York [Mr. LUNDINE] is recognized for 25 minutes.

Mr. LUNDINE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I am offering an amendment to the Food and Security Act (H.R. 2100) to phase out the current Peanut Price Support Program over the next 4 years. In 1981, I offered a similar amendment to the farm bill which the House overwhelmingly approved. We should take this action again this year as the Peanut Program remains in dire need of reform.

First, I want to assure my colleagues that my amendment is not an anti-farmer amendment. I am from an agricultural district myself, and the last thing I want to do is to increase the number of farmers facing hard times nearly equal in severity to those suffered during the great depression.

Under the terms of my amendment, any American farmer can grow and market peanuts in the United States, a right currently reserved only to poundage quota owners. The poundage quota is, in effect, a license to grow peanuts and sell them in this country. This exclusive right dates back to the allotments originally granted by the Government to the relatively few farmers growing peanuts in the 1930's.

One aspect of this program which particularly disturbs me is the fact that many quota owners earn handsome profits by leasing their quotas to less privileged farmers who assume all the risks and hardships of actually growing peanuts. In fact, according the U.S. Department of Agriculture [USDA], 50 percent of the quota owners do not farm peanuts themselves, but, instead, lease their quotas to others. This system is unfair to young farmers and those with fewer resources who do not own quota and are deprived of the right to receive a decent price for their crop on the domestic market. In addition, the quota system further distorts the market for peanuts by setting the level of quota at 1.1 million tons, which is 200 to 300 million pounds below the level of domestic demand.

Without the valuable quotas, a farmer can grow peanuts outside the monopolistic quota system, but such peanuts, referred to as additional, are earmarked for less lucrative export market or crushed into oil or meal at prices less than half the price of quota peanuts. Most peanut farmers simply cannot survive but only sells additional peanuts.

Second, the Peanut Program leads to artificially high consumer costs. The USDA estimates that the current program adds an additional 14 percent to the cost of a jar of peanuts ($250 to $300 million per year), a consumer tax which USDA says is on the rise. When we consider that peanut butter is an important source of protein for low-income families, the need for reform in this program is all the more evident.

Additionally, current supply limitations provide very little incentive for development of new food uses for the nutritious peanut. The market for peanut products is stagnating. My amendment would remove these production controls which have become an albatross around the neck of the peanut product market.

As an American consumer, I must pay $2.85 for a 10-pound bag of domestically produced peanuts. If I were to travel abroad, however, I would only have to pay $1.80 for that same bag of American-grown peanuts. Clearly, Mr. Chairman, this is not fair! The reason for this inequity is, as we can see in this graph, that our domestic support price of 28 cents per pound vastly exceeds the free market price of 15 cents per pound. The difference between those two lines is the windfall profit which peanut quota holders have been

receiving for the last 50 years at the expense of the American consumer.

My final point, Mr. Chairman, is that this program is a boondoggle which benefits the few at the expense of the many. In fact, USDA data indicates that family farmers are not benefiting from the current program. In this chart, we can see that 3 percent of the 2,300 peanut farms in this country receive $60 million a year, and 17 percent of all peanut farms receive $156 million per year. This represents 60 percent of the consumer subsidy. In other words, well over half of the hidden tax paid by American consumers goes into the pockets of less than 20 percent of America's peanut farmers.

In this next chart, we can see how the 12 largest quota holders earn $250,000 each every year in consumer subsidy because of the excess costs associated with the quota system. To reiterate, Mr. Chairman, what this suggests to me, is that the majority of Americans who produce or could produce peanuts, are clearly being short-shrifted by the current program.

My last chart illustrates that peanut farmers, over the last decade, have been receiving disproportionate returns on their production as compared to farmers who grow corn, cotton, sorghum, soybeans, or wheat. At this point, Mr. Chairman, we need to recall my earlier statement that 50 percent of this profit does not go directly to the farmer, but rather to quota holders who are absentee landlords and never participate in the actual farming.

To conclude, my colleagues, allow me to repeat that my amendment is a proagriculture, proproducer amendment. It will afford to all Americans the right to grow peanuts and to sell them in this country. In addition, it will benefit consumers as it will bring down the cost of peanut products, especially peanut butter which is a dietary staple for many American children and the elderly. Finally, my amendment will reform and deregulate this feudal program and will bring its functioning in line with all other farm programs.

I urge my colleagues to support this amendment.

□ 1235

Mr. DICKINSON. Mr. Chairman, will the gentleman yield?

Mr. LUNDINE. I yield to the gentleman from Alabama.

Mr. DICKINSON. I appreciate the gentleman's yielding.

As we who are familiar with the product recognize, there is an ongoing tug of war between the producers and the growers and the farmers of peanuts and those who manufacture, who make them into candy and make them into confections and sell them on the retail market. I wonder if the gentleman who has spoken so eloquently on the Peanut Program could tell us how many peanut farmers the gentleman has in his district or in his State?

Mr. LUNDINE. Well, I have approximately 515,000 people who eat peanut products. I do not have any peanut farmers.

Mr. DICKINSON. I am not talking about eating. I am talking about producing. How many farmers does the gentleman have in his district?

Mr. LUNDINE. I do not have any peanut farmers in my district.

Mr. DICKINSON. That is what I thought. The gentleman is not protecting the farmers, he is out there protecting somebody else.

I thank the gentleman.

Mr. HATCHER. Mr. Chairman, will the gentleman yield?

Mr. LUNDINE. I yield to the gentleman from Georgia.

Mr. HATCHER. Is the gentleman aware that in the 1981 farm bill we tightened up the lease and transfer and that in fact for the last 4 years you cannot lease and transfer more than 1 year out of every 3, and that that was an effort to meet the objections the gentleman is speaking of?

Mr. LUNDINE. The improvements we made in the farm bill, in the Peanut Program, in 1981, were because the majority of my colleagues stood up and wanted to do away with an archaic feudalistic program.

The slight improvements made by the Committee on Agriculture this year deserve recognition for the threat of again the program being abolished, but they are very slight.

At this time I would like to reserve the balance of my time so that the other Members who wish to speak on this amendment may do so.

Mr. ROSE. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. STENHOLM], a distinguished member of the committee.

Mr. STENHOLM. I would like to follow up, Mr. Chairman, with the last questioning of the gentleman from New York [Mr. LUNDINE] and point out that, as a result of the efforts of the gentleman from New York [Mr. LUNDINE], and others, in the 1981 Farm Act, we have made significant changes in the direction of the Peanut Program. We have met the budget responsibilities, and I will say to the members of the committee there is a lot of smoke and mirrors in regard to budgets in this body, but in the area of the Peanut Program there is no smoke and mirrors. The cost is less than $5 million a year, and that is directly as a result of this body saying that is what we want done. We have reduced the quotas we have taken from nonproducers. We put them into the hands of the farmers. What more could anyone want, as far as the farm program?

I want to bring out two additional points, though. We just spent a lot of time on corn and wheat. I would point out that as of August, the parity price of corn was 59 percent as the target price in the farm bill that is being debated. What we are talking about in the farm bill that we are debating, the parity price for corn, 59 percent we are trying to guarantee our corn producers. In wheat, it is 63 percent. We have heard that that is inadequate. The Peanut Program is 61 percent, the quota price.

We talk about consumers. Let us not kid anyone. Whether the taxpayer pays the cost or the consumer, they are one and the same, and the committee has attempted to balance equity between the commodities in the committee bill to this point.

I want to further make the point, as far as the price of peanuts and the price of peanut butter and cookies, and all of the other things that we hear.

Mr. LUNDINE. Mr. Chairman, will the gentleman yield before he goes on to the next point?

Mr. STENHOLM. I yield to the gentleman from New York.

Mr. LUNDINE. Could I ask the gentleman, what is the source of his information for the cost of the program?

I have a letter from the Secretary of Agriculture that says that the average cost has been $40 million per year over the last 10 years. Is the gentleman citing another source than the USDA?

The CHAIRMAN. The time of the gentleman from Texas [Mr. STENHOLM] has expired.

Mr. ROSE. Mr. Chairman, I yield 1 additional minute to the gentleman from Texas [Mr. STENHOLM] and I will ask the gentleman if he will yield to me.

Mr. STENHOLM. I yield to the gentleman from North Carolina.

Mr. ROSE. I would like to thank the gentleman from Texas for the statement he has made, and I would answer the gentleman from New York by saying that when the USDA came before our committee, they testified that the Peanut Program that we have in this bill would cost $5 million over the next 4 years. They have changed their figures in the very last few weeks.

The cost of the Peanut Program, according to CBO's estimate, based on what USDA testified in the House and Senate committees, was $3 million over the whole life of the program.

Now, I am very upset at USDA for coming in at the last minute with gerrymandered, blown-out-of-proportion figures.

I would say to the gentleman that he said 10 years. That is going back over programs that we have long ago corrected.

I yield an additional minute to the gentleman from Texas [Mr. STENHOLM].

Mr. LUNDINE. If the gentleman will yield, I would submit that it is possible that the reason for the change in the USDA estimate is the change in the way peanut farmers are marketing or withholding their product from the market.

I here hold in my hand a report from the Georgia Peanut Producers Association, which indicates a conspiracy to withhold quota peanuts from the market, and I wonder if the gentleman from North Carolina might explain——

Mr. STENHOLM. If I might reclaim my time, we have only a limited amount of time, and as to these conspiracy theories we hear a lot about. Let me ask the gentleman a question: Thanks to you, we have reduced the cost of the Peanut Program to $5 million in 1985 and for 1986. We are talking today the next 5. And I submit to you that under the bill as it has been reported from the House Agriculture Committee, the cost of the program will be less than $5 million a year in the next 5 years. That is what we are trying to do. We do not want to talk about the last 10.

There is one final comment I would make, as far as the consumers' cost.

The CHAIRMAN. The time of the gentleman from Texas [Mr. STENHOLM] has expired.

Mr. ROSE. Mr. Chairman, I yield 1 additional minute to the gentleman from Texas [Mr. STENHOLM].

Mr. STENHOLM. In constant dollars—and this is what we need to keep in consideration when we talk about consumer costs—in 1950, the peanut price cost to the consumer was 45 cents. In 1984, it was 25 cents in constant dollars, when you take inflation out of it and all of these other things. So to say that it is the cost of the Peanut Program, as the gentleman contends, you cannot say that, that the peanut farmer is doing it. It is the overall inflation in the United States. The peanut farmer is getting half of what he got in 1950, as far as cash in his pocket.

And again I make my point that when we talk about compatibility and fairness between commodities, corn is being supported in the bill, and we have heard from our corn farmers saying it is adequate, at 59 percent of parity. Wheat, 63 percent of parity. The support price to the peanut farmer is 61 percent parity which is fair and in line with other commodities, and that is what the committee has tried to do, tried to create a fair program for all the commodities.

I urge defeat of the Lundine amendment.

Mr. ROSE. Mr. Chairman, I yield myself 5½ minutes.

Mr. Chairman, I really get upset when I hear the Peanut Program called a boondoggle.

I have here a profit picture of Fischer Nuts, Peter Pan, Skippy, Hershey, Planter, Nabisco, Procter & Gamble, all 15- to 20-percent profit. These people are making money hand over fist out of the peanut farmer. In a Skippy peanut candy bar there is 1 cent worth of peanuts. In an 18-ounce jar of peanut butter there is 59 cents worth of peanuts.

Now, what do you pay in the store for an 18-ounce jar of peanut butter? If it is the generic brand, you pay something just over $1, $1.19, $1,29, I would even say $1.38. You pay $2, on the average, maybe $1.88, for the national brand peanuts.

Now, if the American housewife thinks that she is being ripped off and wants to save some money, I suggest that she start buying generic brands of peanut butter. She will save billions of dollars over what she pays buying what the peanut lobbyists are around here telling you is a ripoff for the American consumer.

The gentleman from New York [Mr. LUNDINE] mentioned Canada. He did not talk about what peanut butter costs in Canada. He talked about what a bag of peanuts costs in Canada. Peanut butter in Canada is made from additional peanuts grown in America, and the consumer in Canada pays 20 percent more than the American housewife does. They forgot to tell him that—20 percent more the Canadian housewife pays because the peanuts that they buy are on the so-called free market.

I submit to you that we have a program that is not broke. USDA testified in our committee that the projected cost of the program that we are here voting on right now is $5 million in the first year and in each of the years of this bill.

The administration's proposal was $75 million. The Lundine-Lugar amendment, $60 million.

Now, I ask you, this program works, it guarantees a decent income to the people who grow and raise peanuts. It is a very, very risky business. We give the cheapest nut that you can get in America—and I hesitate to expand on that, because there are a lot of nuts that might be cheaper in America, but the edible nuts that you can get in this country, peanuts, are the absolute cheapest.

I submit to you that my good friend from New York, as my dear friend from Alabama suggested, is representing well the interests of the people that he represents. He has the peanut butter manufacturers in his district. I understand. I have got peanut growers in my district. I try to represent them as best I can.

But I say to you that 59 cents is all that the grower is getting out of that jar, 1 cent is all that the peanut grower is getting out of a Snickers. If you cut the cost of peanuts in half, do you think that the American consumer is going to get a better break? Of course not.

I ask you to vote down the Lundine amendment and stick with the committee.

Mr. FOWLER. Mr. Chairman, will the gentleman yield?

Mr. ROSE. I yield to my friend, the gentleman from Georgia.

Mr. FOWLER. I would like to associate myself with the remarks of the gentleman from North Carolina [Mr. ROSE].

This is a program that, despite almost insurmountable odds in the last 5 or 6 years, has worked.

□ 1250

It provides a cost-efficient and cost-effective product that is a great necessity, not only to the nutrition of our country and to the world but for the livelihood of the growers. I applaud the gentleman's remarks and I would like to endorse them and oppose the Lundine amendment.

Mr. Chairman, I rise in strong support of the Peanut Program. More than 565,000 acres in my State of Georgia are planted in peanuts, and more than 50,000 Georgians are directly employed in the production of peanuts. This is obviously a matter of great importance to the economy, and the people, of Georgia.

While the continuation of the Peanut Program is vital to so many Georgians, it costs the taxpayer very little. Changes in the program made in 1977 and 1981 have resulted in a 90-percent decrease in Government costs. The Peanut Program cost only $1.2 million in 1984.

In addition, the changes made in 1981 have allowed almost 3,000 new peanut farms to be established, expanding opportunities for new farmers to participate fully in the Peanut Program.

Despite allegations to the contrary, consumer prices for peanut butter have not been greatly increased as a result of the Peanut Program. The wholesale price of peanut butter has increased 2½ times faster than the prices which peanut farmers receive for their product. From 1977 to 1984, wholesale peanut butter prices shot up 68 percent, while the farmers' return on his peanut crop increased only 28 percent.

I am proud to represent the Nation's leading producer of peanuts, and I urge my colleagues to support the Peanut Program as approved by the House Agriculture Committee.

Mr. LUNDINE. Mr. Chairman, will the gentleman yield?

Mr. ROSE. I will be happy to talk to the gentleman on his time in just a minute.

Mr. Chairman, I would say to my colleagues that we have worked long

and hard in the Agriculture Committee since 1981 to make the Peanut Program a no-cost program. In 1981 it was defeated because it did have a high price tag to it. We went to work in conference and built a practically no-cost Peanut Program. Do you know that this program that is in this bill is so designed that if one area of the country loses money on its Peanut Program, and there are profits from another area, as there always are, the areas will share the losses and the profits.

This is a revolutionary concept for various areas of the country to share in the costs of running the program. We guarantee you that we will come back before you 5 years from now and show you with pride a track record that will be even below $5 million.

Mr. LUNDINE. Mr. Chairman, I yield 5 minutes to the gentlewoman from New Jersey [Mrs. ROUKEMA].

Mrs. ROUKEMA. I thank the gentleman for yielding to me at this time.

Mr. Chairman, I rise enthusiastically in support of Congressman LUNDINE's amendment to phase out the current peanut price support system over the next 4 years. The abolition of this Government-imposed peanut monopoly is the most straightforward consumer protection issue in this far-reaching legislation, and I commend the gentleman from New York for his efforts. His proposal makes all kinds of sense! It eliminates an outmoded and outrageous monopoly "thats not just peanuts." This program brings large profits to the allotment farmers and high prices to the consumers.

Peanuts today are the only food crop in this land which are under rigid production restrictions and marketing controls. It is the U.S. Government which determines where peanuts can be produced, who can produce them, and what quantity can be produced and marketed. In short, peanut farmers cannot grow peanuts without a license or an allotment.

Naturally, those peanut farmers already holding a Federal license, or poundage quota as it is formally known, are eager to maintain their currrent Government-imposed monopoly. But what of the farmer who does not hold a license? He or she has few options: Either rent a license from outsiders, grow peanuts for the substantially less-lucrative export market, or grow another crop.

As is the case with most monopolies, the current peanut program discourages efficiency. It rewards a privileged few by creating artificial crop shortages, and consumers are the ones who pay unjustifiably high prices for peanut products. In fact, the U.S. Department of Agriculture estimates that the current program adds an additional 14 percent to the cost of every jar of peanut butter sold in America. Translation: The American public spends an unnecessary $250 to $300 million each year to support its time-tested fondness for the peanut.

The Lundine amendment offered eliminates the artificial distinction which is now made between the price support level for domestic peanuts, and the price level for export peanuts; a distinction that causes a price differential of over $200 per ton. I ask: Why should American consumers have to pay up to four times as much for a peanut than foreign customers have to pay? Such as the Arabs, the Japanese, and the Europeans.

After a 3-year adjustment period, the amendment would put a straightforward loan support program for peanuts into place. This loan program would be similar to the current support program we have established for corn, wheat, soybeans, rice, and other crops.

Beginning in 1989, there would be one price level for all peanuts, which would be set by the Agriculture Department at a level that would ensure no Government cost. These important reforms would eliminate the current poundage quota rent which accounts for more than 30 percent of the average cost of producing peanuts.

Let me emphasize that the U.S. Department of Agriculture fully supports the Lundine amendment as the best way to ensure the long-term prosperity of peanut farmers. It is time for us to recognize that continued Government control over supply is not in the interests of the American peanut farmer nor the American consumer. The loan rate to be maintained under this amendment will function as a safety net to guard farmers against unexpected market conditions. The program will be designed, however, to operate at no cost to the American taxpayer.

As one Member who serves on both the Education and Labor Committee, as I have for 5 years, and now in my second year as the ranking member of the Select Committee on Hunger, I have sat through hours and hours of testimony and discussion about the need for better nutrition in this country.

We express concern about child nutrition programs and under the Older Americans Act we have authorized nutrition sites for senior citizens. The Select Committee on Hunger has examined evidence of severe malnutrition. If there is one nutritional product which should be made more readily available to all Americans, particularly those in the risk groups, young children and our senior citizens, it is peanut products. We should not be penalizing them at the expense of the high-rolling, license-owning peanut producers.

I remind my colleagues that similar legislation passed this House by a strong 91-vote margin in 1981. I urge you to support the Lundine amendment and end an outmoded Government program that today does a disservice to the American farmer and the American consumer.

Mr. ROSE. Mr. Chairman, I yield 2 minutes to the gentleman from Kentucky [Mr. HOPKINS].

Mr. HOPKINS. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in support of the Peanut Program contained in the committee bill. The Peanut Program has been one of the most successful agricultural commodity programs that we have had and the committee bill, with some improvements, builds upon that successful track record.

Since the current two-tier system was put in place in 1977, and refined in 1981, Government costs have dropped dramatically. Last year's crop cost approximately $6 million and most of that cost was incurred under the program's "disaster" provision. I think you will readily see we have a successful program that supports over 30,000 farm families in 16 States at a very modest cost.

At the same time, peanut consumers have been assured of a reliable supply of high quality peanuts at very reasonable prices and exports of U.S. peanuts have increased steadily—despite the strong dollar—to the point where U.S. producers supply some 50 percent of the world market today.

I know many of my colleagues from peanut producing States desire to speak about the importance of the Peanut Program to their farmers and I do not want to take away from their time.

I urge my colleagues to support the committee bill.

Mr. BROYHILL. Mr. Chairman, will the gentleman yield?

Mr. HOPKINS. I yield to the gentleman from North Carolina.

Mr. BROYHILL. I thank the gentleman for yielding to me.

Mr. Chairman, I want to commend the gentleman for his remarks. Certainly he has hit the right point about the cost of this program. I am glad that the gentleman brought out that fact.

I would like to just make one comment if the gentleman will permit me. I look at this amendment that has been offered by the gentleman from New York as resulting in a transfer of jobs from American farms to a foreign country. If you go as drastic as he wants you to go, the effect of it is going to be that the family farm, the peanut farmer, is going to go out of business, and where are you going to get the business? It is going to be adding to the trade imbalance. Those peanuts will be imported.

It seems to me that that is not in the best interests of not only the economy

but the family farmer and that we should vote down this amendment.

Mr. HOPKINS. Mr. Chairman, I thank the gentleman for his contribution.

Mr. LUNDINE. Mr. Chairman, I yield myself 2 minutes.

The point has just been made about exports. As I pointed out in my opening statement, exporters are limited to only exporting additional peanuts at that very low price. It is a miracle that we have seen new people come into this business of growing peanuts since 1981, since the modifications in the program were made after the House wisely scuttled the futilistic program that existed up to that time.

□ 1300

If American peanut farmers can compete successfully today selling only additionals, just think of how many exports we can get when we unleash the creative productivity of the American peanut producers and let them compete for domestic and export markets. We will see a great improvement in the balance of trade.

Mr. Chairman, I now yield 5 minutes to the gentleman from California [Mr. BROWN].

Mr. BROWN of California. I thank the gentleman for yielding time to me.

Mr. Chairman, I have listened to this debate not only on the peanut program but on the farm bill as a whole with great interest, trying to discern if there were any elements of principle involved in the way that we were acting. So far I have been unable to discern any. We have, for example, voted for a strong program of Federal involvement in the dairy industry, for a system of production controls, despite the high cost to the consumer that is represented by these controls. We turned around and voted to knock out the Bedell provisions which would have provided for production controls for wheat and feed grains because we felt that was too great an intrusion. And now we are debating the peanut program, in which we have had the highest degree of Federal involvement for lo these many years, at a very obvious cost to the consumer, and which has resulted in the development of severe inequities within the peanut industry itself.

I do not see any thread of principle involved here. What I do see is a committee effort to develop a sound bill which reflects the needs of the farmers and the interests of the various competing agricultural groups as seen by the members of the committee. When the bill reaches the floor, as it now has, we are seeing a different set of forces at work which sometimes support and which sometimes change the work of the committee. But it is the interplay of these diverse political forces on each issue, not some integrating principle, which determines the outcome.

Now I want to express admiration and appreciation to my good friend from North Carolina who has done such a good job on developing the peanut program. He has over the last few years rescued the tobacco from oblivion, and he deserves a great deal of credit in his own constituency and region for doing that. I admire him for it. I cannot wholeheartedly agree with him that what he has tailored here is the best program, or that it is a no-cost program. He told us that about tobacco a few years ago, and I know he tried very hard to make the tobacco program a no-cost program. I say this with deep sympathy, because I do not object in principle to supporting the tobacco farmers and the peanut farmers. If I had been in Congress during the depression, I would have been one of the strongest supporters of these programs, and I would continue to support them today if I thought their intent was being fulfilled, but I do not. I do not think that the tobacco program is a no-cost program, nor is the peanut program going to be a no-cost program.

But that is not my primary reason for opposing the peanut program. Frankly, I am here out of a parochial concern for the welfare of the farmers of California, and I will tell you that in all sincerity. We want to produce peanuts. We want to produce the peanuts that are now only produced by the quota peanut producers, and we cannot do that.

Mr. ROSE. You can produce peanuts in California.

Mr. BROWN of California. Nonquota peanuts, yes.

Mr. ROSE. And do you know that if there is any shortage in the domestic——

Mr. BROWN of California. Did the gentleman ask me if I would yield to him?

Mr. ROSE. I thought the gentleman did yield. I apologize.

Mr. BROWN of California. No; but if you will ask, I will.

Mr. ROSE. Well, will the gentleman yield?

Mr. BROWN of California. I am happy to yield to my friend.

Mr. ROSE. Well, I appreciate it.

Why are your farmers not growing peanuts right now in California?

Mr. BROWN of California. There are a few who are, but they are forced to do so under this two-tiered system in which the peanuts they grow are supported at—what is the percentage, half, or 60 percent?

Mr. ROSE. About 50 percent. Do you know that exports of those peanuts have gone up 40——

Mr. BROWN of California. I continue to yield to my friend.

Mr. ROSE. Do I have to say that every time I speak with you? I will get my own time, but I thank the gentleman for what appeared to be yielding.

Mr. BROWN of California. Mr. Chairman, I am sincere in my appreciation of what the gentleman has done. I think he knows I am sincere, and I hope he will respect the sincerity of my desire to open up the peanut-growing business on an equal basis to the farmers of California or to any of the other areas of this great United States where they are now precluded from raising peanuts because of this system.

We can produce in the Imperial Valley of California superior peanuts at a lower cost compared to anyplace else in the United States. It fits in with our cropping structure. We are having to cut back on cotton now for various reasons. We need alternative crops that can fit into our cropping scheme.

Yet the farmers there, looking into the situation, question whether they can achieve as high a level of profitability growing nonquota peanuts as they could if this system were open to all farmers on a uniform basis of price support which would apply to all peanuts.

Mr. LUNDINE. Mr. Chairman, I yield 1 minute to the gentlewoman from New Jersey [Mrs. ROUKEMA].

Mrs. ROUKEMA. Mr. Chairman, to follow on the comments of my colleague, the gentleman from California, just very briefly. Representative BROWN mentioned at the beginning of his statement the questions of principle that are involved here. I think there have been some of us who have been trying to adhere to the principle of need, because we recognize that there are some farmers in this country who are in dire need and there have to be some adjustments for that in this bill. However, the peanut farmer is not in that kind of dire need.

Statistics from the U.S. Department of Agriculture show us that their return on investment is anywhere from 5 to 20 times the kind of return on investments that our wheat, corn, or soybean farmers are gaining.

So I appreciate the fact that we are talking about principle here, and the principle here is that this is a system that benefits and profits the wealthy owners of the licensing system to the exclusion of the gentleman's California farmers and all other farmers across this Nation who do not own allotment licenses.

Mr. ROSE. Mr. Chairman, may I inquire, how much time do I have left?

The CHAIRMAN pro tempore (Mr. OBEY). The gentleman from North Carolina [Mr. ROSE] has 12½ minutes remaining and the gentleman from New York [Mr. LUNDINE] has 3 minutes remaining.

Mr. ROSE. Mr. Chairman, I yield 2 minutes to a distinguished member of

the subcommittee, the gentleman from Georgia [Mr. HATCHER].

Mr. PARRIS. Mr. Chairman, will the gentleman yield.?

Mr. HATCHER. I yield to the gentleman from Virginia.

Mr. PARRIS. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I rise in support of the peanut program which historically has been of enormous benefit to my beloved Commonwealth of Virginia. I wish to indicate my support for the existing program without the LUNDINE proposal and would like to associate myself with the remarks of my friend from North Carolina [Mr. ROSE] when he indicates that this program is working well and if it isn't broke we shouldn't try to fix it.

It is my sincere hope that the House will reject this proposal.

Mr. HATCHER. Mr. Chairman, I thank the gentleman for his support.

Mr. Chairman, in response to the gentlewoman who just spoke, I would like to say that I represent one of the largest peanut-producing areas in the country, and my constituents, I say to the dear gentlewoman, are broke. If they are not as broke as the farmers of the Midwest, I would submit to her that it is unseemly for any Member of Congress to come to the floor of the Congress and say, "Let's bring them all down and break their backs." We are having bankruptcies; we are having farmers sold out on a weekly basis.

Mrs. ROUKEMA. Mr. Chairman, will the gentleman yield?

Mr. ROGERS. Mr. Chairman, will the gentleman yield?

Mr. HATCHER. I yield to the gentleman from Kentucky.

Mr. ROGERS. Mr. Chairman, I thank the gentleman for yielding.

I wonder if the gentleman understands that there are those taking part in this debate opposed to this program who represent districts where the U.S. Government is subsidizing Amtrak fares in their districts to the tune last year of $750 million, three-quarters of a billion dollars. And those Members are coming in here and criticizing this program. I really find that sort of distasteful.

Mr. HATCHER. I do, too, Mr. Chairman. And I have been asked by my urban colleagues on almost a monthly basis now to help them with programs like Amtrak, like roads, and like transportation that are critical to them and their constituents, and we have come through and done that.

I find myself here today asking those same urban colleagues and my other rural colleagues throughout the country to stay with us, to stay with a program that is working. While our farmers are not perhaps as desperate as they are in the Midwest, they are broke and they are going bankrupt every day.

So, Mr. Chairman, I ask the Members to stick with a program that is costing but about $5 million a year, a program that is working.

Mr. ROSE. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Alabama [Mr. DICKINSON].

Mr. DICKINSON. Mr. Chairman, Congress has several goals it wants to accomplish through this farm bill.

First, we want to bring supply in line with demand and eliminate some of our huge surpluses;

Second, we want to reduce the enormous cost of our commodity programs to the Federal Government;

Third, we want to encourage and expand our agricultural exports; and

Fourth, we want to assist both the family farmer and the consumer.

The Peanut Program already accomplishes all of these goals.

By limiting the amount of peanuts that can be grown for use in the United States through the quota system, we have closed the gap between supply and demand. We don't have gigantic surpluses of peanuts like we do of certain of our other commodities. The program has eliminated them. The national poundage quota is now at 1.1 million tons. National demand is currently about 1.3 million tons, so we're very close there.

By bringing supply in line with demand, we have eliminated Government purchases of surplus stock through farmers' default on nonrecourse loans. Since 1977, Government outlays for peanuts have been reduced by 90 percent. In 1983 the Peanut Program cost the U.S. Government nothing. Last year it cost our tax payers only $1.4 million. what we have here is a virtually no-cost program. Compare these negligible figures to the $60 million that the USDA calculates the Lundine amendment will cost next year.

At the same time that we have saved the Government millions, we have greatly expanded our export markets. Any farmer who wants to can grow peanuts for export, and the lower price support for additional peanuts makes our peanuts very competitive on the world market. Since the two-tiered price support system was started, we have increased peanut exports by 41 percent. The United States is now the world's largest exporter of peanuts.

Most peanut farmers are family farmers; 85 percent of them grow less than 100 acres of peanuts. They depend on this program for assurance of a stable price for their product.

Consumers also benefit from this program. The negligible cost of the program to the Government means that their tax dollars are saved. They benefit from stable supplies and stable prices for world's finest quality peanuts and one of the world's best and cheapest sources of protein.

The impetus to do away with this program comes from the manufacturers of products containing peanuts who would like to see the cost of their materials lowered. Many seriously doubt that savings from a lowering of the price of domestic peanuts would be passed on to the consumer. The consumer stands little to gain from the abolishment of this program, and there is every certainty that such a move will be a death blow to our 30,000 family peanut farmers.

Mr. ROSE. Mr. Chairman, I yield 1 minute to the gentleman from Virginia [Mr. SISISKY].

Mr. SISISKY. Mr. Chairman, I say to the Members of the House that I have a parochial interest, too. I come from a peanut-growing area, representing peanut farmers. But let me tell the Members what else I represent. I represent processors. I represent probably the largest processor in the United States. You know his label. These are two peanut butter factories, producing the biggest brands in the United States.

But, more importantly, I represent 535,000 consumers. And guess what? If I really believed that we were doing harm to those consumers, I would be defending them.

I went to the Agriculture Committee meeting, and I worried about that small candy manufacturer. There was a gentleman from the Midwest who testified, and he said, "If you would cut the price of peanuts and cut this program out, I would reduce my price 30 percent."

Then I asked the chairman if I could interrupt him. I asked, "Are you using a penny's worth of peanuts in a 35-cent bar?"

And he said, "Just about that."

I asked, "If we cut it in half, would you really reduce it 30 percent?"

Then he started fidgeting around. No, he would not. He absolutely would not.

With this bill, we are representing the consumers and the processors. More importantly, let us not destroy the peanut farmer because he is producing other things. I ask the Members, please do not do it. The stable supply of peanuts is important to the nutrition of our young children, and this will preserve that program and the supply of peanuts.

□ 1315

Mr. ROSE. Mr. Chairman, I yield such time as he may consume to the gentleman from North Carolina [Mr. JONES], a distinguished member of the Agriculture Committee.

Mr. JONES of North Carolina. Mr. Chairman, I thank the gentleman from North Carolina for yielding.

I rise today in support of the peanut title of H.R. 2100 and in opposition to the amendment offered by the gentleman from

New York. I urge my colleagues on both sides of the aisle to vote likewise.

Looking at the overall status of American agriculture, we all can see that the farmer, the very heart of our ability to exist as a free nation, needs direction and assistance. They don't need theories and nauseum about why they are the world's most efficient producers yet face the constant threat of foreclosure, bankruptcy, or both. They need assistance and direction provided in a stable economic environment.

Some suggest the way to achieve this goal is to make American agriculture an example to the world of how a free market system works. This group seeks to adopt market clearing price supports and loan levels; to drastically reduce or better yet, eliminate any form of production controls; to eliminate the word "subsidy" from the vocabulary so we can pound our chest and shout for the world to hear "We operate in a free market, supply-side economy."

Not only will these efforts fall on deaf ears, they will place our agricultural economy in a vacuum: a vacuum destined to destroy the American farm as we know it and a vacuum which will serve as a springboard for increased productivity in foreign countries.

As a member of many years standing on the Agriculture Committee and its Subcommittee on Tobacco and Peanuts, I am painfully aware of the difficulty in drafting agriculture legislation. Nevertheless, I am convinced that the peanut title of this farm bill represents capable direction toward maintaining and further achieving economic stability for all concerned.

Every Member of this House is concerned with the Federal deficit. Since 1977, Federal outlays for the Peanut Program have decreased from $90 to approximately $5 million annually.

Every Member of this House is concerned with the need to have a strong agriculture export program. Under the Peanut Program currently in force and continued by this title, American peanut growers have become the world's leading exporter of edible peanuts.

Every Member of this House is concerned over the critical situation the farm credit system faces. Not only is H.R. 2100 within the budgetary guidelines adopted by the House, title 8 requires that revenues from profitable peanut associations be applied to any losses from sister associations, thus further decreasing any possible loss to CCC.

Before casting your vote on the amendment before us now, carefully consider the consequences of adopting the amendment. First, the amendment has a price tag to the Government in 1985–86 of approximately $45 to $50 million. The 1985 peanut crop simply will not be purchased due to anticipation of lower price support levels in subsequent years. Consequently, the taxpayer will bear the costs.

Second, you will not see decreased consumer prices. For example, FDA requires all brands of peanut butter to be 90 percent peanuts. In an 18-ounce jar, there is 59 cents' worth of peanuts, yet a name brand averages $1.78 while generic brands average $1.35 per jar. Both use edible or quota peanuts.

More to the point, peanut butter in Canada which uses the less expensive additional peanuts sells, on average, 20 percent higher than American brands.

Finally, maintaining the Peanut Program as embodied in title 8 is critically important not only to the farmers in North Carolina, but throughout the country. I urge my colleagues to support adoption of title 8 as reported by the Committee on Agriculture.

Mr. ROSE. Mr. Chairman, I yield 30 seconds to the gentleman from Florida [Mr. FUQUA].

Mr. FUQUA. Mr. Chairman, I stand before you today to speak in behalf of one of the best areas of our agricultural commmodities program—a program which is extremely cost effective, has been proven by over 50 years of activity and provides a quality product at minimal, federal cost. I am speaking, of course, of the Peanut Program.

The peanut industry is extremely important to our Nation in that it provides a lucrative product for trade on the world market, as the United States supplies more than half the world's peanuts. However, it affects us more directly here at home. Florida produces 6 percent of the Nation's peanuts and over 85 percent of them are grown in my district. I represent more than 1,200 registered peanut producers, who through their farms, provide jobs for over 3,000 employees. In Florida alone, cash receipts from the program pump $65 million into the State's economy, with a total of $350 million contributed by the industry as a whole.

My distinguished colleague from New York, Mr. LUNDINE, has offered an amendment to phase out the program. Of the reasons he cites to justify eradication, none can be proven. Of particular interest is the argument that a phaseout will reduce consumer prices of peanut products. There is absolutely no evidence that lower peanut prices to farmers will result in lower cost of peanut products. This is confirmed by the fact that between 1977 and 1984, peanut prices increased only 20 percent, while the wholesale price of peanut butter increased 68 percent.

We have many tough decisions to make this year in an effort to curb spending and reduce the Federal deficit. However, as a young farmer growing up in north Florida, an important lesson I learned was "if it's not broken, don't fix it." That is especially true regarding the Peanut Program. This program has a proven track record of providing stability to the family farm and producing a quality product. I urge my colleagues to stand firm for the future of the family farm and the American agricultural system and support the Peanut Program as it is written in the bill.

Mr. ROSE. Mr. Chairman, I yield 30 seconds to the gentleman from Alabama [Mr. SHELBY].

Mr. SHELBY. Mr. Chairman, if we in Congress had had the vision to restructure agriculture commodity programs as we have the Peanut Program, maybe American agriculture would be in better shape than it is today.

The United States is now the leading world exporter of edible peanuts—supplying almost 50 percent of the world market. The Peanut Program, in contrast to other commodity programs, has steadily increased exports—by 41 percent since 1977. That's a record to be proud of, especially against the damaging impact of our strong dollar abroad.

The program operates at a very low cost to Government—among the lowest of any commodity program and gives consumers, farmers, and manufacturers the highest return on their investment. For stability and consistency, not many programs rank higher.

In my conversations with peanut farmers across Alabama, I've learned that the Peanut Program is one of the few bright spots in American agriculture. Alabama's peanut crop ranked fifth in total cash receipts, at $166.9 million in 1984.

I think there's a misperception that our Peanut Program has an inflationary impact on consumer goods. The fact is that farm-level peanut prices have a moderating effect on consumer prices—other factors including production and marketing costs have pushed the price of peanut butter up over 50 percent.

Even so, American consumers pay an average of 15 percent less for peanut butter than do Canadians who import all of their peanuts.

Reforms enacted in 1977 and 1981 guarantee a peanut support price and program operation that is closer to that of the free market—eliminating allotments and permitting anyone, with or without a quota to grow peanuts. Almost 3,000 new peanut farms have been established since 1981—over 200 in my State of Alabama alone—and provisions in H.R. 2100 open up the program to even wider participation.

There's a false sense that because the Peanut Program is operating well—supplying high quality peanuts at a low cost to the Government—farmers are reaping in huge profits in an elite, feudalistic system. To the contrary, the average peanut farmer, in Alabama, and nationally, is a small family farmer harvesting less than 100 acres. Our average expenditure per grower was about $300 during fiscal 1978–83.

Additionally, that farmer is susceptible to the same problems endured by farmers nationwide—high interest

rates and high production costs—contributing to lower rates of return than the increased revenue figures of 20 percent would suggest.

I urge my colleagues to give their closest attention to the arguments against the Lundine amendment which will effectively gut the Peanut Program. We have a solid, viable commodity program, unique from others, and one which has benefited the entire U.S. peanut industry, benefited consumers and benefited manufacturers. I urge a "no" vote on the Lundine amendment.

Mr. ROSE. Mr. Chairman, I yield 30 seconds to the gentleman from Georgia [Mr. ROWLAND].

Mr. ROWLAND of Georgia. Mr. Chairman, I represent one of the largest peanut-producing districts in this country.

Earlier this year I had some farm forums in my district with over 600 farmers attending, who are diversified farmers. I do not have any rich peanut farmers in my district. Many of my farmers depend on this Peanut Program so they can do other types of farming.

Let me tell you this also, that many others have suggested that perhaps we ought to look at some of our other commodities and pattern those after the Peanut Program, which has been so successful.

Mr. Chairman, I urge you very much to defeat this Lundine amendment.

Mr. ROSE. Mr. Chairman, I yield 1 minute to the gentleman from Oklahoma [Mr. ENGLISH], a distinguished member of the subcommittee.

Mr. ENGLISH. Mr. Chairman, I would like to make a couple of points very quickly.

First of all, it should be understood that the Peanut Program is a rare animal, it is a farm program that is working today. It is doing the job. I think it would be a serious mistake if we take one of the few programs that is working for our farmers and destroy it through this amendment.

Second, I think we have to recognize this amendment for what it is. It is not a consumer amendment. It is an amendment for those people who are producing peanut products. They are the ones who would benefit.

We have seen this happen time and time again. We have had the price of wheat drop dramatically. In fact, it has fallen by almost 50 percent. Have we seen that passed on to the urban consumer? We have not.

We have seen beef prices fall. Have we seen those savings passed on to the urban consumer? We have not.

I would say to you that we have seen the same thing with regard to sugar. We have not seen those savings passed on to the American consumer.

Therefore, Mr. Chairman, I ask for defeat of the amendment.

Mr. ROSE. Mr. Chairman, I yield such time as he may consume to the gentleman from North Carolina [Mr. VALENTINE].

Mr. VALENTINE. Mr. Chairman, I rise in opposition to the amendment.

Peanuts are important to North Carolina. They generate yearly revenues for the State of $125 million. If we eliminate the peanut price-support system, as some of my honorable colleagues intend, the small peanut farmers of North Carolina will suffer cruelly, along with the economies of the State and Nation. I rise, therefore, in strong opposition to the amendment offered by the gentleman from New York.

The Peanut Program has served the American farmer and consumer for nearly half a century. Since 1938, it has assured plentiful supplies of high quality peanuts at fair and reasonable prices. Because of the Peanut Program, American consumers have enjoyed an inexpensive source of valuable protein, and thousands of American growers have been able to remain on their small family farms.

The most important fact to keep in mind as we discuss the Peanut Program is that it works. During the past 40 years, the program has stabilized the entire peanut industry. It has eliminated wild swings in production and prices. It has answered the needs of producers, handlers, manufacturers, and consumers.

To guarantee a steady peanut supply, the Peanut Program allows peanut production in three separate areas of the country. This pattern has protected the crop from the vagaries of weather and disease. if we allow the Peanut Program to vanish, production would shift from small farmers to large growers. These growers would use powerful mechanized techniques to concentrate production in a single geographical area. This dramatic change would subject peanut prices to wide and erratic fluctuations caused by weather, insects, and disease. Boom-and-bust agriculture would drive untold numbers of family farmers out of the business they love.

Government outlays for the current Peanut Program are impressively low—

Since 1977, they have fallen by 90 percent, a savings of more than $500 million.

From 1978 to 1983, Government spending for the Peanut Program made up only one-tenth of 1 percent of spending for all agricultural commodities.

In 1983, there was no cost at all.

In 1984, only $1.4 million in program administration allowed the Nation's peanut farmers to produce over $1,117,800,000 in peanuts. In other words, for the Government's $1.4 million investment, farmers produced over $1.1 billion in peanuts. I would say that this was a pretty good investment.

The United States has become the world's No. 1 peanut exporter. With only 10 percent of the world's production, we have captured over 50 percent of the world's trade. This means that peanuts are a noticeable bright spot in an often dismal U.S. trade picture. From North Carolina, a third of the peanut crop is exported overseas, and another one-quarter of the State's production is shipped to locations across this country.

The Peanut Program has allowed new growers to grow and sell peanuts. Anyone can grow as many peanuts in the United States as they want.

Peanut product manufacturers claim that the Peanut Program has driven up prices to consumers. A contrasting view emerges, however, when we analyze the price of a product like peanut butter.

The major factors in the price of peanut butter are the costs of packaging, transportation, labor, and marketing, not the cost of peanuts themselves. In fact, the farm level price of peanuts represents only 59 cents out of the $1.78 retail price of an average jar of peanut butter.

The wholesale price of peanut butter has increased 2½ times as fast as the prices received by our farmers. In other words, from 1977 to 1984, wholesale peanut butter prices increased 68 percent, while the farmer's price of peanuts increased only 28 percent.

The Peanut Program has helped ensure that American peanuts are of the finest quality in the world. The recent importation of peanuts from throughout the world has only provided more proof that American peanuts are better than those grown anywhere else in the world. Imported peanuts have suffered from insect infestations as well as harmful chemical residues. Inorder to ensure the American consumer a quality food product, we must maintain the present Peanut Program.

Hundreds of small communities, concentrated in relatively small areas, base their economic well-being on peanut production. In my district and the neighboring First, two counties are responsible for no less than 30 percent of North Carolina production. If we eliminate the Peanut Program, I fear a devastating impact on these basically rural counties.

I have been as concerned about reducing the Federal budget deficit as any other Member of the House. But we serve no national purpose by killing a cost-effective program that has served the entire Nation for more than four decades.

I stand with the peanut growers 100 percent. I urge my colleagues to join me in preserving an outstanding success in American agricultural policy.

Mr. ROSE. Mr. Chairman, I yield such time as he may consume to the gentleman from North Carolina [Mr. HEFNER].

Mr. HEFNER. Mr. Chairman, I rise in opposition to the amendment.

Mr. ROSE. Mr. Chairman, I yield 30 seconds to the gentleman from Oklahoma [Mr. WATKINS].

Mr. WATKINS. Mr. Chairman, I stand in opposition against the Lundine amendment and say that just a few years ago we took the allotment from the peanut farmer. During that time we shifted the quota and we lost over one-third of the peanut farmers during that time.

Also during this particular time we have tried to survive, a lot of the peanut farmers tried to survive on less acreage and with the changes in the policies of the lease, we actually voted more to the peanut farmers. I think the Lundine figures are wrong.

I would like to say that some of the people are wanting the cheapest. Let me tell you, some of us stand up against imports of shoes and steel and other things and now they are trying to wipe out the peanut farmer. I think we need to think about it.

Mr. RAY. Mr. Chairman, the present Peanut Program is one that has been carefully fashioned over the past 10 years through the cooperation of both congressional Agriculture Committees along with all segments of the peanut industry.

The result has been a program that works to the benefit of everyone in the industry as well as the American consumer. It shows that the Federal Government, working in conjunction with the private sector, can fashion a Federal program that did what it was intended to do at very little or no cost to the American taxpayer. It has been a success story.

The program was changed dramatically in 1977 and fine-tuned in 1981. Those changes have allowed an adequate supply of quality peanuts for domestic edible consumption while, at the same time, allowing competitive quality peanuts to assist in developing our foreign markets. The present program allows producers to make a decent return on their investment and, most importantly, it allows them the ability to obtain financing for their peanut and other crops. Destruction of the Peanut Program would only exacerbate the extreme economic problems now being experienced in the agricultural community throughout the United States.

Mr. Chairman, I have heard no great outcry from consumers in my district that they are paying too high a price for peanut products, but I have heard a great outcry from my constituents who work in the peanut industry as to what would happen if the program were destroyed.

In conclusion, let me reemphasize that the Peanut Program works for every segment of the industry. It provides financial support for the growers, but not at the expense of American consumers and this country's taxpayers. Its destruction would create an economic crisis among my producers in Georgia.

Mr. Chairman, I implore my colleagues in the House to support the committee position and oppose the Lundine amendment.

Mr. LEWIS of California. Mr. Chairman, for the last several weeks, we have been eulogizing the poor American farmer. We have agonized over his plight and have repeatedly passed provisions in this farm bill that call for higher price supports and additional protections.

Indeed, some farmers are facing extinction. And this body has decided through its debate that there should be protection for the majority of farmers over the next 5 years.

Be that as it may, the Peanut Program, my friends, does not belong in either of these categories. For in peanuts, a few select quota holders who were fortunate enough to have ancestors who grew that commodity, hold a vested, continuing windfall profit that has been passed down with the land.

The Government guaranteed price of raw peanuts and production controls have resulted in net returns to the peanut farmer 4 to 10 times greater than in any other competitive crop on a national basis, and 9 to 20 times greater when computed on a regional basis. For example, if soybean producers enjoyed a similar program, the support level would be $13 per bushel, rather than the current $4.50 per bushel. The support level for corn would be $4.77 per bushel, rather than $2.65.

Clearly, this program in its present form guarantees more than a fair share of economic return to an elite few.

A leading agricultural economist has estimated, based on USDA figures, that this year 12 farms with over 1,000 acres of peanuts each have received $250,000 each in subsidy payments from the current program through artificially inflated prices guaranteed by the Government and paid for by the consumer.

So, if we phase out this aristocratic program, do we devastate the little guy? I think not. With this amendment, we will eliminate, over the next few years, a program that is feudal at best, and at worst factors out sound economics and crop efficiency in the running of peanut business.

The most offensive feature of this program is its quota system. First, it bars all farmers except quota holders from growing peanuts for the domestic market. Second, it allows a significant number of absentee landlords to make money from the Government and taxpayers without even participating in the risks and hardships of farming business. I am referring to approximately 50 percent of the quotas. These are held by people who don't farm. They lease their land to growers who pay for the privilege of farming. Finally, quota restricts peanut production to regions that are less productive, and locks out fresh lands in other regions that are naturally better equipped to grow them.

This program makes a mockery of all we have sought to achieve in our 200 year history. What we have here is a system that reflects medieval ways when only a handful of wealthy landowners were allowed to prosper from working their own lands. Today, the small farmer is effectively prohibited from participating in the U.S. peanut market by our own insistence to support a monopoly.

This amendment is an opportunity to rid ourselves of the vestiges of the past. I urge my colleagues to support it.

Mr. HATCHER. Mr. Chairman, I rise in opposition to the amendment. The saying "If it ain't broke, don't fix it," has been used frequently when supporters describe the Peanut Program, and I would like to explain why.

The Peanut Program is one of the Federal Government's most successful agriculture programs—one that has been fair to the peanut farmer and has been cost-efficient to the taxpayer. Since 1977, Government outlays for the Peanut Program have been reduced to one-tenth of 1 percent of total outlays for all commodities.

Major changes in the 1977 and 1981 farm bills dealing with peanut production in the United States have shifted the Peanut Program into more of a "free market" system. The program that is contained in the 1985 farm bill has been designed to keep Government costs down and to be more market-oriented. Any drastic moves to alter the direction of the Peanut Program—such as contained in this amendment—would be devastating to the approximately 30,000 family peanut farmers in the Nation.

In Georgia, my home State, we have 11,000 family peanut farmers who depend on the Peanut Program for their livelihood. During the last year, America has witnessed the plight of the family farmer through each segment of the mass media. I come from a largely rural and agricultural district, and I can verify that the reports we hear are not exaggerated. Farmers are in bad times—the worst since the Great Depression—and the root of their troubles—a combination of a severe credit crunch and the spiraling deficit that has badly hurt export sales and driven up interest rates—is out of their control. Until we deal with these problems, it seems foolish to me to tinker with a low-cost Government program that helps to keep nearly 30,00 families in business.

I have met with family farmers in my district, throughout Georgia, and from around the Nation, and the message they are conveying is clear: America is perilously close to losing a way of life that has existed since the founding of this Nation. Shutting the door on farmers when they are in dire straits will have an adverse effect not only on the thousands and thousands of families who live off the land, but also on the thousands and thousands of small communities that depend on the farm economy for their subsistence.

I ask my colleagues to vote down the amendment and keep the Peanut Program intact. In short, the Peanut Program has been successful in guaranteeing consumers abundant supplies; in providing Americans with the best quality peanuts in the world; in insuring stable, low consumer prices; and in reducing Government costs. Let's not gut a program that is successful and that has proven to help our farmers.

Mr. ROSE. Mr. Chairman, I yield 1 minute to the distinguished chairman of the committee, the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Chairman, let me state that we have heard a lot of figures. I want to tell you I heard a quotation once that said, "Facts are the enemy of truth." So forget all the facts and listen to the truth.

I wish that my colleagues and the author of this amendment and those

who support it, I wish you could come with me to Floresville in Wilson County, TX, when the peanut growers come and meet with me. I wish you could see how they dress. I wish you could see in their faces the pleading for all of agriculture, for rural America; so I ask my colleagues, we are still the best fed people in the world for the lowest amount of disposable income. Even in peanuts the lowest part of the price goes to the farmer. If you want to reduce peanut butter or candy prices, talk to your big manufacturers, that is where the highest percentage of the consumer cost is.

Mr. Chairman, we just lost an amendment because of philosophical differences. I plead with my colleagues, we cannot send the wrong message out there to the farmers that are dying on the farms—and make no mistake, the peanut growers are in the same position as corn and wheat farmers.

The problem is not only with the Peanut Program, or with figuring a way to phase it out. As a matter of fact, in California, almonds are in trouble, walnuts are in trouble, pistachios are in trouble, all the nuts in California are in trouble.

Mr. LUNDINE. Mr. Chairman, I yield myself the balance of the time.

Mr. Chairman, I think I heard an objection from one nut from California, excuse me.

In conclusion, Mr. Chairman, I think that my friend and respected colleague from Texas has said it correctly. If you are going to vote against the Lundine amendment, you are going to have to forget the facts. The facts as demonstrated during this debate, there is no refutation on the consumer price increase of 14 percent in the jar of peanut butter. It is established. It is established by documented evidence and it cannot be argued that it does not drive up consumer prices.

Now, the point has been made, do consumer prices come down as they go up? We have experience with that. Following the 1980 drought, the prices went up in 1981, but they also came down in 1982 and 1983; so I think that there is price elasticity here.

There has been no demonstration that more producers, as the gentleman from California has stated, would be of any harm to anyone in this country.

The Lundine amendment is a pro-producer, proagriculture bill. You could grow peanuts in California. You can grow peanuts in lands all over this country.

Why have we seen such a parade of my dear friends to the well? Because they are protecting the quota holders, who can only grow peanuts for domestic consumption on their lands, and I do not blame them for protecting them; but one can see what could happen if we opened it up. It would be to the benefit of efficient producers and consumers alike.

Finally, I would like to ask the attention of my colleagues to again reflect on the fact that this is not like any other agriculture program. This Peanut Program is a boondoggle, with import restrictions, with quotas on production, with favored preferences for certain producers over other producers.

It is the most complicated, unworkable, indefensible program imaginable, except for those who are favored, and I do not blame folks who are favored to fight for their position.

In conclusion, let me say that the Lundine amendment is a compromise. Four years ago I moved to strike out the Peanut Program immediately, cold turkey. Today we are moving to phase it out over a reasonable period of time. The allotments, the feudalistic system, have had enough time.

Vote for the Lundine amendment. It is a reasonable compromise.

Mr. ROSE. Mr. Chairman, I yield myself the final minute.

Mr. Chairman, this has been a remarkable argument and a remarkable debate, but to hear again my friends say that the Peanut Program is a boondoggle is only to remind myself and my colleagues that the gentleman is fighting valiantly for those who manufacture peanut butter in his district.

I submit, if my farmers gave their peanuts to the candy and the peanut butter manufacturers of this country, the peanut companies would still object because our attitude would be wrong.

One cent is all there is in a Snickers bar. If we cut peanuts in half, do you think the Snicker bar is coming down 50 percent? No.

If we give the peanuts to the people who make peanut butter, how much do you think they are going to pass on to the consumer? The answer is zip.

We are at rockbottom of a no-cost Peanut Program. We are struggling to survive in rural America. We have a program that works. We do not subsidize water that irrigates in California.

Mr. Chairman, vote down the Lundine amendment.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from New York [Mr. LUNDINE], as modified.

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. LUNDINE. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 195, noes 228, not voting 11, as follows:

[Roll No. 334]

NOT VOTING—11

Addabbo	Burton (CA)	McEwen
Barnard	Gradison	Rodino
Berman	Hall (OH)	Wright
Biaggi	Kindness	

□ 1340

The Clerk announced the following pairs:

On this vote:

Mr. Berman, for, with Mr. Barnard, against.

Messrs. GRAY of Illinois, OWENS, and DWYER of New Jersey changed their votes from "no" to "aye."

So the amendment, as modified, was rejected.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. LEWIS of Florida. Mr. Chairman, on rollcall No. 334 I am recorded as voting "aye." I had intended to vote "nay."

The CHAIRMAN. Are there further amendments to title VIII?

AMENDMENT OFFERED BY MR. COMBEST

Mr. COMBEST. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. COMBEST: Title VIII, page 169, before the period on line 9, insert the following: ": *Provided*, That, notwithstanding any other provision of this section, in the case of any county within the State of Texas for which a poundage allocation to such county was less than ten thousand tons for the preceding year's crop, transfers (including transfer by sale or lease) from an owner or operator of a farm from such county shall be permitted to any other owner or operator of a farm in any other country within the State."

Mr. COMBEST (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

The CHAIRMAN. Under the unanimous-consent agreement previously entered into, there are 10 minutes left under title VIII.

The gentleman form Texas [Mr. COMBEST] will be recognized for 5 minutes in support of his amendment.

Mr. COMBEST. Mr. Chairman, the amendment is short. The amendment would allow within the State of Texas the transfer by sale or lease within counties of less than 10,000 tons quota to counties beyond the county line.

Basically what it would do would be to change and allow outside transfer of those allotments into smaller counties.

Mr. Chairman, this is not a mandatory program. It would be completely voluntary. It would only be if the individual who owned that allotment in the smaller county wanted to sell or lease to an outside county, and it would be a no-cost amendment and simply would transfer that allotment to another area. It would not increase the allotments or increase the quotas, but rather allow a farmer who did not wish to produce under that quota to sell or lease to another farmer who did wish to.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. COMBEST. I yield to the gentleman from Kansas.

Mr. ROBERTS. Mr. Chairman, this is an amendment that is limited to the State of Texas. The proposal would offer new growers an opportunity to obtain poundage quotas without adversely affecting existing growers in the State. It would correct the situation under current law where quotaholders are frozen, a system that is perpetuated, with a few limited exceptions, by H.R. 2100. Essentially the only persons who can hold quotas are those who held them years ago. New growers are limited to a second-class citizenship, to the production of additional peanuts at a support rate that is several hundred dollars a ton lower than the rate for quota peanuts.

The proposal would apply solely to counties in Texas having a quota of less than 10,000 tons and is patterned after existing law which permits the transfer of quotas from one county to another within States having a quota of less than 10,000 tons. The effect of the proposal in Texas is to authorize out of county transfers of approximately half the total State quota of 300 million pounds.

The proposals should not adversely affect any existing growers—it is to their advantage. A transfer outside a county would be entirely up to the election of the quotaholder. If he did not wish to make the transfer, he could not be forced to do so. Even if the quotaholder made the quota available for transfer outside the county, it could be retained within the county if local producers successfully competed in the bidding.

The reason that the amendment applies solely to Texas is that in recent years producers in west Texas have begun to produce peanuts. They have proven their ability to grow peanuts efficiently. They want to continue to do so on a parity with other producers in the State. They have been restricted, however, to the production of additional peanuts. To some extent in the past they have been able to obtain the benefits of a higher price than the loan rate for additional peanuts because the quota was not sufficient to meet the demand for domestic edible peanuts and the deficiency was made up through the sale of additional peanuts under loan. The west Texas producers received the benefit of the profits realized on these sales—referred to in the trade as sales under the "buy-back provision."

H.R. 2100 has largely closed this opportunity. It has increased the quota so that the entire demand for domestic edible peanuts will henceforth be filled by quota peanuts. Additional peanuts will rarely, if ever, be able to share in supplying the demand for domestic edible peanuts. The increase in the quota is not being allocated to new growers—rather it will be divided among all farms that produced peanuts in two out of the past 3 years. Only a fractional share of the increased quota would go to new growers.

Even if the entire amount were to be allocated to new growers, that alone is not the answer. New growers within the State should be able to share in quotas which an old grower wishes to sell or lease. There is no reason for discriminating against these growers merely because they happen to farm in a different county than the county in which the quota is located.

Mr. BROWN of California. Mr. Chairman, would the gentleman yield?

Mr. COMBEST. I appreciate the support of the gentleman from Kansas.

I yield to the gentleman from California.

Mr. BROWN of California. Mr. Chairman, I intend to support the gentleman's amendment. I think it will improve the operation of the program.

I just wish that he would be willing to consider an amendment to make it possible to extend the quota to California also. Would the gentleman consider doing something like that?

Mr. COMBEST. I can understand the gentleman's concern, but I would be reluctant to do that simply because we have tried to work this program out within Texas, within some problems that we have there, particularly in my district. Again, I certainly understand the concerns of the gentleman from California, because again we have those same concerns in Texas.

However, sir, I would be reluctant to accept that amendment, and I feel there would be some reluctance to accept it on the other side as well.

Mr. BROWN of California. I thank the gentleman for his concern.

Mr. COMBEST. You are very kind, sir.

Mr. Chairman, I reserve the balance of my time.

Mr. DE LA GARZA. Mr. Chairman, I rise in opposition to the amendment, and I do so with a great deal of respect and admiration for our other Member from Texas.

Mr. Chairman, we just voted on sustaining the committee on a very carefully drafted provision in the peanut area. There is provision there for movement, there is provision there for growth. There is provision there for sharing, for expansion.

This amendment would throw this all out of kilter, only for the State of Texas. I hate to take issue with my colleague from Texas. You might say this is a family affair in Texas, but it is unfair to the other States.

What we have in the legislation is room for growth for all of the States. What we have in the legislation for expansion is for all of the States, and we have in our committee report also considered the need of this area of Texas. We are working, but it is a very delicate situation.

This amendment would only unravel everything that we have done. This amendment would only be applicable in Texas, and I have to be chairman for all of the Nation, Mr. Chairman. We have to be members of the committee for all of the Nation, and we have to provide national legislation.

This amendment is not in that tone and would not have that effect. On the contrary, it might have a tendency to disrupt in Texas where the manufacturers or where the shellers are, and it would be a disruption that eventually would be disastrous to both sides of the issue and where peanuts are grown in Texas.

I would hope that my distinguished colleague would continue working with us, as he has, continue working as diligently as he has. I assure you that he makes a valuable contribution to our committee. He is a valuable member of our committee, and it is with great pain personally that I have to oppose his amendment.

But we are dealing with national legislation. We cannot single out, we cannot carve out. We are trying very diligently to meet his need and we will continue to do so, I assure you.

So for the best interests of all concerned, I would hope that the committee, that our colleagues, would sustain the committee and vote no on the amendment so that we might continue working together to meet his needs, but doing it in an orderly fashion as we are already doing.

Mr. COMBEST. Mr. Chairman, to the distinguished chairman of the committee, for whom I have a great deal of respect, and certainly through the past several months in the development of a program, and certainly here with his able leadership on the floor, I would say that I would in no way want to only restrict this to Texas. Possibly that would be good, and if the chairman would desire, maybe we should consider what the gentleman from California, Mr. BROWN, said, and make it a national amendment. I would not just want to restrict this to Texas and, you know, it has been a problem we have been trying to deal with in Texas. I would certainly not want the other Members of the body to think I was shorting them simply by trying to work within Texas only, and certainly I would be willing to accept that, if that is what the chairman wished.

I would certainly be continually willing to try to work with him and the Members on the committee to try to work this problem out.

I reserve the balance of my time.

□ 1355

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas [Mr. COMBEST].

The amendment was rejected.

The CHAIRMAN. Are there further amendments to title VIII?

Mr. VENTO. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. Without objection, the gentleman from Minnesota [Mr. VENTO] is recognized.

There was no objection.

Mr. VENTO. Mr. Chairman, I would like to engage in a colloquy my colleague from California, the chairman of the Subcommittee on Domestic Marketing, Consumer Relations, and Nutrition, Mr. PANETTA, concerning the Temporary Emergency Food Assistance Program [TEFAP].

Mr. PANETTA. I would be pleased to enter into a colloquy with the gentleman from Minnesota.

Mr. VENTO. The TEFAP program has been extremely beneficial for low-income households in Minnesota and I would like to thank the gentleman and the committee for their commitment to this program and their work to improve the TEFAP program. As you are aware, the TEFAP program provides hunger relief to needy individuals through monthly mass distributions of Government surplus commodities. Most affected households are experiencing long-term unemployment and persistent poverty and depend upon these commodities as a part of their daily food intake. And according to statistics that I have received from Minnesota food banks, the need for commodities has been increasing. As an example, in a food shelf in southern Minnesota, an area hard hit by the current agriculture crisis, the number of individuals through the door had increased almost tenfold between 1982 and 1984.

However, I am concerned about the problem that has been brought to my attention which is affecting my home State of Minnesota and approximately 15 other States, that will effectively cut Minnesota's allocation of cheese in half. The Secretary of Agriculture, exercising his discretionary authority, terminated an aspect of this program that allowed States to process bulk cheese. Minnesota, along with these 15 other States, have processing facilities within the State and had previously been processing 40-pound blocks of surplus cheese. The States received these surplus commodities and then processed them into 2- and 5-pound packages for distribution. This amount was in addition to the States' allocation of prepackaged 2- and 5-pound parcels of cheese.

This reduction in Minnesota's cheese allocation is occurring at a time when the demand for the cheese is actually rising. Not only is the need increasing in southwestern Minnesota, but throughout the rest of the State as well. If Minnesota is forced to absorb the anticipated shortfall resulting from the Secretary's decision, the needs simply will not be met.

I am very pleased with the USDA allocation that distributes approximately 500,000 pounds of cheese a month to Minnesota; however, if there is bulk cheese available for processing, and Minnesota along with other States have the facilities to process it, why shouldn't the States receive these allotments?

The real question here is not regarding the size or the makeup of the cheese, the question is, what is the amount of cheese available for distribution and will that amount be distributed as it is available? I would hope that the Secretary, when exercising his discretionary authority over this distribution program, takes into con-

sideration the needs of the low-income individuals who are being helped by this program.

Mr. PANETTA. Mr. Chairman, if the gentleman will yield, I appreciate the gentleman bringing this matter to my attention and I would like to assure the gentleman that it is the intent of the committee that surplus commodities of cheese—processed or nonprocessed—be continued to be made available to the States in quantities sufficient to serve needy Americans, to the extent that this processed and nonprocessed cheese is available to the Secretary, and can be distributed consistent with legal requirements. I see no reason why distribution should have been reduced in recent months unless a shortage of processed or nonprocessed cheese has developed. As far as I know, the demand for surplus commodities remains high and the supply of cheese is considerable.

Mr. VENTO. I thank the gentleman for his assurances and for participating in this exchange, and am satisfied that the committee language and intent will insure the distribution of both processed and nonprocessed cheese as is necessary to serve the needy.

The CHAIRMAN. Are there amendments to title IX?

Are there amendments to title X, General Commodity Provisions?

Are there amendments to title XI?

Mr. DE LA GARZA. Mr. Chairman, are we still on title X?

The CHAIRMAN. The Chair will state that we can go back to title X.

Mr. MADIGAN. Mr. Chairman, I ask unanimous consent that we return to title X.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The CHAIRMAN. Are there amendments to title X?

AMENDMENTS OFFERED BY MR. MADIGAN

Mr. MADIGAN. Mr. Chairman, I offer two amendments to title X, and I ask unanimous consent that they be considered en bloc.

The CHAIRMAN. Is there objection to the request of the gentleman from Illionis?

There was no objection.

The CHAIRMAN. The Chair would inquire of the gentlemen, are these amendments printed in the CONGRESSIONAL RECORD?

Mr. MADIGAN. Yes, they are, Mr. Chairman.

The CHAIRMAN. The Clerk will report the amendments.

The Clerk read as follows:

Amendments offered by Mr. MADIGAN: Title X, page 239, after line 19, insert the following new section:

MARKETING YEAR

SEC. 1028. Section 301(b)(7) of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1301(b)(7)) is amended by striking out "Corn, October 1—September 30;" and inserting in lieu thereof "Corn, September 1-August 31."

Title X, page 239, after line 19, insert the following new section:

ANALYSIS OF INFORMATION—CONFIDENTIALITY

SEC. 1029. (a) Neither the Secretary, nor any other officer or employee of the Department of Agriculture (hereinafter "the Department") or agency thereof, nor any other person may—

(1) Use the information furnished generally pursuant to sections 1622(g) and 2204(a) of title 7, United States Code, and specifically pursuant to sections 471, 501, 951, and 2248, title 7, United States Code, section 42, title 13, United States Code, and section 1516(a), title 15, United States Code, for any purpose other than statistical purposes which are defined as the development or reporting of aggregate data in such a way that the identity of specific establishment or individual data is not discernible and is not material to the intended uses of the data, or (2) disclose such information to the public unless it has been transformed into statistical or aggregate formats that do not allow the identification of the establishment or individual who supplied particular information.

(b) No department, agency, officer, or employee of the Government except the Secretary in carrying out the general purposes of sections 1622(g) and 2204(a), title 7, United States Code, and the specific purposes of sections 471, 501, 951, and 2248, title 7, United States Code, shall require for any reason, copies of the statistical information provided to the Department which have been retained by any such establishment or individual. Copies of such information which have been so retained shall be immune from mandatory disclosure of any type including legal process, and shall not, without the consent of the individual or establishment concerned, be admitted as evidence or used for any purpose in any action, suit, or other judicial or administrative proceeding.

(c) Any person who shall publish, cause to be published, or publicly release information collected pursuant to, generally, sections 1622(g) and 2204(a) of title 7, United States Code, and specifically pursuant to sections 471, 501, 951, and 2248, title 7 United States Code, section 42, title 13, United States Code, and section 1516(a), title 15, United States Code, in any manner or for any purpose prohibited in section (a) shall be fined not more than $10,000 or imprisoned for not more than one year, or both.

Mr. MADIGAN [during the reading]. Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. MADIGAN. I am happy to yield to my distinguished chairman.

Mr. DE LA GARZA. Mr. Chairman, I would advise the membership and my distinguished colleague that we have examined both amendments, as offered en bloc, and we have no objection to the amendments.

Mr. MADIGAN. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendments offered by the gentleman from Illinois [Mr. MADIGAN].

The amendments were agreed to.

The CHAIRMAN. Are there other amendments to title X?

Are there amendments to title XI?

AMENDMENT OFFERED BY MR. DURBIN

Mr. DURBIN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. DURBIN: Page 260, beginning in line 1, strike out "export subsidies" and all that follows through line 2, and insert in lieu thereof the following: "subsidies (including export subsidies, tax rebates on exports, financial assistance on preferential terms, provisions of funds to cover operating losses, assumption of costs or expenses of production, processing or distribution, differential export taxes or differential export duty exemptions, domestic consumption quotas, and other methods of furnishing or ensuring the availability of raw materials at artificially low prices) or other unfair trade practices of a foreign country that directly or indirectly benefit producers, processors, or exporters of agricultural commodities in that foreign country; and".

Mr. DURBIN [during the reading]. Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The CHAIRMAN. The Chair would inquire, was the amendment printed in the CONGRESSIONAL RECORD as of September 24?

Mr. DURBIN. Yes, Mr. Chairman.

The CHAIRMAN. The gentleman from Illinois [Mr. DURBIN] is recognized for 5 minutes.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. DURBIN. I yield to the chairman of the committee.

Mr. DE LA GARZA. Mr. Chairman, I would inform the membership that we have examined the amendment and have no objection to it.

Mr. DURBIN. Mr. Chairman, the amendment which I have offered will strengthen the Secretary of Agriculture's authority to counteract export subsidies and other unfair trade practices which have resulted in the loss of U.S. agricultural export markets. This amendment broadens the current provisions of H.R. 2100 which require the Secretary of Agriculture to develop a program to counteract foreign "export subsidies" through the use of Commodity Credit Corporation stocks or funds.

Nations seeking to subsidize their exports have increasingly begun to develop new ways of achieving this result without violating the traditional definition of an "export subsidy." For ex-

ample, Brazil and Argentina now employ a differential export tax system which has the same effect as an export subsidy. Spanish domestic consumption quotas on soybean oil and tax rebates on the export of soybean products have also hurt U.S. exports.

As a result of these practices, U.S. export revenues from soybeans and soybean products have declined significantly. The U.S. share of world soybean meal markets has decreased from 78 percent in 1973–74 to 30 percent in 1983–84. The U.S. share of soybean oil products decreased from 70 to 24 percent during this period. The U.S. balance of trade on soybean-related export earnings decreased from $8 billion in 1980 to only $5 billion in 1985.

The soybean industry sought relief from these practices through a petition filed in June 1983 under section 301 of the 1974 Trade Act. Despite the serious impact of these practices on U.S. exports, no relief has been granted by the U.S. Trade Representative. Apparently, our trade officials have been reluctant to act on these practices because GATT officials have not specifically identified practices such as those used by Brazil and Argentina against United States soybean processors as "export subsidies."

This amendment is designed to expand the authority given to the Secretary of Agriculture in H.R. 2100 to counteract export subsidies to include other unfair trade practices. The amendment also defines subsidies to include a number of specific practices such as differential export taxes, differential export duty exemptions, tax rebates on exports, financial assistance on preferential terms, funds to cover operating losses, and other methods of assuring the availability of raw materials at artificially low prices which have undermined the competitiveness of U.S. exports.

International markets are critically important to our Nation's agricultural economy. For example, soybean processors purchase approximately 60 percent of America's soybean crop to produce soybean meal and soybean oil. The loss of these markets will result in the further deterioration of farm prices. The loss of these markets will also jeopardize the jobs of 11,000 workers in the U.S. soybean processing industry.

I urge you to support this amendment to strengthen the Secretary of Agriculture's authority to protect U.S. agricultural producers from export subsidies and other unfair trade practices.

Mr. MADIGAN. Mr. Chairman, will the gentleman yield?

Mr. DURBIN. I yield to the gentleman from Illinois.

Mr. MADIGAN. I thank the gentleman for yielding, and I advise the gentleman that we have had a chance to review his amendment. We think that it is a very good amendment and hope that it will be adopted.

Mr. DURBIN. Mr. Chairman, in light of the statements by the chairman and my colleagues, the gentleman from Illinois, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Illinois [Mr. DURBIN].

The amendment was agreed to.

Mr. CONTE. Mr. Chairman, I ask unanimous consent to return to title X for one amendment, a bee amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

AMENDMENT OFFERED BY MR. CONTE

Mr. CONTE. Mr. Chairman, I offer an amendment.

Mr. DE LA GARZA. Mr. Chairman, I reserve a point of order on the amendment.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. CONTE: Page 211, line 12, add the following after the period: "The term 'payments' as used in this section shall include the amount by which any repayment of construction costs pursuant to Federal reclamation law (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof and supplementary thereto) is exceeded by the full cost, as defined by section 202(3) (A)-(C) of the Reclamation Reform Act of 1982 (Public Law 97-293, 96 Stat. 1263), less $5,000.".

Mr. CONTE. Mr. Chairman, I'm offering today what I call the "Conte Killer Bee" amendment, because I'm going to try and kill one of the most outrageous price support programs we've got going: the honey price supports. To those who will be fighting my amendment, I know what you'll say about this program: "How sweet it is."

How sweet it is that more than 75 percent of the honey produced in the United States is purchased by the Government.

How sweet it is that virtually every ounce of honey sold in the United States today comes from a foreign country.

How sweet it is that just about 30 percent of the honey producers in the United States get 90 percent of the benefits: one farmer got over $1 million.

How sweet it is that the 3 million pounds of honey is stored in a private warehouse at a cost of $3,000 per month.

Well, Mr. Chairman, I'm here to put an end to this boondoggle which costs the Government $100 million a year. It's a honey of a deal to a few queen bees, but it's the taxpayer who's getting stung.

Now, I don't want to drone on about this amendment, but I've been buzzing about this issue since the GAO report came out which recommended elimination of this wasteful program. I've combed through that report, and I don't want to bumble on this amendment. It's a sticky problem, but we've got to deal with it.

My amendment simply eliminates the program. It doesn't work: back in the 1950's, when honey prices dropped, Congress had a legitimate interest in insuring that enough beekeepers stayed in business to provide pollination. I'm a farmer myself—and I like the bees who pollinate my tomato plants.

For years and years, the program worked well: The support price remained well below the market price, beekeepers sold to the market, and the programs cost virtually nothing.

But in 1981, we reached the crossover point: the hives opened up. Argentina, Canada, Mexico, and the People's Republic of China began sending in imports of honey to plug the gap caused from a decline in domestic production. Honey prices went up, and last year—now, listen to this—the Government was buying almost 120 million pounds of honey.

The administration supports my amendment. "It's probably the most absurd program we administer," said an official from the Agriculture Department.

This program is so out of wax that even the bees are laughing. And these beekeepers are raking in the dough, laughing all the way to the bank. They should be ashamed of themselves.

Shame on you, the queen bees of the honey industry. Shame on you, for horneting in on this boondoggle. These people are hoping that my amendment goes down today, hoping that it won't fly. They're swarming around here, trying to kill this amendment, but let me tell you: Even Winnie the Pooh wouldn't stick his paw into this honeypot.

□ 1405

The CHAIRMAN. Will the gentleman from Massachusetts give the Chair his attention on this issue?

The Clerk reported an amendment offered by the gentleman from Massachusetts dealing with reclamation.

It would be in order for the gentleman from Massachusetts [Mr. CONTE] to ask unanimous consent that the amendment as reported be the one that the gentleman printed in the RECORD and spoke to concerning honey. Does the gentleman make that request at this time?

Mr. CONTE. Mr. Chairman, I ask unanimous consent that the amendment that I offered pertain to this honeybee amendment. The Clerk now has it at the desk.

The CHAIRMAN. Without objection, the Clerk will report the amendment.

There was no objection.

The Clerk read as follows:

Amendment offered by Mr. CONTE:

(1) Section 201 of the Agriculture Act of 1949; 7 U.S.C. 1446 is amended by striking in the first sentence the word "honey."

(2) Subsection (b) of such section is hereby repealed.

The CHAIRMAN. Does the gentleman from Texas continue to reserve on his point of order?

Mr. DE LA GARZA. Yes, Mr. Chairman. This is the amendment I was reserving the point of order on.

POINT OF ORDER

Mr. DE LA GARZA. Mr. Chairman, if I may be heard on my point of order, I would not object to the gentleman having made his plea for the amendment. But the amendment as printed in the RECORD, Mr. Chairman, does not designate a proper page or title or section of the bill, and for that reason I would submit that it is out of order.

The CHAIRMAN. Does the gentleman from Massachusetts [Mr. CONTE] wish to be heard?

Mr. CONTE. Mr. Chairman, when we submitted the amendments, unfortunately the printer put them en bloc. That was the unfortunate part, but I feel the amendment is germane, and it is germane to section X of the bill.

The CHAIRMAN (Mr. BONIOR of Michigan). The Chair is prepared to rule.

The Chair will rule that the amendment as submitted was not correctly printed as a separate amendment, and the Chair will sustain the point of order of the gentleman from Texas.

AMENDMENTS OFFERED BY MR. BEREUTER

Mr. BEREUTER. Mr. Chairman, I ask unanimous consent that the three amendments that I now offer be considered en bloc.

The CHAIRMAN. Is there objection to the request of the gentleman from Nebraska for consideration of the amendments en bloc?

Mr. LENT. Reserving the right to object, Mr. Chairman, and I will not object, I would just like to ask the gentleman if any of these amendments have to do with the so-called preference laws.

Mr. BEREUTER. Mr. Chairman, if the gentleman will yield, I would say to the gentleman that none of the three has anything to do with cargo preference. They are studies for the U.S. Department of Agriculture on other subjects.

Mr. LENT. If the gentleman would yield further, these amendments do pertain to title XI, and the Committee has now reached the point in our deliberations where we are on title XI.

Mr. BEREUTER. Yes, that is my understanding, and that is how I am acting.

Mr. LENT. Mr. Chairman, I thank the gentleman.

Mr. Chairman, I withdraw my reservation of objection.

PARLIAMENTARY INQUIRY

Mr. DE LA GARZA. Mr. Chairman, what is the parliamentary situation?

The CHAIRMAN. The parliamentary situation is that the gentleman from Nebraska has asked that his amendments be considered en bloc.

Is there objection to the request of the gentleman from Nebraska?

Mr. DE LA GARZA. Reserving the right to object, Mr. Chairman, I do so only to inform the gentleman that we are still studying his amendments, and there is a possibility that we might not be fully in accord with one of them. I wonder if the gentleman would continue with one of the amendments and make his request later.

Mr. BEREUTER. Mr. Chairman, if the gentleman will yield, I would be pleased to do that. I would ask the chairman which one he would want me to avoid.

Mr. DE LA GARZA. The agreement with Brazil on wheat and soybeans.

The CHAIRMAN. Does the gentleman object?

Mr. DE LA GARZA. Would the gentleman acquiesce to the request of the chairman?

Mr. BEREUTER. I would be pleased to do that.

Mr. DE LA GARZA. Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. The gentleman from Nebraska [Mr. BEREUTER] will restate his request.

Mr. BEREUTER. Mr. Chairman, I ask unanimous consent that my amendments numbered 2 and 4 be considered en bloc.

Mr. CHAIRMAN. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

The CHAIRMAN. The Clerk will report the amendments.

The Clerk read as follows:

Amendments offered by Mr. BEREUTER: Title 11, on page 282 following line 18 add the following new section:

STUDY RELATING TO BRAZILIAN ETHANOL IMPORTS

SEC. 1155. The Secretary of Agriculture shall conduct a study to determine the impact that the import of Brazilian ethanol has on the domestic price of corn and other grains and the domestic ethanol refining industry. The Secretary of Agriculture shall also, in consultation with the International Trade Commission and the United States Trade Representative, determine what relief should be granted because of the interference of subsidized Brazilian ethanol with the domestic ethanol industry. Not later than 60 days after the enactment of this Act, the Secretary shall report the results of such study to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate.

Title XI, on page 274 after line 18 add the following new section:

STUDY TO REDUCE FOREIGN EXCHANGE RISK

SEC. 1132. The Secretary of Agriculture shall conduct a study to determine the feasibility, practicability and cost of implementing a program to reduce the risk of foreign exchange fluctuations that is incurred by the purchasers of United States agricultural exports under United States export credit promotion programs. The purpose of the study is to examine whether the GSM-102 program and all other United States export credit initiatives relating to agricultural exports would be enhanced by the United States assuming the foreign exchange risk of the buyer which resulted from a rise in the value of the United States dollar compared to the trade-weighted index of the dollar. The index referred to is the "trade-weighted index" published by the Department of Commerce as a measurement of the relative buying power of the dollar compared to the currencies of nations trading with the United States. The elements of the program to be considered in this study would include the following:

(1) On the date a foreign buyer receives GSM-102 or other credit for purposes of purchasing United States agricultural products, the maximum loan repayment exchange rate would be tied to the trade-weighted value of the United States dollar on the same date.

(2) If in the future the United States dollar gains in strength (a higher trade-weighted index), the buyer would continue to repay the loan at the lower value fixed at the time the GSM-102 credit was extended.

(3) If the United States dollar falls in value during the term of the repayment period, the foreign buyer could calculate his repayment on the lower dollar value.

(b) Not later than six months after the enactment of this Act, the Secretary shall report the results of such study to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate.

Mr. BEREUTER (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Nebraska?

Mr. DE LA GARZA. Mr. Chairman, reserving the right to object, will the gentleman kindly identify the amendments beyond Nos. 3 and 4?

Mr. BEREUTER. Mr. Chairman, if the gentleman will yield, I would say to the committee chairman that the one that the chairman raised questions on is the one labeled "3," which is the Brazilian soybean and wheat exchange amendment. Amendment No. 2 is the one that requires a study of the impact of the Brazilian ethanol imports. Amendment No. 4 includes a study of the UDSA of the foreign exchange risk. So I am not taking up the one on which the chairman had a question.

Mr. DE LA GARZA. Let me ask the gentleman if he has another amendment, No. 1; is that another sequence?

Mr. BEREUTER. I am not taking that up at this time, Mr. Chairman.

The CHAIRMAN. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

The CHAIRMAN. The gentleman from Nebraska [Mr. BEREUTER] is recognized for 5 minutes.

Mr. BEREUTER. Mr. Chairman, in order to expedite the procedure here, I did ask that these two amendments be considered en bloc. Both are related to studies which the Department of Agriculture would make.

The first of those two studies that I am going to discuss. This one labeled "No. 2," would require a study of the impact of Brazilian ethanol imports. This is a proposed study to which the Department has no objection. I believe, that given the situation we have had in recent months, it is particularly opportune that this study be conducted. I would be very pleased to answer questions about it if there are any at this time.

Mr. Chairman, this amendment would require the Secretary of Agriculture to conduct a study to determine the impact that the import of Brazilian ethanol has on the domestic price of corn and other grains, and the domestic ethanol refining industry. The Secretary of Agriculture shall also, in consultation with the International Trade Commission and the U.S. Trade Representative, determine what relief should be granted because of the interference of subsidized Brazilian ethanol with the domestic ethanol industry.

On August 26, the U.S. Customs Service and Treasury Department announced a decision exempting certain marketers and traders from the Customs Service's earlier decision to impose a 60-cent duty on blended ethanol imports. This decision could allow up to 500 million gallons of imported ethanol to enter this country duty free.

The impact of this ill-timed decision is disastrous:

First, 200 million bushels of corn will not be converted into ethanol in the United States in a year when the United States has a bumper crop of corn.

Second, adding 200 million bushels of corn to the U.S. market could drive down the price of corn 15 cents a bushel, according to the National Corn Growers.

Third, $1.2 billion in American farm income will be lost if the price of corn is reduced 15 cents a bushel.

Fourth, the U.S. Treasury will lose $300 million in import duties on the foreign-made ethanol. The Treasury will also face the added expense of purchasing and storing the surplus corn.

At a time when the American farmers are facing an economic crisis and we are confronted with a massive Federal deficit, this decision only aggravates a bad situation.

It is my sincere hope that the USDA will recognize the seriousness of this decision on imported ethanol and do everything within its power to persuade the other branches of the Federal Government responsible for decisions that it was a drastic mistake with monumental consequences for an already depressed agricultural economy.

If Members have questions, I would be happy to answer them at this time, and I urge my colleagues to support this amendment.

The second proposed study relates to the foreign exchange risk program. Again, it is a proposed study by the USDA attempting to ensure that as we have commercial sales of products, that the buyer and the seller are held in less risk by fluctuations in currency rates. I would be pleased to answer any questions about these two proposed studies if there are any at this time.

Mr. Chairman, this amendment is straightforward. It creates no additional burden on the budget, and it is a program which I believe the Department of Agriculture will seriously contemplate implementing once they have conducted the study which this amendment would require.

In 1981, U.S. agricultural exports peaked at $41.5 billion. By 1984, our total agricultural exports fell to $31.5 billion. Next year, estimates show that agricultural exports will drop below $30 billion for the first time since the mid-1970's.

Since 1981, the United States has lost a total of $36 billion in agricultural exports. As a result of these losses, the general economy has been deprived of economic activity that would have added $300 billion to the Nation's gross national product. In the absence of any downturn in exports, millions of jobs could have been added to the economy. Government costs of farm programs could have been slashed. Economic recovery could have buoyed the agricultural industry, generating wealth, and advancing the welfare of the Nation.

One of the major contributing factors in the decline of our agriculture exports has been the fear of foreign countries that the cost of U.S. agricultural products purchased under multiyear credit programs that their cost of repayment will escalate, or increase, with fluctuations in the dollar.

Basically, this amendment would require the Secretary of Agriculture to conduct a study to determine the feasibility, practicability, and cost of implementing a program to reduce the risk of foreign exchange fluctuations to foreign purchases of U.S. agricultural exports. The purpose of the study is to examine whether the GSM-102 program and all other U.S. export credit initiatives relating to agricultural exports would be enhanced by the United States assuming the foreign exchange of risk of the buyer which resulted from a rise in the value of the U.S. dollar compared to the trade-weighted index of the dollar. The index referred to is the trade-weighted index published by the Department of Commerce as a measurement of the relative buying power of the dollar compared to the currencies of nations trading with the United States. The elements of the program to be considered in this study would include the following:

First, on the date a foreign buyer receives GSM-102 or other credit for purposes of purchasing U.S. agricultural products, the maximum loan repayment exchange rate would be tied to the trade-weighted value of the U.S. dollar on the same date.

Second, if in the future the U.S. dollar gains in strength, a higher trade-weighted index, the buyer would continue to repay the loan at the lower value fixed at the time the GSM-102 credit was extended.

Third, if the U.S. dollar falls in value during the term of the repayment period, the foreign buyer could calculate his repayment on the lower dollar value.

If members have questions, I would be happy to answer them at this time, and I urge my colleagues to support these two amendments.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. BEREUTER. I would be pleased to yield to the chairman.

Mr. DE LA GARZA. I thank the gentleman for yielding.

I would advise the gentleman that these two amendments, his titles II and IV, we would have no objection to on this side.

Mr. BEREUTER. I thank the chairman.

I yield to the gentleman from Iowa, my neighbor and friend.

Mr. BEDELL. I commend the gentleman for his amendments, and I would certainly support them.

Mr. BEREUTER. I thank the gentleman for his comments.

Mr. Chairman, I yield back the balance of my time on these two amendments.

The CHAIRMAN. The question is on the amendments offered by the gentleman from Nebraska.

The amendments were agreed to.

AMENDMENT OFFERED BY MR. GILMAN

Mr. GILMAN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. GILMAN: Page 244, line 12, after "title II" insert "and section 311".

Page 248, at the end of line 22, add the following: "The minimum allocation requirements of this clause apply with respect to commodities and products made available under this subsection for carrying out pro-

grams of assistance under title II of the Agricultural Trade Development and Assistance Act of 1954, and not with respect to commodities and products made available to carry out section 311 of that Act.".

Page 252, after line 23, insert the following:

"(C) The minimum quantity requirements of subparagraphs (A) and (B) apply with respect to the eligible commodities to be made available for carrying out programs of assistance under title II of the Agricultural Trade Development and Assistance Act of 1954, and not with respect to eligible commodities made available to carry out section 311 of that Act.".

Page 253, line 1, strike out "(C)" and insert in lieu thereof "(D)".

Page 253, after line 18, insert the following new section:

FOOD FOR PROGRESS PROGRAM AND PRIVATE ENTERPRISE PROMOTION

SEC. 1107. (a) Title III of the Agricultural Trade Development and Assistance Act of 1954 (7 U.S.C. 1727-1727g) is amended by adding at the end thereof the following new section:

"SEC. 311. (a) The President is authorized to negotiate and carry out agreements with developing countries, that have made commitments to agricultural policy reforms, providing for the furnishing of agricultural commodities to such countries, on a credit or grant basis, to support reform and implementation of agricultural policy decisions based on free market principles. Such agreements may provide for commodities to be furnished on a multiyear basis.

"(b) The agreement between the United States Government and a recipient country which provides for the furnishing of commodities under this section shall be called a Food for Progress Program.

"(c) Before entering into an agreement with developing country for the furnishing of agricultural commodities under this section, the President shall be satisfied that such country is committed to carry out, or is carrying out, policies that promote economic freedom, private production of food commodities for domestic consumption, and the creation and expansion of efficient domestic markets for the purchase and sale of such commodities. Such policies may provide for, among other things—

"(1) access, on the part of farmers in the country, to private, competitive markets for their products;

"(2) market pricing of commodities to foster adequate private sector incentives to individual farmers to produce food on a regular basis for the country's domestic needs;

"(3) establishment of market-determined foreign exchange rates;

"(4) timely availability of production inputs, such as seed, fertilizer, or pesticides, to farmers; and

"(5) access to technologies appropriate to the level of agricultural development in the country.

"(d)(1) Notwithstanding any other provision of law, the Commodity Credit Corporation may use funds appropriated to carry out title I of this Act in carrying out this section.

"(2) The Commodity Credit Corporation may finance the sale and exportation of commodities furnished to a developing country under this section.

"(3) The Commodity Credit Corporation shall make available to the President such agricultural commodities determined to be available under section 401 as the President may request for purposes of furnishing commodities on a grant basis under this section.

"(4) Section 203 of this Act shall apply to commodities furnished on a grant basis to a developing country under this section.

"(e) Payment by any developing country for commodities purchased on credit terms under this section shall be on the same basis as the terms provided in section 106 of this Act.

"(f) Any new spending authority provided by this section shall be effective for any fiscal year only to such extent or in such amounts as are provided in advance in appropriation Acts.

"(g) Any preference to 'this title' in sections 301 through 307 of this title shall not apply with respect to this section.".

"(b) Section 106(b) of such Act (7 U.S.C. 1706(b)) is amended by adding at the end thereof the following new paragraph:

"(4)(A) Notwithstanding any other provision of this subsection, agreements under this title for the sale of agricultural commodities for dollars on credit terms may provide that proceeds from the sale of the commodities in the recipient country shall be used for such private sector development activities as are mutually agreed upon by the United States and the recipient government.

"(B) Proceeds used for private sector development activities pursuant to this paragraph shall be loaned by the recipient government to one or more financial intermediaries operating within the country for use by those financial intermediaries for loans to private individuals, private and voluntary organizations, corporations, cooperatives, and other entities within such country. Such proceeds shall not be used to promote the production of commodities or the products thereof that will compete, as determined by the President, in world markets with similar commodities or the products thereof produced in the United States.

"(C) As used in this paragraph—

"(i) the term 'private sector development activities' means activities which foster and encourage the development of private enterprise institutions and infrastructure as the base for the expansion, promotion, and improvement of the production of goods and services within a recipient country; and

"(ii) the term 'financial intermediaries' includes banks, cooperatives, private and voluntary organizations, and other financial institutions capable of making and servicing loans.".

Mr. GILMAN (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. GILMAN. Mr. Chairman, I would be pleased to yield to the gentleman from Texas.

Mr. DE LA GARZA. Mr. Chairman, I would advise the gentleman that we have no objection to the amendment on this side.

Mr. GILMAN. Mr. Chairman, I thank the chairman of the committee and I yield to the gentleman from the minority side.

Mr. ROBERTS. I would be happy to respond, Mr. Chairman. We have no objection to the amendment, and we thank the gentleman for offering it.

Mr. GILMAN. Mr. Chairman, I am pleased to offer this amendment for myself and on behalf of my colleague from Louisiana, [Mr. HUCKABY], the distinguished chairman of the Agriculture Subcommittee on Cotton, Rice, and Sugar.

The first portion of this amendment in essence contains the President's food for progress proposal. It authorizes the President to provide Public Law 480 commodities on a loan or grant basis to encourage countries to undertake agriculture reforms based on free market principles.

The Presidential proposal recognizes that a key obstacle in the war on hunger in many developing countries has been governmental policies which discourage or fail to provide incentives to the farmer. This amendment gives the President an additional, important tool to assist countries who are trying to build up their food production through the stimulus of economic freedom for their farmers.

The gentleman from Louisiana [Mr. HUCKABY] has made a particular contribution to this amendment by authoring a provision which allows commodities from the CCC's section 416 donation program also to be made available for food for progress. I am pleased to be associated with Mr. HUCKABY in this proposal.

The second part of my amendment provides for the use of Public Law 480 concessional sales aid in ways which would stimulate local private enterprise. It authorizes Public Law 480 agreements under which the recipient government will loan the local currencies it gets from the sale of those commodities to financial intermediaries such as local banks.

The intermediaries then will loan the money to businesses and other private entities in-country for economically productive activities.

When we see the chronic food deficits in many developing countries today and most tragically being demonstrated in Africa, we know we must do all we can to attack the hunger problem and to help these countries to help themselves. One means is to help stimulate free market systems for their farmers and the natural productive impetus of private enterprise.

It is my understanding that the executive branch agencies which would be administering the programs are supportive of this amendment. It does not add to the costs of their budgets. A similar amendment was passed by the House in July as part of the foreign aid bill, but could not be dealt with in conference at that time. Accordingly, I urge that it be included in this bill so we can take it to the Senate.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New York.

The amendment was agreed to.

AMENDMENT OFFERED BY MR. ROTH

Mr. ROTH. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment Offered By Mr. ROTH: Page 274, after line 18 insert the following:

TRADE LIBERALIZATION

SEC. 1132. (a) Congress finds that—

(1) the present high level of agricultural protectionism contrasts sharply with the general trade liberalization that has been achieved since the inception of the General Agreement on Tariffs and Trade (hereinafter referred to as "GATT");

(2) GATT procedures should explicitly recognize the protective effect of domestic subsidies that alter trade indirectly by reducing the demand for imports and increasing the supply of exports;

(3) current rules make a distinction between primary and manufactured products, and this allows for agricultural export subsidies;

(4) the rule that permits export subsidies on primary products that do not result in inequitable market shares has proven to be unworkable; and

(5) a unified treatment of tariffs and subsidies would clarify trading rules for market participants and simplify trade negotiations.

(b) It is the sense of Congress that the President should negotiate with other parties to GATT to revise GATT rules so that agricultural export subsidies would be treated the same as tariffs and primary products the same as manufactured products.

Mr. ROTH. (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The CHAIRMAN. The Chair would inquire if the amendment has been printed in the RECORD as of September 24.

Mr. ROTH. It has, Mr. Chairman.

The CHAIRMAN. The gentleman from Wisconsin [Mr. ROTH] is recognized for 5 minutes.

Mr. ROTH. Mr. Chairman, when GATT was negotiated after World War II it was to reduce the barriers of trade between industrialized nations. For various reasons agriculture did not receive the same consideration as manufactured goods. What does my amendment do? It will put agriculture and manufactured goods on an equal footing in GATT. This amendment is particularly timely as we are now preparing the new priorities for the new round of negotiations at GATT, and we are asking the administration to give this priority to agriculture.

My amendment by giving added consideration to agriculture will reduce those barriers that now exist.

If we lower the barriers, Mr. Chairman, we are going to be able to export many more agricultural products.

With a trade deficit of $150 billion this year and agriculture being the United States No. 1 export, I think it is preeminently the time for us to consider this amendment and give this added priority to agriculture. I feel confident that our negotiators at the GATT will welcome this amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Wisconsin [Mr. ROTH].

The amendment was agreed to.

AMENDMENT OFFERED BY MRS. SMITH OF NEBRASKA

Mrs. SMITH of Nebraska. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mrs. Smith of Nebraska: On Page 274, line 19, strike Subtitle D and all that follows therein and insert in lieu thereof the following:

"Subtitle D—Transportation Charges for Waterborne Cargoes of Donated Commodities

LIMITATION ON REQUIREMENTS

SEC. 1141. Section 5 of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c) is amended by adding at the end thereof the following: 'Export activities of the Corporation under this Act and activities of the Corporation or the Department of Agriculture to promote the export of agricultural commodities under any other Act shall not be subject to cargo preference requirements.'."

Mrs. SMITH of Nebraska. Mr. Chairman, this amendment was printed in the RECORD prior to September 24.

Mr. Chairman, I offer this amendment to title 11 of H.R. 2100, to exempt all agricultural exports from cargo preference requirements.

Mr. Chairman, the Cargo Preference Act of 1954 requirement that 50 percent of Government-sponsored cargoes be shipped on U.S.-flag bottoms sounds like a good idea until one learns that U.S.-flag ships cost two to four times as much as foreign-flag vessels, and the taxpayer, through the Department of Agriculture, is required to make up the difference.

This policy has had the effect of putting the cost of supporting the merchant marine on the backs of our American farmers—and poor, starving people around the world. Frankly, neither group can afford it.

In February of this year, due to a U.S. district court decision, cargo preference requirements were expanded from Public Law 480 to our Blended Credit Program. This would have at least tripled the net Government cost of the Blended Credit Program, and not surprisingly, the Department of Agriculture suspended the program's operation.

As a result, more than $500 million dollars worth of wheat and wheat product exports were lost, contributing to the 50-percent drop in wheat exports this season. Now we have word that the maritime interests will press for court action to expand cargo preference to our $5 billion Credit Guarantee Program, along with the Export Bonus Program. These actions would have the effect of expanding cargo preference to at least 20 percent of our agricultural exports.

Meanwhile, this year we will spend $155 million of Public Law 480 food for peace—money intended to feed starving people around the world—to pay shipping subsidies. Unfortunately, I must also report that during the recent famine crisis in the sub-Saharan, U.S. shipping companies increased the subsidies that they charged the Government as much as 186 percent—to the detriment of people who needed the food desperately. If cargo preference requirements had not applied for food aid shipments, we could have sent a pound of wheat per day to 5 million more people.

Mr. Chairman, this is an issue of fairness. Cargo preference payments to a handful of shipping companies will add up to $80,000 per crew member of U.S. bulk carriers. According to the Department of Agriculture's latest figures, the approximate average income for our 2.4 million farms this year will be about $10,000—including commodity price supports.

Mr. Chairman, the issue of cargo preference has provoked sharp, acrimonious debate. I know that Members of the House who are on the other side of this issue feel strongly about the importance of the merchant marine and are convinced that this effort will destroy the vitality of the merchant marine.

Yet if we need a strong merchant marine, which I feel we do, why are we placing it on the back of hungry people and our farmers? If funded anywhere, this should come from the Department of Transportation—or the Department of Defense.

Moreover, 31 years of cargo preference have given us anything but a strong merchant marine. To the contrary:

First, the U.S. merchant fleet shrank from 3,000 privately and Government-owned ships in 1955 to a fleet of 650 in 1984.

Second, in 1983, the average age of American ships was an average age nearing that of the normal useful lifespan of merchant vessels. The United States had three times as much merchant ships 30 years and older as any other country.

Third, as a result of the advanced age of these ships, our merchant fleet's safety record is very poor. Between 1963 and 1983, more than 350 seamen died in major accidents on old ships operating beyond their productive life.

□ 1420

The CHAIRMAN. The time of the gentlewoman from Nebraska (Mrs. SMITH) has expired.

(By unanimous consent, Mrs. SMITH of Nebraska was allowed to proceed for 1 additional minute.)

Mrs. SMITH of Nebraska. Mr. Chairman and colleagues, is this the record we want to continue—and compound—while victimizing American farmers

and desperately hungry people abroad?

Let me read a few editorial opinions on this issue from across the country:

Wall Street Journal editorial of May 24, 1985—"Repeal the Cargo Preference Act."

Washington Post editorial of July 20, 1985—"Who in Congress will come forward to take on this fight and earn the credit for . . . unraveling the maritime subsidy system?"

New York Times editorial of July 16, 1985—"It makes no sense to prolong the uneconomic old regulations just to atone for extravagant subsidies of the past."

Fellow members of the committee, join the congressionally established National Agricultural Export Commission, Interfaith Action for Economic Justice, Bread for the World, and virtually every farm organization in supporting this amendment. The choice is yours: Vote here for farmers and the hungry around the world—or sound the death knell to any Federal effort to bring American agriculture back to the world marketplace.

Mr. LEACH of Iowa. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the amendment.

Mr. Chairman, I would just like to stress that cargo preference makes a victim of the African child as surely as it does the farm producer.

Last year, for instance, the cost of cargo preference alone, if applied to our foreign aid program for the transfer of wheat and soybean oil, would have fed 480,000 more Ethiopians 1 pound of wheat and 1 ounce of soybean oil per day per year.

Farm interests alone are not the only ones who are concerned with this issue. The Grace Commission has indicated that elimination of cargo preference on agricultural transfers would save $1 billion over a 5-year period.

As we all know, this is a classic issue where government intervention has produced counterproductive results. The gentlewoman from Nebraska has pointed out how our merchant marine has suffered under Government intervention. In addition, the provisions of this law have provided such stilted incentives that it has been revealed recently in the press that in several instances American shippers have used old vessels, taken grain to Africa, and then sunk them. That does not provide jobs for the American merchant marine. That provides a subsidy to a very few in the shipping industry.

All I would suggest is that adoption of this amendment could be a first step not only to balancing our trade but also balancing our budget and bringing a little more fairness into our economy and a great deal more fairness into our foreign policy.

I would urge adoption of the Smith amendment.

Mr. DORGAN of North Dakota. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise to discuss the amendment that has been offered by the gentlewoman from Nebraska. I think that this discussion today on cargo preference is appropriate, because this is a program that has been in existence for some time and we need to review it. The gentleman from Iowa just demonstrated what it costs. We need to continually evaluate programs by asking: What does something cost, and what do we get for that cost?

Mrs. BENTLEY. Mr. Chairman, will the gentleman yield?

Mr. DORGAN of North Dakota. I yield to the gentlewoman from Maryland.

Mrs. BENTLEY. We are talking about costs. What is the cost of the Farm Program? What is the subsidy of the Farm Program per year? Forty billion dollars. And how much is the subsidy to the merchant marine in a year? Less than $400 million.

The gentlewoman from Nebraska was talking about how much more food could have been taken to the hungry in Ethiopia. Very true. But if we had bought the food in Argentina, we could have fed even that many more people.

I think we have to remember some of those things.

Mr. DORGAN of North Dakota. Let me reclaim my time.

I appreciate your interest, first of all, the cost of the Farm Program is nowhere near the $40 billion represented by the gentlewoman. The total cost of the commodity portions of the Farm Program, I think around $11 billion per year as I recall. But that is not what we are discussing here today. What we are discussing is cargo preference.

The gentleman from Iowa [Mr. LEACH] I think made a very important point. Another way of expressing the same point is to say that on Food for Peace shipments, Public Law 480, one-tenth of that which should end up as grain in the mouths of someone who is hungry somewhere around the world does not end up feeding those hungry people. It ends up instead in a cargo preference payment.

I think that is what the gentlewoman from Nebraska is trying to say with her amendment.

I know there are going to be other amendments offered today to try to compromise this. I am just saying that I think cargo preference is something that we fundamentally ought to reevaluate. We attempt to use our money in Public Law 480 and in blended credit programs to serve other markets. In the case of Public Law 480, it is particularly to try to move food to people in this world who are hungry and who desperately need it. And I think any program that diminishes our ability and our willingness to move food to hungry people ought to be evaluated very carefully by this House.

We never had a very good or full productive discussion on the merits of cargo preference, that is, costs versus benefit; and I think that is what the gentlewoman from Nebraska [Mrs. SMITH] is asking us to do today with her amendment. I am glad she introduced the amendment, and I think at the conclusion of this kind of a discussion the statistics and information offered just prior to my discussion by the gentleman from Iowa [Mr. LEACH], and others, will demonstrate that this House needs to rethink its position on cargo preference.

The Supreme Court decision has, I guess, forced all of us to reevaluate some of the position on cargo preference, inasmuch as they extended it far afield from Public Law 480.

I just want to say that I appreciate your bringing this issue to the floor of the House and I hope this leads to a constructive approach in the future to enhance our ability to move what we produce in such great abundance to those who need it so desperately around the world.

Mr. LENT. Mr. Chairman, will the gentleman yield for a question?

Mr. DORGAN of North Dakota. I yield to the gentleman from New York.

Mr. LENT. I want to first of all commend the gentleman. I think some of the statistics that the gentleman is using seem to be at least reasonably accurate. I think the gentleman said that 10 percent of the cost of some of these agricultural programs are allocated to the Cargo Preference Program; is that correct?

Mr. DORGAN of North Dakota. What I said was that about one-tenth of the Public Law 480 funds are used for cargo preference. That is, an additional 10 percent of the food would get to those who are hungry under Public Law 480 if we were to use it for food rather than cargo preference. That is what I intended to say.

Mr. LENT. Now, when I heard the author of the amendment, the gentlewoman from Nebraska, speaking, she said, as I recall, that cargo preference requirements triple the cost of agricultural exports. It would seem that that is sort of an exaggeration. Perhaps we can have some clarification from the gentlewoman.

Mr. DORGAN of North Dakota. I would be happy to yield to the gentlewoman from Nebraska [Mrs. SMITH].

Mrs. SMITH of Nebraska. The cost to the Government on blended credit. That was in my statement.

Mr. DORGAN of North Dakota. Let me reclaim my time and say that the gentleman can get his time and properly question the gentlewoman from Nebraska. I think that the discussion about blended credit is an appropriate

discussion. I was talking about Public Law 480 particularly, but, as you know, cargo preference has been extended now to blended credit, so we are facing a different kind of situation which causes the need to reevaluate what cargo preferences are at this point and what we ought to do about them.

The CHAIRMAN. The time of the gentleman from North Dakota [Mr. DORGAN] has expired.

(On request of Mr. LENT and by unanimous consent, Mr. DORGAN of North Dakota was allowed to proceed for 2 additional minutes.)

Mr. LENT. If the gentleman will yield, on the Blended Credit Program, my understanding of the way that program works is, it was approximately a $550 million program; is that the gentleman's understanding?

Mr. DORGAN of North Dakota. We could ask the subcommittee. I believe that is the case.

Mr. LENT. And the amount of that Blended Credit Program which would have been allocated to cargo preference was roughly $40 million; is that the gentleman's understanding?

Mr. DORGAN of North Dakota. Well, if the gentleman wants to visit with the gentlewoman from Nebraska concerning the statistics she offered, you are perfectly welcome to do that. In fact, the gentlewoman from Nebraska is ready to answer the gentleman's question, and I would be glad to yield to her.

Mrs. SMITH of Nebraska. I would like to answer the question, and I would like to do it by reading what the Secretary of Agriculture said about it so it will be very clear:

The U.S. Department of Agriculture estimates that, without cargo preference costs, the blended credit treatment of the contracted shipments under the program would incur a net cost of $23 million. However, cargo preference costs would add $45 million in Government outlays—driving the total cost to $68 million or nearly tripling the cost of the program.

Mr. DORGAN of North Dakota. I would be glad to yield to the gentleman if he wishes to inquire further of the gentlewoman from Nebraska.

Mr. LENT. I thank the gentleman for yielding.

I think it is important that we define our terms before we begin what may be a rather interesting and animated debate.

□ 1435

But what the gentlewoman is saying now, as I understand it, is that it would triple the cost to the Government of cargo preference if cargo preference were to be applied to the Blended Credit Program.

Mrs. SMITH of Nebraska. Right.

Mr. LENT. The gentlewoman acknowledges that the Blended Credit Program was overall something in the order of a $550 million program.

The CHAIRMAN. The time of the gentleman from North Dakota [Mr. DORGAN] has expired.

(On request of Mr. LENT and by unanimous consent, Mr. DORGAN of North Dakota was allowed to proceed for 2 additional minutes.)

Mr. LENT. Mr Chairman, will the gentleman continue to yield?

Mr. DORGAN of North Dakota. I yield to the gentleman.

Mr. LENT. I thank the gentleman.

That the Blended Credit Program was about a $550 million program and that the cargo preference that would have been paid on that program had the Secretary of Agriculture not chosen to suspend the program as a result of that court decision, would have been on the order of $40 million out of that $550 million.

Is that a correct statement?

Mrs. SMITH of Nebraska. If the gentleman from North Dakota would yield, the Secretary terminated that program which would have given shipping companies $2 worth of subsidies for every $1 of expected reduction in export prices. That is why the program was no longer affected because of the high cost of cargo preference.

Mr. DORGAN of North Dakota. Let me reclaim my time at this point; the gentleman can have ample opportunity to get his own time.

Mr. Chairman, I think the gentlewoman from Nebraska has described precisely her estimate of what the costs would be under the Blended Credit Program. That is, the increased costs that cargo preference places under the Blended Credit Program. That is the point the gentlewoman was trying to make, and I think she has made it clear to me and clear to the rest of the Members in this Chamber. I appreciate the gentleman's inquiries. I feel very strongly about cargo preference; that this is the time for us to reevaluate this program. Again, I'm pleased that the gentlewoman has offered her amendment.

Mr. Chairman, the recent series of articles in the Washington Post titled "Disaster at Sea: Our Sinking Maritime Fortunes," made it clear that the Federal subsidies directed at our domestic shipping industry have not achieved their intended goal. The U.S. merchant fleet shrank from 3,000 privately and Government-owned ships in 1955 to 650 in 1984. One hundred fifty of these remaining vessels are of World War II vintage. The percentage of cargo shipped by U.S.-flag vessels has decreased from 43 percent in 1950 to 3.5 percent. And, the safety record of U.S.-flag ships is deplorable. More than 350 seamen died in accidents on aging vessels between 1963 and 1983.

All of these statistics indicate that it is time to rethink our approach to the domestic shipping industry. Among the issues that should be explored is the application of cargo preference requirements—which state that 50 percent of all Government-sponsored cargoes must travel on U.S. bottoms—to our food aid and blended credit programs.

Personally, I believe that this program overall has become counterproductive. One of its main goals is to maintain a domestic shipping fleet to call upon in times of national emergency. Not only has our domestic fleet drastically declined, but our Navy has increased its ship numbers. The Washington Post noted in an editorial this summer that the national security argument "collapses under scrutiny. The Reagan administration has been increasing the Navy's supply of cargo ships, and the U.S. Government in time of war would have access to the hundreds of ships owned by U.S. companies and registered under Liberian and Panamanian flags of convenience."

But perhaps the strongest argument for abolishing cargo preference is its negative impact on the amount of food we can ship to hungry people under our food aid programs. The expected fiscal year 1985 cost of cargo preference under the Food for Peace Donation Programs is $155 million, or about one-tenth of the total Food for Peace budget. If food aid shipments were exempted from cargo preference, the added funds could be used to provide additional help. That $155 million cost is enough to provide 1 pound of wheat per day for a year to nearly 5 million people. And I won't even touch on the sorry situation of the increase in shipping rates on U.S.-flag bottoms during the recent famine crisis in Africa.

For all these reasons, Mr. Chairman, I believe it is time to reexamine the role of cargo preference in our food aid and blended credit programs. If we cannot abolish it entirely, then I support the compromise position contained in the amendment offered by my colleagues, Mr. ENGLISH and Mr. ROBERTS. This amendment returns cargo preference requirements to those in existence before the U.S. district court decision this summer, which extended cargo preference rules to USDA's blended credit programs. The impact of this decision on our already-depressed farm exports was devastating—the National Association of Wheat Growers estimates that $13 million worth of wheat exports have been lost per week as a result of the court decision.

Mr. Chairman, let's supply some common sense to the cargo preference program. If we decide that it is necessary for our national security, then the Department of Defense or the Maritime Administration under the Department of Transportation should pay the cost—not our family farmers, who are already struggling to survive under the worst economic conditions seen in farm country since the Great Depression.

Mr. LIGHTFOOT. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I, too, would like to congratulate the gentlewoman from Nebraska for her amendment, and I would like to associate myself with the

remarks of our colleague from the Dakotas.

I think possibly sometimes we are accused of having vested interests. I am going to talk about wheat, which is in my colleague, Mr. ROBERTS' State. We do not raise much wheat in Iowa; about the only wheat we have there is already put into a loaf of bread. If you look at what has happened since the court decision back in February of this year, USDA terminated many of its programs because of the cargo preference rule.

The estimate from USDA was that the blended credit treatment of the contracted shipments was roughly 3.6 million metric tons, it lowered the effective price by about $6.40 per metric ton, which is a total cost to the Government or, more precisely, to the taxpayers of this country of approximately $23 million. It also, by giving a $6.40 per metric ton disadvantage to American wheat, priced us out of the market. Due to the position that our dollar is in in the world markets, we are priced out in many places anyway. We certainly do not need that kind of a kick in the teeth to continue to take markets away from us.

The costs were estimated to be $44.8 million. So the cost of shipments to the U.S. taxpayers would be tripled by the cost of cargo preference. I do not think that is what we want to do and where we want to go. I think we need a good, strong Merchant Marine, but I do not know that we need it at these kinds of prices to the people that are being charged those prices.

It looks like, from USDA figures, that 536 million dollars' worth of wheat and wheat flour exports have been lost since February 26. We have been arguing for a farm bill and we are trying to help with the situation where farmers are losing money every day, and then we take 536 million dollars' worth of exports away from them so that we can subsidize some shipowners.

Other figures also would indicate that we are subsidizing the shipping industry to the tune of about $42,000 per person. That seems to me to be a bit excessive. I will offer some amendments later to try and create better trade relations by mixing commercial sales with Public Law 480. But if cargo preference remains a part of this package, I think we can just kiss those things goodbye.

The Public Law 480 Program was designed to help people who are in need, and we are basically, as Mr. LEACH mentioned a moment ago, taking the food out of the mouths of hungry people to subsidize an industry. I do not believe that is what we intended to do and what we are here for.

Mr. SNYDER. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I oppose the amendment offered by the gentlelady from Nebraska, in the strongest possible terms. In fact, Mr. Chairman, I oppose the fact that we're having this debate at all, under these circumstances, for I agree with the sentiments of those who argue that the farm bill is not the place in which to decide the future applications of the Cargo Preference Act of 1954. Nevertheless, some of those who have helped formulate this bill, which serves the American farmer to the tune of $130-odd billion in outlays over the next 5 fiscal years, have chosen to go to war with the merchant marine over a program which may call for $500 to $600 million in Federal outlays over the same 5-year period. In the context of this bill, that's pretty small peanuts or potatoes, whichever you prefer.

Cargo preference is no harm to the American farmer; let's set the record straight on that right now. The farmer doesn't pay the ocean freight differential it costs to transport Government-impelled commodities on U.S.-flag ships; the U.S. Government pays those charges, at rates which are steadily declining. The farmer didn't lose some $530 million worth of grain exports under the suspended Blended Credit Program because of cargo preference; he lost those exports because the Secretary of Agriculture decided to take his ball and go home rather than play by the rules of the game, as a Federal judge determined them to be.

There's another myth about this debate in need of some clarification. The people behind the scenes who want to kill cargo preference generally aren't the American farmers. In fact, a great many of the farmers' and growers' groups joined with the maritime industry earlier this year in a concerted effort to develop a meaningful compromise on the issue, and in fact they did develop an alternative worthy of consideration—not here, but in committee. What they did not do, however, was curry the favor of the people who want to do away with cargo preference—the same people who killed that compromise effort, and who have about as much in common with the American farmer as Jane Fonda, Cissy Spacek, and Jessica Lange.

The people I'm talking about are agribusiness, emphasis on the "business". These are the international grain traders, whose best interests are served by buying American farmers' grain at the lowest possible prices and selling it on the export market for a tidy profit. The list is right here, appended to a letter from the Secretary of Agriculture. They are huge, multinational, closely held corporations whose business is their own and no one else's.

I have with me wire service stories about one of these multinational agribusinesses whose concern for the American farmer is so great that just a few short months ago, in January 1985, this booster of American agriculture proposed to buy 25,000 tons of Argentine red wheat for import into the United States. I have another wire service story about a proposed soybean oil purchase. I ask you, who's kidding whom? Saying that these people represent the American farmer is like saying that Toyota represents the American autoworkers.

You've heard the facts and figures in support of the Merchant Marine and Fisheries Committee's position on cargo preference. I thought it was about time you heard the rest of the story too. Don't blame the U.S. Merchant Marine for the sad plight of the American farmer, and don't kid yourself that a vote for the gentlelady's amendment is a vote for the farmer. It isn't—I know it, they know it, and now you know it.

I urge a "no" vote on the amendment.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. SNYDER. I yield to the gentleman from New York.

Mr. LENT. I thank the gentleman for yielding.

Mr. Chairman, I wonder if the gentleman could clarify some of the allegations or charges that have been made that the cargo preference program triples the cost of the agricultural blended credit program. What are the facts on that?

Mr. SNYDER. Any additional costs that my be involved is paid by the U.S. Government; not by the farmer. The ODS subsidy is the labor differential picked up by the Government subsidy program.

□ 1445

There is a cost to keep the merchant marine viable and moving.

Mr. LENT. Is that cost not, as the gentleman said earlier, about 10 percent of the cost of the agricultural program in toto?

Mr. SNYDER. Oh, in toto, their total program is, as I understand it, some $130-odd billion in this bill as an outlay over the next 5 years. The ODS has estimated $500 to $600 million in the same period.

The CHAIRMAN. The time of the gentleman from Kentucky [Mr. SNYDER] has expired.

(On request of Mr. ROBERTS, and by unanimous consent, Mr. SNYDER was allowed to proceed for 1 additional minute.)

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. SNYDER. I yield to the gentleman from Kansas.

Mr. ROBERTS. Mr. Chairman, if I could respond to the gentleman, I wanted to point out that the reason

we planted the cargo-preference flag in the Subcommittee on Department Operations, Research, and Foreign Agriculture and in this farm bill is that we amended section 5 of the Commodity Credit Corporation Charter Act. Now the CCC is clearly within the jurisdiction of the Agriculture Committee. In addition, the maritime subsidy that you refer to, that is, cargo preference on Public Law 480 shipment and section 416, is paid for out of Department of Agriculture funds. Those are budgeted funds. You have a limit on those budgets.

If the gentleman would continue to yield on only one other point, if we pay for it and it is charged against our budget under our jurisdiction, I think the Rules Committee should have left the Agriculture Committee's language standing, and certainly we ought to be able to at least discuss this issue during this time when we are trying to export more of our products.

Mr. SNYDER. Well, the Rules Committee made its decision, and I am not arguing with the Rules Committee. I am sorry the gentleman is. We are discussing it on your bill.

Mr. SCHUETTE. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the amendment.

Mr. Chairman, I rise in support of the amendment offered by the gentlewoman from Nebraska [Mrs. SMITH] for three reasons:

No. 1, the language of the Agriculture Committee that was in the committee bill that was presented and was going to be presented to this House was removed by the Rules Committee. I think that is unfair because in its place what we see now and what we are debating here this afternoon is an expanded cargo-preference concern.

I rise in support of the gentlewoman's amendment for a second reason. I think by supporting this amendment we can help needy, hungry people across this world.

Third, I rise in support of the Smith amendment because we need to help farmers in the middle of an export depression. Farmers today, American agricultural producers, are not participating on a level playing field. It is tilted against the agricultural producer. It is tilted against the farmer because of the strong value of the dollar, and it is tilted against the farmer because of heavy foreign subsidies. Those two factors mean that we are not price competitive in export markets.

The third reason the American agricultural producer is participating on an unfair, unlevel playing field is because of cargo preference.

Let me say that I have no bone or quarrel to pick with the maritime industry or the maritime unions or my good friends and colleagues on the Committee on Merchant Marine and Fisheries, but right now American farmers are in this export depression, and cargo preference means an increased cost to our product when we ship in overseas markets.

I have some facts and figures that I have reviewed, and there are two instances here that I want to cite of sorghum being shipped from Corpus Christi to Port Sudan. A U.S.-flag vessel was to transport 36,000 metric tons of sorghum at a rate of nearly $80 a ton. A foreign line, with 14,000 metric tons, was shipping at a rate of $29 per metric ton. That is 170 percent higher. That is almost $50 per ton more, and that means that the farmer is getting hit in the jugular at a time of great, great stress.

That specific example I share here with my colleagues means an additional cost to American taxpayers to ship the sorghum on an American vessel of almost $1.8 million.

To continue my comments on the export depression, from 1981 through 1984 we have seen exports decline from $44 to $38 billion—almost a 14-percent decline.

In 1983 we saw American wheat and coarse grains capturing 96 percent of the South Korean market. Now we see that dropping to 76 percent.

Cargo preference, I contend, is a major part of that problem. It is not the sole part, but a major part.

So, Mr. Chairman, I urge my colleagues to vote for the Smith amendment to help the farmer, to boost exports, and to try to give American agricultural producers the opportunity to participate on a level playing field. If it is a level playing field and a fair playing field, American farmers, I am convinced, can outcompete and beat anybody, any nation on the face of this Earth.

Mr. BIAGGI. Mr. Chairman, will the gentleman yield?

Mr. SCHUETTE. I am happy to yield to my colleague, the gentleman from New York.

Mr. BIAGGI. Mr. Chairman, I thank the gentleman for yielding.

The gentleman said that cargo preference is the cause or the chief cause of the problem. How is that a cause of the problem?

Mr. SCHUETTE. Just so there is no misunderstanding, I said that cargo preference was a cause, in conjunction with the very strong and high value of the dollar and foreign subsidies. Those are three parts, three integral aspects of that unfair, unlevel playing field I spoke about.

Mr. BIAGGI. How does cargo preference reflect itself in the price?

Mr. SCHUETTE. I am happy to answer that question. I have before me a note from some good friends and representatives of the American Soybean Association, taking as their source the Journal of Commerce, stating that the costs per metric ton were increased from a foreign vessel. I think that is part of the problem when we are trying to ship and move and market our grain in foreign markets. That would be my opinion.

Mr. BIAGGI. Mr. Chairman, will the gentleman continue to yield?

Mr. SCHUETTE. I am happy to yield to the gentleman from New York.

Mr. BIAGGI. I think it has been pointed out several times, and I am sure it will be pointed out again and again and again, that the fact of the matter is that the extra cost is assumed by the Government and does not reflect itself in the cost or the price to the farmer. So it is not quite the way it is portrayed.

Mr. SCHUETTE. I would respectfully state that when we are trying to market and move and ship our product, the added cost or the end cost to foreign exporters wishing to purchase our products is increased because of cargo preference. That is an added burden that the American producer does not need.

The CHAIRMAN. The time of the gentleman from Michigan [Mr. SCHUETTE] has expired.

(By unanimous consent, Mr. SCHUETTE was allowed to proceed for 1 additional minute.)

Mr. HUCKABY. Mr. Chairman, will the gentleman yield?

Mr. SCHUETTE. I am happy to yield to my friend, the gentleman from Louisiana.

Mr. HUCKABY. Mr. Chairman, I thank the gentleman for yielding.

I would like to point out to my colleague, the gentleman from New York, that the Department of Agriculture does have limited funds, and under the recent court decisions, as the gentleman knows, our GSM-102 and -105 lending credit programs have virtually ceased as such. That has clearly acted as a detriment to shipments of American agriculture. Thus they would have the ability to help these countries, but we no longer have this ability as such under present arrangements. I think the gentleman would agree with this.

Mr. BIAGGI. Mr. Chairman, will the gentleman yield?

Mr. SCHUETTE. I am happy to yield to the gentleman from New York.

Mr. BIAGGI. Mr. Chairman, we are aware that Secretary Block has halted the entire program, but that is his responsibility. He has done it. Let him comply with the law, and that program will be forthcoming. What he has done, he has taken a very arbitrary and capricious action, as defined by the judge in this case. His action was arbitrary and capricious. Anyone can halt the program.

The CHAIRMAN. The time of the gentleman from Michigan [Mr. SCHUETTE] has expired.

(On request of Mr. HUCKABY, and by unanimous consent, Mr. SCHUETTE was allowed to proceed for 30 additional seconds.)

Mr. HUCKABY. Mr. Chairman, will the gentleman yield?

Mr. SCHUETTE. I continue to yield to the gentleman from Louisiana.

Mr. HUCKABY. Mr. Chairman, if I might respond to the gentleman from New York, you cannot appropriate money to a particular program when the funds are not available. I do not think you can blame the Secretary of Agriculture in this instance. Clearly, if we are going to subsidize American ships, the Department of Transportation should be paying for this.

Mr. SCHUETTE. Mr. Chairman, I urge my colleagues to vote in support of the Smith amendment.

Mr. BEREUTER. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the amendment.

Mr. Chairman, let me say to my colleagues that I rise in support of the amendment offered by my colleague, the gentlewoman from Nebraska [Mrs. SMITH].

Mr. CHAIRMAN, I rise in support of the amendment offered by the distinguished gentlelady from Nebraska.

Since January of this yer, there have been a number of controversial subjects which have occupied considerable time and attention of this Congress. First, the Federal deficit; second, the economic plight of America's farmers; and third, the famine situation in Africa.

There is, however, one issue within this farm bill which affects all three of these issues and that is cargo preference.

Cargo preference is a 1954 law that requires that one-half of all U.S. food-aid shipments be transported on U.S.-flag vessels. On the surface this seems like a patriotic, even sensible gesture on the part of the Federal Government to support the U.S. maritime fleet. In reality, however, cargo preference is a deceptive hoax that is being perpetrated on the American taxpayer while guaranteeing the U.S. maritime industry a captive shipping market and permitting flagrant price gouging by U.S. shippers. Cargo preference has, in reality, ripped off millions of dollars from the Federal Government, diverted food from the mouths of thousands of starving and malnourished people, resulted in the loss of hundreds of millions of dollars of commercial export grain sales and hurt America's farmers.

It is time, therefore, that we as Members of Congress put a halt to this hidden Government subsidy which benefits a handful of maritime shipping interests at the expense of thousands of U.S. farmers and millions of hungry people.

Cargo preference is certainly not a new issue. For over 30 years, cargo preference has been an albatross hanging around the neck of agriculture. Now, however, it also threatens thousands of people in Africa who are faced with starvation. As food-aid shipments to Africa have increased during this past year, so have the freight rates charged by U.S. maritime shippers to haul food aid shipments.

During 1985, approximately $109 million in cargo preference subsidies will be divided among fewer than 30 U.S. maritime shipping companies to haul Public Law 480, title I—bulk grain—shipments. More disturbing is that U.S. maritime shippers are taking advantage of America's stepped-up famine efforts toward the drought-ravaged continent of Africa.

From August 1984 through April of this year, the Department of Agriculture shipped on bulk vessels 548,000 metric tons of U.S. commodities under title II of the Food for Peace program to Ethiopia, Kenya, Mauritania, Mozambique, and the Sudan. U.S.-flag vessels have carried 336,500 metric tons of the title II commodities at an average cost of $95.92 per metric ton, while foreign flag vessels carried 212,000 metric tons at only $40.97 per metric ton. The subsidy to the U.S. fleet averaged $54.95 per ton and, so far, has totaled $18.5 million.

Thus, in shipments to just five drought-stricken African nations alone, the USDA has been forced to pay differential transportation costs to the U.S. merchant marine an amount sufficient to donate 1 pound of wheat, and 1 ounce of soybean oil per day for 1 year to 470,000 people!

For fiscal year 1985, the Department of Agriculture expects to have paid out $155 million in ocean freight differentials to U.S.-flag shipping companies to ship half of the commodities exported under both titles I and II of the Food for Peace Program. This amount is what U.S.-flag shipping firms will earn in excess of the rate charged by foreign vessels, and is enough money to buy in the United States and ship to Sudan or Ethiopia an additional 815,000 metric tons of wheat—enough to provide 1 pound per day for 1 year to over 4.9 million people!

Even the extra cost of carrying one, single famine-relief cargo aboard an American ship can subtract more than a million dollars from the budget of the food-relief program. Lately we've had an example of a $2 million differential on a single ship.

For example, a foreign ship operator bid $30.30 a ton, or $757,000, to transport a cargo of sorghum from Houston to the Sudan this year. Instead, the American ship *Spirit of Liberty* made the trip, charging $107 a ton, or a total of $2.69 million. That amounts to an indirect subsidy of $1.93 million from the U.S. famine-relief funds for the American ship on one voyage—enough money to buy 14,296 tons of corn, with the potential for feeding 54,000 Africans for 1 year!

Over the last 17 months—a period when world shipping costs have been in decline—American ship operators have increased their fees to carry emergency famine-relief cargoes by $6 million—enough money to feed 170,000 starving people in Africa for a year!

Those rate increases, when added to the already extraordinary cost of using American ships, have required the Government to spend $34 million more on transportation of African food aid than would have been needed if foreign vessels had been used.

If that money had not been diverted to American ship operators, it could have been used to purchase and transport enough corn to Africa to feed 960,000 starving people for a year!

American ship owners and operators say that higher unloading fees and delays at African ports have increased their costs of carrying famine-relief cargoes. But rates charged by foreign vessels to carry relief cargoes between the United States and African ports have not climbed even though the foreign ship owners face the same problems.

It is unfortunate, if not tragic, that American shippers have been able to increase their rates at a time when world shipping charges are in decline simply because they have a monopoly on a portion of the famine-relief trade.

It has been verified by the World Food Program in Rome, a U.S. agency that distributes American relief grain, that some American ship operators have increased their rates on various routes to Africa.

The higher American shipping charges have helped push the transportation budget for the emergency relief efforts of the Food for Peace Program up from 30 percent of the total emergency relief budget in 1984 to a projected 41 percent of the 1985 budget.

We have seen the difference in U.S.- and foreign-flag shipping rates rise from $11 per ton to $37 a ton in one year on liners—a type of cargo vessel. If that's not price gouging, I don't know what is.

According to officials of the World Food Program—United States lines has increased its rates to South Africa, where some relief cargoes are shipped for other points in Africa, from about $62.50 per metric ton in 1984 to $120 per metric ton this year following the bankruptcy of a competitor and the surge of relief cargoes.

Officials in both the Agriculture and State Department confirm that cargo preference requirements and competition for the lucrative food-relief trade—cargo preference currently ac-

counts for about 37 percent of all U.S. maritime income even though only 2 percent of all U.S. agricultural exports are hauled on U.S. ships—actually cause rates to go up because there are too many shippers chasing too few American-flag ships.

One of the arguments frequently made by supporters of cargo preference is that it assures a strong U.S. merchant marine for commercial and national security purposes. If maritime subsidies are good for national security and commercial trade, why is the cost being budgeted to the Agriculture Department? Last time I looked, we had a Defense Department to guard our national security, and a Transportation Department to look after the maritime industry among others. But for some reason, the cargo preference advocates prefer to keep the cost of their program hidden in the USDA budget.

In regard to national security argument, a review of Government ship records and cost data show that vessels supported by this cargo-preference legislation frequently are of limited national security value—and are so commercially uncompetitive that rates charged by U.S. bulk cargo carriers generally are double world rates, and frequently triple.

Most of the Nation's cargo-preference bulk fleet is composed of tanker and dry-bulk carriers. According to a 1984 Congressional Budget Office review of militarily useful vessels:

> Large tankers and dry-bulk carriers . . . are among the least useful ship types for military support.

A large number of America's liners are container vessels, commercially useful, but according to the Congressional Budget Office study:

> From a military standpoint, an old-fashioned, break-bulk freighter, with its loading booms and cargo nets, is usually more useful than a commercially efficient modern container ship that depends upon special port facilities for loading and off-loading.

From a commercial standpoint, cargo preference has been equally useless. After 30 years and expenditures over 1 billion dollars the United States can proudly point to a merchant marine fleet with nearly three times as many merchant ships 30 or more years old as any country. In 1983, the average of U.S. bulk vessels was 19 years, even though industry standards consider 20 years the normal useful life of a merchant vessel.

It is apparent that cargo preference subsidies have been milked by the maritime industry to maintain and keep old rust buckets afloat rather than build a modern merchant marine fleet. Many of the American ships chartered under the Government cargo-preference programs are old. Others are rated poorly, and are literally a safety hazard to those who serve on them.

For example, U.S. ships such as the *Spirit of Liberty, Cove Trader* and the *Golden Endeavor* have been given a 1 rating—the least favorable—by the Guide for Selection of Tankers, a respected publication used by the oil industry to rate the reliability of oil tankers. The best rating is 5.

Another ship, the *Inger,* a World War II—era tanker, was converted and enlarged in 1962 to carry bulk grain. This ship was of the same type and age as the *Marine Electric,* which sank in 1983 off the Virginia coast, killing 31 crew members. And, it is a near relative to the old converted World War II troop ship *Poet,* which sank in 1980, killing 34 crew members. According to Coast Guard records, the *Inger* reported difficulties in November 1984, "After explosion of main turbine and generator."

Reynolds Metal Co., the ship's owner, performed those repairs and did extensive work on the ship's rusted hull, and the *Inger* was cleared by the Coast Guard to carry grain to Kenya in February at a cost of $102 a ton—just short of triple the cost of a foreign bid of $34.75 a ton to carry the same cargo.

Ships such as the *Inger,* the *Spirit of Liberty,* the *Golden Endeavor,* and the *Cove Trader* carried famine cargoes this year and last at costs that, combined, were 9.45 million above prevailing world rates—enough money to buy a pound of corn each day for 260,000 people for 1 year.

In spite of the impact that cargo preference has had on the budget for our famine-relief efforts, and despite the fact that Congress has poured billions of dollars down a sinkhole to keep a rusting merchant marine fleet afloat, the real cause of recent uproar between farmers and maritime interests was the February 21 court decision by U.S. district court judge June Green who held that the USDA "blended credit" program was also covered by cargo preference requirements. The blended credit program was a $500 million commercial export promotion program until the February court decision. In response to the decision, the Secretary of Agriculture suspended over $500 million worth of grain sales rather than comply with cargo preference requirements.

At the time of the court decision the USDA had "leveraged" about $17 million into over $500 in commercial export sales. That in my opinion was money well spent because for every $1 million in agricultural exports, we create thousands of jobs and make a positive contribution to our balance of payments.

However, to comply with the February court decision on cargo preference, the USDA would have been required to spend an additional $40 to $60 million to ship the contracted grain. At that point, the blended credit program is no longer a viable program because: One, it's not cost efficient for the USDA, and two, it's not cost competitive with world prices.

What's been the result of the February cargo preference court case? Well, U.S. farmers have lost over $500 million in grain sales and the U.S. merchant fleet hasn't shipped one bushel of wheat or earned 1 cent. Many of these blended sales were to countries which have been traditionally good customers year after year. Since the decision, it is likely that these foreign markets may be lost permanently. Many of these markets for our agricultural exports have been cultivated by the efforts of the various commodity organizations in this country.

Are we wrong then to object to cargo preference, or, to the greedy attitude of the maritime industry? I don't think so. The point I wish to make is that this issue is not a fight which we picked. Rather, it was thrust upon us with little warning and no alternatives.

What does the maritime industry say in defense of the court decision to expand cargo preference?

They're saying that the court decision isn't really an expansion of cargo preference. But they're wrong—it is. Cargo preference has never applied to USDA's commercial export credit programs. Even grain shipped under direct export subsidies some years ago was not subject to cargo preference.

They're also saying that an attack on cargo preference is an attack on the maritime industry which cannot benefit farmers. Well, that's not quite right either. The court's cargo preference ruling certainly has hurt farmers. USDA has been forced to suspend the blended credit program because of it, and that's costing American farmer export sales. So rolling back that court decision certainly can help farmers.

Then they'll say that blended credit could go on if only USDA would let it; after all, the Government could simply pick up the cargo preference tab. Now, let's be honest; the extra shipping cost from cargo preference will be passed on to either: First, the overseas customer, in which case blended credit will simply cease to be of interest to our customers since they'll be able to buy cheaper elsewhere; or second, the U.S. taxpayer. The cost of paying cargo preference costs in 1985 for blended credit and the GSM-102 Credit Guarantee Program—which is threatened by the court ruling—would come to nearly $700 million.

Given or present deficits, asking the American taxpayer to cough up an extra $700 million a year just to accommodate the whims of a Federal judge is neither defensible, nor realistically achievable.

They'll say eliminating cargo preference won't increase America's farm exports. They're wrong. The blended credit was a $500 million program. Since cargo preference applied, it became a zero dollars program because the added shipping costs will make its credit terms unattractive. Preserving this and other export programs from cargo preference, then, certainly will allow the United States to export more farm products. That becomes even more clear when you look at the $5 billion GSM-102 Credit Guarantee Program, whose freedom from cargo preference the court ruling put in jeopardy.

If Congress does not exempt our commercial export programs from cargo preference requirements, I can assure you that everything we have done in this farm bill to rectify the problems in our agricultural economy will have been in vain.

Farmers today export 60 percent of their wheat, 50 percent of their soybeans and approximately a third of their feed grains. If our export markets are jeopardized by cargo preference, no domestic farm program will be of assistance to agriculture.

After the February court decision when I was reviewing the reasons why he had cargo preference and what it was costing us, I had a difficult time understanding why Congress had perpetuated cargo preference for so long. Then, someone brought to my attention the contributions made by the three major maritime political action committees.

The three major PAC's include the Marine Engineer's Beneficial Political Action Fund, the Seafarer's Political Activity Donation, and the Master, Mates and Pilots Political Action Contribution Fund. Cumulatively the three PAC's gave $2,443,910 to Presidential, Senate, and House candidates in the 1983-84 campaign cycle according to the Federal Election Commission. Of this amount, according to the FEC, $1,976,290—80.9 percent—went to Democratic candidates and $467,620—10.1 percent—to Republican candidates.

In a recent article in the Washington Post, entitled, "Disaster At Sea—Our Sinking Maritime Fortunes," July 18, 1985, it was noted that:" "When it comes to pure political strength, few can outmuscle the maritime unions." The Washington Post article makes some interesting points:

First, during the 1983-84 election season, the Seafarers' Political Action Committee poured $1.3 million into congressional campaigns, more than all but five other groups. What makes this remarkable is that the Seafarers have only 80,000 members.

Second, by contrast, among the top five money-givers, the National Association of Realtors has 650,000 members; the American Medical Association, 260,000; the National Association of Home Builders, 135,000; the United Auto Workers, 1.4 million; and the National Education Association, 1.7 million.

Third, the Marine Engineers Beneficial Association, with just 12,000 members, was No. 20 on the PAC list with $735,000 in contributions.

Fourth, other unions, from the Masters, Mates and Pilots International to the International Longshoremen's Association, also have considerable influence. And major shipbuilders such as General Dynamics have large and active PAC's.

I would again appeal to Members of this body that if you are concerned about providing more food-aid assistance to Africa, then they should support this amendment.

If Members are concerned about the state of our agricultural economy and our farmers, then you should support this amendment.

If Members are concerned about declining agricultural exports, then you should support this amendment.

And, if Members are concerned about the Federal deficit, then you should support this amendment and exempt all agricultural exports from cargo preference requirements.

Many of my colleagues who have maritime concerns within their districts may perceive this amendment as an anti-maritime amendment—but it is not. This amendment is a pro-farmer, pro-hunger relief and pro-deficit reducing amendment. If this amendment is defeated, then Congress will have planked a knife in the backs of our farmers, hungry people in Africa, and the American taxpayer.

If Congress wants to help the maritime industry—and it should—then let's do so in a separate piece of legislation—not the farm bill.

I think it is time that Members of Congress put a halt to this hidden Government subsidy. I underline the word, "hidden." I speak not necessarily against the concept of a subsidy but to the fact that it is hidden in the agriculture budget as a part of the Food for Peace Program. I think the cargo preference provisions benefit a handful of maritime interests at the expense of thousands of U.S. farmers and millions of hungry people.

The CHAIRMAN. The time of the gentleman from Nebraska [Mr. BEREUTER] has expired.

(By unanimous consent, Mr. BEREUTER was allowed to proceed for 2 additional minutes.)

□ 1500

As the Member has indicated, I am not opposed to subsidies for the maritime industry, but it ought not to come out of what the American people think they are spending for food to assist people around the world.

I think as I stand here, I have behind me the taxpayer, the starving people from around the world, especially in Africa, and I think I have the U.S. farmer standing behind me.

Now, why not have a straightforward approach? It has been said a few minutes ago that with respect to the blended credit programs, the Secretary arbitrarily and capriciously decided not to proceed. His judgment was and continues to be that we were noncompetitive when cargo preference requirements were applied to the blended credit program.

Mr. Chairman, I urge my colleagues to vote for the amendment to eliminate cargo preference in the Food for Peace Program.

Mrs. BENTLEY. Mr. Chairman, will the gentleman yield?

Mr. BEREUTER. I am pleased to yield to the gentlewoman from Maryland.

Mrs. BENTLEY. Mr. Chairman, the gentleman from Nebraska gave the figure of $109 million spent on agriculture cargo preference and the gentleman said it was only for 30 companies, I believe, but the gentleman did not get into how many seamen were affected by that, that there are nearly 35,000 seamen and that amounted to about $2,800 per seafarer in subsidies.

The CHAIRMAN. The time of the gentleman from Nebraska [Mr. BEREUTER] has expired.

(At the request of Mrs. BENTLEY, and by unanimous consent, Mr. BEREUTER was allowed to proceed for 1 additional minute.)

Mrs. BENTLEY. Mr. Chairman, if the gentleman will continue to yield, in that same year there was $34.9 billion spent on farm supports, and if you divided that among the 2.7 American farmers, it comes to $14,725 each, so there is a big difference.

I am not opposed to assisting the farmers, but I say they both need to be helped.

Mr. BEREUTER. Mr. Chairman, reclaiming my time, I agree with the gentlewoman, they both do need to be helped, but not through a hidden subsidy.

As for part of the merchant marine people that we are helping by the subsidy, they should be helped, but let us talk a little bit about what the Philadelphia Enquirer said about some of these merchant seamen. They calculated that some people in that category are making over $140,000 a year in wages.

Now, I am not suggesting that we ought not subsidize the merchant marine and help keep people employed, but we ought to do it directly up front by a direct subsidy in the DOT or the Defense Department budget.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. BEREUTER. I am pleased to yield to the gentleman from New York.

Mr. LENT. Mr. Chairman, the gentleman mentioned the Secretary of Agriculture's actions in the blended credit program, which we tried to establish.

The CHAIRMAN. The time of the gentleman from Nebraska [Mr. BEREUTER] has again expired.

(At the request of Mr. LENT, and by unanimous consent, Mr. BEREUTER was allowed to proceed for an additional 2 minutes.)

Mr. LENT. Mr. Chairman, will the gentleman continue to yield?

Mr. BEREUTER. I yield to the gentleman.

Mr. LENT. That was, as I understand it, about a $550-million program, of which roughly $48 million would have been allocated toward the cargo preference part of the program.

In suspending that program, the Secretary's decision meant that the American farmer lost $500 million, give or take a few, worth of sales.

The fact is as well that the USDA had the money in its budget at the time that program was suspended to pay the cost differential. That is a fact. It is in the budget, but they elected, the Secretary elected not to use it because he felt it would set a precedent and also he wanted to put pressure on Congress to change the cargo preference law, but really he shot the farmer in the foot.

Mr. BEREUTER. Reclaiming my time, Mr. Chairman, the person that shot the farmer in the foot was the judge when she made the decision that would make cargo preference provisions applicable to the blended credit commercial sales. The judge may have felt compelled to make that decision, but the Secretary has said the result is we are now noncompetitive. It does not matter how much money is authorized or appropriated. We are noncompetitive when you apply cargo preference to the blended credit program.

Mr. LENT. Mr. Chairman, if the gentleman will yield further, the cost of the cargo preference program is not passed on to the potential purchaser. The potential purchaser gets the benefit of the money out of the Department of Agriculture's budget spent to pay the cargo preference. No question it is a subsidy. We do not deny that cargo preference is a subsidy, but it is about less than 1 percent of the subsidy—what did someone say, $40 billion that is accorded to the agricultural community.

Mr. BEREUTER. Mr. Chairman, we are potentially talking about billions of dollars worth of commercial sales that are lost. If we are going to apply cargo preference across the board, we are talking about a lot of money, indeed.

Mr. QUILLEN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in strong opposition to the amendment, perhaps for many reasons, but most of all, why are we fighting? We are all for the farmers. We all should be for our merchant marine fleet. Working together, we can accomplish a common goal; but I do not see why the farm subsidy and the farm people are trying to destroy our merchant marine fleet. It is badly needed. Already the Russians are far ahead of us. Only a small percentage of products are carried on American bottoms, yet internationally the Russians have increased some 70 percent and we in our merchant marine fleet, American bottoms, have decreased by 43 percent.

When this measure was before the Rules Committee, I took exception to the Agriculture Committee, not any member of the Agriculture Committee. But under the jurisdiction of this House the merchant marine authorization, the merchant marine legislation, is under the jurisdiction of the Merchant Marine Committee.

Why should another committee try to pirate, to beat around the mulberry bush, to take away that authority? I think it is most unfair.

Let us hit it head-on. As I said, working together, we can accomplish a common goal. There is nothing wrong with the merchant marine language being the original language. Let the Agriculture Committee try to amend it, if they wish.

They are making an argument that I do not think is going to help the American farmer one iota, to destroy our cargo preference, to destroy our American bottoms and our American merchant marine fleet. I know it is so critical and so important.

I served in World War II. I served in the Atlantic and the Pacific, went into the Yellow Sea and was discharged from an aircraft carrier there and went to Sasebo, Japan, for a return to the United States. I did not return on a Navy ship. America provided merchant marine ships and I returned to the United States on a merchant marine ship.

Mr. Chairman, without the merchant marine fleet during World War II, we would not have been as successful as we were in providing the backup for a great U.S. Navy and for a great war effort.

I have heard the discussion on the floor about, what did it cost? The farm subsidy costs $18.4 billion. The merchant marine subsidy is eight-tenths of 1 percent of that figure. Figure it out in your own mind. What are we arguing?

We are all for the farmers. I am for the farmers. I am from a semirural area. Growing up as a young man, I worked on the farm. I know how it is.

I am also for the defense of this country and for a great merchant marine fleet. I do not intend to stand by, myself personally with one vote, to see it scuttled.

I oppose the amendment. I urgently request you to reconsider your views when you hammer away at American bottoms, trying to cut it even farther than it is and give the Russian flag and foreign flags an edge over American flags. I do not think it is right.

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. QUILLEN. I am happy to yield.

Mr. SMITH of Iowa. Mr. Chairman, I am really somewhat at a loss to know why the subject is before us in the present form. I think to start with, it is too bad that this subject is even involved in this agriculture bill, because it could help prevent us from securing votes needed to pass the bill and go to conference with the bill. It would be better if the subject matter had never been in the bill at all.

I also think that there is nothing wrong with paying some subsidies to the merchant marine, as long as it is out in front and we do not in any way interfere with the competition or affect the price of the product being moved, the sale of grain and so forth. Of course, that is the case under Public Law 480 program.

In the case of African relief, I remember specifically in our Subcommittee on Appropriations that we appropriated separate money so they could pay for the transportation.

The CHAIRMAN. The time of the gentleman from Tennessee [Mr. QUILLEN] has expired.

(At the request of Mr. SMITH of Iowa, and by unanimous consent, Mr. QUILLEN was allowed to proceed for 2 additional minutes.)

Mr. QUILLEN. Mr. Chairman, I yield to the gentleman from Iowa.

Mr. SMITH of Iowa. So, Mr. Chairman, what I want to know is, why did the Rules Committee make in order another approach to the cargo preference problem in this bill instead of just eliminating from the bill completely all reference to cargo preference.

Mr. QUILLEN. I cannot speak for other members of the Rules Committee, but as I recall, it was almost unanimous. We embraced the original language in the bill, rather than the agriculture language, which automatically amended the merchant marine provisions, so I think it was justified.

The burden then is not on the Merchant Marine Committee to prove that the Agriculture Committee was wrong. Now it is up to the Agriculture Committee to prove that the original language is wrong.

Mr. SMITH of Iowa. But would it not have been better to have no reference in this bill at all to cargo prefer-

ence and settle that matter in a separate bill instead of jeopardizing this bill—perhaps some people want to kill the bill but I don't believe a majority do.

Mr. QUILLEN. Historically, the Rules Committee does not delete language from a bill. We try to make it palatable in accordance with the existing policies of both committees.

I appreciate the gentleman's comments, but I do not think that is going to solve the problem we are faced with today. The problem is this amendment before us and I would hope that the gentlewoman would withdraw her amendment, because I think it is dead wrong to try to bring more destruction on to the merchant marine fleet than we now have.

Mrs. BENTLEY. Mr. Chairman, will the gentleman from Tennessee yield?

Mr. QUILLEN. I am happy to yield.

Mrs. BENTLEY. Mr. Chairman, I would like to commend the gentleman from Tennessee for his very eloquent statement regarding the importance of the American merchant marine, American ships manned by American seamen in times of crisis, and my hat is off to the gentleman from Tennessee.

Mr. QUILLEN. Mr. Chairman, I thank the gentlewoman.

Mr. Chairman, in closing, I would like to say, let us buy American instead of bye, bye America. We are all Americans. Let us realize our goals and our aspirations and go forward and defeat this amendment.

Ms. MIKULSKI. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, I would like to associate myself with the remarks made by the gentleman from Tennessee and not be repetitive.

I just want to make a few points. Everyone is concerned about the American farmers. We know that they are suffering, but the reason that they cannot export is because of the high value of the dollar, declining land values, low market prices, and huge crop surpluses.

In 1984, of 145 tons of U.S. agricultural products, only 2 percent was covered by cargo preference. The small amount of agricultural exports cannot be blamed on cargo preference.

I think it is a shame when one American worker is pitted against another American worker.

The amendment of the gentlewoman from Nebraska is ill-conceived. It is extremely poignant to see agriculture and merchant mariners pitted against each other. Both are in trouble. We should work together to resolve our trade problems that have crippled both farmers and the merchant marine. We are all hurt by the high value of the dollar and we should not seek to hurt one industry at the expense of the other.

We have lost merchant marine jobs. This amendment alone could mean as many as 6,000 more jobs lost.

We have already seen our shipbuilding industry decline. Again, since 1978, we have lost 27,000 jobs. We have already seen 2 million jobs exported overseas.

I would like to see us export food, not jobs. I would like to see us export democracy, not opportunity. As a result, I am going to oppose the Smith amendment and hope that my other colleagues also do.

□ 1330

AMENDMENT OFFERED BY MR. ENGLISH AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MRS. SMITH OF NEBRASKA

Mr. ENGLISH. Mr. Chairman, I offer an amendment as a substitute for the amendment.

The Clerk read as follows:

Amendment offered by Mr. ENGLISH as a substitute for the amendment offered by Mrs. SMITH of Nebraska: On page 275, strike lines 6 through 11 and insert in lieu thereof the following:

"LIMITATION ON REQUIREMENTS

"SEC. 1141. Section 5 of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c) is amended by adding at the end thereof the following: 'Export activities of the Corporation under this Act and activities of the Corporation or the Department of Agriculture to promote the export of agricultural commodities under any other Act shall not be subject to cargo preference requirements, except to the extent otherwise required for exports under the Agricultural Trade Development and Assistance Act of 1954.'."

Mr. ENGLISH. Mr. Chairman, I support the aims of the amendment offered by the gentlewoman from Nebraska [Mrs. SMITH]. I, too, feel that all agricultural exports should be free and clear from cargo preference legislation.

I also feel, however, that at this juncture, another road would be better for us to take, one that would allow agriculture and the shipping industries to work together in the coming months, and give each the time that is necessary to find a long-term, workable solution without further delaying agricultural exports which are financed by blended credit.

Mr. Chairman, the English-Roberts amendment is the same language that appeared in the House Committee on Agriculture's version of H.R. 2100. Our amendment reverses the appellate court decision which expanded cargo preference to specifically include blended credit agricultural sales. The court decision also implied that other subsidized commercial sales would also be subject to cargo preference.

Our amendment reverses this decision and allows cargo preference to continue to apply in the traditional concessional sales, as it has for over 30 years. right now no one, except for foreign grain producers, is benefiting from the expanded cargo preference decision. Over a half billion dollars in blended credit shipments were suspended in fiscal year 1985 because of this court decision.

The merchant marine got more cargo preference, but they did not get more cargo to ship, and without that cargo, there is no benefit to the merchant marine industry. Our farmers, however, have suffered a real loss. Shipments of their grain have been suspended, and that leaves over $500 million of grain still on our markets, further reducing the already depressed grain prices of this country.

The American Farm Bureau estimates that a reduction in wheat exports of 100 million bushels will reduce the season's average price of wheat by 32 cents per bushel. I dare say that this is a totally, unfair burden for the American farmer to carry.

The cargo preference decision has also weakened America's trading posture. Not only have we suspended blended credit sales, significantly adding to our growing trade deficit, but the suspension has again left us holding the grain bag. Our buyers have been victims of the destructive trade agreements and we once again are guilty of being unreliable trading partners.

The English-Roberts amendment will help restore a strong trade posture for American producers and shippers alike. Our amendment protects the trade policy that we have had for well over 30 years, and sends a strong signal to foreign buyers that we want to be reliable as a trading partner.

This amendment allows the House farm bill to promote the sale and shipment of American farm commodities abroad. This benefits both the American farmer and the American merchant marine. During the past 30 years, cargo preference has provided over $1 billion in shipment subsidies for the merchant marine. Our amendment does not in any way endanger this support of the merchant marine industry.

Mr. Chairman, I have always been a supporter of a strong national defense, and I value the role which the merchant marine plays in that defense. The English-Roberts amendment would help strengthen our national economy through increasing our exports. A strong national economy is vital to our national defense, and this amendment is an important step in that effort.

The English-Roberts amendment benefits the American farmer and the American shipper, and I urge my colleagues to vote for its passage.

The CHAIRMAN. The time of the gentleman from Oklahoma [Mr. ENGLISH] has expired.

(On request of Mr. LENT and by unanimous consent, Mr. ENGLISH was allowed to proceed for 3 additional minutes.)

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. ENGLISH. I would be happy to yield to the gentleman from New York.

Mr. LENT. I thank the gentleman for yielding.

Mr. Chairman, the gentleman indicated that the purpose of his amendment was to put the cargo preference law back to the point where it had been before the recent decision of the court. I have a copy of the Cargo Preference Act of 1954, which has been on the books for 31 years, and it specifically indicates that under this act, the use of U.S.-flag vessels is stipulated where the United States procures contracts, et cetera, et cetera, and then under item 3, it says, "advances funds or credits."

So the law has always been that where the United States advances funds or credits, such as in the program advanced by the Secretary of Agriculture, which is now under suspension, that law would apply. So I just wonder where the gentleman determines that the decision, which seems to me to clearly state the state of the existing law, extended the 31-year-old Cargo Preference Act.

Mr. ENGLISH. Mr. Chairman, as the gentleman well knows and is well aware, traditionally, in agricultural sales, the cargo preference legislation has applied to Public Law 480 as well as the AID programs. That is what we had been doing up until the first of this year when the court made its decision.

What we are saying is that we have no disagreement with that. The Department of Agriculture will continue to pay out of its budget—even during these pressing times when we have had to reduce the size of that budget, to make cuts in that budget—we have continued to do that to make certain that merchant marine receives those benefits. We are simply asking that we continue in that vein.

Let me say, too, at this point that I would strongly support the Committee on Merchant Marine and Fisheries and anyone within the industry if they would like to take additional steps as far as assisting our merchant marine fleet. As I said, I think it is vital for our national defense, and I would support that, but at a time such as this, when we are having to cut the agriculture budget, when we have the greatest crisis in the history of this country since the Great Depression in agriculture, please do not place this additional burden on us at this time. Let us try to work with you and support you in gaining that additional assistance and we will both be well served.

Mr. LENT. Mr. Chairman, if the gentleman will yield further, perhaps the gentleman could straighten me out and correct mc if I am wrong, but is it not the fact that the Blended Credit Program, as conceived by the Secretary of Agriculture, had as its essence the extension of U.S. credit to foreign purchasers of American farm products?

Mr. ENGLISH. Mr. Chairman, I would simply point out to the gentleman that that program, of course, has been in place for some time, but we do not have a Blended Credit Program now and we have not had one since that decision because the Secretary of Agriculture refuses to use that program so long as it comes under the jurisdiction of cargo preference.

If the gentleman can assure us that this administration then will start paying the Blended Credit Program and using the Blended Credit Program to continue, then perhaps he is talking to the wrong person. Instead of talking to this Member, he needs to be talking to the President of the United States.

But the point is, there have been no additional shipments made under the Blended Credit Program. The Secretary has suspended that. There has been no benefit to the merchant marine industry. The President suspended that.

Mr. LENT. What about the farmer?

Mr. ENGLISH. The main point, though, is that not only have there been no sales to the farmer, but it has hurt the farmer because we have that sitting on the market and suppressing grain prices.

So I guess I am asking, on one hand, why insist on carrying out a program in which there is no benefit to the merchant marine people, while at the same time it is hurting, and hurting tremendously, the American farmer and is costing him, as the American Farm Bureau has estimated, up to 32 cents a bushel.

The CHAIRMAN. The time of the gentleman from Oklahoma [Mr. ENGLISH] has again expired.

(On request of Mr. MCCURDY and by unanimous consent, Mr. ENGLISH was allowed to proceed for 3 additional minutes.)

Mr. McCURDY. Mr. Chairman, will the gentleman yield?

Mr. ENGLISH. I yield to the gentleman from Oklahoma.

Mr. McCURDY. I thank the gentleman for yielding.

Mr. Chairman, I rise in strong support of the amendment offered by my colleague, the gentleman from Oklahoma, and I want to commend him for his untiring efforts in bringing this issue to the floor and for the work that he has done in committee. I urge my colleagues to consider this amendment very carefully. This is perhaps one of the most important amendments in this bill.

I want to commend the gentleman from Oklahoma for his untiring efforts to prevent the expansion of cargo preference for American agriculture.

Our farmers may be frustrated by the unfair trading practices of America's foreign competitors but they are outraged that their own Government further restricts agricultural commodity export programs through cargo preference requirements.

I hate to see two American industries pitted against each other on the floor of this House. I know there was a time when agricultural exports so dominated the world market that perhaps our farmers could afford to help shore up the maritime industry.

But that is obviously not the case today. Foreign markets are more competitive and American agriculture is fighting to survive. The language inserted into the bill by the Merchant Marine Subcommittee is not acceptable to American farmers and it should be rejected by this body.

The livelihood of our farmers is already threatened by U.S. fiscal policy. Expanding cargo preference to commercial agriculture exports just closes another door of hope. I urge support of the English amendment.

Mr. ENGLISH. Mr. Chairman, let me say again, I want to really underscore and to stress my plea to the people from the Committee on Merchant Marine and Fisheries and to others who are certainly affected by this industry. The point is that we mean no harm to the merchant marine industry. We want to help the merchant marine industry. I will vote for assistance to the merchant marine industry. Let us do it through the Department of Transportation or the Department of Defense if we are going to put an additional cost into this program rather than trying to again pile additional costs onto the Department of Agriculture and onto the backs of the American farmer at a time like this, and particularly when the Secretary in this administration has already said that they simply will not spend the money.

□ 1525

So there is no benefit for the merchant marine people, but there is tremendous harm done to the farmer.

Mr. BIAGGI. Mr. Chairman, will the gentleman yield?

Mr. ENGLISH. I yield to the gentleman from New York.

Mr. BIAGGI. I thank the gentleman for yielding. I know the gentleman does not want to hurt the merchant marine, at least he does not intend to. But the unfortunate consequence of the additional amendment and yours

will produce catastrophic devastation on the merchant marine.

Mr. ENGLISH. Could I ask the gentleman then perhaps could he explain to me, since you are receiving no benefit, and evidently would not as long as this administration is in power, you would not receive any additional benefit as far as blended credit is concerned, we have contained in the bill export subsidies which would also fall under the court's interpretation of cargo preference. The Secretary would not apply that, so there is no benefit and there you have no additional cargo that you are going to be shipping. How do we do harm by simply saying you know, please let us go, let us fund this in some other manner instead of simply placing this on the farm where it hurts the farmer, but it does not benefit the merchant marine?

Mr. BIAGGI. I think Congress can deal with that one as long as we understand clearly the nature of blended credit and how it came into being, and how it reflects the attitude of the Secretary. Cargo preference has been in place for some 30-odd years working effectively. It is probably one of the few programs that we have left in the maritime industry that is assisted by the Government.

The blended credit was a device, and simply a device, to circumvent the law.

At the time, then-Admiral Shear, who is the Administrator of Marad, said yes, it did belong within the Cargo Preference Act. But he was pressured to back off, and Secretary Block took the action that he did and there was a cessation, there was a cessation of transportation in that area. That is exactly why the Transportation Institute went to the court, and Judge Green made her statement which I will state one more time.

The CHAIRMAN. The time of the gentleman from Oklahoma [Mr. ENGLISH] has again expired.

(On request of Mr. BIAGGI and by unanimous consent, Mr. ENGLISH was allowed to proceed for 2 additional minutes.)

Mr. ENGLISH. I thank the gentleman. Again I would like to ask him, and again to plead with him, unless he knows of some way of requiring this administration to use the funds under the blended credit program, to use the funds for export subsidies that are contained within this bill, then again I would say there is no benefit to the merchant marine industry, but there is terrible damage and harm done to the American farmer. Now, unless he has that solution, what he is asking for is the sacrifice, and let me also say with the reduced budget, would you please at the same time provide that additional cost through funding through the Department of Transportation or the Department of Defense or someone that is appropriate rather than putting it on the head of the Department of Agriculture and the Department of Agriculture.

Mr. BIAGGI. If the gentleman will yield again, this brings us back to another point. But I would like to complete my statement.

Judge Green made a statement and gave her decision and said clearly that blended credit belonged within the purview of the Cargo Preference Act, unmistakably that it was it. If any one of us were to read her decision, and the law and the effect of blended credit, they would have to agree that it is as plain as the nose on your face.

Now this brings us back to the original problem.

How come this problem, which is really under the sole jurisdiction of the Merchant Marine and Fisheries Committee, all cargo preference laws emanate from that committee, finds itself in the agriculture bill? That is the problem.

Now I regret what has happened. The gentleman's alternative we can go back and review and have hearings on and do it in the proper way.

But let me tell the gentleman what I anticipate. I hope that the gentleman's amendment is defeated as well as the amendment of the gentlewoman from Nebraska being defeated because if they are enacted, you will find many folks that ordinarily would support this bill will vote against it.

Mr. JONES of North Carolina. Mr. Chairman, I rise in opposition to the amendment and to the substitute offered by the gentleman from Oklahoma [Mr. ENGLISH].

Mr. MADIGAN. Mr. Chairman, will the gentleman from North Carolina yield?

Mr. JONES of North Carolina. I will be happy to yield.

Mr. MADIGAN. I thank the gentleman for yielding.

I wonder, earlier in the day, we had talked about the possibility of getting some time limitation on the various things to be considered here in this bill, and I think that we have got a time limitation on all of the matters of controversy with the exception of cargo preference. I would like to ask the gentleman from North Carolina [Mr. JONES], the chairman of the Merchant Marine and Fisheries Committee, and the gentleman from Texas [Mr. DE LA GARZA], the chairman of the Agriculture Committee, if they think it would be possible at this point to get some sort of time limitation on the cargo preference provisions of the bill?

Mr. JONES of North Carolina. Mr. Chairman, I would say to the gentleman that earlier on in the day, I agreed to a 1-hour limitation, but certain Members on the gentleman's side wanted to be heard and I assume had good logic to oppose that, and we could come to no decision.

Yes, I will be very agreeable to cut off debate at a reasonable hour. But bear in mind that most of the time consumed up to this point has been by the anticargo people, and we sort of feel like our side needs a little time to be heard in rebuttal.

What did the gentleman have in mind?

Mr. MADIGAN. If the gentleman would yield so the gentleman from Texas could express himself?

Mr. JONES of North Carolina. Mr. Chairman, I yield to the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. I thank the gentleman for yielding and appreciate the interest of the gentleman in facilitating the eventual finishing of this legislation.

I think the issue has been clearly defined and enunciated. With the exception of having some Members that may not have been heard, I would be agreeable to any reasonable time limit, and I think we can expedite the process. Also I would be very happy to agree to the gentleman's suggestion to accommodate the gentleman from North Carolina. I would think that 1 hour probably would allow Members to voice their wishes on this matter.

Mr. MADIGAN. Mr. Chairman, will the gentleman yield?

Mr. JONES of North Carolina. I yield to the gentleman from Illinois.

Mr. MADIGAN. Mr. Chairman, does the gentleman from North Carolina have any objection to that suggestion?

Mr. JONES of North Carolina. I have no objection to the debate on this amendment and all substitutes ending at 4:45.

Mr. BEREUTER. Mr. Chairman, reserving the right to object, I reserve the right to object first of all to understand if the limit that has been proposed by the distinguished chairman of the Merchant Marine and Fisheries Committee applies only to the Smith amendment and the substitute by the gentleman from Oklahoma, or if it applies to the subject of cargo preference generally.

Mr. JONES of North Carolina. I would say to the gentleman that it applies to all amendments introduced and those pending for the remainder of the bill.

Mr. BEREUTER. Further reserving the right to object, I think that perhaps the gentleman knows that I have six or seven amendments pending; they are waiting after the English-Roberts substitute, if that substitute should fail. That substitute amendment should not be rejected, because it only restores a level playing field or the status quo. But then my pending amendments would reduce the amount of subsidy going to any one shipping company. I have an amendment that moves the cargo preference subsidy program to the DOT budget, and an-

51-059 O-86-15 (Pt. 19)

other that moves it to the Department of Defense budget.

I visualize the possibility of all of the time being exhausted on the English-Roberts substitute and this gentleman resultantly being without time to present his amendments, if that should be necessary.

So, therefore, I do object.

Mr. JONES of North Carolina. Mr. Chairman, I move that, for all amendments introduced and those pending, all debate on this particular section of cargo preference shall end at 4:45.

The CHAIRMAN. Is the gentleman moving to limit debate on section 1141 and all amendments thereto?

Mr. JONES of North Carolina. Only those pertaining to cargo preference, Mr. Chairman.

The CHAIRMAN. Would that include new sections following section 1141?

Mr. JONES of North Carolina. Yes, Mr. Chairman. I am confining my motion to cargo preference, the two amendments pending and those anticipated, and I had in mind the gentleman's amendments when I added 15 minutes to the original request.

The CHAIRMAN. Is the gentleman's request that the limitation be 1 hour? Is that what the gentleman suggested?

Mr. JONES of North Carolina. No, Mr. Chairman.

The CHAIRMAN. Will the gentleman restate his request?

Mr. JONES of North Carolina. Mr. Chairman, 5 minutes ago, the motion was at 4:45.

PARLIAMENTARY INQUIRY

Mr. BEREUTER. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. BEREUTER. Since I have six or seven amendments that would be covered by the chairman's motion, Mr. Chairman, do I then have, outside of this time limit, 5 minutes for discussion, or 10 minutes in the case of opposition? And the time for votes, does that come outside of the 1 hour or within?

The CHAIRMAN. If the amendments have not been offered within the timeframe which the gentleman from North Carolina has suggested, then the gentleman from Nebraska [Mr. BEREUTER] would have 5 minutes in support of each amendment, if they have been printed in the CONGRESSIONAL RECORD, and 5 minutes in opposition also.

Mr. JONES of North Carolina. Mr. Chairman, I move the previous question.

PARLIAMENTARY INQUIRY

Mr. ENGLISH. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. ENGLISH. Mr. Chairman, would it be proper under the procedures of the House for a limitation upon the English-Roberts-Smith proposals to end at, say, 4:30, and any other amendments that may arise to end by 5:00?

The CHAIRMAN. Overall time can be limited by motion. Allocation of time may be made under a unanimous-consent request.

Mr. ENGLISH. Mr. Chairman, under a unanimous-consent request, would such a procedure be in order?

Mr. JONES of North Carolina. Mr. Chairman, I have a motion.

The CHAIRMAN. The gentleman can move to limit debate on the Smith amendment and all amendments thereto.

The question is on the motion offered by the gentleman from North Carolina [Mr. JONES].

The question was taken; and on a division (demanded by Mr. BEREUTER) there were—ayes 39, noes 12.

So the motion was agreed to.

The CHAIRMAN. The gentleman from North Carolina [Mr. JONES] still has the time.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman from North Carolina yield?

Mr. JONES of North Carolina. I yield to the gentleman from Texas.

PARLIAMENTARY INQUIRY

Mr. DE LA GARZA. Mr. Chairman, I ask the gentleman to yield for the purpose of making a parliamentary inquiry as to how the time will be apportioned.

The CHAIRMAN. The Chair is unclear as to how many Members are interested in speaking on this amendment, although he has an idea, and will continue under the 5-minute rule unless there can be some agreement reached that the time should be apportioned among those Members who are standing as the Chair speaks. The Chair has the authority to do that, and it would be, I think, fair to the committee members that the Chair allocate that time to Members standing.

Mr. MADIGAN. Mr. Chairman, I have a unanimous-consent request.

Mr. Chairman, I ask unanimous consent that the time that has just been alloted by the successful motion be divided equally between the Merchant Marine and Fisheries Committee and the Agriculture Committee, and that the time allocated to each be divided equally between the majority and the minority.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

The CHAIRMAN. The gentleman from Texas [Mr. DE LA GARZA] and the gentleman from North Carolina [Mr. JONES] will each have 15 minutes if they desire to control such time, and the gentleman from Illinois [Mr. MADIGAN] and the gentleman from New York [Mr. LENT] will each have 15 minutes.

□ 1540

Mr. JONES of North Carolina. Mr. Chairman, I go back to about 20 minutes ago when I rose to my feet and stated that I was rising to oppose the Smith amendment as well as the substitute offered by my good friend, the gentleman from Oklahoma [Mr. ENGLISH].

Now, obviously, the Smith amendment would completely obliterate, in all practical effects, what is known as our American merchant marine fleet. Back home, I find it very popular to oppose foreign aid, and so we all have our little gimmicks, I guess.

Now, the English amendment, or the substitute, has exactly the language, Mr. Chairman, that came out of the Committee on Agriculture, which came before the Committee on Merchant Marine, and which we felt was intruding on our jurisdiction and they have exceeded their bounds.

We removed that language and went to the Committee on Rules, and the Committee on Rules, as I understand it by an overwhelming vote, sustained the merchant marine position and the bill before you, which is the committee bill and which I intend to support has little or no language; one sentence referring to cargo preference.

So what we are doing if we adopt the English amendment, we are reversing the Committee on Merchant Marine, we are reversing the Committee on Rules, by an overwhelming vote; and I feel that should be put into the record, what we are doing if we vote for that amendment, and heaven's knows what we are doing if we vote for the Smith amendment. We are voting for the demise and the farewell to the American merchant marine fleet.

I yield to the gentleman from New York [Mr. BIAGGI].

Mr. BIAGGI. I thank the chairman for yielding.

Mr. Chairman, I think we know exactly where we are with blended credit and the Federal court decision, and the Secretary's arbitrary and capricious attitude, specifically defined by Judge Green of the Federal district court.

The gentleman from Tennessee [Mr. QUILLEN] talked in terms of the merchant marine as important to national defense. Clearly it is a critical part of the national defense.

Let me characterize this. I see it as a voracious and repacious vulture in the sky, looking down and seeing a little sparrow prepared to eat a morsel of food. That voracious vulture is going to come down and strike to get that food, but in the same process is going to kill the sparrow. It will not nourish the vulture one bit. And so be it with this matter.

These amendments will not help the farmers significantly, but it will kill the merchant marine.

Over the last few months, I have viewed the issue of cargo preference with great concern. I feared it was a volcano about to erupt. I have tried to defuse the issue. I had even hoped in vain that this amendment would not be offered, because I know this amendment will only gain opponents to H.R. 2100.

There will be many statements on both sides of this issue. What I would like to do is put things in perspective—not with rhetoric but with facts. If you objectively assess this issue, I think you will come to several conclusions.

First, the merchant marine is indispensable to our Armed Forces and national defense.

Second, cargo preference is essential to the survival of the U.S. maritime industry.

Third, a vote for cargo preference is not a vote against the American farmer.

Let's start with national defense. The merchant marine has played a major role in every military operation from the revolution to Granada. The heroic role of our merchant marine can be demonstrated by a grim statistic: The merchant marine had a higher casualty rate in World War II than any branch of the Armed Forces, except the Marine Corps.

An essential factor in waging a successful war is the availability of merchant vessels and skilled crews—capable of transporting necessary troops, arms, and supplies to various battle zones and our allies. Operation Safari—one of the most extensive peacetime military exercises in our history—has just ended. It tested our ability to protect cargo ships while they resupplied our NATO allies. The exercise is yet another example of recognition by the navy that our merchant marine is vitally important to our defense.

The importance of a healthy merchant marine is also fully recognized by the Soviets. Now listen to this: At the end of World War II, the Soviets had 308 vessels, now they have 2,531 merchant vessels in their fleet—an increase of 70 percent over the last 10 years. In 1945, we had 5,009 vessels, now we have 399 active vessels in our fleet. Let me remind you also that every Soviet merchant vessel is an adjunct to the Soviet military machine.

Clearly, our merchant marine is essential to our national defense, but why is cargo preference essential to our merchant marine?

The U.S. merchant marine is suffering from a number of problems—including a worldwide shipping crisis. In the years since World War II—but especially in the 1980's, there has been a serious decline in the number of ships, seagoing personnel, shipyards, and maritime support industries. The facts speak for themselves.

We have less than 400 oceangoing ships.

We carry only 4 percent of our international trade.

The number of seagoing personnel has dropped 50 percent in the last 3 years. This attrition has raised the average age of an unlicensed seaman to 52 years.

Forty-one shipyards have closed in the last 10 years.

The maritime industry is adamant about cargo preference, because it is one of the last few supports of the industry. In 1983, the Cargo Preference Program accounted for 37 percent of cargoes carried by the U.S. merchant fleet. GAO estimates that cargo preference, in 1980, provided work for between 21 and 33 additional ships and from 1,400 to 2,000 seagoing workers.

In 1981, there were five Government aids to the maritime industry:

Construction-differential subsidy, which in 1979 paid over $400 million for ship construction. That program has been eliminated.

Operating-differential subsidy, which provided direct assistance to ship operators, has been restricted, so no new contracts are being granted.

The capital construction fund allowed shipping companies to defer taxes in order to accumulate capital to build new ships. The administration's and the Ways and Means Committee's tax plan would eliminate this program.

The title XI Loan Guarantee Program is on OMB's hit list.

To reduce all of these events to dollar terms, consider this: Direct maritime subsidies dropped from $606 million in 1980 to $398 million in 1984. With these reductions taking place, the maritime industry is not exactly growing fat at the Government larder.

That brings us to the last Government support—cargo preference—also under siege. We know that cargo preference is essential to the maritime industry. The corollary question is, "How much does it affect the farm community?"

The farm interests are adamant about eliminating cargo preference. Opponents of cargo preference say the program adversely affects farm exports. Let's clear up this misconception.

The vast majority of agricultural commodities in international trade move without Government intervention and, therefore, are not subject to the cargo preference laws. In 1983, less than 2 percent of all agricultural exports were carried on U.S.-flag vessels under cargo preference.

Section 1141, adopted by the Merchant Marine and Fisheries Committee, maintains the status quo. It even preserves a cargo preference exemption enacted in 1978 to benefit the agricultural community by exempting some Government credit sales from cargo preference.

Opponents of cargo preference say the program discourages foreign sales.

This is not accurate. Since the added cost of using U.S.-flag vessels is paid by the Government, foreign purchasers incur no extra cost.

I would like to direct your attention to a recent statement by Robert D. Fondahn, president of protein grain products international. Mr. Fondahn correctly points out that the failure to make foreign sales is not a result of the cargo preference laws. He finds that "an exemption from cargo preference requirements on GSM-102, blended credit, and special bonus programs is but a minor factor in calculating the U.S. sales price. Whether we like it or not, world prices determine the frequency and volume of commercial sales—not ocean freight differentials."

In effect, this means that the added cost of cargo preference has an infinitesimal impact on farm exports. The added cost of cargo preference is a needle in the haystack when you look at the problems of the agricultural industry.

Opponents of cargo preference say that, to meet the unfair farm subsidies of foreign countries, we must eliminate cargo preference.

The farm community does not stand alone in fighting the battle of foreign subsidies. In fact, unfair subsidies given by foreign states to foreign-flag operators is one of the reasons our merchant marine is in the midst of a crisis. I could speak for hours on the subsidies provided foreign fleets: Tax advantages, direct cash payments, cargo-sharing agreements—the list goes on and on. Subsidies, whether direct or indirect, is one way to combat this problem. I wish we could eliminate this cost to the Government; but, until foreign governments cease and desist, we have no choice.

Farm interests say cargo preference must go. They say this is essential if they are to deal with a declining percentage of export markets, foreign subsidies, and the high value of the dollar. I hope that those who represent the farm community will hear me when I say that the U.S. maritime industry is trying to cope with these same problems. Let's attack those factors and not use cargo preference as the "whipping boy". Together, we can make things better for both industries.

Cargo preference means the difference between life and death to our merchant marine. This amendment would gut the cargo preference program. I contend it is not wise to change decades of Federal maritime policy by this amendment. If this essential program is to be changed, it should be done after full hearings, careful deliberations, and through legislation that can be considered fully on its own merits.

Mr. LENT. Mr. Chairman, I rise in opposition to the amendment and the substitute thereto, and I yield myself such time as I may consume.

Mr. Chairman, I rise in strong opposition to the amendment offered by the gentlewoman from Nebraska [Mrs. SMITH] and the English-Roberts substitute thereto.

I want to talk about the application of this Nation's cargo preference laws to the U.S. farm exports that are financed with Federal funding. For years when this country has sent surplus farm commodities abroad as part of our food-for-peace and other foreign-aid programs, we have sent 50 percent of those cargoes on U.S.-flag ships. This preference program was created to ensure that our Nation would have adequate cargoes for our U.S. merchant ships. The reason for this, of course, was to make sure we had a viable commercial fleet that we

could call on in a time of war or national emergency. It has worked well over the years and we have supported the U.S. fleet.

As the economic problems of our country's farmers have gotten worse, we have seen a lot of pressure to do all sorts of things to help them out. We have heard in this regard on the floor here today a great deal of misinformation; for example, that if we can just export more farm products it will alleviate some of the problems. We are told that one thing that is impeding exports is the cargo preference requirement. They say that higher U.S. transportation costs price our farm products out of the world market and therefore the preference rules are responsible for declining exports, and we are told that cargo preference triples the cost of agricultural exports.

Now for the truth! U.S. cargo preference laws are not a barrier to farm exports. Of the 145 million tons of U.S. agricultural commodities exported in 1983, less than 2 percent were exported under the Food-for-Peace Program—Public Law 480—of the USDA and the Agency for International Development. These exports were carried on U.S.-flag vessels as a result of the preference laws. Any additional transportation costs resulting from the preference requirements are paid by the U.S. Government, not our farmers or the purchasers of the goods, so the preference requirement does not change the price of the Public Law 480 commodities in the world market. In addition, even though it does cost more today to ship on U.S.-flag ships, the total differential between United States and foreign ship costs is declining dramatically—and that means it requires less Federal money to make up the difference. The differential for the bulk shipments under title I of Public Law 480 has dropped from $58 per ton in 1981 to around $34 per ton in 1984.

I hope that my colleagues will note that the legislation before us today does not change the preference requirements for the Public Law 480 program. It does not expand the preference requirements for the Food-for-Peace Program.

Earlier this year, the Secretary of Agriculture stopped the Blended Credit Export Program because he did not want to follow the Federal court's decision that the cargo preference law applied to those sales, as well as the Public Law 480 exports. Note that I said the Secretary stopped the sales—the court decision just said the law applied. The Secretary's decision meant that American farmers lost $510 million worth of sales.

The fact is that the USDA had the money in its budget to pay the cost differential but they elected not to use it because they felt that it would set a precedent and they also wanted to put pressure on Congress to change the cargo preference laws. I, for one, do not think that it is the way we should be doing business.

We want to help our farmers, and we had a program to do just that, but the Secretary of Agriculture stopped these sales because he didn't want to pay the differential for U.S.-flag ships. That action hurt both farmers and the merchant marine.

The bill before us today—as a result of the action by the Merchant Marine Committee—would provide that the preference requirements would cover export promotional programs when the Federal Government funds or otherwise aids exports of farm products. This is consistent with the existing cargo preference laws that apply when the Government advances funds or credits or guarantees the convertibility of foreign currencies in connection with an export transaction. It is also exactly what the Federal court said should happen under the existing law! These new promotional programs like blended credit are not commercial transactions—they are concessional sales. So all we are doing is reflecting the current situation and saying that when the Government funds the exports, directly or indirectly, cargo preference laws should apply.

We have also heard that if we would just eliminate this terrible cargo preference subsidy for the merchant marine, we could feed millions more starving people somewhere in the world. Now that is just not true! Transportation costs are included in the Federal budget and if the U.S.-flag requirements were to be eliminated, any money saved would be swallowed up by the Federal deficit. It would not be spent for food aid. Anyone who thinks it would just doesn't comprehend the current budgetary situation and the fact that any budget savings will go toward reducing the deficit—not additional farm exports.

Let's be honest and put into perspective the funding we are talking about for merchant marine and agriculture programs. Total Government outlays to pay cargo preference freight differentials on agricultural exports in 1984 were around $100 million. The total Federal appropriations to the Maritime Administration for all merchant marine programs was $486 million in 1984 and $465 million in 1985. Total direct Federal subsidy paid to agribusiness was $4.8 billion in 1984, and is about $10.8 billion in 1985.

Mr. Chairman, this farm bill is almost $16 billion over the congressional budget resolution. The United States has not spent that much for all forms of assistance to the merchant marine in the 50 years since the Merchant Marine Act was passed in 1936. I think the Members should be aware of the miniscule amount of funding we are talking about for the maritime industry compared to agriculture.

We all know the American farmers have serious problems. But some of you may not be aware that the American merchant marine is suffering from exactly the same kinds of problems, and from many of the same causes—the high value of the U.S. dollar and foreign subsidies.

Congress needs to address the real problems of our farmers through farm programs. We should not enact legislation to help one sector of our economy at the expense of another. This Nation needs a healthy, productive merchant marine just as badly as it needs a strong agriculture base. Those of us on the Merchant Marine Committee know all about declining industries. I would urge my colleagues to look at the maritime problems—shipyards closing, lost seafaring and dockside jobs, declining cargoes—it sounds just like the litany of horrors we have heard from the Agriculture Committee.

So let's pull together to come up with good, realistic, workable solutions to the common problems of these two industries. But don't think you can solve the farm problems by eliminating the cargo preference rules. That won't help farmers at all and it will cripple the merchant marine. There must be another solution. We want to work with all of our colleagues to fashion a good farm bill, and we think the language that the Merchant Marine Committee added to section 1141 of H.R. 2100 will ensure fair treatment to the merchant marine industry while we are trying to develop a program to help our farmers.

So I would urge my colleagues to join me in supporting our language and opposing the Smith amendment and the English-Roberts substitute that would exempt farm export programs from cargo preference. We should be working for a healthy farming industry and a healthy merchant marine; we need both.

Mr. FIELDS. Will the gentleman yield?

Mr. LENT. I yield to the gentleman.

Mr. FIELDS. I realize the gentleman does not have much time, and he is trying to clear up some misconceptions and create a clear perception, so I want to ask just a couple of quick questions.

□ 1550

Is it true that the maritime industry has lowered their cargo freight rates substantially in many cargo preference trades by not only operating ships with state-of-the-art technology but also by cutting their manning levels in half?

Mr. LENT. That is true. These subsidies are going down very dramatically.

It is far less today than it was 2, 3, 5 years ago.

Mr. FIELDS. Another quick question: Is cargo preference unique to America, or do other countries also have cargo reservation programs?

Mr. LENT. As we all know, many other nations have similar laws that protect their maritime industry. Certainly the Soviet Union and Japan.

Mr. FIELDS. Just one last question: Some facts that I do not think I heard anyone mention yet. It is my understanding in 1983 there were 145 million tons of agricultural commodities exported, and according to the Maritime Administration only 2.9 million tons, slightly less than 2 percent, of those exports were subject to cargo preference. Yet that cargo represented 37 percent of the total tonnage carried by U.S.-flag vessels.

Mr. LENT. The gentleman is correct.

Mr. JONES of North Carolina. Mr. Chairman, will the gentleman yield?

Mr. LENT. I would be happy to yield to the chairman of the committee.

Mr. JONES of North Carolina. I thank the gentleman for yielding.

Mr. Chairman, the time did not permit me to get this in my original statement, but I would like to emphasize: The argument that CCC has to divert funds from other sources to pay for cargo preference is not borne out by the facts. Indeed, according to the figures received from the Agency for International Development on inland transportation, excess funds were appropriated for ocean trade expended in 1984. During that year, according to fiscal year 1986 budget appendix, the actual appropriation for the line item for title II, "Ocean freight and inland transportation," was $218 million. According to the Agency for International Development, only a total of $164 million was expended on transportation, leaving $57,960,000 unexpended.

So the argument that the high cost of transportation subsidy killed blended credit does not bear weight.

Mr. LENT. The gentleman is absolutely correct.

Mr. HUNTER. Mr. Chairman, will the gentleman yield briefly?

Mr. LENT. I yield to the gentleman from California.

Mr. HUNTER. I thank the gentleman for yielding.

Let me rise in support of the arguments that the gentleman just laid out, and also to say that I think this is very much a national security problem at issue. I noted that in 1945 the Soviet fleet had approximately 308 maritime vessels, at that time we had about 5,000. Today we have 399 and they have 2,531.

My suggestion to Mr. ENGLISH in offering the amendment, and I understand that he has essentially said that Secretary of Agriculture John Block is holding at least part of this program, some $500 million-plus, hostage right now to the cargo preference situation, the cargo preference bill. I would simply say that we might want to put the shoe on the other foot, since he says nobody is getting anything right now, we are not shipping, and the maritime industry is obviously not getting the benefit of shipping that grain, that we might put the shoe on the other foot and in this bill perhaps make it mandatory that at least that initial $500 million worth of grain that is at issue, make that program mandatory for Mr. Block, and therefore he could not essentially take his basketball and go home, simply because the cargo preference subsidies would apply here. So I would ask perhaps if Mr. ENGLISH could come back in a few minutes and respond to that: Can we not do this so that this does not necessarily kill that initial $500 million program? Does the gentleman have any idea on that line?

Mr. LENT. The gentleman makes a good point.

As I understand the idea, the blended program suspension, the Secretary has in effect deprived the farmers of some $450 million worth of sales of agricultural products so that the maritime interests do not get the cargo preference which amounts to somewhere between $40 and $50 million in toto. So I do not see how this is helping the farmer. As I said earlier, it seems to me it is shooting the farmer in the foot.

Mr. HUNTER. I thank the gentleman.

Could the gentleman yield to Mr. ENGLISH so that he could respond as to whether or not in fact we could put Mr. Block in a position where he cannot hold it hostage?

Mr. LENT. I am not going to be able to yield to the gentleman because he has his own time and we are just about out.

Mr. HUNTER. Very well. I thank the gentleman.

The CHAIRMAN. The gentleman from New York [Mr. LENT] has consumed 10 minutes.

Mr. DE LA GARZA. Mr. Chairman, I yield 3 minutes to the gentleman from Louisiana [Mr. HUCKABY.].

Mr. HUCKABY. I thank the gentleman for yielding me this time.

Mr. Chairman, the question was raised earlier: Why are we fighting amongst ourselves? We all know that in this great country we need strong American agriculture, and we all know we need a strong merchant marine. I think it is unfortunate that we find ourselves here this afternoon in conflict. I think we are really arguing over where the money comes from for the subsidy to merchant marine. I may be wrong, but I believe that the agricultural function took a larger cut in the budget this year than any other function of Government.

We have got to not only look at funds appropriated now but for the next 3 years for that budget. We were faced with cutting some $11 billion out of an agricultural program that only spends $35 billion to support the farmers anyway, and a part of that money goes to the maritime industry.

When we have to cut and reduce the amount of money that is available to operating loans, totally eliminate the ability to borrow directly from the Government to purchase land in order to get within the budget. Our complaint is, we are not against merchant marine, we are against this money that is Government money, coming from the agricultural budget, to subsidize the merchant marine program.

Now the gentleman from Oklahoma's amendment just takes us back to the status quo before the court decision and says that Public Law 480 will be shipped in American bottoms and we can resume the GSM-102 and GSM-105 plans so we can ship these hundreds of millions of dollars of grain. Then I would urge my colleagues on the Merchant Marine Committee, come forth with legislation, let us pay for it out of the Department of Transportation or maybe out of the Defense Department. Valid arguments have been made that we need a strong merchant marine for defense.

You could round it out to the third place, and the Defense Department would never miss the amount of money we are talking about.

But I plead with you, our colleagues, these two committees here in disagreement as to the agriculture budget; we do not feel that we can afford to subsidize merchant marine from there. Most of us do not disagree with the basic premise that we need a strong merchant marine fleet, and this might be a good idea to require it. It is just where the money comes from.

Mr. FRANKLIN. Mr. Chairman, will the gentleman yield?

Mr. HUCKABY. I yield to the gentleman from Mississippi.

Mr. FRANKLIN. I thank the gentleman for yielding.

I want to compliment the gentleman as the chairman of the Cotton, Rice, and Sugar Subcommittee for some of the very innovative things that he has included in this agricultural bill.

Mr. HUCKABY. I thank the gentleman for his comments.

Mr. ROBERTS. Mr. Chairman, may I inquire, since it is my understanding that I am the leader of the agriculture minority posse, what is the status of the time? I understand I have 15 minutes, and the gentleman from New York has how much time remaining?

The CHAIRMAN. The gentleman from Kansas [Mr. ROBERTS] has 15 minutes remaining, and the gentleman from New York [Mr. LENT] has 5 minutes remaining.

Mr. ROBERTS. Mr. Chairman, I yield 1 minute to the gentlewoman from Nebraska [Mrs. SMITH].

Mrs. SMITH of Nebraska. I thank the gentleman for yielding.

Mr. Chairman, I associate myself with the comments of my good friend, Mr. HUCKABY, who was just in the well. We are all for a strong merchant marine, but our concern is that the subsidies have been handled in a way that have created serious problems for agriculture, and we think that must be changed. Now I appreciate the many positive comments that have been made in support of my amendment to eliminate cargo preference. However, in the interest of compromise I strongly support the English-Roberts amendment. It is aimed at getting agricultural exports going. That is what we are all for doing.

I thank the gentleman for yielding.

Mr. Chairman, I yield back the balance of my time.

Mr. ROBERTS. Mr. Chairman, I yield 3 minutes to my colleague, the gentleman from Missouri [Mr. EMERSON].

Mr. EMERSON. I thank the gentleman for yielding to me.

The gentleman from Tennessee raised a question as to why are we fighting? I agree with him; we should not be. We just should not put the subsidy on the back of agriculture. As it works, it is a hidden subsidy. Put the subsidy where it belongs, on transportation and defense, and I dare say agriculture would support it. It has been said that agriculture and the merchant marine are pitted one against the other. That should not be. I do not know anyone on the Agriculture Committee who does not desire a strong merchant marine. The question is just where does the subsidy go? Give the subsidy under Transportation and Defense, and it would be unlikely that anyone would be pitted one against the other. I also want to take this opportunity to associate myself with the remarks made by the gentleman from Louisiana [Mr. HUCKABY]. He has summarized my views quite well.

Mr. Chairman, I support the amendment offered by the gentlewoman from Nebraska, who has come in today with an amendment that is vitally necessary to increasing commodity prices through the expansion of agricultural exports and urgently needed if we are serious about addressing the Nation's mounting trade deficit.

I also want to associate myself with comments made on the floor today about the positive impact this amendment will have on food-aid shipments and our country's response to feeding the world's hungry.

As my colleague from Nebraska explained, a decision issued this past February 21 by the U.S. District Court of Washington, DC, has extended the cargo preference requirement to export sales made under the Blended Credit Program and the GSM-102 Export Guarantee Program. The result of this ruling has, for all practical purposes, made these programs useless. Subjecting these grain shipments to cargo preference increases shipping costs 15 to 30 percent and more than negates the 2-percent interest reduction provided under the Blended Credit Program.

Already this year, the application of cargo preference to the Blended Credit Program has resulted in the loss of an estimated 3.6 million metric tons of grain sales, valued at $536 million.

The loss of these markets, quite obviously, helped to worsen the Nation's trade balance and, most surely, put further downward pressure on already historically low domestic commodity prices. This is certainly not the direction we need to go, and here today, with this amendment, we have an opportunity to reverse course.

Agricultural exports clearly constitute one of America's most important exports—accounting for an estimated $32 billion in export trade during the current year—and they are a potential solution to reducing the trade deficit—which I remind my colleagues is expected to top a frightening $150 billion in 1985.

As U.S. exports, including U.S. agricultural exports, have declined in recent years, the Blended Credit and GSM-102 programs have remained bright spots in our export picture. Yet if we do not respond to the court's ruling today, we will either have to provide additional funds to pay for shipping these grain sales—and we are talking about at least tripling the cost to the taxpayers—or we can simply accept the fact that these sales will not be made.

I know what my constituents will say—do what needs to be done to save that money and reduce Federal spending—those tax dollars can be put to better use or applied toward deficit reduction. But I know, too, that the farmers cannot—indeed the country cannot—afford to lose more of the foreign market for our grain.

There is one other alternative—remove the burden of unjustified shipping costs. Cargo preference makes no economic sense, so let's exempt agriculture from cargo preference requirements. Support the Smith amendment.

Mr. Chairman, I yield back the balance of my time.

Mr. JONES of North Carolina. Mr. Chairman, I yield 3½ minutes to the gentleman from California [Mr. ANDERSON].

Mr. ANDERSON. Mr. Chairman, I rise in opposition to this amendment, which restricts the cargo preference provisions as they were established by Congress and as they have been interpreted by the Federal court system. The Cargo Preference Program was established in 1954 in recognition of the national interest in promoting and preserving a strong merchant marine by reserving a substantial portion of Government-generated cargoes for American ships that are subject to requisition by the Government in a national emergency. I do not need to stand here and tell any Members of this House that our merchant marine is in much worse shape today than it was in 1954, and that we are still dependent on our merchant marine in times of emergency for defense sealift capability.

Why then, you may ask, would any Member of the U.S. Congress wish to restrict the Cargo Preference Program, and thereby damage America's trading capability, industrial base, and defense capability. Well, simply put, some Members of this body sincerely believe that by restricting cargo preference provisions they would save the farmers in their districts from bankruptcy.

The truth of the matter is that the restriction of cargo preference will have a devastating impact on every sector of the American maritime industry and on our defense capability, but will not provide any meaningful benefit to the American farmer.

It has been argued that the costs of cargo preference has increased the costs of U.S. commodities overseas. Cargo preference only applies to Government sponsored commodities, and therefore, the costs of American commerical agricultural shipments are not effected. Additionally, when cargo preference laws are applied to Government sponsored shipments, the cost of shipping on a U.S.-flag ship is not passed on to the U.S. farmer or to the foreign customer. The Department of Agriculture, through moneys provided by every taxpayer, finances the differential between foreign-flag freight rates and a reasonable rate for U.S.-flag commerical vessels. At any rate, they only apply to 2 percent of U.S. agricultural exports.

The other argument that is made for the restriction of cargo preference provisons is that the money saved by the USDA by not shipping on U.S. bottoms would be passed along to the farmer. However, if the USDA were exempted from cargo preference requirements, I believe that it is highly unlikely that Congress or the administration would continue to support appropriation of these funds to the USDA. The USDA has publicly stated that it will not support continued appropriation of these funds.

This amendment will hurt our already depressed merchant marine, and our damaged maritime industrial base, and our national defense capability in order to provide some minor financial benefit to American farmers. This amendment, however, will not even give the farmers the financial benefits which some seem willing to sacrifice our national security for. The farmer does not gain, and our national security and merchant marine will be seriously damaged by this amendment. This amendment is based on misguided notions, and would seriously affect merchant marine and armed services

issues, without review by the committees with appropriate jurisdiction.

I urge my colleagues to join me in opposing this misguided amendment whose effects would be so damaging to our national interest.

□ 1605

Mr. JONES of North Carolina. Mr. Chairman, I yield such time as he may consume to the gentleman from California [Mr. COELHO].

Mr. COELHO. Mr. Chairman, I rise in opposition to the Smith-English amendment, and I agree with the remarks of the gentleman from California [Mr. ANDERSON].

Mr. Chairman, the cargo preference issue was one of the most difficult faced by the House Agriculture Committee in drafting the Food Security Act of 1985. I support the cargo preference provisions in the bill before us now, and I will oppose any amendments to the farm bill that would in any way weaken or change the application of cargo preference to agricultural exports.

I take this position because cargo preference is not the source of the American farmers' problems. It is this administration's ineffective farm policies, unprecedented budget deficits, the high value of the American dollar, the President's nonexistent trade policy, and the predatory trade practices of foreign nations that are responsible for the hard times that many of our farmers are facing.

Cargo preference applies to a mere 2 percent of our total farm exports. The elimination of cargo preference will not solve our farmers' problems and will not result in greater exports of American farm commodities.

The bill we are debating will do much to help farmers and I intend to support it enthusiastically. But we will not help this bill or the farmer if we are sidetracked by a dispute between the farmers and the maritime industry over cargo preference. I believe that both groups can and should work together.

We need a strong merchant marine for our national defense and for the future economic bargaining power that we will forfeit if there is no alternative to the foreign-flag ship.

We also need to help our struggling farmers by attacking the real problems they face and by not diverting our energies to cutting down another American industry that faces many of the same troubles now confronting our farmers.

I urge my colleagues to recognize the consequences of eliminating the Cargo Preference Program and to reject any anti-cargo amendments that are offered to H.R. 2100.

Mr. DE LA GARZA. Mr. Chairman, I yield 3 minutes to the gentleman from Texas [Mr. STENHOLM].

Mr. STENHOLM. Mr. Chairman, at this time I want to try to focus attention on the real issue in this debate.

I rise in support of the English-Roberts substitute for the Smith amendment, in the belief that this is a compromise between the two extremes in this issue. I want to answer the questions that have been posed by those members of the Committee on Merchant Marine and Fisheries as to why the Committee on Agriculture is meddling in their business. I would say it is because you in your actions, supported by the Rules Committee, are attempting to put into permanent law the ruling of one district judge regarding this question.

I would suggest that the English-Roberts amendment is attempting to maintain the status quo of saying not take that one ruling and make that permanent law but leave things as they have been for these 30 years and not pick a fight between Agriculture and Merchant Marine.

I also would say that another reason why the Agriculture Committee has chosen to meddle is that we had to cut $7.9 billion from our budget baseline in order to meet the will of this body. We have got $7.9 billion less. And I suggest to those who are concerned about defense, which I am, and transportation and the need of a strong merchant marine, which I am, that our reason for saying, "Don't expand the authority and don't expand the amount of money you are taking from a little smaller pie, let's agree the way it has been working in the past has been working for everyone and we in fact need to expand on our merchant marine, do it as Mr. ENGLISH has suggested, do it in the Transportation budget, do it in the Defense budget," because I suggest those two budgets have not taken the same proportion of cuts that we have taken.

And that is why the Agriculture Committee has chosen to meddle in your business. We did not do it to pick a fight, but we did it because we are having to operate with a smaller piece of pie, and it is difficult to stretch less dollars for more exports.

And you ask, "How does this affect farmers?" How many speakers have I heard up here, saying, "How can this affect farmers?"

Less product exports equal lower farm prices, folks, no matter how you cut it. And that is what is happening today.

And, sure, there have been a lot of good, truthful statements made on both sides of this question today. We do not want to pick a fight. That is the worst thing that could happen to us right now, because we are both in the same boat.

So I would urge members of this committee, look at the English-Roberts amendment as a compromise between the two viewpoints and support the Agriculture Committee on this issue, which is a fair approach.

Mr. ROBERTS. Mr. Chairman, I yield 3 minutes to my friend and colleague, the gentleman from Missouri [Mr. COLEMAN].

Mr. COLEMAN of Missouri. Mr. Chairman, I rise in support of the gentlewoman from Nebraska's amendment. I complement her on the strong leadership she has shown in helping to defeat this unfair subsidization of the maritime industry by agriculture.

The 1954 Cargo Preference Act requires the Department of Agriculture to ship 50 percent of the agricultural commodities sold or donated to other countries by the Government on U.S.-flag vessels. Historically, this has been applied only to the Public Law 480, Food for Peace Program, and the section 416 Commodity Donation Program. In February of this year, the courts ruled, in a lawsuit initiated by the maritime industry, that the USDA Blended Credit Export Program would also have to comply with cargo preference laws. This ruling overturned a 1963 Justice Department opinion exempting direct credit, blended credits, and credit guarantees from the 50-percent U.S.-flag vessel cargo preference rule. At the time of her decision earlier this year, Judge Green made it known that she would also apply the same ruling to the GSM-102 Credit Guarantee Program if she was asked to make such a ruling.

This decision is devestating to U.S. agricultural exports. At a time when our agricultural exports are expected to fall to around $32 billion in 1985, farmers should not be asked to subsidize the maritime industry by paying higher transportation costs to ship grain. Applying cargo preference laws to additional USDA exports will cause our exports to plummet even further. Cargo preference is nothing more than a subsidy to the maritime industry at the cost to the American farmer, to American agricultural exports, and America's soaring trade deficit.

While I am joining my colleague from Nebraska in calling for the total repeal of cargo preference not only for blended credit programs but also for the Public Law 480 Food for Peace and section 416 programs, but it disturbs me that the Public Law 480 food aid budget is being used to subsidize the maritime industry. We have people starving in Third World nations. We should concentrate the Public Law 480 funds on helping starving children rather than pumping up the maritime industry.

Since August 1984, the USDA shipped 2.8 million metric tons of commodities under the Public Law 480 Program, title II. 689,000 metric tons of the commodities were shipped on foreign-flag vessels and 711,000 metric tons of commodities were shipped on U.S.-flag ships.

U.S.-flag ships charged an average of $95.92 per metric ton on commodities shipped only to Ethiopia, the Sudan, Kenya, Mozambique, and Mauritania while foreign vessels charged an aver-

age of $40.97 per ton for the same route. The $54.95 subsidy is taken directly from the Food for Peace funds. The expected 1985 cost of cargo preference for the Food for Peace Program will be about $155 million, or about a tenth of the total Food for Peace budget. Some experts estimate that 5 million people could be fed almost 1 pound of wheat per day for an entire year with the $155 million now being used to subsidized the maritime industry. I say let's free the Public Law 480 Program from cargo preference laws so we can get assistance to starving people.

Some argue that we need cargo preference requirements in order to maintain a strong merchant marine fleet for defense purposes. I have a record of being a supporter of a strong defense program. I have not changed my position on defense. However, I do feel we need to take this hidden subsidy to the maritime interest out of the Department of Agriculture budget and transfer it to the Transportation Department or Defense Department budgets where it belongs.

The Agricultural Committee tried to take a compromise position by applying cargo preference to the pre-Judge Green ruling. We felt this compromise was fair to both the USDA and the maritime industry. However, maritime interest were successful in their lobby efforts to strike the committee language and insert its own which requires that cargo preference laws apply to all USDA export programs. This means cargo preference requirements would apply to GSM-102 and the blended credit programs. The GSM-102 Program has $5 billion authorized for its budget in fiscal year 1985. If cargo preference laws are applied to the GSM-102 Program, it would cost from $400 to $650 million in subsidies.

The cargo preference laws slap an additional $50 a ton charge on all American export commodities because U.S.-flag ships charge much higher rates than foreign-flag vessels. American farm products now are barely surviving in the international market due to the overvauled dollar and unfair foreign trade practices. An additional $50 a ton charge will erase whatever share we have left of the overseas market and further devastate our ailing farm economy. If we are to restore profits to U.S. agriculture, we must increase our agricultural exports, not decrease them.

American farmers, who continue to slide downhill while the rest of our Nation's economy races ahead, certainly cannot afford to carry the ball for the maritime industry. At some point, it must be recognized that the cargo preference policy only promotes one industry by undermining another.

I urge my colleagues to adopt the gentlebody's amendment that would exempt all USDA agricultural exports from unfair cargo preference laws or at least the substitute amendment.

Mr. JONES of North Carolina. Mr. Chairman, I yield 1 minute to the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Chairman, as the Members might expect, I support the position of the Committee on Merchant Marine and Fisheries on this, primarily for defense reasons. But I think there are other reasons, as well. I guess you might call them political reasons. When we are deciding on what is the best thing to do for a particular need, we sort of have to feel like what kind of a group can you get together that will support a particular piece of legislation. For years we have had the cargo preference. People have lived with that, and it has been workable. They are not going to appreciate the fact that it is taken away, and I think you might cast some people in the position of not being very happy about supporting this legislation if that is abandoned.

Now, the real reason why I am talking is not because of the possibility that there might be some votes lost that way—although I do not know how strong this bill is going to be anyway, so you might need those kinds of votes. The real reason I am talking to you is because there really is a tremendous concern on the part of America today of not having adequate merchant marine to carry the things that we need to carry in a wartime situation.

Mr. JONES of North Carolina. Mr. Chairman, I yield such time as he may consume to the gentleman from Washington [Mr. BONKER].

Mr. BONKER. Mr. Chairman, I rise in strong support for the cargo preference provisions of H.R. 2100, as reported by the Rules Committee, and in adamant opposition to any amendments which would weaken or eliminate our Nation's cargo preference policy.

Like many of the Members, I represent a region of the country which is heavily dependent upon both farming and the maritime industry. Both industries provide major economic activity, tax base, and employment in the Pacific Northwest, and I fully understand the importance of the cargo preference issue to both groups. In addition, both of these industries are in deep trouble, and I believe that both are deserving of Federal support.

Unfortunately, the version of the bill reported by the Agriculture Committee and the amendments before the House today would in effect force the House to choose our Nation's farmers over our vital maritime industry. I don't think this is the right way to do business, and I don't think that these amendments are in the best interests to our Nation as a whole.

Clearly, America's farmers are hurting. Farmland values have dropped more in the last 4 years than in any time since the Great Depression. Farm exports have fallen dramatically since the 1970's, creating severe problems for crops like wheat, corn, cotton, and rice. The farm crisis has become a national tragedy, endangering whole communities and an entire way of life.

But our maritime industry is in equally desperate condition. Maritime employment has dropped by an incredible 70 percent since the 1950's. Thirty years ago, our own merchant marine carried more than 35 percent of our ocean borne foreign commerce; today, America's ships carry less than 5 percent of our own cargo. In the area of bulk products like grains, U.S. vessels carry only about 2 percent of our own nation's shipments.

I strongly believe that both our agricultural exporters and our maritime fleet deserve the support of the Federal Government. I also believe that the needs of these two vital industries do not need to be mutually exclusive. We do not have to penalize the maritime industry in order to preserve America's farmers, or vice versa.

In my view, the opponents of cargo preference offer only a completely one-sided approach to this complex and difficult issue. Instead of a balanced package which offers some benefit to both of these ailing industries, the amendments before us would strip cargo preference requirements from a number of agricultural export promotion programs.

At this point, it's important to underscore several important facts in the cargo preference debate:

First, cargo preference is not to blame for the very real problems facing our Nation's farmers. Cargo preference is not even responsible for the difficulty our farmers are facing in the international marketplace. The real culprits in both of these problems are the Reagan administration's failed agricultural and trade policies, and the overvalued U.S. dollar which makes it impossible for our producers to compete overseas.

Second, cargo preference does not apply to any sales that are strictly commercial in nature, only those shipments which are Government sponsored or Government assisted. Typically, these federally impelled shipments represent less than 2 percent of the total shipments in any given year.

Third, cargo preference does not even hamper the competitiveness of our Government assisted shipments in foreign nations. Our Government picks up the cost differential between foreign flag freight rates and the higher U.S.-flag rate. The net impact upon the recipient is as if the cargo had been hauled on a foreign-flag vessel.

Fourth, cargo preference does not cost the American farmer 1 penny, nor does it make U.S. commodities any less affordable in foreign markets. The Federal Treasury pays 100 percent of the added cost of shipping preference cargoes in U.S.-flag vessels.

Finally, let's be honest about Federal subsidies. Our agricultural sector receives an estimated $18 to $20 billion per year in direct Federal subsidies. By comparison, our maritime sector receives roughly $500 to $600 million in Government assistance,

about 2 percent of the subsidies given to farmers.

Once you accept the notion that cargo preference does not cost our farmers anything, the only possible rationale for the amendments before us today is that the agricultural sector wants even more.

I believe the agricultural sector should be fair and consistent in this area. Agriculture has its subsidies, and they are enormous. Certainly other distressed elements of our economy are entitled to modest support from the Federal Government, particularly the maritime sector which is so important to our national defense.

So I would urge my colleagues to reject these amendments today, and to oppose any unbalanced effort to change or weaken our Nation's traditional cargo preference policy.

In closing, Mr. Chairman, this issue will, obviously, not end today, no matter what we do in this bill. Earlier this year, the maritime industry sat down with elements of the farm community in an effort to develop a workable compromise that would resolve this impasse. While these groups did reach an agreement, this compromise has broken apart, due to dissatisfaction within the agricultural groups.

Rather than continuing to hammer away at one another and forcing Members of Congress to choose up sides, farm interests and maritime interests should go back to the negotiating table and come up with a compromise that will help insure the stability and future gorwth of both industries. But until such a balanced package is presented to this Congress, I would strongly urge my colleagues to reject any unilateral attack upon established cargo preference law.

Mr. DE LA GARZA. Mr. Chairman, I yield 2 minutes to the gentleman from Idaho [Mr. STALLINGS].

Mr. STALLINGS. Mr. Chairman, I am compelled to rise today in support of the English amendment to exempt agriculture export credit programs from cargo preference requirements. As so many of my colleagues have so eloquently stated here today—this body must stand firm in its resolve to do what it can to restore profitability to American agriculture.

Yet today we are contemplating actions that would further erode U.S. agriculture's competitiveness in world markets and seriously jeopardize our efforts to save the family farmer. Consider the facts concerning our farm exports. The U.S. share of world wheat trade has declined from 48 percent in 1981 to 36 percent this year. Our share of the world feed grain exports has fallen approximately 20 percent over the same 5 years. These declines have amounted to a loss of more than $10 billion in agricultural exports since 1981.

I am not suggesting that this disasterous decline in our farm exports is the direct result of cargo preference requirements. But rather, my point is this—our precarious farm exports have been further burdened by a Federal court ruling that expanded cargo preference to the USDA Commercial Blended Credit Program. The increased costs in shipping which experts have put at $40 to $60 million for the blended credit program alone forced the USDA to suspend shipments of some 3.6 million metric tons of agricultural commodities worth more than half a billion dollars.

The result of the court-ordered expansion in cargo preference has not been additional revenues for our maritime industries, but just the opposite. Without functioning commercial export programs, our maritime industries have gained nothing from this expansion in cargo preference and our farmers have lost millions of dollars in export sales.

This situation is intolerable for both our agricultural and maritime industries and can be remedied by the amendment before us. I believe our Agriculture Committee made a good faith effort to reach a workable accommodation on this cargo preference issue. But the price of this accommodation is too high if our commercial export promotion programs are not allowed to function as intended. Our farmers and maritime workers desperately need the revenues that are generated by these commercial export sales. Our only solution now is to adopt the English amendment and restore cargo preference rules to their status prior to the February court decision.

Mr. LENT. Mr. Chairman, I yield such time as he may consume to the gentleman from Virginia [Mr. PARRIS].

Mr. PARRIS. Mr. Chairman, I rise to indicate my opposition to the amendments to H.R. 2100, the 1985 farm bill, which would weaken or change the application of our time-honored cargo preference laws.

Let me say at the outset that I am completely sympathetic to the needs of our agriculture constituency and the importance of this constituency to the American economy. Indeed, I support the Food Security Act of 1985 and intend to vote for its passage. It is clear to me, nonetheless, that many either do not understand or totally underestimate the importance of a U.S.-flag maritime fleet. Although farm interests rightly point out the fierce foreign competition faced by them, they fail to recognize that our merchant marine is confronted by many of the same competitive forces and has been for many years.

Let me give an example that particularly concerns me in view of the administration's intentions to commence negotiations in just a few months toward a new maritime shipping agreement with the Soviet Union for carriage of grain. As we all know too well, countries with state-controlled economies do not have private merchant fleets in the same sense we do. It is impossible to determine whether the freight rates charged by these fleets even come close to covering their costs. In the past 20 years, the Soviets have set out on a course of rapid expansion into the cross trades so that today roughly half of Soviet cargoes involve these cross trades. The consequence for the West is that Soviet merchant ships move about 5.6 percent of all world cargoes even though the Soviet economy generates only 2.5 percent of world trade. The Soviet attitude and thus its policy towards its merchant fleet is dramatically different than ours. The Soviets consider every merchant vessel a military ship first and a commercial ship second; their goal is not profit, it is expansion and military capability. With these goals, the Soviets are able to penetrate into major trade routes by shunning conference prices and underbidding Western competitors by as much as 25 percent in some cases and 40 percent in others. So in this "free" market, certainly the Soviet freight rates are lower than ours. But surely American farm interests would not prefer to see our United States fleet replaced by Soviet and other state-owned fleets. Unfortunately, we would be headed in this direction if we were to take some of these attacks on cargo preference to heart.

Let's not play into the hands of our foreign competition—state-controlled or otherwise—by pitting two of our major American industries against another.

In view of the foregoing, I would strongly urge my colleagues to resist any attempts to weaken cargo preference application in this farm legislation which is much needed and which deserves early passage.

Mr. LENT. Mr. Chairman, I yield 2½ minutes to the gentlewoman from Maryland [Mrs. BENTLEY].

Mrs. BENTLEY. Mr. Chairman, I rise in strong opposition to the Smith-English amendments.

And I would like to correct some statements made here today.

There was the statement that U.S.-flag ships have dropped in number from 3,000 to 600 with the Speaker alluding that it was the fault of subsidy and U.S. Government assistance.

The fact is that shipping today is far different today than when we had 3,000 ships.

Vessels are much larger today by three four and even tenfold. This is true worldwide except under the Soviet flag because the Soviet Union continues to build so it can control the world sealanes and freight rates.

We have also heard how many more hungry persons could be fed if foreign-rather than American-flag-ships were used.

If, in fact, our primary interest is to feed starving people to the maximum extent possible, then why not buy America's food-for-peace commodities abroad—in Argentina, for example? Today, their wheat costs less than U.S. wheat on the world market. Currently, a ton of Argentine wheat sells for $115, which is $31—or more than 20 percent—less than a ton grown here. If our Public Law 480 food aid were to be purchased in Argentina and other low-

cost foreign sources, the United States Treasury could save more than $250 million dollars—enough to provide 1 pound of wheat per day for a year to more than 8 million people.

Obviously, neither I nor anyone else that I know of advocates that we buy these products in a foreign country. We all agree that we need the independence and power that a strong farming industry provides. I make the point, however, to demonstrate the need for balanced presentations in this debate over cargo preference.

Much also has been said here today regarding Secretary Black's cancellation of the Blended Credit Program while blaming it on the Federal Court ruling.

The record of the past 2 years is indicative of the U.S. Department of Agriculture's attitude toward the American merchant marine and the laws on the books.

The records will show that in 1983 both the USDA and the Agency for International Development [AID] violated the cargo preference laws on the books by failing to allocate 50 percent of the cargo to U.S.-flag ships.

In 1983, the USDA only granted 48 percent of the cargo although there were ample ships available.

The record also shows that in 1983, only 45 percent of AID cargoes moved on American bottoms.

In 1984 both the New West African Release Program and Section 416 Dairy Donation Program violated cargo preference.

It should also be noted that in 1980 and 1981 when sufficient numbers of American ships were not available, only 41 and 42 percent of the USDA cargoes moved on U.S.-flag ships. Only 48 and 37 percent, respectively, of AID cargoes were U.S.-flag ships.

In the no cost GSM-102 program, the foreign loans guaranteed by the U.S. Government for grain programs cost the U.S. taxpayer $1.7 billion because of defaults.

The total since 1982 is $2.2 billion.

U.S.-flag ships were not involved in any of these defaults.

Cargo preference is essential to the U.S. merchant marine. Government agricultural preference cargoes account for a significant 37 percent of the tonnage carried in international trade by U.S.-flag vessels but less than 2 percent of the total 145 million tons of agricultural commodities exported from these United States in 1983. Yes, only a mere 2 percent of the total agricultural commodities exported were covered by the cargo preference requirements.

Both the agriculture and maritime industries are forced to compete abroad in the face of highly subsidized foreign competition, nontariff barriers and restrictive foreign policies. It is clear that both industries deserve, and are guaranteed under the present law, the support of our Government and neither should be helped at the expense of the other.

It is my belief that American agriculture and American maritime should work together for their mutual benefit, rather than expend their scarce resources in fighting each other, to the benefit of America's competitors.

Mr. ROBERTS. Mr. Chairman, I yield 3 minutes to my distinguished colleague, the gentleman from Mississippi [Mr. FRANKLIN].

Mr. FRANKLIN. I thank the gentleman for yielding.

Mr. Chairman, I would like to point out what I think is the crucial issue that we are discussing here on cargo preference and what is a Government-sponsored sale that would apply under the cargo preference ruling of Judge Green and the attempt to try to codify into the permanent law of the agriculture bill the decision of one Federal court judge.

Mr. Chairman, the market today for all of the commodities that we grow in this country is below loan prices in most instances. If we are going to sell any of our commodities overseas, we are going to have to do it with some innovative methods that we come up with in this farm bill. We have called some of those things blended credit, we have called some of those things marketing loans, we have called it bushel commodity bonus programs, and we have called them export certificate programs. But be that as it may, all of those innovative things that we have come up with to try to become competitive once again in world markets can be determined under the extension of Judge Green's ruling to be Government-sponsored transactions under which the cargo preference ruling is applied and cargo preference would then be applied to every agricultural sale of this country overseas.

□ 1620

Quite frankly, my friends, I do not think the agricultural community can stand that. We have seen the effects of the Blended Credit Program, which, by the way, is the first time that a commercial transaction—it is not a program where we as a benevolent country give our commodities in excess to feed the hungry of the world. These are private transactions where U.S. companies or individuals transact with others across the world in private commercial transaction with the aid of our Government through bonus credits and interest credits to get those goods moving.

If we take the logical extension of the ruling that is trying to be codified here into permanent law, and if we continue to see our commodity prices at the world level be below the loan rates of most of the commodities in this country, then every transaction of American agricultural products to overseas customers could be applied to the cargo preference ruling. Agriculture could not stand that for we would not be shipping any of our commodities overseas, and we would continue to be storing those commodities in our government warehouses and government bins.

There is one way we can remedy that problem; go back to the pre-Judge Green ruling where both the merchant marine interests of this country and the agricultural interests of this country seem to be satisfied, and benefiting by a program that was working. The way to do that is to support the Roberts-English substitute. I urge my colleagues to support that.

Mr. JONES of North Carolina. Mr. Chairman, I yield 2 minutes to the gentlewoman from Louisiana [Mrs. BOGGS].

Mrs. BOGGS. I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong opposition to the amendment and to the substitute thereto. I represent the Nation's leading grain exporting port, and I certainly would not support any provision that had a negative impact on agricultural exports. Existing cargo preference provisions in the law are a subsidy for American flag maritime transportation, just as our agriculture programs are subsidies that are essential to the productivity and economic well-being of our farm interests.

Mr. Chairman, let us get some of these statistics straight. Less than 2 percent of American farm exports are shipped under existing cargo preference provisions. That makes it about 1.6 percent of the agricultural subsidies that go to subsidizing the maritime component.

The American flag bulk cargo ships are essential to our national sealift requirements. In a time of national emergency, we cannot fully depend on Allied shipping or flag of convenience ships to carry military equipment and materials or to move raw materials and bulk commodities for our domestic industries. If we wanted to ship American-subsidized commodities on the least expensive shipping mode possible, we would ship our goods on Soviet flag ships. They can undercut any free world market carrier.

Mr. Chairman, I know that the American farmer is probably the most patriotic of Americans. When our farmers recognize the essential role that cargo preference plays in maintaining the American flag shipping capability we need to meet our military sealift and our national cargo requirements, I am certain that they will oppose this amendment and the substitute thereto.

Mr. DE LA GARZA. Mr. Chairman, might I inquire how much time is left to the Members managing time?

The CHAIRMAN. The Chair states that the gentleman from Texas [Mr. DE LA GARZA] has 7 minutes remaining; the gentleman from North Carolina [Mr. JONES] has 3 and one-half minutes remaining; the gentleman from New York [Mr. LENT] has 2 and one-half minutes remaining: and the gentleman from Kansas [Mr. ROBERTS] has 7 minutes remaining.

Mr. DE LA GARZA. Mr. Chairman, I yield myself 3 minutes.

Mr. Chairman, I repeat as I have throughout the process of this legislation, this is a very difficult situation for me. I served on the Merchant Marine Committee; when I became chairman I had to leave that committee. The situation is one, though, that is very simple but it brings out emotion in most of the Members.

We in the Agriculture Committee are only trying to bring back the basic law in operation up 20 this spring and the Merchant Marine Committee is trying to put into permanent law the decision of one district court. The sad situation is the same as the farmer, the merchant marine, the U.S. fleet is suffering. In this situation, no one wins because the Secretary is not spending the funds appropriated. He still has some $57 million.

What we are trying to do with the Robert-English substitute is to bring back the status quo, and keep working so that the merchant fleet can have 50 percent so that we do not provide undue harm or damage to our farmers. If we do not do this, no one wins. You will have no ports; you will have no merchant fleet. We will have no farmers selling abroad.

I submit to you that the court decision brings in private, commercial transactions. I submit to you that Blended Credit Program was not a way to get around the cargo preference law. But I will go personally with the Merchant Marine to try and get funds. I will do anything that can be done. But we cannot prejudice this farm bill. We cannot send a signal out that we are going to sacrifice either the farmer or the merchant fleet or the ports of America. The best thing that we can do is keep the status quo until we decide within the family what we are going to do. The best course to take under that is to support the English amendment because it does no damage to the merchant marine or the farmer.

Again, I repeat, they are not now shipping. The Secretary is not spending the money. You are keeping the farmer from having some sales. While we bring back the farmer, then we can go and try and correct this situation, because one district court decision can be annulled by another district court. We cannot put it into permanent law at this time. We need to have hearings, and they need to be in the Merchant Marine Committee also.

I urge the Members to stay with the Agriculture Committee. Later we can work out the family difference.

PARLIAMENTARY INQUIRY

Mr. JONES of North Carolina. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. JONES of North Carolina. Mr. Chairman, it seems according to the official timer that we are down to 3½ minutes. According to my records, we have approximately 7 minutes. I understand that during the debate on the time limitation, that that was charged to me, to our side.

The CHAIRMAN. The Chair would point out to his dear colleague and friend, the gentleman from North Carolina, that what was charged were these unanimous-consent requests. The reason they were charged is that under the motion that the gentleman made, the time expires at 4:45. In order for us to fulfill the 15-minute requirement, the Chair had to take the time out of that.

If the gentleman asks to extend the time the Chair can do that by unanimous consent.

Mr. ROBERTS. Mr. Chairman, if the gentleman would yield, in the spirit of compromise, I would be delighted to yield the gentleman 2 minutes from my time.

Mr. JONES of North Carolina. Mr. Chairman, in the spirit of brotherhood, let me express my appreciation.

Mr. Chairman, I yield 1 minute to the gentlewoman from California [Mrs. BOXER].

□ 1630

Mrs. BOXER. Mr. Chairman, I thank the chairman of the Merchant Marine and Fisheries Committee for this time.

I am a strong supporter of the American farmer. I have supported every aspect of this farm bill. But I say to my colleagues who are bleeding for their farmers—and I share that pain—I say it would be selfish—it would be hypocritical—and it would be wrong to turn your back on our merchant marine, and these amendments not only turn them on the merchant marine, these amendments stab the merchant marine in the back.

The cargo preference law that currently exists is keeping our merchant marine alive. This is an entirely valid goal, considering the importance of a U.S. merchant marine in times of both peace and war. It's as valid a goal as keeping our farmers alive.

I think that the cargo preference law should be clarified

Cargo preference does not single out the agricultural community. Instead, it applies to all shipments of Government-generated exports, whether they be soybeans or computers.

Cargo preference does not cost the American farmer or his foreign customer one penny. The farmer exporting his goods does not pay any additional cost of shipping on U.S. vessels nor does the foreign importer. Instead, the Department of Agriculture finances any differential between foreign-flag freight rates and a reasonable rate for U.S.-flag commercial vessels. The delivered price of american agricultural commodities to foreign purchasers is therefore not affected by cargo preference.

It should be noted that the rate differential between U.S. and foreign vessels is declining because the costs of U.S. shipping have decreased. In 1981 the average U.S. tanker rate for USDA-sponsored exports was $102 per ton. By 1983 the average was $51 per ton. With modernization of the U.S. fleet already underway, these rates will undoubtedly continue to decline.

The private American farmer is not substantially affected by cargo preference laws. But the merchant marine would be seriously affected by these amendments. In 1983, only 2 percent of U.S. agricultural shipments were subject to the cargo preference law. But this 2 percent accounted for nearly one-third of the total tonnage sent on U.S. vessels. Clearly, the merchant marine has much to lose if this amendment is adopted.

Let us not become a country that turns one group against another. The farmer needs help desperately—our merchant marine needs help desperately. We have gone from more than 5,000 active ships during World War II to less than 400 active ships now. Let us be caring Americans. Caring for the farmer; caring for the merchant marine; and by our policies, let us help both segments of our American economy.

Please vote "no" on this amendment.

Mr. JONES of North Carolina. Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania [Mr. GAYDOS].

Mr. GAYDOS. I thank the committee chairman, the gentleman from North Carolina [Mr. JONES].

Mr. Chairman, thanks to the fine work of two of our colleagues on the Committee on Merchant Marine and Fisheries, Chairman JONES and Mr. BIAGGI, the 1985 farm bill, maintains the House position on cargo preference requirements concerning shipments of American food products to overseas customers.

In all truth, despite the arguments to the contrary, cargo preference requirements do not affect either the price American farmers receive for their goods nor the price that overseas customers pay for those commodities.

So, those critics who claim that the cargo preference laws hurt our farmers are just trying to confuse the issue

by bringing in elements that have no bearing on it.

In fact, the cost difference between shipping agricultural products on American vessels as opposed to foreign ships is paid by the American Government as part of cargo preference, a longstanding, 30-year national policy of support for the American maritime industry. It is part of a commitment we have made to keep our merchant marine as healthy as possible in very trying times.

According to some recent data from the U.S. Maritime Administration, the U.S.-flag dry bulk fleet, which virtually depends on cargo preference laws for its very survival, today consists of a mere 21 vessels. Just think, only 21 American-flag ships to carry dry bulk foodstuffs.

Fortunately, it is a young fleet, with 11 of those 21 ships 4 years or less in age and 19 of the 21 at 12 years or less.

Further, these newer ships in the American dry bulk fleet can carry more tonnage and operate with smaller crews. Thus, the merchant marine fleet, with the help of the Seafarers International Union, has been able to cut manning levels and lower wage structures to keep the fleet more productive and more competitive.

We cannot accept any amendments. If we do, than we will be telling our maritime industry and those men and women who work on those ships that we don't care, that their efforts to stay competitive with other nations aren't worthy of our support.

The maritime industry is vital to this Nation, as vital as steel and other basic industries for our growth and expansion as well as our protection.

As we depend more and more on foreign nations for the materials and goods that we no longer produce in this country, shouldn't we at least ensure that some American ships and some American seafarers are the ones who bring some of those materials and goods to our shores and carry some of our products abroad.

If we permit the cargo preference requirements to be deleted from this bill, then we are sending another signal to American industry, steel, shipbuilding, and maritime, that we are no longer interested in what happens.

We must preserve and protect these cargo preference requirements and keep them as part of H.R. 2100.

Mr. JONES of North Carolina. Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania [Mr. KOLTER].

Mr. KOLTER. Mr. Chairman, the Congress made a strong commitment to the Nation's merchant marine industry over 30 years ago. I see no reason for changing that commitment now. Any attempt designed to weaken the existing cargo preference laws should be defeated.

Some in the agriculture community have asserted that cargo preference laws make the American farmer less competitive on the world market. This is not true. Cargo preference only applies to Government-sponsored or Government-financed cargoes. Any commercial sales between an American farmer and a foreign importer, in which the U.S. Government does not participate, is exempt from cargo preference laws.

American tax dollars make international food aid possible. It is only fitting that a portion of that food be transported on American ships.

Others have argued that the U.S. merchant marine fleet is not competitive. While it is true that the U.S. fleet has had problems in the past, the U.S. Department of Agriculture's own research demonstrates that the cost of financing cargo preference is declining. Between 1981 and 1984, the USDA's cost differential for commodity shipments under the Public Law 480 title I program, declined by over 41 percent. Funds currently spent by the USDA, for cargo preference, amount to less than eight-tenths of 1 percent of the amounts expected to be spent in 1985 on farm income stabilization. This is a small price to pay for a strong U.S. merchant fleet.

Mr. Chairman, I understand that the merchant marine coalition, and the U.S. agriculture community, have been trying to come to a compromise on the cargo preference issue. It would not be wise to set these two important industries apart, now that they are working on a compromise. Adopting an anticargo preference amendment might do just that. We need all of our resources working together in order to be more competitive in the international marketplace. It would be a waste of valuable resources to have the farmer and the sailor disagreeing with each other. In the end, the only ones who would benefit would be our foreign competitors.

Mr. LENT. Mr. Chairman, I yield 2 minutes to the gentleman from Alaska [Mr. YOUNG].

Mr. YOUNG of Alaska. Mr. Chairman, I thank the gentleman from New York [Mr. LENT] for yielding me this time.

Mr. Chairman, I rise in strong opposition to this amendment, both amendments before us today.

I have been listening to this debate on the floor and I have been well involved in the committees. It is time we recognize the merchant marine would be dealt a death blow by these amendments.

It is unfortunate we are now in conflicting interests between the farmers and the merchant marine, but I truly believe this will not hurt the farmers, it will definitely hurt the merchant marine.

Mr. Chairman, I yield to the gentleman from Washington [Mr. MILLER].

Mr. MILLER of Washington. Mr. Chairman, I thank the gentleman from Alaska [Mr. YOUNG] for yielding to me.

Mr. Chairman, I rise in opposition to this amendment to reduce and restrict the cargo preference provisions of H.R. 2100.

Mr. Chairman, if we are going to make wise choices in confronting the massive Federal deficit, we must begin by asking: What is the purpose of each program, and does it achieve its goals in a cost-effective manner? I believe there is only one justification for cargo preference: That it contributes to our national security.

I confess that I was skeptical when this justification was first presented to me.

During the past couple of months, I have read and have listened to people both in favor of and in opposition to cargo preference. I dug deeper and deeper into this question. This is what I have learned:

First, there is a direct linkage between our shipping capacity and the ability to supply our troops. During an armed conflict abroad we will need to transport over 95 percent of our fuel and supplies by sea. This may require a fleet of 500 ships, as it did during the Vietnam war.

Second, our current active merchant fleet is less than 400 ships, and almost 40 percent of their cargo comes from the requirement that they carry 50 percent of agricultural goods that are purchased with U.S. subsidies.

Third, because of the shortage of active U.S.-flag merchant ships which can be relied on during the opening days of any crisis, the Navy has begun buying 116 cargo ships to keep in reserve.

Fourth, a 1984 Congressional Budget Office study shows that it is far less costly to keep our merchant fleet afloat and available with this limited cargo preference than for the Defense Department to buy or build more ships.

Reflecting further, I believe much of the misunderstanding over cargo preference arises because it does not come within the Defense Department budget. What we are voting on here is not best characterized as an agricultural program or even a merchant marine subsidy, but as a Defense Department expenditure.

Mr. Chairman, I urge that this amendment be defeated because it would damage one of the most cost effective elements of our national defense.

Mr. YOUNG of Alaska. Mr. Chairman, reclaiming the balance of my time, we should look at the rest of the nations in the world and how they ship to us the automobiles we are talk-

ing about in the trade bill that is coming up. It is all on the bottom of their ships.

It is time we recognize the one commodity we have is our agriculture commodity and it should be on our bottoms, not on their bottoms. It is time we recognize we need that merchant marine fleet. It is time we stopped putting this great Nation in the 11th place in the world. It is time we recognize this is vital not only to our security but to the employment of Americans. It is time we recognize that the one thing that the foreign countries need is our commodities and they should be on our ships.

I do not buy this idea that they will not buy from us if they cannot ship them on their bottoms. We are buying from them shipping on their bottoms. It is time we used American ships, American crews, and let us defeat these two amendments.

Mr. ROBERTS. Mr. Chairman, I yield 1 minute to my distinguished colleague, the gentleman from Nebraska [Mr. BEREUTER].

Mr. BEREUTER. Mr. Chairman, I ask my colleagues to support the English-Roberts substitute. It preserves the status quo. The maritime industry does not receive benefits under the Blended Credit Program now. The adoption of the substitute does not take anything away from the maritime interests because they currently do not benefit from it now. Support the position of the Agriculture Committee.

I believe that all of you perhaps have seen the recent exposés in the Philadelphia Inquirer, the editorials in the New York Times, the Washington Post, and the Wall Street Journal pointing to problems in the cargo preference program and asking the Congress to make reforms. It is presently a shippers' market. We cannot find enough ships in reasonable condition to move the commodities now to meet the cargo preference provisions required by the Public Law 480 Program and other emergency or famine relief programs. One such ship sunk with the loss of over 30 people in 1983. The Indonesians will not let their citizens unload some of our ships because of unsafe conditions on those ships.

Now, I am going to have to feel compelled shortly hereafter if this substitute fails to try to limit the amount of price-gouging that can take place by the maritime industry and to reconsider the proper agency to fund the Cargo Preference Program.

So I say to my colleagues, save yourselves some grief. Support the English amendment and avoid the amendments I have awaiting you.

Mr. LENT. Mr. Chairman, I yield whatever time I have left to the gentleman from California [Mr. HUNTER].

Mr. HUNTER. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in opposition to the amendment, but I would hope that the chairmen of the respective committees and the committees could get together and perhaps work on some type of a compromise in the near future whereby we would be able to expand the tonnage of grain shipped under Public Law 480 which is about 2 percent of total shipments now to a tonnage figure around 10 percent, and yet ensure that it does not pervade the entire grain exporting market.

I would ask the Chairman if he could respond briefly to that.

Mr. JONES of North Carolina. I assure the gentleman that I support him.

Mr. ROBERTS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in the spirit of compromise.

I do not want to be a burr under the maritime saddle. I would not do anything to hurt my dear friend, the gentleman from North Carolina WALTER JONES. I want to smother the gentleman with grains of human kindness. I hope we could ship as much of it to North Carolina as he wants or wherever the gentleman would like to have it.

But I would like to set the record straight and ask my colleagues to vote on the merits of this issue. To my friends and colleagues on the Merchant Marine Committee I would only offer the comment that the real issue is that half of nothing is still nothing. Let me explain that statement. It is the same point as made by the chairman of the Agriculture Committee, Mr. DE LA GARZA.

As a result of a lawsuit brought by the maritime industry, not by agriculture—we did not start this—last February, a Federal court ruled that cargo preference applies to the Agriculture's Blended Credit Program, under which the USDA offers very attractive terms to promote the sale of farm products.

Now for over 30 years, cargo preference has applied to one-half of all cargo shipped under Public Law 480 and section 416 authority. I appreciate the merits of the application of cargo preference to the food aid programs. That is a totally different argument. I am not making that point. In addition, there are some in the Congress who wanted to totally repeal cargo preference. Now we have backed off. That is not what the English-Roberts argument and amendment is all about.

What the English-Roberts amendment is all about is simply half of nothing is still nothing. As a result of the court's ruling applying cargo preference to the Blended Credit Program, the Secretary did suspend the operation of the program. We have heard a lot of arguments as to why he did that, but it was suspended.

The court's ruling would have added $40 million to $50 million in additional cost. Since the ruling, no shipments have been made under that program. In short, while the maritime folks won a battle in the courts, they have not won the battle in the fight to round up the money to pay for the additional cost of applying your cargo preference to commercial export programs.

The great court victory has not resulted in one additional maritime sailor going to work. It has not resulted in any additional U.S.-carried cargoes. However, what has resulted from the ruling is that U.S. farm exports are down. As a result, the American farmer has lost over 3 million metric tons or $500 million worth of grain exports. When those exports are down, the surplus is up, the price is down, and that is how the farmer gets hurt.

During the Agriculture Committee's consideration of the farm bill, we included language reaffirming our commitment to a strong merchant marine. However, we also clarified the intent of Congress that cargo preference should, as it has in the past, apply to 50 percent of the shipments under Public Law 480 and section 416 and not commercial export promotion programs.

I know as a result what will happen if you do that in that district court, then it will be the GSM-102 Program, then it will be the Bicep Program, then it will be virtually every export program we have in the farm bill, mandated export subsidies to get our grain moving.

Quite simply, a vote for the English-Roberts compromise is a vote to allow our farmers to export their grain again, and is at the same time a vote for the maritime industry, because it does not repeal existing legislated cargo preference requirements.

I urge my colleagues to support this compromise in the committee bill.

□ 1645

Mr. JONES of North Carolina. Mr. Chairman, I yield 30 seconds to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Chairman, I support the maritime industry and I support the agricultural industry. You cannot have it both ways. I have gone down the line with the Agriculture Committee and really and truly, we are talking about jobs and a national security issue that relates to other regions of the country, where frankly subsidizing farmers is not a big issue.

So I hope that we can stick with the gentleman from North Carolina [Mr. JONES] and the gentleman from New York [Mr. BIAGGI] on this issue.

My only regret is that we do not have enough American-flag ships serving the Great Lakes region.

Mr. JONES of North Carolina. Mr. Chairman, I yield 30 seconds to the distinguished gentleman from Florida

[Mr. PEPPER], chairman of the Committee on Rules.

Mr. PEPPER. Mr. Chairman, I thank the able gentleman for yielding.

Mr. Chairman, I rise in opposition to the amendment and wish to associate myself with the remarks of the able gentleman from North Carolina [Mr. JONES] and the able gentleman from New York [Mr. BIAGGI].

Mr. JONES of North Carolina. Mr. Chairman, I reserve the balance of my time.

Mr. DE LA GARZA. Mr. Chairman, I yield the balance of our time to the gentleman from Oklahoma [Mr. ENGLISH].

Mr. STANGELAND. Mr. Chairman, will the gentleman yield?

Mr. ENGLISH. I am happy to yield to the gentleman from Minnesota.

Mr. STANGELAND. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I rise in support of the English amendment.

I believe the Roberts/English substitute amendment is a responsible compromise position, enabling both the U.S. agricultural industry and the U.S. maritime industry to move forward.

Any proposal to wipe out the Cargo Preference Programs, without a positive alternative, does not promote our farmers or our commercial mariners.

It is imperative that our Nation rebuild its U.S. merchant marine, but not on the backs of the American farmer. The farm commodity organizations must not only support but also assist in the rejuvenation of the American maritime industry. The fleet's eventual demise will undermine and decimate our American agricultural base. American farmers will watch their commodities rot on the docks, or worse yet, be held captive by a future shipping cartel of foreign nations not having to compete on the high seas for any U.S. cargoes.

Now, the farm commodity groups must join with the various maritime interests to move the cargo preference programs into the budgets of either the Departments of Transportation and/or Defense where these programs belong.

I welcome the opportunity to assist in this cooperative dialog.

Thank you.

Mr. ENGLISH. Mr. Chairman, I have been listening with a great deal of interest to the debate that has taken place with regard to the proposal that the gentleman from Kansas [Mr. ROBERTS] and I have made, one that has been made in the spirit of compromise, one that I think is fair to all sides and, quite frankly, it is one that I have great difficulty in understanding why and how there could be any opposition to it.

We have heard some very interesting accusations and I think that is the only way they can be characterized. One Member said this proposal would be a death blow to the merchant marine industry. I have difficulty in understanding how that could be the case, since they are deriving no benefits whatever as it stands today.

All the amendment that we are proposing does is to take us back to where we were on January 1 of 1985, before the court decision. Everything else applies. All the subsidies, all the shipments that were being made under the interpretation of the law at that particular point would be made under the English-Roberts proposal. There is no difference. Nor has the court decision really made any difference. It has not helped the merchant marine industry. The merchant marine industry is not shipping a single bushel more today than they were on the 1st of January of 1985, not as a result at least of this court interpretation. It is simply not being done.

How in the world then could the adoption of this amendment, which simply preserves the status quo, how in the world could that have a deathblow effect upon the merchant marine industry? I simply do not understand it.

I can understand the merchant marine industry wanting an advantage, wanting to improve that industry. I want to improve it as well, but I certainly do not think that it makes any sense to go out and provide the merchant marine industry, where there is no advantage, and there is none under these circumstances; because what exists is this, that while there is no benefit to the merchant marine industry under this court interpretation, there is great harm being done to agriculture, simply because of the fact that the moneys that have been provided for the blended-credit sales are not being used. The Secretary is not using that money, and therefore sales are not being made, and since those sales are not being made, then shipments are not being made on U.S. bottoms. That means there is no benefit to the merchant marine industry, but it means there is a tremendous impact on the price the American farmer receives.

As I stated earlier, the American Farm Bureau projects that this law so far this year has reduced the price of wheat by 32 cents a bushel.

Mr. Chairman, I urge adoption of the amendment.

Mr. JONES of North Carolina. Mr. Chairman, I yield 30 seconds to the gentleman from Minnesota [Mr. OBERSTAR].

Mr. OBERSTAR. Mr. Chairman, just as Congress in the past has voted billions of dollars for a strong agricultural sector of our economy and will again in H.R. 2100, so also should it vote to sustain a strong merchant marine through the Cargo Preference Act.

The Great Lakes ports, however, have not fully benefited from the operation of the Cargo Preference Act because of the way the USDA has manipulated this program. I have asked the chairman of the Merchant Marine Committee to hold hearings to correct this problem of the USDA.

I would like to ask the gentleman from New York when those hearings could be held, and I yield to the gentleman.

Mr. BIAGGI. October 31. We recognize the problem of the Great Lakes and will address them I am sure to the gentleman's satisfaction.

Mr. JONES of North Carolina. Mr. Chairman, I yield myself the balance of the time.

In closing, I want to compliment the opponents and the proponents for what I consider a very high-level discussion of the issue at hand, but I cannot help but feel strange to be discussing a cargo preference bill in House agriculture bill. The two are not very compatible, regardless of the arguments advanced here today.

The question is one of where will the next attack on cargo preference occur? In another committee, another agriculture committee?

So, on the question of jurisdiction, we respectfully contend and respectfully ask the membership to respect that aspect of our procedure and vote no on both the Smith and the English amendments.

Mr. BORSKI. Mr. Chairman, I want to voice my strong opposition to amendments to H.R. 2100, the Food Security Act of 1985, which weaken U.S. cargo preference laws. Our cargo preference system is not responsible for today's farm crisis. The real culprits are this administration's huge budget deficits, high interest rates and over valued dollar.

Let me emphasize that cargo preference does not cost the American farmer money. Nor does it increase the price to the foreign customer. Restricting the application of cargo preference will not increase agricultural exports nor improve the competitive position of the American farmer. But, it will have a devastating impact on the U.S. maritime industry.

Congress enacted the Cargo Preference Act of 1954 in recognition of the critical role a merchant fleet plays in this nation's domestic and foreign commerce and national defense. The costs of cargo preference are borne by all American taxpayers in furtherance of these important national policies.

Congress established cargo preference to insure the survival of our merchant fleet and guarantee our national security in times of emergency or war. Without cargo preference, our maritime industry simply could not survive in a world where many foreign governments heavily subsidize their vessels and establish protective trade barriers to promote their fleets.

Reducing the scope of our cargo preference laws will cost thousands of U.S. jobs on our ships, in our shipyards and other related industries. Cutting back cargo preference will accelerate the decline of our

merchant marine at a time when the Soviet Union is steadily building up their fleet. In the last 10 years, the Soviet merchant fleet has increased almost 70 percent and now totals 2,531 ships, while the United States has only 399 oceangoing vessels in operation.

The focus of the current debate over cargo preference is misplaced. It is the future of our merchant marine which is at stake.

In 1983, 145 million tons of agricultural commodities were exported. According to the Maritime Administration, only 2.9 million tons—slightly less than 2 percent—of these exports were subject to cargo preference. Yet, the cargo preference laws generated more than 37 percent of the total tonnage carried by the U.S. merchant marine, providing America with a fourth line of defense, at a cost well below what would be necessary in the form of a direct subsidy.

Even the cost to the public of financing cargo preference is declining. USDA's own research shows a consistent downward trend in the differential between U.S.-flag and foreign-flag vessel rates. Average U.S. tank rates for USDA-sponsored exports went from $102.37 per ton in 1981 to $51.11 in 1983. Average U.S. bulk carrier rates went from $95.69 to $61.20 in the same period.

Both U.S. agriculture and the maritime industry are essential to our Nation's security, and I reject the notion that we must sacrifice the interests of one to help the other. I am committed to helping both our farmers and maritime community compete in an international marketplace dominated by subsidized foreign competition and discriminating trade barriers.

Eliminating cargo preference simply will not help the plight of our farmers. But, it will damage substantially our maritime industry and our merchant marine. I strongly urge my colleagues to vote against any weakening of our cargo preference laws.

Mr. DAUB. I strongly support the amendment to be offered by my distinguished colleague from Nebraska, Mrs. SMITH, to repeal all cargo preference requirements.

A court applied cargo preference costs to all blended credit exports. The costs for blended credit exports would have increased to $44.8 million. Understandably, USDA opted to terminate the program rather than pay this unacceptable price. These actions resulted in the loss of $536 million in wheat exports this year.

Congress established the National Commission on Agricultural Trade and Export Policy in 1984. This Commission wrote that it strongly supports legislation "* * * to achieve nothing less than the total exemption of all Government export programs from requirements of cargo preference laws."

The Commission's thinking is in line with the editorials of the New York Times, the Washington Post, and the Wall Street Journal which all advocate ending the folly of cargo preference.

And for good reason.

The disastrous impact of cargo preference is astounding:

It is shrinking our share of agriculture markets abroad and helping to maintain price depressing surpluses at home.

It is needlessly adding to the costs of taxpayer financed storage of unsold commodities.

It is senselessly penalizing the world's hungry by eating up a full 10 percent of the food-for-peace budget.

Mr. Chairman, cargo preference's time has gone. Lets adopt this amendment and do farmers, taxpayers, and the world's hungry a favor.

Mr. MANTON. Mr. Chairman, I rise to state my opposition to the English-Roberts amendment and any other amendment to this bill that would change the current status or legal basis for the application of cargo preference to American agricultural exports.

I support our farmers. I voted for the farm bailout bill which the President vetoed earlier this year. And I intend to work hard to see that this farm bill is passed and becomes law. America's farmers are essential to our security and economic well-being. Indeed, they are essential overseas. At this time the American farm industry faces one of its worst crises ever—stagnant prices, a steadily mounting debt, and predatory foreign competitors. These problems are compounded by this administration's farm and trade policies which are distinguished by their ineffectiveness and indeed marked by a sense of callous indifference which is hard to fathom by those of us who care about our security, our economy, and our people.

Cargo preference is not the cause of our farmers' problems. How could it be? It applies to only 2 percent of our entire farm exports, and exports account for only about one-third of our entire farm acreage. Elimination of cargo preference—or adoption of schemes that would, in effect, divert cargo out of programs to which it now applies—cannot begin to address the basic problems our farmers face. Those who say otherwise are merely making up excuses, and excuses are not what our farmers need today.

For these reasons alone I would oppose any amendments to weaken our cargo preference laws. But there is a second, equally important reason for my opposition. While cargo preference is insignificant in comparison to farm support programs, it is extremely important to our merchant fleet—particularly in today's severe, worldwide shipping depression. Indeed, cargo preference provides 37 percent of our fleet's revenues, and its removal now would devastate an entire industry. Any conceivable gain to agriculture would be dwarfed by its catastrophic effect on our fleet. To me, that simply is no way to pursue public policy in this Nation.

Mr. Chairman, we should not use the farm bill as a vehicle for major changes in our Nation's maritime and national security policies. Any such changes should occur only after full and careful consideration by all relevant committees—including merchant marine and armed services. We can improve the implementation of cargo preference programs to reduce costs. Both industries must work together to implement a fair compromise between them on this issue. But neither industry will be served by the hasty victory of one over the other. I intend to support this farm bill as a measure to help American farmers. However, we do not strengthen the bill's merits or its prospects if we permit it to be used by one industry to destroy another.

Thank you, Mr. Chairman.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Oklahoma [Mr. ENGLISH] as a substitute for the amendment offered by the gentlewoman from Nebraska [Mrs. SMITH].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. ENGLISH. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 179, noes 245, not voting 10, as follows:

[Roll No. 335]

NOT VOTING—10

Addabbo	Goodling	Vento
Barnard	Gray (PA)	Wright
Berman	Manton	
Bevill	Rodino	

□ 1700

The clerk announced the following pair:

On this vote:

Mr. GOODLING for, with Mr. RODINO against.

Messrs. PACKARD, BEILENSON, LEWIS of Florida, NICHOLS, and Mrs. JOHNSON changed their votes from "aye" to "no."

Messrs. ALEXANDER, PORTER, HEFNER, and DANNEMEYER changed their votes from "no" to "aye."

So the amendment offered as a substitute for the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from Nebraska [Mrs. SMITH].

The amendment was rejected.

The CHAIRMAN. Are there further amendments to title XI?

□ 1710

Mr. DE LA GARZA. Mr. Chairman, I move that the Committee do now rise.

The CHAIRMAN. The Chair will point out to Members that this is just to allow for filing of a report.

The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA].

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. TRAXLER] having assumed the chair, Mr. BONIOR of Michigan, Chairman of the Committee on the Whole House on the State of the Union, reported that that Committee, having had under considering the bill (H.R. 2100) to extend and revise agricultural price support and related programs, to provide for agricultural export, resource conservation, farm credit, and agricultural research and related programs, to continue food assistance to low-income persons, to ensure consumers an abundance of food and fiber at reasonable prices, and for the purposes, had come to no resolution thereon.

REPORT ON H.R. 3500, OMNIBUS BUDGET RECONCILIATION ACT OF 1985

Mr. DERRICK, from the Committee on the Budget, submitted a privileged report (Rept. No. 99-300) on the bill (H.R. 3500), to provide for reconciliation pursuant to section 2 of the first concurrent resolution on the budget for the fiscal year 1986, which was referred to the Union Calendar and ordered to be printed.

FOOD SECURITY ACT OF 1985

The SPEAKER. Pursuant to House Resolution 267 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill H.R. 2100.

□ 1717

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 2100) to extend and revise agricultural price support and related programs, to provide for agricultural export, resource conservation, farm credit, and agricultural research and related programs, to continue food assistance to low-income persons, to ensure consumer an abundance of food and fiber at reasonable prices, and for other purposes, with Mr. BONIOR of Michigan in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose earlier today, all time for debate had expired on section 1141 and all amendments thereto.

Are there further amendments to section 1141?

Mr. WHITTEN. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. Without objection, the gentleman from Mississippi [Mr. WHITTEN] is recognized for 5 minutes.

There was no objection.

Mr. WHITTEN. Mr. Chairman, our colleagues on the Committee on Agriculture have done as good a job on this bill before us as is possible in view of restrictions and other problems we all face.

Since I have been in Congress, among other work, I have spent months each year on the activities of agriculture—the Department and the industry.

Many of our problems, including the $214,000,000,000 debt of agriculture, need not have happened if the executive branch had retained our export markets and kept the program of supports paid for by the user.

I believe we must return to a farm program that maintains both volume and price. On September 11, 1985, I introduced House Joint Resolution 380, which included a section to return us to a proven farm program which worked. Such a program, which our Government changed, would have prevented the current condition from occurring and, if used, will help us to overcome the present deplorable financial condition of many farmers and their creditors.

Section 107 of House Joint Resolution 380 reads as follows:

SEC. 107. Pending the enactment of general farm legislation, the Secretary of Agriculture shall use his authority under existing law to provide for nonrecourse loans on agricultural commodities at such levels as will reflect a fair return to the farm producer above the cost of production, and to issue such regulations as will carry out this provision and as will provide for payment by the purchaser, rather than by appropriation, for commodities sold for domestic use, and the Secretary of Agriculture shall issue such

regulations as will enable producers of any agricultural commodity to vote to limit their production to the volume estimated to be needed for domestic consumption, to maintain the pipeline, and to regain and retain by competitive sales our normal share of the world market.

To return to such a workable program is a must for today.

PRESENT PROGRAM A FAILURE

American agriculture is $214 billion in debt. Farm profits on basic commodities are nonexistent. Land values continue to plummet. Farm land secures much of the $214 billion debt. Of that debt, the Production Credit Associations and the Federal Land Banks of the Farm Credit System hold about $67 billion; commercial banks and insurance companies hold about $61 billion; the Government holds about $34 billion; and individuals and businesses hold the remaining $51 billion.

This debt comes largely from faulty Government policy of embargoes, threats of embargoes and failure to sell at competitive prices—which is a very real embargo—all used against the farmer.

Since World War II, the share of the consumer dollar that goes to industry and labor has increased from 49 to 73 percent by reason of protective laws while the farmer's share has declined from 51 percent down to 27 percent. Under existing farm programs, this shift in the consumer dollar under the law has forced the farmer to look for his income from the Treasury rather than from the purchaser of his commodities.

Some 30 years ago the then Secretary of Agriculture refused to sell in world trade at competitive prices U.S. commodities surplus to domestic needs. This resulted in tremendous storage costs. The press reports on storage costs were used against the farm program. Finally, we got the Secretary to let the Commodity Credit Corporation fulfill its function of selling competitively. Public opposition subsided. The program kept agriculture on a sound basis, financed on the domestic market by the purchaser, which is much, much less costly than what we have now.

Now, the administration, perhaps without meaning to, has destroyed the farm program by refusing to use the Commodity Credit Corporation, a $25 billion Corporation, to export at competitive prices basic commodities that we have and don't need domestically, which all other countries do. They have failed to use the authority which exists to have the Secretary set a fair price relative to cost, to be paid by the domestic purchaser. They leave the farmer dependent upon a payment from the Treasury.

Mr. Chairman, a balance between industry, labor and agriculture—the three basic parts of our society—is absolutely essential to the economic welfare of our country.

This has been proven many times. Yet today, agriculture, our largest industry, is no longer an equal partner in that triad.

When we fail to sell at competitive prices, we hold an umbrella over world prices, allow other nations to undersell us, and end up being the residual supplier.

ACTION NEEDED NOW

If we are to avoid the real danger of an all-out depression brought on by the collapse of American agriculture, its supporting financial institutions, and the hundreds of thousands who are employed in supporting businesses, with the resulting drastic reduction in land value, we must restore a prosperous agricultural income and we must do it now. I point out, that the drastic reduction in land values will continue unless we act now, and such a drop will bring us all down. The declining value of land used as collateral to secure existing loans will make much of the existing debt uncollectible, regardless of who is the lender.

We must do something to stretch out or otherwise deal with that $214 billion debt which could lead to massive foreclosures this year.

We must improve the price the farmer receives relative to his cost.

We must regain our fair share of world markets, either by using private firms or by using the Commodity Credit Corporation which was created for that purpose, and let the world know we expect to retain these markets. All other countries do that.

Farm land values have dropped an average of 25 percent—50 percent or more in some areas—and foreclosures will lead to further reductions as happened in the 1930's.

The pending farm bill would reduce volume and hold the line on price. Insofar as basic commodities are concerned the bill offers no hope of increased net income. Further reductions in land values are certain. Foreclosures speed the decline. Banks, Production Credit Associations, Federal Land Banks, insurance companies and other private lenders are pulled down. In fact, history shows such massive foreclosures would spread throughout the economy, bringing all sectors down.

RECONSTRUCTION FINANCE CORPORATION

I introduced a bill in 1981, 1983 and again on February 19, 1985, H.R. 1147, to recreate the Reconstruction Finance Corporation [RFC]. It is pending before the Banking and Finance Committee which held hearings last year. The RFC was created by Congress during the Great Depression to squeeze the inflation out of uncollectible debts and let the lenders and borrowers get together on a new start. It worked to help us recover from the Great Depression because it kept both creditor and debtor in business by taking over the debt for what it was really worth. It played a major role in pulling the country out of the terrible depression of the mid-1930's. We need to try it again. It should help to prevent a major depression that appears to be in the making.

While Congress acts to recreate the RFC, the Secretary of Agriculture should suspend repayment of principal and interest on Government loans as he has the authority to do. Other lenders should be urged to do the same and let the farmer obtain a new start.

COMMITTEE FACED WITH DIFFICULT DECISIONS

Mr. Chairman, my friends on the Agriculture Committee have been faced with an exceptionally difficult challenge this year in drafting a farm bill. Many affecting factors are beyond their jurisdiction. Because of this, I do not intend to offer amendments to their bill, but rather to urge that my proposal to return to a workable program be attempted in conference.

The administration's proposal says, "If we drive the price down low enough, the farmer will produce less." To meet reduced prices the farmer has always increased volume. It's the only way to offset a drop in price. Of course, most farmers cannot make it now and for those that are left, a lower price or volume would surely finish them off.

Then the Agriculture Committee is called on to live within an overall budget ceiling which would easily be met if we returned to the former policy of requiring that the purchasers pay a reasonable price to the producer. Agriculture is the foundation of our economy. If you let the farmers of this country go down the drain, it won't matter how much you're allocating to other programs because history shows the rest of the country will follow agriculture into depression. Remember, it was the agricultural depression of the 1920's that led to the Great Depression of the 1930's. The same goes for all other depressions.

As a result of the pressure their committee faced, the bill before us provides for further reductions in volume and does nothing to improve price. It does nothing to add to farm income nor to relieve this oppressive debt that the farmer faces.

PROGRAM WHICH WORKED

Mr. Chairman, section 107 of House Joint Resolution 380, which I read earlier, would embody many of the provisions of the pending bill but would also maintain both price and volume. My proposal would simply return us to time-tested farm programs that worked so well for years.

It would require the Secretary of Agriculture to use his authority under existing law to provide for nonrecourse loans on basic agricultural com-

modities at such levels as will reflect a fair return above the cost of production to farm producers.

In determining that price, the Secretary would be required to determine a base period which reflects a period when the price of a given commodity was in balance with the cost of other farm inputs. That base period should be an appropriate interval during the years 1960 to 1980. Most people today can no longer relate to the concept of parity when it is based on the period of 1909 to 1914.

The Secretary would also be required to use his authority under existing law to issue such regulations as will enable producers of any basic agricultural commodity to vote to limit their production to the volume estimated to be needed for domestic consumption, to maintain the pipeline, and to regain and retain the United States' normal share of world markets.

Perishable commodities, where 1 year's surplus generally does not carry over into the next year, were and still are supported by section 32 funds—30 percent of tariff receipts on imports. These funds are used to buy up surpluses for use in the School Lunch Program, feeding programs for the needy, and other such outlets. Unfortunately, in recent years there have been attempts in Congress to transfer cash directly rather than commodities or to divert the fund to other uses, thereby defeating the intent of the program and its essential price support benefits.

Finally, the Secretary would be required to offer commodities, which are surplus to domestic needs, for sale for export to the highest bidder in such amounts and quantities as are necessary to assure our normal share of world markets as was done for many years.

Most sales would continue to be made by the export companies, many of which are international corporations, but the use of CCC—or the potential use of CCC—helps to keep the pressure on and keep U.S. commodities moving.

NEED TO KEEP FARMERS FARMING

Mr. Chairman, in view of this year's record harvest and commodity prices that are below the cost of production, it will be essential that the Secretary use his authority under existing law to provide for a moratorium on repayment of principal and interest. We must keep the farmer farming while the Congress enacts a new farm bill. We must restore the Reconstruction Finance Corporation so we can provide relief from that oppressive debt of $214 billion.

Mr. Chairman, my proposal provides for nothing radical or unusual. It merely reestablishes a proven farm program that is already available under permanent law. Mr. Chairman, when the conferees on this bill meet in conference, I hope they will keep my recommendations in mind. It's a proven approach that works.

AMENDMENT OFFERED BY MR. BEREUTER

Mr. BEREUTER. Mr. Chairman, I offer an amendment.

The CHAIRMAN. Has the gentleman's amendment been printed in the CONGRESSIONAL RECORD as of September 24, 1985?

Mr. BEREUTER. Yes; it has, Mr. Chairman.

The Clerk read as follows:

Amendment offered by Mr. BEREUTER: Page 275, after line 11, insert the following new section:

TRANSFER OF RESPONSIBILITIES

SEC. 1142. (a) Section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)) is amended to read as follows:

"(f) Export or cause to be exported, or aid in the development of foreign markets for, agricultural commodities; except that no funds or assets of the Corporation may be used to pay for, or otherwise finance, the ocean freight charges for any such export to the extent that such charges are higher than would otherwise be the case by reason of a requirement that the commodity be transported in United States-flag vessels.".

(b) Notwithstanding any other provision of law, the Maritime Administration shall pay the ocean freight charges for the export of agricultural commodities arranged by or through the Commodity Credit Corporation under the authority of section 5(f) of the Commodity Credit Corporation Charter Act (15 U.S.C. 714c(f)), or other law, to the extent that such charges are higher (than would otherwise be the case) by reason of a requirement that the commodities be transported in United States-flag vessels. There are authorized to be appropriated to the Department of Commerce, for each fiscal year after fiscal year 1985, such sums as may be necessary to pay the ocean freight charges paid in accordance with the preceding sentence by the Maritime Administration during such year.

□ 1725

The CHAIRMAN. The gentleman from Nebraska [Mr. BEREUTER] is recognized for 5 minutes, as he has had the amendment printed in the CONGRESSIONAL RECORD; and when his 5 minutes have expired, an opponent thereto will be recognized for 5 minutes, if one rises.

The Chair recognizes the gentleman from Nebraska [Mr. BEREUTER.]

Mr. BEREUTER. Mr. Chairman, I permitted the Clerk to read the entire amendment in its entirety because I wanted the Members to hear it; it will save lengthy explanation of it. I think the issue is fairly straightforward.

The House having worked its will, continuing cargo preference on the Food for Peace Program, on our famine relief programs for Africa and in fact is apparently moving toward putting Judge Green's decision in statute.

We have heard much discussion about subsidies to the merchant marine and maritime industry and why they should be continued. I do not argue that a subsidy is appropriate; I support it.

For a long time, Members have said, "Well, perhaps we ought to fund the cargo preference program directly through the Department of Transportation, specifically the Maritime Administration or the Department of Defense, rather than through a hidden subsidy program in the USDA budget items distorting upward that budget. What my amendment does is straightforward. It provides that the cost of transporting these commodities under the Cargo Preference Program, either grain or processed food, be budgeted within the Maritime Administration.

I think that the issue is fairly clear. I want to give the Members an opportunity to vote on this issue. I strongly urge support for this amendment.

I yield back the balance of my time.

Mr. JONES of North Carolina. Mr. Chairman, I rise in opposition to the amendment, and for the moment yield to the distinguished chairman of the Committee on Agriculture.

Mr. DE LA GARZA. I thank the gentleman for yielding, and I do so to advise the gentleman and our colleagues that the only amendment that the Committee on Agriculture had has been disposed of. Any other amendments related to cargo preference are not amendments sponsored by the Committee on Agriculture.

Mr. JONES of North Carolina. I appreciate the chairman's support.

Now, Mr. Chairman, my opposition is based not so much on the merits of the proposal of the gentleman from Nebraska [Mr. BEREUTER]; perhaps it has some merit, but it is a major change. It is one which changes the whole procedure for financing cargo preference; it has not been considered by any committee; has not even been introduced as a bill; the chairman of the Committee on Agriculture just said it has not been discussed by his committee; it has not been presented to our committee and on that basis, at this late hour here on Thursday afternoon, I ask a "no" vote on the gentleman's amendment until such time as the committees of jurisdiction, whichever that might be, have an opportunity to consider debate, amend, et cetera, his proposal.

I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Nebraska [Mr. BEREUTER].

The question was taken; and on a division (demanded by Mr. BEREUTER) there were—ayes 37, noes 45.

RECORDED VOTE

Mr. BEREUTER. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 151, noes 269, not voting 14, as follows:

[Roll No. 336]

NOT VOTING—14

Addabbo	Gray (PA)	St Germain
Barnard	Kindness	Vento
Berman	Manton	Waxman
Bevill	Owens	Wright
Borski	Rodino	

□ 1735

Mr. TALLON and Mr. SILJANDER changed their votes from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

Mr. BEREUTER. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. Without objection, the gentleman from Nebraska [Mr. BEREUTER] is recognized for 5 minutes.

There was no objection.

□ 1750

Mr. BEREUTER. Mr. Chairman, the hour is late, discretion is the better part of valor, the handwriting is on the wall, all those kinds of things that I might say which are applicable right now.

I would like to ask unanimous consent to revise and extend my remarks and engage in a colloquy with the distinguished chairman of the Merchant Marine and Fisheries Committee.

The chairman knows that the thrust of the other six amendments that I have pending basically include the idea of not only moving the funding to the Maritime Administration, moving the funding to the Defense Department and beginning to cap the differential or maximums on cargo preference cost between domestic shipping and foreign shipping, including, for example, a 25-percent limitation as the amount of domestic costs in excess of the foreign shipping.

In short, Mr. Chairman, I will not proceed with my remaining amendment, but I would like to ask the chairman if he would, as a part of his committee's jurisdiction, consider the intent of those amendments that are pending and consider in hearings such legislation as the legislation introduced by the gentleman from Iowa, COOPER EVANS, which moves the funding to the Maritime Administration, and other legislation which moves it to the Department of Defense.

I yield to the chairman.

Mr. JONES of North Carolina. The gentleman and I have discussed this in private conversation, and he explained to me his intents and purposes, many of which I agree with. I think he has some very good ideas, but they need consideration, perhaps refining and amending, and what not, and I can assure the gentleman, as chairman of that committee, I would welcome at any time any of his legislation, it will be given a full and impartial hearing, and to whatever witnesses the gentleman sees fit to provide, the committee will be very gracious and understanding. I can assure the gentleman that his proposed legislation will in no way be pigeonholed or set aside.

Mr. BEREUTER. I thank the chairman for his gracious attitude and comments, and I look forward to working with him in pursuit of what are, hopefully, common objectives.

Mr. KLECZKA. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. Without objection, the gentleman from Wisconsin [Mr. KLECZKA] is recognized for 5 minutes.

There was no objection.

Mr. KLECZKA. Mr. Chairman, I have an amendment at the desk which I have prepared to the cargo preference section of the bill. I will not bring the amendment before the body at this time.

I would like, however, to make a comment or two on the Cargo Preference Act itself.

We are now about to conclude debate on this section of the bill. During the lengthy debate on the amendments to the bill's cargo preference provisions, we were told that the program is working effectively. Well, after listening very intently over this period of time, I think one can con-

clude that it is not working effectively. It is not working in the best interest of the agricultural interests of the country, it is not working in the best interest of those who deal with the Blended Credit Program, it is not working in the best interest of the Public Law 480 program, and, most importantly, for the area I represent, it is not working in the best interest of the Great Lakes and the Port of Milwaukee.

Mr. Chairman, we were also told that the merchant marine's future is at stake. Well, let me tell you what is actually transpiring on the Great Lakes. Because of the Cargo Preference Act, and because of the 50-percent requirement, we are seeing cargoes diverted from the ports of the Great Lakes to the ocean ports.

Now, if you contend that the merchant marine will be adversely affected by any changes in the law, I assure you today, Mr. Chairman, that the Great Lakes are already affected today. We are losing revenue and we are losing jobs, from longshoremen, to truckers, to millers. So even though I will not introduce the amendment, the amendment would have the effect of going back to the old, sound practice wherein the Department of Agriculture would apportion these grain shipments under title II of Public Law 480 according to the lowest landed cost. That is not the case for this year, and what they are doing instead is diverting those shipments off the Great Lakes at a high premium.

The gentleman from Minnesota [Mr. OBERSTAR] did take the floor and did enumerate a short time ago some of the problems the Great Lakes ports are having, and I have personally talked to the chairman of the Merchant Marine Committee, the gentleman from North Carolina [Mr. JONES], and in listening to the colloquy between Mr. OBERSTAR and Mr. BIAGGI, the fact is that the subcommittee will be holding hearings on this important matter on October 31 of this year. I look forward to those hearings not only to resolve the problems of the Great Lake ports, but also, I hope, to take up the problems of our brothers and sisters in the agriculture community vis a vis cargo preference.

Mr. Chairman, my amendment addresses a serious problem in the export of agricultural commodities—the costs of cargo preference to the agricultural community and to the Great Lakes.

As we proceed with a farm bill that attempts to bolster the economy of America's heartland, we must remember the terrific importance of such export programs as Public Law 480 to several economies around this country.

In 1985, Food for Peace has resulted in over $1.5 billion in commodity purchases from American farmers. What may be less apparent is that Food for Peace shipments have also resulted in some 250,000 tons of cargo moved through Great Lakes ports. This cargo means revenue and jobs to our region—not just for longshoremen and port personnel, but for railroad workers, grain elevator operators, and thousands of milling company employees.

Although Public Law 480 shipments have been a blessing to the Great Lakes economy, that economy is also vulnerable. Due to declining exports of machine tools and other industrial products, Public Law 480 cargos now comprise over 90 percent of the general cargo leaving Milwaukee, Duluth, and Green Bay. A similar situation exists at Chicago and other ports throughout the region.

That vulnerability has been heightened by the cargo preference law. Since the lakes have limited U.S.-flag capability, our market has been limited primarily to the 50 percent available to foreign flags.

Despite this challenge, our ports have managed to hold their own over the years. Our proximity to the production and processing sites of the commodities, our superior port efficiency, and a host of inexpensive carriers have made Great Lakes shipping a good buy for America.

Now, however, the administration and USDA is turning its back on a good buy. As a result, the interests of the Great Lakes, the farm belt, and common sense are being tossed out the window.

Recently, nearly 100 million pounds of Public Law 480 cargo that would have traveled through the lakes according to standard competitive bidding procedures was diverted to other coastal ranges in search of scarce U.S. flagships over the past year, the extra cost of securing U.S. flagships just for title II has been a staggering $55 million. That's $55 million that could have bought food from farmers—$55 million that could have fed the hungry in Africa.

Some may argue that a $55 million premium is simply a cost of doing business. Mr. Chairman, that may be true for some programs, but not for title II. Title II is unique in that the U.S. Government pays every penny for both procurement and transportation. Beyond this, until 1984, USDA was able to meet its 50-percent requirement without the need for huge subsidies. Instead, USDA adhered to a lowest landed-cost system in which the lowest bidder won the cargo. At that time, U.S. flags faced up to the competition.

Mr. Chairman, the amendment that I am prepared to offer would avoid this $55 million waste of taxpayer funds by requiring that for title II of Public Law 480 USDA must again adhere to a lowest landed-cost system. Besides saving money, this amendment would allow the Great Lakes ports to compete, while encouraging U.S. flags to make themselves competitive.

Mr. Chairman, I would add that the lowest landed-cost approach need not be the only solution to the current cargo preference problem. As most of my colleagues know, the cargo preference law requires a 50-percent U.S.-flag participation to the extent such vessels are available at fair and reasonable rates.

To everyone's loss, the agencies responsible for administering the law have avoided defining availability to the point where this year a title I shipment of corn to Zambia resulted in U.S.-flag shipping costs of $95 per ton versus. $18 on a foreign flag. The cost of this premium to the taxpayer was over $2 million.

I ask my colleagues, is that a fair and reasonable rate? If the administration refuses to define availability, it is the responsibility of this Congress to do so, and I intend to offer legislation to that effect in the near future.

To sum up, Mr. Chairman, the Great Lakes and the agricultural community have a lot to lose if cargo preference continues on its current course. We recognize the need for a strong merchant fleet, and are willing to commit tax dollars to that end. Certainly no one wants to see American maritime workers lose their jobs. But there are thousands of American jobs in my district and throughout the region that also stand to be lost if our interests are ignored. If we can find a way to save cargo preference and respect the economic rights of the Great Lakes, I am all for it; but time is running out.

I will say that I am encouraged to hear that the Committee on Merchant Marine and Fisheries intends to address this issue on October 31, 1985.

Given the assurances of the upcoming hearing by the Merchant Marine Committee, I will decline to offer my amendment at this time. I will, however, continue to work for a fair deal for the Lakes on this issue, and hope that the chairman's concern will result in an early solution.

AMENDMENT OFFERED BY MR. BEDELL

Mr. BEDELL. Mr. Chairman, I offer an amendment.

Mr. CHAIRMAN. Is the amendment printed in the RECORD?

Mr. BEDELL. Yes, it is, Mr. Chairman.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. BEDELL: On page 278, line 16, add the word "and" following the semicolon.

On page 278, line 23, strike "; and" and insert a period in lieu thereof.

On page 278, beginning on line 24, strike paragraph (11).

On page 279. beginning on line 6, strike all that follows through line 18 on page 282, and insert in lieu thereof the following:

"EXPORT MARKET DEVELOPMENT REPORT

"SEC. 1154. In order to implement the findings set forth in section 1153, not later than one year after the date of enactment of this Act, the Secretary of Agriculture, in conjunction with the Administrator of the Agency for International Development, and in consultation with the Secretary of State and the United States Trade Representative, shall submit to the President and the Congress a report that—

"(1) contains a global analysis that evaluates future production and food needs in the world, with special attention to the developing countries;

"(2) identifies a minimum of fifteen target countries that are most likely to emerge as growth markets for agricultural commod-

ities and products thereof in the next five to ten years; and

"(3) contains a detailed plan for using available export and food aid authorities to increase United States exports of agricultural commodities and products thereof to each of such target countries, and specifies the particular export and food aid authorities to be used in each such country and the manner in which such authorities are to be used. Each year thereafter, through fiscal year 1990, the Secretary shall submit a revised report to the President and the Congress that evaluates the progress made in implementing the plan, contains any changes that need to be made in the plan based on changed conditions, and recommends any changes in legislative authorities that are needed to accomplish the objectives of this section."

Mr. BEDELL [during the reading]. Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

There was no objection.

Mr. BEDELL. Mr. Chairman, this is an amendment that I think has been agreed to by all parties. It simply removes the special assistant that I had placed in the legislation during the committee deliberations.

Mr. Chairman, I yield to the gentleman from Wisconsin [Mr. GUNDERSON].

Mr. GUNDERSON. Mr. Chairman, I am pleased to rise in support of the amendment of the gentleman from Iowa [Mr. BEDELL] to section 1154 of H.R. 2100. During the consideration of this section by the full House Agriculture Committee, I voiced several concerns about the establishment of a new layer of bureaucracy in the whole area of agricultural exports and food aid.

While the proposed creation of a Special Assistant to the President for Ag Exports and Food Aid is well-intentioned, the facts are that we already have more than enough agencies and individuals within the Federal Government which work in this area including the U.S. Trade Representative and the Agency for International Development as well as the State Department, Commerce Department, and the Department of Agriculture. It seems to me that we need less—not more—bureaucracy in this regard.

Quite frankly, the creation of a new Special Assistant would only serve to duplicate, confuse, and further dilute the policymaking roles of the Secretary of Agriculture and the U.S. Trade Representative in agricultural trade. If there are problems in the existing structure, we should be finding ways to make that structure more effective, not confuse it further.

Accordingly, I printed an amendment in the RECORD on September 24 (page H7781) which, if adopted, would strike the new Special Assistant position provided in section 1154 while maintaining the study of export market development included in that section. Under my amendment, that study would now be conducted by the Secretary of Agriculture in conjunction with the U.S. Trade Representative.

The amendment offered by the gentleman from Iowa is virtually identical to that which I printed in the RECORD on September 24. I, therefore, commend him for offering it at this time and urge my colleagues to support it.

Mr. BEDELL. Mr. Chairman, this amendment is also offered because of some concerns that have been raised by other committees.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa [Mr. BEDELL].

The amendment was agreed to.

The CHAIRMAN. Are there other amendments to title XI?

Mr. SKELTON. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. Without objection, the gentleman from Missouri [Mr. SKELTON] is recognized for 5 minutes.

There was no objection.

Mr. SKELTON. Mr. Chairman, I rise in strong support of the agricultural trade provisions contained in H.R. 2100, the Food Security Act of 1985. It is my belief that there will be no substantial long-term improvement in our farm economy until we reverse the decline in agricultural exports, which has now reached its lowest level in 6 years. We need to begin creating new markets for our agricultural products, and expand existing ones. The maintenance and development of export markets is vital to our farm economy: Currently, about one-third of harvested crops are exported and between one-fifth and one-fourth of farm receipts are generated by exports.

Moreover, U.S. agricultural exports generate employment, income, and purchasing power across the entire economy. They help reduce the cost of farm programs. It has been estimated that each dollar of agricultural exports generates an additional dollar of domestic economic activity and that every $1 billion of farm exports creates 35,000 jobs. In addition, net U.S. agricultural exports help to offset the overall trade deficit by nearly $12 billion each year.

Mr. Chairman, the strong dollar, the world debt crisis, and the global recession have played major roles in the decline of U.S. agricultural exports in recent years. Other factors have also hurt, including unfair trading practices pursued by competing agricultural exporting nations, worldwide surpluses of agricultural commodities, limited U.S. use of export credit and loan guarantee programs, and the perception that the United States is an unreliable supplier of agricultural goods. H.R. 2100 contains strong provisions to help counter these factors.

Mr. Chairman, I am pleased that H.R. 2100 includes many of the proposals contained in a three-bill agricultural trade legislative package which I introduced earlier this year, including an export bonus program to encourage expansion of farm exports, extension of authority for the agricultural export credit revolving fund for 5 more years, and more stringent requirements on inspection and other standards for imported meat and meat products. My legislation also required the labeling of imported meat and meat products, and H.R. 2100 requires a study of the feasibility of such action.

I appreciate, Mr. Chairman, the attention of the Agriculture Committee to these recommendations and the legislation that I introduced along this line.

Mr. Chairman, the export bonus program is necessary in order for our Nation to counter the predatory export subsidies which many other nations provide to their farmers. This will help us regain some of the markets we have lost in recent years. Safeguards included in the legislation will help prevent the program from causing a disruption in the normal commercial marketings of U.S. commodities.

The reauthorization of the agricultural export credit revolving fund gives us an important tool for market development and expansion and to meet credit competition. I was the original House sponsor of agricultural export credit revolving fund legislation, and I cosponsored the amendment which attached the measure to the 1981 farm bill. I have been disappointed that, despite strong congressional support for the fund, the administration has not supported an appropriation to activate the program.

This, truly, is disappointing.

Thus, I strongly support the provision included in this bill by the House Agriculture Committee that provides for the fund to be self-financed from the repayments received by the CCC for commercially oriented direct export credit loans. That is a good idea, and I applaud them for doing this.

Mr. Chairman, strengthening the requirements on inspection and other standards for imported meat and meat products will help provide fairer trade for U.S. meat producers, and is also proconsumer. It protects both the American consumer from consumption of dangerous substances as well as American producers from unfair competition from foreign producers who are permitted to produce meat and meat products by using chemicals and drugs which are restricted in the United States for health and safety reasons. I believe that meat produced in foreign nations for importation into the United States should be subject to the same health and safety standards as meat produced in the United States of America. The legislation which I in-

troduced went further and required the labeling of imported meat and meat products, and required that eating establishments serving imported meat inform their customers of that fact. H.R. 2100 contains a provision requiring a study to evaluate the feasibility of labeling imported meat and meat food products and agricultural commodities and the products of such commodities. I welcome this study and I am looking forward to its results. I believe that consumers have the right to be informed that they are buying foreign-produced agricultural commodities, both at the supermarket and in restaurants.

Mr. Chairman, I believe that the agricultural trade provisions of H.R. 2100 will help reverse the continuing slump in U.S. agricultural exports. This is essential if we are to see prosperity on our farms once again. I urge all of our colleagues to give their full support to the agricultural trade policy included in H.R. 2100, the Food Security Act of 1985.

AMENDMENT OFFERED BY MR. GEJDENSON

Mr. GEJDENSON. Mr. Chairman, I offer an amendment.

The CHAIRMAN. Has the amendment been printed in the CONGRESSIONAL RECORD as of September 24?

Mr. GEJDENSON. Yes, it has, Mr. Chairman.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. GEJDENSON: Page 253, after line 18, insert the following new section:

CHILD IMMUNIZATION

SEC. 1107. (a) The Agricultural Trade Development and Assistance Act of 1954 is amended—

(1) in paragraph (11) of section 109 (7 U.S.C. 1709(11)) by inserting immediately before the period at the end thereof ", including the immunization of children";

(2) in the first sentence of section 206 (7 U.S.C. 1726) by striking out "or" before "(B)", and by inserting immediately before the period at the end thereof ", or (C) health progams and projects, including immunization of children"; and

(3) in the second sentence of section 301(b)(7 U.S.C. 1727(b)) by inserting "(including immunization of children)" immediately after "health services".

(b) In the implementation of health programs undertaken in relation to assistance provided under the Agricultural Trade Development and Assistance Act of 1954, it shall be the target for the organizations and agencies involved to provide for the immunization by fiscal year 1987 of at least three million more children annually than receive immunizations under such programs in fiscal year 1985. Such increased immunization activities should be taken in coordination with similar efforts of other organizations and in keeping with any national plans for expanded programs of immunization. The President shall include information concerning such immunization activities in the annual reports required by section 634 of the Foreign Assistance Act of 1961, including a report on the estimated number of immunizations provided each year pursuant to this subsection.

Mr. GEJDENSON (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

Mr. GEJDENSON. Mr. Chairman, I will not take the entire 5 minutes. I believe that both the majority and the minority of the committee have accepted the amendment.

Mr. Chairman, preventative health care is clearly the most cost effective means of preventing childhood disease and death. It has been shown, for example, that for every 100 immunizations given, five children's lives are saved and another five are saved from a crippling disease. Thus, an increase of 3 million vaccinations annually would mean that 300,000 children would be saved from being crippled or killed. Currently, at least 4½ million children around the world die or are handicapped each year by only three vaccine-preventable diseases: neonatal tetanus, measles, or pertussis. If you include the deaths and disease attributed to three other diseases, the total number of children killed or handicapped by vaccine-preventable diseases rises to more than 10 million each year.

And yet, in 1984, only 20 percent of children in developing countries were protected against all or most of the common childhood diseases. One of the greatest obstacles in raising the immunization rate has not been the lack of vaccines or any unwillingness on the part of any agency, but the inconvenience associated with going to special health centers where vaccines are given. Many mothers are unable or unwilling to travel the distance to local health centers. One way to overcome this obstacle would be to take advantage of the fact that currently, 25 million children regularly visit Public Law 480 food distribution centers. So, a sensible thing to do would be to make vaccines available at those food distribution centers.

By combining the two services—food distribution and vaccinations—I foresee little difficulty in reaching the target of 3 million more immunizations annually.

Last, I would note that this amendment was approved by the Foreign Affairs Committee and the full House but was dropped in conference with the understanding that it would be included in another conference.

Mr. Chairman, I yield to the gentleman from Iowa [Mr. BEDELL].

Mr. BEDELL. Mr. Chairman, this side of the aisle has looked at the amendment, and we have no objection to the amendment.

Mr. MADIGAN. Mr. Chairman, will the gentleman yield?

Mr. GEJDENSON. I yield to the gentleman from Illinois.

Mr. MADIGAN. Mr. Chairman, I understand that we have also looked at the amendment, and we have no objections to the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Connecticut [Mr. GEJDENSON].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. DASCHLE

Mr. DASCHLE. Mr. Chairman, I offer an amendment.

The CHAIRMAN. Has the amendment been printed in the CONGRESSIONAL RECORD as of September 24?

Mr. DASCHLE. Yes, Mr. Chairman.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. DASCHLE: On page 282, after line 8, insert the following:

"Subtitle F—Trade Practices

"FINDINGS

"SEC. 1161. Congress finds that—

"(1) the production and marketing of agricultural commodities and products constitute one of the great basic industries of the United States, accounting for more than twenty percent of the gross national product and employing more than twenty-two million people or one-fifth of the total of private sector employment of the Nation;

"(2) the prosperity, security, general welfare, and economic progress and stability of the Nation are dependent on a productive, efficient, and profitable agricultural economy;

"(3) current unprofitable agricultural commodity production, depressed commodity prices, plummeting production asset values, massive agricultural indebtedness for which repayment ability does not exist constitute a dire economic emergency in the Nation's agricultural economy;

"(4) the equitable marketing of agricultural commodities and products in foreign commerce is essential in order for agricultural commodity producers to achieve a fair, reasonable, equitable, and adequate return on investment in production, economic stability, and profitability;

"(5) obstacles erected by foreign nations to the marketing of agricultural commodities and products in international commerce depress the price received by United States producers of such commodities impairing the purchasing power of such producers, destroying the value of agricultural assets, jeopardizing the credit structure on which such asset values are based, threatening the disruption and discontinuance of the production of agricultural commodities by such producers, increasing the net cost of commodity price support loans and payments made to such producers of commodities, all of which are contrary to the national interest.

"REPORT BY SECRETARY; TRADE PRACTICES

"SEC. 1162. Within 60 days after the date of enactment of this Act and within 30 days after the first day of each of the fiscal years 1987 through 1990, the Secretary of Agriculture shall submit to the President and Congress a report that describes in detail—

(1) any tariff, import restriction, nontariff barrier, or any similar trade practice or program, and

(2) any export subsidy, export restitution payment, export incentive, export reimbursement, or any similar trade practice or program

used by each foreign nation during the fiscal year preceding such report that has the effect of prohibiting, discouraging, decreasing, disadvantaging, or otherwise inhibiting or adversely affecting the exportation from the United States of agricultural commodities or products produced in the United States.

Mr. DASCHLE (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from South Dakota?

There was no objection.

Mr. DASCHLE. Mr. Chairman, trade is becoming a growing concern to all of us. Trade barriers of all kinds are increasing in numbers, and that is especially true is world agricultural markets.

Recently, I attempted to learn the extent of these barriers. In fact, my study began, very simply, by attempting to determine the extent of increase in agricultural imports including all commodities in food, feed, fibre and fuel; both processed and unprocessed.

To my surprise, no comprehensive information such as this exists. In fact, there is no regular data even kept on the extent to which any tariffs or export subsidies exist within current trade practices by our foreign economic and agricultural competitors.

These facts are most disconcerting. How are we to decide the impact of trade barriers if we have no idea of what they are. How are we to decide what must be this country's response to these unfair trade practices if we know not what they are? How are we even to formulate sound agricultural trade policy if we do not have the facts?

My amendment is very simple. It requires the Secretary of Agriculture to submit a report to the President and the Congress within 60 days after the enactment of this act and each succeeding year through 1990 which describes two areas of trade practices used by our trading competitors in world agricultural trade.

First, any tariff, import restriction, or nontariff barrier.

Second, any export subsidy, export restitution payment, export incentive or export reimbursement.

Mr. Chairman, it is a reasonable and timely amendment. It deserves the support of the House.

At this time, Mr. Chairman, I yield to the gentleman from Illinois [Mr. MADIGAN].

Mr. MADIGAN. I thank my friend, the gentleman from South Dakota, and I wish to advise him that we have studied his amendment. We think it is a very good amendment, and we are anxious to see it adopted.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. DASCHLE. I yield to the gentleman from Iowa.

Mr. BEDELL. Mr. Chairman, we have also looked at the amendment on this side of the aisle and we support the amendment.

□ 1805

The CHAIRMAN. The question is on the amendment offered by the gentleman from South Dakota [Mr. DASCHLE].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. DORGAN OF NORTH DAKOTA

Mr. DORGAN of North Dakota. Mr. Chairman, I offer an amendment.

The CHAIRMAN. Has the amendment been printed in the CONGRESSIONAL RECORD as of September 24?

Mr. DORGAN of North Dakota. That is correct, Mr. Chairman.

The Clerk read as follows:

Amendment offered by Mr. DORGAN of North Dakota: Page 263, line 14, insert "(A)" after "(1)".

Page 264, after line 2 insert the following:

(B)(i) The Secretary shall establish a pilot program to carry out, during the fiscal year ending September 30, 1986, barter and countertrade transactions which are authorized under subsection (a)(3) in which the Secretary acquires and holds strategic or other materials that the United States does not domestically produce in amounts sufficient for its requirements and for which national stockpile or reserve goals established by law are unmet.

(ii) In establishing pilot programs under this subparagraph, the Secretary shall give priority—

(I) to materials that entail less risk of loss through deterioration and have lower storage costs than the agricultural commodities they replace; and

(II) to nations with food and currency reserve shortages.

(iii) In establishing such programs, the Secretary shall consider barter and countertrade opportunities with—

(I) Zaire, for wheat and wheat flour in exchange for cobalt, tantalum minerals, germanium, zinc, copper, and diamonds;

(II) Zimbabwe for corn (and soybean oil) in exchange for chromium;

(III) Zambia for corn (and oilseeds) in exchange for cobalt;

(IV) Malaysia for rice, wheat, tobacco, cheese, and corn in exchange for rubber and oil;

(V) Brazil for wheat, corn, and non-fat dry milk in exchange for manganese ore and columbian concentrate.

(VI) Nigeria for corn and rice in exchange for oil.

(iv) The Secretary shall cooperate fully with the private sector for the consummation of the proposed barter transactions.

(C) The Secretary shall report to Congress not later than March 30, 1986 on progress in implementing pilot programs under this subparagraph. Such report shall include—

(i) a statement as to any progress in establishing any such programs with any country listed in this subparagraph; and

(ii) with respect to each such program, a description of—

(I) the agricultural commodities and strategic materials or minerals to be involved in the program; and

(II) the scope and timetable of the transaction.

Mr. DORGAN of North Dakota (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from North Dakota?

There was no objection.

Mr. DORGAN of North Dakota. Mr. Chairman, let me briefly describe this bill. This bill would require a pilot barter project to be conducted in the next fiscal year by the U.S. Department of Agriculture. Congressman COOPER EVANS from Iowa has done a lot of work in this area. I have worked in this area.

There does exist in this farm bill a barter provision. This amendment strengthens that and says, look, there are a lot of cash-poor countries out there that need our food but have no money. They do have strategic materials that we ought to trade for.

President Eisenhower had a barter program in the 1950's. We bartered 6 billion dollars' worth of goods around the world. We do not now have a barter program. I would like to see us establish a barter program to enhance our exports markets. It does three things: It helps reduce our surplus commodities and increases trade. No. 2, it fights hunger, and No. 3, it helps fill our strategic stockpile.

Mr. EVANS of Iowa. Mr. Chairman, will the gentleman yield?

Mr. DORGAN of North Dakota. I yield to the gentleman.

Mr. EVANS of Iowa. I want to compliment the gentleman on his amendment. I think it is an excellent one. We have been trying to get the Department to do something actively in this area for a number of years. They have been unwilling to do so, and I think it is time we mandated the pilot project, and I strongly endorse your amendment.

Mr. ANTHONY. Mr. Chairman, will the gentleman yield?

Mr. DORGAN of North Dakota. I yield to the gentleman.

Mr. ANTHONY. I thank the gentleman.

Mr. Chairman, we just made a trip in August and we went to Japan and China, and I found an interesting thing there. China wanted to buy computers and certain things for their high-technology industry, but they had a surplus of corn in the northern part of China. They do not have a transportation system to get it to the southern part where they have a shortage. So they told the Japanese they would not buy their high-technology equipment until they bought their corn.

The Japanese wanted to sell their high-technology equipment, so they

bartered out and bought their corn. Guess whose agricultural trade is down over 14 percent through the first half of this year with Japan? The United States because we lost the corn market.

I think we have got to fight fire with fire, and I think the gentleman has come with an excellent suggestion.

Mr. DORGAN of North Dakota. I appreciate the gentleman's statement; I think it is right on the mark. I would like to just mention one more thing for the record.

In the legislation, with the Congressional Research Service information, I have specifically outlined some areas. Trading corn to Zimbabwe in exchange for chromium. Corn to Zambia in exchange for cobalt. Rice, wheat, and tobacco to Malaysia in exchange for rubber and oil. The list goes on and on and on. I am just saying that this is a very modest step. It requires a pilot project of barter to be conducted in the next fiscal year; it requires that. We ought to do that. It is a modest first step. It is the right thing for us to do to increase those export markets for our farmers.

Mr. BEREUTER. Mr. Chairman, will the gentleman yield?

Mr. DORGAN of North Dakota. I yield to the gentleman.

Mr. BEREUTER. I commend the gentleman for his initiative. Some of the things that he is asking for have been possible to previous administrations, including this one. This administration wants to demonstrate that it is serious in its effort to help farmers, agricultural exports and the trade imbalance. It can take some steps to implement the gentleman's idea and I commend him for it.

Mr. DORGAN of North Dakota. That is exactly the case. The largest growing area of world trade is noncash barter trade. It is not because that is the way that countries want to deal. It is because a lot of folks that need food around the world, their countries do not have cash to purchase it, so they barter for it.

I have visited with the majority and the minority side. I would be happy to yield to the gentleman from Illinois [Mr. MADIGAN].

Mr. MADIGAN. I am happy to join my colleagues on this side of the aisle in urging that the Committee of the Whole favorably consider the amendment which the gentleman has been kind enough to review with us. I think it is a good amendment and I hope it will be adopted.

Mr. TOWNS. Mr. Chairman, I want to lend my support to the gentleman from North Dakota's amendment on farm ownership loans. The ability of many black farmers to have access to direct loans from FmHA is critical to their ability to survive and hold onto their land. The Subcommittee on Government Information, Justice and Agriculture received testimony that only 181 black FmHA borrowers are under the age of 25 in the entire country.

We need to provide a specific authorization for the continuation of direct loans. These loans enable a new person who wants to get into farming a way into the credit market. Farmers, particularly small and black farmers, who must depend only on a guaranteed loan program will be out in the cold if we don't continue the direct loan program. I hope my colleagues will support this amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from North Dakota [Mr. DORGAN].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. LIGHTFOOT

Mr. LIGHTFOOT. Mr. Chairman, I offer an amendment.

The CHAIRMAN. Has the amendment been printed in the CONGRESSIONAL RECORD of September 24?

Mr. LIGHTFOOT. That is correct, Mr. Chairman.

The Clerk read as follows:

Amendment offered by Mr. LIGHTFOOT: Page 275, after line 11, insert the following:

STUDY

SEC. 1142. The Secretary of Agriculture shall, using an interagency task force with representatives from the Departments of Agriculture, State, and Commerce, study the economic impact on agricultural exports of any law or administrative action that imposes barriers on the import of foreign goods and report to Congress as soon as practicable the results of such study.

Mr. LIGHTFOOT (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

There was no objection.

Mr. LIGHTFOOT. Mr. Chairman, the intent of this amendment is simple and straightfoward. In this time of growing trade deficits, every conceivable effort must be made to expand exports.

A frequent complaint arising from the agricultural sector is the lack of control the Department of Agriculture has over agricultural trade. A number of remedies have been proposed, some of them quite worthy, such as the creation of a Special Assistant for Agricultural Exports and Food Aid, which I support.

But even before we prescribe remedies to our trade problems, I think it might be worthwhile to make a thorough investigation of causes, especially those over which we, in the Federal Government, can have some control.

We've got several different agencies involved in trade policy, including USDA, the State Department, and the Commerce Department. I know I'm not the only Member of Congress who's heard allegations about interagency conflicts in trade policy. My amendment simply brings USDA, Commerce, and State together to identify these conflicts so that we, Congress, can work to alleviate them. It asks the Secretary of Agriculture to study, based on an interagency task force with representatives from USDA, Commerce, and State, the economic impact of laws or administrative regulations imposing import barriers, on our agricultural exports. Never has there been a greater need for this type of study than at this time of calls for trade protection. An excellent example would be the need to consider any relationship there might have been between textile quotas we imposed and the Chinese Government canceling a wheat purchase.

We're dealing with a relatively minor amendment in terms of cost—we'd basically be drawing upon existing personnel and putting no unrealistic time constraints on the agencies—but in terms of the results the amendment would bring, we'd be going a long way toward pinpointing problem areas. And after all, isn't that the key to problem solving?

I urge my colleagues' support for this amendment.

Mrs. SMITH of Nebraska. Mr. Chairman, will the gentleman yield?

Mr. LIGHTFOOT. I yield to the gentlewoman from Nebraska.

Mrs. SMITH of Nebraska. Mr. Chairman, I rise to support this amendment. I think it is an excellent amendment. It is something that is needed. It is vital that we expand our exports, and I urge favorable consideration of this amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa [Mr. LIGHTFOOT].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. EMERSON

Mr. EMERSON. Mr. Chairman, I offer an amendment.

The CHAIRMAN. Has the amendment been printed in the CONGRESSIONAL RECORD as of September 24?

Mr. EMERSON. It has, Mr. Chairman.

The Clerk read as follows:

Amendment offered by Mr. EMERSON: Page 282, after line 18 insert the following:

Subtitle F—Administration of Certain Assistance

AVOIDANCE OF EXPORT DISPLACEMENT

SEC. 1161. Notwithstanding any other provision of the law, no funds administered by the Agricultural Research Service, the Cooperative State Research Service, the Extension Service, the Office of International Cooperation and Development, or the Commodity Credit Corporation may be expended for the purpose of providing assistance for the production or marketing in any country of agricultural commodities which would displace imports by that country of United States agricultural commodities (or the products thereof) or which would displace exports of United States agricultural

commodities (or the products thereof) to any other nation.

Mr. EMERSON (during the reading), Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. EMERSON. Mr. Chairman, I am offering an amendment that would, plain and simply, prevent the Agricultural Research Service, the Cooperative State Research Service, the Extension Service, the Office of International Cooperation and Development, or the Commodity Credit Corporation from making expenditures that would displace exports of American agricultural commodities or the products thereof.

I had wanted to offer an amendment that would prevent the Agency for International Development from making such expenditures also, but I was informed by the Parliamentarian's Office that such an amendment would probably be ruled out of order.

It may come as somewhat of a surprise to many Members of the House, as it did to me, to learn that American farmers routinely pay to develop the agricultural industries of foreign nations. Even though farmers were, until recently, largely unaware that they were doing so. The manner by which they are doing so is by paying taxes that go to Federal agencies which, in turn, make expenditures to develop foreign agriculture. The expenditures themselves may appear small in comparison to the national debt, the Federal budget, and even to our foreign aid expenditures, but I can assure you that they are not small in terms of the long-term effects they have on American farmers.

Several land-grant universities across the United States, agricultural organizations, and even foreign agricultural research centers receive funding from the Agency for International Development to conduct research that cannot be applied to American agriculture. For example, one American university received funding to develop a variety of tropical soybeans. To my knowledge there aren't any typical soybean regions in the United States, but there are in Brazil.

I want to emphasize that this is not an amendment to end agricultural research. I am a strong supporter of research and the importance of education and research cannot be overemphasized, but if American taxpayers are going to continue to fund agricultural research let's fund things that will help us, such as the cyst nematode research at the Delta Center in Portageville, MS, rather than things that will help our competitors, such as the research done by one land-grant university on nematodes of importance to developing nations. We can sell other nations all the agricultural products they want to buy, but we cannot afford to increase their agricultural output.

Obviously, this is a situation that has to be changed. It is unconscionable and, quite frankly, hypocritical that some people are telling farmers to tighten their belts because the Government cannot continue to spend as much on farm programs as it has in the past, while at the same time we, in a sense, subsidize our competitors.

Although the problem of AID expenditures cannot be addressed by offering an amendment to the farm bill itself, it can be addressed by introducing legislation and that is exactly what I intend to do at this time. I hope this bill will receive the favorable consideration of the Foreign Affairs Committee in an expedited manner, and I invite the members of that committee, as well as all other Members of the House, to join in this effort by cosponsoring this bill.

Until legislation that would halt such expenditures of AID funds can be enacted into law, we can make certain that the U.S. Department of Agriculture doesn't make any such expenditures and that is the purpose of my amendment.

Mr. Chairman, I urge the adoption of the amendment.

AMENDMENT OFFERED BY MR. BEDELL AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MR. EMERSON

Mr. BEDELL. Mr. Chairman, I offer an amendment as a sustitute for the amendment.

The Clerk read as follows:

Amendment offered by Mr. BEDELL as a substitute for the amendment offered by Mr. EMERSON:

ASSESSMENT OF EXPORT DISPLACEMENT

SEC. 1161. (a) The Secretary of Agriculture shall assess each program, project, or activity administered by the Secretary or the Department of Agriculture that—

(1) provides assistance for establishing, expanding, or facilitating the production, marketing, or use of any agricultural commodity in a foreign country; and

(2) the Secretary determines is likely to have a detrimental impact on efforts to promote the export of United States agricultural commodities;

in order to determine if such program, project, or activity is likely to have such a detrimental impact.

(b) The Secretary shall provide the results of the assessment required under subsection (a)—

(1) in the case of current programs, projects, or activities, in a report made to the Congress not later than one year from the date of enactment of this section; and

(2) in the case of programs, projects, or activities undertaken after the date of enactment of this section, on a regular basis.

Mr. BEDELL (during the reading). Mr. Chairman, I ask unanimous consent that the amendment offered as a substitute for the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

There was no objection.

Mr. BEDELL. Mr. Chairman, first of all, let me say that I agree completely with what the gentleman from Missouri [Mr. EMERSON] is trying to do. I certainly agree that we should not be trying to fund efforts to enable Brazil to compete more directly with us with regard to soybeans and so on.

But there are some problems involved if we go all the way on this in that the gentleman's amendment could very possibly be construed to say that for starving countries in Africa, for example, that we would not be able to give them assistance to help them grow grains to feed their people that were the same type as we might be exporting ourselves.

Under those provisions and concerns and some of the concerns that have been expressed, I am offering this substitute amendment which would require the Secretary to report to the Congress the effects that they expected to see from any such efforts that were made.

Mr. EVANS of Iowa. Mr. Chairman, will the gentleman yield?

Mr. BEDELL. I yield to the gentleman from Iowa.

Mr. EVANS of Iowa. Mr. Chairman, the USDA had expressed some concern about the amendment of the gentleman from Missouri [Mr. EMERSON] that it might restrict some free exchange of scientific information and the international germ plasm exchange work.

Does the gentleman think that his substitute amendment will overcome any difficulties along that line?

Mr. BEDELL. Absolutely. Mr. Chairman, my substitute would take care of those requirements.

I am sure that everyone expects me to be trying to help the Department of Agriculture on whatever their concerns are.

Mr. EMERSON. Mr. Chairman, would the gentleman yield to me?

Mr. BEDELL. I yield to the gentleman.

Mr. EMERSON. Mr. Chairman, I understand the gentleman's point. I want to say that it was not the purpose of my amendment to prevent any reasonable assistance to the famine-ravaged nations of Africa or anywhere, as far as that goes.

But I want to stress to the gentleman that in the course of looking into the preparation of this amendment, and the idea for this comes from my constituents who are indeed on to the problem and want it addressed, I had very, very little cooperation from the Foreign Agricultural Service of the Department of Agriculture in trying to

put together the information that I needed to address this problem. Indeed I asked them to work with me in crafting language that would address the problem that I am trying to address, and I did not receive the cooperation that I sought. Had I had it in a timely way, I would have presented it to the gentleman's subcommittee when the subcommittee was at work on this section of the bill before we even got to the full committee, and certainy I would have offered it in full committee had I had the information.

As it turned out, I got the information on which my amendment is based, and I have a lot of supporting data to back it up, from a variety of agricultural organizations representing various commodity groups, who feel that their government and our taxpayers are helping to finance our competition overseas.

The gentleman from Iowa [Mr. BEDELL], the chairman of the subcommittee and I have had a very satisfactory discussion on this subject. I am happy to accept the gentleman's substitute amendment for my amendment. The gentleman and I have discussed it. I hope at an early date to hold hearings on this subject to further define the problem.

With the gentleman's pledge of cooperation, I am happy to accept his substitute amendment and look forward to working with the gentleman in coming to a realistic solution to what I think is a very critical problem.

Mr. BEDELL. The substitute amendment would address the gentleman's problem of getting information because it absolutely requires them to furnish the information to the Congress. As indicated to the gentleman, we do have some things we have to take care of in regard to hearings in the subcommittee. I will certainly try to work with the gentleman to have hearings and look into the problem further at the earliest time that we could work it into our schedule adequately.

Mr. EMERSON. I appreciate the gentleman's cooperation.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa [Mr. BEDELL] as a substitute for the amendment offered by the gentleman from Missouri [Mr. EMERSON].

The amendment offered as a substitute for the amendment was agreed to.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Missouri [Mr. EMERSON], as amended.

The amendment, as amended, was agreed to.

AMENDMENT OFFERED BY MR. LIGHTFOOT

Mr. LIGHTFOOT. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Chair would inquire of the gentleman if his amendment has been printed in the CONGRESSIONAL RECORD as of September 24?

Mr. LIGHTFOOT. Mr. Chairman, yes, it has.

The Clerk read as follows:

Amendment offered by Mr. LIGHTFOOT: Page 253, after line 18, insert the following:

"(11) The Secretary may furnish eligible commodities under this subsection in connection with (A) concessional sales agreements entered into under title I of the Agricultural Trade Development Act of 1954 or other statutes, or (B) agricultural export bonus or promotion programs carried out under the Commodity Credit Corporation Charter Act or other statutes.

"(12) Eligible commodities may be furnished by the Secretary under this subsection in connection with agreements by recipient countries to acquire additional agricultural commodities from the United States through commercial arrangements.

"(13) The amount of any commodity furnished under paragraphs (11) and (12) of this subsection in any fiscal year shall be considered for the purpose of determining whether the requirements of paragraph (10)(A) of this subsection has been met during such fiscal year.".

Page 253, line 18, strike out the close quotation mark and the period which follows.

Mr. LIGHTFOOT (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

There was no objection.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. LIGHTFOOT. I yield to the gentleman from Texas.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman identify which of the gentleman's amendments this is?

Mr. LIGHTFOOT. Mr. Chairman, this is the first one. It concerns the Public Law 480 exports.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. LIGHTFOOT. I yield to the gentleman from Iowa.

Mr. BEDELL. Mr. Chairman, is this the one that requires them to publish a list of what is available?

Mr. LIGHTFOOT. No, that is not my amendment. Basically it is the mixing of concessional sales on the Public Law 480 Program.

The CHAIRMAN. The Clerk will report the amendment in full.

The Clerk re-reported the amendment.

□ 1825

Mr. LIGHTFOOT. Mr. Chairman, this amendment suggests no great policy change. But I feet it necessary for us to take every opportunity we can to boost exports in this time of mounting trade deficits. If there is one thing we have plenty of in this country it's agricultural commodities and if there is one thing that the world has plenty of it's hunger.

Essentially what this amendment does is provide another tool for expanding exports by mixing concessional sales under Public Law 480 with commercial sales. The amendment merely clarifies the Secretary of Agriculture's existing authority and suggests further possibilities for negotiating agricultural export transactions.

My concern here is that no great effort appears to have been made on the part of the administration to negotiate long-term bilateral agreements, or even short-term agreements, through commercial channels. This amendment merely says that if such efforts are undertaken with countries eligible for Public Law 480, we can and will mix and match authorities to add greater incentive for both parties to set up such transactions, to provide incentives for countries to purchase more than they might otherwise purchase.

Although I'm told that the administration has objected to the gist of this amendment, the basis for the objection is no greater than could be made to the administration's earlier announced Bisep Program. Furthermore, the possibilities posed in this amendment are discretionary, rather than mandatory, thus any concern with GATT or other trade agreement violations could be addressed prior to making use of the proposal.

I urge my colleagues' support for the amendment.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. LIGHTFOOT. I yield to the gentleman from Iowa.

Mr. BEDELL. Mr. Chairman, I think we need to understand the gentleman's amendment. Does the gentleman's amendment amend section 416?

Mr. LIGHTFOOT. I believe that is correct. In essence, what we are saying, if a country, for example, makes a purchase under the Public Law 480 Program, or just to use an example of a boat that is going and it is only one-third full, we try to encourage them to buy more grain through the commercial channels and we could offer some CCC commodities to help to make that come to them at the same price basically as the Public Law 480 is. It is somewhat like the export PIC or the Bisep Program, only a little different approach to it.

Mr. BEDELL. Mr. Chairman, if the gentleman will yield further, so we take the 416 commodities and given them—now 416 is a giveaway program, a donation?

Mr. LIGHTFOOT. Right.

Mr. BEDELL. We would take some of what we are going to donate and instead of donating it, we would say that that can be used as an export bonus program. Is it at the discretion of the Secretary?

Mr. LIGHTFOOT. Yes.

Mr. BEDELL. That he at his discretion could take what was otherwise going to be given away and use it as a bonus program to get additional sales; is that what we are saying?

Mr. LIGHTFOOT. It is to encourage the country that is buying the grain under a Public Law 480 contract. It also makes some commercial buys.

The gentleman's explanation is correct.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. LIGHTFOOT. Certainly, I yield to the distinguished gentleman.

Mr. DE LA GARZA. Mr. Chairman, we are not quite clear as to the amendment. We know what the intent of the gentleman is, but the wording of the amendment is not quite clear.

Perhaps it might be an amendment that we could agree on if we understood it more fully.

We would accept the gentleman's amendment, continue studying it with no assurance that when we are in conference that it would be kept in conference if we find objection to it in the process.

Mr. LIGHTFOOT. I accept that, Mr. Chairman.

Mr. DE LA GARZA. Mr. Chairman, with that, we have no objection to the gentleman's amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa [Mr. LIGHTFOOT].

The amendment was agreed to.

The CHAIRMAN. Are there further amendments to title XI?

If not, are there amendments to title XII?

Mr. MADIGAN. Mr. Chairman, I ask unanimous consent to return to title X for the purpose of offering a one-sentence technical amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

AMENDMENT OFFERED BY MR. MADIGAN

Mr. MADIGAN. Mr. Chairman, I offer an amendment. It is an amendment to a previously adopted amendment.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. MADIGAN: Page 195, line 20, strike out "July 1" and insert in lieu thereof "May 1".

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. MADIGAN. I yield to the gentleman from Texas.

Mr. DE LA GARZA. Mr. Chairman, we understand the need for the amendment and have no objection.

Mr. MADIGAN. Mr. Chairman, I thank the gentleman.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Illinois [Mr. MADIGAN].

The amendment was agreed to.

The CHAIRMAN. Are there further amendments to title XXII?

AMENDMENT OFFERED BY MR. DE LA GARZA

Mr. DE LA GARZA. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. DE LA GARZA: On page 301, strike out lines 20 through 23 and insert in lieu thereof the following:

"(e) Any authority to enter into contracts under this section, not within the authority of the Commodity Credit Corporation or the Secretary as of the date of enactment of the Food Security Act of 1985, shall be effective for any fiscal year to such extent or in such amounts as are provided in appropriation Acts.

The CHAIRMAN. The Chair would inquire of the gentleman, has the amendment been printed in the CONGRESSIONAL RECORD?

Mr. DE LA GARZA. Yes; it is, Mr. Chairman.

The CHAIRMAN. The gentleman from Texas is recognized for 5 minutes in support of his amendment.

Mr. DE LA GARZA. Mr. Chairman, this is a technical amendment in order to conform to section 401(a) of the Budget Act.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas [Mr. DE LA GARZA].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. GLICKMAN

Mr. GLICKMAN. Mr. Chairman, I offer an amendment, which has been printed in the CONGRESSIONAL RECORD.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. GLICKMAN: "On page 288, striking out line 14 and all that follows through line 20 and inserting in lieu thereof the following—

"(1) during the period which begins on the date of the enactment of this Act and ends on whichever is later than January 1, 1990 or the date which is two years after the date such land on which such crop is produced was mapped by the Soil Conservation Service for the purposes of classifying such land under the land capability classification system, on any land that was cultivated to produce any of the 1981 through 1985 crops of agricultural commodities or that was set aside, diverted or otherwise not cultivated under provisions of a Department of Agriculture program for any such crops to reduce production of an agricultural commodity, except as otherwise provided in section 1205(m);"."

Mr. GLICKMAN (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Kansas?

There was no objection.

Mr. GLICKMAN. Mr. Chairman, first of all, I want to compliment the committee, and particularly the chairman of the subcommittee, the gentleman from Tennessee [Mr. JONES] and the ranking member, the gentleman from Missouri [Mr. COLEMAN] for producing the sodbuster language in this bill, which is something that not only can we all support, but something that reflects a great achievement in agricultural programs. For the first time in a farm bill, we are making a very dedicated and considered effort to try to reduce the amount of highly erodable land in this country.

Mr. Chairman, my amendment will strengthen the soil conservation provision of this bill. It is an amendment which will make a good and muchneeded section of the bill even better. The amendment will close, after an ample notice of over 4 years, an exemption which otherwise would allow some producers to continue tilling some highly erodible ground and to continue receiving farm program benefits.

Ever since the great dust clouds of the Depression rolled across the countryside, the Federal Government has actively supported and encouraged efforts to conserve one of our Nation's most precious resources: Our rich, fertile topsoil. In those 50 years, we have made enormous progress but conservation must continue. As long as we all eat and 20 percent of our jobs, our trade, and our national economy depend on the productivity of our farmers, conservation must be a continuing job. And we still have much work to do.

We must do two things, both of which are done on this bill: We need to provide incentives to farmers to implement new conservation measures and we must remove incentives which encourage farmers to till highly erodible ground. By denying farm program benefits to farmers who till this land, the sodbuster measures of the bill will ensure that farm programs do not encourage erosive farming methods, and will also help alleviate some of the surplus problems caused by cultivating erodible ground.

However, the bill provides an exemption which I believe we must close. The bill will allow all highly erodible ground cultivated between 1981 and 1985 to forever escape the sodbuster sanctions. This amendment will close that loophole, after giving producers an appropriate time to adjust. The amendment provides that, as of January 1, 1990, all land will be subject to sodbuster, including the land now grandfathered. Producers will have to bring grandfathered, highly erosive land into compliance with soil conservation service-approved conservation plans to continue cultivating erodible ground and receiving benefits.

USDA estimates that each year we are losing some 1.6 billion tons of soil on land being cultivated at an estimated cost of as low as $3 billion annually to $13 billion for all associated costs. And a good portion of this loss is di-

rectly attributable to farm program benefits which encourage the cultivation of highly erodible ground. Now is the time to stop this practice on future lands, as the bill does, and gradually to treat all land the same and bring it into compliance with sound conservation measures.

Mr. Chairman, I am proud of the soil conservation provisions the committee has reported, and proud to be a member of the subcommittee which toiled on this bill. I can think of no other Member of this House more dedicated to the cause of soil conservation than our subcommittee chairman, Mr. JONES from Tennessee. Through his tireless persistence, at great odds at most times, he has brought a strong and sound package to this farm bill. I believe this amendment makes the package even better and I would urge my colleagues' support of the conservation compliance amendment.

The CHAIRMAN. The time of the gentleman from Kansas [Mr. GLICKMAN] has expired.

(At the request of Mr. WOLPE, and by unanimous consent, Mr. GLICKMAN was allowed to proceed for 2 additional minutes.)

Mr. WOLPE. Mr. Chairman, will the gentleman yield?

Mr. GLICKMAN. I yield to my colleague, the gentleman from Michigan [Mr. WOLPE].

Mr. WOLPE. Mr. Chairman, I thank the gentleman for yielding. I am very pleased to join the gentleman from Kansas, who has provided important leadership in the committee on this issue, in sponsoring this amendment.

Mr. Chairman, I want to commend Chairman DE LA GARZA and the full Agriculture Committee for their diligent and painstaking efforts in crafting this year's farm bill. The committee's work on the conservation title of the bill is particularly commendable. They have crafted landmark legislation which offers a broad and innovative approach to protecting our Nation's fragile lands. It includes a tough sodbuster provision, a companion swampbuster provision, and a conservation reserve program.

The conservation compliance amendment that my distinguished colleague from Kansas, Mr. GLICKMAN, and I are offering today merely "complements" the committee's fine work on the conservation title and provides a crucial "missing piece" to the conservation policy puzzle. It offers a cost-efficient and environmentally sound way to address one of our country's most serious—but understated—agricultural problems: Our Nation's soil erosion crisis.

The real question here is whether we want our Nation's farm programs as they are structured to continue to subsidize soil erosion, or whether we want them to encourage soil conservation.

The principle behind the amendment that we have coauthored is simple: We should not be subsidizing abuse of the land, especially at a time of mounting crop surpluses. It is exactly these surpluses which are in large part responsible for the decline in farm income and the explosive increase in farm program costs.

Our amendment would extend the sodbuster provision in the bill to include highly erodible land that is currently in production. It would give farmers 4 years—until 1990—to apply conservation techniques to their highly erodible cropland. During this 4-year grace period, farmers would be given the opportunity to adopt an acceptable conservation plan for their land approved by their local conservation district, or they could convert the land to soil-saving pasture, hay, or forest use. They would also have the option of putting their erodible land in the conservation reserve. If farmers choose not to comply by January 1, 1990, they will be subject to the same penalties that apply to the sodbuster provisions in the bill which will make them ineligible for Federal price supports, income supports, crop insurance, and Farmers' Home Administration loans.

Our amendment, in concert with the conservation program, is a firm but fair way to redress a classic inequity in current farm programs. Current farm programs as they presently exist reward farmers who abuse highly erodible land because program benefits are directly proportional to the amount of land farmers plant—the more land you plant, the more Federal subsidies you receive. Conservation-minded farmers, however, have long been penalized for keeping their erodible land out of production. After 1990, conservation compliance would handicap rather than reward farmers who abuse fragile soil in order to produce surplus crops.

Our amendment will help reduce price-depressing surpluses. Taking fragile land out of production will simultaneously help boost commodity prices, increase farm income, and reduce the costs of farm programs. Along with the conservation reserve, our amendment will benefit farmers, taxpayers, and our overall national conservation policy. Farmers would benefit because they would be paid to set aside highly erodible land; taxpayers would benefit because the reserve program would reduce crop surpluses, which in turn will lead to a reduction in farm programs; and finally our national conservation policy would benefit because lands protected or retired from production would help restore the productivity of the soil.

Also at issue here—and I hope my distinguished urban colleagues are listening—is whether our Nation's farm programs will continue to subsidize the contamination of our urban and rural water supplies. Numerous national studies indicate that soil erosion is perhaps the single greatest unregulated source of water pollution. According to a recent study by the Conservation Foundation, soil sediment washed from farm fields causes $3 billion to $13 billion in damages per year by clogging navigational channels and ruining our recreational lakes and streams. Our amendment would help alleviate the contamination of our urban and rural water supplies by requiring the retirement of fragile lands which are the primary source of runoff. In doing so, this measure will enhance our Nation's water quality, wildlife habitat, and outdoor recreation.

Mr. Chairman, the conservation compliance amendment offered by Mr. GLICKMAN and myself seeks to complement and reinforce the committee's conservation provisions. Adoption of this amendment would ensure that the 1985 farm bill contains the strongest possible soil and water conservation title.

Mr. Chairman, I have enjoyed the opportunity of working with the gentleman from Kansas on this amendment. I hope it will enjoy the support of Members of this body on both sides of this aisle.

Mr. MARLENEE. Mr. Chairman, will the gentleman yield?

Mr. GLICKMAN. I am glad to yield to the gentleman from Montana.

Mr. MARLENEE. Mr. Chairman, would the author of the amendment inform me or enlighten us as to the position of the major farm organizations, the wheat growers, the grain growers, and the Farm Bureau?

The CHAIRMAN. The time of the gentleman from Kansas [Mr. GLICKMAN] has again expired.

Mr. MADIGAN. Mr. Chairman, I ask unanimous consent that the gentleman may have 5 additional minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

Mr. MARLENEE. Reserving the right to object, Mr. Chairman, I went through this situation the other evening when speaker after speaker for me had their time extended and when I got up to speak, there was a gentleman from the west coast, one of our colleagues who apparently was very concerned about my argument and I had needled him somewhat and apparently was too effective and he objected to my time.

I would hope this would not happen in this case.

Mr. GLICKMAN. Mr. Chairman, I ask unanimous consent to proceed for 1 additional minute.

The CHAIRMAN. Is there objection to the request of the gentleman from Kansas?

Mr. MARLENEE. Further reserving the right to object, Mr. Chairman, that is all I asked for, and I will not object.

The CHAIRMAN. Is there objection to the request of the gentleman from Kansas [Mr. GLICKMAN] to proceed for 1 additional minute?

There was no objection.

Mr. GLICKMAN. Mr. Chairman, to answer the gentleman's question, at least to date the organizations that support this amendment are the following: National Farmers Union, National Farmers Organization, National Association of Conservation Districts, Soil Conservation Society of America, National Audubon Society, Sierra Club, National Wildlife Federation, Natural Resources Defense Council, American Farmland Trust, Izaak Walton League of America, Environmental Policy Institute, Wildlife Management Institute, International Association of Fish and Wildlife Agencies, the Wildlife Society, and the American Forestry Association.

□ 1840

Mr. COLEMAN of Missouri. Mr. Chairman, let me first of all say that, as the ranking Republican on the subcommittee dealing with conservation and credit, I want to reemphasize what the committee has done here and lay a little, pardon the pun, groundwork for the purpose of the amendment offered by the gentleman from Kansas [Mr. GLICKMAN].

We did have the Government in the 1970's request the farmers to plant fence-row to fence-row, and in doing so, a lot of farmers went out and cropped land which probably never have been put into production in the first place. That has contributed definitely to some of our surplus problems today, and it has definitely contributed to high erosion in many parts of our Nation.

So the committee has adopted very strong sodbuster legislation. With the leadership of the gentleman from Tennessee [Mr. JONES], we have been able to put forward a consensus package which has been supported by the administration and by, I think practically unanimous, perhaps maybe one or two dissenters on the committee, a sodbuster proposal which would, in fact, provide a disincentive to farmers to farm highly erodible soil if they are not so doing now.

We also have a conservation reserve portion of the bill which, for the first time, will pay farmers to help idle some highly erodible land and take it out of production, put it in grasses and tress, something that will save the soil. This will not only help the individual farmer in future generations; it also will help our budget because they will not be producing on this very marginal land and increasing the commodities and increasing the cost to the Treasury of our price support programs.

What the gentleman from Kansas [Mr. GLICKMAN] is doing in his amendment is very important. We ought to know exactly what he is doing, and that is, we felt that it was unfair to farmers who are plowing and have plowed in the last 5 years and are now currently cultivating on highly erodible land for us to say to them that they must conform their property to a conservation plan and have it fully in effect by 1990.

The reason I rise here in opposition to the amendment offered by the gentleman from Kansas [Mr. GLICKMAN], and eventually offer an amendment of my own to his, is that he is trying to eliminate the 5-year grandfather clause, as I so indicated.

At first blush, the Glickman amendment sounds appealing; however, its implications are very far reaching. At a time when America's farmers are obviously not having a success in meeting the cash-flow obligations that we know so well, how are they going to pay for the millions, and indeed billions, of dollars that would be required for them to put this property under a conservation plan and meet it by 1990, as required by the Glickman amendment.

I am concerned that the additional cost to the farmers to implement these conservation practices will be very, very high. There are 421 million acres of cropland throughout the country, and according to a 1982 study, only 236 million of these acres have adequate conservation practices applied to them presently. There are, therefore, 185 million acres that need additional work in some fashion. The additional cost to the farmer to comply could be unbearable during this time of farm income erosion, to the point where they cannot even maintain their own cash-flow presently.

So I am the first to agree that farmers should comply as soon as possible with the conservation plan if it only requires changes in some management practices or other minor improvements, but what do we say to a farmer who might be faced with an expenditure of $400 an acre to put this soil back to where it should be to comply with the conservation plan? So let me share with my colleagues some cost estimates.

By using the definitions of highly erodible land that are defined in this bill, up to 89 million acres could qualify as highly erodible. If 25 million acres, and that is our proposal for the conservation reserve, were used and put into a reserve, that still leaves about 64 million acres to qualify that would have to comply with some approved conservation plan, and this gets to the heart of the amendment offered by the gentleman from Kansas [Mr. GLICKMAN].

I think it could cost, and I think it has been submitted, $100 an acre for those 64 million acres to bring their conservation practices up to a level sufficient to allow them to continue to cultivate that and to be able to participate in the farm programs. Do not forget that under the Glickman amendment, if a current farmer who is cultivating on this highly erodible land does not conform by 1990, he will not get a Farmers Home loan, he will not qualify for any of the benefits of the farm program, including price supports, et cetera.

The CHAIRMAN. The time of the gentleman from Missouri [Mr. COLEMAN] has expired.

(By unanimous consent, Mr. COLEMAN of Missouri was allowed to proceed for 5 additional minutes.)

Mr. COLEMAN of Missouri. So it could cost up to $6 billion for this proposal, and I am very concerned. How are the farmers going to come up with this money. Even with matching funds, there are not sufficient funds to be matched by the farm community.

Therefore, while I think that the intentions of the gentleman from Kansas are very good, and we want to save the soil and have worked closely together on this, I would at this time, Mr. Chairman, offer an amendment to the gentleman's amendment.

AMENDMENT OFFERED BY MR. COLEMAN OF MISSOURI TO THE AMENDMENT OFFERED BY MR. GLICKMAN

Mr. COLEMAN Of Missouri. Mr. Chairman, I offer an amendment to the amendment.

The Clerk read as follows:

Amendment offered by Mr. COLEMAN of Missouri to the amendment offered by Mr. GLICKMAN: Amend the amendment to Title XII, page 288, by inserting at the end thereof after the words "except as otherwise provided in section 1205(m)", the following: "*Provided*, That such program loans, payments, and benefits, shall not be denied to any person if as of January 1, 1990, or two years after the Soil Conservation Service has completed a soil survey for the farm, whichever is later, such person is actively applying a conservation plan based on the local Soil Conservation Service technical guide and approved by the local soil conservation district or the Secretary, in whch event, such person shall have until January 1, 1995, to comply with the plan without being subject to program ineligibility."

Mr. COLEMAN of Missouri (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. COLEMAN of Missouri. Mr. Chairman, what my amendment does is modify the Glickman amendment to allow until 1995 for a farmer who is presently cropping highly erodible land, and if he is by 1990 actively ap-

plying a conservation plan to that land, to be given an extension to 1995 before he completes that plan. It gives him another 5 years, or a 10-year period.

Mr. GLICKMAN. Mr. Chairman, will the gentleman yield?

Mr. COLEMAN of Missouri. I yield to the gentleman from Kansas.

Mr. GLICKMAN. I thank the gentleman for yielding.

Mr. Chairman, first of all let me say three things: No. 1, is that I do not object to this amendment. It does give an additional 5 years providing, as I understand it, that that person is actively applying a conservation plan and he just cannot be out there looking at his land on January 1, 1990. He has to be doing something affirmative to implement that plan. Is that correct, I would ask the gentleman?

Mr. COLEMAN of Missouri. That is correct. It has to be something that he is actively engaged in and applying that plan to that land, and if by 1990, or 2 years after the Soil Conservation Service completes a soil survey of his property, then he would be able to receive an extension by the Secretary to be able to comply with that plan and not lose the benefits of any of the programs that he would be eligible for.

Mr. GLICKMAN. If the gentleman will yield further, I would say that I have no objection to the amendment. I would urge my colleagues to accept the amendment.

Mr. Chairman, I would mention just one quick thing so that people would know what the other body has done in this regard.

The other body has adopted an even more stringent enforcement deadline. I believe it is 1988, if I am correct, with respect to erodible lands that were planted between 1981 and 1985; that they would have to come into compliance by 1988 in order to be eligible for Federal farm benefits.

So by the adoption of the Coleman of Missouri amendment, which amends my amendment, we will be saying that any lands that were planted between 1981 and 1985 have to meet the standards of the bill by 1990, or they could have an extension of up to 5 years.

Mr. COLEMAN of Missouri. Mr. Chairman, if I might reclaim my time, I think the gentleman probably accurately portrays what the other body did, but I simply disagree with their timetable and I would hope in conference we could come up with a more reasonable position.

Mr. GLICKMAN. I accept the amendment, Mr. Chairman.

Mr. COLEMAN of Missouri. I thank the gentleman for accepting the amendment and working with me on this.

Mr. VOLKMER. Mr. Chairman, will the gentleman yield?

Mr. COLEMAN of Missouri. I yield to my colleague, the gentleman from Missouri.

Mr. VOLKMER. I thank the gentleman for yielding.

Mr. Chairman, I just want to rise in support of the amendment offered by my colleague, the gentleman from Missouri [Mr. COLEMAN] and commend him for the work that he has done in this regard.

Mr. MARLENEE. Mr. Chairman, will the gentleman yield?

Mr. COLEMAN of Missouri. I yield to the gentleman from Montana.

Mr. MARLENEE. I thank the gentleman for yielding.

Mr. Chairman, am I to understand that the gentleman from Kansas accepts the amendment and it is now part of the amendment by unanimous consent?

Mr. GLICKMAN. If the gentleman would yield, I think it would have to be voted on, but I am going to vote for the amendment.

Mr. JONES of Tennessee. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I want to commend both my friend, the gentleman from Kansas [Mr. GLICKMAN] and the ranking member of the subcommittee, the gentleman from Missouri [Mr. COLEMAN] for having gotten together on these two important issues and bringing to this House a very important piece of legislation.

At first glance, I was not too warmed up to this piece of legislation, but as the gentleman from Missouri, TOM COLEMAN, began to do some research of bringing together these figures that he presented, and we did some research in that regard, and what the other body had been doing also, I feel that we have an amendment that everybody will accept and be happy with.

Mr. Chairman, I want to thank both members of my subcommittee for the very splended job that they have done. I urge the adoption of the Coleman amendment to the Glickman amendment.

□ 1850

Mr. MARLENEE. Mr. Chairman, I move to strike the requisite number of words and I rise in opposition to the amendment.

Mr. Chairman, I have been searching for a title for this amendment offered on behalf of the Audubon Society, the Sierra Club and the wildlife groups and the other land-use planning proponents. As bad as the sodbuster legislation is, this is even worse. Sodbuster deals only with newly cultivated land. This amendment could well be called the Federal Intervention Act.

The practical effects of this amendment is that it confiscates, without a question, it confiscates property rights. It simply says that any property, any property you have, you will invite an agent of the Federal Government onto your property to make a subjective judgment on that property as to whether or not it is erodible. He will decide whether you can farm the land that you have farmed for years and years; land that your grandparents have farmed will be left at the mercy of Government agents.

The agents will first decide whether it is erodible or whether it is nonerodible. And if that land, in fact, fits certain classes of the erodible classification, then they will mandate that it must be taken out of production.

They have testified in front of our committee that certain classes of erodible land will not classify for any production, no matter what kind of conservation plan is put to it. That, my friends, when they tell that you cannot crop your land, crop land that has been in the family for years, that is confiscation of property without compensation. And I have reason, I have just reason to question the constitutionality of this amendment and this kind of action.

The agency will also require a conservation plan, of course subjective and approved by them. And I might add, paid for by the owner.

This amendment could also be called the Soil Conservation Service Enforcement Employment Act. We have no idea how many people, how many more people will be required by the Conservation Service to make the evaluation on soil classification, and then to say nothing of the final enforcement of this act.

This amendment paves the road of regulation, the road of land-use planning right up to the producer's kitchen table.

This bill was covered in the other body, and I think if we want to discuss that in conference committee, that is fine. We do not need to do that here in this proposal. This very proposal right here was defeated, and I repeat, defeated in the full committee in the House Agriculture Committee.

Let me quote to you what my friend, the author of this amendment, said about this in the full committee.

There is also the problem of the costs our producers will incur as a result of this amendment. During the Agriculture Committee consideration of the conservation title on July 9, the gentleman from Kansas expressed a great concern about removing the 5-year exemption and requiring all cultivated land to be subject to a Government-imposed conservation plan.

The gentleman said, "I'm wondering if the situation may be getting a little draconian and that is I don't know what the effect is of requiring all farmers to bring all of this land they've been farming this last 4 years

up to the standard that it isn't highly erodible, but that may involve fairly significant costs."

Apparently the gentleman from Kansas is no longer concerned about the cost to the producer. But I can assure you, my colleagues, that the producer will be concerned.

As I said, this was defeated, this was defeated in the full Agriculture Committee.

I will ask for a rollcall vote on this because I want the producers 10 years from now to know who voted this inequity on them.

PARLIAMENTARY INQUIRY

Mr. COLEMAN of Missouri. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. COLEMAN of Missouri. Mr. Chairman, have we disposed of the Coleman amendment?

The CHAIRMAN. We have not.

Mr. COLEMAN of Missouri. Mr. Chairman, then I move the previous question.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Missouri [Mr. COLEMAN] to the amendment offered by the gentleman from Kansas [Mr. GLICKMAN].

The amendment to the amendment was agreed to.

Mr. SMITH of Iowa. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, this is one of those examples where everyone has the same objective, but overkill is going to do the opposite of what some people want done. I think we should take 55 million acres of highly erodable land out as fast as we can accomplish it.

But here are the facts: We have appropriated $190 million the last 2 years for soil conservation programs. There is 75-percent funding going wanting in some of the county offices right now because farmers cannot even put the 25 percent up to match the 75 percent. There is a lot of 50-percent money that is going wanting. There is going to be more than $30 million, probably $40 million left unused this year.

In the last year that we have records for, 1 million acres was put under terraces, and seven-tenths of a million under other conservation practices like trees. If we use that as a basis or even use 2 million per year as a basis, as the amount that can be terraced under these programs, even if farmers had the money they had in 1983, which they do not have now, it would take over 25 years to get all of it under a full conservation program unless a special program removes some of it. But even if we can get 25 million out under the conservation program in this bill, and I do not think we are going to get 25 million acres out because of another provision that is in this bill, but there is no possible way that enough land can be under an active participation in a conservation program by 1990 or 1995.

So this is what happens as a practical matter. What happens is the farms which cannot comply is going to be out of the supply management program on that farm.

So when it goes out of the program, that farm does not have the 10-percent set-aside for conservation purposes under the regular farm program. That farmer not only does not have that 10 percent in a soil conserving crop, but also he is under no constraint not to plow up the rest of the farm. So we go backward and more land comes out of conservation uses than goes in.

We would have more erosion as a result of overkill instead of less.

Now, in addition to that, in this bill, it provides for a wonderful conservation reserve program. However, it has a condition precedent in it that is going to keep people from putting the 20 million acres in that we want, and that is the provision which provides at the end of the 10 years that the sodbuster provision applies and they cannot put that land back into grain or any other annual crop. Now nobody is going to take an annual payment for 10 years and then give a permanent deed to the land. They are not going to do it. They cannot do it.

As a practical matter, most of the land in this country has a mortgage on it, and a lot of it has a wraparound interest from the seller. There is a retired farmer that sold it, and wrapped his equity around that mortgage, and there is a mortgage, and to secure a permanent easement such as would be required, would require having the mortgagor and the owner of the wraparound interest to agree to it. But they would never give up their security so the present titleholder can receive an annual rent—so as a practical matter that farm will not go into the Conservation Reserve Program and this Glickman amendment keeps him out of the annual program so he does not have any set-aside and we end up with less conservation instead of more.

This provision needs to be changed in conference. I do not propose to do it here on the floor, but conferees must eliminate that or the result will be exactly the opposite of what these conscientious organizations want to do. And I am one that thinks we need to have another bill, and I am for it. I will be for a bill, and I think you could pass it here, I really do, to take out another 30 million acres and use it for conservation purposes. I think we could dedicate it probably to State conservation commissions and let them use it for wildlife and other purposes. I think we could do it with a bill that secures and pays for permanent easements.

But this bill goes too far and this amendment sets up a condition precedent which cannot be met and as a result will do exactly the opposite of what we all want to do.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield to the gentleman from Texas.

Mr. DE LA GARZA. I appreciate the gentleman yielding. I think he has made an excellent suggestion that we continue looking at this in the process of the conference committee with the other body, plus there is a provision in the legislation, as I am sure the gentleman knows, for an appeal for anyone under this title of the legislation. So the procedure for appeal through the county committee, et cetera, is there.

But to address the concerns of the gentleman, if they should not be covered under the appeal process, I think that we could continue studying and take the gentleman's advice and work with him in cooperation with the authors of the amendment.

Mr. SMITH of Iowa. I agree with the gentleman, except for this: putting this out as if we really have done something is a hoax, it is a real hoax. This does not accomplish what many people are saying that it does. I will not say the authors, but the organizations think they have really done something when, in fact, they have hurt the conservation reserve program and by overkill will have reduced the acres of highly erodible soil removed from production of annual crops. You are going to have less acres in conservation reserve than you would without that subsection M of the bill.

So what we should do is keep the objective in mind and not engage in overkill which defeats a good portion of our common objective.

The CHAIRMAN pro tempore (Mr. SCHUMER). The time of the gentleman from Iowa [Mr. SMITH] has expired.

(On request of Mr. GLICKMAN and by unanimous consent, Mr. SMITH of Iowa was allowed to proceed for 3 additional minutes.)

Mr. GLICKMAN. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield to the gentleman from Kansas.

Mr. GLICKMAN. Mr. Chairman, I respect my colleague from Iowa very much, and he does know a great deal about agriculture, far more than I do. But I just think he is dead wrong when he says this is a hoax.

For the first time, what we will be saying to farmers, and with giving them an appeals process and 10 years to comply with lands that have been producing in the last 5 years, is if they want to continue to produce on highly erodable lands, they will not get Federal farm benefits at all. If they want to continue to do it, fine, they just do

not get Uncle Sam to pay them for that.

Let me just make a point. The gentleman from Montana [Mr. MARLENEE] talks about the fact that Uncle Sam is going to come in and run the farm. Well, in the first place, we have sodbuster language in this. This just brings it up for the 5-year period.

But the gentleman and his constituents do not have to participate in Federal farm programs. That is Federal tax dollars that are going to subsidize farmers. I happen to support those Federal tax dollars, but that is money from the taxpayers of this country, and that money should not be going to subsidize farmers who plant on highly erodable land.

Here is a picture of some land from the State of Nebraska. It is an example of highly erodable land all over this country.

Now the gentleman from Iowa [Mr. SMITH] may say that the sodbuster program is worthless ab initio, whether we have got a 4-year grandfather, or a 20-year grandfather, it would not make any difference. And I gather the essence of the gentleman's comments is that sodbuster legislation does not work very well. You need more.

Mr. SMITH of Iowa. I did not say that at all. The sodbuster legislation in here is all right, except the committee added that subsection M that sets up the condition precedent that most farmers cannot possible meet. Therefore, a lot of the land we need in the program will not be in the program. The Government cannot take their property without due process of law, and so they are not going to force them into a program which denies them use of the land. The Government can deny them the opportunity to be in a set-aside program but that means they are not going to have their setaside acres in the program in conservation use either, and so they are then free to go out and plow up the rest of their fragile land.

Now you can have a provision that says any new lands plowed up can never be under grain production and that would work. But instead of that, what the bill says is that if they even continue farming 1 acre of fragile land, and you do not invest money in terraces and activate a full program by 1990, or do not have it in grass or hay after 1990, then the entire farm is not going to be in the program. Therefore, the farmer stays out of the annual supply management and set-aside program. He does not have his 10-percent, or 30-percent set-aside seeded down that year, in addition to not being in the conservation program at all.

Mr. GLICKMAN. In the first place, we talked about this in the committee, and the 1 acre is a red herring. We are talking about——

Mr. SMITH of Iowa. No; it is not. Why is it a red herring?

Mr. GLICKMAN. Because it is in the committee language and it is in the committee report that it is not the intent of Congress to get a man and his farm with only 1 acre.

Mr. SMITH of Iowa. That is what it says.

Mr. GLICKMAN. That is not the intent of the committee or the Congress.

Mr. SMITH of Iowa. If it is not the intent, then it ought to say something different. I will read it to you. It is right in here.

It says on page 286, "* * * following the date of the enactment of this Act, any person who in any crop year produces an agricultural commodity on highly erodable land or on converted wetland shall be ineligible, as to any commodity produced * * *."

If he produces 1 bushel on that kind of land, he is not eligible on any of the commodities that he produces.

Mr. GLICKMAN. But there is a predominant soil test for the land and it clearly does not apply to 1 acre.

The CHAIRMAN pro tempore. The time of the gentleman from Iowa [Mr. SMITH] has again expired.

(On request of Mr. MARLENEE and by unanimous consent, Mr. SMITH of Iowa was allowed to proceed for 1 additional minute.)

Mr. MARLENEE. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield to the gentleman from Montana.

Mr. MARLENEE. Mr. Chairman, the gentleman is exactly correct, and I tried to raise these points over and over again in the committee.

It would seem to me that it would enhance the conservation reserve that we have created, a good program as the gentleman has pointed out, a good program, if that farmer knew at the beginning of the program what he had to do at the end of the contract. Then he could start to build shelter belts or he could start to terrace, or he could start to seed grassbreakers and windbreaks on that land, or put it into some other kind of a conservation plan that would contribute to the environment, contribute to the enhancement of game habitat, and allow the farmer to know what is going on instead of at the end of the contract.

I thank the gentleman for yielding.

Mr. SMITH of Iowa. It just makes me feel bad that after all of these years that some of us have talked about getting 55 million acres of this erodible land out that when we finally have a chance, instead of doing it, we have overkill that is going to result in getting about half as far as we want to and could go. We should get 55 million acres of erodible land out of production but as result of the conditions set up in the bill so many people will be excluded from participation that we would be lucky to remove as much under the new special program as we lose under the regular programs. Some of the provisions hurt more than they help, in addition, we ought to have another bill which is capable of actually doing what this amendment cannot do. I urge the conferees to keep the overall objective in mind and remove the harmful provisions which will substantially reduce the number of highly erodible acres removed from uses which result in erosion.

Mr. BEREUTER. Mr. Chairman: I rise in strong support of the Glickman-Wolpe amendment.

This amendment will be a very good addition to the sodbuster provision already in the bill. There have been many farmers converting highly erodible lands into cropland in anticipation of the conservation reserve and the sodbuster provision in the farm bill. This amendment will assure that this particular group of landowners will be the subject to the bill's provisions.

Nebraska, my State, has the highest acreage of land in the United States not now cropped in capability classes IV, VI, VII, and VIII but with a high or medium potential for conversion to cropland—3,342,000 acres. This is why I advocate the conservation reserve and the sodbuster provisions of the bill, but I should further point out why Nebraska is in need of this amendment. Nebraska has approximately 2.5 million acres of highly erodible cropland that has not been treated with the proper conservation measures which will be subject to the amendment. You can probably upgrade this figure because of some landowners anticipation of a future sodbuster.

Because the amendment will not subject the land to the sodbuster until 1990—now 1995—or later, I believe it will give the farmers ample time to weigh their alternatives and it will give the Soil Conservation Service plenty of time to work with the farmers to develop the conservation plans.

Finally, if some form of a sodbuster law had been in effect 10 or 15 years ago, thousands of acres wouldn't have been torn up for the purpose of producing crops. Because of the advantages associated with converting relatively cheap highly erodible land to cropland, many farmers over expanded and that fact has contributed to their financial troubles today. Not ony will there be long term conservation problems if this amendment doesn't pass but many long term financial problems have surfaced because of the lack of a sodbuster law in the past. If necessary, additional financial assistance should be provided to landowners to make very expensive conservation expenditures required by an implementation plan.

I urge my colleagues to support this amendment as amended by the gentleman from Missouri.

□ 1905

The CHAIRMAN. The question is on the amendment offered by the gentleman from Kansas [Mr. GLICKMAN], as amended.

The question was taken; and the Chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. MARLENEE. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 313, noes 90, not voting 31, as follows:

□ 1915

Messrs. EDWARDS of Oklahoma, EMERSON, and MOORHEAD changed their votes from "aye" to "no."

Messrs. COUGHLIN, QUILLEN, DORNAN of California, BEREUTER, SAXTON, SPENCE, and KINDNESS changed their votes from "no" to "aye."

So the amendment, as amended, was agreed to.

The result of the vote was announced as above recorded.

The CHAIRMAN. Are there other amendments to title XII?

Mr. JEFFORDS. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. Without objection, the gentleman is recognized for 5 minutes.

There was no objection.

Mr. JEFFORDS. Mr. Chairman, I asked to revise my remarks only to commend the chairman of the subcommittee and the ranking member on this side for their excellent work in providing us with a step forward in soil conservation.

Mr. Chairman, the conservation title of the 1985 farm bill is one of the most comprehensive changes in soil conservation policy in the last 50 years. It will at long last give us the tools to affect the underlying causes of soil erosion. It recognizes that effective soil conservation legislation must pursue several goals simultaneously. First, it establishes a program to take out of production the most highly erodible farmland that is responsible for the lion's share of current soil loss. The 1982 National Resources Inventory [NRI] completed by the Soil Conservation Service in USDA shows that just 12.5 percent of current cropland base of 421 million acres causes half of our excess cropland erosion nationally. This 53 million acres of highly erodible cropland accounts for over 1.3 billion tons of soil loss per year. Much of this land is of poor quality and is eroding at rates in excess of 15 tons per acre. In my State of Vermont this highly erodible cropland represents less than 5 percent of the total land being cropped in the State, but accounts for over half of the water erosion experienced within the State.

The conservation reserve established as a key part of H.R. 2100 will remove up to 25 million acres of this highly erodible cropland and place it back into grass or trees.

In order to understand the need for the Conservation Reserve Program, it is important to look back and examine the farm policies that have encouraged farmers to bring this type of fragile land into production.

In the mid-1970's, the Federal Government exhorted farmers to farm as many acres as they had available so that the United States could substantially increase its exports of food and feed grains. Farmers responded not only by removing shelter belts and other erosion control structures which used land that they felt they could crop, but also by breaking out highly erodible fields previously protected from erosion by perennial grasses and trees.

At the time, the market price for grains was adequate to encourage such actions. Many of these newly cultivated fields, however, were not suited to year in, year out production of annual crops because their shallow topsoil and lack of adequate moisture made consistently profitable yields unreliable. Much of this risk of failure, however, was shifted from the farmer to the

Federal Government by virtue of the fact that the crops grown on these marginal soils were eligible for commodity price supports, crop insurance, farmers home loans and disaster payments, each of which is federally subsidized. In effect, Government policy encouraged the cropping of fragile soils and Government programs minimized the financial risk of doing so.

The Conservation Reserve Program will achieve two goals of U.S. farm policy: First, conserve the Nation's topsoil by reducing erosion, and second, help protect farmers and consumers from extremes in commodity prices.

The program would operate by allowing farmers to submit bids for the amount of cash or commodities that they would accept for enrolling their land in reserve. A payment limitation of $50,000 would ensure that a producer would not receive any more than this amount annually in rental payments. To be eligible for the reserve, the land would have to be: First, erosion prone and eroding excessively, as determined by the universal soil loss equation; and second, land on which conservation techniques generally cannot protect the soil adequately if it continues to be cropped. In addition, the land must have been used for cultivated crops at least 3 of the last 5 years.

Overall, the conservation reserve would provide the following benefits:

First, it would help curb production of surplus commodities and help reduce expenses of the commodity programs.

Second, it would remove the most severely eroding cropland from production, protecting land productivity, improving water quality and wildlife habitat.

Third, it would increase commodity prices.

Fourth, it would provide income support to producers making the transition from intensive cropping to less intensive land use.

Fifth, and it would reduce the need for annual production control programs to stabilize prices.

It is projected that the cost of the program will be between $11 and $13 billion over the next 13 years. Balanced against these outlays for the reserve however, would be lower Federal payments for loans, deficiency payments, and storage costs under the regular commodity programs. It is estimated by USDA and other private organizations that net savings of between $4 and $6 billion would be achieved over current program costs between 1986 and 1991.

In addition, land in the reserve would be eliminated from the farm's base acres after the 10-year period of the contract.

This program is clearly the best solution in removing from production the highly erodible land that has been brought into production in the past decade. I have enclosed a map showing the acres eligible, by State, for the conservation reserve. (Maps are not reproduced in the RECORD.)

Why is it so important to control soil erosion? First, the topsoil that we are losing is the source of our much-envied agricultural productivity. Annual crops use only the top 10 to 12 inches of soil. Over the millenia, this fraction has developed unique physical and chemical properties that make abundant crop yields possible. Soil erosion destroys this capacity by stripping away this layer of soil. What remains is a thinner layer of topsoil which forces plant roots to seek sustenance in subsoil which has a far poorer ability to hold the nutrients and water necessary for large yields. The net result is lower productivity and higher costs. [What actually destroyed the agricultural base that made Rome and Athens the wealthy city-states that they were was soil erosion. Degradation of their mostly hilly cropland caused the water table to fall to depths which plant roots could not reach.]

Soil erosion reduces agricultural productivity. If crop yields per acre are the measure of productivity, it may appear that soil erosion is of no consequence. But if erosion results in a need for ever greater quantities of fertilizer in order to maintain per acre yields, then the productivity of that input actually has declined.

There are, however, other costs that are more quantifiable. Soil, when it is washed from cropland, finds its way into watercourses. To the hydrologist, such soil becomes sediment; to those charged with keeping our waterways open and our water potable, it is a very costly form of pollution.

The Mississippi River drains nearly two-thirds of the Nation. Much of the cropland within the drainage basin is level to only gently sloping and does not suffer a great deal of soil loss. However, the remainder erodes at rates of 5 to over 50 tons per acre per year.

The following chart, which I would also like included in the RECORD, demonstrates that, in a single year, the Mississippi's drainage area yields 900 million tons of eroded soil.

Accounting of soil transportation within the Mississippi River basin [1]

	Tons
Average annual area yield (900,000,000 tons annually):	
A. Soil lost to Gulf of Mexico	250,000,000
B. Sediment inflow into dams within sub-basins off Mississippi mainstem	341,828,000
C. Sediment dredged from river channel (for navigation purposes only)	70,000,000
Total (A + B + C)	666,828,000
Soil moving within basin but not necessarily in river system	233,000,000

[1] From "Characterization of the Suspended-Sediment Regime and Bed-Material Gradation of Mississippi River Basin" Potamology Program (P-1), U.S. Army Corps of Engineers, Waterways Experimental Station, Vicksburg, MS (August 1981).

As you can see, 74 percent of this soil load finds it way into the Mississippi River or its tributaries and set-backs. Indeed the Mississippi Delta is the product of over 255 million tons of that sediment moving all the way to the Gulf of Mexico where it is deposited. Eighty percent of what is dropped at the mouth of the river is silt and other fine particles that are the most valuable fractions to topsoil.

The Army Corps of Engineers reports that some 70 million tons of soil per year are dredged from the lower Mississippi mainstem alone so that it may be kept open to barge and boat traffic. The annual expense of this activity is $170 million. Nationally, $300 to $350 million is spent each year on dredging water-borne sediment from rivers.

The sediment load in the Mississippi is so great that the corps has had to build weirs along its length to interrupt the transport of soil before it moves to the lower reaches of the river. Some 341,828,000 tons of such soil per year are caught by 362 dams of greater than 75,000 acre-feet of design capacity. The cost of removing this sediment ranges from $1 to $3 per ton per year.

The above figures do not include the cost of dredging the upstream areas of the Mississippi, its tributaries and associated ports; or of cleaning up commercial fisheries, recreation areas, flood control dams; or of building structures for sediment control.

Finally, there are many communities which must remove sediment from water before they can use it for drinking and other community services. This is a critical activity because the fine particles which are removed carry the chemical elements that are hazardous to human health. The city of St. Louis spends $5 to $6 million annually to precipitate soil sediment from Mississippi River water. Virtually all of this cleanup must be done in the spring when snowmelt and rainfall start to move soil that has been destabilized by agricultural cultivation.

Those costs are avoidable. The conservation reserve that we propose will reduce soil erosion on that fast eroding portion of our cropland and thereby make unnecessary much of the recurrent annual expenditure for water cleanup activities. Overall a recent study released by the Conservation Foundation placed the cost of off-site damages of soil erosion at a staggering $6 billion annually. The conservation reserve will reduce these costs and the damage from them substantially.

Let me now turn to the sodbuster provisions of this bill. The term "sodbuster," of course, describes the practice by which farmers break out highly erodible soils that have been previously protected from erosion by their grass or forest cover. Sodbusting is primarily to blame for the fact that only 12.5 percent of our Nation's cropland today yields 50 percent of our total soil loss. The fact is that most of this land should never have been plowed up in the first place. Yet it was, largely because Federal farm program benefits encouraged farmers to cultivate this fragile land.

If we are to minimize further sodbusting and the need for this costly water cleanup and conservation programs, we must do our utmost to ensure that no more highly erodible land is brought into production. To accomplish this, we must reorient our

Federal farm programs so that they no longer encourage the annual cultivation of these fragile soils.

The sodbuster provisions of title XII of H.R. 2100 will deny to farmers who persist in breaking out highly erodible soils: Price support payments; disaster payments; Commodity Credit Corporation loans; Federal crop insurance payments; and Farmers Home Administration loans.

The sanctions apply to all crops on all holdings. Sodbuster sanctions would not apply to land cultivated between 1981 and 1985 and farmers would be exempt from these provisions if they have implemented a locally approved conservation plan.

USDA would use either the land capability classification system or the universal soil loss equation or wind erosion equation in determining land covered by the sodbuster provisions. Attached is a map showing land covered by the sodbuster legislation as determined by the land capability classification system. It amounts to a little over 32 million acres nationally. (Maps are not reproduced in the RECORD).

The "sodbuster" portion of this bill will act as a brake on more highly erodiable land coming into production in the future. This legislation will not prevent anyone from plowing up highly erodible land in the future—but will merely say that, if a farmer does decide on his own to crop this type of fragile land, the Federal Government will no longer underwrite this decision by providing farm program benefits.

In addition to the "sodbuster" section of this bill, a new provision was added in the farm bill dealing with "wetlands." More commonly referred to as the "swampbuster" provision, it would deny farmers the same benefits outlined under the "sodbuster" title if they cleared and drained wetlands and converted them to cropland. In the last 20 years, millions of acres of wetlands have been cleared and drained, ruining the habitats of wildlife and adding additional cropland acres at a time when surpluses of wheat and feed grains are hurting farm prices. The Federal Government must stop the practice of underwriting these kind of practices. The "swampbuster" provision is a step in the right direction.

For years we have struggled with soil erosion. We have spent billions of dollars stabilizing land and purifying water. Most of these actions have been either after the fact or piecemeal. This legislation offers us the first comprehensive attack on the root of the problem—highly erodible soils already being farmed and highly erodible soils and wetlands in danger of being farmed. I urge you to support this title of the farm bill as one of the most progressive and timely pieces of legislation crafted to deal with one of our Nation's most serious resource problems.

Last, let me say that I support the Glickman-Wolpe amendment to require all farmers who wish to receive farm program benefits to farm their land in a conserving fashion by 1990. We cannot continue to subsidize the erosive practices of the few who account for the lion's share of soil erosion. This amendment will complete our efforts to encourage good farming practices and to ensure that tax dollars do not subsidize poor agricultural practices.

Mr. Chairman, I yield back the balance of my time.

ORDER OF BUSINESS

(By unanimous consent, Mr. MADIGAN asked and was given permission to proceed out of order.)

Mr. MADIGAN. Mr. Chairman, if I could have the attention of the gentleman from Texas, my distinguished colleague, the chairman of the committee, I wonder if the gentleman has any suggestions at this point as to how we should proceed for the balance of the evening.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. MADIGAN. I yield to the chairman.

Mr. DE LA GARZA. I thank the gentleman for yielding.

Mr. Chairman, we have under a previous order allocated 1 hour to the title on food stamps and 1 hour to a proposed amendment by Mr. PETRI. Otherwise we have no other limitation.

Mr. Chairman, I had anticipated and hoped, as was suggested earlier, and had accepted as reasonable the suggestion by the minority whip that we might finish by 10 o'clock this evening. I think we could. We anticipate maybe 3 or 4 other amendments that might entail some debate.

If the gentleman would allow me, I would hope and ask for the cooperation of the Members that we might expedite the process by cooperating with the offerer, whoever offers an amendment, or whoever opposes the amendment, that we avail ourselves of the rules of revise and extend and so on. But I would hope that we could conclude by 10 o'clock.

Mr. MADIGAN. Mr. Chairman, would the gentleman like to make a unanimous consent request that we conclude debate on all titles of the bill by 10 o'clock?

Mr. DE LA GARZA. It had been suggested by the parliamentarian that there may be a technical problem.

But let me make an attempt.

Mr. Chairman, I would ask unanimous consent, excluding the 2 hours already mandated, that the balance of the bill, since it is now open for amendment at any point, be limited to 1 hour beyond the 2 hours already mandated.

□ 1930

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. MILLER of California. Reserving the right to object, Mr. Chairman, if I understand the gentleman's amendment, could he first tell us how much time or how many other amendments that would apply to?

Mr. DE LA GARZA. Mr. Chairman, we do not know, because we do not know how many amendments are in the record that might not be offered. But we anticipate just a very few.

Mr. MILLER of California. Mr. Chairman, I would just say that I know the committee does not want to stay late, but some of us have been now waiting for days and weeks to offer amendments that we happen to think are important. Some people may not agree with that. But we come at the end, and now we find that our time is going to be split up into one hour. If you are not first in line in that case, and in my case I come at the very end of the bill, I can conceivably be given 30 seconds or 1 minute, or whatever, to deal with my amendment. That just does not seem to be an equitable arrangement. I would have preferred to have been out of here in time for the 8 o'clock flight, but the leadership did not see it that way.

Mr. DE LA GARZA. If the gentleman will yeild, the gentleman has an amendment with which we have a problem with jurisdiction. There may be a point of order raised. But should the gentleman's amendment be ruled in order by the parliamentarian, I would have no objection. I do not know if the gentleman would require more than 15 minutes.

Mr. MILLER of California. I just do not want to preclude myself. I do not know how extensive the debate will be. I know that it is late, and I appreciate that. But I just do not want to be cut off at the pass with little or no debate. It is a controversial amendment. It may be ruled out of order. I do not know if that will happen yet or not. I would just prefer not to be included in that situation.

Mr. MADIGAN. If the gentleman will allow me to reclaim my time, I will ask the gentleman from California if his amendment is printed in the RECORD.

Mr. MILLER of California. Yes it is.

Mr. MADIGAN. Then the gentleman is entitled under a previous rule to 5 minutes. Is that adequate? Regardless of the time limitation, the gentleman is entitled to 5 minutes.

Mr. MILLER of California. I understand that. I was hoping that we might have some discussion on that amendment. I know there are others who wish to speak on that amendment.

I dare say, in all due respect, many of us have been very cooperative on the bill. We would like to have an opportunity to offer those amendments.

Mr. MADIGAN. I think we are probably wasting our time at the moment.

The CHAIRMAN pro tempore. The Chair would observe that the gentleman from California, or any others, could ask unanimous consent to be given more than 5 minutes at the time

his amendment is offered, even if the time limitation has expired.

Mr. MILLER of California. I am aware of that. I have stepped in front of that train many an evening, Mr. Chairman.

Reluctantly, Mr. Chairman, I will object to the unanimous consent request.

I hope we can do this in an expeditious fashion. I have no intent to delay the Members of the House.

The CHAIRMAN pro tempore. Objection is heard.

Are there other amendments to title XII?

Mr. MARLENEE. Mr. Chairman, I move to strike the last word so that I might engage in a colloquy with the chairman of the Subcommittee on Conservation and Credit.

The CHAIRMAN pro tempore. Without objection, the gentleman from Montana [Mr. MARLENEE] is recognized for 5 minutes.

There was no objection.

Mr. MARLENEE. I would say to my chairman of the Subcommittee on Conservation and Credit that I have a great concern about the ability of those who want to participate in the conservation reserve being able to participate because of certain requirements of a conservation plan.

We have discussed this, and I wonder if we could revise and extend our remarks and have something adequate put into the language at this time.

Mr. Chairman, I am concerned with the provision of the conservation reserve section of H.R. 2100 that makes land enrolled by the conservation reserve subject to the sodbuster provision of the bill at the time that the conservation reserve contract expires. I am afraid that producers will sign up for the reserve, then find out that they are covered by the sodbuster provision. In some cases, this could seriously affect the value of the producers' equity in the land.
